U.S. rebuffed by 27 nations as UN strives to avoid war

COR the first time since the cold war, the U.S. stood before the United Nations

on Monday of last week alone with her closest and most undemocratic satellites. It was a naked and undignified spectacle (see box below), any detailed description of which the press found unfit to print. In their long Sunday reviews of the week's events, the N. Y. Times and Herald Tribune passed over it completely.

China's "clarification" of its stand on UN cease - fire proposals, conveyed through India's Sir Benegal Rau, had through India's Sir Benegal Rau, had gone so far toward meeting the Political Committee's demands that it left only one course open to the U.S. satellite group. Peking, they said, had not in fact sent clarifications since the answers came through Rau and were not addressed directly to UN. The Philippines' Romulo wanted to see the questions to which Peking had replied, implying they might not be genuine. implying they might not be genuine.

Finally it was revealed that the request for clarifications had been conveyed to Peking, through the Indian Embassy there, at the request of Canada's Prime Minister St. Laurent. Thus the bombshell that exploded Monday at UN, once more postponing the Washington - demanded branding of China as an aggressor, turned out to be a bombshell made in Canada.

PLEASE, NO PIPE-DREAMS: Clear to PLEASE, NO PIPE-DREAMS: Clear to all was the fact that—despite the terrific pressure from the State Dept., Congress and the U.S. press—Canada, Britain, the West Europeans and the mediating Asian and Arab nations did not want to apply sanctions against China. They all felt that bluntly naming China an aggressor would call for sanctions; that sanctions would only make a general war in Asia more likely; and that the Washington concept of "limited war" is a pipe-dream.

This was the setting for Monday's dramatic meeting. Washington expected to see its "aggressor" resolution pass; but India, strongly backed by Egypt, wanted a 48-hour adjournment to reflect on Peking's milder position. It was decided to vote on the simple question of adjournment, but such a vote, it was evident, meant a vote on the very substance of the matter.

ATOMIZED GRAMMAR: Before the vote U.S. delegate Austin made a short and irately ungrammatical speech. Referring either to the Egyptian or the Indian delegate, he said-that the U.S.

ndian delegate, he said-that the U.S.

"... would not like to be forced off the floor by a gentleman who seems to think he has the right to assume the floor and talk many, many times.... This paper [the Peking replies]... is a transparent effort to divide the free world.... Postpone—delay—procrastinate—and so far as one can understand the English language—it is not even new.... It is not much more than a postal card.... Those who like to delay... can be hugging this to their bosom—they can extract from it what comfort that is in it for their purpose.... Let those who wish to study this and make such use of it as they can find out why they said it and use it in the regular way."

When the vote came, adjournment was won by 27 votes to 23 (6 abstentions). Among those opposing the U.S. were all the Atlantic Pact nations except Iceland, 11 of the 12 Arab-Asian mediating group, Israel, Yugoslavia, the Soviet group and Mexico.

GET OUT OR GET OVER: Considering the total subservience of those voting with the U.S., this was—on what is essentially a major issue—a line-up against Washington reminiscent of customary line-ups against Russia. Its aftermath in the press and radio and in Congress was a display of the same aftermath in the press and radio and in Congress was a display of the same petulant ill-temper that marked Austin's attitude at the same meeting. On all sides calls rang out for the U.S. to quit the UN if it could not gets its way—an action which no one in the Soviet group of nations had ever suggested taking in its periods of greatest isolation.

A look at the free world as we know it

AST week's Great Rebellion reduced U.S. support in the UN to a hard core of 22 nations. Forming more than one-third of the UN total vote, these nations with the U.S. represent only 12.3% (316.000,000) of the world's population. All economically and/or militarily dependent on Washington,

Greece (pop. 7.780.000, royal fascist Greece (pop. 7,780,000, royal fascist state); Turkey (pop. 19,500,000, police state); The Philippine Republic (pop. 19,964,000, Chiang-type government, graft-ridden and at war with its own liberation movement); Nationalist China (no appreciable population); Thailand (pop. 17,359,000, a monarchy barely out of absolutism); and 16 "republics" in Latin America.

