"Bill" Dunne, who has just returned from Russia where he attended the congresses of the Communist International as delegate from the Workers Party, and of the Red International of Labor Unions, as delegate from the Trade Union Educational League, has written an article especially for the magazine section: "Russian Notes." It is the story of the many-sided and colorfully interesting life in Russia today as seen by a Communist. Dunne, who is a member of the executive committee of the Red International of Labor Union, has had the opportunity to see the life of the Russian workers and their attitude toward the Nepmen from close observation without being hampered by any restrictions, and the story he tells in his Notes promises to be one of the best yet written by his pen.

The issue between Japan and the United States is not the question whether a few tho sand Japanese immigrants shall or shall not come to the United State. This is only the pretext with which it is hoped to arouse the workers of the United. States. The real causes of the struggle between imperialist America and imperialist Japan are the rich resources of China and the greed of the imperialists of each of these nations to profit from the exploitation of the people and the resources of that country.

If the capitalist imperialists have their way, and the United States the concession in that country, which shall profit from the railroads, mines and other resources of China.

Workers of the United States, the capitalists are already calling for military and naval preparation for the war against Japan. The Chicago Tribune declares: "The incident occurs at a moment that the president is considering naval appropriations for the next year. It should have a decisive influence upon our immediate plans. The navy is undermanned and is lacking in units absolutely essential to effective operations. The fast cruiser program should be accelerated and also aeroplane carriers, aeroplane destroyers, leaders of large submarines should be provided on a five-three ratio. There should be a thoro consideration of our naval development over a period of ten years."

(Special to The Daily Worker)
GENEVA, Sept. 30.—Viscount Ishii, of the Japanese delegation here, accepted in the name of his government, a formula offered by the frightened janitors of the League of Nations, to meet Japan's opposition to the aggressor clause of the League arbitration protocol.

Japan was as successful in making the League back down in this case, as Mussolini was in the Corfu incident, when he invaded Greek territory and killed several civilians to satisfy his conception of Italian dignity. British propagandists pretend to believe that the danger confronting the peace plans of the league yester-

day is today obviated. Nothing is farther from the truth. In fact there is not a single power of any consequence affiliated to the League of Nations that would not trample upon every league covenant to suit its inlividual purpose. # Crimes of Capitalism Will in Time Destroy It Instead of Its Victims

By J. LOUIS ENGDAHL.

TODAY, the United States government is showing great solicitude for herds of deer, said to be starving along the Kaibab Plateau of the Kaibab National Forest, in Northern Arizona. The big herd has multiplied so rapidly, under government protection, that there isn't enough vegetation to feed them all.

The warmongers at Washington can't get a war started between rival factions of the deer herds, and thus kill off a few thousands. The deer are wiser than humans, at least in this respect. They have no wars.

The deer can't be sent into modern industry, there to have their numbers decimated thru occupational diseases and industrial accidents. In this they are luckier than humans.

Back in 1906 the species was threatened with extinction because of illegal hunting. Hunters murdered the animals for the mere sport of it; just as the western plains were swept bare of buffalo. But the deer are now protected by law in a national forest reserve.

In this, as in other ways, the government shows it is much more solicitous about the welfare of animals than it is about human beings. Diseases of hogs get much more attention than the diseases of children.

The tenement slums of every large industrial center are jammed with starving children, just as the Arizona Forest Reserve is over populated with deer. But the United States government takes no account of the children. It offers free deer to anyone who will pay crating and transportation charges. The deer will be taken care of. But the children may die where they are.

The DAILY WORKER yesterday told the story of two young cotton mill workers sentenced to death for murder.

It is legal in this country, especially in the Southern States, for big manufacturers to take children out of their homes and slowly murder them in their cotton mills. The mill owners receive the blessing of the church on Sunday. But the seven days each week is hardly long enough for them to violate all of the ten commandments.

Child murder has been declared constitutional by the United States Supreme Court. It did this when the Anti-Child Labor Law was declared unconstitutional.

Mortimer N. King and Frank Harrell, the two young mill workers now facing the gallows, didn't die in their childhood under the mill owners' lash. They insisted on living, in spite of the tremendous handicaps put upon them in the struggle for existence. One of them even had the courage to marry, and there is a child. More human fodder for the cotton mills.

There came a time recently when the mills shut down, in South Carolina as in many other states. The two young workers, King and Harrell, lost their jobs. There was no other work in their home town—Chesterfield. They had to take to the road to find a job, just like millions of their

Hunger came. People don't like to take care of hungry workers on the road. They usually send dogs after them. They call them tramps.

