MOSCOW, Oct. 13. - The Soviet Government today announced that a detachment of Japanese and Man-chukuoan troops had invaded Russian territory and had engaged in a skirmish with Soviet soldiers in which men on both sides had been killed.

The Soviet Ambassador at Tokyo has been ordered to deliver a "resolute protest" to the Japanese Government concerning this latest and most serious in a succession of border incidents which have gravely strained Russo-Japanese relations, it was disclosed.

The official statement given out by the Soviets said that Japanese-Manchukuoan troops had crossed onto Russian soil near Grodekovo on the Manchurian frontier three times-October 6, 8 and 12.

A committee representing dairy farmers from northern Illinois and southern Wisconsin who are withholding their milk from the Chicago market laid their grievances and problems before Dr. Herman Bundesen, president of the Board of Health. The committee members said they would suspend their strike for one or two months if the milk dealers guaranteed them \$1.75 a hundredweight for their product and all strikers reinstated on their previous markets. They reiterated that their original demand of \$2.50 would remain unchanged. However, the Associated Milk Dealers, Inc., representing over a hundred Chicago dairies, declined to enter negotiations until the dairy producers designated which selling agency they preferred.

of my 'outside activity' interfering | A case, one of blacklisting brought the Mayor stating that relief work ers active in organization activity were discriminated against.

Ridder and the other members o the committee openly said that workers in the relief administration in the New York Public Library had been fired for organizational activities. We quote from the re-port of Mayor's LaGuardia's Commore than eight months ago because of her activities as an organizer for the Associated Office and Professional Emergency Emmittee on Unemployment Relief:

"Employees have been dis missed and transfers have been missed and transfers have been made from one precinct or pro-ject to another in order to weaken organizational activity. Active union organizers have been sub-jected to special surveillance. This practice has been carried on to such an extent that in some districts legitimate organizational activity has been drastically cur-tailed and access stormed by the tailed and even stopped by the action of the Bureau." (P. 49.)

This is what Mr. Ridder reported in January 1935 in a documen signed not only by himself but also by George Z. Medalie, the commit tee's chairman; Joseph Atkins Chas. L. Bernheimer; Paul Blan shard: John A. Hartwell; George Meany and Justine Wise Tulin then appointed as a Domestic Relations Court judge).

Condemns Spying Not only did Mr. Ridder report the existence of spying ("special surveillance") and intimidation through firing but he even condemned these actions on the part of the E.R.B. Said Ridder and his colleagues in the above-mentioned

report: "In view of the pronouncements by the Federal, State and City Governments recognizing the right of individuals to organize, the Emergency Relief Bureau should no longer be a party to such antiorganizational activities." (P. 50) But General Johnson apparently bothered to read the advice never of Ridder, Medalie, Tulin, et al. Or if he did, he heeded not. Instead, he promptly went to work to spend public funds, taxpayers' money (Hearst papers, please copy) to build a spying apparatus and en-

THE anniversary of John Reed comes around again this month. It will be celebrated in the Soviet Union and in America and in other lands. John Reed, this young American reporter who died of typhus in the Russian Revolution, has become an international legend.

In the Soviet Union he occupies the position. held by Lafayette in the history of the American rvolution, a gallant, great-hearted volunteer from another land, who brought his youth and his talents to the cause of freedom.

Believe it or not, cheap little Willie Hearsts of America, they like Americans in the Soviet Union, despite the tribe of willie-hearsts who foul the name of America.

America and Russia are both big continents with vast spaces and a pioneering tradition. Our west has bred the same kind of powerful, easygoing giant with the instinct of self-help and democracy in his very bones that one finds by the million in the new Russia. Meet one of these Americans in the Soviet Union, and if he is wearing a Russian outfit, as everyone does in winter. at least, and you cannot tell him from the Russians.

John Reed was of this type, a true son of his father, who was a brave and honest United States Marshal in Oregon who went down fighting against the big corporations.

The Russians liked John Reed, not only because he was a revolutionist, and a great writer, but because he was this kind of American; adventurous, open-handed, democratic, with the air of the pioneer of great continents.

