THE Federation News, organ of the Chicago Federation of Labor, has unkind things to say of the editor of the Mid West News because of his desertion of LaFollette for Coolidge. The DAILY WORKER was the first to wield the hammer over editor Lochray. We flayed him when he deserted the Farmer Labor party movement. It was then Lochray's foot slipped, not when he dropped one capitalist candidate and picked up another-for a consideration. The Federation News is also one of the betrayers of the working class move. His First Start in Tradment. There was a time when itunder its old name-defended the principle of working class political action, but Gompers closed the feed bag and the directors of the Federation News, nee The New Majority, dropped their principles like so many hot coals and became regular again. The only legitimate charge the Federation News could make against Lochray is that the Omaha editor was a little bit late In selling himself.

The Catholic hierarchy in America is not very well after his father introduced him pleased with the attitude of a section of the Knights of Columbus. As this ossenization has grown in power and

TO FUND TO CARRY ON COMMUNIST CAMPAIGN

Money has been coming in regularly into the local office of the Workers Party from the various Amalgamated shops since the LaFollette officials in the Amalgamated began prosecuting those who refused to give dollar donations to the LaFollette campaign fund, and are instead purchasing Workers Party campaign fund stamps which are being circulated by our comrades in the shops.

In spite of the drastic measures which the LaFollette representatives are taking to pull the dollars from pockets of the workers for the LaFollette campaign, in many of the shops with very little effort our comrades are able to collect more money for the Communist Campaign Fund than goes to the LaFollette campaign with all their big guns.

By C. H. HATHAWAY (Special to The Daily Worker)

At a meeting of the executive comcommittee came into the convention prepared to make a complete report on the manner in which the campaign was being conducted. Fred Tillquist called the convention to order.

Delegate Carlgren, of the carpen ters, then proposed that visitors take seats in the galleries, that all delegates retire to the rear of the hall, that the roll be called and as each name was called the delegate go up and take his seat. This carried.

The roll call showed 206 legal dele gates present.

Starkey again objected to the pro eeding on the grounds that the convention was not organized in conformty with the state constitution. Delegate Carlgren again took the floor pointing out that for five years the county organization had been constituted in the same manner and that no objections had been raised but that the left wing stood for constitutional procedure and therefore moved that the convention adjourn and reconvene Monday night in conformity with

the state constitution. While Carlgren was talking, Starkey go home.

The delegates refused to leave and called up executive board member Gipple to take the chair which he did. The reactionaries then turned out the lights but upon being informed of the state fire laws turned one light on again. EDITOR'S NOTE.—Only recently the American kept press was filled to the brim with reports of the counter revolutionary movement in Scylet Coorgia. Some or these sub-sidized sheets saw in the alleged in-

The DAILY WORKER has just secured a Manifesto issued by the enlarged Plenum of the Tiflis, Georgia, Soviet, and addressed to the workers and farmers of all countries. The "state constabulary of Illinois," a private corporation which claims to exist as a "law enforcing body," in reality has as one of its chief functions the establishment in this country of an autocratic militarism.

The state constabulary of Illinois was the backbone of the Chicago mobilization day program of Sept. 12, over 2,500 members of the constabulary taking part in the military lary furnished the largest deleany participating organization. Looks Like "Skin Game."

However, less than one tenth of the membership of the state constabulary attends the metings and social functions, the DAILY WORKER is informed. Most of the members of the state constabulary, as explained in the first article, are members of the Ku Klux Klan who joined in order to use the organization as a tool. Those Chicago politicians and large financial interests which back the constabulary allow the officers of the organization to carry on their petty graft, to charge members \$24.50 for nothing, because the employers know that when they need the constabulary to put over a job, the constabulary will respond. Such was the case on September 12.

St. Paul Labor Reveals Black Reaction That Is Supporting La Follette

By J. LOUIS ENGDAHL.

TODAY, LaFollette is out in the grain and corn belt on the west side of the Mississippi Valley.

Let every farmer, in every audience that he addresses, demand of the Wisconsin senator an explanation of the crime that his loyal henchmen tried to commit against the Farmer-Labor Party in Minnesota.

