GLASGOW JOBLESS STORM WAY INTO HOMES AFTER EVICTIONS: POLICE REFUSE TO INTERFERE

GLASGOW, Dec. 25.—Several thousand workers stormed the houses from which 300 unemployed families had been evicted, broke them open, and restored the evicted workers to their homes. The dismal slum streets were filled with police and land is developing over the evacua-

throngs of angry workers. The police, who were assigned to Kitchener and Jellicot streets where the unemployed were evicted for non-payment of

rent, smiled and looked on, refusing to interfere.

Feodor Challapin, of the Chicago Civic Opera company, laughed when he was told of the report emanating from the Russian emigre colony in Paris, that the Soviet government has complained about his payment of \$32,000 income tax to the United States.

"It is too absurd to bother making a statement about. But if you heard of such a complaint. I really know nothing about it," and with this he dismissed the entire matter. Then another kept press tale was exploded.

The competition between the local party branches in the races to win prizes in the form of circulating libraries on the basis of a percentage of subscriptions according to membership figures, promises to become keen as the drive progresses.

COAL MINERS Insurgent Army GWE REASON FOR STRIKE

Attack Boss-Cappellini Combination

(Special to The Daily Worker) WILKESBARRE, Pa., Dec. 25.

-The athracite miners of District No. 1, United Mine Workers of America, have given a stinging reply to the combination of operators and union officials that seeks to drive them into unbearable conditions by breaking the strike called by the general grievance commit-

In large posters headed "Why We Are on Strike" the miners excoriate their traitorous officials, particularly Rinaldo Cappellini, district president. "The strike was imposed upon us thru the failure of the company officials and officials of District No. 1 to heed the crying need to have unbearable conditions remedied," the miners say.

Lockout Eight Months Old. Grievances presented to the district officials of the union eight months ago are still not adjusted. At the Ewen colliery, for instance, there was a lockout of 120 men eight months ago. These men were even ordered restored by W. W. Ingles, chairman of the conciliation board last July in his instruction to the company, but neither the company or the union officials have noved. Such things are the ground of the grievance committee's strike order.

On Tuesday, Dec. 9, when Rinaldo Cappellini, the agent of John L. Lewis' reactionary machine and president of District No. 1, U. M. W. of A., appeared at a meeting of the grievance committee, he was asked:

Traitor Cappellini Says "None." "What assurances, Mr. Cappellini can you give us that our grievances will be adjusted without delay, providing we call off the strike and re-

"None!" was Cappellini's reply.

The miners are incensed all over the district at the district officers who have even ignored the appeal of thirty-one locals of the U. M. W. of A. for a special convention to discuss who was right in the revokation of the charters of the striking locals. The miners contend that they were enforcing the agreement which provides for delnite settlement of grievances within limited times.

There are many grievances long ending between the miners and six collieries. At the Underwood colliery there are five complaints registered by the miners. These consist of two separate vein complaints of underpayment on car scale, a complaint of poor powder which reduces output. poor coal furnished the employes and the lockout of 62 men.

At the Ewen colliery noted above 120 men were laid off March 1, a long negotiation thru Cappellini with the company has failed to have any results. At this colliery also, there is a violation by the company on wage

At the Central colliery two grievances exist since April, one of rock measurement, another of forcing dead work on agreement which was broken after the miners struck the coal by working thru 500 feet of bad work. At No. 6 colliery three complaints

exist of discrimination by the company and bad powder which cuts the wage return. At colliery No. 9. an addition there are complaints on powder and the underpayment of shaft miners. At the Butler colliery three grievances pending in one instance since May, regarding second mining and a violation of the agreefor new work.