They could understand him, and he could understand them, better than either land understands Europe. Lenin, terribly busy at the helm of the greatest upheaval in history, found time to see John Reed often, and to like him immensely, with the affection of an older brother.

This was told to me by Krupskaya, Lenin's widow, when I interviewed her in Moscow in 1930. .

The Breed is the Same

THE dirty little willies of our land do not scorn any weapon with which to defame the Soviet Union; but the manure, of course, of slander.

lies, and innuendo, is their favorite ammunition at present Thus about a year ago the Hearst press pre-

sented the dirty fairy-stories, typical enough, of a so-called "Socialist" who had returned from the Soviet Union, bitterly "disillusioned" with it all, and glad to be back safe in the kindly arms of Hearst and Morgan.

I forget this particular one's name; does it matter, call him Fred Beal, or Isaac Don Levine, or W. H. Chamberlain, or Eugene Lyons, or what you will, even rat; the breed is all allke, except for differences in refinement and grammar.

Well, this one had a great scoop to reveal. It seems that he had talked to many people in Russia who knew John Reed. And they told him the rat, that John Reed also was bitterly "disillusioned" with the Soviet revolution, just before he died.

If he had lived, reported the rat eagerly, John Reed would have returned to America and exposed the "tyrants." John Reed, in short, was not John Reed at all, but Isaac Don Levine, a Hearst at heart.

Is it necessary to answer such cheap lies? They pile up faster than one can answer them; yet just for the record, I would like to point out that John Reed contracted the typhus from which he

Questions and. Answers

This department appears daily on the feature page. All questions should be addressed to "Questions and Answers," c-o Daily Worker, 50 East 13th Street, New York City.

Chiropractic and the Medical Board Question: .Why does the Daily Worker permit its Medical Advisory Board to attack the science of chiropractic and chiropractors? It offends many people who do not like to see their beloved science maligned?-CHIROPRACTOR'S FRIEND.

Answer: The Medical Advisory Board of the Daily Worker and its official publication, Health and Hygiene, have as one of their major aims the exposure of all frauds and pseudo-sciences in the fields of health and medicine. They have exposed not only the untrue claims of chiropractic, but the various phony forms of nature healing, hex doctors, fake patent medicines, and other practices which in no case do sick people any good and in very many cases inflict great harm.

Not only does the Medical Advisory Board expose these dangerous fads and frauds, but it severely attacks cases of worthless and fraudulent practice within the medical profession itself.

Disease can only be treated by scientific methods. It is true that medicine is not perfect. But enough scientific knowledge exists today which under proper social conditions would allow the successful treatment and prevention of most of the important ills of mankind.

The Daily Worker stands for a scientific attitude in every field. Its own world view, Marxism-Leninism, is based on scientific theory and knowledge. Without science there could be no correct revolutionary theory and practice. What distinguishes Communism from the Utopians is that it offers a scientific analysis of the world which leads to its revolutionary transformation.

Without science medicine would be reduced to voodooism and witchcraft. There is no scientific basis to chiropractic. No chiropractor has ever been able to show that he can prove the extravagant claims of the cult. This does not mean that every chiropractor is a charlatan. Many chiropractors are undoubtedly sincere, but unfortunately you cannot cure people with personal sincerity. Unles proper medical treatment is given to a patient he will not be cured of his ailments.

It is well-known that much harm is caused by chiropractic treatment. The Medical Advisory Board cites as just one example the case of victims of tumors, where the delay in proper treatment, due to reliance on chiropractors, is very harmful

Medical diagnosis and treatment are very expensive under capitalism. But this is a fault of capitalism and not of medicine. The Daily Worker supports the fight of the Medical Advisory Board against all things that are harmful to the health of people, and its fight against any quack remedies for disease. It is for the proper utilization of medical science, for the removal of the fetters that capitalism has clamped down upon melline. The Daily Worker urges all its readers to support the fine work of the Medical Advisory Board and to read its excellent publication, Health and Hygiene. Both expose everything that is against the health of the masses, and work very hard for their wellbeing

lied on a trip to Baku

There he had addressed a congress of oriental peoples, the first of its kind, and had made an eloquent speech exhorting them to cast off the chains of colonial oppression.

