Top scientists tear holes in Greenglass' trial story

RESH from his exposure by a state Crime Commission as one of a circle of legal dignitaries friendly with New York's No. 1 underworld figure, U.S. Atty. Myles J. Lane moved swiftly in the case of Ethel and Julius Rosenberg. On Thursday he received notice of the Supreme Court's refusal to review the couple's conviction and death sentence as "atom spies." On Friday he was in trial judge Irving R. Kaufman's court

to seek a new execution date. The judge set the week of Jan. 12.

Emanuel H. Bloch, attorney for the Rosenbergs, moved swiftly too. On Monday he filed with Judge Kaufman a petition to invalidate the convictions and set aside the sentences on these and set aside the sentences on these

THE CASE ON AMERICA'S CONSCIENCE: UNION SQ. RALLY FOR SACCO & VANZETTI, 1926 An innocent fish peddler and shoemaker died. Must the Rosenbergs be victims of the same ghoulish justice?

The Rosenbergs, 3-Finger Brown and U.S. Justice

By Elmer Bendiner

N a brief raising of the curtain last week on federal justice in the witch-hunt era, the U.S. attorneys who sent the Rosenbergs to the death-house and Alger Hiss to jail—and the one cur-rently trying Communist Party leaders in New York—were shown to have more in common than zeal against "subversives." They share a friend: Thomas "Three Finger Brown" Luchese, iden-tified in N.Y. State Crime Commission hearings as Frank Costello's successor as "co-ordinator of rackets in the N. Y. These were highlights of the

story that emerged:

• IRVING SAYPOL—who became U.S.
Atty. after assisting in the first N.Y. trial
of CP leaders, won a death sentence for
the Rosenbergs and then was made a judge
—has dined publicly with Luchese and met
him at race tracks.

—has dined publicly with Luchese and met him at race tracks.

• Luchese called at the home of THOMAS MURPHY, now on the federal bench after prosecuting Hiss, to congratulate him when Murphy was appointed N.Y. Police Commissioner; the Murphys dined with the Lucheses, the Lucheses in return visited the Murphys' summer home on Long Island. (Further questioning about the Luchese-Murphy relationship was choked off by hearings chairman and former N.Y. Supreme Court Justice Prockauer, who said: "Let it go at that... The mere fact that a man like Judge Murphy is named is no reflection on him...")

MYLES LANE

• U.S. ATTY. MYLES LANE, former Dartmouth football star who brushed off for the government the Rosenberg and Hiss appeals, was shown to be a friend of 3-4 years' standing of Rackets Coordinator Luchese; he went to Washington with him and introduced him to his wife. (Lane, who is now prosecuting CP leaders but lately turned over much of his work to assistants, popped back into court two days after his relations with Luchese were exposed to demand a contempt citation for Elizabeth Gurley Flynn because she would not become an informer.)

HIGH TYPE GENTLEMAN: Luchese has twice been arrested for murder, once for receiving stolen goods, once for vagrancy (not convicted on any of these counts); served time for auto theft; was named by the Fed. Narcotics theft; was named by the Fed. Narcoulds Bureau, New England Divn., as an associate of vice and dope king Lucky Luciano. The hearings showed that after strenuous efforts by an aide in Myles Lane's office he won a good-conduct certificate from the N.Y. Parole Board, restoring his right to

Hob-nobbing with mayors, governors, Hob-nobbing with mayors, governors, as well as many judges and prosecutors, Luchese could pay well for favors. He generously bought tickets for Democratic Party dinners (sometimes as much as \$2,000 worth). But some of the men he knew he could not buy. Of ALP chairman Vito Marcantonio whom he said he had known "since I was a young man," this is what was said:

9: "Made any contributions or loans."

Q: "Made any contributions or loans him?"

A: "No. As a matter of fact, one day I asked him and he said, 'No, Tom, I have all the money I need, no contribution from anyone.'"

BENCHES FOR SALE: While many judges rise to the bench over the bodies of witch-hunt victims, another method was outlined before the commission by was outlined before the commission by Frank L. Dufficy, asst. U.S. Atty. 1939-44. In 1947, when Municipal Judge Manuel Katzenstein was about to retire, Dufficy testified he had taken a taxi ride with Democratic dist. leader William Connolly who had said Dufficy's chance of replacing Katzenstein depended on "whether I made satisfactory arrangements": tory arrangements":

"He said it had always been the arrange-ent in the club and in the other clubs at when a district leader had a nomina-

tion for a Municipal Court judgeship to give out, that the one who got the nomination would give to the district leader at least one year's salary plus a campaign fund of at least \$5,000... He told me that he had an offer on behalf of one of the lawyers in the club of \$15,000 for himself for the nomination—that is for Mr. Connolly—plus a campaign fund of at least \$10,000. [Connolly set \$100,000 as the price for a State Supreme Court judgeship, according to Dufficy.] And he asked if I would be willing to match that... He said it [\$15,000] was for him, his individual capacity, and was not to go into the club treasury... A few days after... Connolly said, 'Well, if you are not willing to pay for it... I am not going to give it to you or anyone else who is not willing to pay for it.' A few days after, an announcement appeared in the press that the designation went to another lawyer in the club."

