# United States Will Work for Peace, Says F.D.R.; Britain, France Declare War; Poles Enter Prussia; Communists Urge Keeping America at Peace

### Churchill, Eden In New Cabinet

LONDON, Sept. 3 (UP) .- Great Britain and France went to war against Nazi Germany today.

Hitler responded with significant silence to a British ultimatum that he answer, by 11 A.M., a demand that his troops withdraw from Polish soil.

The French ultimatum, giving him until 5 P.M., was treated similarly.

Then both nations were at war, France six hours

It was not until hours after the time limit had expired that Hitler made his reply. It was the anticipated

In an address, King George VI told the British people today that it was fighting against "the primitive principle that might makes right."

Prime Minister Neville Chamberlain set up a ninemember "War Cabinet" tonight. Winston Churchill, First Lord of the Admiralty at the outbreak of the previous war, took over the same post.

Maj. Anthony Eden, former Foreign Secretary and like Churchill a dissident Conservative, was named Secretary of Dominions, succeeding Sir Thomas Inskip. Alfred Duff-Cooper, First Lord of the Admiralty who resigned in protest against the Munich Pact, was not included in the Cabinet.

Lord Hankey, Director of the British Intelligence Service, became Minister without Portfolio.

The Communist member of Commons. William Gallacher, arose and said he stood for the speedy defeat of Nazi Germany.

Sir Samuel Hoare, Home Secretary, became Lord Privy Seal, replacing Sir John Anderson, who is expected to concentrate on home defense.

The new Cabinet retained in their previous posts Leslie Hore-Belisha, War Minister; Air Minister Sir Kingsley Wood, Sir John Simon, Chancellor of the Exchequer, Foreign Secretary Halifax, and Admiral Lord Chatfield, Minister of Defense Coordination.

### STRICT TRADE REGULATIONS

The government tonight assumed control of the iron and steel industry. Licenses are necessary henceforth to acquire iron and steel goods and certain raw materials.

The Board of Trade announced a commodity insurance scheme effective immediately. Sellers of commodities whose stocks exceed 1,000 pounds are required to insure them at a premium of one half per cent a month. Initial policies are for three months. Ships under construction are insured at the same rate with initial policies for one month.

The British nation had been advised of war status (Continued from Page 2)

### BULLETINS

War was only a half hour old yesterday when 18,000 New York police were hurriedly rushed into special war duty, under precautionary measures adopted last Tuesday by Mayor LaGuardia and Police Commissioner Valentine.

Squads of police were assigned to guard consulates of the warring nations, while others were sent to watch power houses, pumping stations and steamship line piers.

All leaves were automatically canceled when the special police mobilization order was issued.

LONDON, Sept. 3 (UP) .- New Zealand has declared war on Nazi Germany, it was announced officially tonight. New Zealand followed the lead of her neighboring

Dominion, Australia. Prime Minister Michael J. Savage, Laborite, of New Zealand, telegraphed the British government that a "state of war has been proclaimed between New Zealand and Germany."

CANBERRA, Sept. 3 (UP) .- The government of Australia proclaimed a state of war with Germany at 11 P.M. (Eastern Australian Time) today.

"It is my melancholy duty to inform you," Prime Minister R. G. Menzies said in a radiocast to the nation, "that in consequence of Germany's persistence in her invasion of Poland, Britain has declared war and so Australia also

WASHINGTON, Sept. 3 (UP) .- Col. Vladimir S. Hurban, still functioning here as Minister of the Czechoslovakian Government, said Czechoslovak army units will be formed in France and England to help those two nations fight Nazi Germany.

Report Bremen Captured by British Navy

PARIS, Sept. 3 (UP).-High French quarters reported tonight that British warships had captured the huge Nazi liner Bremen and presumably were taking it into a British port. The Bremen was said to have been captured at 4 P.M., less than five hours after Britain entered the war against Nazi Germany. The German liner, detained in New York harbor for search until last Thursday night, was hurrying to make a German port before Britain and France entered the war.

