PRISON OFFICIALS BAR DEFENSE COMMITTEE FROM SEEING VANZETTI

(Special to The Daily Worker) BOSTON, Mass., Dec. 28 .- The Sacco-Vanzetti Defense Committee was refused admittance to see Bartolomeo Vanzetti, on Wednesday, on the grounds that he is insane. Vanzetti has been removed from his cell in the Charleston state prison to th prison hospital. He will be examined by prison "sanity experts."

Reports were being circulated by Charleston prison authorities that Vanzetti "was continually muttering to himself and had barred the door of his cell against an imag-

inary assailant." It has not been ascertained whether the prison officials are endeavoring to hold Vanzetti incommunicado on a fake insanity charge, or whether some violence has been practiced on his person, in an effort to hinder the Sacco-Vanzetti defense committee's appeal for a new trial.

Enticed Girls Into the **Opium Habit**

VICTORIA, B. C., Dec. 28.—After being employed as a disrupter in the Lumber Workers' Union of this province and later convicted as a done peddler and enticer of young girls to the opium habit, Frank Eccles, former Canadian mounted policeman, has come back into the business world as an exporter of cedar coffins to China Now in Coffin Business.

Last week he shipped some 2,400 cedar coffins to the orient, and an nounces that he has opened up this business for the selling of B. C. cedar products abroad. The fact that this vile stoolpigeon is enabled to enter the exports business on such a scale is positive proof that between his dope peddling and labor spying activities he has been well rewarded financially.

Also Stoolpigeon. Eccles was convicted, along with two other members of the mounted police, of having sold dope to young girls and when they refused to pur chase from him, planted it on them and then made their arrest. In the trial it was brought out that he was the receiver of "hush money" for protected higherups in the traffic. He also confessed that during 1921-22 he was praged in disrupting the Lumber Workers' Union by fostering the idea of a dual organization among the discontended members.

They Are Building Traps to Defend Property Rights BRAGS, FINE SHOT and Are Caught in Them

By J. LOUIS ENGDAHL.

TODAY, they are burying the dead-mere hunks of burnt flesh and charred bones—the 33 who died in the fire that swept a little white school house, in the Babb's Switch Settlement in Oklahoma.

The living were caught in a trap of their own making. there was but one small door. Wire netting and iron bars at the windows stopped up these exits.

It was a Christmas feast for hungry flames. The clumsy Santa Claus brushed a lighted candle against some tinsel on the gaily decorated Christmas tree and the fire got its start. The dried evergreen was crackling in another second. Then the whole of the sun-dried shack of a school house, similar to thousands of others to be found in rural communities, was ablaze; a roaring furnace. Men, women and children fought to reach the lone exit already choked by others. Thirtythree died, helpless as the rooted trees before the oncoming fire in the forest.

The trustees had had the bars and netting put over the windows to bar out intruders. It is declared that it was an effort to keep off "vandals." No doubt that refers to the wandering, homeless tenant farmer, who plods the cotton beit of the southwest; but who must oftimes seek shelter for the night. The property-owning, better-off farmer, who is not driven from pillar to post with each new season, must needs protect his school house against his plundered brother. It is just another slant at the struggle between property rights and human rights. The protectors of property rights prepared the trap in which they were caught, and in which many of them perished.

So the great capitalist nations, with their organized governments to defend their property rights, build the traps in which they are caught. Armies are recruited, navies are built, flocks of planes come into being, to protect property rights by land, by water, by air.

Private property begets profits that must be invested elsewhere. Foreign fields for exploitation are sought out everywhere, and the whole world is turned into a tinder box, where the least spark sets off the whole powder magazine; and then comes-WAR; from which there is less escape than was to be found by the men, women and children at Babb's Switch, in Oklahoma, thru the lone, little door in their white school house. Another Serajevo can as easily plunge nations at each other's throats and light the flames of a new and greater world conflict.

Capitalism is building the trap that will destroy it; because the time will come when the workers and farmers of other nations, like the workers and farmers of Soviet Russia, will refuse to go to war and die for their capitalist masters. They will grow to realize that they can even destroy the trap, in which millions are due to perish in the next great imperialist slaughter, if they will only awaken to the danger that even now presents itself and destroy the capitalist social order that breeds world rivalries between nations and spawns world wars.

Under any sane social order there is no reason why anyone should desire to vandalize a school house along the rural highway. It should be, under any sane system of life, a public shrine, at all time open to all. So the boundaries that divide nations should be only lines appearing upon a map; not the stalking places for marching armies, maneuvering spots for great fleets; of places to be studied by observers in bombing planes that darken the sky. It is time that the toiling masses realize that in order to obliterate the insanities of capitalism, they must obliterate capitalism itself

PHILADELPHIA COMRADES ACTIVE IN UNIONS: HEALTHY INCREASE IN MEMBERSHIP, PARTY WORK

The city central committee of Philadelphia has arranged a concert and ball for New Year's eve at the Slovak Timberman Hall, 8th and Fairmount Ave. "Clouds" will be the special feature of the concert, which will start at 7:30 p. m. Dancing begins at 8:30 and continues until next year. All Philadelphia comrades and friends will be there to greet the new year. The committee has secured an especially good orchestra to entice even the most ardent leaders of the discussion to do nothing else but dance and enjoy hemselves. The admission has been reduced to the unemployment rate of 45c, which will surely induce all our comrades to be present.