The Latin American "republics" re-

The Latin American "republics," re-

ferred to in the press as mainstays of the free world and without which the U.S. would have stood almost alone last Monday, are:

BOLIVIA (3.922,000): Pres. Mamerto Ur-riolagolita took power in putsch in 1949, jast May proclaimed martial law to suppress frade unionists.

BRAZIL (48,350,000): Pres, Getulio Vargas took power in 1934 with Mussolini as model; back in power now after election in which many parties were outlawed. National Security Act juils anyone who makes a "verbal attack" on government, Utilities, railroads, airlines divided between U.S. and British capital.

CHILE (5,621,000): Pres. Gonzalez Videla, elected with aid of Left in 1949, turned dictator, broke strikes with troops, suppressed dissident parties. U.S. controls telephone service; owns 95% of copper (half is controlled by Morgan's Anaconda Copper). Rockefeller's Bethlehem Steel controls most of iron ore.

COLOMBIA (10,770,000): Pres. Laureano Gomez, "elected" under martial law, rules under it, U. S. investments earned \$4,500,000 In 1947.

COSTA RICA (813,000): Will Lissner (N.Y. Times, June, 1950) wrote: "U.S. business interests are enjoying a honeymoon today everywhere in Central America except Guatemala. . . . One of the achievements of the 1949 revolution [in Costa Rica] . . . was to drive labor out of politics by suppresing the Communist-dominated unions."

CUBA (5,130,000): Pres. Carlos Prio Socarras warring on trade unions and opposition newspapers. Rockefeller and Morgan capital controls 55% of sugar mills, most of cane fields, railways, electric power, ore reserves.

DOMINICAN REPUBLIC (2,214,000): Pres. Rafael Trujillo in 17th year of terror rule. Bloody dictatorship marked by slaughter of 15,000 in 1937. Most of banana, cacao, sugar owned by U. S. firms.

EL SALVADOR (2,100,000): U.S. honeymoon in full flower as in Costa Rica.

HAITI (3.500,000): Col. Paul Magloire, mem-ber of military junta that overthrew Pres. Estime, is now President. Opposition parties bøycotted election as "hokum." Representa-

tives in N.Y. frankly offer unlimited con-cessions to attract U.S. capital to their poverty-stricken country.

HONDURAS (1.260,000): Pres. Manuel Galves has banned meetings of opposition parties and newspapers. United Fruit controls this "banana republic."

NICARAGUA (1,160,000); Ruled by army clique. George Masur (Virginia Quarterly Review, July, 1950) said Nicaragua (Peru,

Colombia, Paraguay, Venezuela, Dominican Republic) "have either set up new dicta-torial regimes or have consolidated the ex-isting one,"

PANAMA (746,000): Controlled by United Fruit, People angry at U.S. Installations and arrogance of "occupiers," U.S. economic pressure put down incipient revolt in legis-lature.

PARAGUAY (1,270,000): Dr. Felipe Molas Lopez seized power in military coup over this medievally backward land, has held it by Gestapo methods.

PERU (7,246,000): Pres, Gen, Manuel Odria seized power in 1948, Oil controlled by Rockefeller's Intl. Petroleum and Standard Oil of N. J.

URUGUAY (3,300,000): Comparatively demo-cratic, Pres. Andres Martinez Trueba recent-ly announced a treaty of "friendship, com-merce and economic development" with the U.S.

VENEZUELA (4.490,000): Prov. Pres. Carlos Delgado Chalbaud seized power in 1948 coup openly backed by U.S. State Dept. Rockefeller Standard Oil owns 60% of oil. Foreign-owned firms, account for 72% of government's revenue.