LONDON, Sept. 3 (UP).—The Admiralty announced tonight that the British Navy has started a blockade of Germany, presumably blocking the entrance to the Baltic at Skagerrak. "Obviously the blockade began immediately on the outbreak of war," the spokesman of the Admiralty press section said. The British home and reserve fleets are in the North Sea, stretched across to the Scandinavian Peninsula.

### Nation's Peace Policy Poles Turn, Is Crucial Issue for Smash Back 1940, Says Browder E. Prussia

CHICAGO, Sept. 3.—Urging that the American people unite in support of President Roosevelt's peace policy, Earl Browder, general secretary of the Communist Party, warned here against efforts of Tory reaction to split this unity to effect a Tory victory in the 1940 elections.

In a detailed report to the meeting of the National Committee of the Communist Party, Browder dealt fully with the latest events of the international situation and their relations to the coming election campaign struggle.

Browder made it clear that it is the duty of all Com-

For four long years a succession of actual wars and constant crises have shaken the entire world and have threatened in each case to bring on the gigantic conflict which is today unhappily a fact.

It is right that I should recall to your minds the consistent and at times successful efforts of your government in these crises to throw the full weight of the United States into the cause of peace. In spite of spreading wars I think that we have every right and every reason to maintain as a national policy the fundamental moralities, the teachings of religion and the continuation of efforts to restore peace-for some day, though the time may be distant, we can be of even greater help to a crippled

#### INFLUENCE FOR PEACE

It is right, too, to point out that the unfortunate events of these recent years have been based on the use of force or the threat of force. And it seems to me clear, even at the outbreak of this great war, that the influence of America should be consistent in seeking for humanity a final peace which will eliminate, as far as it is possible to do so, the continued use of force between nations.

It is, of course, impossible to predict the future. I have my constant stream of information from American representatives and other (Continued on Page 2)

England, France, Poland and Germany are at war. The blood of men, women and children is flowing on to the soil of Poland. Such is the spectacle which America now watches from across the sea. What must America do?

The American people have but one over-riding thought at this moment. That thought is that the United States must stay out of war and because of this desire that it must find every possible ways and means to place America's mighty influence on the side of peace, against the aggressor. It is around such a goal that we urge the unity of the American people.

making its voice heard on the side of peace, against aggression, for the cooperation of nations as good neighbors, for the independence of peoples great and small.

It is vital that the American people unite their will and their energy behind this policy. at 11:15 A.M. (6:15 A.M. E.D.T.), 15 minutes after expiration of the ultimatum, by Prime Minister Chamberlain, who a year before had signed the Munich Pact with Hitler dismembering Czechoslovakia and brought back a joint declaration that the pact was "symbolic of a decision by our two peoples never to go to war with one another again."

Chamberlain, speaking into a microphone that led into all the lands of the British Empire, made the announcement simply.

"This country," he said, "is at war with Germany." For two hours he had awaited word from the German Nazi Chancellor. Sir Nevile Henderson, British Ambassador to Nazi Germany, delivered the British ultimatum at 9 A.M. The hours passed.

Then Chamberlain took the step of announcing a state

Soon there came from Canberra, capital of Australia, the news that that Dominion had followed Britain into

He can only be stopped by force, and we and France are today, in fulfillment of our obligations, going to the aid of Poland, who is so bravely resisting this deliberate and unprovoked attack upon her people."

As the Prime Minister spoke a grave-visaged crowd huddled outside in Downing Street, knowing the fateful hour had struck once again for England.

It was announced from Warsaw that the Poles had penetrated to German soil in East Prussia and were hurling the Nazis back on the south, recapturing a Silesian town from the Nazis in order to relieve pressure on the Katowice industrial area.

sources throughout the world. You, the people of this country, are receiving news through your radios and your newspapers at every hour of the day.

You are, I believe, the most enlightened and the best informed people in all the world at this moment. You are subjected to no nsorship of news, and I want to add that your government has no information which it has any thoughts of withholding from you.

At the same time, as I told my press conference on Friday, it is of the highest importance that the press and the radio use the utmost caution to discriminate between actual verified fact on the one hand and mere rumor on the other.

