THE great powers are conducting in China maneuvers that are probably the preliminaries to a new world war. Just as the struggle of the entente and central powers for the balance of power in the Balkans and contiguous territory to which they were the key resulted in the shambles of 1914-18, so does the conflict for the privilege of exploiting China point inevitably to the outbreak of another titanic struggle.

China is the last great field for potential exploitation which combines two necessities for imperialistic enterprise-First Enormously rich natural resources; Second: A population of millions from which the requisite cheap labor can be recruited.

The strategy of the great powers has had as its object the dismembering of China and its apportionment among themselves. The rising tide of national and workingclass consciousness which tends to unite the Chinese population against the foreign exploiter has become a tremendous obstacle to the plans of the imperialist. They now promote internal strife and thereby hope to be able to pounce upon and devour a China that has been exhausted by internecine warfare. The following article describes in detail the two important factors in the Chinese situation—the crystallization of the national and workers' movement and the efforts of the great powers to prevent China be-

This aim is to be achieved by means of arming rebels and with the help of arms and weapons which were brought here on board the ship 'Gaf.' This steamer arrived on the 10th of August at Canton, and was immediately confiscated by mygovernment. Since then a revolt has occurred in Canton in the form of a strike, which the rebels, together with all other counter-revolutionaries, have organized. At the moment when I decided to take the necessary measures against the revolt, the English General Consul sent to my government the following letter:

WEST MADISON ST. HEARS MAURER TALK **ABOUT THE CAMPAIGN**

The Workers Party invaded the LaFollette open air camp Tuesday night when George Maurer spoke to the free lancers gathered at Madison and Green Sts. Maurer devoted most of his speech to exposing the LaFollette regime in Wisconsin. He pointed out the fact that LaFollette's supposed record as a friend of labor is a collosal fraud. Maurer mentioned that Wisconsin has a national quard which is smaller than few in the country.

Maurer told how the open shoppers flocked to Wisconsin from all over the country because LaFollette's regime protects the employers and insures them of a cheap labor supply and plenty of profits. A meeting will be held tonight at the corner of 32nd and Halsted Sts., where Victor Zokaitis and Karl Reeve will be the speakers.

PARIS, Oct. 7.—Premier Herriot's committee appointed to study methods of recognizing Soviet Russia has decided that France shall immediately extend de jure recognition to the Soviet government. The full de jure recognition will be formally extended by France not later than Oct. 20, officials here declare. The decisions of the committee have been transmitted to Washington, in view of the unwritten agreement between the United States and France, that the same attitude be taken by the two countries toward the Soviets.

Some reports in Paris had it that the United States is anxious to change its attitude toward the Soviet government, and put pressure behind France to take the lead toward recognition.

Other sources, however, pointed out that France is practically a bankrupt nation, with the Dawes plan burdening the nation with the

Soviet recognition. The friendly attitude of Japan toward the Soviet government, with the impending trade agreement between the two nations, and the Manchurian government's recent overtures to the Soviet government, have made France realize that her unfriendly relations with the Soviet government were quickly taking from her the Asiatic trade markets.

Altho the committee announces that the czarist debts must be paid,

Herriot's change toward Russia is regarded by all as a surrender to

necessity. Herriot had many times bombastically stated that France

would have no dealings with Soviet Russia until the old czaristic debts were paid to France's financiers. He has been forced by the growing influence of the Soviet government with both European and Asiatic countries, to bring France into line in an effort to rehabilitate France's decaying economic structure.

Small Shows LaFollette How the Double-Cross Is Used in Aid of Coolidge

By J. LOUIS ENGDAHL.

TODAY, Len Small is out in the open.

The governor of Illinois, endorsed for re-election by the LaFollette campaign, has brazenly thrown his support to

Governor Small jumps onto the Coolidge bandwagon. But whom do we find hanging onto Small's coat tails?

There is Frank Farrington, president of the United Mine Workers of Illinois; John H. Walker, president of the Illinois Federation of Labor; Victor Olander, secretary of the Illinois Federation of Labor; and John Fitzpatrick, president of the Chicago Federation of Labor, to mention only a few.