I RUSS WHITE GUARDS **AGAIN MAKE ATTEMPT TO** COMPETE WITH TECH AID

The Russian czarists of Chicago are again making an attempt to interfere with the affairs of the Technical Aid Society. This Saturday the society is giving a performance "Coal Miner Kort," at the Soviet School, and the counter-revolutionists decided to show their "movies" again in the same neighborhood and at the same time. The Technical Aid Society is not bothered by this. It has the confidence of the workers and the performance will have the usual success, especially after it was announced that the scenery for this performance was painted by Lvdia Gibson. When the counterrevolutionists attempted to interfere with the affair of the Technical Aid Society a few weeks ago they met with utter failure,

OBSTACLE TO

Pre-Convention Canvass Shows Defections

(Special to The Daily Worker) WASHINGTON, Dec. 25. Plans of LaFollette supporters to establish a permanent new political party in the United States received a severe jolt to-

Close on the heels of the announcement that the railroad brotherhoods were against forming of a third party at this time came strong indications that farm organizations affiliated with the present progressive campaign also were opposed to the new movement and would instruct their delegates to fight it at the annual Program of the Left-Wing Canconvention of the conference for progressive political action

in Chicago in February.

The sentiment of the farm leaders was expressed in a secret poll taken by a member of the executive council of the conference.

"I have found only one man among the representatives of the farm organizations who favors going ahead at this time with plans for a third party," said this council member. "The farmers do not want to go on a wild goose chase until they can see that they will achieve some definite results buy uniting with a third party movement."

Third Party Up to Convention The whole question of starting the new party is to be thrashed out at the conference's convention. A systematic fight should also be waged against the so-called trade schools subsidized by the employers associations as they aim at undermining and destroying the union.

10. Recognition of Soviet Russia. The left wing has carried on a systematic campaign for the recognition of the first workers' and farmers' government of Russia, and thru their agitation the I. A. of M. has gone on record for such recognition.

There are at present two internationals, the Am sterdam International and the Red In ternational of Labor Unions with headquarters in Moscow.

A great international unity move ment is taking place in Europe today and the Russian trade unions and the R. I. L. U. have carried on a consistent agitation for unity of the trade union movement. A great Interna tional Unity Congress will no doubt soon be held, and it is, therefore, vitally necessary that all the various internationals follow the example of the Transport Workers' International in admitting the strongest trade unions in the world-the All-Russian Trade Unions. We advocate that delegates to the Berne International be elected by the membership, and that they be instructed to vote for the admission of the All-Russian Metal Workers' Union into the Berne Inter-

It has long been the contention of the Communists that the revolutionary members of the I. W. W. must or ganize themselves definitely into a rather exclusive group to formulate policies of revolutionary education and programs of organizational work to be fought for in a militant way.

This is necessary because the I. The R. I. L. U. Position.

The Red International Affiliation Committee has repeatedly urged the revolutionary industrial unionist ele ment as distinguished from the pure inionist, pacifist, stump rancher and anarcho-syndicalist elements, to organize and fight for its ideas in an organized way. The revolutionary left wing would not have lost the many things it did lose at the 16th genera convention, if it had been organized and fought as 'a unit.

The Red International Affiliation Committee repeatedly said that the left wing would have to organize it self or be beaten by the non-revolu tionary - anarcho-syndicalist - pacifist combination which would certainly organize itself in opposition. The way the right wing conducted itself in the last convention proved that it had a caucus and was beginning to solidify. Now, in the Industrial Worker, the paper controlled by the injunctionite right-wing bloc, there appears in the issue of December 24, page 2, column one, a definite organizational call put

other than the nucleus of a right-wing opposition. Here it is: "NOTICE-There is a committee in Seattle, Wash., elected from the following industrial union branches: 110, 120, 310, 330, 460, 510 and small I. Us. They want the ideas of all the fellow workers, either thru the minutes or by mail. This is for the purpose of exchanging ideas and to getting to some common understanding of what the members want.

And a further point is that if the revolutionary left membership it cannot do so by continuing its haphazard, unorganize struggle by little temporary cabals, intrigue and total lack of definite policies and programs which must be carried to the membership in uncen-

sored papers of general circulation. The right wing in the I. W. W. is organized. The left wing is unorganized. There is only one alternative for the revolutionary elements-organize or lose. Soon or late, this will be the result. Organize or lose!

Watch the Coal Miners Plan Their Fight On the Growing Jobless Evil

By J. LOUIS ENGDAHL.

TODAY, the kept press is making much of the fact that 200 homeless and jobless men marched into a church in New York City and took over the place for the night.