I can add to that by saying that I hope the people of this country will also discriminate most carefully between news and rumor. Do not believe of necessity everything you hear or read. Check up on it first. You must master at the outset a simple but unalterable fact in modern foreign relations. When peace has been broken anywhere,

peace of all countries everywhere is in danger. It is easy for you and me to shrug our shoulders and say that

conflicts taking place thousands of miles from the continental United States, and, indeed, the whole American hemisphere, do not seriously affect the Americas—and that all the United States has to do is to ignore them and go about our own business. Passionately though we may desire detachment, we are forced to realize that every word that comes through the air, every ship that sails the sea, every battle that is fought does affect the American future.

Let no man or woman thoughtlessly or falsely talk of America sending its armies to European fields. At this moment there is being prepared a proclamation of American neutrality. This would have been done even if there had been no neutrality statute on the books, for this proclamation is in accordance with international law and with American policy.

### FOR TRUE NEUTRALITY

This will be followed by a proclamation required by the existing Neutrality Act. I trust that in the days to come, our neutrality can be made a true neutrality.

It is of the utmost importance that the people of this country, with the best information in the world, think things through. The most dangerous enemies of American peace are those who, without well-rounded information on the whole broad subject of the past, the present and the future, undertake to speak with authority, to talk in term; of glittering generalities, to give to the nation assurances or prophecies which are of little present or future value.

I myself cannot and do not prophesy the course of events abroadand the reason is that because I have of necessity such a complete picture of what is going on in every part of the world, I do not dare to do so. And the other reason is that I think it is honest for me to be honest with the people of the United States.

I cannot prophesy the immediate economic effect of this new war on our nation, but I do say that no American has the moral right to profiteer at the expense either of his fellow citizens or of the men, women and children who are living and dying in the midst of war in

### FOR NATIONAL UNITY

Some things we do know. Most of us in the United States believe Act, on the plea that this was nec- of political errors today lies in character of Garner's role as leader in spiritual values. Most of us, regardless of what church we belong to, believe in the spirit of the New Testament-a great teaching which opposes itself to the use of force, of armed force, of marching armies and falling bombs. The overwhelming masses of our people seek peace -peace at home, and the kind of peace in other lands which will not jeopardize peace at home.

We have certain ideas and ideals of national safety and we must | makers. act to preserve that safety today and to preserve the safety of our children in future years.

That safety is and will be bound up with the safety of the western hemisphere and of the seas adjacent thereto. We seek to keep war from our firesides by keeping war from coming to the Americas. For that we have historic precedent that goes back to the days of the administration of President George Washington. It is serious enough and tragic enough to every American family in every state in the Union to live in a world that is torn by wars on other continents. Today they affect every American home. It is our national duty to use every effort to keep them out of the Americas.

And at this time let me make the simple plea that partisanship and selfishness be adjourned, and that national unity be the thought that underlies all others.

This nation will remain a neutral nation, but I cannot ask that every American remain neutral in thought as well. Even a neutral has a right to take account of facts. Even a neutral cannot be asked to close his mind or conscience.

I have said not once but many times that I have seen war and

"The President's legislative program was deliberately wrecked. A minority of Congressmen of the President's party (about one-fourth to one-third) joined with a solid Republican representation, to defeat the President's most important proposals and to set about dismantling former accomplishments."

Discussing the fight which the American people must wage in the coming elections, Browder said:

"The reactionary coalition in Congress, by refusing to revise the neutrality laws, has in effect, prevented the government of the U.S. from exerting the full power of this country in favor of peace. The tory coalition, therefore, bears a heavy responsibility for the invasion of Poland and for the threat which this carries to the peace of the world and to the U.S.'

Browder then turned to a detailed examination of the tory coalition and the steps needed to defeat it. The text of this section of the report follows:

### TYPEWRITERS Labor Chief Bulwark of Democracy-Lewis THE MIRKIN LABORATORY

Congress of Industrial Organizations Head Says People in a Democracy 'Such As Ours' Can Gain Ends Without Dictatorship

WASHINGTON, Sept. 3 .- Today, more than ever, organized labor is the bulwark of democracy, John L. Lewis, President of the Congress of Industrial Organizations, said this afternoon in a Labor Day message to the people of the United States.

This is becoming more and more apparent with the passing of each year, he said.