The party in Philadelphia takes the slogan of "Bolshevization" serious!

and has taken a number of definite 4 steps to put it into effect. The firs' step towards Bolshevization is education and in this field we have some concrete results already. Three study classes are now functioning regularly. A class in English language is held regularly every Sunday morning, A class in economics every Saturday afternoon and a class in trade union nistory and tactics composed of active comrades in the trade unions meets every Sunday morning. All the classes meet in the party headquarters, 521 York Ave.

WHEN Austen Chamberlain started on his recent European tour, the DAILY WORKER guessed that his main object in visting Herriot, Mussolini and other lesser agents of the European brigands, was to form an anti-Bolshevik bloc under the leadership of Britain. The prediction is amply borne out by the facts. Immediately after Chamberlain reached Paris, Herriot started his red raids. Mussolini was afraid to start any more. But the kept Balkan nations. like Bulgaria, Roumania and even Alhania, hangout for budding capitalists still in bandit stage of civilization, expelled the Soviet legation on the orders of Chamberlain. This proves that the one power the capitalist pirate government's fear more than any other is the mighty workers' and peasants' republic of Russia. FAMOUS MOVIE FILM, "POLIKUSHKA," WILL RETURN TO CHICAGO

The famous story, "Polikushka," by the immortal writer, L. N. Tolstoy, which was made into a moving picture by the Moscow Art Theater, is coming back to Chicago for one evening only. The picture was shown in Chicago at the Orchestra Hall only once last winter. Thousands of workers who were unable to see the picture at its first showing are anxiously awaiting its coming back. The picture will be shown THURSDAY NIGHT, JAN. 15, at Gartner's Independent Theater, 3725 Roosevelt Road, near Independent Blvd. Mark the date on your calender and tell your friends

All friendly organizations are requested to postpone their meetings on that date.

RUSSIAN MOVIES

Four more mining towns, two in Illinois and two in Pennsylvania, have ben added to the long list of working class centers where the Russian films make strong appeal. "The Beauty and the Bolshevik" will be shown:

Livingston, Ill., Movie Palace, Jan. 4. Bentleyville, Pa., Opera House, Jan. 9.

Daisytown, Pa., Home Theater Jan. 10.

In the first of these towns one comrade made all the arrangements single-handed and expects success in full proportion to the small scene of action. In Livingston the German fraternal organization. WHAT HAPPENED TO \$75,000?

By MORITZ J. LOEB

Now that the campaign "TO IN-SURE THE DAILY WORKER FOR 1925 is under way, it may be asked: "Why is it necessary to provide for THE DAILY WORKER during 1925? What has happened to the money that was raised to establish the Daily?" That is a legitimate question and fortunately for THE DAILY WORKER and for the party it can be given a giorious answer, In 1923 the party campaigned for

\$100,000 with which to establish THE DAILY WORKER. The campaign did not reach its goal but it was decided that we could not wait until the full amount was secured. When it was seen that about \$75,000 would be available it was thought possible to go ahead and begin pub-

It was the plan of the central executive committee to establish the paper but the establishment of the printing plant in which to publish was not seriously contemplated. "For," it was argued, "we are sure to incur a tremendous deficit with our Daily particularly at the start. In order to secure the existence of our paper we must hold all possible cash in our reserve fund to provide against this deficit."

Establishing Daily.

But it was soon seen that this was at best an opportunist point of view. To be sure deficits would be incurred. No working-class paper had ever been started without them, particularly no Communist paper. But it was not good communism to use the substance of THE DAILY WORKER to pour into the deficit seive. We must not only establish THE DAILY WORKER, we must provide now for its continued existence. If we use our money to pay off deficits, it will soon be gone and we will have nothing left. Our Daily may die. How may we best secure the future of THE DAILY WORKER? The answer to that question was of the utmost concern to those who were closest to our paper and the answer was soon forthcoming. WE MUST HAVE OUR PRINTING PLANT IN WHICH TO PUBLISH OUR DAILY. That will be the best insurance for its continued existence.

But we didn't have even enough money properly to start our Daily to say nothing of the printing plant. No matter! It must be done. We are not starting a daily to last a few days or a few months. We are here and we are here to stay! We cannot sacrifice the future of THE DAILY WORKER to its immediate

And so one of the first things that

ER was started was to look about for suitable machinery and a headquarters in which to put it. But here arose another difficult problem which demanded immediate solving. Setting up a printing plant is an expensive proposition. Once set, moving a printing plant is equally expensive. Rents were high in Chicago. Landlords were not friends of the Communist movement. It was soon seen that to rent headquarters for our printing plant was not only to pay the landlord an immediate and heavy profit but also to place ourselves at the mercy of landlords with the prospect of soon-

The same logic which demanded the purchase of our own printing plant also demanded a building of our own in which to house the plant. There wasn't enough money. Yet it couldn't be helped. What has happened is pretty well known. We not only have established THE DAILY WORKER but also we have bought a building which houses our Daily and the national headquarters of the party as well. We have established a printing plant which products not only THE DAILY WORKER but The Workers Monthly, The party's Itallan Daily, The Young Worker, our Greek Weekly and all of the job and publication printing of the par-

What happened to the \$75,000? It has been invested in the most efficient and soundest investment which our party could possibly make. It has been the laying of a cornerstone of the Communist movement in America, nothing less.