I talked to an old comrade who had come back on the train with Reed from Baku. At one point the train was attacked by white guard bandits.

A squad of red army men on the train unlimbered machine guns and put them on carts and set off toward the nearby hills to dislodge the bandits.

Jack Reed, who could never stay out of a fight, insisted on going along, and the red army boys took him. He was full of high spirits and enthuslasm, and laughed as he rode off. Does this seem like the picture of a "disillusioned Socialist" and bootlicker of fascist Hearst?

Worthy of His Legend

OHN REED is a legend. But he was also a human being who made mistakes, chiefly as a result of his background, perhaps, in American bourgeois life. There are darn few saints in this world. and fewer perfect revolutionists. We are all products of a historic period, and like all human beings, a mass of contradictions.

But the fundamentals of character count in the long run. When all is said, John Reed is worthy of his legend. Granville Hicks is writing his biography, and I am sure it will reveal the contradictions, and also the splendid, heroic, gifted youth, the daredevil American pioneer who wrote like an Oregon angel, and never could resist an adventure, and always had his heart in the right place, on the side of the working class.

Re-read the one sure clarric this youth who died at 33 left to his revolutionary posterity. "Ten Days That Shook the World." It is a first-hand picture of the Russian Revolution, written in the very trenches. Twenty years later it remains politically sound, and shows not only the great, romantic spirit of this poet turned revolutionist, but also the sound, shrewd intellectual core that made John Reed so different from a Richard Harding Davis and empty Floyd Gibbons.

Ten Strike Leaders Facing Death The Life Story of Serapio Sosa, Gallup Defendant

We present below the fourth in a series of biographies of the ten Gallup, New Mexico, miners now on trial for their lives on framed murder charges.

Dispatches from Aztec, N. M., where the trial is being held, tell of one man being arrested and held in \$5.000 bond on a charge of contempt of court for distribut. ing leaflets to counteract the vicious prosecution propaganda in the local press, and warrants being out for 12 others on the same charge.

The National Gallup Defense Committee, composed of twenty-two persons, of whom 18 are elected representatives of tradeunion bodies, is conducting the defense of the Gallup miners.

The committee has called on all trade-union bodies to elect representatives to work with it, and to contribute funds to help onduct the defense-faced with all the resources of the state of New Mexico and of the Gallup American Coal Company. Be-hind the Gallup American Coal Company in this union-busting frame-up loom the grim figures of the Kennecott Copper Company, its parent, and the J. P. Morgan Company, which controls Kennecott through an interlocking directorate.

.

Funds for Gallup defense, and all corespondence regarding the committee, should be addressed to Frank Palmer, secretary-treasurer, National Gallup Defense Committee, 41 East 20th Street, New York . . .

Japan Acts to Fan African Flame Into World Conflagration

LATEST PROVOCATIONS ON SOVIET BORDER MAKE IMPERATIVE MORE ENERGETIC ACTION AGAINST ITALIAN FASCISM AND THE MILITARISTS BY ALL FRIENDS OF PEACE

ON OCT. 6, 8 and 12 Japanese and Manchukuoan troops crossed the Soviet border and fired on Soviet guards.

About two weeks ago Japanese warships steamed up the Amur River in Soviet territory toward Khabarovsk

These are the border "incidents" that hold the dynamite of a new world explosion. It will take only a spark from the flames of Mussolini's war against Ethiopia to light the fuse of world catastrophe-and the Japanese imperialists are eagerly reaching for that spark.

They make no secret of it. On the day after the first of this latest series of Japanese provocations on the Soviet border, Drew Pearson and Robert S. Allen. in a syndicated column of Washington news, quoted

An Appeal to Socialists

AS the National Executive Committee of the Socialist Party meets in Chicago. undoubtedly many Socialists throughout the country are hoping it will accept the proposal of the Central Committee of the Communist Party for immediate united action against Mussolini's invasion of Ethiopia and against the threat of a new world imperialist war.

The letter of the Central Committee, published in Saturday's Daily Worker, emphasized the danger that Nazi Germany and imperialist Japan will seek to take advantage of Mussolini's war to engulf mankind in a new world bloodbath. It pointed to the fact that the Socialist N.E.C. has already issued a manifesto calling for the cooperation of all organizations sincerely fighting for peace and that the fascist war against Ethiopia has been officially condemned by the American Federation of Labor.

