MCDONALD RESIGNS WEDNESDAY Morgan Plans to Give France Two Billions

Entered as Second-class matter September 21, 1923, at the Post Mice at Chicago, Illinois under the Act of March 8, 1879.

AS WE SEE IT

By T. J. O'FLAHERTY.

THERE is a serious crop shortage in Germany. The capitalist press of the United States will not attribute this to "Communist mismanagement," as they do droughts, tidal waves and visit Russia. Germany is ruled by the capitalist class and until they were beaten by the capitalists of the Allied combination, were looked upon as efficient managers. But it appears that they have lost their punch and all attempts to inject pep into them has failed. The best of efficiency experts can do nothing with a rotten system.

KLUX MAYOR BREAKS UP BLOOR MEETING AT CHRISTOPHER, ILL.

(Special to The DAILY WORKER.) CHRISTOPHER, III., Oct. 6 .- The mayor of this city, a well known Ku Kluxer, staged a grand attack on the Communists at a meeting of the Workers Party on Sunday at Trustees Miners' Hall. Mother Bloor was scheduled to speak. When she arrived she encountered a large crowd in the street with the mayor frantically shouting at the comrades that they cannot hold any meeting in Christopher. The mayor had entered the hall, Mother Bloor was told by the comrades, and had chas-

ed every one out into the street. Mother Bloor addressed herself to the crowd in the street. She asked all those who wanted to attend the meeting to follow her to the city limits. Everyone in the crowd went along and a splendid Communist meeting was held out in a country road lit up by one solitary flash-

INDICTMENT OF COMMUNIST, RED TREATY, ISSUES

Expect King to Oust the Parliament Thursday

(Special to The Daily Worker)

LONDON, Oct. 6 .- The Mac-Donald Labor Cabinet has decided tentatively to resign. The Labor prime minister will prooose the resignation of his cabinet at Wednesday's session of parliament. ,

This decision of the Labor cabinet is brot on by the motion of the tories demanding a censure of all parties responsible for the quashing of the indictment of the editor of the "Workers Weekly," official or-gan of the Communist Party of Great Britain.

May Dissolve House of Commons.

The resignation of MacDonald's cabinet means also that the dissolution of parliament will be sought. By Thursday it is expected that the king will be asked for the formal decree dissolving the House of Commons.

It is not yet certain what the attitude of the labor party will be to the motion which the liberal party will make demanding an inquiry into the dropping of the indictment against the Communist leader. MacDonald has declared:

"I will explain the quashing of the Communist indictment in the Commons. Then if the House votes censure of the government, the cabinet cut was that soldiers were patrolling will accept the vote as meaning that immediate resignation is in order. The Committee for International Workers' Aid, which is running this picture, was compelled to resort to legal counsel and only upon the threat that the matter will be taken up to court did the censors grant a new hearing and finally allowed the picture to be shown. William Weinstone rsecretary of the International Workers' Aid, and David Wallenstein, Philadelphia attorney, pointed out to the censors that the picture records events in Russia and that matters pertaining to division of the land among the poor peasants and the fight against the land owners and the factory owners were historical facts which the picture accurately presents. The New York State Board as well as the National Board of Review, have both passed the picture without any eliminations.

An Appeal for Coolidge RIGHTS AS RACE and Notice of New Wage Reduction—Side by Side

By J. LOUIS ENGDAHL.

TODAY, the coal miners around Moundsville, West Va., are carrying another political lesson around in their heads. It grew out of a comparison of posters put up on the bulletin board of the Glendale Mine, where they work.

"Vote for Coolidge and Dawes!" said the first poster. It had been up only a few days when the mine owners posted another bulletin announcing a 20 per cent wage reduction. The second notice read:

"Wages will revert to 1917 scale effective forthwith." Both notices were put up by the mine owners. It wasn't difficult for the coal miners to put two and two together. The same source that urges "Coolidge and Dawes," in the presidential elections, is demanding that wages be reduced.

Contributions by a corporation to churches are an "ordinary and necessary" expense in "carrying on its business." That is a contention we have always set forth. This position has now been endorsed by the board of tax appeals at Washington.