I must disagree sharply with the very favorable review of Carey McWilliams' book Witch Hunt (Jan. williams' book Witch Hunt (Jan. 10). While it contains some good reportage on the facts of "loyalty" investigations in colleges and occasional interesting comment on the results of such investigations, the basic premise of the book, that loyalty, unamerican probes are like the persecutions of witches and heretics, becomes horribly mystical and exceedingly unrealistic when expanded to 340 pages. The GUAR-DIAN owes its readers a more realistic review of a book than this, by whomever the book is written on whatever the subject.

would be robbed of a powerful weapon against progressives and the forces of democracy would be strengthened. But the subversive forces do in actual fact desire and work for "extermination" of the "reds" because the deeper they are driven underground, the easier it is to label anyone and any time as "red." If there are no open Communists, then everyone is the more suspect as a probable Communist, As the review itself suggests, fascism must invent mysterious and conspiratorial Communists because the real ones do not serve the purpose. The real ones are not necessary for or responsible for the invention. All that is necessary is imagination. Throughout history the rulers of society have had to invent bogeys to take the place of the people who demanded bread and dignity. If there were no Communists, the people who demand food, schools, jobs, and peace would still be transformed into destructive monsters by monopoly-controlled police, judges, newspapers, movies, and radio programs. THE SECOND COMING OF GENERAL EISENHOWER

'Let's defend freedom as one gang,' Ike begs Nazis

SOMEWHERE in the infernal regions last week Adolf Hitler rubbed his eyes and kicked himself for his impetueyes and kicked himself for his impetuous suicide six summers ago. Gen. Dwight D. Eisenhower, Western hero of the East-West alliance which smashed the Nazi. "New Europe," was back in Germany talking just as stronger-nerved Nazis prophesied U.S. leaders would talk a few years after victory. He was begging the same German militarists (except for a mere handful dead or temporarily jailed) handful dead or temporarily jailed) who slaughtered 28,000,000 men, women and bables in World War II to join with "all free peoples...'as one gang' to d fend freedom" (N.Y. Times Jan. 21). 'as one gang' to de-

His choice of a word to describe the unholy alliance he proposed—the same alliance against "godless bolshevism"

(i.e., socialism) for which Hitler worked so tirelessly—was appropriate. The newly-appointed Atlantic Pact army commander had come to Germany after a whirlwind tour of "Allied" capiafter a whirwing tour of "Allied" capi-tals to whip up enthusiasm for Wash-ington's vast war program. The trip was whirlwind because the enthusiasm just wasn't there; it was prudent to move briskly.

"CHEERS, IF ANY": Where it should have been, there was something else: a bitter resentment, not so much toward Eisenhower himself (whose World War achievements were remembered) but toward the dollar- and powerhungry Americans who sent him. In Rome and Paris alone, police running into tens of thousands were necessary to "guard" him from mass workers'

Rep. Jesse P. Wolcott (R-Mich.) told me that in 1942 his office was besieged by mail, telegraph and in person by young men of his district who had been turned down by the draft boards or for commissions because of physical defects. They wanted their congressman to get those decisions reversed so they could get into a war that Japan had started

into a war that Japan had started against us.
"Today," said the Michigan congressman, "it is just the reverse. They want me to get them out of the draft or reserve or National Guard calls."

-PAUL R. LEACH in his Washington column in the Detroit Free Pi

demonstrations and delegations streaming to his hotel with petitions. Newsweek reported:

[He] could not help but note the apathy with which the little people... greeted his mission. The "crowds" were searcely more than quiet clusters, and the cheers, if any, were subdued.

The General's speech on "defending freedom" went well with Portugal's dictator Salazar, who abolished freedom in his country long ago. Elsewhere the reaction recalled a speech by a well-known American in St. Louis on Feb.

Krekodil, Moscow

"Sir, I beg to report your release from prison and appointment as commander of a division."
"Tell the Americans that I refuse to leave this place unless they give me a corps."

"[The Russians] are very friendly..., They want peace and a chance to develop themselves the same as anyone else. My contacts with them have been heartwarming." (N.Y. Times, June 12, 1945).