The DAILY WORKER today publishes the story of how the LaFoliette political gangsters tried to deliver the Ramsay County (St. Paul) Farmer-Labor forces into the hands of the most corrupt elements—the O'Connor gang—in the democratic party, now without a home of its own.

LaFollette is telling his audiences that his campaign fund is small because of the meager contributions coming in from "the people." His St. Paul headquarters, however, seem to have established valuable connections. Note these

The offices of the St. Paul LaFollette headquarters, with a \$375 per month rental, are donated by the Hamm Brewing Company.

The office furniture is the contribution of the "open shop" Louis F. Dow Co., scab office supply dealers, whose printers have been on strike for two years.

Heat and light is the donation of the Northern States Power Co., Minnesota subsidiary of the Byllesby power monopoly, with headquarters in New York

The Bell Telephone trust supplies the phone. The democratic state headquarters furnishes the steno-

THIS IS THE ST. PAUL HEADQUARTERS OF LA-FOLLETTE, THE SELF-CONFESSED BATTLER OF TRUSTS; TAKING CONTRIBUTIONS FROM THE PHONE AND POWER COMBINES.

All these facts the black reactionist, Frank T. Starkey, LaFollette agent in the St. Paul labor movement, tried to hide from the rank and file of the workers.

It was this same LaFollette agent, Starkey, who did his utmost to disrupt the June 17 National Farmer-Labor Conference, held at St. Paul, carrying out the Compers-La-Follette policy of seeking to divide and destroy the militant

forces of the workers demanding class political action. Starkey failed on June 17. He led a lone bolt. His corrupt leadership received another blow on Sunday when the rank and filers, at the meeting of the Ramsay County Farmer-Labor Federation, repudiated him and his outfit. The rank and file of the workers handed the double-dealing LaFollette campaign a black eye, and the job performed was

Labor in St. Paul has shown that it is not blinded by the LaFollette illusion. It has shown that it will not willingly submit to the LaFollette betrayal. It is now the plain duty of the St. Paul Trades and Labor Assembly to endorse the action of the Ramsay County Farmer-Labor Federation, especially in removing its offices from the subsidized La-Follette headquarters, and returning them to the Labor Temple, where they belong. The best time to fight for the class party is during the campaign. The alliances that the LaFollette forces are making, in Minnesota, in Montana, everywhere, best show the nature of the movement that is backing the Wisconsin senator.

In New York State the LaFollette campaign is the supporter of Al Smith, the Tammany Hall governor, who has accepted John Wallstreet Davis, the Morgan lawyer.

In Illinois the LaFollette boosters are urging Len Small re-election as governor. Small is a republican and stands back of the candidacy of "The Strikebreaker" Coolidge.

In Montana, the LaFollette-Wheeler ticket fights the Farmer-Labor Party and hopes for the re-election of U. S. Senator Walsh, permanent chairman of the national democratic convention.

And in Minnesota the LaFollette forces ally themselves with the O'Connor democrats, bitter enemies of the class party of the workers and farmers, and allies, in every crisis. of the bankers, landlords and grain gamblers in the republican party.

That is the situation is only four states.

It is duplicated to greater or less extent, in every state in the nation where the LaFollette campaigners are active. It is a sordid picture. It presents a black outlook. But it is the inevitable result when the workers allow their strength to be dissipated among the political expressions of the propertied interests, whether led by Coolidge, Davis or

The only clear working class note in this presidential campaign is sounded by the Communists.

In St. Paul the rank and file of the Farmer-Labor Federation repudiated the LaFollette offering, Oscar Keller, republican candidate for congress in the fourth district.

These workers endorsed the candidate of the Farmer-Labor Party, J. F. Emme, a Communist, selected in the primaries.

Minnesota's workers move forward in spite of their misleaders. Labor prepares for the class fight in spite of the LaFollette betrayal. Labor struggles, thru its own efforts, for its own emancipation.

Wu's Troops Knocked for a Row of Pigtails

(Special to The Daily Worker)
PEKING, Oct. 13.—The central government is panicstricken over the continued victories of General Chang Tso-Lin over the Wu Pei Fu armies. The Manchurian war lord is confidently marching on Peking and nothing short of a miracle can prevent him from reaching his goal. Wu forces are deserting to the winner.