Labor's program shows, he said, that in a democracy "such as ours," the people can gain security without resort to dictatorship. The statement follows:

"With the passing of each year the significance of Labor Day grows greater. Each year it becomes clearer, for this nation and for other nations, that organized labor is the most important bulwark of democracy.

"Organized labor's program and aspirations embody the faith that the people in a democracy such as ours can gain security and well-being without resort to dictatorship.

#### STRENGTHENS DEMOCRACY

"When labor seeks through collective bargaining to raise wages, shorten hours and to better working conditions, it strengthens at the roots the whole orderly democratic process.

"By this procedure there is established, plant by plant and company by company, throughout the nation's economic life, a practice of peaceful, honest and democratic settlement of differences between men.

"The day is growing closer when the hopes not only of wage earners but of all progressive men and women everywhere center more and more in the forward-looking labor movement as exemplified by the CIO.

"There is a growing realization that the CIO by its very nature seeks only the welfare of the people as a whole; that laboring people; professional people, farmers have broad common interests that transcend any differences.

"The need for security, for equal opportunity, for more even distribution of the products of our vast industry join the great majority of our people in one common cause.

#### MOVING FORWARD

"The CIO is moving forward. The inherent rightness of its structure and of its program has carried the CIO through unprecedented attacks. It has weathered a terrific depression, maintaining as never before the wage rates of American workers.

"It has embraced the cause of unemployed workers, giving them leadership and challenging the nation to solve their problems.

"The CIO is moving into new fields, offering to more and more workers in the nation's industries the benefits of industrial unionism.

"The program of the CIO is a challenge to men and women of good will. It offers to them the hand of progressive labor ready to join in the solving of the nation's problems, ready to join in the defense of democracy."

He reminded his listeners that despite the distance separating the new world from the old, and a desire for isolation, every "ship that sails the sea, every battle that is fought does affect the American future."

The President did not put the message in its final form until he had received the momentous news that Great Britain and France had taken up arms with Poland against Germany. He stressed that "when peace has been broken anywhere, peace of all countries everywhere is in danger."

The President was informed of every European development, conferring frequently with close advisers and state department aides who were working on a full-time

- By Isidore Begun -Bronx County Communist Candidate for City Council

A little more than nine weeks are left before the city Councilmanic elections take place on November 7. The reactionaries and their press are on a "Roman Holiday" these

days. They are using every hour to organize victory for themselves. They want our City elections, and the 1939 local elections throughout the land, to be their stepping stones

to success in 1940. One of their weapons, clear to all of us, is to confuse and throw us into inactivity through development of "headling mentality."

Never before was it so necessary for us, the people, to guarantee the election of honest and determined fighters for recovery, peace and democracy. Every hour counts. The increasing sale of the Daily Worker in these serious days, is a sign that the people look to our Communist Party in such times for answers to their problems. What a greater service to the people of our city could our Party perform, with its spokesmen, fighters for the people, in public office! What a monkeywrench the election of Communists would throw into the plans of America's reactionaries.

The job before us Bronxites is clear. The present election campaign is part and parcel of our fight for recovery, peace and democracy. The daily work to bring our paper, the Daily Worker, into every home, the signature campaign, the "Dimes for Democracy" drive-these should be our stepping stones to victory on Novem-Let's make every hour an hour in the service of the people of

### What U.S. Must Do To Defend Peace

(Continued from Page 1)

pendence of nations from aggressors, ridding them of invaders.

3. That America, pursuing this peace policy, immediately find every possible ways and means to aid Poland in defending its national independence.

Such a policy is calculated on American needs, American interests. It should be pretty clear by now even to the most stubborn that the spread of aggression menaces America, and that any "isolationist" collaboration with the criminal role which Chamberlain has been playing can only harm American interests.

It is absolutely vital that the American people display the utmost vigilance against that reactionary minority which has been so ruthlessly sabotaging the efforts of the people to raise their living standards. It is from these selfish groups of finance capital Tories that a political conspiracy may well be expected which will attempt to utilize the war crisis as a weapon against the progressive program and aspirations of the majority. The fight for America's peace can under no circumstances be waged without a simultaneous struggle to maintain and advance America's living standards and civil liberties.

