Dutch Schultz banked over \$800,000 to his peronal account in less than six months. The police know all this, but what did they ever do about it? Exactly nothing. Dutch never had any legal worries until the federal government tried to get him for an income tax on his huge earnings.

Here are some typical paragraphs of the dying gunman's wings:

"Talk to the Sword"

NO. Don't you scare me. My friends and I think I do a better job. Police are looking for you all over. Be instrumental in letting us know. They are Englishmen and a type I don't know who is best, they or us. Oh, sir, get the doll a roofing. You can play jacks and girls do that with a soft ball and do tricks with it. A Headache for Dutch

T is an interesting psychological document, and will undoubtedly be printed as a scoop by Transition and such-like little art magazines.

Schultz's ravings disclose the fears and plots of a gangster-he talked of hotels he was buying, and the police occur again and again; shooting, bank checks, gilt-edge rackets, million-dollar deals courtroom phraseology, and those dirty rats, his business rivals; a strange and fevered world, indeed, And here is one significant spot that occurs:

No, no. There are only ten of us and there are ten million somewhere fighting for you, so get you onions up and we will throw up the truce Oh please let me up. Please shift me. Police are here . . . Communistic . . . strike . . . baloney. . . ."

Police interpreted this line as meaning that Schultz, through one of his aides, Martin Krompier had organized racketeering unions "in which Communist elements were always a headache." (N. Y. Times, Oct. 26.)

WORLD of the THEATRE

The New Theatre School opens its Fall sessions on Nov. 4. Complete courses in acting, directing, playwriting, stage designing, and the modern dance are offered at extremely reasonable prices.

Managed by the New Theatre League at its new headquarters at 56 West Forty-fifth Street, this school has been providing the talent for the theatres that have produced such famous plays as Newsbey and such famous plays as Newsboy and Waiting For Lefty. At this school the forces that are creating a new and vital American theatre that re-flects dynamically the problems and life of mankind are being given systematic training in the various crafts and arts of the theatre and dance. Highly competent instructors have donated their services in order

to make this school possible.

WORLD of MUSIC

Sibelius By M. M.

Critics are more frequently coupling the names of Sibelius and Beethoven. Sibelius finds himself in excellent company for it is only a short step to Olympus. Last Sun-day Otto Klemperer and the Philnonic Symphony Society had occasion to play on the one program the Fifth symphony of Sibelius the Fifth of Beethoven.

It is good to believe in something critics. Discounting the sentimental reverence for Sibelius of mino critics such as our own Olin Downes we are aware that certain clever Englishmen, having to their satisfaction previously established some solemn affinities (Sibelius is "the only writer since Beethoven who has definitely advanced what, after all, is the most complete formal ex-pression of the musical spirit"), proeed to argue for a preoccupation with "form" as the only way out of the present blind alley of mus

Sibelius in his way can handle orchestra with the canniness and virtuosity of a Schoenberg pompous and boring as Daniel symphonies are supposedly great. According to Constant Lambert, an articulate English admirer of the Master, although the Fourth and the Seventh are the greatest, the Fifth is the "most obviously great." Suffice it to say that in this Fifth symphony the Finnish composer-laureand hollow climaxes, resorts to persistently profound tremolos in the strings, and ends, for no good reason, with a "heroic" Trienfe in the brass; fortissimo.

Hitler confessed publicly on Oct. 19, to a gathering of the leaders in the Nazi Motor Corps, that, Without the aid of motor cars, airplanes and loud-speakers, National Socialism could not have conquered Germany." He also stated that the failure of his opponents to realize the possibilities of the radio had cost them their political existence.

We all realize the necessity for agitation and propaganda if the working class is to win its battles. Literature, street meetings and demonstrations play an important role, but the vast masses of people still know us only through the distorted capitalist press and the still more vicious broadcasts of the fascist leaders. Nowadays the radio has superseded even the press as a means of propaganda, "Father" Coughlin attained his hold or the minds of many thousands in this country only because of the vast network of radio stations that carried his speeches into every part of America. The late "Kingfish" was just another crooked Louisiana Senator until the radio made him into a national figure.