The desire for unity of action against this criminal war is growing in the ranks of the Socialist Party and among the toiling masses as a whole. In New York this has already found expression in the united front that has been formed among Italian groups of various political tendencies, including Socialists and Communists.

In this grave hour we hope the N.E.C. will let no obstacles stand in the way of strengthening all efforts to end Mussolini's adventure and prevent the catastrophe that threatens.

decent relief, for the maintenance of the union scale, for unemployment insurance. The General, despite the words directed against them, invariably surrenders gracefully to the Tories-and thus aids them in carrying through their fundamental anti-social policies.

Hearst Defends Mussolini

TRUST a fascist to whitewash a fellowfascist

Yesterday William Randolph Hearst published a statement that he wrote for an Australian magazine on the Italo-Ethiopian war. For about five-sixths of the way the article seems to be ridiculing Mussolini's claims in Africa and the maneuvers of British imperialism.

But it's only friendly kidding-as one fascist to another. Hearst concludes by giving his approval to Mussolini's "civilizing" adventure and to imperialist banditry throughout the world. He writes:

"I personally do not think that the nations of the Old World can be blamed for expanding. They may have selfish motives. Most of us are motivated by intelligent self-interest. But they are carrying the light of civilization into the dark places of the earth. It was thus that America was rescued from savagery.

And getting down to brass tacks:

"Why should not the vigorous nations of Europe reclaim the waste places of Africa, and dedicate them to civilized development?

In fact, says Hearst, "that seems to be the divine decree."

Hearst-und Gott! Bombs dropping on Ethiopian villages, on villages in India, in Nicaragua-"civi-

lized development" and "divine decree"! One must admit that the man who fomented the war against Spain in 1898, the invasion of Mexico in 1916 and now incites war against the Soviet Union (more "civilized" expansion?) practices what he preaches.

An Eloquent Gesture

WE congratulate Amelia Earhart. W Mussolini has taken back the medal presented to her in May by the Italian Consul General in Chicago for high achievement in aviation. It seems it was all a mistake. "Mussolini believes that the only place for a woman is in the maternity ward," Miss Earhart's husband, George Palmer Putnam, stated. So does Hitler. His famous three "k's" (children, kitchen, church) have become the symbol of the new slavery for women in Nazi Germany, a slavery that is now to be expanded by the establishment of forced labor camps for young girls.

Col. Kenji Matsumoto, Japanese military attache in Washington, as follows: "Manchukuo is a very nice country, but it has no

gold. The maritime provinces (Eastern Siberia) have gold. They also have fish, timber, many things Japan needs. When we get ready we shall take them. This will be the first result of the Italian-Ethiopian war." "When we get ready....

And from Europe comes the echo of Japan's ally, Nazi Germany:

"When we get ready. . . .

Hitler IS getting ready.

The alliances with fascist Poland and Finland, the "hunting trips" of Premier Goemboes of Hungary with General Goering (these fascist bandits are out after bigger game than mere animals), the threats against Memel and the ominous "neutrality" of the Nazi press in the Italo-Ethiopian war spell DANGER, immediate danger for the independence of Lithuania, Czechoslovakia and other small countries, and, above all, for the great Land of Socialism and Peace, the Soviet Union. "Peace is indivisible," the Soviet representatives

have declared over and over again at Geneva.

The Japanese provocations prove it. The activities of the Nazis prove it.

War in Europe means a war in which the United States will inevitably be drawn. That is why all friends of peace, if their efforts are to be effective, must have one central aim: to end Mussolini's criminal invasion and thereby snatch a torch from the hands of the Nazi and Japanese incendiaries.

The imperialist powers who dominate the League of Nations and serve only their own selfish imperialist ends cannot be relied on collectively to impose effective economic sanctions against Italian fascism. Only the pressure and activities of the toiling masses of the world can do this.

Workers, farmers, all friends of peace: demand the calling of a special session of Congress to lift the arms embargo against Ethiopia and to extend the embargo against Italy to include all trade, all loans and credits.