FREEDOM FROM WANT: Though re quiring an investment, judgeships can pay off handsomely—as shown in the case of former State Supreme Court Justice Aaron J. Levy who served two 14-year terms at \$28,000 a year. His salary 1946-1951, was \$140,000; his books showed an income of \$326,025, expenditures of \$80,000 more than that. He transferred to a son-in-law David E. Frankenstein 8,100 shares of stock worth \$125,000, awarded 70 receiverships to his family maid (a lucrative patronage made up of court fees and other quiring an investment, judgeships can age made up of court fees and other

gravy involved in administering funds), bought securities in his maid's name and took the dividends as she received them.

Pressed to explain the handling of the commission:

"I invested in the American capitalist system."

NOBODY HOME: Luchese, himself, was unavailable last week. He had given his testimony behind closed doors; was subpensed to appear for public grilling, but filed a motion before the State Supreme Court to vacate the subpense Refere that motion could the subpena. Before that motion could be argued, the Commission yielded to the Rackets Coordinator completely,

the Rackets Coordinator completely, contenting itself with reading into the record his 600 pages of private testimony and agreeing never to subpena him "to testify at this or any future hearing, public or private."

U.S. marshals were said to be seeking Luchese for denaturalization and deportation proceedings; he was not in to them at his Queens, N. Y., home, his Lido Beach summer residence, his Manhattan office, his favorite resorts in New Jersey or Florida. On Thursday the Commission, without calling witch-hunters Saypol, Murphy or Lane to explain their connections with Luchese, abruptly ended its inquiry into politics, shifted its interest to the water-front.

NEW TRIAL FOR TRENTON TWO

By William A. Reuben

TRENTON N. J., Nov. 24
NEW trial was ordered here today A NEW trial was ordered here today for the last two of the Trenton Six, when the N.J. Supreme Court unanimously reversed the conviction of Ralph Cooper and Collis English.

They had been sentenced to die with four others in 1948 in a conviction which also had been reversed by the

N. J. Supreme Court.
At 10 a.m. the seven justices came into the courtroom and Chief Justice Vanderbilt said: "The opinion leads to a reversal and a trial de novo and I so move." Each of the other justices then said "Reverse."

The second sentence was life im-

prisonment for Cooper and English, passed on them when the other four defendants were freed a year and a half ago. Three grounds for reversal were cited: the court held that Prosecutor Mario H. Volpe had "improperly injected" evidence to the prejudice of defendants, and charged him with "patently improper practices" and "nebulous" reasoning. Volpe said:

"The decision seems to sustain us in almost every respect except for a few technical matters. . . . I doubt if a new trial can be held before the first of the year."

Collis English, still in jail with Cooper after nearly five years there for a crime they could not possibly have committed, was desperately ill and too sick to be moved. passed on them when the other four

It seems to me that the Progressive Party has two main tasks— organizational and ideological.

Organizationally it must:

1. Develop active clubs and groups.

4. Coalitions of the broadest kind on a local basis.

Ideologically, the Progressive Party must continue to point the way away from war and toward peace. It must also analyze, as it has to this point done only inadequately, the various strata of our population, its movements, its psychology, its allies, its leadership. This must be done realistically.

Cause for Thanksgiving

CAMBRIDGE MASS.
Open letter to President-elect
Eisenhower:
Many congratulations on your
election, which will enable you to
carry out that infinitely important
list of promises that you made in

your campaign. Naturally, my friends and I are delighted at the prospect of seeing the boys brought back from Korea, and at the hope of seeing our economy of prosperity, as you say, "based on peace, not war."

The only question now is as to how soon you can do it. Can the boys get home in time to celebrate Christmas here? It would probably be impossible to bring them back for Thanksgiving. But it would not be impossible to start at once canceling war orders and substituting for them orders for such peacetime necessities as housing, automobiles, clothing, etc. If you suggested such measures, President Truman would undoubtedly be glad to act at once. His final days in the White House would then be accompanied by universal blessings, and we should enjoy such a Thanksgiving as this country has never yet known. Eric A. Starbuck

ago to bring to national and world attention the frame-up of the Trenton Six; and similarly in the Rosenberg Case in 1951-52.

