GOOLINGE BLOW AT RUSSIA FAI Soviet Workers Greet Paterson Silk Strikers

AS WE SEE IT

By T. J. O'FLAHERTY.

WARREN S. STONE, one of Robert M. LaFollette's chief backers, has not yet replied to the charges made against him by John L. Lewis, regarding the Coal River Colleries case. Again we warn our readers that between Lewis and Stone, there the only a choice between two evils Soviet Textile Workers is only a choice between two evils. Both are outstanding labor fakers, but to Paterson Comrades In this case, and thru no fault of his own, Lewis is in a more favorable position while Stone is in the same category as the non-union coal oper- bers of the great textile union

Stone sarcastically refers to the Lewis publicity, suggests that the expenses were paid by the G. O. P., which is almost believable, and intimate that Join L. Lewis was offered a cabinet position with Coolidge in case the silent man is re-elected. All these simpositions are very likely well founded.

OUT the workers of this country are not so much interested in the price of Lewis's service to the republican party, any more than they are in what Stone was promised politically, for his efforts in behalf of that p! and seasoned republican, Robert M. LaFollette as they are in what Sone has to say in justification or explanation of the charge of scabbery. Instead of doing so he winds up a brief paragraph of comment on the matter by boasting that the Brotherbood of Locomotive Ingineers would enist long after "some of those other so called labor organizations are forgotten." A labor organization that has not at least one dozen banks is not considered respectable by the Wall Et eet financier, Warren S. Stone.

Party on Ballot in Connecticut

By WILLIAM SIMONS

(Special to The Daily Worker) NEW HAVEN, Conn., Oct. 22.-The comrades of District 15 have accomplished a task that seemed hopeless. Two years ago very few signatures were gathered. To get the state ticket on the ballot required 3,250 certifled algnatures in the hands of the state secretary by Oct. 14, after submitting them to the town clerks before October 7. 3,490 were certified by the town clerks. Two hundred more would have gotten the presidential electors on also. But the task accomplished is nevertheless a meritorious one.

Comrade Bloomfield, who was called in for a few weeks' work, secured about 1,000 names, of which about 600 were certified. The best volunteer work was done by Jennie Feldman of Bridgeport with a gross

The state ticket is composed of the following candidates: Governor: William Mackenzie, Stamford carpenter. Lieut. Governor: P. S. Kling, New Haven laundry driver. Comptroller: John Gombos, Bridgeport office worker. Secretary of State: Mary Dworkin, Bridgeport clerical worker. Treasurer: Chas. Crasnitiski, Waterbury brass worker.

That the ticket is on is due to the work of the local campaign managers in the various cities as follows: Hartford, John Kluchen; Stamford, A. Wofsie; Bridgeport, Mary Dworkin; Waterbury, Chas. Crasnitiski.

Chicago Tribune Tries to Parade as Fighter for New Against Old IN NOVA SCOTIA

By J. LOUIS ENGDAHL.

ODAY, the Chicago Tribune, self-styled "World's Greatest Newspaper," unblushingly admitted, lets out an awful howl, in the best trust-busting style of the rampaging senator from Wisconsin. It is wild against "monopoly": this time the so-called monopoly of the newsgathering agency, the Associated Press, over its own dispatches.

The Tribune wants the Associated Press stuff, not only for publication in its pages, but also to send out thru its broadcasting station to listeners in on the radio, and it is going to fight it out in the courts.

It sounds rather strange for The Tribune to proclaim that, "The issue is regarded as in effect a clash between the old and the new." The Tribune claims it is on the side of the radio, that it wants to serve the people, that it is for pro-

Just a little study of the situation will show that The Tribune is just playing its old hypocritical game of trying to put itself in a favorable light before the public.

This is The Tribune that robbed the school children of Chicago, thru midnight land deals in the board of education. This is the Tribune, champion of the Landis "open shop" schemes. This is the Tribune that is erecting its new building with scab labor. This is the Tribune that labels as "Bolshevik" every little change that hits in the slightest at things as they are. Now this Tribune claims to be the advocate of "The New."

The Tribune is a member of the Associated Press, perhaps the world's most extensive newsgathering agency. The Associated Press is not a profit-making institution. It belongs to its newspaper members, the largest capitalist newspapers in the nation. They direct its affairs and share its expenses. Its nearest competitors are the United Press Association and the International News Service, both moneymaking propositions, the later owned by William Randolph Hearst. While the service of the last two agencies can be bought by newspapers, it is impossible for any newspaper in any city to get a franchise in the Associated Press without the consent of all other "A. P." newspapers in that city. Of course this never happens since newspapers already in the field, do not want competitors.

