A correspondent from Rhode Island sends us a clipping from the Woonsocket (R. I.) Reporter, which purports to be a special contribution to the paper on the labor question by Herbert N. Casson. It is headed "Keep out of party politics," and goes on to "show" that trade unions have been broken up by "a few members who were rabid Republican, Democratic or Socialist politicians."

debate must close, as it was now lunch time. The resolution as adopted is as follows: Resolution on Relations Between Trade Unions and the Socialist Party. I. To enforce the proletariat completely from the bonds of intellectual, political and economic serfdom, the political and the economic struggle are alike necessary.

THE SOCIAL-DEMOCRATIC HERALD. At the twenty-sixth annual convention of the American Federation of Labor the following preamble and resolution were unanimously adopted: WHEREAS, The labor papers published in the cities and towns of the United States and Canada have in most instances a struggle for existence owing to the lack of subscribers and advertisers; and as they tend to educate and assist the labor movement by publishing official, accurate, labor news that the public press of most cities and towns will not permit in its columns, it becomes the duty of every labor organization and every individual member of organized labor to encourage and foster such labor papers by liberal patronage and every assistance that can be possibly rendered.

licisms of the German party in this connection, he pointed out that, outside of Russia, the party of no country had suffered so much persecution as had been endured by their German comrades. The militarism resolution was carried by acclamation and was as follows: Resolution on Militarism. The congress confirms the resolutions passed by the former international congresses against militarism and imperialism, and it again declares that the fight against militarism cannot be separated from the Socialist struggle of classes as a whole.

The breaking out of wars is further favored by the national prejudices systematically cultivated in the interest of the reigning classes, in order to turn off the masses of the proletariat from the duties of their classes and of international solidarity.

The congress therefore considers it to be the duty of the working classes, and especially of their parliamentary representatives, to fight with all their might against the military and naval armaments, not to grant any money for such purposes, pointing out at the same time the class character of bourgeois society and the real motives for keeping up the antagonisms between nations, and further to imbue the young people of the working classes with the Socialist spirit of universal brotherhood and with class consciousness.

The international cannot lay down rigid formulas for the action of the working classes against militarism, as this action must of necessity differ according to the time and the conditions of the various national parties, and particularly according to the basis upon which military organization is constituted. But it is its duty to intensify and to co-ordinate as much as possible the efforts of the working classes against militarism and against war.

In fact, since the Brussels congress, the proletariat in its untiring fight against militarism, by refusing to grant the expenses for military and naval armaments, by democratizing the army, has had recourse with increasing vigor and success to the most varied methods of action in order to prevent the breaking out of wars, or to end them, or to make use of the agitation of the social body caused by a war for the emancipation of the working classes—as for instance, the understanding arrived at between the English and the French trade unions after the Easthoda crisis, which served to assure peace and to re-establish friendly relations between England and France; the action of the Socialist parties in the German and French parliaments during the Morocco crisis; the public demonstrations organized for the same purpose by the French and German Socialists; the common action of the Austrian and Italian Socialists who met at Trieste in order to ward off a conflict between the two states; further, the vigorous intervention of the Socialist workers of Sweden in order to prevent an attack against Norway; and, lastly, the heroic sacrifices and lights of the masses of Socialist workers and peasants of Russia and Poland rising against the war provoked by the government of the czar, in order to put an end to it and to make use of the crisis for the emancipation of their country and of the working

classes. All these efforts show the growing power of the proletariat and its increasing desire to maintain peace by its energetic intervention. The action of the working classes will be the more successful, the more the mind of the people has been prepared by an unceasing propaganda, and the more the labor parties of the different countries have been stimulated and drawn together by the international.

In case of war being imminent, the working classes and their parliamentary representatives in the countries concerned shall be bound, with the assistance of the International Socialist Bureau, to do all they can to prevent the breaking out of the war, and, in the event that the war should break out, notwithstanding, they shall be bound to intervene for its being brought to a speedy end, and to employ all their forces for utilizing the economic and political crises created by the war, in order to rouse the masses of the people and to hasten the break-down of the predominance of the capitalist class.