The whole plan of the party has been to make every penny spent, count for the permanence of the DAILY WORKER. And it is the opinion of the writer that if the party membership will now provide the \$50,000 to insure the DAILY WORKER for 1925, the insurance will be not only for 1925 but until that time when "Insurance" will no longer be necessary.

Comrade Zinoviev thought it an issue important enough for him to give it a special section in his report to good Communist practice, Zinoviev reviewed this important decision and rendered judgment as to whether it had proved a good or a bad decision.

"We must also combat some digressions to the right in the American movement; these digressions made their appearance with the third party, the LaFollette party; the tendency to form a common election platform with this pettybourgeois movement . . . The executive committee decided to oppose these tactics, and as events have shown we were quite right."

This, one of the most important decisions ever rendered for the American movement, was opposed by both the minority and majority. Even after the decision had been rendered and carried into effect, members of both majority and minority expressed themselves as being convinced that the decision was wrong. Whoever says we can't go to the masses in our own name, but must use a "false face" in face of the above facts has another guess coming.

COMMUNISM VERSUS OPPORTUNISM

By J. C. OBOLONSKY

Our party is at the cross-road. Its membership has to decide whither it is to go-right, or left: that is, whether it is to work for the creation of a farmer-labor party, or whether it is to get busy rooting the Workers' Party into the fertile soil of class-struggle on the basis of the united front and the immediate burning needs of the workers. Some 'minorities" propose to work for the organization of the class-farmer-labor party. So said Comrade Ruthenberg in an article entitled "Is America ripe When pressed to the wall on this for a special report. Our party thinks for a Labor Party" in the Modern Quarterly: "At this (St. Paul-"digressions to the right" in the J. O.) convention the foundation was American party, about which Com- laid (?!) for a class farmer-labor parrade Zinoviev spoke, are to be repeat- ty" and further, "The building of a ed. It may be a matter of anabout these "digressions to the other five years before there is created in this country a mass political lead the American party again into SUCH A PARTY IS BOUND TO COME." (caps mine J. O.).

Where is the foundation laid at St. Paul? If we drop the policy of bluff and face hard facts then we are bound to get a different picture of the St. Paul convention, in the words of Comrade Foster:

"The situation at St. Paul was this: The elections were approaching and it was absolutely necessary to cryson the "third party alliance" convicts tallize the farmer-labor party in order the minority of attempting to perpet- to make or try to make, a camuate the right wing digressions of paign under its banner. Our quack doctors on the central executive committee are shaking heir heads ominously and are all for putting us to bed and closing the windows and keeping us indoors for a long time, or until we get strong en ough to play with the farmer-labor party again. The chief rabbi claims that it all came about thru playing with the unclean gentile masses in the mittee majority say that if this continues it will not only kill (liquidate) us but, "will spell death and destruction to the Communist movement in America." What a horrible prospect!

When the Communist International specialists take our temperature and diagnose the case I am sure that they will find developing another incipient case of "left sickness" complicated by a little right wing sectarianism and syndicalistic idiosyncrasies. Let us examine the symptoms.

When I read the majority thesis was struck with the similarity of its those of the "leftists" of 1921. Those who were with me in the fight against recognize many of our old arguments opposed to the L. P. P. "in principle." We declared that nevertheless, the place of the L. P. We can no longer be caught with the catch phrases of a bastard leftism-especially when these emnate from the mouths of our Bittelmans and Cannons.

The majority thesis is so filled with inconsistancies-it is such a hodgepodge—that I cannot believe that it was presented for any but factional purposes. > On the Horns of a Dilemma The central executive committee!

"At the time when the farmerlabor movement was developing a mass character, moving in the direction of an INDEPENDENT PARTY, it was correct for our party to raise the slogan of 'a farmer-labor party' and participate actively in the movement for it."

Up to July, 1924, this policy was both profitable and successful. This

"The formation of a labor party becomes INEVITABLE and POS-SIBLE only inasmuch as the economic mass organizations of labor are compelled to join hands for independent political action. But when the LEADERS of these organizations enter into a PERMANENT alliance with the petty bourgeoisie, and when such an alliance receives the recognition of ALMOMST THE

ENTIRE ORGANIZED LABOR MOVEMENT, then the question of forming a labor party loses its basic foundation and ceases to be a fighting issue for immediate practical use."

This is a major premise of the majority. I shall prove later that it is not only untenable, but that it is not based upon facts. I shall prove that it is not true that almost the entire organized labor movement has manent alliance with the petty bourgeoisie for political action. The majority thesis says that, therefore;

"The Workers Party cannot advantageously promulgate the slogan of a 'farmer-labor party' AT THE PRES-ENT TIME. The further development of the class struggle may eventually create a mass SENTIMENT for the formation of a labor party. In such case the Workers Party may find it advantageous AGAIN TO RAISE THE SLOGAN for such a party AND ACTIVELY PARTIC-"WE ARE NOT OPPOSED TO A

LABOR PARTY IN PRINCIPLE." The majority thesis concludes by saying;

"Therefore, every attempt by the Workers Party to set up middle-ofthe-way bodies to take the place of the Workers Party in the eyes of the masses is in DIRECT VIOLATION OF COMMUNIST PRINCIPLES, and if carried to any length will spell the LIQUIDATION OF THE WORKERS PARTY . . .

"This farmer-laborism opportunistic tendency within the Workers Party means DEATH and DES-TRUCTION to the Communist movement in America . . . This tendency must be relentlessly combatted and stamped out." (All emphasis ours. J. J. B.)