It is part of good business for corporations to promote religious activity among their employes, and so the tax board has ruled that proper deductions may be made in the income tax returns. The commissioner of internal revenue didn't think the deduction ought to be made in the case of the Poinsett mills, of Greenville, S. C., manufacturing cotton goods. It was shown that this corporation, in 1920, contributed \$1,006.49 to a Baptist church in the mill village. Workers baptized in religion make very good mill hands. Especially the children must be taught that they are destined to work in the mills, and that they ought to like it. Trade unions are not encouraged in South Carolina. Expenses for strike-breaking, and maintaining the open shop, will no doubt also be classed, by the revenue collectors, with religious donations as "ordinary and necessary in carrying on

The Von Steuben Society, in its publication, "The Progressive," joins hands with Rudolph Spreckles, the sugar millionaire of San Francisco, in pointing out why they are in favor of LaFollette. The confession appears under the heading, "Why Capitalists Support LaFollette," and should be made an important document of this year's presidential campaign. We publish it in full as follows.

"I am supporting LaFollette and legislation looking to the conservation of the water power of the State for the benefit of the public, but not because I am a Socialist or a radical. I have a good portion of capital and I desire to hand it down to my children. When men of the stamp of Requa-Requa is the manager of the Coolidge campaign in California and also vice-president of the Sinclair Oil Company, frequently mentioned in connection with the Senate investigation of the Teapot Dome leasescontinue to ignore the wishes and the welfare of the masses on whom the security of property depends, these masses may some day rise in their indignation and begin to destroy. I am a better friend of the people of my class, the capitalist class, than those who permit graft, corruption and exploitation to go unchecked. The day will come when they will say that I am right."

Spreckels says he is a better friend of his class, the capitalist class, than are the Teapot Dome Oil capitalists. He wants to hand down his wealth to his children.

But it is the biggest capitalists, with the most unscrupulous methods, who rule in industry and dominate capitalist politics. Spreckels may give a liberal fringe to the capitalist class, thru supporting the small business class candidate, LaFollette. But that will not hurt the capitalists. It will only fool some workers and farmers into believing they are going to get something under capitalism.

Spreckels is the catspaw of his class. And LaFollette is the mouse that the catspaw is playing with. If the workers want to be lured into this trap of their enemy class, then all they have to do is follow LaFollette. If they want to fight for their own class interests, they must join with the Com-

In this connection it should be mentioned that the territorial grand jury, in Hawaii, has just indicted 76 of the 133 plantation strikers arrested following the struggle here, Sept. 9, between the sugar workers and the police called out to break their strike. Nearly all of those killed were strikers. But not a single plantation owner has been indicted.

We are reliably informed that Spreckles is heavily interested in the Hawaiian plantations. Out of the exploitation of helpless Japs, Filipinos, Chinese and Hindus; Spreckels wins profits to keep his children in idleness and luxury. Spreckels got his start as a sugar millionaire as head of the Hawaiian Commercial and Sugar Company. And the United States is on the job, on behalf of the plantation owners. This is shown by the terse statement that "there have been no disturbances" in the islands since the struggle that resulted in the death of 20 participants.

Dr. W A. Evans, the health expert of the Chicago Tribune, tells us that, "During the centuries of safe existence the luxury of the slow awakening habit has been indulged until it has become instinctive.

For fear that all the readers of The Tribune might not be able to enjoy this luxury, and might resent mention of it, he adds, "Whether a person awakens slowly or quickly is purely a matter of training. One is about as instinctive as the other.

But the worker doesn't need this superfluous health advice. He must awaken at the call of the alarm clock, not by instinct, but by necessity. This will be so until the social revolution acts as an alarm clock to call all the people including the parasite rich, to do some useful work. Then the workers who rise before dawn, at the alarm clock's call, to begin the long workday, may have a chance to sleep a little

'DAILY WORKER' SELS WELL IN GARY'S EMPIRE

Much Talked About in the Steel Mills

By JACOB RUSAK (Special to The Daily Worker)

GARY, Ind., Oct. 6.-Now that the DAILY WORKER has reached hundreds of Gary's slaves, it is beginning to be the principal topic of discussion in the steel mills. Hundreds of copies are being sold every day, and the workers are certainly

anxious to get the paper.

While I was selling the
DAILY WORKER Friday morning, I yelled to the workers as they came out of the mills: "Get the DAILY WORKER, the only Communist Daily paper. Read all about William Z. Foster, the only presidential candidate that carries a union card in his pocket."

"Sup" Has Decided Views.

About a hundred workers flocked around and bought the paper, saying, 'Foster is the man for us." Suddenly superintendent came running up and said, "Let's see what the red has to say." He gave me three cents and said, "This guy Foster ought to be in Russia, or have a rope around his

As the superintendent stopped talking, about 507 workers mobbed him and cursed him. Some said, "You dirty scab." Some called him a K. K. K. That frightened him and he was forced to run into the New York Central station across the street for protection. While he was fleeing he called back over his shoulder, "I'll get some of you dirty Bolsheviks."