The victories won in the Trenton Case—which the whole U. S. press ignored when we took it up in 1948—indicate what the people can do to right injustice when they can get at the facts. It has taken more than four years, but now the score is that four of the Six who were condemned to death are free and a new trial has been granted the other two (see p. 1)—with every indication that they, too, will go free. Thus the spark set off by the original GUARDIAN stories on the case, kindling indignation and protest all over the world, is winning the most potable victory of its kind since the Scottshore Case. notable victory of its kind since the Scottsboro Case.

AN EVEN GREATER WORLD PROTEST, in a much shorter An EVEN GREATER WORLD PROTEST, in a much shorter time, is mounting over the Rosenberg Case—on which the nation and the world first learned the real facts from last year's GUARDIAN series by William A. Reuben, our reporter who uncovered the Trenton frame-up.

Although little time remains, we are confident that this mounting protest can save the lives of the Rosenbergs—and that time will bring them vindication as it has the Trenton Six. What you can do further to belo stimulate the mass appeal for clem-

for justice in these two cases. But above all we are thankful for the kind of readers we have—who when they get the facts will re-broadcast them, initiate protests, finance the causes and redouble the effort if the going seems bad.

We have tried to say some of these things in a letter to those of you who are subscribers—a letter asking your renewed support of the GUARDIAN for '53 as a reader, and a little bit extra because we frankly can't continue on our subscription income alone.

We hope you will answer this letter of ours this year, planning to stick with the rest of us for '53 and to continue as in the past to bring our paper and the cause it espouses to new recruits every week and month.

WE ARE COUNTING ON YOU, just as the causes of peace, justice and democracy are counting on you if they are to be nailed down for the future.

then did he say he was trying to effect some relief.

The people of Lawrence are not interested in 'liberating' the peoples of socialist countries. They want to know where they can find a job, how to feed and clothe their families in the long, cold winter shead. Parents want their sons home from Korea.

Instead of peace and security they have been offered the heads of Alger Hiss and Harold Christofel, well garnished with red herring, and the promise of bigger and better witch-hunts.

One week after Truman's visit, Gen. Ike invaded the city and, being well briefed on the Truman fiasco, paid lip-service to the needs of the people. He promised that, if elected, within 30 days he would name a commission to study remedies for the textile slump; and that it was his opinion that more South Korean men be trained to replace American soldiers. This eleventh hour demagogy, in my estimation, helped to sway many independent votes to the Ike-Nixon team in this Democratic stronghold.

and ever-wider audiences.

Actors, directors and theatre technicians with whom I've discussed the problem all agree that playwrights must be brought together—not merely for discussion, but for work. A seminar-workshop is needed, where techniques can be studied and works-in-progress developed. It was suggested that for playwrights throughout the nation, from whom much has to be heard, critical evaluation and guidance could be achieved through a correspondence service.

I'm interested in exploring the

UE demands fail in Harvester strike FOR 37 days, 30,000 United Electrical

Workers members (Farm Equipment diva) held their strike solid against the gigantic Intl. Harvester Co. The company flatly refused to sign again with FE-UE, used scabs, intimidation by press and police and a murder frame-up against one union leader, Harold Ward. The strike was precipitated by IH's down-grading and wage-enting order in August, which signaled cutting order in August, which signaled a general big business assault to break s and unions that stood in the way. At last GUARDIAN's press time there At last GUARDIAN's press time there was only the bare announcement of a settlement (reported here in too-hopeful terms). In fact, the company had not gained its prime objective, destruction of the union; FE-UE-remained—but it was forced to yield on key incentive, reclassification and grievance procedures demanded by IH.

CIO LEADERS BLAMED: FE-UE was in a tough spot because AFL unions and the CIO United Auto Workers in Harvester had already surrendered on these points. Commented UE News in reporting the settlement:

(Editor), England

While the Harvester strikers enjoyed the support of rank-and-file UAW-CIO workers in plants organized by that union, the UAW-CIO leadership cooperated with the company in a strikebreaking role during the course of the strike. At Richmond, Ind., UAW-CIO organizers were behind the scene attempting to sign up a back-to-work movement, and phony decertification proceedings were instituted in four of the struck plants with the connivance of Har-

Workers in those four plants remain temporarily without a contract pending new elections. Gerald Fielde, chairman of FE-UE's Harvester Conference Board,

"Actually, the necessity for strike ac-tion was brewed... when big business seeing the war economy could not pro-duce prosperity but was threatening eco-nomic chaos and depression instead, de-cided the sole means of guaranteeing maxi-mum profits was to wring more out of the workers. There was but one road to this

goal—bust the sincere unions, slash wages, apply the speed-up whip....
"White endeavoring to overcome the effects of the AFL and CIO settlements in the Milwaukee and Melrose Park plants, it became clear to FE-UE leaders and the Milwaukee and Melrose Park plants, it became clear to FE-UE leaders and members that the company, encouraged by the national election results and the return to work for some, was prepared to

go the limit against our union. Under such circumstances, despite the justice of union demands, it would have been incorrect to sacrifice the membership to a starve-out operation an deventual return to work without a contract. . . . Hence on terms substantially the same as in the UAW-CIO contract, an agreement was signed by FR-UE."