The American people must be on guard against those who will say that the war crisis proves that the majority must throw away whatever social gains they have won, and turn the country back to the greedy hands of the Wall Street pro-fascist cliques.

The rights of labor and of the people are absolutely vital in the struggle for peace. If they go, peace goes. It would be well that all Government officials, surveying the nation's new economic and political tasks, do not lose sight of this cardinal fact, and that the Labor, Farm and progressive movement unite their forces as never before to guarantee that America's struggle for its safety and peace will be a democratic struggle. In fact, no other type of struggle can aid peace.

In making their plans to keep the country at peace, the American people know full well who is guilty for the awful disaster which has struck Europe.

The Soviet Union had repeatedly warned the Munich gang that their far-fetched conspiracy to trick the Soviet Union into a war which would "pull their chestnuts out of the fire" would collapse,

The Soviet Union and the anti-Munich peace forces in every country had repeatedly warned the Chamberlain, Daladier crew that their refusal to accept the USSR proposal for collective security and for the joint defense of Poland could not but lead the world into the abyss of slaughter. Unite against aggression, or it will burn you with the flames which you yourselves are igniting, warned the Soviet Union! But the Chamberlain gang would not listen. The Chamberlain gang had used the Polish ruling circles as allies in the mangling of Czechoslovakia; the Polish ruling circles, acting on orders from Chamberlain, spurned the military aid of the Red Army.

Today their peoples are paying the bitter price for this unspeakable infamy. Their Munich conspiracy caught them in their own net. Now the peoples must battle their way through to a peace which can come only by the crushing of all traces of the Munich treachery.

It is to the powerful Soviet Union that America must turn for the practical cooperation which it needs in the fight to halt war and protect peace. The Soviet non-aggression pact has shattered the minister Axis which menaced the United States in the Pacific and South America. The Soviet peace policy for joint action by all nations dovetails with the efforts of the United States to achieve cooperation for peace. It is a major fact in the present situation that American collaboration with the Soviet Union becomes indispensable for America's determination that there shall be a democratic struggle against aggression, that there shall be, not a war-breeding, treacherous, peace, but a truly democratic one.

#### Labor Faces Its Enemies

· Labor observes its traditional holiday today amidst the grimness of spreading imperialist war.

As it surveys the critical problems before it, American labor is able to record greater strength than ever before. The power to solve the pressing problems confronting labor, is at hand.

The past year has witnessed important gains for labor, for CIO and AFL.

The great victory of the CIO coal miners which inaugurated a new upswing throughout the ranks of the CIO. The CIO auto workers have scored important victories over the employers and swamped the strikebreaking Martin clique. In the packing industry, the CIO is now the choice of the majority of the workers and is demanding contracts from the Big Four who rule this major open-shop in-

Meanwhile, the AFL has been able to register increased membership too, mainly through the expansion of such unions as the Teamsters and the Hotel and Restaurant Workers. In the main, it is those AFL unions with a progressive leadership which have chalked up the important gains.

But labor was unable to reap the just rewards of its increased strength, due to the unfortunate split in the labor movement. Labor unity is the key to solving labor problems at home and to strengthening labor's hand for international peace.

It was largely because of the division in the trade union movement, that the Tory coalition of reactionary Republicans and Garner Democrats succeeded in running riot at the last session of Congress.

They began to tear down all the New Deal gains. They crippled the President's foreign policy and weakened the position of the United States as a force for peace.

All this was possible because the Woll-Hutcheson-Fry group on the AFL Executive Council was able to keep labor divided, while they maneuvered behind the scenes with Garner and the Republican chieftains against the

On this Labor Day, American labor must squarely face the challenge presented by the Tory coalition and the open-shop monopolies who are behind it. Labor must gird itself for the defense of the Wagner Labor Relations Act, for the protection and improvement of the Social Security Act, the Wages-Hours Law, the Housing Act and other vital New Deal measures.

On this Labor Day, American labor must wholeheartedly back the efforts of President Roosevelt to keep this country at peace. No longer can any one dare suggest that what happens in Europe "is no business of ours."

But if labor is to play a role of increasing importance in the internal affairs and foreign policy of the country, the cry of labor unity must ring throughout the country on this Labor Day.