Cop Violates Own Ruling.

While John Heinrichson, circulation manager of the DAILY WORKER for Chicago and I were walking along Broadway, we met a city cop. We asked him if we were allowed to distribute sample copies of the DAILY WORKER, and as soon as he heard the words. "DAILY WORKER." he

answered in a harsh voice, "NO." Then Heinrichson gave him a sample copy of the paper and the cop said "thank you" very politely, thus

"NEPMAN" GIVES AUSTRALIAN LABOR COUNCIL IS DIVIDED INTO INDUSTRIAL GROUPS NOT SO GOOD

By W. FRANCIS AHERN. (Federated Press Staff Correspondent.)

SYDNEY, New South Wales, Oct. 5.-Under the new system adopted by the Labor Council of New South Wales, the council is divided into industrial groups, formed from unions having the same interest in industry.

There is a transport group, which is composed of unions connected with the transport industry. The building trades group is represented by delegates from the building trades; the iron trades group is made up from the iron

HOGLUND GROUP DRIVEN OUT OF **SWEDISH PARTY**

Membership Is Loyal in Communist Ranks

(Special to The DAILY WORKER.)

STOCKHOLM, Oct. 6.-An overwhelming majority of the Communist Party of Sweden has voted in favor of the decisions of the Communist International and against the tactics of the Hoglund group, the final count in the party referendum ordered by the Comintern shows.

The most important section of the party press remains in the hands of the Swedish Communist party, "Norrlund-Kuriren," one of the two party organs which still adhered to Hoglund, has come back to the party.

Hoglund is now organizing his own group, hoping to take with him a section of the party. He is already publishing his own organ, a daily newspaper called "Den Nya Politiken," in opposition to "Den Politiken," the party organ. It is generally understood that, while Hoglund still calls himself a Communist, he is definitely planning to allay himself with the social-democrats.

The bulletin on the situation in the Sweish Communist Party, issued by the Communist International is as fol-

The crisis in the Swedish Party developed in the middle of August into an open split. On August 18, the "Politiken" published a declaration of the majority of the central committee to the effect that it definitely declined to carry out the referendum demanded by the Comintern. At the session of the central committee on August 19, the delegation carried the following resolutions of the Comintern: (1) Only comrades nominated by the members of the Party can be Communist randidates for parliament, and not the opportunists nominated by Hoglund. (2) The referendum on the question of the decisions of the Comintern must be carried out immediately. (3) The editorial board of the "Politiken" is to consist of a representative of the Hoglund group, a representative of the opposition and a representative of the executive. The Hoglund group refused to carry out the instructions. During the night from August 20 to | 21, the proposed alteration in connection with the editing and managing of "Politiken" was carried out. A special meeting of all party members was called at 6:30 to hear Foster stands. on the problems facing our organization. The many could not atend owing to the early hour, yet the hall was crowded before he finished. His re-

marks on the application of party tactics to the present situation left : lasting impression and there is little doubt but that these, with the success of the meetings, will have a most beneficial effect on the local movement.

Reorganize the T. U. E. L. The reorganization of the Trade Union Educational League for this

section will be accomplished at a mass meeting of all party members who belong to unions, and plans will then be launched for an aggressive industrial campaign.

Politically, the party in California is in a difficult situation. The tidal wave among the workers toward La-Follette is particularly noticeable here. Renegade members of the organization are very active in the La-Follette movement.

Fictitious Enrichment of Germany.

But the experts would have us believe that the German railroads, industries and government are today richer by the very amount in which they were freed from debt thru the depreciation of the mark currency. Perhaps this so-called enrichment of Germany is to make up for the economic losses she suffered as a result of the robber peace treaty of Versailles! It is on the basis of this tresh air and drags his weary frame source of "enrichment" that a five billion gold mark bond issue secured by a first mortgage on corporation properties is to serve as a source of income for reparations.

Egyptian Premier Shows Anger Over Neglect

(Special to The Daily Worker) LONDON, Oct. 6.-Negotiations between Premier MacDonald and Zaghlul Pasha, Egyptian premier, looking toward the liquidation of the controversy over the Sudan question appear to have fallen thru.

Zaghlul has stated to the press that o agreement has been reached and n the course of the interview hinted ather broadly that Premier Mac-Donald had considered other questions of much more importance and had not been any too cordial. "If I have gained nothing." said Zaghlul. "at least I have lost nothing."