What's ahead for labor?

What is labor's job under a GOP administration? In a special statement to the GUARDIAN, Hugh Bryson, president of the West Coast Marine Cooks and Stewards Union, gives his

NOW we have to unite. If the labor leaders of this country can face, accept and act on this simple truth, labor, despite an anti-labor admini-stration, can make great advances in the next four years. Those who continue labor disunity are selling out and the cost of their sell-out to the working people of this country will be

Labor leaders linked to the outgoing administration received nothing from that administration except assistance in raiding anti-administration unions

joining with labor leaders who were never sucked in by the Truman administration and by working for one united labor movement they can now redeem their sins.

There are 45 million unorganized workers, 15 million organized in this country. If the leaders of the 15 million join together to organize the unorganized, instead of disorganizing the already organized, we can have a labor movement that can defeat the political maneuvers of any political party, including the Republican. And this labor unity can be achieved if every labor leader respects the autonomous rights of every other union to conduct its internal affairs as it sees fit, principles laid down long ago by John L. Lewis.

The rank and file workers of this country will inevitably rebel against raiding and union-busting and join together in one labor movement and yes—one labor party to protect and increase labor's interests, the interests of the overwhelming majority of the people of this great country.

trial publicity" [which constituted] . . . "prosecution without defense."

It pointed to the 30,000 column inches in New York's metropolitan press devoted to lurid tales of atom-bomb intrigues and the imminence of atom-bomb destruction—a hysteria campaign that continued uninterruptedly for a 14-month period preceding and lasting through the Rosenberg trial. The trial by press, the petition states, "inexorably preconditioned the public mind to acceptance of the petitioners' guilt:

The trial itself became a mere formality, give judicial confirmation to evidence ready imbedded in the memory of the

The petition contains affidavits of four world-renowned scientists who, after studying the trial record, agree that the material allegedly transmitted by the Rosenbergs was not only not secret but well-known to the scientific world by 1940. Greenglass, who pleaded guilty to the charge against him, testified that he drew diagrams (the gov-ernment's four major exhibits) wholly from memory and without outside aid at the time of the trial. But these were the opinions of the scientists:

JAMES G. CROWTHER (Britain): It would have been "impossible" for Green-glass to produce the exhibits after a lapse of nearly six years "relying" solely on memory and without any outside aid."

THOMAS REEVE KAISER (Britain):
It was "improbable" that Greenglass could bave reconstructed three of the exhibits, "inconceivable" that he could have produced the fourth without technical aid,

duced the fourth without technical aid,

• JACQUES S. HADAMARD (France):
The performance was "highly improbable"
and "inconceivable."

• J. D. BERNAL (British physicist):
Fully documents the non-secret nature of
the material allegedly transmitted; concludes that at the time of transmission it
"would not be of substantial advantage
to a foreign nation."

The scientists took note of Green-lass' lack of technical training (he did not go beyond high school, flunked eight courses he took in a single se-mester at a polytechnical institution). The petition charges Greenglass lied when he testified he had no aid in drawing his exhibits; says it can prove books were made accessible to him while awaiting trial and that he consulted during that time with Harry Gold, a confessed atom spy. His evidence, it asserts, was
... literally "manufactured" for trial.

"NOT IRREVOCABLE:" With time running out, the Committee to Secure Justice in the Rosenberg Case (1050 Sixth Ave., N.Y.) was still confident that the growing worldwide movement for elemency would prevail:

or clemency would prevail:

The Supreme Court refusal to review the case is a tragic, but not an irrevocable error. [It] can and must be corrected by President Truman through the exercise of executive clemency.

We believe the President will be responsive to the plea for clemency already joined in by hundreds of thousands of Americans, providing that the number is multiplied by many times. We believe [he] will respect the unanimity of the entire Jewish press and the noted religious and civic figures who have been part of the great movement for clemency now stirring the country. the country.

the country.

We call upon the scores of Rosenberg Committees throughout the country to appeal to their fellow-citizens through ads, radio, television, public meetings, letters and other means. We urge the great trade unions of our country to place themselves behind this elemency appeal as they have done in the past in the Sacco-Vanzetti, Scottsboro, Martinsville and other cases.

On Saturday the committee anounced:

PRESSURE ON SOBELL: Other pro-PRESSURE ON SOBELL: Other protests were called for: during the week Morton Sobell, convicted with the Rosenbergs and sentenced to 30 years, was ordered transferred to Alcatraz Island in San Francisco Bay, the government's "maximum security" penitentiary and its toughest. in the movement in behalf of her hus-band and the Rosenbergs, this was "... the latest and severest step in a protracted effort ..., to torture my hus-band into confessing to a crime he never committed."