Hearst has secured Associated Press franchises only thru buying up entire newspapers already possessing such franchises, costing him millions of dollars.

But it is inevitable that some Associated Press newspapers should be stronger and wealthier than others. It is the most powerful that have most money to spend to entrench their positions. It is like the Standard Oil trust. fighting to maintain its position against its smaller competitors, battling for their very lives.

The Tribune is strong and powerful. Its profits run into the millions annually. It has spread out into other publications. It is quick to utilize any new scheme for its own aggrandizement.

The Tribune was not slow to realize the possibilities of the radio. It has its own broadcasting station, over which it even sought to send out the proceedings in the recent Loeb-Leopold murder trial. It costs a huge sum to keep such a broadcasting station in operation. There are returns. Radio users pay no subscription price. There are no advertisers. But there is a return in the enhanced prestige of the

newspaper doing the broadcasting.

The Chicago Tribune, no more than the Daily News, or any other capitalist newspaper, believes in the radio as an instrument of progress. It is merely a means for building its own power. It is a weapon with which it can crush some of its competitors, also members of the Associated Press, or subscribers to other news agencies.

But every "A. P." member has a vote in determining the policies of the organization. The little fellows, in selfdefense, demand that "A. P." news be not used for the purposes of the radio.

The issue, therefore, is not "a clash between the Old and the New," but a warfare between the two factions in the Associated Press, the rich and powerful newspapers, striving to further entrench themselves, and the smaller newspapers, with diminishing circulations and constantly on the verge of bankruptcy, ready for a new capitalist press consolidation.

It is well for the workers, half a million of whom daily buy the Chicago Tribune, that the warfare in industry extends to newspapers as well. It is a warfare in which the workers have no interest; no more than they are interested in the struggle between Standard Oil and Sinclair Oil: between United States Steel or Bethlehem Steel, or other groups of capitalists. That is the "dog eat dog" struggle within the capitalist social order.

The workers have but one interest. That is to build their own power. Part of that effort must be the building of an unconquerable press of their own; to make it the most powerful. That is the only struggle between "the old and the new" that is worth while; the supplanting of capitalism by Communism.

U.S. MONEY TO AID COOLIDGE

Anything to Make the Poor Elephant Go

By CARL HAESSLER.

Herbert Hoover's department of commerce, supposedly an impartial government unit that tends strictly to business, is in reality another cog in the Coolidge re-election machine.

This is demonstrated by little tell tale markings on two sets of envelopes recently delivered to the Federated Press office in: Chicago by the postoffice department.

Sends Out Pamphlet Flood.

It is a common practice for federal jobbolders to campaign for their chief when he needs help but it is generally expected that government funds and apparatus be devoted to other than partisan purposes.

Apparently secretary Hoover believes another well-known crists of civilization is at hand and that every resource must be mobilized to save capitalism, just as relief funds and stores were used in Europe by his relief staff after the war to intrench reaction and overthrow progressive and radical governments.

Hoover's speech against government is being distributed in a national flood of pamphlet reprints. The Federated Press received two copies entirely unsolicited. The pamphlets do not say who is distributing them or paying for them. They bear no union label. The envelopes are plain large government envelopes bearing 1c embossed postage. There is no return address. Like the pamphlets they are completely anonymous.

But there was one clue. One enrelope was addressed: 1188 Federated Press

511 N. Peoria St.. Chicago, Ill. The other was addressed: 2526 Federated Press 511 N. Peoria St., Chicago, Ill.

These serial numbers were peculiar on an anonymous once-only communication. But they furnished the key. Helps the Poor G. O. P.

The Federated Press receives every week the official reports of the U.S. department of commerce. They bear the department's return address in one corner and the legend, Official Business-Penalty for Private Use \$300, in the other. The Federated Press address on them carries the same serial numbers, 1188 and 2526, 175 and 172-6, as did the envelopes with Hoover's pro-Coolidge propaganda-proving that department of commerce regular mailing lists and addressing machinery were put at the disposal of the Hoover campaign for the republican party.

JAKE SPOLANSKY FALLS INTO DAILY WORKER'S TRAP WITH HIS SILLY WALL ST. BLAST STORY

By MANUEL GOMEZ.

