WHAT ARE THE CHANCES OF THE PARTIES?

By Victor L. Berger.

It may be too early to make any sort of a forecast for the present presidential campaign.

The personality of all the three leading candidates—Taft, Bryan and Debs—is well known.

The Democrats have virtually given up all hopes of winning the East.

On the other hand, we may regard as Republican in the present presidential election:

Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, Ohio, Michigan, Illinois, Wisconsin, Iowa, Pennsylvania, Minnesota, South Dakota, North Dakota, California, Oregon, Wyoming, Utah, Washington and Kansas.

Local conditions may change the make-up somewhat.

This puts Taft clearly in the lead at the start.

And now the following are considered doubtful states:

New York, Indiana, New Jersey, West Virginia, Nebraska, Delaware, Colorado, Idaho, Nevada and Montana, with a total of 98 electoral votes.

The situation then seems to be:

For Bryan, 175; for Taft, 210; doubtful, 98.

Even if New York and New Jersey should vote for Bryan—they could only give him 51 more electoral votes.

Besides, it speaks volumes that while certain big capitalists, like Thomas F. Ryan, Perry Belmont and a few others, seem to favor Bryan, because they hold Roosevelt responsible for the "financial panic," it is undoubtedly true that the trustocrats of the type of Rockefeller, etc., prefer the Republican party and Taft.

They know Taft's past—as the original injunction judge—and they are quite willing to forgive him his friendship for Roosevelt.

Under these circumstances the Democrats are playing a desperate game. Instead of New York and New Jersey and Connecticut, as in former years, they will try this time to win Nebraska, Illinois, Indiana, Ohio and Wisconsin.

But they have no good reason for their hope.

It is true, the Republicans played horse with the anti-injunction plank and practically copied the present law and inserted it in their national platform.

However, the Democrats did worse, if anything, by declaring that "no injunction shall be issued in a strike case unless it would also be issued in some other case—that is, because somebody is afraid of damage to property, and so forth.

Besides, there is now a new factor to be considered—and that is the political awakening of the working class.

A HOT ONE ON TEDDY!

From the New York World.

The harm done by the frenzied Socialist agitator working upon the minds of the unstable and visionary must be steadily combated.

It is the business of the old party politician to play the people for guinea pigs, and the higher up the politician the smoother the trick has to be played.

James Creelman assures the American people, or rather his message is to the predatory class, that the Socialists are scheming to get control of this great nation.

It was not the "undesirable citizen," but Theodore Roosevelt, president of the United States, who in a message to congress, April 27, 1907, railed at the "multi-millionaire."

For violence of speech and intemperance of epithet in the incitement of class against class what has Socialism to learn from this past-master of denunciation?

Weapons with which to resist a sleepless propaganda which, though it may carry in its bosom treason to the moral, political, social and economic ideals of America, and contemplate the wreck and ruin of what it has taken a thousand years of human progress to achieve, yet is

Weapons with which to resist a sleepless propaganda which, though it may carry in its bosom treason to the moral, political, social and economic ideals of America, and contemplate the wreck and ruin of what it has taken a thousand years of human progress to achieve, yet is

The bugaboo about throwing away one's vote will not work at all.

And the victory of Bryan, even should Bryan win through the other states, means nothing to the workingman, except more wage-slavery, more graft for the politicians, and a general spread of Tammany ideas and Tammany methods.

Every vote for Eugene V. Debs, on the other hand, means a protest against the present system of exploitation, means a little step forward for cleanliness in politics and business, and it means a warning to the capitalist class that the working class is awakening—even if the Socialists do not carry any state this year.

It is only necessary for us to make this generally understood among the workingmen, and I feel confident that our ticket will poll no less than 2,000,000 votes in the coming election.

Wisconsin: The Wisconsin State Federation of Labor is in session at Fond du Lac this week, with a large attendance.