"Germany will never again be able to compete with other highly industrialized nations... Britain, the U.S. and Russia are aiming to make it impossible for Germany to wage war again—at least in our time." (Speech in London, June 11, 1945).

"CAN WE EVER FORGET?" If Eisen-

'CAN WE EVER FORGET?" If Eisenhower could make sense of his present mission in light of his past statements and actions, nobody else could. On the eve of his arrival a speaker on the northwest German radio malevolently but truthfully described how five years ago Eisenhower had "enjoyed doing his ago Eisenhower had "enjoyed doing his Russian friends a favor", treating them as "friends of humanity" while Ger-man generals were treated as "rep-resentatives of mass murder." The General was now, said the radio speak-er, asking the Germans to do "as a duty what he formerly condemned as in"

what he formerly condemned as sin."

In Bonn, Eisenhower told Chancellor
Adenauer (according to the N.Y. Times)
he did not believe "the German soldier as such has lost his honor," and that he was ready to "consider them as honorable comrades in arms." In Denver, Colo., an American mother sat down and wrote this to her country's President:

own and wrote this to her country's resident:

Is it possible, Mr. Truman, that you have forgotten, and think that we have forgotten Nazism? Do you think it is possible that we, the living, our children and their children, will ever forget the dread words DACHAU - MAIDANEK - BUCHEN-WALD? I am asking you, for the voiceless 6,000,000 exterminated Jews, to recall Gen. Eisenhower. . . . You are asking that my son, a Jew, and other sons of American families, Jews and non-Jews, do this fighting shoulder to shoulder with men who made mass murder their right. . The American people say this cannot and should not be done. It will not succeed!

SUPREME IRONY: While Americans were indignant, Germans-whose country is reduced by fascism, war and a cynical occupation to physical and moral ruins—were stolidly refusing any part of the grandiose Eisenhower plan. As Republican Spain's Foreign Minis-ter-journalist Alvarez del Vayo wrote

Pr-JOUTHAINS AND STATE OF THE PROPERTY OF THE

Ike, have you forgotten how right you were?

As two members of your civil affairs staff in the first year of Germany's occupation, we used to call you that with genuine affection. The habit

somehow sticks.

Remember us? Probably not—but perhaps you remember the orders you gave and we carried out.

Perhaps, too, you recall that as the

new cold war began against our allies—the "friendly, peace-wanting Russians" as you called them five years ago—some of your old staff were publicly condemned in the press and in Congress. We were two of those.

F you do recall the orders you gave, you must know (though to our regret you never said so) that our "crime" was in taking you too life. "crime" was in taking you too liter-ally. Your orders were to penalize all who had aided the Nazi regime and appoint those who were in any way active against it to head the institu-

tions of a democratic Germany. That is exactly what we did—so our record is clear. How is your record, General? Do you remember the ghastly piles of bodies at Buchenwald? Do you really mean, now, that we should "let bygones be bygones"? Does it feel good to be imploring the criminals of 1945 to join with us "in one gang"—to "defend freedom," of all things!

Were you right then about the Russians and about the future of Ger-many, or are you right now?

WE say you were right then—and we continue today to work in the spirit of your 1945 directives, with all their implications.

The central implication of your directives (where it was not, as in some cases, spelled out) was that post-war liberty, abundance and peace must and could only be built by the co-operative efforts of ALL anti-fascists. This is an implication not only for Germany but for every country.

The chief enemies of Adolf Hitler (as of Mussolini and the Japanese militarists) were Communists and Socialists. Our crime—and yours too, General—was putting these men and women of the Left into responsible positions and doing all we could to encourage co-operation between them. For such co-operation, the record shows, they were then (before this spirit was smashed by the U.S. redbaiting campaign) ready and eager.

THE task you have set yourself, General, of bringing German militarists into "one big gang" with the brothers, sons and friends of their victims, is as hopeless as it is sordid.

The task you set yourself in 1945, under the leadership of Franklin D. Roosevelt, remains the hope of humanity. It can be done and, in spite of all "gangs," it will be done.