Here you have it. Reconcile these statements if you can. Let us reduce the arguments of the majority to a syllogism:-

Major premise: Any middle-of-theroad party set up by the Workers Party will liquidate the Workers Party; Minor premise: The labor party is a middleof-the-road party. CONCLUSION: THE LABOR PAR-

TY WILL LIQUIDATE THE WORK-

ERS PARTY. Does the majority believe this? They are not opposed to a labor party IN PRINCIPLE. The party becomes INEVITABLE when the economic ist movement. Therefore, the Fosterfront tactics be imagined?

STRUGGLE. Even syndicalists may come to recognize this Marxian funthe problem thus:-

"At present the MAIN OBJECT-IVE of our united front policy is to start a movement from below to compel the so-called labor wing of the LaFollette movement to break its alliance with the petty bourgeoisie and to win the masses to the class struggle and to the leadership of the Workers Party."

"At present the MAIN STRENGTH of LaFolletteism and consequently the main danger to the class struggle comes from the ideological hegemony of LaFolletteism over the minds of LARGE SECTIONS of the WORKERS and POOR FARMERS. We must therefore concentrate our energy to expose and defeat the petty bourgeois influence of LaFollettism in the labor movement."

How? By "... putting up against the LaFollette party the Workers Party." And is this all? Only "opportunists" could ask for more. But the majority thesis proposes much more ing the reactionary rightwing lead-Listen:-

"As the working masses gain militancy and aggressiveness the situation will become ripe and the necessity urgent for a general mobilization of all the forces of labor for a concerted struggle against the triumphant capitalist reaction. The working class will then feel the need of a UNIFYING CENTER for LEADERSHIP and DIRECTION and a GENERAL LABOR CONGRESS elected by the rank and file of labor in the trade unions and in the shops and amongst the unemployed will become the best means FOR THE UNIFICATION of the struggles of labor. It is the duty of the Workers Party to IMMEDIATELY begin to popularize the idea of such a LABOR CONGRESS." (emphasis mine J. J. B.)

A unifying center for leadership and direction! We had thought that the Workers Party was such a unifying thru its leaders entered into a per- center and that nothing else could replace. Is it possible that our majority "patriots" are losing faith in the Workers Party? Or-horrible thoughtdoes Foster propose a dual union? another I. W. W.? Is Foster getting ready to liquidate the T. U. E. L. in favor of a GENERAL LABOR CON-GRESS? Who will come to the GEN-ERAL LABOR CONGRESS called by the Workers Party? Will the big international unions send delegates? Will we gather together more than we did at the F. F. L. P. convention? Will Foster launch his own LABOR PAR-TY in his GENERAL LABOR CON-GRESS? Come out with it, Comrade Foster, the whole party is breathlessly awaiting more particulars about your LABOR CONGRESS.

And is this tenuous LABOR CON-GRESS the only substitute that the majority have to offer in place of the farmer-labor party slogan? Oh, no! Listen:-

"As the class struggle developes and our campaign against LaFolletteism progresses there will be found in a number of LOCALITIES organized LABOR BODIES ready to break their alliances with the petty-bourgeoisie and to enter the election campaigns as LABOR ORGAN-IZATIONS. It will be the duty of the Workers Party to secure the support of these labor bodies for the Workers Party. Wherever this is IMPOSSIBLE because of the immaturity of the masses, the Workers Party will propose UNITED LABOR FRONTS for election purposes. In proposing whether such united fronts will be carried on under the auspices of LABOR CON-GRESSES, COUNCILS OF ACTION, LABOR PARTIES, etc. the Workers Party will be

THE PARTY DISCUSSION CONTINUED

MY POSITION TOWARD THE FARMER-LABOR MOVEMENT

(Article I.) By LUDWIG LORE.

IN view of the veritable landslide of articles concerning my attitude, past and present, on every question of importance to the Communist movement in the last four years, feel that I owe it, not only to myself, but to the party membership, to outline. as briefly as I can, considering the number and nature of the charges point of view from which it has been

I regret, Comrade Lovestone's min utes to the contrary notwithstanding, that the majority and minority theses were not submitted to me by the national secretary for my vote until a very few days ago. long after they had become party property, and the discussion well on its way. I am, how ever, of the opinion that the issue that has been thrown into the fore front of the party discussion is an artificial one, an issue that has neither foundation nor life in the labor movement at the present time. As to its purpose, there can be no doubt. In spite of the distinct instructions of the Communist International that the majority and minority groups adjust their differences, the hatchet has not been buried. The minority group is a frank aspirant for power, and is determined at all costs to find an issue. be it ever so flimsy, upon which it can base its unmitigated opposition to the present administration.

Why a Farmer-Labor Party?

One of the fundamental tenets of the Communist movement has been. that the masses must become imbued with the significance of the class be the leader in these movements. struggle, not merely by propagandistic political and educational endeavor, ecutive committee to carry on an but, above all, by active participation in the class struggle on the political as well as on the industrial field. Obviously, therefore, it becomes the duty of the Communists to participate tutional amendment, but demands state in every working class movement that has for its premises the maintenance and welfare up to the 18th year, as of the interests of the working class against that of its exploiters, whether this movement appear on the industrial field, as a labor union, or on the political field, as a labor party.