Seamen, longshoremen, railway workers: Follow the 'example of the Seattle Marine Firemen's, Oilers' and Watertenders' Union. Stop all shipment of goods to and from Italy!

Socialists, Communists, trade unionists: Build the invincible people's front against Mussolini's war, for the defense of peace!

Not a single ship, not a single train to or from fascist Italy!

BY HARRY GANNES A Premature "Pu-Yi" **Confession of Weakness Heavy Going for Fascists**

World Front

TAPANESE imperialism has set the style for the Ethiopian war. But everything is not going according to schedule. The Italian Fascists are bringing their "Henry Pu Yi" into the situation a little early in the game. It will be remembered that after the Japanese seized most of Manchuria, they kidnaped Henry Pu Yi, son of the last Em-press of China, who had been all but forgotten what with his Amer-ican instructor and his Chinese sing-song girl. The frail youth was hustled to the capital of the newlyproclaimed Manchukuo. He was given a tinseled crown, a formidable Japanese cabinet and "guard" and proclaimed for all history as Emperor Kang Teh. But then the Japanese had all of Manchuria, with its 30,000.000 inhabitants and its territories about the size of Ethiopia, under their quivering bayonets.

But look what Mussolini has done He captured his Henry Pu Yi in the person of—it is not clear yet whether the victim is a Degiac (general) or a Dejazmatch (a major or colonel) — Haile Selassie Gugsa There is some such person who was a local chieftain, a feudal lord, in a section of the province of Tigre. He was captured in battle with several hundred of his followers. Mussolini's local military talent in Eritrea evidently convinced the prisoner that it was better to play a passive part in the Fascist East African scheme than to let his head be posted on a spear point.

The Fascist press calls this proof of "wholesale defection in the Ethi opian forces!" How weak indeed must be the Fascist military-econ-omic-political position if they have to go to such buffoonery!

NSECURELY holding a slice of territory in Ethiopia about the size of Monte Carlo or the Grand Canyon of Colorado, Mussolini decides to launch a new Manchukuo. So far as Ethiopian solidarity and its independence is concerned it has not seriously been questioned out-side of the Fascist propaganda department in Rome. Mussolini him-self was convinced that the desire of the Ethiopian people for their independence required the greatest concentration of imperialist forces since the close of the last world slaughter. Every report from Ethi opia in the capitalist press breathes program. We found that when this the heroism, devotion, fighting was explained the workers felt it spirit and self-sacrifice of the Ethiopian people against the threat of fascist invasion.

When he attacked the San Francisco general strike last year as the work of "subversive elements," wasn't the General playing ball with the Hearst and other Tory interests? When he attacks workers protesting wage conditions on the W.P.A. as "red agitators," isn't he helping the Tories? When he lies brazenly in his farewell address, quoting (from "God knows, where") the Communists as wishing "to stop the Roosevelt W.P.A.," is he not helping the Tories?

He knows that the Communists fought not for "stopping" the W.P.A. but for its extension and for union wages on W.P.A. He knows that we fight not to "create suffering," as he falsely said, but to alleviate it now and for all time.

Miss Earhart should consider it an honor to be deprived of this degrading emblem.

And the world should feel grateful to Mussolini for having so eloquently emphasized that fascism, not Ethiopia, stands for barbarism.

Act Now for Relief

MILLIONS of unemployed throughout the country face the first blasts of chilly Fallwinds with their food and clothing standard back to the level of three vears ago.

More than 4.000,000 men, women and children in the State of Pennsylvania who were dependent on direct relief funds for their existence are now receiving less food than they received at the beginning of the year, less clothing, less fuel.

In the Cleveland area drastic reductions have been made in direct relief on the false assumption that the W.P.A. program would absorb the needy population.

The order of Federal Relief Administrator Harry L. Hopkins to end direct relief by Nov. 1 has reduced living standards of the jobless in every state in the U.S.A.

Only organization and militant action on the part of the unemployed and employed can put an end to this program of mad hunger.

Demand that direct relief shall not be stopped.

Demand adequate food, clothes and fuel to tide the unemployed over the winter

Demand passage by the next Congress of the Workers Unemployment Insurance Bill (H.R. 2827.