An attempt is made to give the impression that the unemployment problem has been solved; just as a Christmas basket, given at this season by the Salvation Army or some other professional charity organization, is supposed to stifle the cravings of hunger for a whole year.

Urban J. Ledoux, of Boston, who is apt at publicity stunts at the expense of the jobless, staged the invasion of the Camp Memorial Congregational Church, on New York's lower East Side. The church was due for early desertion by its dwindling congregation. The pastor was addressing an audience of four when the jobless men entered. Two of these were trustees. After hurried consultation the church officials agreed that the men could stay.

Just how long they will stay depends no doubt upon the whims of Mr. Ledoux, who broke into the limelight some years ago by auctioning off the jobless on the Commons, in Boston, in Bryant Park, New York, and in other cities.

Ledoux has his counterpart in Dr. Ben Reitman, the reformed anarchist, of Chicago, who has taken to religion, but also dabbles in the unemployed problem as another means of getting space in the bosses' press.

The unemployment situation presents too great and too serious a problem to be meddled with by fly-by-night notoriety seekers.

It is a problem involving millions of workers, men and women, and also children forced into industry, that is merely

burlesqued by makeshift panhandling.

The eagerness with which men of the type of Ledoux and Reitman exploit the plight of the jobless is only paralleled by the inertia of the trade union bureaucracy in refusing to take active steps to meet even the immediate needs of the problem.

A glaring example of this inertia was seen at the conventions of the United Mine Workers of Illinois and the Illinois Federation of Labor, when the labor officialdom did its utmost to gag every effort of the left wing militants to raise the unemployment issue, especially as it presented itself thruout the coal fields of the state. It was attacked as Communist propaganda.

Nothing has been done since the holding of these two conventions by the officials of the coal miners' union, in spite of the fact that unemployment is increasing. The figures for November show an increase over the previous month.

In this crisis, as in every other vital issue confronting labor, the Communists present the only program meeting the needs of the hour, and pointing the way to the ultimate solution of this problem. The Workers (Communist) Party furnishes the leadership for the struggle against the unemployment evil.

That the rank and file miners in Illinois, especially in the southern sections of the state, are rallying behind our Communist leadership, is seen in the preparations made for the Unemployment Conference called for this Sunday, Dec. 28, at French Club Hall, in Christopher, Illinois.

This conference will not only voice the needs of the jobless but will set about satisfying those needs. It will raise the demand that industry must maintain its workers, it will urge unemployment insurance, call for the unity of the employed with the unemployed, and provide for the org tion of shop committees and unemployment councils. But these workers will realize that all concessions won under capitalism, will be inadequate, that the problem can only be solved thru the abolition of the employers' profit system and the building of the Communist social order.

Workers do not want a hard bench for a night in a deserted church. Workers demand the right to live and enjoy life. Capitalism will never grant them that right. They will win that right thru their own organized strength, thru the triumphant struggle for their own emancipation. The Conference of Coal Miners at Christopher, Ill., this Sunday, should attract the attention of thinking workers everywhere.

New Year's Eve Date of Hardy Annual

Last year it was a masquerade ball. This year it is a ball without the masquerade, but the possibilities for enjoyment are no less because the female of the species is not permitted to wear more than her usual allowance of camouflage.

What we are talking about is nothing more or less than the annual New Year's Eve ball of the Trade Union Educational League. We think everybody should know what we had in mind hence the digression.

Only Half a Dollar. It is the big event of the year among radicals in this city and a militant who has fifty cents for a ticket would no more tolerate the thot of missing it than a devout Musselman would think of foregoing a visit to Mecca provided he had the price of a pair of sandals and a supply of cocoanut outter to soothe his tooties from the effect of the sun's rays.

Time and Place. The place where this event will be neld in the Women's City Club, located on the corner of 37 S. Ashland Blvd. This is a most delightful place for an affair of the kind as your worthy press agent can testify having been there once upon a time when the Voice of Labor lived and flourished. This is about all we have to say about the matter for the time being but unless we are overcome by the Christmas spirit we will remind you of your duty to yourself and your friends on New Years Eve.