Never was the need greater for cementing the ranks of labor. At the very least, it is imperative to effect the political unity of CIO and AFL behind the President's foreign policy and to defeat the Tory foes, of progress and peace in 1940. Let this Labor Day strengthen the resolve of every worker and every sincere labor leader to bend all efforts

### 'History of CPSU' Clarifies Pact, Say Columbia Students

Dear Comrades:

After discussing the Soviet-German trade and non-aggression pacts, the members of the "Short History" study circle of the Columbia University student branch of the Party have expressed full approval of the following statement:

The present policy of the Soviet Union is not only completely consistent with its past peace position of opposing aggression, but concretely exposes the weakness of the aggressors, encourages the people of England, France and Poland to resist to the utmost, and makes infinitely more difficult the position of Chamberlain, Daladier and Beck, who would like to carry through appeasement once more.

There are many more things that we could say, but we have before us for discussion this evening Chapter 8 of the "History of the Communist Party of the Soviet Union." This chapter deals with the foreign intervention and civil war in the Soviet Union during 1918-20 and shows clearly why the Soviet Union so carefully guards itself against the machinations of the imperialist powers. We recommend to our comrades and friends that they also study the "History," so that we may all understand the great determination and insight manifested by the Bolsheviks in establishing, maintaining and developing the Soviet Union.

In closing we wish to express our enthusiasm for the splendid manner in which our Party leaders and membership have answered the distortions of the reactionaries. We know that our Party and the whole progressive movement will emerge with greater strength from the present situation.

### Questions and Answers on the Non-Aggression Pact

ANSWER: The question apparently refers to something other than the non-aggression pact which the Soviet Union and Germany have signed and in which each pledges not to attack the other.

No serious person would ask whether the Soviet Union would enter into an agreeto attack anyone. The Soviet Union refuses to wage aggressive war and this refusal is consistent with the best interests of humanity, the best interests of the workers and the common people in all lands. The Soviet Union will not join Hitler to attack a third party. Nor will it join Chamberlain for that purpose. Chamberlain may hope so, but the Soviet Union simply won't oblige him on that score. The Soviet Union is a socialist proletarian state.

Perhaps the question means whether or not a situation three fronts: the front of fasmight arise where the Soviet cist aggressive imperialism Union would find it possible to join a mutual assistance protect themselves jointly of bourgeois democracy, anyone can conceive of such a

situation. The "History of the Communist Party of the Soviet Union," in its splendid analysis of the world situation, ment with fascist Germany to tells us that we are living in help attack a third party. The a time when the second im-Soviet Union will join no one perialist war is already on. It began with Mussolini's attack on Ethiopia. Then came Japan's invasion of China, the seizure of Austria, Czechoslovakia and Spain. But, says this important book, this is a sort of one-sided war so far, one-sided in the sense that the fascist imperialist aggressors are attacking and waging the war, whereas the bourgeois democratic countries against whom in the final analysis this war is being waged, made Munichs but offered no effective resistance.

There are, broadly speaking, which has been waging the war for the past two and a against a third power's attack. against which this war is di-

front, which, so far, includes the Soviet Union as its main country, along with the many forces and peoples throughout the world who support it.

That is the situation. This situation may continue for a considerable period of time and as long as it does, there are aggressor states and non-aggressor states. Germany belongs to the aggressor states. No one can imagine that the Soviet Union would join an aggressor state for aggressive action against non-aggressor states. The enemies of the Soviet Union and of peace say that that is what the non-aggression pact is for. But its purpose is just the opposite, and they know it.

So, if the question means whether there is any possibility that the Soviet Union might enter into a mutual assistance pact with Germany, it can be said that that is impossible so long as the present world picture continues what it is today. When and if a situation arises where Germany as a country becomes a non-aggressor state and whether other countries bepact with fascist Germany to half years. There is the camp come the aggressor states-if situation — then the story To this the answer is clear, rected, but had been retreat- might be different; but cernamely, that it is impossible ing. And then there is the tainly not while the present to see that kind of world third front, the real peace world situation continues.