Chang's victory is looked on with considerable misgivings in British and American capitalist circles. They bet on Wu Pei Fu and they are now realizing that they backed the wrong horse. Japan is chuckling. Chang is the Mikado's man, but the dollar is mightier than the yen.

Playing With Lives. Already signs are not wanting that American agents are beginning to pave the way for a deal with Chang. England is playing second fiddle to the United States in the devious diplomacy that plays with the lives of millions as the they were only so many chips on a poker table.

The Wu Pei Fu victory over the Shanghai defenders is not considered of more than temporary importance. If Chang continues to sweep on at he present rate, this gain will not make much difference in determining the result of the war. Left For Tokyo.

Shanghai defenders left for Japan after deciding they could no onger hold out against Wu Pei Fu and his American and English allies. General Chang's second army advancing thru the great wall threatens to cut Wu's line and capture the Chihlian fleet. Wu is reported to have taken the field to lead his demoralized armies in person.

Soviet For Masses. Soviet Russia is not playing with any of the reactionary generals. The Workers' Republic expresses its own open sympathy with the people of China and the cordial greetings given to the soviet consuls and ambassador shows what a deep hold the Soviet government has upon the minds of the Chinese masses.

A loan was to be forthcoming-and the dollar-sign became the star of a new morn for Germany. Not that the German workers regarded it in the same light. The social-democratic "Vorwaerts" recently had a cartoon with a sun marked with a dollarsign as the symbol of a new day. But the workers do not look at it that way The capitalists are closing the factories; wages are going down. Till funds come in thru the loan, they declare they will not be able to operate again. The Dawes' plan means reparations cut out of the hide of the workers-but the German government has accepted it, so that is an end of the matter. Ebert can do no wrongand he has the assistance of the best minds of the bourgeoisie in running the government.

Serious Problem.

Then arose another momentous question. Should Germany enter the league of nations? Stresemann, secretary of foreign affairs, was in England and had a conversation with lord Parmoor. (Yes, yes, children, the labor government, too, knows how to make use even of lords.) Then arose the grave question: Did he or did he not? Did he what? Did Stresemann speak to Parmoor about Germany en tering the league of nations or not? Stresemann said no. Parmoor said ves. This was a fine spectacle: Two foreign ministers-and neither knew what their conversation was about. Finally the mystery was solved by the explanation that the gentleman who ed only to please the imperialists and did the translating forgot to translate this most vital point. Still Germany could not be restrained from considering the matter, especially as Frithiof Nansen, the league of nations' enthusiast, had called on Chancellor Marxall on his own initiative—and convinced him that Germany's place is in the league. Ebert and his govern mental colleagues got together on September 23, and decided to approve the step. Not that Germany will now request admittance. These things have to be well considered, for many Bulgaria, and Hungary are in the things are at stake. What is Germany to get out of the league? As a member of the league, are the questions that are supposed to have been settled by the Dawes' report still debatable?

French politicians immediately declared that such rude questions required equally brusque answers: The sessions of the league of nations are about to come to a close and Germany's entrance cannot any longer be considered. Even in England, the suggestion created consternation. Greece Needs Imports

Greece, continued the Minister, needs a considerable amount of imported cereals, and in her the Soviet Republics will thus find a market for disposing of part of their grain. Fiery Cross Preacher Speaks at Detroit

DETROIT, Mich. (By Mail.) -The two famous men in Detroit that night were Sen. Robt. M. LaFollette and the Rev. William L. Stidger. And many were found in his house. The police fursurprised when it happened.

"I refer to the Rev. Stidger," Jef Fries shouted, pointing at the trick preacher of the "Church of the Golden Cross." And he added at the top of his lungs, "I want you to know him!" There was applause.

Stidger is the pastor of St. Mark's M. E. Church, on Jefferson avenue, Detroit, and is a member of the state committee of the progressive repubdican party, the party of the Ku Klux Klan in Michigan. Walker is said to have a brother and other relatives on the republican pay-roll and can trade labor votes for the release of prisoners and get you a job if you want it. Governor Small has agreed to permit Farrington to name the members of the Industrial Board and has already placed two or three of his friends on this ple-counter job. One of these has not yet cast a vote in this country, but will exercise that privilege in the coming election. One of the others coming election. One of the others are to read and write to read wo or three of his friends on this to the extent that he can make out an expense account that looks important.