In a backhanded way you may be helping to do it. For, as Drew Middle-ton reported to the N.Y. Times in con-

WAR & PEACE U.S.-Allied rift over China deepens; giant squeeze on

N Britain's House of Commons Labour and Tory MP's cheered last week when Premier Attlee urged UN to keep the door open to a peaceful Far East settlement. The same day the U.S. Senate unanimously passed two resolutions demanding that UN label China an aggressor and bar it from mem-bership. A third resolution, calling for military measures against China, was

military measures against China, was referred to the Senate Foreign Relations Committee for study because ... bemocratic leaders insisted this was a case where Senate action just now might not he wise, (N. V. Times).

Parliament's cheers and the Senate's vote symbolized the deep rift between the U.S. and its Western allies over China policy. The rift was now at a point, said the Times, where ... U.S. leadership of the non-communist coalition in Asia is being seriously challenged.

U.S. differences with West European and Arab-Asian nations centered immediately on two resolutions before UN's Political Committee: a U.S. resolution calling China an aggressor and for a special committee "to consider additional measures to meet this aggression," and arealytics of 13 Arab. gression"; and a resolution of 12 Arab-Asian countries calling for a seven-nation conference to secure "all neces-sary elucidations and amplifications" of the Peking reply to UN truce proposals and to work out "any incidental or consequential arrangements of the Korean and other Far Eastern problems."

IS IT WAR? The real issue between the U.S. and the rest of the world, fought over at Lake Success and the world's capitals, was that of war against China or peace in the Far East. India's Premier Nehru insisted that the U.S. resolution could "only lead to intensification of the conflict"; that China "is eager to have negotiations for peace"; and that the crisis resulted from Western peace"; and t from Western

CHOU EN-LAI China's foreign policy is clean

Columnist Walter Lippmann warned Columnist Walter Lippmann warned that to U.S. allies Washington's resolution means "a general war in the Far East," while they believe "peace in Asia hangs on the recognition of Red China." Belief in the U.S.'s warlike intent, he said, will be "greatly strengthened" by the Senate resolutions which will be interpreted.

the Senate resolutions which will be interpreted
... as the preliminary to an American commitment to seek the destruction of the Red Chinese government and the restablishment of Chiang's government. ...
[The British] have heard Mr. Acheson advocating a "limited war" against China and they know that Mr. Acheson's political enemies, who lead him along and set the pace for him, are demanding that we make Chiang the spearhead of a war against China.

VOICES OF MODERATION: In the week-long debate at Lake Success these fears of U.S. policy were more or less fears of U.S. policy were more or less openly expressed. Britain's Sir Gladwyn Jebb refused to go along with the demand for a study of sanctions, though willing to call China an aggressor (see excerpts from his speech, right). Israel suggested leaving the sanction proposal out of the U.S. resolution. Canada asked assurances that the resolution would not give the Unified Command

(MacArthur) new powers.

Australia, New Zealand and others fastened hopefully on the resolution's last paragraph, proposing a "good offices" committee, to keep peace channels open. But Poland's Katz-Suchy saw this paragraph as having been drafted this paragraph as having been drafted to win the support of way-

precisely to win the support of waverers. He said;

"Never in the history of international negotiations have negotiations been preceded by the condemnation of one power by another. Never has condemnation been followed by negotiations. Negotiations mean the recognition of a new status quo. . . U. S. aggression against China began months ago. . . The purpose of the sanctions paragraph is to broaden this aggression and win UN support for it. This is clear from the Senate resolution—sent to Committee—which called for military measures against China."