The Italian-American mem- Polish peoples to the aggresbers f the Communist Party in New York City wholeheartedly support the peace policy of the Soviet Union and its present application in the non-aggression pact signed with Germany. A statement by the Italian National Commission of the Communist Party said:

"We welcome the non-aggression pact as a blow to aggression and war throughout the world, as a blow to the appeasement policy of Chamberlain and Daladier, and as a blow to the war axis of Rome and Berlin.

"The Soviet-German nonaggression pact has set back the war-makers by smashing the anti-Comintern pact and by encouraging the resistance of the English, French and tablishment in Italy of a peo- mocracy."

"The pact has benefited the American people by weakening Japanese aggression in the Far East and by lessening the danger of Nazi-Japanese-Franco penetration in Latin America. The pact is and will be of tremendous service in preserving and strengthening the Monroe Doctrine and the Good Neighbor policy.

### BLOW TO AXIS

"As Communists of Italian origin, we hail the pact as a powerful blow to the Rome-Berlin axis and consequently to the Fascist regime of Mussolini in Italy. The Soviet Union has given hope to the Italian people and has brought nearer to realization the overthrow of Fascism and the es-

ple's government. "Finally, we wish to

acknowledge the invaluable role of the Daily and Sunday Worker in bringing enlightenment and clarification to the American people at a time when the reactionary press and its Trotzkyite allies are sinking to a new low in a hunt for new and more vicious lies about the Socialist government of the Soviet Union and its role in preserving the peace of the world.

"We are indebted also to the sure leadership of Comrade Earl Browder, whose masterful analyses are an inspiration to us in the fight to dispel confusion, confound the slanderers, and build in America a powerful front for the preservation of peace and de-

The following resolution was voted unanimously on August 29, 1939 at a membership meeting of the Communist Party in Jamaica, N. Y.:

"145 members of the Communist Party and visitors, at an open meeting of the Communist Party of the 4th and 5th Assembly Districts in Queens to discuss the present European and world crisis, do hereby welcome the Non-Aggression Pact between the Soviet Union and Germany as a powerful stroke for peace.

"We protest the lies and slander being spread by the capitalist press and wholeheartedly congratulate the Daily Worker for its splendid reporting and analysis of the news from Europe.

We hail the Soviet-German pact as a blow to the reactionary forces who would plunge the world into another world war. It's timeliness and world-wide significance serve as an illumination of the correct and truly Marxian policy of the Soviet Union.

### **Worcester Hails** Daily Worker

At an open membership meeting of the Communist Party of Worcester we unanimously and enthusiastically hail the peace policy of the Soviet Union.

We fully agree with the analysis of the Soviet-German non-aggression pact as presented in the editorials of the Daily Worker and in the statements of Comrade Browder, our general secretary, in his press in-

We greet the splendid contributions of the Daily Worker in helping to bring clarity and understanding, and pledge to build its circulation. We are doubly determined to complete our quota in the financial drive as speedily as possible.

Finally we pledge to continue and intensify our educational campaign on the present world crisis, to reach increasing thousands of people in Worcester and to build and strengthen our Party as our contributions to the forces of peace.

### Greek C. P. Unit Sees Axis Weaker

At the general meeting of the Greek members and sympathizers of the Communist Party held in New York on the first day of September at 223 Eighth Ave., after hearing the report of Comrade P. Harisiades and discussion of the meaning of the non-aggression pact between the Soviet Union and Germany we greet this historic action of the Soviet Government as a contribution to peace and democracy and as a blow against the forces of reaction who are a constant menace to democracy and who threaten aggression and capitulation to the fascist aggressors.

As peace and liberty-loving Greek-American citizens in this country, we hail this action of the Soviet Government for the following reasons:

1) It weakens and leads to the breaking of the Berlin-Rome-Tokio axis which has been the active instigator of aggression and war.

2) It upsets the plans of the Munichmen, the Chamberlains and Daladiers who are striving to direct fascist aggression eastward against the Soviet

3) It gives great help to the Chinese people who are heroically fighting against their vicious enemy, the Japanese aggressor,

4) It strengthens the Soviet Union, the land of Socialism, the firmest defender of world peace and human peace and human liberties, it also renders a powerful aid to the American people who are directly menaced by Japanese aggression.