The transfer would, she said, make it The transfer would, she said, make it impossible for her to continue her defense work, deny her husband the opportunity to consult with his lawyers while new legal motions are being prepared. On Friday Federal Judge Edward Weinfeld stayed Sobell's transfer until Tuesday midnight to allow completion of a new court appeal. of a new court appeal.

The Civil Rights Congress urged all who could to join a "Holiday Delegation" to the Rosenbergs in Sing Sing on Dec. 14, the second day of Chanukah. The worldwide movement for the Rosenbergs—especially active in Britain, where the U.S. embassy was being continually picketed, was been being continually picketed—was boosted during the week when 20 prominent rabbis and religious leaders of Jerusalem, including Chief Rabbinate offi-cials, cabled President Truman urging

clemency. The petition said:

... We are not aware of any precedent where a person has been condemned to death in a democratic country for offenses alleged in this case in time of peace.

GHOULS: In New Haven, Conn., the local affiliate of the American Civil Libertles Union appealed to the President for clemency; the 13-member executive committee signing the plea included five Yale professors.

At the week-end a morbid note crept into the case: U.S. Marshall William Carroll, who is charged with carrying Carroll, who is charged with carrying out the execution, said he had received "countless requests to actually witness the execution" (the exact day, he said, would be kept secret). The Rosenberg Committee promptly protested to Atty. Gen. J. P. McGranery against what it called an attempt to "frighten, bewilder and intimidate" its supporters:

You cannot cancel out the appeal of hundreds of thousands of Americans for clemency with a few unnatural persons who wish to witness an execution.

THE LAW

Flaxer won't inform; freed, re-indicted

OR a while last week it seemed the U.S. had revived its ancient hate of the blacklist, labor won a victory.

Abram Flaxer, pres. of United Public Workers, had refused to turn over UPW membership lists to the McCarran Senate sub-committee; he was cited for contempt on that count as well as for refusing under the Fifth Amendment to disclose his beliefs or affiliations. Conservative labor leaders in the AFL Brotherhood of Carpenters applauded him; Hugo Ernst, AFL Hotel & Restaurant Employees pres., hailed him as a champion against blacklisting.

Early in the week Judge Burnita S. Matthews ruled Flaxer was within his rights in refusing to discuss his own affiliations, and dismissed the indictments on that count. Then Flaxer went to trial for protecting his membership lists. Asst. U.S. Atty. William Hitz said he was not ready to proceed, and Chief Dist. Judge Bolitha Laws dismissed all remaining charges. But before labor could claim a victory a federal grand jury on Thursday re-indicted Flaxer, this time solely for refusing to turn over names of union members in federal, state or city employ.

Super-bomb has Wall St. worried

A-bomb tests at Eniwetok Nov. 1 brought mixed reactions. Wartime A-bomb chief Gen. Leslie Groves said he was now "perfectly able to sleep quietly at night." Also presumed happy were the 117 Du Ponts on trial in Chicago for monopolizing a \$5 billion industrial empire (they control designing dustrial empire (they control designing, building and operating the Savannah River H-bomb plant, called the "largest industrial project ever attempted"). Challenging the Du Ponts' claim of patriotic service for handling the plant for a nominal \$1 fee, government anti-trust atty. Hotchkiss said he would ask

on cross-examination
"... who paid for the materials that went
into the plants, and who made profits on
those materials ... [and] if new monopolies are being created under the guise of
a \$1 fee" (Wall St. Journa!, 11/10.)

NEW DANGERS: Big business in general, and official Washington, were less happy because:

• They do not have the H-bomb yet, only an A-bomb fortified with heavy hydrogen—and won't have real H-bombs until 1954 or 1955 when the Du Pont plant is in operation (Business Week, 11/15).

• Yet there is the danger that (Ned-Russell in N.Y. Herald Tribune, 11/20):
... this hydrogen weapon will become the theme of the preventive war advocates. These reckless generals and irresponsible Congressmen may see in it... the means for smashing Russia with one blow.

. U.S. industry is more concentrated

HOW CLEVER CAN WE GET?

than Russian, hence more vulnerable

• The H-bomb doesn't really alter military strategy and may never be built in large numbers. Scientists interviewed by WSJ (11/19) explained:

"Even an improved hydrogen bomb will probably cost around seven times as much as a 1952 atom bomb and destroy only four times as large an area."

Solving no military problems it

four times as large an area."

• Solving no military problems, it creates political ones, contributing to the "sharp slowdown in European defense buildup" (WSJ, 11/19) by making "more difficult" the already "tricky task of holding together the new Western coalition." (NYHT, 11/20).