Oiling the Machine.

One of the local newspapers is said to have made three hundred thousand dollars in printing during the Small incumbency and even the democrat paper is said to have gotten its share. Under the law all state printing is supposed to be submitted for bids, but all bids are declared off and it is now traded for support at the printers' own figures.

The representative of a supply concern complained because he had not gotten his share of the state's business and was promptly informed that he reason was that his competitor had sent in a check for \$250.00 for the Small campaign. A woman whose husband had been sick for some time got a job at the State House and was then ordered to pay in thirty dollars for campaign expenses if she wanted to hold her job. Other State House habitues were directed to "kick" in with a month's salary or take the consequences.

Two Years Bring Changes.

Two years ago Small was so crooked, according to the present president of the State Federation of Labor, he should have been in jail for life. He was unfair to labor. on the blacklist of the Kankakee Federation of Labor but now he is as white as the driven snow. The magic wand of "jobs" for friends and rela ties did the trick and while these friends of Small claim to be for La-Follette and Small is for Dawes. Coolidge and the entire republican slate it makes no difference. He is "friend of labor now" and entitled to labor's support. Then some people complain because they are called "labor fakers."

LACK OF JOBS CONTINUES IN STATE, REPORT

142 Men for 100 Jobs Survey Shows

By LELAND OLDS

Depression continues to characterize the employment situation in Illinois, with about 97,000 fewer workers employed in the factories of the state than in September, 1923, according to the September employment report of the state department of labor. Slight gains registered in the last two months have been insufficient to cause appreciable improvement in the general situation.

Industries reporting increased employment included the metal machinry and conveyance group, chemical, knit goods, women's clothing and leather products group. The electrical industry reported a decrease of 6.6 per cent in number on payrolls and the iron and steel industry failed to show improvement.

The reports says "One of the surprising things is that iron and steel has not improved. In the mills and foundries operation continues at about the lowest point that has been reached in 3 years, and this in the face of reports which have appeared in the press that this industry had begun to recover."

The Chinese Puzzle

The Chinese situation is a very good object lesson for those who believe that the capitalist powers are serious in their peace maneuvers. While the League of Nations was babbling over "peace protocols" and Herriot and MacDonald the part of every loyal member of the union in a Jordanija, Tschenkeli, Zeretelli, Zeretell were pledging the love of brothers in their crusade against war. England and America were putting trade union officialdom. It becomes the sacred Second International and intriguing up a united front in China behind Wu Pei Fu, while France and Japan were supporting Chang Garment Workers' Union to rally to the demands powers of Europe for the overthrow Tso-Lin, the Manchurian war lord.

The Chinese puzzle is no longer puzzling. Those who follow the civil war in that country are get-lers and not the bosses. ting acquainted with the names of the generals. These generals are generally the puppets of the capitalist powers. Dr. Sun Yat Sen is the one outstanding figure who puts the interests of the Chinese masses above his own personal aggrandisement. Sun has the support of Soviet Russia and behind Sun are the great teeming millions of China who now have for the first time in their history a great friendly power as a neighbor. That power is Soviet Russia.

China is now the cock pit of the deadly competition between the United States and Japan over the domination of the Far East. There are many reasons why this sort of campaign against the class-conscious workers is bound to fall flat. For one thing the scheme to howl against the "reds" and charge them with fantastic bomb plots, with assassination schemes has been tried so often and failed as often, that even the most credulous can no longer be fooled. Then, the Communists have shown on many occasions to many workers that they are the ones who fight hardest for the interests of the working class and fight openly and courageously. Add to these reasons the fact that the Communists now have a press which helps them considerably not only in stating their own case before the masses, but also, refuting the lies, the vicious canards being be extended to include the Sudanese whose recent he held a banquet in a scab hotel. The new "expert" is none other than stoolpigeon of the rankest type parading under the name of Spolansky. He is the same spy who boasted of having sneaked his way over to Bridgeman in order to help organize an attack on a Communist meeting.