Seeking to pacify fears of non-

socialist nations, U.S. delegate Austin promised the U.S. resolution meant no extension of authority to MacArthur, and the study of sanctions could be shelved if China acceded to a UN truce; but he insisted UN must condemn China at once and proceed immediately to a study of sanctions. His promises were not reassuring. If China refused to negotiate under the brand of aggression and under the threat of sanctions (as passage of the U.S. resolution would entail), the door would be wide open for the military sanctions most nations feared. India said China

The British Labour Government announced a cut in the meat ration from 10 to 8 pence a week last Friday, the 10 to 8 pence a week last Friday, the day following the semi-"Declaration of Independence" delivered at UN by British delegate Sir Gladwyn Jebb from which we excerpt below. Also on Friday Premier Attlee, in an effort to placate Washington which is angered by British independence on the China issue, gave Parliament the details of Britain's pastly expanded arms spend-Britain's vastly expanded arms spending. Britain will now spend on arms about twice as much as before the Korean war. Here are some of $J \in bb$'s remarks before the Political Committee

HERE WE ARE, discussing a resolution [the U.S. resolution to brand China an aggressor in Korea] which may have very grave consequences, going far beyond Korea. We are presented, apparently, with a new inter-Government in the light of which the resolution was drawn up, and it is suggested that we should proceed as if it had never been presented. . . .

The principles for a peaceful settlement, to which nearly all of us agreed, do not violate the principles of the UN and in any case, we do **not** wish to close the door to all possibility of negotiations in the future. We can have an opinion on whether or not the door has been closed by the Chinese.

But there can be only one opinion on whether we should close it ourselves. . .

Ever since the Peking Government obtained control of the great part of Chinese territory, we have al-ways believed that it should occupy the Chinese seat in the UN... Since the Peking Government undoubtedly controls the Chinese territory, exercises authority there, and can command obedience of the bulk of the population, it alone is able to carry out in Chinese territory any international obligations which China may assume. Nor do we regard this as an assume. Nor do we regard this as appeasement or as weakness. It is no

What good could it be to discuss the problems of the U.S. with a U.S. Government whose sole jurisdiction was confined to Hawaii?

... We do not in any way regard this possible change-over in Chinese representation as a matter for bargaining with the Peking Government: but we equally do not, by holding the views on the subject which I have expressed in any way condons or an pressed, in any way condone or ap-prove Chinese behavior in Korea.

But when it comes to the consideration of further measures [sanctions] before the intentions of the Peking Government have, . . . been fully and exhaustively explored, I would be less than frank if I did not express the gravest doubts about the wisdom of such action. As I have said, can we all at present put our hands on our heart and say with complete satisfaction that no negoti-ation is possible? I suggest that we

We must ask [American readers] to take our word for it that great harm has been done to British confidence in America's ability to lead the free world.

The British New Statesman & Nation

Many Americans today seem to have forgotten that the UN was deliberately constructed for the conciliation and not for the coercion of Great Powers. . . The truth is that the U.S. is geared for war and in its present mood is distinctined to be diverted into the paths of peace. . . Let no one here or in the Commonwealth comfort himself with the thought that the motion denouncing Chima's aggression could not involve Britain and probably all the world in war. . . It is not clear what more conciliatory reply China could have made. In Paris, GUARDIAN's correspondent here reported.

there reported,
... everyone is marveling at Chinese diplomacy—"executed with a facility from which Western diplomats could take a lesson," as the leftish (anti-Communist) Franc-Tireur said.

SIGNIFICANT LULL: India's Sir Benegal Rau introduced his sane and simple proposal for an exploratory Far East Conference as a revision of an earlier resolution, thus trying to win for it priority over the U.S. resolution.

Answering Austin's charges that the Arab-Asian bloc was dawdling while "our boys are being killed." Rau said he had received many letters from nothers and wives in the U.S. and elsewhere urging him to pursue his peace efforts. He urged that advantage be taken of the current Korean lull, which he found "not without significance." (The Chinese have broken off military contact whenever UN has considered the possibility of negotiations.)