King and Harrell, out on the road, so the charge goes, got a lift from a Major Samuel H. McLeary, in his automobile. The major was a hired killer, but he did it according to capitalist laws. It is against capitalist law to kill if you are hungry, in order that you may get money to buy food. The Christian commandment, "Thou shalt not kill." to workers hungry for food; not to capitalists hungry for profits, so hungry, in fact, that sometimes they throw the whole nation into war, resulting in the killing of millions, in order that they may capture the markets of the capitalists of foreign countries.

But King and Harrell knew only the law of hungerwhich is the law of self-preservation. They stuck a gun in the major's face, so it is charged, and began searching his clothes for money. The major thought he saw an opportunity to save his belongings. He made a lunge at the boys. The gun was too quick for him. It exploded. The major was killed. The boys were arrested, forced to accept the counsel the court provided them, the jury brought in a guilty verdict, and now they will be hanged on Nov. 21st., all according to law.

In the meantime the streams of millions of more children will keep on pouring into the mines, mills and factories of the nation, to be slowly tortured to death before their time. No employer of child labor will be sent to the gallows for this crime. That is capitalism.

Under the drive of hunger the masses underneath learn to have little respect for capitalist law. In Central Europe, in the days of misery after the war, that continue under the Dawes plan, the hungry millions have usually just gone out and taken food wherever they could find it.

In Russia it was with the cry for "Bread!" upon their lips that the workers in the cities seized the factories and power. The accumulated rage of centuries burst upon the regime of the czar, the bankers and the landlords, and destroyed it. A new social order was born.

The two boys, King and Harrell, reacted naturally in their struggle for bread, in their fight against starvation. Only the dog, in human rags, will crawl into a corner and die, without resistance.

But the individual is helpless. Only the masses, organized and disciplined, can fight successfully against the capitalist order, that breeds want, hunger and misery. The Workers Party is building that organization. It is building the power that makes war upon capitalism; that will finally destroy it.

The rule of the cotton mill owners may hang King and Harrell on Nov. 21st. But they will be hanging these two boys for a crime that capitalism—the mill owners' social order-is guilty of. It is not difficult to visualize capitalism taking its place upon the gallows with its victims. The crimes of capitalism will in time destroy it instead of its victims.

# RANK AND FILE **TEACHERS WIN ANOTHER ROUND**

# Victory is Temporary in War with McAndrew

The rank and file teachers of Chicago yesterday scored a temporary victory in their war against the school officialdom when members of the committee on school administration, sympathetic to the teachers, prevented the board from passing a resolution concurring in the suggestion of Superintendent William McAndrew that principals be permitted to attend the sessions of the teachers' coun-

McAndrew's move in recommending this action is the first of his attempts to turn to his own advantage the rule which he forced thru the board, annihilating the councils of rank and file teachers which have been in existence ever since 1912, and permitting the superintendent of schools to reorganize councils on whatever basis he sees fit.

It has been generally understood that this would be McAndrew's first step, since he, along with the representatives of big business on the board, are attempting to curb the reedom of discussion which the teachers have enjoyed at council sessions n the absence of officials.

McAndrew squelched an attempt on the part of Mrs. David Gregg to have discussion of the matter put off until eachers could be present. "I should not want to be accused of

handing down a problem of the board to the teachers for decision," said the uperintendent. A tie vote on the motion of two to two, resulted, after the vote of Charles

M. Moderwell, president of the board, in favor of the superintendent's recomnendation, had been thrown out. Decision to enforce the rule that he chairman of the board shall not vote will probably result in further victories for the teachers, since Mo-

derwell has proved himself consistenty hostile to attempts of the teachers to get a voice in school affairs. The superintendent was upheld thruout the meeting by Edgar Greene-

baum, of Greenebaum Sons Bank and Trust company. By preventing the passage of this

resolution, the committee has kept out of the rules a measure bitterly fought by Ella Flagg Young, one-time superintendent of Chicago's schools and universally acknowledged as one of the finest educators the country has known. Mrs. Young contended that it is unfair to ask teachers to speak freely when authorities are present.