I am convinced that, in America, the labor party will come. Not immediately. On the contrary, it will come into being only after a slow and tor turous process, only after the poor farmers and organized labor have been betrayed again and again by leaders of the third party, LaFollette type. am convinced that 1928 will see third parties in a number of states-Minne sota, the Dakotas, Nebraska, Washing ton-perhaps even nationally in som form or other. Out of these thir party movements, themselves abor tive, a left wing will develop that will become the nucleus for a real, class conscious labor party movement in the future.

Our work in the labor movement, therefore, will be, for years to come, to go hand in hand with the industrial labor movement in its struggles, to force it to take up a more energetic fight against the capitalist class, and in so doing to bring into being the political class consciousness that must exist before a labor party movement, in which we can participate, can come into existence.

In the meantime we will educate the advance guard in the labor movement. those who will listen to our message and help us in our work, to a clear the social revolution and the methods and weapons with which it can be successfully brought about.

The Communist movement can do this, however, only if it understands that it must participate in all struggles of the working class; that it must into being, the Comrades Foster, The recent decision of the central exactive campaign in support of the child labor amendment, is a case in point. Here our party supports not only the minimum made possible by the constiresponsibility for the child's education determined by federal legislation.

The Majority Thesis.

Taken as a whole I agree with the majority thesis. The farmer-labor movement is dead and is not likely to awaken to a new existence for years national scale. The Minority Thesis.

While the minority evades the question of organizing a new edition of the federated farmer-labor party, it stands committed by its own thesis, to this Whether, when that time comes, the program. One cannot actively engage in a campaign for a theory and ful in gaining a firm foothold in the significant movement for the creation masses, it will have to take up the of a party of labor and farmers along fight against the reformistic aims of class lines. very laudable desire to apply theses and theories to actual conditions, led us to attempt the organization of farmer-labor groups wherever this was humanly possible. Whatever our aims may have been, the fact remains that, with very few exceptions, the state farmer-labor party organizations were artificial bodies created by our party with the help of organizations influencclass, like ours, lacks every vestige of ed or controlled by our own members. The Federated Farmer-Labor Party. In one of his articles, Comrade ported the federated farmer-labor party at a time when the present majority opposed it. This was undoubtedly the case. But a brief review of understanding of the inevitability of the history of our activity in the unfortunate federated farmer-labor minority is right when it "refuses to have Lore pinned to its coat lapels." At the Chicago convention where the federated farmer-labor party came Ruthenberg, Manley, Lovestone and myself had been appointed by the central executive committee to act as steering committee. Comrade Pepper had insisted upon my membership on this committee, and I had accepted very unwillingly. It is not generally known that I strongly objected to the decision that brought about the rupture between our followers and the Fitzpatrick-Nockels-Buck group, i. e., the decision to instruct the organization committee of the convention to bring in a full plan for the organization of a farmer-labor party on a come. the federated farmer-labor party was adopted, consisting of three labor and three farmer demands, which were to be submitted to a special session of congress, for which an energetic campaign was to be waged, counteracting Senator Brookhart's propaganda for the immediate convocation of congress. The program was endorsed by the executive council of the federated farmer-labor party with all against one vote—and there is ended. The present minority, which is so anxious for mass action, played hookey with its friends of the executive council of the federated farmerlabor party, and the entire program was forgotten. "The Chicago Branch of the Greek Tederation of the Workers Party. after careful and practical discussion of both C. E. C. and minority theses, declares itself for the thesis of the C. E. When immediately after the St. Paul conference I realized the impossibility of continuing to form fake parties, I insisted that our work lies for the present in the building up of the Workers Party and briefly outlined this policy last June at a district No. 2 membership meeting, to the open horror of Comrade Foster, who regarded this opinion as rank heresy In spite of the verbal slaughter tha followed, the central executive committee, hardly more than two weeks later, took the same position and by nominating Foster and Gitlow, led the party, after two years wandering in the wilderness, back into a period of constructive Communist work.

We are for a militant party. So are you. Together we must help build that kind of party, a fighting party for which no task will be too difficult.

In the forefront of a fighting party stands its press. It leads the party in thought and action. It cements the party, centralizes it, It gives the party life. The party press, as Lenin said, is to the party what scaffolding it to a building. Upon it the workers stand, handing material to other workers with which the building, the party, is built.

We have by all ways at our command tried to impress the party membership with the need of safeguarding the DAILY WORKER. The Gentral Executive Committee has passed a series of motions in connection with this campaign which ought to have stirred every party member

In this big special edition will be featured the PAGE OF MILITANT BRANCHES. This MILITANT PAGE will be the roll call of the red branches of the Workers Party. And because it is a test of our militancy, we earnestly hope that EVERY party branch will have its name engraved upon the MILITANT PAGE as a sign of its Communist understanding

Why "River Work" in China?

By a "stroke of the pen" President Coolidge has given the imperialist business interests of the United States just 14 more warships. With the same pen, very likely, he signed a letter to the Federal Council of Churches "assuring" these anxious followers of the lowly Nazarene, that there was "no strike" whatever between America and Japan, and that all was favorable for a future of peace and brotherly love.

But we have warships for war, not for peace. Furthermore, by the signing of the naval construction bill appropriating \$110,000,000 for eight new scout cruisers and six gunboats, we are getting some warships-for they are not "peace-ships," but warships. Incidentally, we are, under the bill, going to "modernize" the old warships we have. All in the name of peace and brotherly love.

But in the official news statement given out at Washington, we come across a rather amazing revelation of the uses to which these nice new gunboats are to be put. It says, "The gunboats are urgently needed to replace antiquated shallow draft ships for river work in Chinese waters."