"No wonder we puzzle other folks

India was not deterred either by what appeared to be almost a filibuster of the U.S. bloc at UN or by Senate action in turning down its request for 2,000.000 tons of grain, needed to keep from some 120,000,000 people from starvation. (The complicity of the Executive in this Congressional effort to punish India for its independence was indicated by an ECA spokesman, who pointed out that Congressional authority was not necessional controlled to the congressional authority was not necessional controlled to the congressional congressional congressional congressional controlled to the congressional congression sary "when we transferred ECA funds to the Agricultural Dept. to buy flour for Yugoslavia.")

PRESSING TO DISASTER: By the week-end Washington pressures seemed

to have assured a paper majority for its resolution, but even the N.Y. Times thought it "would be largely for the moral record." Rau revised his resolution to include specific mention of a cease-fire as the first item on the proposed conference agenda, in the hope of winning support of Canada and other countries.

The U.S. announced it would oppose Rau's effort to have his resolution voted

Rau's effort to have his resolution voted on first. It was determined to push through its own resolution, which in the words of Walter Lippmann, . . . reflects no considered policy which has ever been responsibly discussed in the presence of the Congress or the people. If it is not the emptiest and the most hypocritical kind of gesture, it will open the door to events which Mr. Truman and Mr. Acheson cannot control even if they forsee them, the door to events which no one in authority has had the courage to talk about plainly to the American people.

Phony controls freeze food prices at peak

SINCE the Korean war soaring prices have cut the value of the food dolhave cut the value of the food dollar by 6½c, according to official figures which tend to understate actual grocery-counter prices. In terms of the 1939 dollar, the food dollar today is worth only 42c. Last week the government froze prices at the highest levels in the Dec. 19-Jan. 25 period—but the order does not affect most food prices. Commented the Wall St. Journal on the eve of the order:

Those who expect it to put a tight lid on food and clothing bills are in for a surprise. Despite the expected strong wording of the order, which will make it sound as if there's a flat freeze on almost everything, the little lady will find out that some food prices will keep climbing as merrily as ever. Other foods will probably begin disappearing from the stores. And junior's suits and shirts will cost more and more. lar by 61/2c, according to official figures

Fred Wright in U.E. News

Strongly opposed to controls, the Journal blamed the farm price-support program and the high cost of imports (like wool) for the loophole in the con-trols. (The Defense Production Act of 1950 in effect exempts farm products from control.) Consumers recalled use of exactly the same arguments early

in World War II in an attempt to stave genuine price control.

AN ALIBI: The President's budget message is clear indication that there will be no farm price-support program this year. For it he asked only \$238,-000,000, or less than the \$296,000,000 the government made in profit on the price-support program in 1950. The Administration is supported by the support program in 1950. ministration is using the vague promise of farm price support as an excuse for not imposing genuine price controls.

Big farmers, like big business, can profit in an inflationary situation like the present. But the small farmer is hard hit, since price spreads are very wide today. The growth of monopoly in the food industry during and since World War II has been more rapid, according to the Federal Trade Commission, than in any other industry.

The Senate Agriculture Committee is preparing a strong report which will put the blame for food price rises on the food processors. The report says the upward spiral of food prices since Korea has provided "little or no increase" in prices for most farmers.

crease" in prices for most farmers.

LOFTY PLATEAUS: The Journal of Commerce said the order represents "a delaying action on the anti-inflation front rather than an all-out attempt to halt prices." It predicted prices will not be rigidly controlled until they

... reach a new "plateau" probably by midsummer or late summer. ... The four to six months following issuance of the freeze order are now looked upon as an 'interim period' of price control during which looser and nore liberal pricing standards will be applied than after the agency really gets operating.

The stock market rose as much as \$4 a share after one look at the order.

\$4 a share after one look at the order. It was barely issued when the government began to talk about "liberalizing" it, gave assurances there would be no rationing. Price control is ineffective without rationing and without controls over what is produced. If prices are controlled, manufacturers tend to abandon cheap lines to concentrate on higher-priced products.

NOT SO LOFTY: Last week's order froze wages as of Jan. 25. The Wage Stabilization Board was preparing a formula which was expected to permit even a lower raise limit than was allowed during World War II. The \$1.60-a-day increase won by coal miners—scheduled to go into effect Feb. 1—will probably be allowed with a corresponding price granted the coal companies.