Because of a certain unallocated \$500,000, which it was believed bankers could be scared into handing over to the detective ephone number, drop him a note, and agencies for investigation of "reds," the lives of 30 people were sacrificed and upwards of 200 were injured, on Sept. 16, 1920, in a terrific bomb explosion, one of the most powerful blasts in name or address. Blast Still is Mystery.

Officially the Wall Street bomb explosion is still a mystery. The only thing the department of justice professes to know about it-after all its arrests and bustle of activity-is that it was the work of "reds." This was the explanation adopted by the authorities at the beginning.

It was the theory the private detective agencies wanted it to adopt. It was the theory that served the purposes of ex-Attorney-General Palmer. It was the theory that loosened up those Wall Street dollars.

Now the Labor Defense Council, which is co-operating with the DAILY WORKER in the publication of the present series of articles, has been gathering information on the Wall Street bomb explosion for some time. This information explains why the affair remains such a perplexing "mystery" to the government "red" hunt-

COMMUNISTS OF ITALY CALL FOR UNITED FRONT

But Bourgeois Radicals Only Mumble Phrases

ROME, Oct. 22.—The proposition made by the Communist Party of Italy to the bourgeois opposition against the Fascisti, demanding that a separate parliament be established to fight the Fascisti tyranny, was turned down even the constitutional liberals do not recognize the Fascisti parliament in which they refuse to participate.

This so-called constitutional opposition is really the father of Fascism tho it is not now at all pleased with its offspring. Before Mussolini marched his black shirt bandits on Rome, these jabbering liberals were in power and while they imprisoned the workers who had arms with which to defend themselves, the Fascisti were given a free hand.

THE WORKERS MONTHLY

1113 W. Washington Blvd.,

7TH VICTORIOUS YEAR-NOV. 7TH

World-wide Celebration of the Russian Revolution JOIN IN!

THE revolutionary proletarian world will celebrate this seventh anniversary of Soviet Russia in greater numbers than ever before.

This year, added hundreds of thousands of workers who have seen the light will join the Communists in Europe, in Asia, in America, and pointing their fingers towards the rising sun, will tell added millions of workers the story of Soviet Russia.

The story of Soviet Russia is the story of the World Revolution. Soviet Russia has pointed the way. It has given direction to the world's proletariat and told how every country's working class might free itself.

Soviet Russia, the torch-bearer, has a right to demand. As the advance guard it has the right to call upon every revolutionary group in the world to tell the proletarian world, upon this anniversary of the birth of the first proletarian republic, the story of the revolution and its political significance for every land in the world.

Soviet Russia demands of you to commemorate and to celebrate. It calls upon you to demonstrate in your city your own revolutionary

The Circle

A Mark of Accomplishment

No campaign of the DAILY WORKER to increase its circulation has received the success of the present one.

Thousands of workers with the progress of the Labor movement at heart have become active participants of the DAILY WORKER Bricklayers' Union and have sent us the load of subscription "bricks" that are pouring into the office to "Build the DAILY WORKER."

These workers believe that a most effective method to aid the American Labor movement is by working for the success of a Daily newspaper that has championed actively, aggressively the workers' cause in every struggle.

They believe that, and much more—and work for it. If you do also-and want to see the cause of Labor more effectively promoted, and reaching more workers, you will cut out this brick below and add directions and remittance. Around the length of subscription that you desire for the worker you have induced to subscribe—you will place a circle. Then send it to the DAILY WORKER.

That is your mark of accomplishment for the Labor movement.

International Greetings to Silk Workers

Cabling their greetings and wishes for victory of the Paterson silk strikers, the All-Russian Textile Workers' Union and the International Propa ganda Committee of the Textile Workers have again demonstrated what international working class solidarity means. The Russian workers, in control of their own land and rebuilding it on the basis of Communism, are never too busy to watch earnestly the struggle of workers in other lands, and to send their messages of encouragement. The moment they learned of the Paterson strike they sent their message of solidarity. If the strike con tinues, the Russian textile workers will probably collect strike support from the mills and factories of Soviet Russia. They are supporting with all their power the attempts to organize international action of the working class of the world for victorious struggle.