Party News. A. H. Floaten, Denver, has been elected state secretary of Colorado. By a recent referendum, John G. Willert, Cleveland, Ohio, was re-elected state secretary for Ohio.

National Organizer Geo. H. Goebel, during July, organized locals at Lakeport and Big Oak Flat, Cal., and reorganized Sparks, Goldfield and Tonopah, Nev. Since the 28th of July, the day which the police of Hancock, Mich., broke up the Socialist parade, the Finnish Socialist local has admitted 102 new members. Persecution is often helpful, especially when it spells an unquarrel deal.

Comrade A. M. Simons has asked the national party to collect proxies of the small holders of stock in the Chicago daily round the country and to vote them at the stockholders' meeting, alleging that the local party organization in Chicago is opposed to the daily and is trying to injure it.

SOCIALISTS IN ACTION. Milwaukee.—The meeting of the city council Monday was mostly devoted to a wrangle over saloon licenses. A notable case was that of the license of Gypsy Ward, whose place was complained of by neighbors, but who had the support of a majority of the license committee, Chief Janssen having tried to give Ward a good character. The facts brought out were very blackening. Ald. Seidel said that a negro that frequented the place had boasted that the police

chief would not dare favor a revocation of the license, and, sure enough, the police chief had appeared before the committee to try to save Ward. "The chief's position in this matter is infamous," said Ald. Seidel. "If the chief has to hold his job by asking for licenses for such places as this, then he should resign. The council refused to postpone the petition of the neighbors, and in the matter war

tied up for two weeks by a motion to reconsider, made by Ald. Gerhardt (R), to save Ward. At a previous meeting Ald. Melms had introduced a resolution to flame the newly acquired Reynolds tract Lassalle park. There was later an effort on foot to back the name of Roosevelt to it, but as the park will be used by "undesirable citizens," Ald. Melms finally agreed to the name of Lincoln park. This was passed Monday, and the recommendation goes to the park board.

A gang alderman introduced a resolution thanking the gang aldermen of Chicago and Philadelphia for the "entertainment" accorded an aggregation of ball players representing the Milwaukee council when it played games recently in those cities. In accordance with the custom of the Socialist aldermen when they first invaded the council, Ald. Seidel voted against the measure, but some of the other representatives of our party let down the bars long enough to vote with the gang.

Ald. Conolly (D) introduced a resolution to send Milwaukee's indicted fire chief to the convention of fire chiefs at Washington and pay his expenses, which will provide him with the fourth vacation this season. Sweat, you workingmen! Only "desirable," indicted citizens count in capitalist society! The paving of Fond du Lac avenue, delayed by Ald. Gerhardt (R) who owns property there and is trying to escape personal expense by making the ward pay for it, was again laid over for two weeks, which means no improvement for the street this year, although it is in bad condition and will probably be productive of numerous damage suits to the city through accidents.

On Constructive Socialism. Party Organization. The rights of a nation are respected in proportion to the strength of its army and navy. The wishes of a party are enforced in proportion to the strength of its party organization. We can exert influence only with a well-organized and thoroughly disciplined party membership. We must have the quantity and quality of organized forces ready to back up the demands of the party. To attain this end the national, state and county organization must be thorough and systematic. The organizers must see to it that the dues-paying membership keeps pace with the party vote. If a decline is noticed in the votes or in the percentage of dues-paying members, the cause should be ascertained and the proper remedy applied.

The organization departments must be made self-supporting. Well-paid organizers are in a position to do good work. Charitable work is ineffective. A special fund must be created for organization work. I would suggest to put aside the first three months' dues from each new candidate for organization fund. Thus the new members will pay their own expense of solicitation. General Organization. Literary organization—There is a large sphere of constructive work in this field. Our activities were thus far wholly confined to the uneducated working class. No organized attempt was made to reach the so-called intellectuals. Still we must not ignore the fact that the intellectual class has always played a prominent part in every social revolution. A great deal can be accomplished by invading the intellectual field of activities. Our party members must be organized everywhere. In medical sessions, legal conventions, clerical gatherings, and merchant's banquets the spirit of the party must assert itself. Each party member must join the ranks of his profession or occupation, and unite the party members within these associations. By concerted action much can be accomplished. Economic questions can be introduced from time to time which will tend to enlighten the young student, the brilliant scholar, and the well-meaning merchant. There are many great minds prejudiced against our principles, because these have been poisoned in the schools, colleges and universities. With intelligent arguments and well-directed questions such fallacies can be dispelled.