All dragged aboard the Coolidge bandwagon on the coattails of the Ku Klux Klan governor of Illinois.

Gov. Small worked an artful double-cross on the La-Follittes. He withheld his open endorsement of Coolidge until the time expired for filing of petitions for independent candidates.

Early in the summer, the LaFollette campaigners had intentions of filing their own candidate. It was known that the Wisconsin senator would very much like to see Raymond Robins as his candidate for governor. But Robins, the Roosevelt Bull Mooser in 1912, climbed abroad the Coolidge wagon long ago and got a front select seat.

Len Small has the support of the most reactionary labor officials in the state. So it was natural that the Bolshevikhating senator should fall in line, and accept Governor Small, with the understanding that the governor should doublecross Coolidge, and throw whatever support he could to La-Follette. At any rate, the LaFollette campaigners plunged on Small, with the result that they have now landed in the Coolidge puddle.

It was in the local theater at Harrisburg, Illinois, where Governor Small was on the program with the regular republican candidates. The clock was fast ticking away the zero hour for filing petitions at Springfield. Speaker after speaker, delivered themselves of the usual campaign oratory, for the republican party of Wall Street, and its national standard bearer, "Strikebreaker" Coolidge. Then, with one eye on the clock, Small joined in the chorus with:

"I have been a lifelong republican and always expect to be. I approve of everything that has been said by those who spoke before me."

"That was all," comments the political reporter of the "open shop" Chicago Tribune. But evidently The Tribune feels that it was enough, as it greets the governor's return to the official republican fold with the headline, "Small at Last Gets into Step with Coolidge."

The workers and farmers of Illinois should now have an easy time deciding where to throw their support in the November elections. LaFollette tried to sell the workers and farmers to the Len Small campaign. Small, in his turn, is trying to deliver the workers and farmers to the Coolidge ticket.

In declaring war on the treachery of their own officials, who tried to straddle both the LaFollette and Coolidge campaigns, and by repudiating all capitalist political candidates, the workers and farmers of Illinois will make a good beginning in the fight for their own interests.

Against the LaFollettes, the Len Smalls and the "Cal" Coolidges, the political lackeys of the bosses, stand the Communist candidates of the Workers Party. Against Coolidge stands Foster; against Dawes stands Citlow; and in Illinois, in the struggle for governorship, against Len Small stands the Communist candidate, William F. Dunne.

The Farringtons, Olanders, Walkers and Fitzpatricks cannot deliver the workers of Illinois to Coolidge. The workers will fight this treachery and join hands with the Communists, for the war against capitalism, for the triumph of

MILITANTS HAVE FULL SLATE FOR STEEL WORKERS

Program for Campaign Is Already Drafted

The progressive elements in the amalgamated Association of Iron, Steel and Tin Workers are determined to give battle to the officialdom in the coming election and a full slate will appear on the ballot. All militants should take notice and work hard for the election of the following candidates:

H. M. Waddell from Granite City, Ill., against M. Tighe for president. A. M. Jennings, also from Granite City, against D. J. Davis for secretary-treasurer. James Strong from Cannonsburg, Pa., for assistant secretary, against L. Leonard, the present incumbant.

P. J. Morgan for managing editor against the present editor, Ben I. Davis. For vice-president of boiling and finishing division, William Grey against Herbert F. Reese. For vicepresident, sheet and tin division. Frank Marshall against Walter Lar-

For resident trustee, Edward D. King against Wesley Riley. For international trustee, Bert Caldwell against Thomas Godfrey and John A. Price against R. H. Larner.

The Amalgamated Association of Iron Steel and Tin Workers, which is practically the only organization functioning in the steel industry, has like all other unions been cursed with a reactionary leadership headed by president Tighe and secretary D. Davis.