RAILROAD BOARD S. P. DECISION

Refuses Carrier's Plea to Prevent Wage Increase

The U.S. railroad labor board has denied petitions of western carriers asking that the board set aside recent settlements made between the locomotive engineers and firemen and the Southern Pacific railroad granting its enginemen a five per cent increase in

The labor board and the carriers have managed to entangle the wage dispute with so much red tape that even a Philadelphia lawyer could not digest the decisions and counter-deisions of the board. The railway employes of the Southern Pacific, however, have won the wage increase and retained their working rules, which the decision of the labor changed to the detriment of the employes. The other western roads, following out the decision of the labor board, granted the increase, but took away the working rules for which the unions had fought for years.

The labor board declares, in denying the carriers' petition, that the carriers have misinterpreted the law in "assuming that the federal adjustment board has the power to suspend a wage increase affecting a carrier because a similar increase, if extended to another carrier, might tend to produce a rate increase for the second carrier." The agreement affects only one carrier, says the board, and the board has no right to infer that it will be extended to other roads.

A 12-Page Issue! On the First Birthday of the DAILY WORKER.

HE issue of January 13 will be heaped full of facts and features-all gaily attired with cartoons to best celebrate the very first birthday of the DAILY WORKER.

Comrade Bob Minor's splendid cartoons will be a leading feature. A review of the past year of American labor in general and the Workers Party in particular-plus the part the DAILY WORKER has played in both-will be another feature.

Special contributions by Wm. Z. Foster, Wm. F. Dunne, J. Louis Engdahl, T. J. O'Flaherty, Manuel Gomez and others among the best writers in the labor movement will add their share to the first birthday celebration.

Give this issue to a worker and you assure the DAILY WORKER a new reader—and your branch of the party a new member. BUNDLE ORDERS MUST BE IN BY SATURDAY, JANUARY 10.

NEW YORK CITY, Dec. 25.-At the last meeting of Branch No. 5 Young Workers League of New York, Comrades Jack Stachel, district organizer of the league, and Herbert Zam, both leading comrades favoring the position of the minority of the C. E. C. of the party, presented that position of the minority. After a considerable discussion by the membership, the the hands of the capitalists, the pribranch voted to indorse the position of the majority of the C. E. C. of the party which is being supported wholeheartedly by the national executive committee of the Young Workers League. Sentiment in many other branches of the league is also favorable to the position of the C. E. C. and the N. E. C. of the league—supported almost exclusively by rank and file comrades.

popular thruout the country quite with the rail magnates. Hillman's steps towards class collaboration have been more guarded and his path more liberally decorated with red fire and revolutionary trimmings. But even the New York Times, finds Gompers behind Hillman in many respects. One point is worthy of note.

ILLMAN is author of the policy in the needle trades that insists on a high standard of production from the workers. This kind of thing under capitalism is class collaboration at its worst. It is not surprising What bourgeois liberals really want is industrial peace not better conditions for the workers or their ultimate emancipation from wage slave-

ENRY FORD might have secured the Muscle Shoals power plant if he had waited until after the elections. Coolidge promised it to him but the promise was made at an ir opportune moment. It fell foul of reapot Dome and other things. Now Senator Underwood of Alabama, a democrat, is fighting for a bill, that would turn over the power plant to private interests. President Coolidge, originally supported Underwood's bill, but when he saw the hand writing on the wall, he withdrew his support. Another group wants the shoals operated by the government but so long as the government is in vate interests will have it anyhow.

CHARLES R. CRANE, of Chicago, was charged by the Soviet ambassador to Turkey, with plotting the overthrow of the Soviet government from Constantinople. Crane was placunder surveillance by the Turkish po lice, and three days later he left for Palestine, Egypt, and India. This means that he has transferred his seat of operations to other sections. One of the arguments used against Soviet recognition by Secretary of State Hughes is that the Russian government interferes in domestic affairs of other nations. But it is no exaggeration to say that every U. S. ambassador and consul in the world is interfering in the domestic affairs of those countries to which they are assigned.