Now to the Federal Council of the Churches of Christ it will probably appear quite strange and accidental, so to speak, if, after these gunboats are built and are, by the magic carpet of the House of Morgan, wished into the rivers of China, that our "national honor" or the "lives of missionaries" or any other fair sounding excuse, gives them the chance to bombard the inhabitants of China, ormore than likely—the Japanese who have taken control of some parts of China.

But to the revolutionist, to the Communist, it will be no accident. The fact that the American government openly acknowledges long before the event, that it is deliberately going about the work of building gunboats to trespass upon the sovereignty of the Chinese nation is only a central fact of a series connecting up the process of imperialist expansion of Wall street.

Not only the necessity of new markets for manufactured commodities—the commodity surplus is reduced to a minimum in the age of monopolybut the need for a market for surplus capital which in turn calls for strict control over the terrain of the debtor nation to insure the safety of the principal and interest—all these call for warlike preparations. This is why we have the appropriation for \$110,000,000 new warships. They are aimed to insure a return of super-profit from imperialist business far larger than this modest and the Vorwaerts is pleased. The refusal of the delegation Gompers could safely as-

Educating the Chinaman

Havelock Ellis once said that China was the most civilized of any nation on earth. Certainly China has a cultural history that, in point of time, compares with our own like a sage with a child. respects as well. It is very possible that our notion of China's backwardness is due to a perverted view engendered by a complacent satisfaction with our own artificial and stimulated sense of "superior" western culture.

But however old and traditional the culture of a people may be, world economy has a very material way of paying no attention to it. Western imperialism takes the same attitude towards strange idols as Tamerlane. Nor is it in other respects any the less brutal than Tamur and his golden horde. The difference is that Tamerlane's Mongols went about their rapacious business with commendable unhypocrisy. Western imperialism

destroys with a smile of pious justification. Our troops went to China years ago ostensibly to suppress the Boxers. What they did was to give America a commercial foothold and come away with \$14,000,000 indemnity in the bargain.

Last year, congress was overwhelmed with an exaggerated feeling of it's own generosity. It decided to give the money back. But not to the Chinese government. It gave the money, or rather, returned it, for "educational purposes." A special commission, headed by an American, of course, was set up to see that the fund was used for

educational purposes only. That was the best investment the U.S. government has made in years. Educational appropriations are always the best kind of propaganda cap-blood. Each side depends upon their god to bring italism can buy. That fourteen million was call them victory. culated to help "Westernize" China. The more China is westernized the more fit it becomes for to civilization. capitalist exploitation. A people imbued with the tradition and culture of Old China make poor factory slaves. They must be "educated."

But there is another kind of "education" seepng into China from another direction. There is a culture more agreeable and more easily assimilable growing on the great steppes to the North. It is a race. It is a race that is already showing bad signs for Western capitalism. The Soviets are very popular in China.

Walk Right Up and Ring the Bell

Above all, rebels should not have inferiority comlexes. Rebel training is directed as much against this complex as against mental confusion. And meeting at Juarez, Mexico, a Mexican there is a certain connection between the two that immigration officer remarked, "These we don't now wish to take the time to go into. But we can all be agreed that such states of mind have no place in a rebel movement.

If we are rebels, we have got to talk rebellion under all possible circumstances. We have got to peak our minds about capitalism on every occasion that presents itself. Those are propagandists who are not afraid to talk.

Something that gives an excuse to talk propaganda is something that is appreciated and taken advantage of by the real rebel. That something, for one, is the DAILY WORKER.

At this time, in many cities of the country, the DAILY WORKER is making propaganda possibilities that are not overlooked by those members on re-election, which election was so who appreciate the value of extensive propaganda. The DAILY WORKER is conducting local subscription drives. By supplying special "sub" equipment the "Daily" is not only making it easy to sell but easier still to TRY to sell subscriptions.

It's the TRYING that counts. It's in the TRY NG that we do our propaganda chores. It's in the TRYING that we train ourselves as organizers for Communism. It's in the TRYING that we convince class-conscious workers that their place is in the Workers Party.

If you haven't sufficiently overcome your timdity to allow you to walk up to a workingman's this convention, which met on Nov. 17 house and ring the bell, how is your courage to be and adjourned on the 25th, they exdepended on to perform the many feats of daring pected too much from a body from equired of a rebel in really serious moments.

When you say you can't sell when you are asked to go from house to house with DAILY WORKER \$10,000 a year "fat boys," the "inter subs, you are admitting defeat. The Vorwaerts says:

"The German nation is convinced that its disarmament is complete and the government states, that no sensational discovery has been made during the last 1,744 inspections carried out by the Allies. Is this true? If Mr. Herriot's accusation is a hypocritical pretext for a refusal to evacuate Cologne then he forgets that such hypocrisy is bound to weaken the position of the supporters of the republic and the supporters of fulfillment of the Dawes

Mexican Was Right—They

By HARRISON GEORGE.

WHEN the 375 delegates to the 44th annual convention of the American Federation of Labor at El Paso, Texas, crossed the international bridge over the Rio Grande to visit the sixth convention of the Mexican Federation of Labor (C. R. O. M.) are surely not laboring men, they look more like bankers!'

The Mexican official was correct. They are bankers, running about thirty "labor banks" with approximately \$150,000,000 of capital and gram adopted without making a pro planning to start others. But what is far more they have the same imperiailist program as bankers, especially the large bankers who hold forth on the south end of Manhattan island in the city of New York.