Purchasing Power. Our next attention should be directed towards the organization of the purchasing power of the working class. Co-operative enterprises should be encouraged. Clothing and shoe stores, groceries, bakeries, coal depots, laundries, barber shops, etc., should be established. Shares should be issued in small denominations, so as to be within the reach of every workman. If this should prove difficult or impossible, we should encourage the organization of the purchasing power of the working class on a smaller scale. The precinct organizer might secure the co-operation of all members in his precinct, and make arrangements with one or two dealers in these respective departments, and thus secure for the members better terms and conditions. The work indicated is of the utmost importance.

It tends to solidify the workmen and keep in touch with one another not only in matters pertaining to their shop, but in all other daily activities. The families will meet in the same grocery, bakery, etc.

ACORN RANGES EXCELLENT BAKING QUICKLY DONE WITH LITTLE FUEL

Three is a reason for every item of Acorn construction. Every special feature in the make-up of Acorn Steel Ranges accomplishes something for durability, convenience, good baking, thorough heating or fuel saving, and every idea that assists in reaching these objects is embodied in our handsome new assortment. Hammered Polished Steel, of superior lustre, uniform color and exceptional strength, is the material used in the Modern and Silver Acorn Ranges. In combination with Acorn New Process Nickel it makes a strikingly handsome appearance. Planished Steel is easily kept clean, and carries nothing in the way of paint or varnish that will burn off. All teams on Acorn Steel Range bodies are cone riveted every two inches, on the back as well as front. Thoroughness distinguishes the asbestos lining and insures quickest possible baking and least possible loss of heat.

A Town Self-Supporting!

During the last thirty years, the authorities at Falcida, Norway, have sold over \$5,000,000 worth of trees; and by judicious replanting have provided for a similar income every thirty years. In consequence of this source of commercial wealth, there are no taxes in Falcida, and local railways and telephones are free, as well as education.

The supply being abundant and moderate in price, the demand for manufactured food, more or less adulterated, would diminish, and that abnormal appetite caused by unnatural food and atmosphere would gradually disappear, thereby reducing the demand for stimulants to a minimum.

Here's "Friendly Relations!"

The Lindemann & Hoverson Co., Exhibit the Bland Kindness of the "Open" Shop in the Cast Iron Agreement They Force on the Men Who Must Have Jobs or Starve!

We have been hearing a good deal from capitalistic sources of the imiquity of the so-called "closed shop," which means a shop where there is a union agreement. Below we give a choice view of the "beauties" of a capitalistic open shop. It shows up how the hen that lays the golden egg is looked on as a chattel possession:

