THE LOST LEADER.

Just for a handful of silver he left us.
Just for a riband to stick in his coat—
Found the one gift of which fortune bereft us.
Lost all the others she lets us devote.

A Lesson for Thickheads.

The scene opens with a family rehearsal, in which personal and business matters are rehearsed by a successful father aged sixty, says

a reliable San Francisco paper, and an inquiring son aged six.
Son—"What place is this pa?"
Father—"This, my child, is a brick yard."

men. Will I have to work for a living when I'm a man?"
"No, my boy, I'll leave you land when I die."

The Fruits of War.

Hikari (Socialist paper of Japan): Tobacco and Salt manufacturing industries have already been taken over and are being monopolized by the Government.

FROM THE NEWSPAPERS.

Milwaukee Daily News: The literary critic of the London News has been moved to write a scathing criticism of American life by reading Upton Sinclair's book, "The Jungle."

That Mr. Sinclair has written a powerfully moving story is evident from the influences it has had upon those that have read it. The literary critics not only have approved it but the very reading of it has led them to passionate protest against the conditions that it depicts.

GEMS OF REASONING.--By Ferdinand Lassalle.

ECONOMY can only deal with the question of how much the workers as a class can obtain for themselves, and what quantity of the products of labor the individual worker can obtain.

But the more earnestly and deeply the lower classes of society strive after the improvement of their condition as a class, the improvement of the LOT OF THEIR CLASS, the more does this personal interest, instead of opposing the movement of history and thereby being condemned to that immortality of which we have spoken, assume a DIRECTION which thoroughly accords with the development of the whole PEOPLE, with the victory of the IDEA, with the advance of CULTURE, with the living principle of history itself, which is no other than the development of FREEDOM.

It is possible when the profit of capital is due to what we have seen, when capital is the octopus which sucks up the entire surplus of the toil and sweat of the worker, leaving him only what are the bare necessities of existence--is it possible that anyone can still have the courage to speak in the presence of the workers of the profit on capital as the REWARD OF ABSTINENCE of capitalists who mortify themselves? Yes, there are those who still have the hardihood to shout the workers, to insult these luckless proletarians, with these jeers, with these monstrous sarcasms. Has conscience, then, fled out from among us? Has shame taken refuge with the brutes?

In the primitive state of individual, isolated labor with which we commenced, the instrument or tool--the bow and arrow of the Indian--was in the hands of the worker, and thus work alone was productive. Under the system of division of labor, work and production became social, although the distribution of the result of the work remained individualistic; and through division of labor, the system of exchange values and free competition, this result is rapidly brought about, viz: the separation of the instruments or tools from the worker becomes complete, the productivity of labor is appropriated by the holders of the tools,

and the reward of the worker is reduced to a wage which will keep him alive while he works. A very reasonable instinct warns the members of the lower classes, that as long as each of them relates himself only to himself, and each one thinks only of himself, he can hope for no important improvement in his position.

How much the workers as a class can obtain for themselves, and what quantity of the products of labor the individual worker can obtain. The question as to how one individual employer can get more for himself than other individual employers is really a part of practical business and in no way comes under socialism. All this shows that capital is not ever-present, that it is not a law of nature, but is the effect of certain historical conditions; and that its productivity in altered surroundings must and will disappear.

What is your local doing to spread the cause of Socialism? What are YOU doing?

Chicago. Chicago: The Aldermanic election April 3rd, showed 27,715 Socialist votes against 23,034 for Collins for Mayor last spring. The city's spring election, votes for the last three years is as follows:—
1904, 14,762; 1905, 23,034; 1906—27,715, an increase from 6 per cent of the total vote in 1904 to over 10 per cent in 1906.

FOR OUR NEW READERS:

THIS COUNTRY is made up of working people, both industrial and agricultural, but is ruled by the capitalist class, which is numerically small. Being in control of the government, it runs that government in the interests of its class and against the interests of the working class, which is the people. We Socialists believe that the country should be ruled by the people in the interests of the people. That is why we established a government in the first place. We want the people to own it so that the political power can be used to begin the march to the co-operative system, called Social-Democracy.

From Other States.

The election of local Bisbee, Ariz., where the union wrecking and Socialist annihilating Citizens Alliance is so much in evidence, resulted as follows:—Republicans 547; Democrats 401; Socialists 85. The secretary reports that this is as much as could be expected considering the fact that about 400 of the most active spirits were compelled to leave the camp during the last month. The capitalists are openly advocating the driving-out of the Socialists out of the country, and a workman seen talking to any known Socialist is discharged and black listed.

