MOST BITTER FOE OF SOVIET REPUBLIC FINALLY BENDS ITS KNEES TO THE WORKERS' RULE

(Special to The Daily Worker)

PARIS. Oct. 28.—Announcement was made by the foreign office today that a French note recognizing the Russian Soviet government would be sent to Moscow later in the day.

The Petit Journal, in commenting upon Premier Herriot's decision to grant de jure recognition to the Soviets, said that this action placed France in a position to discuss the debt which Russia owes France.

"The first result of recognition will be the re-establishment of diplomatic relations," said the Petit Journal. "Jean Herbette is mentioned as the possible

Pledge Support in Fight on Alliance BRITISH TRADE UNION CONGRESS of British and American Imperialism

THE campaign waged by the Workers Party to win the American workers for a revolutionary class struggle against American capitalism is being watched with great interest and hope by the workers all over the world, is the word received by the Workers Party in a cablegram from the Communist Party of Great

The success of the Workers Party in the fight it is making in the election campaign will give the workers of other countries new courage for their own struggles, the cablegram declares. The part played by American capitalism in Europe thru the Dawes plan makes the fight which the American workers make of great importance to the workers of all other countries.

The cablegram in full reads as follows:

London, Oct. 27-28. Workers Party of America, 1113 W. Washington Blvd., Chicago, III.

Communist Party of Great Britain sends Workers Party of America wishes for success Comrades Foster, Ruthenberg and other in presidential election. Eyes of workers of the world turned today upon efforts of vanguard of American proletariat to consolidate and lead to victory class alliance of workers and exploited farmers.

Workers of Great Britain see in your great fight first serious challenge of American capitalism, which today is center of world imperialism.

Congratulate you on exposing class co-operation policy of socialist party which is following the trickster LaFollette.

In your success the workers everywhere will gain new confidence and strength for own struggle against both British imperialism and lackeys of impenialism masquerading as labor party leaders, who want British workers to co-operate with British capitalists in exploiting subject races of British Em-

ACCEPTS ZINGVIEV INVITATION TO INVESTIGATE FORGED DOCUMENT (Special to The Daily Worker) LONDON, Oct. 28.—The Trade Union Congress announced today that it would accept the offer of G. Zinoviev, president of

the Communist International to send a mission to Russia to investigate the forgery published by the foreign office.

All indications now are that the "plot" will prove a boomerang. Whether MacDonald's apparent duplicity will have damaging effects on the labor party's interests at the polls, or only on his own personal fortunes is too early to predict with any degree of certainty.

It is not too early to say, however, that the rank and file of British labor are thoroly disgusted with the attitude of the premier and also of Snowden and

In his message to the British trade union congress, Zinoviev, said "There was not and there could not be such a letter. The fabrication is so crude that no one, not even a too literate of ficial of the foreign office, but could see its falsity.

"It seems that the laurels of Mr. Hughes are being divided by some one in England. It is obvious that we have

Zinoviev also referred to an offer ne made to Secretary of State Charles Evans Hughes, to establish the falsity of certain documents which the latter was using in his campaign against

Special Commission.

"We are prepared to offer to the foreign office even more than that, namely, to allow the general council question, regarding the authenticity of the alleged document. The decision of this commission will be accepted by us as final."

Most of the members of the Mac-Donald ministry have accepted the Rakovsky statement that the letter is a forgery. The following statement was issued from the labor party headquar-

Hungarian Countess Is I. W. W. MEMBERS Allowed to Enter Gates MAKE CHANGES of American Capitalism

By J. LOUIS ENGDAHL.

TODAY, the Countess Catherine Karolyi, wife of the former president of Hungary, is safely arrived in the United

She passed the portals at Ellis Island, only after slight delay, caused by the anti-Bolshevist watchman at our gates, Stanwood Menken, of the National Security League.

But the visit of Krupskaia Lenin, widow of Nikolai Lenin, to this side of the Atlantic, is still delayed. She was forbidden entry to this country two years ago, and the refusal has never been lifted.

The Karolyi family in Hungary is possessed of great wealth. It has a high social position under capitalism. It is accepted. The Countess comes to this country for a series of lectures. She will be received into the best circles. So she passes the sacred gates that are trying to hold back the rising tide of revolution.