All Cut and Dried!

Bankers they are! No banker could be more devoted to capitalism at home and imperialism abroad than Samuel Gompers, president again up well provided for in advance that the telegraphic news agencies sent out advance news of his re-election with the note to release the item at 11:30 a. m. on Nov. 25.

In Europe the leaders of labor or ganizations must idealize for the mempership's consumption, all programs of class collaboration with reactionaries Gompers throws away every veil o reformist "respectability" and cavorts before the labor movement, naked and unashamed, the harlot of American imperialism.

And similar unanimity prevailed in the most disgraceful collaboration with imperialism.

The Labor Party's Early Death. The labor party issue was disposed of nearly as easily. These recommendations represent ed the compromise arrived at be tween the republican party element, led by John L. (3) That all non-partisan cam paign committees be maintained on a permanent basis. (4) That a plan be levised whereby forward-looking per sons who are not trade unionoists may be enlisted in labor's non-partisan po litical campaigns. (5) That changes in laws be advocated where necessary to make the functioning of indepen dent political movements more effect tive." Max Hayes, ex-socialist, raised his voice for a "third" party. So much for that. Gompers will be seen by this, not as objecting to futility in abor politics, but as improving the echnique of futility.

The resolution favoring recognition of Soviet Russia, which had been lought thru the last Molders' convention by the Trade Union Educational League, was sabotaged in its presenta tion, two essential paragraphs being eft out completely. Max J. Sillinsky of the Tailors was the lone defender of the resolution, Frey of the Molder disavowing the whole thing as a work of Communists and members of the r. u. e. L.

King Sam and the Royal Family. The little group of princelings round King Samuel seized the opporunity to attack Russia without regard to facts in Russia or elsewhere Gompers himself made a vicious speech upon Russia and the Commun ist International, which he declared was trying to destroy all democracies and labor movements. He expressed his feeling at the "ingratitude" of Russia for the United States, which 'had sent a friendly committee an a warship with a labor man on board to congratulate Kerensky and giv Russia a message of good will."

Lest those who came into the labor movement lately misunderstand, I explain that the warship conveyed the precious yellow-socialist prostitute, Charles Edward Russell, to Russia, to equest the starying and munitionless Russian masses to keep on fighting on the eastern front to save imperialist France on the western front.

Wants a "Well-Balanced" Navy. Some may say, "But that is past; ir the future labor will know better." But not if the labor ubreaucrats have their way. The Metal Trades department, which held its convention just prior to the main body, petitioned by resolution, "The president, the secretary of the navy, the cabinet, the eommittee on naval affairs and the menbers of congress to make adequate provision for building up and maintaining a well-balanced navy."

And what response was there for the words of the British delegate, Swales, when he said, "Our hatred for war must be translated into action and practice. Me must have international solidarity of the workers of the whole world"?

And Conscript Armies.

To begin with the national commander of the American Legion, James A. Drain was given an ovation and gave a "For God and Country" speech, after which a resolution favoring conscription in time of war was passed just before a resolution against Japanese immigrant workers.

Green Becomes Ass't-Sec'y of War. Then "Resolution 75" was reported by Matthew Woll of the resolution committee, which advised that it be referred to the executive council. And what is "Resolution 75"? It is, in essential part, as follows:

"Whereas, the American Federation of Labor stands opposed to war except in the defense of our country and believes that the safety of our country can be preserved only if its citizens are able to defend it, by force of arms if necessarv:

"Therefore be it resolved, that the citizens' military training camps are deserving of the support of American laboring men and the executive council is authorized and directed to nominate three civilians aides to the secretary of war at large and one civilian aide in each of the forty-eight states to cooperate with the government in recruiting candidates for these camps."

What Do You Mean, "Defense"? That the assertion of the above re solution being motivated only by a desire for "defense" is pure hypocrisy, may be seen from the action taken on resolution 22, proposed by the Seamen's union. This resolution reads as follows:

"Whereas, modern wars are begun largely thru pressure by and influence of the international

bankers; be it "Resolved, that while we freely

right and privilege to invest his capital in any country of his choice, we most emphatically protest against the use of our army or navy to collect either the principal or the interest of such investments when collections are no longer possible thru legitimate channels.

No Isolation of Our Great Republic" By the treatment of resolution 22, we very clearly see that the purpose of Gompers in appointing himself as under-secretary of war and appointing labor bureaucrats in every state as recruiting agents is by no means "defensive." The resolutions committee in adoit language, after "subscribing to the high and lofty purpose,'

"With the rapid extension of international finance, industrialism and commercialism, the restriction proposed for the end sought by this resolution, confined as it is to our nation alone, would tend to isolate our people and nation from participation in the world's developments . . . We enforce all legal obligation entered into within our domestic borders by processes of law and by discipline of governmental forces.

"So, too, in the present international intercourse, our methods of obedience and discipline to obligations entered into are harsh and cruel at times. Nothing within the realm of practical possibilities should remain unobserved so that the people of all nations will be inspired to develop processes of a humane and peaceful character. This cannot be achieved by a lessening of national honor or the isolation of our great republic from co-operating with all other democratic nations in the world's present tendencies and developments. We cannot recommend approval of the resolution." Morgan's "Meritorious Loans."