JUST WAIT 20 YEARS: The press failed to note another danger: that the H-bomb furore may help put the U.S. far behind in peaceful atomic energy development. France is working in this direction; Britain will probably start an atomic plant to supply power to industry within a year and power to industry within a year and "will beat the U.S." in this respect (WSJ, 11/17). The U.S.S.R. is "deeply interested" in such development,

since it

"... opens up before humanity colossal opportunities for increasing the productive forces, for technical and cultural progress and for multiplying the social wealth" (Malenkov's report to CP Congress).

The best that President Truman could promise for the U.S. last week was that atomic energy will be used for peaceful purposes "before another generation" (N.Y. Times, 11/20).

Freedom of assembly granted in Hartford

AST Sept. 4 the Board of Education of Hartford, Conn., granted the Peoples Party use of Weaver High School Auditorium for a concert Nov. 15. When it was announced that Paul Robeson would be featured, some veterans' groups and individuals loudly protested. On Nov. 7 the Board met again, voted 6 to 3 to uphold its earlier

ecision. Said Board pres. Lewis Fox:

"Freedom of speech and assembly are
two of the most cherished rights granted
by the American constitution and a vigilant upholding of those rights could
strengthen democracy."

Others of the majority said:

"We can't be trying to decide for t people what they should hear and thi ... We preach equality. We've got practice it. The Peoples Party is a reconized party and we've got to treat equally, legally."

The Board's action stirred up even shriller demands to ban the concert. On Nov. 11 the City Council voted 6-3 to urge the Board to reconsider; it de-clined. Some newspapers urged a boy-cott of the concert.

YAWNING COPS: From other sources came support for freedom of speech and assembly. The Unknown Soldier chapter of the Disabled American Veterans, the Hartford Womens Divn. of the American Jewish Congress, and the Hartford Courant all backed the Board. So did some 28 civic leaders, including a retired Chief Justice of the State a retired Chief Justice C. Supreme Court and a former mayor

of the city.

At concert time Saturday night, the chief of police personally led a force of about 250 cops assigned to "guard" the school. But 600 persons attended the concert, enthusiastically applauded Robeson and others, including Hartford-born Negro singer Hope Foye and the Jewish Peoples Chorus. There were no "incidents."

Next day the city government faced a new headache: the Police Dept.'s bill for overtime totaled \$4,000.

taken "bits and pieces that have evolved all these months and tried to put them together to make a bridge between . . . two conflicting points of view"; and the question was whether further attempts to make the resolution mean all things to all men might make it acceptable to none. The U. S. S. R. at the week-end modi-

fied its resolution (proposing a new 11-nation Korean Commission) to provide that "the question of complete repatriation of POW's" after cease-fire should be left to the Commission, rather then agreed on in advance.

on the POW issue coming from anti-Communist sources. London's New Statesman & Nation, while approving the "obvious humanity" of refusing to "compel [POW's] to go back at bayonet point" editorialized (11/15):

A prisoner, especially when he is litterate, is psychologically as well as physically at the mercy of the detaining Power.

A handful of British soldiers committed. . . crimes in the service of the Germans and Japanese, and no one claimed that it was inhuman to repatriate them forcibly and to punish them after they had been court-martialed. Why then, as Mr. Vishinsky asks, should the Western powers object to the return of all Chinese prisoners, even if a minority of them are liable to severe punishment when they get

In a letter to the Wall St. Journal (11/19), Newark Provident & Loan Assn. pres. Frederick Hoadley wrote:

ssn. pres. Frederick Hoadley wrote:

To me it seems clear as day that any socalled principle... is immoral if its
necessary consequence is to bar and preciude effective negotiations for peace...
indefinitely prolonging war's carnage and
destruction. And that, it seems to me, is
the inevitable result of our obstinate rejection of an unconditional exchange of
prisoners. How can one suppose the
enemy will take our word for it that some
thousands of their people beg to remain
our prisoners of war?...
Arizona Star publisher William Mathws wrote to the N.Y. Times (11/20):

Arizona Star publisher William Mathews wrote to the N.Y. Times (11/20):
... The American people... do not know they are condoning an official breach of a treaty that their representatives signed in Geneva in July, 1949... If what we now demand had been in effect in 1945 German, Italian and Japanese prisoners that were brought to the U.S. could have, by objecting to repatriation, remained in our country forever as political refugees and without any authority from Congress.

THE HELLHOLE: The WSJ (11/17) reported letters pouring "by the thousands" into "Ike's mailbag" on the eve of his Korea trip; "Korea war end is favorite topic." From Korea, Chicago Daily News' Ernie Hill (11/10) reported (Clis "want to get out of the Korean) GI's "want to get out of the Korean hellhole"; one soldier, W. D. Mendonca of Watsonville, Ga., charged the U.S.

hower and Dulles as
... very skeptical about the chances of
obtaining an armistice through any of
the proposals now before the General
Assembly.