The policy of the present leaders of the A. A. I. S. T. W. is one of class collaboration of the rankest kind, which has resulted in the organization becoming stagnant and infested even with race antagonism. Locals in some places have even become units for the K. K. K.s. The official journal looks more like a buyer's guide than a labor journal. Under the present leadership the union has developed into a mere job trust for a selected few and nothing has been done to organize the great mass of unorganized and unskilled steel workers, who in 1919 under the leadership of William Z. Foster put up a great battle against their masters, but were greatly handicapped by the lukewarm attitude of such leaders as Tighe and the rest of the A. F. of L. cult that had jurisdiction in the

All militant and progressive members of the union should carry on a real campaign in the various localities for the election of the above-named brothers and the organization will be able to take its place among the progressive unions in this country. We shall publish the program upon which these candidates are running in a later issue but in the meantime remember the

CLEVELAND, Oct. 7.-Wage reductions in the textile industry foreshadow cuts in the steel industry's payrolls also, according to John Olchon, steel workers' organizer. These two industries take the lead in the wars against the workers' pocketbooks, Olchon says, because they are largely unorganized. Quiet work is being followed in the Cleveland district to unionize the steel mills. Olchon, who knows the southeastern European languages, is in charge.

> Increase Size of Classes. No indication has been made that

there will be any attempts to remedy these conditions. What is suggested in a letter sent from H. H. Brackett, auditor of the Board of Education, to Julius F. Smietenka, chairman of the finance committee, is that the numyou prefaced that statement about ber of children in the class rooms be Litzinger and Barrett by this one, 'I increased-teachers will tell you that board of education also in the class am going to say something now and their rooms are already over crowded you speak of?" Dever was asked. "Do if I ever hear it repeated I will deny to a point that makes teaching almost an impossibility-and that 1500 of the teachers be dropped from the payroll.

Other measures, too, are already under consideration by the superintendent and members of the board. The penny lunch room, according to Julius F. Smietenka, ought not to be continued

"Almost every parent is in a position today to take care of his child," says Smietenka.

It is also possible that the Cook county school for boys may be dropned altogether.

The report is being considered quietly and under cover. Members of the board were mysteriously "out. of town" all day yesterday. It is probable that they will remain 'out of town" until the time comes to slide thru at a board meeting the new cut in the teaching staff.

What Job Loss Means.

How loss of employment affects teachers can hardly be understood unless it is remembered that years of preparation are needed to gain admittance to the system, and that the reting more efficient work out of those quirements differ from state to state, teachers whose salaries are to be cut making it almost impossible for a teacher who has been "fired" from nent in another state.

That the small militant group which has been putting up an open fight against the slave-driving tactics of William McAndrew, superintendent of schools, and against the big business board which is behind him, will be the first to feel the effects of the new 'economy" is unquestioned. The revision of the budget offers an opportunity to get rid of the last remnants of self-respect and independence left to the teachers of Chicago

Single handed he cleared twenty

acres of Oregon timber and raised twelve hundred dollars worth of potatoes on the clearing. That was shortly before the 1907 panic. Foster was then a member of the socialist party and took an active part in what was to be the first left wing fight, as a leading left winger. Foster still has three sisters living in Portland, and having lived there himself for almost twelve years, he now returned to his old "stamping ground" as the Communist candidate for president. Meeting Is Enthusiastic.

The Foster meeting held in Portland on Sunday night, Sept 28, was the most successful and most enthusiastic meeting yet held on Foster's Pacific Coast trip. The Oddfellow's Hall was filled to capacity by an audience that had paid twenty-five cents admission each. District Organizer Norman H. Tallentire presided at the meeting. 1,500,000 WORKERS WHO EARNED MEAGER LIVING ONE YEAR AGO NOW COMPLETELY OUT OF JOBS

By LELAND OLDS.

(Federated Press Industrial Editor)

Approximately 1,500,000 workers are out of a job who were earning a neager living in the factories in August, 1923. This is the true story of the August employment report of the United States department of labor which enabled President Coolidge to broadcast his republican optimism before the full figures were given to the public. The report shows employment 15 per cent below the level of a year ago and total wages down more than 17 per cent. The slight gain as compared with July was below normal seasonal expectation.