- REGULATIONS OF A. J. LINDEMANN & HOVERSON CO.**
- 1.—Workmen must be on jobs ready to begin work at 8 a. m. and continue until 12 m., and from 1 p. m. to 5 p. m., and no time to be taken for lunch.
 - 2.—All tools and material, no matter of what kind or no matter where used, must be properly charged before leaving shop, and must be credited when returned to shop.
 - 3.—When an employe desires to quit working for this company, he will be obliged to give three days' notice in writing to this company, otherwise said company may retain any wages then earned by said employe, not exceeding two weeks' wages in all, as liquidated damages for such failure and in full payment thereof.
 - 4.—Fitters are to have helpers procure stock from shop before 8 a. m. or after 5 p. m., so as not to conflict with working hours.
 - 5.—On work outside of the city limits, where workmen cannot return each night, we will allow board for not to exceed \$4.00 per week, and workmen will work 9 hours per day.
 - 6.—Car fare will be paid in going to and returning from jobs if outside of city limits.
 - 7.—An account must be taken, and returned with time cards, of all material taken from shop or returned.
 - 8.—Two days' absence from work without leave, or without notice having been sent to the office giving reason for such absence, will be considered as employe having left the services of the company and his place will be filled by another.
 - 9.—Leaves of absence must be asked at the office. In all cases time sheets must be deposited in time box every day, otherwise no time will be allowed.
 - 10.—The 6th and 21st days of each month will be considered the first days of all pay rolls. This company pays on the evenings of the 10th and the 25th of each month, at 5 o'clock p. m.
 - 11.—Any time of material wasted, or damage done through defective work, will be charged up to fitter or helper responsible for same and deducted from pay roll. Work that has to be done over through negligence will not be paid for.
 - 12.—Any tools or material missing or lost from job, or between shop and job, must be paid for by fitter or helper in proportion of two-thirds for fitter and one-third for helper.
 - 13.—Any fitter or helper unable to go to work and who does not notify us immediately by telephone or message will be charged up with the loss of the time sustained by the fitter or helper working with him, and same will be deducted from pay roll.
 - 14.—Employes leaving the service of this company of their own accord will not receive their pay for work done until the next pay day from day of their leaving. Employes discharged for incompetency will be paid at once.
 - 15.—Boys under 14 are not allowed to work for this company.
 - 16.—All employes must first, on entering the service of this company, go to the office and sign agreement to accept of and abide by all rules.
 - 17.—When an employe enters the service of this company he will carefully read these rules and be governed thereby.
 - 18.—One and a quarter cents will be charged and deducted from each dollar of the regular wages to pay for insurance against accidents on the employes' collective insurance plan.
 - 19.—Drinking, smoking or lurching during working hours at any place is positively prohibited.
 - 20.—Five days of each pay roll will be withheld, which will be placed to the credit of the employe's account.
 - 21.—If the foregoing rules are complied with in all respects, this money will be refunded to the employe when he leaves the service of this company. In case he is discharged for violating any or all of these rules, then his five days' pay becomes forfeited to A. J. Lindemann & Hoverson Co.

I, the undersigned, hereby enter the employ of A. J. Lindemann & Hoverson Co. Before entering such employment I received a copy of the above rules and regulations prescribed by said firm, and I hereby acknowledge that I have read and fully understand them; and, for and in consideration of said firm giving me such employment, I hereby agree to comply with and be bound by the same in all respects. AT THE THEATERS.

Bedford's Hope, at the Bijou.

One of the great achievements of modern stagecraft is that of producing imitation water. In the play of "The Original Cohen," that is playing at the Bijou this week, there is a night harbor scene in New York with the mass of river in the background reflecting the twinkling lights of the buildings beyond. And through this water passes a brilliantly lighted steamboat and later a rowboat leaves the dock with two people aboard, yet there is not a drop of water about the whole affair, unless it be the painful that is dashed up in the air out of the imitation water when a woman is thrown overboard from the dock. Big houses are enjoying the play this week.

DAVIDSON
After a phenomenal success, covering a period of twenty-seven weeks in New York, "Brewster's Millions," a dramatization of George Barr McCutcheon's famous story, will be seen for the first time at the Davidson theater next week, beginning Sunday, with Wednesday and Saturday matinees. This

"Piff, Paff, Pouf" at the Alhambra.

the dashing cosmienne, Lulu McCConnell, who has sung the "Dolly Dimple" song with this production for two years. The original American pony ballet is still one of the features of the production.

"The Burgomaster," will open at the Alhambra for a week, commencing Sunday matinee, September 29 with Milwaukee's favorite comedian, Gus Weinburg, in the title role.

BIJOU
At the Bijou, beginning matinee tomorrow, Lincoln J. Carter's "Bedford's Hope" will be again presented to Milwaukee playgoers. Said the New York press when it was first given: "Introducing a race between an automobile and an express train, the realistic effort of which brought men and women to their feet in a burst of enthusiasm, 'Bedford's Hope' had its New York premiere last night at the Fourteenth Street theater. With an agreeable absence of frenzied fusillades and possessing a plot of considerable more sanity than is generally met with in the melodrama of today, the play was pronounced a success by a large audience."

Lovers of good, clean drama of the Southern flavor, spiced with an exciting racing incident, are assured of a treat in "His Last Dollar," which comes to the Bijou Sunday, Sept. 29.