In the argument before Justice Barber, the counsel for Hearst made the plea that there was nothing defamatory in the statement that one was a secret agent of a foreign government. NEW YORK, Sept. 30.—There still exist the remnants of the socialdemocratic party in our ranks. Not only as to the form of organization (functions of social-democracy required territorial branches only while the Communist party must have its roots in the workshop hence the necessity of making the shop nucleus the unit of our organization), but also on methods and means of waging our struggles. While it is true that this inheritance is party outrooted ideologically, one still finds many comrades who have not yet completely freed themselves from the social-democratic ideology particularly is this true of the parliamentary campaign.

# Stir the Shops!

The very best place to carry on a working class campaign is in the shops and factories where the workers gather to earn their living. It is there that minds are open to the measures, parties and candidates that stand for concrete solutions of the problems of bread and butter facing the working class. It is in the shops that the workers will see most clearly, for example, the difference between Foster, the union organizer and fighter for the workers, and LaFollette, the lawyer and fighter for the middle class. ## Provoking Japan

"Japan Admits Dream of War on United States," says the Chicago Tribune in a six-column headline over the story of Adachi's outburst at Geneva.

War with the United States is not merely a dream of the Japanese ruling class, it is a nightmare. The clashing interests of American and Japanese imperialism make war between the two nations just about as certain as anything can be in this unstable world altho it is probable that neither the rulers of Japan or the United States want war right now.

Internal unrest affecting all sections of the population other than the aristocracy and the big capitalists has not yet reached such intensity that a war for the defense of the national honor appears erals, to decide on the fitness of the play for public to be the only way out for the Japanese rulers. That it will before long afford them only this alternative to surrender is known to every student of the secretary fo the navy breaks into print along Japanese internal affairs.

Our rulers have given the Japanese governing classes the finest kind of an excuse for a war-an excuse that for millions of Japanese workers and peasants might easily disguise the real causes of an armed struggle with the United States. The Japanese exclusion act is being used to weld together the Japanese masses, not with the success that might be expected among a people whose reputation for national pride is of the highest, but with some success nevertheless.

If a desperate Japanese ruling class can be mongers.

We have held from the first moment that the agitation against Japan began that the handful of Japanese in the Pacific states and their skill in acquiring property was not the real basis of the campaign, but that the real reason for the hostility that culminated in the exclusion act was the rivalry of the imperialists of the two countries aroused by the desires of each for the unrestricted opportunity of robbing and oppressing the masses of the Orient, China particularly.

This is the plight of the farmers. We wonder how many of the million who have been driven off the land are sharing in the wheat spurt. It is gruesome five years that the farmers have gone thru. That is where they are today. Dreary facts speak louder than dishonest election talk even from our Puritanic president.

## Fit for the Public

Secretary of the Navy Wilbur, who has in a brief period of office distinguished himself rather suspiciously as an agent of the government that loes too much talking at the wrong time, is again coming to the fore. This time the unrestrained secretary is not attacking the Japanese or the Negroes. Mr. Wilbur is now a censor of the fitness of a certain play before New York audiences.

"What Price Glory" is a play that has aroused considerable approval among many New York workers because it tells the truth about the life and sufferings of the marines. The play sheds a light on the realities of war which all too many workers in the metropolis know from their own costly experience to be true.

This has brought a storm of protest from the arch-demagogic Tammany liskspittle, who is now the mayor of the greatest city in the land, John F. Hylan. The shadow of the once notoriously corrupt boss, Charles F. Murphy, has appointed a committee of citizens, leading ones of course, like admirals, police commissioners, and major-gen consumption. Then, not to be outdone in the concern for the welfare of the morality of the masses. the same Puritanic lines.

Mr. Wilbur has had plenty of experience in preventing the working masses from going wrong," that is from doing anything against the interests of the employing class. Mr. Wilbur is to a no small extent responsible for the fact that Tom Mooney is in jail today. The same "safety seeking" secretary of the navy is even threatening to invoke the federal statutes against the players. Mr. Wilbur's modesty is overcome by the fact that the play is "full of gutter language" which, he would have us believe, is no longer to be found in the navy. provoked into an attack upon the United States Then, how can one associate the uniform of the it will certainly be a rich dish for our war. United States navy with vulgarity! The heavens protest! And what will the Haitians, the Nicaraguans, the Mexicans, and the Dominicans say about such misrepresentation of the gentle marines who have treated them so kindly in their civilizing expeditions?

Here is where the real difficulty lies. Here is why the navy officials who are sworn to defend the socalled sacred rights of freedom of opinion, speech, press, and assembly guaranteed by the constitution are the first ones to serve the employers in denving these much-vaunted rights to the masses.