In other words it is "national honr" to use the army and navy to colect the loans of the House of Morgan and make war against Soviet Russia, Haiti, Santo Domingo, or evenwho knows?-war upon France or upon the enslaved workers of Germany who may revolt and repudiate the Dawes' plan and its loans. In all this, the labor bureaucracy offers to be both the recruiting agent and the priest who blesses the war and makes it holy. "We are against isolation" means "We are for imperialism," and Woll made it plain when he upheld verbally the necessity of war to collect "meritorious loans." Amsterdam Reformists Have No Plans

That labor may not find these loans so "meritorious" was indicated by the fraternal delegates from Europe in particular. The English openly admitted that the Dawes' plan was already forcing a lower standard on British workers and they might lose still more. But they had no policy to oppose it and didn't know what to do The German delegate said that Germany accepted the Dawes' plan to "get a breathing spell," but admitted that labor was being strangled in the process of "breathing." He asserted hat it was either the Dawes' plan or Bolshevism, and the yellow socialdemocrats, of which he is one of the leaders, chose the Dawes' plan, tho he couldn't clearly explain its advantages as compared with Bolshe-

It is with these fraternal delegates from Europe, and the ones coming from the Mexican federation then in convention across the Rio Grande, that the most significant events developed in showing the American labor bureaucracy as the labor department of American imperialism.

Morones and Calles; Gompers and Coolidge.

The leading group of the Mexican federation has wholly subordinated it self to the Gompers bureaucracy, just as the Mexican government has made its peace with American capital and accepted heavy loans from Doheny, one of the Teapot Dome group of oil imperialists, to defeat the last de la Huerta rebellion backed by the Cowdray oil imperialism of England. The Mexican federation certified its servility by unseating a Communist, Alfonso F. Soria, and by pleding itself to "defend the A. F. of L.

"The Monroe Doctrine of Labor" In reply, this was acknowledged by adoption of the motion of Matthew Woll to mark "the beginning of the Monroe Doctrine of American labor to apply to the western hemisphere. By that I mean united resistance against attempts by foreign capital or foreign labor to get a foothold either in concessions, property or economic principles or aspirations."

One could scarcely conceive of a more flagrant or complete statement of the unreserved adherence of the American Federation of Labor to the purposes of American imperialism, including the intention to oppose the economic principles or aspirations of foreign labor"-meaning the revolutionary principles of the Red Inter-

national of Labor Unions. A. F. of L. Follows Dawes.

Last, but not least, was the intrigue ngineered carefully thruout the whole convention, to lay the foundation for re-affiliation of the A. F. of L. to the Amsterdam International Federation of Trade Unions.

On the third day of the convention, Clark, reported "conferences between committees!

gates from England, Germany, Mexico and Canada," looking to the formation of a new international. That was the inference, since "a definite organization of American and European labor" was contemplated, without mention being made of either Amsterdam or the Red International of Labor

This was apparently a "feeler" of compers. The British and German delegates denied holding such conferences. But evidently a move was on foot by the A. F. of L. bureaucracy to affiliate to Amsterdam, upon their own terms.

Gompers to Control Amsterdam.

And what does the A. F. of L. want n Amsterdam? It wants control of Suropean labor—and to attain that it must control Amsterdam. So it was making a feint at "starting a new international" more to the right than Amsterdam, to force Amsterdam to the right and to sign over its leadership to Gompers in order to get the affiliation of the American Federation, just as European governments have been forced to sign over their policies to American imperialism in order to get loans to ward off col-

Gompers' policy has always been and remains, the policy of the Ameri can government. If he is now going back to Europe, it is not for Europe good, but for the benefit of American imperialism. He revealed this malevolence in his attacks on Russian workers, and by his henchmen's public opposition to the speech of A. B. Swales. British fraternal delegate, who said that Amsterdam, or British workers. at least, did not fear the Russian workers and wanted unity with them. Later Swales admitted that Amsterdam would drop some of its "objectionable features" to get the affiliation of the A. F. of L. "Dawes' Plan of Labor" Being Made

Chester M. Wright, yellow ex-socialist and Gompers' publicity man, manufactured "resentment among the delegates" at Swales' remark. And when the matter of international relations came up, Matthew Woll stated the official objection that the A. F. of L. wanted its "autonomy." But just as Woll believed in the Monroe Doctrine of labor when the Mexican federation gave guarantee of behavior by expelling a Communist, so will he be ieve in a "Dawes' plan of labor" when Amsterdam will refuse unity with the Red International of Labor Unions, when Amsterdam will refuse the Russian industrial unions admission into the industrial internatonals and will surrender to Gompers the dictatorship of European labor just as the governments of Europe have surrendered to J. P. Morgan and company.

The Surrender to Capital.

These are the big developments of the American Federation of Labor's 44th annual convention. Faced with rapidly dwindling membership, with antiquated craft unions unable and inwilling to fight for the workers' inerests, with reaction triumphant in both politics and industry, with war against Japan clouding the horizon. unemployment, the open shop drive nd the menace of the Daw threatening wage and hour standards. the A. F. of L. surrendered body, soul and boot-straps to the capitalists ignored all the vital interests of the workers and openly became the labor department of American imperialism. What Shall Labor Do?

What shall American labor do in the face of this wholesale betrayal. It cannot quit the class struggle, nor can it bear forever the miseries thus forced upon it. The sooner it makes up its mind to fight, the sooner the nevitable battle will be over, it must look to the left wing, the militants, the Communists. These are not in the high councils of the A. F. of L. but down among the rank and file of workers in the shops.