The working class forces will lose many opportunities unless we realize the importance of radio and use it to reach that vast majority of the people who will eventually carry the working class to power. We cannot fight national hookups by means of leaflets. The proper use of modern technical developments, of which radio is the most important, can bring working class issues and de mands before a vast audience.

At present there is no official censorship of radio programs in this country, and all of the mafor broadcast stations have announced that they are, and will remain, "non-partisan" as far as political parties are concerned. We must call their bluff by asking for and demanding our share of time on the air. Radio stations judge the popularity of their programs solely by the mail they receive. It is possible for the Communist Party to get a considerable amount of free time on the air if an energetic mail barrage is laid down in advance. Anti-war and anti-fascist organizations have already made some steps in this direction and several working class programs have been on the air for short periods. Musical, theatrical and dramatic groups should be able to use this medium if they will prepare the proper material, because

Clamor for United Front Rises Above 'Old Guard' Ban

REACTIONARY GAG BARRING THOMAS FROM SOCIALIST PLATFORMS SHOULD QUICKEN THE DRIVE TO CLEAN OUT THE CAHANS AND MARCH TO WORKING CLASS UNITS

THE reactionary "Old Guard" of the Socialist Party has launched a new war against those who advocate more militant policies by a decision to bar Norman Thomas from all Socialist platforms in New York.

Thomas from all Socialist platforms in New York.

The great crime that Thomas is accused of is that he has agreed to debate with Earl Browder, general secretary of the Communist Party, in Madison Square Garden Nov. 27—that is, he has agreed to defend the Socialist position against the Communist position.

This debate has been approved by the National Executive Comittee of the Socialist Party. But the New York "Old Guard" Tories recognize no higher authority than their own reactionary policies. These advocates and "democratic" Secialism and exponents of "dictators"

of "democratic" Socialism and opponents of "dictator-

ship" thus once more set themselves against a majority decision of the party's leading body, behind whom stands a majority of the membership.

In the forefront of the war against all militant Socialists is the Jewish Daily Forward, whose editor, Abe Cahan, has come to be known as the Jewish Hearst. At the A. F. of L. convention the Forward lined up

with the extreme Tory wing of the Executive Council, with the agents of Hearst and the open-shop National Civic Federation, sniping at the advocates of industrial unionism, a Labor Party and other progresisve policies. It is only natural, therefore, that in this campaign against militants Cahan and his faithful stooges should draw their inspiration from the inexhaustible poison

founts of the Fuehrer of San Simeon.

B000-00-0!

Just as Hearst brands every progressive person a Communist and yelps for his blood, so the "Old Guard" Cahan and his underlings charge that the "Militant" group in the Socialist Party and those who, like Norman Thomas, are associated with it, are "full-fledged Communists in everything but name" (Forward, Oct. 30) and recipients of "Moscow gold."

Norman Thomas should consider it a badge of honor to be placed beyond the pale by those who have besmirched Socialism and entered into a united front with its worst enemies.

The attempt to gag the outstanding spokesman of the Socialist Party will only increase the indig-

nation of sincere Socialists against the high-handed party-splitting activities of the "Old Guard." It should quicken the realization that the only way to revitalize the Socialist Party and clean out the stench of the Hearsts and Cahans is the way of the Socialist Party of France-the establishment of the united front of action with the Communist Party.

Despite the attempt of the "Old Guard" to stifle free speech in the Socialist Party, the voice of the advocates of the united front will grow stronger.

Speed the day, Socialist comrades, when Norman Thomas will speak not from the platform of the "Old Guard," but from the platform of the fighting Socialist-Communist united front!