Wisconsin.

Comrade Nielsen of Racine, Wis., writes us that the Republicans and Democrats practically fused in that city during the last election. The Republicans endorsed the Democratic candidate for city treasurer and the same fusion was carried out in several wards. In the Ninth ward the Democrats endorsed the Republican candidate. The result was that the Social-Democratic candidate was defeated by 13 votes, although he received a larger vote than when elected last year, polling 179 votes against 144 at the previous election.

Blair, Nebraska.

Blair, Nebraska. 60 Socialist votes against 40 in 1905. It was reported that an unattached organization was trying to control the Socialist primaries in Omaha, and nominate a ticket in opposition to the party nominees. This attempt was unsuccessful, and the entire ticket proposed by local Omaha, was nominated at the primaries.

EDITORIAL ETCHINGS.

Two years ago the Social-Democratic vote in Milwaukee jumped from the 8,373 of the preceding election to 15,056. It was the time of the graft excitement, the voters were suffering from shock at the exposures of the vast corruption in both the capitalist parties, one or the other of which they had believed to be "reasonably" honest, and it was evident that many turned to our party as a means of merely registering their feeling of indignation.

IN YANKEE LAND

Chicago comrades are planning for a joint celebration of May Day with the labor unions. A. L. Smith, New Orleans has been elected a member of the National Committee for Louisiana. A big fair will be held in New York city to boost along the project for a Social-Democratic daily in the English language.

They have seen that the big increase of 1904 HAS CEASED TO BE A CHANCE VOTE that it now BELONGS to our party and our principles, and that the work of our party in the two years that have intervened, our constant agitation, our educational work with literature and other agencies, and the constructive work of our representatives for the first time in office, has all had the most gratifying and satisfactory consequences. ORGANIZED LABOR

Table listing various labor unions and their membership numbers, including Brewery Engineers and Firemen's Union No. 25, Brewery Bottlers' Union No. 247, etc.

Daily Paper: "Workmen demand their rights."

Call for the Label.

Union Men who neglect to do so denounce their principles. "Union men, when you buy goods and do not call for the label you really denounce your principles. When you call for the label you help unionism every time, and wages, too. You are an employer. You indirectly employ the men who make your shoes, collars, cuffs and clothing. If you insist on the label you are then employing union men. If you take the product without the label you are employing "scab" labor.

LABOR NOTES.

Warnings are being sent East by the unions on the Pacific coast against unemployed and moneyless people coming into that country. Work is scarce and they are bound to suffer hardships. There are now issued by the various international labor organizations no less than 185 official journals, some weekly and some monthly. In addition to this there are 175 weekly labor papers, and several hundred labor departments in daily papers, all of which are devoted to the defence and advocacy of labor's interests.

Local Labor Notes.

The Painters are making large increases in the membership of their unions. On May 1 a demand for a raise of from 30 to 35 cents an hour will be demanded. The Bakers are getting busy. Organizer Heinz reached the city last week and plans are afoot for a meeting at 526 Chestnut st. on April 21, at which he will be the leading speaker. An increase will be demanded on May 1. General Organizer Kelly of the Carpenters is expected to do quite a little work during his stay in the city. The demand for a closed shop so-called, which the Carpenters will make is quite sure of success, as several of the largest firms have practically agreed to it.

Labor Union Growth.

For the four months ending January 31, 1906, there were issued from the office of the American Federation of Labor eighty-five charters to newly constituted unions as follows: One international union, three state branches, sixteen central bodies, twenty-eight local trade unions and thirty-seven federal unions.

This shows an increase of twenty-five charters issued by the American Federation of Labor over the corresponding four months of the previous year.

Of course this does not include the charters issued by the international unions to locals of the respective trades and callings.

Frank Duffy, general secretary of the United Brotherhood of Carpenters and Joiners, in his annual report shows that there are 1,795 local unions of the brotherhood in the United States, Canada, Porto Rico and the Hawaiian Islands, with a total membership of 161,217.

The amount expended in support of strikes and lockouts during that period was \$75,440.37.

ALWAYS DEMAND THE UNION LABEL!

The Typographical Union. Press despatches have been sent broadcast announcing that the firm has acceded to the demands of the unions for an eight-hour day. Some of the labor papers are crying victory. It now appears, however, that this is the second attempt the firm has made to deceive the general public. No attention should be paid to these reports, as the fight is still on. When the battle is won the union will send out official notice to that effect.