GAYETY.
Next week, commencing Sunday matinee the Trans-Atlantic Burlesquers, presenting two original burlesques, "The Flubb Dubb Conspiracy" and "The Gay Modiste," headed by the beautiful Lizzie Freleigh, make their bow. As a special added attraction, Kalinoski brothers, a European acrobatic number, direct from the Wintergarten in Berlin, will be seen. The management also announce that every Tuesday afternoon there will be a special ladies' matinee, also a drawing for a valuable present to be given to the lady holding the lucky coupon.

ALHAMBRA
A brilliant company of stars will help in the presentation of "Piff! Paff! Pouf!" at the Alhambra theater, commencing tomorrow (Sunday) afternoon. The cast is headed by that droll funmaker, Ben Grinnell, for two seasons featured at the New York hippodrome, and

CRYSTAL
The program at the Crystal theater next week will feature the Seven American Whirlwinds, said to be the greatest acrobatic act in America. Other attractions are: Ellsworth & Burt in the comedy sketch, "Home Sweet Home"; Fernando May Duo, in an eccentric musical act; John Jeff, the black-face singer and dancer; Frank Williams in "Cheer Up, Mary"; the Crystalgraph; "The Wood-Cutter's Daughter," etc.

Here comes a complaint that ought to be fixed up quick! The barbers' union says that there is not a single union barbershop on the entire length of Green Bay avenue, and that it is unable to unionize any of the existing shops because workingmen are patronizing them anyway. As these shops are in a workingmen district it looks very much as if a good many union men were getting non-union scrapes without making any protest.

Women and Wages.
An ex-judge of the Arbitration court of New Zealand told me this story, says a writer in the Washington Post:
The girls in a match factory came before the court asking for an increase in wages. The proprietor said he could not pay what they wanted, that his enterprise was in its infancy, and to increase wages would ruin it. The court heard the evidence on both sides and decided that such arguments have little or no value to one having studied the financial condition of the business and the cost of living in the city, and then the judge said to the proprietor:
"It is impossible for these girls to live decently and healthfully on the wages that you are now paying. It is of the utmost importance, not only to them but to the state, that they should have decent, wholesome, healthful conditions of life. The souls and bodies of the young women of New Zealand are of more importance than your profits, and if you can't pay living wages it will be better for the community to close your factory. It would be better to send the whole match industry to the bottom of the ocean and go back

to flints and firesticks than to drive young girls into the gutter. My award is that you pay what they ask."
The man protested and grumbled, but he obeyed the order. He did not close his factory, and his business continued to prosper.—*Labor Clarion.*

The latest wrinkle consists in a set of three souvenir Socialist post cards of the Milwaukee movement. One card shows the party headquarters on Sixth street, another the big press on which the HERALD is run off at the rate of 2,400 an hour, and the third gives a view in the printery showing the new big job press. The three cards will be sent, post paid, to any address for 5 cents. Address this office.

be saved before the stuff could be taken off. Finally, that if his heart could be got right he need not have the weight taken off at all.
"And the Theologians secured a life job for centuries, just for preaching that the man could not possibly be anywhere than where he was."
"Finally a man came along and said: 'Why, take the stuff off and let the man go free.'"
"That man was a Socialist."

We bet Clancy is glad he does not live in San Francisco. In San Francisco an indicted mayor has been given a speedy trial and is now in the pen.

It is reported that the rain Wednesday set some of the light wooden blocks in the State street pavement floating down the hill at Eighth street, and that the aldermen want to repair the damage with more floating wooden blocks.

The indications are that the city administration is steering the ash scandal round in a circle and that the result of the present efforts to untangle the tangle will be to land the people just where they used to be: with the big producers of ashes placing the burden of their ash collection on the ward funds.

Ald. Grass and Buech of the Twelfth ward, after getting tired of the delays and blunders of City Atty. Kelly, have now taken the track elevation question into their own hands, and will force the condemnation of the necessary property at once.