The Sudanese demand that their territory be placed under the Egyptian government and that all English troops and officials be withdrawn. Mass demonstrations in which Egyptian students and native soldiers have taken part have occurred recently and the foreign office takes a serious view of the situation which is believed to be a reflection of the unrest in India as well as part of the resentment aroused by the British clash with the Turkish forces in Irak. The Sudanese are Mohammedans.

Solving the Class Struggle

Warren Stone, head of the Locomotive Engineers Union, is to be congratulated. He has proved without any wish to do so, that a union which conducts a capitalist enterprise is no different from any other capitalist concern.

He has refused to sign an agreement with the United Mine Workers of America governing the mines in which members of the Brotherhood of Locomotive Engineers are the sole stockholders and in giving the reasons for his refusal repeats the same go and China as a result of conflict between them accusations against the United Mine Workers voiced and American exploiters that American workers by the other coal operators of West Virginia. He are supposed to cheer, throw their hats in the air, denounces the check-off and the no discrimination and swell with pride. It is for the business interclauses and announces the intention of his com- ests that the expensive consular machinery is main- 400,000 miners who were out of work and policies of the Lewis gang were pany to hire and fire whom it pleases.

In the correspondence that has taken place between Stone and the United Mine Workers' of abroad that such articles as Hurley's are published. ficials the latter have had all the best of it because they have stuck to the plain facts of unionism. They have placed Stone in the position of the steel trust property heads on the matter of a reduction of miners wages and he even raises the old familiar issue "undesirable agitators" among the miners which his company locked out and which the union has been forced to support.

No one can accuse us of undue affection for the Lewis machine that has largely wrecked the once militant and powerful U. M. of A. but in this particular controversy they should have the sympathy of every section of the labor movement. It may be possible that the Lewis machine is being used by the steel trust operators to check unwelcome competition from the mines of the brotherhood but competition is one of the fetishes of Stone and his followers and one of the risks that all capitalists must take. The labor movement is interested only in seeing that the Brotherhood properties operate on a union basis.

Stone is the petted darling of the so-called liber al element. His financial achievements have been the subject of many long and enthusiastic articles written in the best Brookwood College-Nation -Labor Age style. The entry of unions into banking and other enterprises has been hailed as the long-waited solution of the labor-capital problem and it has been held by most of the enthusiasts that here is complete refutation of the theory of the class struggle and the necessity for the dictatorship of the working class advanced by the Com-

gle in the coal mines owned by the Locomotive Engineers be presented by Messrs. Lewis, Murray and Green of the United Mine workers. As is well known, their love for the Communists is not sufficiently ardent to prejudice them in this matter. The only evidence they need to present is the fact that Stone closed his union-owned mine rather than sign a union agreement.

The Chicago Tribune is in high spirits over the controversy between Stone and the United Mine Workers and not the least important of the indictments that can be brought against Stone and his followers is the opportunity they have given the capitalist sheets to ridicule the labor movement. In this the guilt is shared by all the tribe of trade union bankers, B. and O. planners, class collaborationists and capitalist tools generally who have made of the labor movement a timid, confused and ineffective thing that the bosses neither fear nor respect.

OCHRAY visited Chicago recently, last week if I remember of funds. His paper would be turned over to any party for cash. He was out to sell it to the highest bidder. Evidently he struck oil in the Wrigley building, where Coolidge has his national headquarters, as the Mid-West News has declared for Coolidge. As usual Brother Lochray has not given a convincing excuse for his treachery. He simply came to the conclusion that LaFollette would not be elected and that a job from the republican party, even as prohibition agent looked better than running a so-called labor

N an interview to the press, sent out by the Coolidge campaign managers the honorable Lochray declares that he made a trip to the labor centers in search of wisdom. He made a trip to the labor center of Chicago in quest of dough. He did not care where it came from. He would not turn it down, not even, we venture to say if it came from Moscow. Exit Lochray.

A NOTHER gentleman from Chi-1 cago, a labor editor, that is, he edits a paper that holds up business men for blackmail advertising, refused to use a matrix sent out by a political party because it was made in Germany. The faker's name is Peter Cuniff. His paper was Gomper's mouthpiece in Chicago, before that worthy made peace with John Fitzpatrick and the New Majority changed its name to the Federation News. Now that the latter is licking Sam's boots there is no necessity for relying on the gas pipe bridage's hold-up rag.