For these and many more reasons we feel confident that the Greek people in this country who truly cherish peace and democracy will, despite the vicious propaganda of the reactionary press, join with us in greeting the historic action of the Soviet Union.

We, furthermore, condemn the Greek reactionary press, the "Atlantis" and the "National Herald" for their attempts to distort and confuse the real meaning of the Soviet Government's action, and we also condemn all the Trotzkyite-fascist slanders against our Party and we finally pledge ourselves to do all in our power and to contribute for the success of the financial drive of our Party.

### **Seattle Communists** See Axis Split

(Special to the Daily Worker)

SEATTLE, Wash., Sept. 3. - The non-aggression pact between the Soviet Union and Germany was overwhelmingly approved as a blow at the Munichmen and their policy of appeasement, when the Kings County Council of the Kings County Communist Party assembled here today.

Reports from various Party branches applauded the cracking up of the Rome-Berlin-Tokio alliance as a great forward step for the democracies and for the peace of the whole world.

In the meantime the Resident Board of the North West Young Communist League acclaimed the latest victory of the Soviet peace policy, in the signing of the Soviet-Germany non-aggression pact, as a blow at the war-making Munichmen and an example to the world of what a real struggle for peace means.

The entire YCL thanks the Daily Worker for its prompt and accurate clarification of issues surrounding the making of the non-aggression pact, and especially Comrade Browder's clear-cut statements both preceding and following the signing of the pact.

The YCL has pledged to show the youth of the North West, who are comparatively close to the menace of Japanese-fascist aggression that the pact aids national security on the Pacific Rim. The YCL has pledged also to redouble its efforts to rally young America against the American Munichmen and for genuine peace action to halt Hitler.

### 'Munich' Intellectuals Root for Nazi Schemes

(By Inter-Continental News)

LONDON, Sept. 3.—New links between Nazi fascism and prominent British intellectuals have been revealed as the result of the publication here of a startling pamphlet. Published under the auspices of the Peace Pledge Inion, the pamphlet, written by the well known art zitic, Mr. Clive Bell, solemnly declares that it would be better to give

England to Hitler rather than stand up to the Nazis. The Peace Pledge Union has close associations with the organ recently condemned in the British Parliament as a Nazi espionage center, The Link. Not long ago the Peace Pledge Union recommended

that its members read The Link.

A member of the Peace Pledge Union, Bell, is associated with Middleton Murry. A Mr. Hugh Ross Williamson, now writing articles for the fascist paper, Action, though he is still technically a member of the Labor Party, also has relations with this group.

A month ago Mr. Ross Williamson was a "prospective" parliamentary candidate for the Labor Party.

"The most obvious way to avert the greatest of all evils would seem to be to give the Germans and Italians what they want," declares Bell in his apology of fascism.

"I see no reason why Germany should not have colonies and hegemony too; in any case I am very sure that German hegemony is preferable to a European war. . . . The time has come when we should tell the politicians that . . . we welcome the idea of a United States of Europe even though that Europe be policed by Germans.

"Why should some Power not have hegemony and keep the continent quiet? Because then it would invade England say the wiseacres. . . . If Hitler really wants to occupy London, invite him to step in. It will be an evil but a mere flea bite of an evil compared with a European war. It would be far better that the Germans should organize the police and press and look after the lighting and drains of England than that we should have a European war."

The pamphlet works up to its climax following a declaration that "all means of avoiding war are good. No means of prevention should be rejected because they seem impracticable or cowardly or dishonorable

"For the sake of peace," it continues, "the government may have to muzzle the warmongers. . . . Liberal and Labor members of Parliament bombard Ministers with questions that can have no conceivable purpose except to irritate Germans and Italians and provoke war fever in England.'

A Reply to Thomas Mann

Attitude on USSR Not Private Matter, But Basic in Anti-Fascist Struggle

The great German writer, Thomas Mann, in whose person bourgeois humanism is confronting fascist barbarism, has been for many years in the ranks of the fighters defending truth, freedom and human dignity against "totalitarian" destruction. In the personal development of this important

man who emerged from the life and arrived at the understanding that politics poses "the question mortal seriousness," we believe that we observe the general development ing validity, he asserted: of the best part of the bourgeois in-