The DAILY WORKER transmits this message with great joy, and to the Russian workers it extends the appreciation of the silk strikers and their friends for the expression of international solidarity of the workers. The whole body of tex- in private, he does not say. tile workers in America, and the entire conscious working class will fight with greater energy and has finally succeeded in eliminating itself as a enthusiasm, under the inspiration of that ideal of revolutionary unity that is so flamingly held before them by the heroic Russian workers.

Long live the Paterson silk workers!

Long live the revolutionary struggle against capitalism!

Long live the Russian unions and their government, the Union of Socialist Soviet Republics!

There Is Gnashing of Teeth

When John L. Lewis lifted the charter from District 26 of the United Mine Workers and suspended the duly elected officers of the Nova Scotia miners, the resentment among the coal diggers was very strong and justly so. Many of them thought the best way to reply to the attack of the reactionary Lewis would be to secede from the International. you ask. Well, more than you probably think. For not only have the capitalists the desire to create an army of loyal youth, loyal, of course, to the capitalist class and ready in a few vears to rally to their call, whether it be to go again across the sea for another imperialist war, or whether it shoot down strikers; their aim is even more definite and sinister. Let me quote again from the publication

of the National Security league. "The Allies have won the first war. and they will win the second. Until they do, the fight to make the world safe for democracy is only half finished. Our relation to this second child with a box of matches alone in struggle is exactly what our relation

"I wonder what effect this (against more defense appropriations) would have on Lenin's Council, if they had the airships ready which they will soon possess, and the wicked whim to extend their area of rapine and annihilation to our shores. That these devils, committees of every crime against God and Man, might do so, is possible at any moment and yet we are totally unprepared for defense against them or any other nation with whose purpose we might come in conflict.'

Or lastly, read this from "Women

and Bolshevism. "Bolshevism and Americanism canwon. We are facing another war that we must fight with all our strength of will and purpose. It is the fight of Americanism against Bolshevism Can women whose men helped in the World War, hesitate to say on which side they stand.

That is the reason for American Education Week, from Nov. 17 to Nov. 23. Already the capitalists are organizing their forces, spreading their propaganda to prepare the working class youth for the conflict to come. And how are we to combat this? The Workers' Party has an organization whose one purpose is education of the working class children to their role in the class struggle. The Junior Section of the Young Workers League. Junior Groups under the direction of local branches of the Young Workers League and some times of the party, are in existence in all parts of the Unites States. It is the only organization in the United States which is systematically combating the vicious propaganda of the capitalists. It is the duty of every party branch, of every local of the Young Workers League, to get behind children's movement wholeheartedly and help them in their great task of bearing the message to other working class children in spite of this organized propaganda against them The Future belongs to Remember!

AS WE SEE IT

(Continued from page 1) ings are welcome into the ranks of the British labor party but the Communists are not. At least so Ramsay MacDonald has decreed. Perhaps he fears that a Communist left wing inthe tires of the McVittie "endowed" automobile. The family of Stanley Baldwin has gone over bag and baggage to the labor party and wealthy women with chokers of pearls are canvassing for votes at the mill gates for titled gentlemen on the labor ticket. The King has not yet joined the labor party but it is known that as long as the labor ministers consent to kiss his anatomy humbly and polite ly, he sees no reason why he should bore from within.

THE LaFollette bosters are proud of their millionaire allies. Millionaires in the United States are welcome in the LaFollette party. The workers are invited to do the voting. The published statement of every supporter of the LaFollette candidacy sent out over the LaFollette publicity declare allegiance to the capitalist system. What they want is clean government. The British labor party refuses the Communist Party admittance on the same terms as the other groups that compose the British labor party. There is a reason. The Communists fight the capitalist system. They are not concerned with playing the role of scavangers in the sewers of capitalist government.

THE capitalist system cannot even be cleaned of its filth. All the efforts of even well intentioned reformers are of no avail. It must go filth and all. The capitalist system has served its purpose in bringing the machinery of production to its present perfection. Perhaps the following story may illustrate the point:

A N Aglican bishop invited another clergyman to dine with him. The bishop had a leg of mutton which was older than was good for it. Instead of purchasing fresh mutton, he had the old leg cooked and served for dinner. His guest's smellers were in good condition, so when requested by the bishop to say grace before meals, the clergyman broke into poetry to relieve his burdened soul. This is the way he said grace:

Good Lord above, look down with

"Upon this leg of mutton, Once it was sweet and good to est.

"But now, good Lord, it's rotten."

CO is the capitalist system.