Someone whispered into the sensitive ears of the superpatriot, Menken, that "The Countess" was coming to preach "Bolshevism," to "organize Communistic groups," and that in Europe she was known under the name of "Red Catherine." Such fearful tidings immediately stung Menken into action "to save America."

But "The Countess" had plenty of connections on shore. Heading a list of women acting on a committee to receive her were Miss Jane Addams, of Chicago, campaigner for La-Follette, and Mrs. Cifford Pinchot, wife of one of Coolidge's most ardent supporters. These readily proved that "The Countess" was not tainted with "revolution," and she was allowed to land, just in time to attend the luncheon that had been arranged for her at the Metropolitan Club.

Our comrade, Krupskaia Lenin, one of the foremost women in all Soviet Russia, did not even start the journey for these shores. She was told by Morgan's great American government that she would not be welcome.

She had but one object in coming here. That was to raise funds in aid of the Russian children who were then in

She is at the head of Russian activities on behalf of the children of the Workers' Republic. But funds were needed. The workers of the United States had contributed liberally to the relief funds of the Friends of Soviet Russia. Surely they would continue that aid on behalf of Russia's children.

But Morgan's government at Washington declared that would be "Bolshevist propaganda." Our comrade was cabled that she would not be allowed to enter the United States. So she remained at home, worked with the means at her disposal, and a new generation of children in Soviet Russia, is blooming to manhood and womanhood knowing that the capitalist United States of America not only fears them but hates them; that many of their numbers died because of the aid that was refused under Morgan's Rule.

Countess Catherine Karolyi will give her lectures under the auspices of women who believe in the capitalist social order; women who are supporting Coolidge, Davis and La-Follette in this year's presidential struggle. She is not a threat against, but an aid in support of things as they are.

Our comrade, Krupskaia Lenin, would have spoken to the great mass meetings of workers and farmers, greeting her with the singing of "The International." They would have contributed of their meager savings, to help the children of Soviet Russia.

Our comrade would have brought a message of the new day that is dawning everywhere, that is a menace to world capitalism. Therefore she was rejected.

Thus the government at Washington shows its class character. It confesses itself again but the agent of capital-

Communist Carries His Campaign to Boston

(Special to the Daily Worker) BOSTON, Mass., Oct. 28.

The meeting was the most Farrington. The result was a united successful ever held in Boston front at the Indianapolis convention, by the Workers Party from every point of view.

Analyzes LaFollette Movement. Comrade Foster held the attention of his audience from start to finish with the clearest and most direct Communist message delivered in this city for a long time.

LaFollette buttons were very much n evidence on the coats of union men and women who had been swept off their feet by the LaFollette illusion. Comrade Foster's handling of the La-Follette movement ws masterful in its elear and concise analysis. Foster in Boston explained the class basis of the LaFollette movement so convincingly and so clearly that it made a lasting impression upon every worker present.

Without one unnnecessary word or hrase, Comrade Foster laid bare the basis of capitalist society and the capitalist state; with simple illustrations drawn from the daily lives of the workers. Foster sent home the Communist message. The capitalist dictatorship was exposed by citing the actual experiences of the workers in the coal, steel and railroad strikes while the grip of the capitalist class upon alle existing institution was shown by a simple examination of the function of school, church and press.

Unemployment, the menace of imperialistic war and capitalist exploitation was stressed as the real issues n this campaign.

The role of the Workers Party and he Communist International in the proletarian revolution was simply and plainly told by Comrade Foster and the necessity for the dictatorship of the proletariat in the place of the capitalist dictatorship was brought Oil Leasing Scandal out so clearly that on one present could mistake the aims of the Communist movement.

Union Draws Up Its List of Counter Demands

The bosses have begun their expected attack on the workers in the printing trades. They started with an offensive to cut wages and further reduce the living standard of the workers. Only a united and militant defense can defeat the attack.

The Chicago Franklin Association (the employers' organization), on Oct. 21, notified the Chicago Typographical Union of their intention to reopen negotiations on the commercial job According to the contract either group can open negotiations after 60 days' notice.