Green Defies A. F. of L. Convention

DRIVE to expel radicals from the A A. F. of L. has been launched in Minneapolis by Meyer Lewis, personal representative of William Green, under the personal direction of Green. It is openly announced that this expulsion campaign is the beginning of a national red-baiting

Green's "red scare" in Minneapolis is in direct violation of the decisions of the Atlantic City convention of the A. F. of L. The proposal of the Executive Council to the convention to expel militants and to revoke charters of unions controlled by militants caused such a storm of opposition that the Executive Council's proposal died in the Resolutions Committee.

Instead a face saving substitute was passed by the convention. This amendment, as passed by the convention, SAYS NOTHING ABOUT EXPULSION OF RADICALS FROM THE UNIONS. The convention merely declares that no radical, "Shall be allowed recognition or representation on any Central body or State Federation of labor."

The amendment as passed, is in violation of the traditional position of the A. F. of L. which allows full freedom of political belief. The membership opposes the amendment as it was passed because it is a blow against democracy in the unions.

Green, in launching an expulsion campaign, is far exceeding his authority. The convention specifically vetoed such an expulsion drive on the part of Green and the Executive Council.

There is no doubt that the expulsion campaign illegally launched by Green is aimed not alone at Communists, but is directed against all progressives who favor industrial unions, the Labor Party and other progressive measures.

A storm of protest from A. F. of L. organizations should nip Green's new redbaiting campaign in the bud.

The Paterson Strike

FIGHT THOUSAND Paterson broad silk workers are fighting on the picket lines for union conditions. The silk employers are trying to reduce wages and establish open shop conditions in Paterson.

To maintain union conditions and union recognition in Paterson is of national importance to the labor movement. The employers, in trying to scrap the union agreement and union standards, make the excuse that the Paterson silk workers joined in the 1934 general textile strike.

Are the Paterson workers to be penalized because they showed such splendid solidarity in the great textile strike last

The labor movement of the whole country should support the fight of the United Textile Workers to maintain union conditions in Paterson.

Steel Workers on the Move

THE unanimous decision of twenty-eight company union representatives in the Carnagie-Illinois Steel plants to determine what organization the steel workers need is of great significance. The company union representatives definitely decided that the company union, dominated by the U. S. Steel Corporation, is not the organization which will win their demands. The men in the departments are solidly behind their representatives. The company union representatives have demanded wage increases and other demands, which have been rejected by the corporation.

The steel workers, who were forced into the company union by the U. S. Steel Corporation, are on the right track. They have utilized the company unions to the utmost to press forward their demands.

What is the next step? Certainly an independent union would not be strong enough to buck the U.S. Steel Co.

The hope of the steel workers now lies in flocking into the Amalgamated Association of Iron, Steel and Tin Workers, and in building this A. F. of L. union into one of the strongest industrial unions in the country.

If the Amalgamated Association is built up by an influx of thousands of members, the steel workers will have the power to control their own union and will go forward in a militant fight for their demands. No super-annuated reactionary like Mike Tighe could then prevent a fight for better conditions by a mass Amalgamated Association, an industrial union controlled by the members themselves.

Helping Elect Socialists

IN BRIDGEPORT, Conn., Philadelphia and Worcester, Mass., the Communist Party has withdrawn its candidates in the election and is urging its members and supporters to vote for the Socialist candidates.

In the Second Congressional District in Queens the Communist Party has nominated no candidate for Congress, but, instead, is backing Samuel DeWitt, running on the Socialist ticket.

These developments show how strong is the desire of the Communist Party for unity of action of the masses against the forces of reaction.

In all these cases the Communist Party has pointed out that it has criticisms to make of the Socialist platform and activities. This is particularly true in Bridgeport, where "Old Guard" Socialist administration has time and again acted against the interests of the people.

Yet, despite this, the Communist Party in these cities has withdrawn its own candidates to help prevent the election of Republican and Democratic candidates, and to further the united front and the building of a militant Farmer-Labor Party.

This step should prove to those honest Socialists who may still be skeptical as to how sincere and fervent is our desire to unite the forces of labor in face of the threat of fascism and imperialist war. Let these efforts of Communists and Socialists to elect a single slate be the beginning of a real united front of our two parties that will challenge the financial magnates not only on election day, but every day of the

The Roosevelt-Hull Statements

THE latest statements of President Roosevelt and Secretary Hull bring added weight to the movement for economic sanctions against Italian fascism.