THE membership is backing this campaign. It realizes the worth of the DAILY WORKER to the party and the working class. From every section of the country come letters stating that everything will be done to meet quotas assigned,-yes, to beat them.

Below we print a list of contributions made by comrades that work in and visit the DAILY WORKER building. It is a formidable list. If every party headquarters thruout the country could do equally well, the campaign would be one-third over.

Every headquarters of the party, whether district, federation or local, should make it a point to sell policies to sympathizers that visit such party centers. If more than \$1,000 can be secured in pledges from members and sympathizers that visit the national center. of which threefourths has already been paid in cash, then comrades eisewhere can do proportionately well.

What the C. I. Says.

If we examine the various declarations of the Comintern on the different groups in our party, we will find that it is precisely the above estimate which was made by the Communist International. Furthermore, an analysis of the attitude displayed by the various groups in different situations before the party, shows that the Communist International was absolutely correct in its characterization of the different tendencies in the Workers (Communist) Party.

Comrade Radek in reporting to the American commission in the presidium of the executive committee of the Communist International on May 20, 1924, declared: "With the exception of the group (Lore-Olgin group) which merica and does not recognize the nave begun with the conception that serious political and social crisis."

A Correct Estimate.

Continuing his analysis of the groupngs in the American party, Comrade Radek declared: "As far as the work of Comrade Foster is concerned, I believe that we may have very serious read Comrade Foster's pamphlet in which he sides with Legien in the dispute between Kautsky and Legien. believe that this group does not look

In the same discussion of the tendencies in the American party, Comade Radek spoke of those who "have not understood enough of the revolutionary propaganda of Comrade Pepper." Radek went on to say in his characterization of the two groups that: "The group of Comrades Ruthenberg and Pepper appears to be more radical because Comrade Pepper, in his articles has opened up very radical and very revolutionary perspectives for the development in America." When insisting that there be no breach in the American party,

oninion of the Lore tendency entertakes on a particularly instructive and timely value in the present party controversy. It is in this opinion of the Communist International that we find the basis for the organic unity between the Foster and Lore groups.

Thus Comrade Radek spoke of the ore group in our party in his report before the American commission in the presidium of the E. C. of the C. I. on May 20, 1924:

"In conclusion something about the Lore group. I believe that we are not dealing here with personal lapses of Comrade Lore. He has written articles in which he presents the history of the Communist International completely in the spirit of the Secondand-a-Half International. He repreents us as a movement which at first was anti-parliamentarian, for splits in the unions and then crept out to a realistic standpoint. Or in an arsays: 'Poor MacDonald would like ing class, but the liberals won't let he says. 'Conditions in Germany have long been overripe for the revolution. But the Communist Party, for which

If he has the support of the Finnish federation, an organization with a fortune of \$15,000,000, made up of excellent skilled workers having more reformism in them than others. For that reason, I believe that the C. E. C. acted incorrectly when it regarded the lapses of Lore as lapses of a neculiar fellow. This is a centristic tendportunism in our ranks. Zinoviev Tells Truth About Lore.

And Comrade Zinoviev was even more emphatic in his evaluation of the Lore tendency as a menace to the development of our party to a mass Communist Party. We quote from Zinoviev's speech at the same session:

"As regards Lore; from what I have read, he proves that he is in no case a Communist. I really do not know whether he belongs in the C. E. C. In the resolution we have said that very politely. Perhaps we will be compelled to tell it to him less politely. The fact that Lore, too, was against the support of LaFollette is of no moment. We know the manners of the social-democrats who hide behind some barricades, who say they are against the work among the farmers because they are orthodox Marxists. The American party will find ways and means of stating openly what is the matter with Lore."

Foster-Lore Alliance Serious Menace to Party.

The danger to the party in the Foster-Lore alliance is inestimable. If the Foster group had a mistaken Communist political point of vew of its own, the matter would be serious enough for our party. But, in fact. the Foster group today lacks a political point of view. In its alliance with the Lore group, the Foster group in which there are found a number of comrades who can be of great service to the party, is thus given a political point of view which is distinctly social-democratic, which is demunist International, has shown.