It would appear that the spy Spolansky has been fired by the federal department of justice because his services were not needed. Obviously even the Washington red-baiting authorities are thru with the "goods" Spolansky has been delivering to them. The Bridgeman experience alone has proved such a boomerang to the authorities of "law and order" that the agents connected with the attack must necessarily have shown their hands.

It was good news, indeed, and a telling symptom of a new day, that mass meeting of protest of the workers in the dressmaking and cloak trades, held in Cooper Union in New York, Saturday, October 11. It was a manifestation and proof that the membership of that union will not stand any longer for collaboration with the bosses, secret diplomacy and dictatorial bureaucracy in the affairs of their union.

For the first time in its history Georgia has been covered by a close net work of educational institutions for the maintenance of which the So viet government devotes 54 per cen of the state budget. In the atmos phère of undisturbed peace the labor of the workers and peasants of Sovie Georgia is converting this country into a center of highest culture.

But this prospect which stirred our hearts with joy. infuriates those trai tors to our cause, the Georgian men sheviki. As they consider themselves not only to be the outpost of all the forces, of Georgian reaction but als an integral part of European reaction, the leaders of the Georigan menshe ers and peasants without exception have entered into a close political and military fighting alliance with the par

This reactionary group whose means was not difficult to discover has uninterruptedly carried on a dis organizing and provocatory propaganda within the country and is constantly endeavoring to bring to nought all the results of our reconstructive work. These destructive tendencies have particularly increased since the recognition of the Soviet states and have assumed an outspoken brigandlike character. the accompanying manifesto of the Tiflis Soviet.—Editor's Note.

FOR THE INDEPENDENCE OF GEORGIA

The following declaration, issued Sept. 3, is the one referred to in

THE Committe for the Independence of Georgia having from the first

pendence of Georgia was convinced that it would be able to prepare and

carry out an armed insurrection of the Georgian nation for this pur-

pose. . To this end the committee for independence thru the medium of

the parties affiliated to it, in the course of several years, carried on the

appropriate work and organized armed groups. On the other hand, thru

defeat. The organized mass insurrection which we had been expecting

did not take place. The broad masses of the people did not support us.

We were left alone with those active forces which had been recruited

from the upper circles of the nation and which had for the greater part

hidden themselves in the forests. Our action, practically against our will,

became converted into a mere adventure which was, of course, followed

by strong reprisals on the part of the authorities, the responsibility for

independence declares that, beginning from this day, the continuation of

armed struggle against the Soviet power appeared to be doomed to com-

plete failure and to be disastrous for the Georgian nation. In view of

this, the committee for independence calls upon all parties affiliated with

it and upon all armed groups which have dispersed themselves in the

remote corners of Georgia, amongst them the armed troops of Kakutz,

Tsholokashvili, to cease immediately from any further action against the

government, to disband all their armed forces, to give up all weapons to

the governmental organs, and by obedience to the government to mitigate

that enormous disaster which our insurrection has brought upon the

The capitalist and social democratic press will attempt to deceive you rewill serve you up hair-raising stories of revolt on the part of the Georgian people, as they have repeatedly done hitherto. Do not believe

Before the sitting of the League of Nations the reaction has decided to carry out the despicable comedy of a general uprising of the people in orler that the meeting of the international slave holders in Geneva could lemand the handing over of Soviet Georgia to them under the mask of estoring the rights of a "democratic government" of Jordanjia

But this, comrades, will not happen. We are not going to enter the prison house of capitalism again no more than the peasants of Georgia are longing for the return of the feudal lords driven out by the Soviet government. We are determined to defend the Soviet system with our lives, apart from which we have no hope of favorable conditions for our final renaissance as class and for our national-cultural development. And we have the right to expect from you, our fellow-workers. that you will allow no fresh betrayal of the broad masses of the workers by the leaders of the Second International, who are conspiring vith the former ministers of the Georgian mensheviki against the vorkers' and peasants' power in Georgia.

The Soviet of the workers, the member's of the red army and of the peasant deputies of Tiflis sends you its fraternal greetings and emphasizes that the only thing we are longing for s peace and quiet in order to carry on creative work for the up-building of the proletarian state and the great alliance of the workers of the whole world.

Long live the revolutionary cause of he workers of all countries!