Though the Roosevelt-Hull statements formally apply to both Italy and Ethiopia, in practice only Italy is hit—and there is every reason to believe that this was the intention.

As in their earlier pronouncements. Roosevelt and Hull are here expressing the dominant policy of the American capitalist class, which, while feverishly preparing for war, does not want the status quo upset at this time. The American capitalists also fear, too, that the Japanese military clique will use the occasion of Mussolini's war to gobble up another chunk of China and directly threaten American imperialist interests on the Pacific.

Undoubtedly, the strong sentiment for peace among the people of this country and the widespread condemnation of Mussolini's invasion is also a factor that the government is compelled to reckon with.

The Roosevelt-Hull statements, however, may reduce, but will not stop trade with Italy. There is only one force which can do that. The labor movement must act, as workers in Seattle, San Francisco and Philadelphia already have acted, to put an end to all transactions with the bandit government of Mussolini.

Longshoremen, seamen, railwaymen; labor sanctions can end this criminal war. Stop all shipments to and from Italy and its possessions!

Recruiting in Mich. Section Fruitful Results A Harmful Attitude

IN REGARD to the recruiting in our Section, we are marching ahead.

We all know the decision of the Central Committee that every member should recruit a new member; but our Org. Dept. sure like the idea of the District Org. Dept. giving us a quota of 40 members to recruit by Nov. 7, which gave us an aim to work for. And here is what we've done.

We immediately called a functionaries' meeting in our section; discussed the susception with all units.

cussed the question with all unit organizers and bureau members; discussed the problem of how to draw the contacts of our units into the Party.
Unit 2 of Section 1 recruited five

members through the struggles around the welfare department. For instance, there was one Negro fam-ily that was cut off from the welfare department, and they wanted to send them back to the South. On that question, Unit 2 put up a good struggle around the welfare and succeeded in getting them to let her stay here, and while fighting this case she received emergency relief until he was put back on the payroll. Her boy joined the Y. C. L, and two other women joined the

Two shop units also got busy with their contacts and recruited three shop workers into the Party. The rest of the units were also very busy recruiting members through con-

THOROUGH check-up was made A every week at the unit organ-izers meeting as to what developed with the contacts that had been reported the previous week. For instance: Unit 8 did not know that when you make a promise you are expected to fulfill it. But when at the following meeting they were asked about the promises they had made they seemed to think that it was only a game of promises and not a question of carring them out. After it was explained to these comrades that every promise is checked up the week after, they hurried out and brought in three they had been lax in acting.

At one organizers' meeting we decided that whichever unit will bring in three recruits to the next meeting will win a book from the Section Org. Department. What happened? We got 10 recruits into the Section. Unit 8 brought in three recruits and got the book. Units 2 and 9 brought in two recruits and were very disappointed because they couldn't reach their third contact. Other units brought in one and two recruits. On Sunday morning Units 2 and 9 rushed into my house and brought me their third recruit in order to get their books also. On this basis we are stimulat-

ing our work in the section.

I overheard a remark of one of the Org. Sec'ys at a meeting. "How does she recruit so many members?" Here is where the shortcomings of cause a feeling of resentment the other units lie. They think, "how against the farm helpers. It is sigdoes she recruit the members"? whereas we think, "How should the Org. Dept. make all the unit members go out and recruit mem And that is why we already have 33 members, and by November 7 we shall have the 40 members which the Org. Dept. of the District decided embers which the

The Italian (older) comrades have told the young fellows that they would rent to them the third floor but only on the condition that they must attend the Communist meetings that are held in the building. Without question it will be possible to bring them into united fronts against war. And the Party members in charge of the building refuse to rent to them the third floor unless they attend Communist meetings. Not only is this stupid, but it is very harmful. We can't expect to forcibly make Communists out of them. This must be corrected immediately. The fellows must be allowed to have the third floor and organize their own club. The Italian (older) comrades have

The C.I. Congress on Establishment Of Unity in Trade Union Movement

"Emphasizing the special importance of forming a united front in the sphere of the economic struggle of the workers and the establishment of the unity of the trade union movement as a most important step in consolidating the united front of the proletariat, the Congress makes it a duty of the Communists to adopt all practical measures for the realization of the unity of the trade unions by industries and on a national scale.