The menace to the party in the ism which is the basis of Two-and-a-Half Internationalism. In order to avoid just such a calamity for our In the light of this situation the party, the C. I. instructed the Foster group to work together with the tained by the Communist International Ruthenberg group against the Lore tendency.

> Foster-Lore Alliance Violates C. I. Instructions.

But what has Comrade Foster done to carry out the C. I. instructions regarding Lore? I quote from a document officially signed by Comrade Fahle Burman, executive secretary of the Finnish Federation, and secretly transmitted to Finnish Branch secre taries from Chicago on Dec. 4, 1924. This document is a series of instructions to the Finnish branches to send a full quota to each C. C. C. meeting with the purpose of electing delegates and participating in the discussion with full strength. This closely mimeographed six page document, tho bearing the official imprint of the federation executive secretary, Burman, was never officially transmitted to the executive secretary of the party, who by the way is viciously maligned in the document. The best evidence of the Foster-Lore alliance against the Marxian group is given in the following quotation:

"THE C. E. C. MAJORITY IS COM-POSED OF COMRADES FOSTER CANNON, ABERN AND THE UN-DERSIGNED. COMRADE LORE HAS BEEN OF SLIGHTLY DIFFERENT OPINION BUT HAS NEARLY WITH-OUT EXCEPTION VOTED WITH THE MAJORITY."

And to cap the climax of this anti-Communist alliance comes the THE PARTY DISCUSSION CONTINUED

Before all, the fact must be established, that the party has in every Its membership has increased, the circulation of party papers has grown and the importance of the whole party is bigger. One of the reasons for a clear cut class struggle among the labor organizations in this country. As a consequence of this fact alone the W. P. has the best opportunities to become a large political mass organization. However, such organizations are not built in a day, especially not on the American soil. All the traditional obstacles, that a strictly revolutionary movement meets in this country, must be understood and correctly estimated, and on the other hand, in the midst of the most ardent enthusiasm and optimism, the infant age of our movement and party must be taken into consideration. The W. P. has not yet acquired the experience which is an important condition of progress and which will be gained thru the practical work.

Let us go straight to the point. Aside from this general progress, our party activities still manifest some weaknesess owing to the young age of the W. P. The coming party convention will have to pay attention to this, in order to find the remedies. It is clear that not all the party units, nor the membership as a whole, are the proved and enthusiastic Communists. that they should be. And according to this prediction-which was alone a miracie—the boasting and noisy campaign was started for building up a farmer labor party, a campaign which ate up energy and funds. This campaign lasted over two years, but suddenly a meeting of officials is called and all that there are too many office holders the previously accomplished organizing in our national office and somewhat work is repudiated and our own candidates are put in the field of election. And after all this, we get theses and statements, in which the idea about the creation of farmer-labor party is still more fundamentally repudiated as useless and unsuccessful. But for this very reason we must carry our agitation everywhere, and in some states we have possibilities to carry our propaganda thru the slogan of "farmer-labor party," on the condition, that we don't try to make of it a magic word, supposing it solves all

We know very well, that the present controversy in the C. E. C. does not lead to a split, but it has a certain bership, it has distubing influence on the stability of the party. It will inquestions should be handled in the a day for driving a mule eight hours,

As to the other questions the C. E. C. shows the same wrong methods. When, for instance, money was needed to carry on the farmer-labor agitation, then, in the first place, appeals were for volutary contributions, with the result, that the most dutiful members responded. But right after, an obligatory special assessment was levied, thus some paid only one assessment while others had to pay several times that amount. It seems, the C. E. C. is afraid, that the membership has nothing to do in the party. Therefore the C. E. C. is feverishly piling up one duty after another. All kinds of decisions and duties are imposed upon the membership at the same time. All of them are "important" and "most important." As a consequence the mem- 269 Amalgamated Clothing Workers, bership is receiving these orders smiling scornfully and do not even try to act in accordance with them. It seems, poor order. Unofficial Diplomacy

When the three Wall Street bankers, led by "Hell an' Maria" Dawes, went to Germany in order to place that country in receivership, the mission Gompers did. We seriously doubt whether and are force of the government in order to tion. This would involve some rag chewing in congress. The best thing to do was to let the mission know that it had the government's good wishes rather than give it official endorsement. In the event of the errand being successful, the administration could claim the credit and on the other the country, the New York Commercial, declared hand, if it fell down on its job, nobody could blame the Coolidge cabinet for the fizzle.