And the WSJ (11/17) described Eisenhower's aides as in "remarkable agreement [with] Dulles' theory of an aggressive foreign policy," which would

- Formal denunciation of the Yalfa
- Subsidizing of underground groups in
- Setting Chiang's troops to making raids on China.

 Rep. Joseph Martin (R-Mass.), "the most powerful man on Capitol Hill in the new administration" and soon to be Speaker of the House, in an interview
- with Newseek (11/24) called for:

 Increasing Japanese military power. Building up Chiang's forces "so the can return to the mainland to fight."
 Encouraging "rebellions" in China.

UNWANTED TENSIONS: The desire or an even more "aggressive foreign policy" was unconcealed by leading Republicans; as the Philadelphia Inquirer pointed out, continuing U.S. prosperity depended on "maintaining international tensions." (The NYT, 11/22, already announced: "COMMODITIES DROP ON TRUCE PICTURE.") But the tensions were mounting where they were least wanted: calling at the White House for a briefing from Truman last week, Eisenhower got a "grim picture of the Administration's foreign worries" (WSJ, 11/18). These were two of the negative tensions contributing to Washington grimness last week:

• UN's Educational, Scientific and Cultural Orgn., after Franco Spain was admitted to membership and a further cut was made in its budget largely due to U.S. and Western pressure, was "split wide open" (N.Y. Herald Tribune, 11/23) with a series of resignations including that of its director general, Mexico's Torres Bodet. UNESCO pub-lications (a recent one is designed to correct the misuse of the word "race" and false ideas of "race superiority") have been barred from entering Spain, and pro-Franco Roman Catholics have been leading a violent attack on the organization in the U.S.

Spain simultaneously recovered its spain simultaneously recovered its administrative rights in the international zone of Tangier, N. Africa, lost because of Franco's aid to the Axis in World War II. In Washington, where a \$125 million loan to Spain has been authorized by Congress, President Tru-man was petitioned by 400 leading U.S.

man was petitioned by 400 leading U.S. Protestants to stop using
... American money to keep in power a government which encourages the per-ecution of men, women and children, because they confess the same Protestant faith as do the majority of Americans from whom the money comes.

• Despite strenuous U.S. opposition, UN's Special Political Committee approved an Asian-Arab resolution to establish a UN commission to study whether S. Africa's race-segregation policy violates the Charter, S. Africa's G. P. Jooste again defied the UN majority decision. majority decision.

SUCCESS IN GREECE: With the Kosuccess in Greece: With the Korean situation calling for massive concentration of available dollars and military power in the Far East if the "aggressive foreign policy" is to be pursued there, Eisenhower was faced with a "major economic crisis" in Western Europe: "objective students" wondered "how long such countries as Britain and France can hold out" (Sylvia Porter N. V. Post. 10/29). Porter, N. Y. Post, 10/29).

Washington took consolation Washington took consolation in Greece: while bitterly critical in UN of the principle of one state influencing the domestic affairs of another, it had shown its "sympathy for" and given "covert support" to Marshal Papagos (NYT, 11/17), thereby helping his bloc win the Greek elections. The elections were held under new regulations tions were held under new regulations eliminating proportional representation, with neither soldiers nor women entitled to vote. The Women's Intl. WAR & PEACE Korea peace hopes mount as U.S. allies back India's truce plan

DEACE in devastated Korea—or extension of war in the Far East, perhaps beyond human power to limit? The global debate on the question with which all others had become meshed which all others had become meshed vas reaching a climax at the week-end, as UN delegates exchanged views on India's new and challenging proposals. At GUARDIAN press time the outcome could not yet be foreseen, but three things were clear:

The Indian plan had brought to a head the crisis of the Korea truce talks, ostensibly deadlocked over the U.S. attempt to set new "voluntary" principles of POW repatriation.

After almost 2½ years of a bloodbath recognized everywhere as futile, the peoples' hunger for peace was reflected as never before in delegates' speeches.

India's proposal that all POW's be released at once after a cease-fire, and that final disposition of "won't-go-home" prisoners be one among many questions to be decided by a high-level political conference after 90 days, had opened a new phase by putting the POW problem in its proper place relative to the whole problem of peace in the Far East.