"The Communists are decidedly for the re-establishment of trade union unity in each country and on an international scale; for united class trade unions as one of the major bulwarks of the working class against the offensive of capital and fascism; for one trade union in each industry; for one federation of trade unions in each country; for one international federation of trade unions organized according to industries; for one international of trade unions based on the class struggle." Differences in II. International Cachin Interprets Reply Decision Lacking

MILLIONS of workers, not only those who are Socialists and Communists, are intimately concerned with the recent turn of events in the Labor and Socialist (Second) International. After years of bitter hostility to the united front. a majority of its Executive Committee, meeting on Oct. 12 in Brussels, finally adopted a more sympathetic attitude, only to find themselves blocked by the intransigent leadership of a minority of the member parties-the Socialist Parties of Great Britain, Sweden, Denmark, Holland and Czechoslovakia.

There were representatives of fifteen sections present at the Brussels meeting. Only five openly opposed the united front. Their pressure was sufficient to bar the way to effective working class unity. The remaining parties, some of whom openly supported the Communist appeal for united front were afraid to dare the wrath of the Old Guard leaderships of the five parties. The text of the decision has already been published in the Daily Worker. Still, a number of friendly ges-tures were made. Friedrich Adler, secretary of the L.S.I. immediately sent the decisions of his Executive Committee to Marcel Cachin, previously named by the Communist International as its representative together with the following note:

The decisions adopted by the joint conference of the Labor and Socialist International and the International Federation of Trade on our action against war have been sent to the Executive Committee of the Communist International In Moscow, together with a copy of this letter. Our President (Louis De Brouckere) and Secretary will be in Paris on Oct. 18, and will take that opportunity to enter into communication with you. With Social-ist greetings. For the Secretariat of

Marcel Cachin responded to Adler's letter in the columns of l'Humanite, organ of the French Communist Party. He emphasized tha only five of the fifteen sections of the L.S.I. present at the Brussels meeting had definitely oppos swering Dimitroff's appeal with a

"Does this mean that the representatives of the other ten sections would accept Dimitroff's proposals? We might suppose that this were so inasmuch as Adler, in spite of the discretion enforced upon him by virtue of his position, has declared obliged, despite the position of the great majority of the sections of the Second International to take into tional section [i.e., the five opposed].

We therefore are of the opinion that the decision of the Executive Committee of the L.S.I. on Oct. 12, 1935, represents a certain advance on the path of cooperation of the two Internationals as compared the decision of November 17, 1934. which merely permitted the national sections of the L.S.I. to take

"We shall not relax our efforts to path of cooperation, which is indispensable for international unity of action against war and fascism, and against fascism which is bound to cause war. Hence we gladly cept the proposal of Priedrich Adler for an immediate meeting in Paris, "Pacing the critical conditions of hopeful that our perseverance will be crowned with success to the

"Every delay in the formation of "Every delay in the formation of united action against the war in Ethiopia is advantageous to Mussolini and to international fascism. We have not forgotten that the most effective action yet achieved against war is the actions which international working class unity has already been able to accomplish."

Another Communist appraisal of the situation in the L.S.I. was given by Comrade Schwerma in the Rude Pravo, Czechoslovakian Communist

"We welcome the fact," writes Comrade Schwerma, "that there are men among the leaders of the L.S.I. men among the leaders of the L.S.I. who have grasped the historical importance of the proposal of the Communist International, but we regret that they lacked sufficient decision to break down the resistance of the reactionary Social Democratic leaders. It is precisely on this point that the meeting of the L.S.I. teaches the international working class an important leason.