AT THE THEATERS.

ALHAMBRA THEATER.

"A Pair of Pinks", the offering at the Alhambra the coming week, opening with a matinee Sunday, is one of the best equipped of present day musical comedies. West and Vokes and Margaret Daly Vokes make a strong trio of entertainers. "A Pair of Pinks" is a laughable satire on the modern jail gilded cages, call bells, electric lights, billiard tables, ping pong games, etc. "Percy and Harold," the redoubtable twain who have essayed many characters are now playing the roles of sleuths in search of the man who wouldn't laugh and West and Vokes may be relied upon to do the "Percy and Harold" act satisfactorily. Margaret Daly Vokes as the "Rubie" girl is peerless. The week should be a jolly one at the Alhambra. Matinees Tuesday, Thursday and Saturday.

BIJOU THEATER.

Johnny and Emma Ray, termed "the blazing lights of laughter" will be the offering at the Bijou week of April 22. They will be seen in their new comedy "Down the Pike". Fifty people will assist.

The real principle at the bottom of the primary law is the relegating of political parties to the rear and the advancing of the individual politician to the front. Men, not parties, is its philosophy, the theory being that the men are to be good men. But theory and practice are sometimes two different things. The recent election in Milwaukee showed that very clearly, especially where old party theories are concerned. Having made a rotten mess of politics through parties, the capitalist reformer can see no other way

to purify politics than through the abolition of parties, which reasoning, of course, is so a Socialist simply laughable.

Well, anyway, the primary election law was set a going in the recent Milwaukee election and the result is amusing in the extreme. Back of the law was the half-breed Republican faction, which hoped to clean out the Democratic city hall gang which belonged to the Republican stalwart faction boss, Pfister—as so to set up a new bossman, of course. And the thing worked, and the Democratic gang was cleaned out.

But the fruit was dead sea fruit to the half-breed faction. The man elected mayor was simply an individual who had taken a political advantage of the primary law which has no use for parties. He was not a fit person, nor a politically clean person, but he bought enough votes to get the primary nomination and so the half-breed Republicans and their organ had to whoop it up for him. It was innocently supposed by the half-breeds that he would be their mayor, if elected, but now they see their error. His manager during the campaign was a newspaper man formerly in the employ of Pfister, first at the time Pfister bought and remodeled the Milwaukee Sentinel and afterward as a Pfister hanger-on and handy-man. Just what string Pfister was able to get on the man who was elected mayor cannot be stated, but already it is clear that in the election while Pfister lost a Rose he gained a Becker. He had an anchor to windward, and the poor half-breeds did not suspect it.

Now the pap of victory is not to fall into the half-breed camp. That faction which controls the Republican organization cannot even control the elected Republican officers. The new mayor has told it that he proposes to make his own appointments and there is two years ahead of clashes in the city council between the different factions. The half-breeds have been undone by their own law, and we may be pardoned for our smiles.

The Journal is having an intermittent sort of a time of it. One day it announces the Social-Democracy is on the down grade in Milwaukee, and the next burst out in a worried editorial trying to show people that it isn't Socialism they want, but the palliative steps in that direction. If this sort of thing goes on it may be necessary to start a school of Socialism—also of Social-Democracy—for the Journal's exclusive benefit!

COMRADE MARTIN MIES desires to announce to the readers of the HERALD that he will remove his tailoring establishment from 734 Kinross Ave. (Bridge) to 875 Kinross Ave. 3 blocks south, on or about April 15th, 1906. He will be pleased to see his former customers there.

An Important Referendum.

There's big work ahead in Wisconsin and the comrades are eager for it. A first step necessary for the work is to make a slight increase in the state dues to enable the party to put three regular organizers in the field. Other states have raised their dues and have found the comrades glad. We urge the comrades to show good Socialist mettle and sacrifice and support the referendum for the increase dues, in order that the work we are all so anxious to see done may go forward without delay.

A Rare Chance.

500 Iron Beds to select from is the rare and big offering at Geo. I. Prasser & Son's store for the coming week. This lot of beds was bought at less than wholesale prices from the celebrated Simmons Manufacturing Co. There are all sizes and all colors from the cheapest to the best and comprises the stock of discontinued patterns. This opportunity presents itself only once in every two or three years and you are thus given a chance now to get iron beds for about half the regular price asked elsewhere.