But while that policy had advantages, it also has disadvantages. The Wall Street bankers went, saw and conquered. They placed Germany's resources in hock and hold the tickets. They also collect the cash, which they turn over to the allied governments as reparations, but keeping a goodly sum for Wall Street which, to do it justice, aided by the open shoppers of the country we find an the allies considerably in putting Germany in a undercurrent of anxiety. Today, Wall Street fights Downing Street by means of diplomatic notes and by dollars. Tomorrow the weapons will be deadlier. But the war is being carried on nevertheless. HAMBURG, Dec. 25.—The Hamburg Volkszeitung publishes an appeal from German, one of many, who was driven by unemployment and hunger to join the Spanish foreign legion for writes of the terrible conditions and the brutal manner in which the Spanjards treat these German soldiers. He appeals to the German government to demand the return of all Germans belonging to the foreign legion. He states that most of the Germans are Spaniards neglect them and treat them as beasts.

The German government recently demanded that the Spanish government return all such Germans.

Shortly after the world war, when American service men were looking in vain for a job in the country they had fought for, Spanish agents lured a number of veterans into the Spanish Morocco army. The recruiting stopped as soon as the first tales of the Span-

MELBOURNE, Australia, Dec. 25.. A search among the police files a Melbourne by the newly-elected labor government in the state of Victoria revealed the existence of a fascis organization.

The files showed that all members of this secret force belonged to influen tial families, and were authorized to carry arms, to wear a badge under the lapel of the coat like those worn by American movie sleuths, and to have special marks and lights on their motor cars. Not only were the files marked "strictly confidential," but there was a note to the police chie that the strictest secrecy was to be

NEW HAMPSHIRE CAPITALISTS REVIVE INDUSTRIAL SLAVE LAW THAT ALEXANDER HOWAT KILLED

DOVER, A. H., Dec. 25.-A court of industrial relations to make strikes and lockouts impossible in New Hampshire labor disputes is proposed by Frank F. Fernald, state legislator from Dover. Fernald plans to introduce a bill providing for a court, entirely separate from the present judiciary, of Miners Doubt His Ability three appointed judges. The work of the state labor bureau and its board of arbitration and conciliation will be given the court. After 60 days' trial of the decision of the court preventing a strike or lockout either party if dissatisfied may seek modification of terms of settlement.

The New Hampshire court would be similar to the court attempted in Kansas but wrecked by an outlaw strike of miners lead by Alex Howat.

CAPPELLINI IN OPEN ROLE OF STRIKEBREAKER

For Dirty Job

By THOMAS MYERSCOUGH

(Special to The Daily Worker) WILKES BARRE, Pa., Dec. 25. Rinaldo Cappellini, renegade raidcal of the anthracite region, once the leader of "outlaw strikes" to win power for himself, now makes the announcement that his "about face" is complete, for tomorrow he begins as a fullfledged strikebreaker.

This much is gleaned from the aricles appearing in the local press of today, which are to the effect that Cappellini will appear, beginning tomorrow, before the rank and file miners, to ask them to return to work. He is reported to have based this decision on the request of a 'committee of fifty" (some committee) who, he says, visited his office and asked that he do something to get the mines started to work again.

Press agenting of this kind, however, will not accomplish anything, for it will not surprise anyone if his 'private chamber courage" deserts him before tomorrow. He claims that will be made on the employes of Underwood colliery, at which place, it is claimed, one of his supporters. in an attempt to have the men break ranks, succeeded only in breaking the temper of the strikers and having his

arm broken in the melee. Several strikers from that place upon hearing today that Cappellin will attempt to break the strike to morrow, are reported to have offered wagers that he will be afraid to appear and also declaring that if he does come, he had better be wearing a good pair of shoes, to assure his