Try To Reduce Wages

The letter of the Franklin Associaion shows an attempt on the part of the bosses to reduce wages. This re duction in wages will undoubtedly be followed by attempts to force the un ion to relinquish many conditions which it has won. This aggressiveness on the part of the employers is in line with the policy of the bosses' associations all over the country. They are preparing for a wholesale attack on the unions in the printing

brazen pieces of Newberryism. The Workers Party and the LaFollette forces both following identically the same procedure in the holding of county and state conventions, selecting presidential electors and certifying them to the secretary of state and the 83 County Board of Election Commissioners. But while the Workers Party was barred from the ballot, these same officials ruled that the LaFollette ticket should not be mol-

The Workers' Party is meeting this political trick by instituting a camreme court judge. Poyntz ridiculed corner Pitkin Avenue, and Hopkinson paign to get the class conscious workers and farmers of Michigan to go to the polls on November 4, and write in the names of Foster and Gitlow the Workers Party (Communist) candidates for president and vice president. Chinese Workers May Object

Sun Fo, the son of Sun Yat Sen, head of the has been making diplomatic advances to the some from within." what victorious Manchurian, Chang Tso-lin, known as the fighting man of Japanese interests in China. Chang is said to have saccepted Sun's ideas "in principle," adding like a good anti-political politician that he was "not a politician but a sol dier."

If young Sun is correctly quoted, his father is trying to avoid trouble with Chang by surrendering too much. He is willing to aim no higher than a "full fledged constitutional democracy," which is the worst lesson that young China could learn from the capitalist dictatorship of the Occident.

By giving the Japanese bourgeois devil a finger, the Chinese workers and peasants may lose the whole arm. So it is to be doubted if any such sickly compromise will be appreciated or permitted by the revolutionary workers and peasants who have been targets for Fascist-capitalist bullets.

True to one fact only was young Sun's utterance. He said that Canton "had no quarrel with Moscow and no reason not to be friends." Indeed, Rus sia is the only friend the workers and peasants of China have.

This will be found out eventually, as will the fact that the less they lean on flexible liberals who want a "democracy," and the more they depend for leadership upon the Communists of China who are fighting for a rule of workers and peasants with out sharing power with any capitalist element, na tive or foreign, the sooner will the Chinese people be really free. If Sun Yat Sen doesn't discover this in time, it will be too bad for Sun Yat Sen.

Holy Hypocrites

The convention of the United Lutheran Church of America says, "Christians may engage in just wars and act as soldiers." It gives as reason, "We recognize the fact that sin is still in the world." But it defeated a resolution urging the church "to suppress militarism as sinful."

That this is perfectly consistent with Christianity is quite obvious. It is also quite consistent with the life and exploits of Martin Luther. Luther and his modern followers are now known to be the ones meant by the carpenter who said "He who is without sin, charge bayonets!"

owner, might never have given these American hypocrites such good imperialist ethics, had the husband of Frau Cotta of Eisenach resented being made a cuckold.

But, we are told that Luther had a "practical turn of mind." He did. Altho he objected to the selling of indulgence, and raised all Germany at his protest, he later found it quite in line with this "practical turn of mind" to grant Philip of Hesse the right of committing bigamy.

The reason was exactly similar to the present Christian logic about war. "Bigamy is a bad thing and must be condemned. Nevertheless, there is sin in the world. Lamech, the heathen, and Abraham were bigamists. So in exceptional cases bigamy is justified." Substitute "war" for bigamy" and you have the Lutheran convention resolution. Anyhow. it was profitable to Luther. Princes made him presents of money and royalty was his most devoted

Why not? Luther was the pacifist-Fascist fraud, the LaFollette-Villard-Christian who talked peace to the peasants, trying to get them to bear unbearable miseries. But when they could no longer bear miseries and chose rather to bear arms, Luther issued the pamphlet in which he encouraged, nay, demanded that the ruling class massacre the peasants without mercy.

Those "sinful" peasants! Today their remote, and Lutheran, descendants, who may rise in revolt against enslavement by the Dawes plan, may ieel consoled if, when disemboweled on the field of battle, they are handed a tract explaining that the American Lutherans did it because "there is sin n the world."

In a letter to his 60,000 employes, Willard warns them that a reduction in rates would mean bankruptcy for the roads. In the beautiful class-collaboration scheme between the roads and the employes, the latter do all the hard work and get nothing but backaches and callouses in return. The liberal owners never get callouses on their hands and their chairs are cushioned.

A Note from the Mad House

The Klan Roorback

Norman L.