(Special to the DAILY WORKER)
PATERSON, N. J. Oct. 7.— The Workers Party has become a major issue in the strike of the silk workers here. Chief of Police Paterson to the strikers, declared that his action was based upon the fact that H. M. Wicks, of the Workers Party, had been delivering objectionable speeches. The intention was to make it appear that the Workers Party was an obstacle to the conduct of the strike.

In order to force a showdown the Workers Party instructed Wicks to insist that he be withdrawn from the list of speakers by the strike committee and thus put squarely up to the chief of police the closing of the halls.

The strike committee, in special session, and after long debate, agreed to the proposition and issued the following statement:

"While the committee feels that its rights and the rights of free speech have been violated by the chief, we realize that our main task at this time is to win the strike and we cannot stop to engage in a fight that would detract from the main

"We'want it distinctly understood that the action of the committee was a the request of Wicks and not initiated by anyone else."

This statement was published in the Paterson Call on Thursday morning, and the committee selected to call upon the chief of police and demand the opening of Turn Hall. The committee discussed the matter with Tracey for several hours, but was unable to get any satisfaction.

Tracey declared that he would not open the hall, thus proving conclus-"While the Russian people have ively that his object is to break the strike, and that he was using the atand say so, the Soviet government tack upon the Workers Party as a subterfuge in order to demoralize the

The End of Fascism

The French authorities, at the request of the Italian consul, are holding a member of the Italian Fascisti accused of complicity in the murder of Matteotti. This little item of news is more convincing than long analytical articles of the weakness of the Mussolini government.

Contrast the present zeal of the Italian authorities in running down the degenerates whose crime shocked the world with the unyielding at problem of over-production i. e. "to cut sales cost titude at first taken by the head of the Fascist government. There are other facts that show the awakening of the Italian masses, among them the widespread activity of the Italian Communist Party and the support it is getting from workers who a few months ago were afraid to call their souls their own.

Mussolini and Italian Fascism are nearing the end of their rope and if resentment expressing it self in revolutionary organization continues to grow in Italy, as it doubtless will, this may turn out to be more than a figure of speech.

More Straws.

Another indication of the ever-increasing antagonism between what the proponents of Nordic superiority like o refer to as "the two great Anglo-Saxon nations" is found in the remarkably frank expression of resentment aroused in our imperialist press by the support accorded Japan by Great Britain at Geneva recently. The Chicago Tribune warns Great Britain of the vulnerability of Canada and points out the conflicting viewpoints of the colonies and the motherland on the Japanese immigration issue. Beneath this attitude again is the solid economic fact that American investments in Canada now exceed those of British capitalism and that in Australia also a home industry, making that colony more independent of British manufacturers, has grown up during and since

Japanese imperialists are the enemies of American imperialists in the Pacific and Britain must either give mill of American imperialism. American capitalists now attack Great plan and in the orient with the issue of Japanese immigration.

Nor should we be understood as saying that the operation of the plan will have no effect on the wages and working condition of American workers, It will. The bogey of German competition will be raised and the industrial depression that is here, without any assistance from the Dawes plan, will be used to beat down wages and club the American working class into the state of subjection and helplessness so necessary for the bloody purposes of imperialism.

The Big Issue.

The vitally important thing in connection with the establishment of American capitalist hegemony over continental Europe is the impetus it gives to the rivalries between American and British imperialism-the threat of war that every provision of the plan breathes.

Trotsky in a recent speech, put forward the idea of a sort of United States of Europe as the last resort of European capitalism in the struggle against the domination of American imperialism. The chief obstacle to this new alignment is the rivalry between French and British capitalism up her alliance with Japan and but one thing is certain-the extenweaken her position in China or face sion of American imperialist rule must the possibility of desertion of her soner or later bring some sort of unity dominions. All of which is grist in the between the nations that pay tribute to American supremacy.