Wage controls are easy to enforce and most employers are eager to enforce them. Official Administration philosophy is that the cause of inflation is too much money in the pockets of workers and consumers. Its inflation control program is designed to take the money out of the worker's and consumer's pocket, by wage control, heavy taxes, and high prices. This is the real intention of the new control order.

The world-wide protests recalled the time of the Sacco-Vanzetti executions. More recently, mass protest halted the scheduled execution of another Negro against whom no charges had been proven, Willie McGee. McGee is now servin wider death sentence in Missis. again under death sentence in Missis-sippi but the date has not yet been set.

HAIL THE U.S. MINT! Amid grim news elsewhere came word from Wash-ington that Negroes would be allowed to make money. After three years of a nation-wide fight led by the United Public Workers, the government em-ployed 17 Negro workers as apprentices in the Bureau of Engraving which prints the country's paper money. Up to now, government printing has been lily-white.

A similar fight for upgrading of wo-

A similar fight for apgrading of women workers in the Bureau, most of whom are Negro, is still to be won.

Backing the fight against jimerow in the Bureau at one time or another have been American Legion posts, NAACP and Elk chapters, the United Electrical Workers, the Progressive Party and many church groups Electrical Workers, the Prog Party and many church groups.

January, the distributors put out the two issues received during the holidays and were gratified a few hours later to note that they were all gone.

But gratification turned to something else again when they found out that the Store manager had removed the papers, following a handy rule of his own to the effect that any publication would be removed on receipt of "more than two or three complaints." The complaints, he said, came from a half dozen students. He had checked with the American Legion and the campus police; both assured him the GUARDIAN was "definitely left wing." HENRY LUCE, TOO? The GUARDIAN

HENRY LUCE, TOO? The GUARDIAN boosters promptly co-signed a letter to the student publication, Daily Californian, setting forth the foregoing facts.

Just as promptly, the campus Store began to get group complaints from students protesting the sale of Time, Life, Fortune, Reader's Digest, Saturday Evening Post, Newsweek, Look, Collier's and the California Pelican.

Hastily a meeting of the Store Comittee was called, the Store manager haled before it and ordered by unanimous vote to put the GUARDIAN back on sale. Furthermore, no more bannings are to take place except by order of the Store Committee and the Assoof the Store Committee and the Associated Students Executive Committee.

LIBERTY BOOK CLUB

Invites the Attention of

ALL PROGRESSIVES

It is now almost three years since LIBERTY BOOK CLUB came into being. The signs of repression were then already plain. Fewer outstanding progressive books were being published, and systematic price increases were making those few prohibitive for the average industrial and white collar worker. There was a clear and urgent need for a new way of encouraging the writing of progressive literature and getting this literature to its widest possible audience.

LIBERTY BOOK CLUB was the answer. And the thousands who became members of Liberty Book Club convinced us that it was desperately needed. But we did not realize that in less than three years Liberty Book Club would become the ONLY avenue for MASS distribution of good books.

Today, Liberty Book Club is the priceless possession of the progressive forces in America. It is the guarantee for the survival of a democratic literature.

It is because of the existence of Liberty Book Club that masses of Americans have access to the work of such writers as Shirley Graham, Alexander Saxton, Howard Fast, Dalton Trumbo, Albert Maltz, Myra Page, Avro Manhattan, Gwyn Thomas, Sean O'Casey, Ilya Ehrenburg, Anna Seghers, Israel Epstein, Joseph Wortis and many others.

Of equal importance is our determination, at a time when book prices are again going up because of increases in the cost of materials, to continue to hold prices to a minimum.

LIBERTY BOOK CLUB is your book club. It cannot be taken away from you. Its unshakable editorial principles guarantee devotion to the cause of Peace and Democracy. And for precisely this reason, its selections are always the very books you will want to own and read.