And Dietz has won out at Cameron Dam! Knowing that the courts were corporatized and could be used corruptly by wealthy interests he held at bay the county authorities, which would have operated in favor of the big lumber corporation that was seeking to crush him, and became a law unto himself in order to protect his rights.

resort had to be made in a state boasting of its "law and order" and its "equal justice," but in this case the outcome shows how necessary it was. The Socialists took up the case of Dietz and contributed the last straw that broke the incorporation camel's back by proposing a legislative investigation of the kind of "law and order" they have in Sawyer county—and by the way, that county is well named, for Senator Sawyer also knew how to crush a weaker antagonist when he wanted lumber.

The under-paying of the teachers in the Milwaukee public schools is a disgrace to an enlightened community. But it is partly the fault of the teachers themselves. They have imagined that they were not mere working men and women, and that to organize a union was to lower their social status.

If the gas Milwaukeeans use is below standard now, when the city has a gas inspector installed, what must it have been before that department was established? The gas company is making money hand over fist and with its exclusive franchise, which the Socialist legislators have tried so hard to have altered, feels that it can do about as it pleases.

The Socialists in the county board have decided to favor the letting of the contract for the Grand avenue viaduct to the third lowest bidder. This decision has been arrived at from the fact that the work thus far done by the two lowest competing companies is not such as to warrant confidence in their ability to handle such a big concrete job as the long viaduct in question.

In this connection we have to notice a remark credited in the daily papers to one of the concrete men bidding on the Grand avenue structure, to the effect that his firm had no use for union cement workers because they were at least no better than the others. We have lately been paying quite a little attention to cement sidewalks in our walks from our home to the office, and we were struck with the large number that are cracked and badly crumbled.

The chief of police held a club over the mayor and made the mayor eat humble pie for fear that Gmibel girl story would get out. And now a lone negro in connection with the Ward saloon case has in turn made the big chief walk Spanish.

She said he would not dare to oppose the license, and he didn't. You may draw your own conclusions as to the reason. The chief's excuse was that Ward helped him spot thieves. In other words, the city must protect criminal-making dives in order that some of the criminals so made may be detected through the help of the keepers of the dives that make criminals. But it is said that the chief's real reason was that Ward handles some of his race horses for him.

Dr. Gasper, the city physician of Stuttgart, Germany, examined the school children of that city and found that scarcely one-third could be set down as healthy. A like examination has just been made in New York City and the result is given out as showing that fully two-thirds were found defective.

On Contract Labor and Penal Farms Whereas, Crime is to no small extent a disease created by the present unjust economic conditions and left as an unfortunate inheritance to posterity—a disease which demands a cure more than punishment; and Whereas, Criminals ought to begin a new life after having served their sentences, and should be assisted in becoming useful members of society, and should therefore be taught a trade; and Whereas, At present inmates of penal institutions are hired out to contractors in the manufacture of products which are put upon the market in competition with the same products manufactured by free labor: Therefore, be it Resolved, That the fifteenth annual convention of the Wisconsin State Federation of Labor hereby condemns contract labor in prisons: Be it furthermore Resolved, That we suggest the employment of prisoners in the production of the necessary commodities used in our public institutions. And, finally, be it Resolved, That we also endorse the establishment of penal farms, where prisoners can work to the advantage of the county and not in conflict with free labor, at the same time giving the unfortunate convicts an opportunity to recuperate and strengthen their moral and physical capacities by regular outdoor work, fresh air and sunshine.

broken down worker in the process, for under the competitive wage system it is easy to replace a worker who gives out with a new applicant. So it is not at all surprising to a student of social conditions that capitalism is weakening the race. Comrade Otto Zahn, of Engineers and Firemen's union, No. 25, and Comrade Haack put their heads together to see what they could do for the cause of Socialism. So they procured one of the pocket banks and started to collect funds for the Social-Democratic party among the good Socialists working in Blatz brewery. Twice they returned this bank to the party headquarters, full to overflowing with good "specie payments." The last time the bank was so full that it was impossible even to insert the key! What comrades will beat this? NOTICE—Members of the West Side Women's branch are requested to appear at the next meeting, Thursday, Sept. 25, at 2:30 p. m.—Mrs. Christ Boelert, Sec.