NEUTRAL REPATRIATORS: Pending such a conference, India proposed a four-member neutral Repatriation Commission (Poland, Sweden, Czecho-

V. K. KRISHNA MENON (L.) dia's UN delegate, with Person. VICTOR A. BELAUNDE

slovakia, Switzerland were suggested—but specifically excluding permanent Security Council members)—to whom all POW's would initially be released. Using no force either to effect or prevent their return home, it would grant full access by both sides to explain POWs' rights and other details. An "umpire" agreed upon by the commission would cast a deciding vote in case of a deadlock on repatriation arrange-

Exclusion of permanent Security Council members was proposed, said India's Krishna Menon, because of China's exclusion from UN in which it would be a permanent Council memit would be a permanent Council member if admitted. Menon asked—and most members who spoke last week seemed willing to grant—agenda priority for the Indian proposal over all others; and that if the Assembly accepted it, it should be transmitted to the Chinese and N. Korean authorities "inviting their acceptance."

MURDER BY AMENDMENT? At the week-end the U.S. flatly announced it would reject India's formula without three key amendments, which would sterilize in advance the essence of the political-conference-in-90-days proposal. But the mounting demand at home for peace clearly affected the positions taken by U.S. allies.

The first expression from Britain's Anthony Eden—made after a lunch with President-elect Eisenhower—was support of India's resolution with two support of India's resolution with two comparatively mild amendments. By Saturday, when the U.S. amendment demands were presented to Eden requesting his support, British fears of extension of the war were intensified by Eisenhower's choice of John Foster Dulles as Search State. On Sunders the by Eisenhower's choice of John Foster Dulles as Secy. of State. On Sunday the N. Y. Times reported that U. S. insistence on its three amendments had . . . brought into the open a serious split between the U. S., on the one hand, and Britain, Canada and other countries, on the other.

the other.

Syngman Rhee's Foreign Minister Y. D. Yang violently opposed the Indian resolution. Czechoslovakia and the Ukraine reiterated their support of the U.S.S.R.'s earlier resolution but said they were giving India's careful study. Other speakers, while guardedly favorable, all spoke of "necessary amendments." But India, as Menon said, had

A personal letter from

I. F. Stone

Dear Friend:

The sudden closing of the Compass was a shock to all of us. Many readers* have written to ask what my plans are and where they can read my column in the future. I am grateful for those inquiries.

Many of you have already suggested that I start some kind of newsletter. I am convinced there is no other way to go on doing the kind of newspaper work I have always done except by striking out on my own.

I am therefore prepared to launch on January 17 I. F. Stone's Weekly, a 4-page (8½x11) newsletter of politically uninhibited commentary and let-the-chips-fall-where-they-may report-ing from Washington and

Emphasis will be on Washington coverage. From week-to-week I want to provide a vivid record of what the Republican Administration is doing, to portray its per-sonnel and atmosphere, to supply information and sidelights you cannot obtain elsewhere, and to go on with the kind of campaigns waged in my column for justice and civil liberties.

It was never more important to find some means of keeping alive the voice of protest, to retain some place in which to go on giving aid and comfort to the victims of oppression in our dark-ening times. The next four years may be decisive for peace abroad and freedom at home. I want to stay in the fight for both.

This letter is the first step in launching the new week-ly. Your response will deter-mine whether it is feasible. The subscription price will be \$5 a year. I need your help NOW. Please mail me your check for \$5 TODAY and get at least one other person (more, if you will) to do the same.

What you do today will determine whether I can go on serving you as an inde-pendent journalist.

> With many thanks. I. F. STONE

· Including many who are readers of the GUARDIAN.

THE advance men in Los law, still others with the clinical Angeles had done a bang-up skill of the surgeon; but all with job for John Wood's Congres- pride in their craft and in the sional Circus: fat headlines in truth of their position. To quote job for John Wood's Congressional Circus: fat headlines in the press, pictures, radio and TV announcement—all free. It put Barnum to shame.

The first week in October Rep. Wood set up shop with his Un-American Activities Comm. in American Activities Comm. in the Los Angeles Federal Bldg. Stairways were locked, corridors roped off, spectators screened. FBI men were a dime a dozen, cops a nickel. It was a 12-day stand, Wood said; 140 doctors, lawyers, social workers, actors had been suppensed. This was it had been subpensed. This was it.

But it wasn't. The circus stayed 61/2 days, heard 64 witnesses (of whom three were friendly) fold-ed its tents and departed. What was the reason?

The reason?
The reason was that the witnesses—in a week that one day will take its place in glory in the history of our time—turned the tables on the committee and gave them a lesson in American principles that left them in utter stupid confusion.

tying labor to cost of living (and
which will cut his employes' wages
a cent or two an hour beginning
Dec. 1); said proudly without such
contracts and such unions "wages
would already have greatly exceeded what has occurred" (WSJ,
8/30/52). Once compared a closed
shop to "membership in the Nazi
party"; advocated a 45-hour week
at straight time. The day before
Wilson's appointment, the govern-

ment opened its long-delayed anti-trust case against DuPont's, one of world's biggest cartels and holding a controlling interest in GM.