Secretary Brockhausen declared that the entire political scheme "has been treated with a strict adherence to the Wisconsin policy of true unionism, which is advice to union men to 'vote for the party nearest your class interests.'"

"The only weapon which is left to labor and which must be used by it without delay for its protection is the class-conscious political ballot.

"I have shown the way in which organized labor can defeat the power of the injunction, and now it is up to the individual members to use the most powerful weapon in their possession—the ballot—and annihilate the whole capitalist system."

In conclusion, he scored the political jobbing of the A. F. of L. leaders.

SOME EDITORIAL OBSERVATIONS.

By Frederic Heath.

Again we feel thankful to Mr. Roosevelt.

Mr. Gompers appears to have discovered the only way left to let himself down easy.

Mr. Gompers' threat that he will stop voting the Republican ticket ought not to seem so very serious to the G. O. P.—grand old plutocracy—considering that he has always voted for Bryan.

The poem, "The Red Flag," printed on another page, is the song that is most used by the Socialists of Great Britain.

Debs, when he left Pabst park in Milwaukee, passed a blind man grinding a hand-organ.

The kindly Mr. Creelman has broken loose again.

If we may be permitted to restate the latest outburst of "Everett True" Roosevelt against Socialism, it would be in about this wise:

There can be no grosser example of privilege than that set before us as an ideal by certain capitalist writers.

Mr. Creelman's worst misrepresentation of Socialism is to the effect that Socialism seeks to seize the "one hundred billion dollars of private wealth now owned by individuals" in order to have it "held in common by the people."

According to Theodore Parker if Jesus came back to earth the first thing he would preach against would be the thing that so largely masquerades today as Christianity.

Steve Adams was acquitted by the first ballot taken by the jury at Grand Junction, Colo.

Originally the federal government gave a square mile of land in the heart of Chicago for public education.

"In a little cottage in the rear of 1510 Lloyd street lives Minnie H—who has been suffering for a long time. On days like Saturday when the heat was oppressive, and made all the more so by the fact that the house was poorly ventilated, the girl's suffering was great."

"This girl suffered almost unto death because the price of ice was privately dealt in by a big monopoly was prohibitive. This is part of the slow social murder that goes on because the supplying of a life necessity remains in grasping, profit-hungry hands instead of being a municipal undertaking as the Social Democrats demand."

So long as ice is allowed to be a source of fortune-hoarding by individuals, just so long will there be children dying like flies in summer, and the private monopoly buying grace for its crime by giving picnics to the little ones in the name of simon pure philanthropy.

The Reason for Socialism By H. ESELL "Always be ready to give an answer to any one who asks your reason for the hope that you cherish."

Some Things Indicating the Trend of Man's Destiny. Among some of the things that indicate the direction of human destiny is the fading away of race hatred and the jealousy of nations.

With humanity thus merged into one great family, not only in name but in fact, comes the need and the desire for a simple, easy means of communication, a universal language.

What a long step this will be toward the unity and solidarity of the human family. Difference in language has always been a cause for division among the peoples of the earth.

And, as might have been expected, along with this progress comes the most significant thing of all—the growing spirit of unity among the working and the producing classes.

A truth of this kind assuming the proportions of a world movement is something hitherto unknown, and it is pregnant with possibilities.

But, still another thing that indicates the trend of man's destiny is the insistence of more and more of the people to have a part in all that

The Red Flag. (Tune: "My Maryland.") The people's flag is deepest red; It sheltered off our martyred dead.

It witnessed many a deed and vow; We must not change its color now.

It suits today the weak and base, Whose minds are fixed on pelf and place.

With heads uncovered swear we all, To bear it onward till we fall; Come dungeon dark, or gallows grim,

With this song shall be our parting hymn.

PARTY LEADERS OF GREAT BRITAIN JACK WOOD'S INTERESTING REMINISCENCES

The Countess of Warwick, Hyndman, Robert Blatchford, Keir Hardie, William Morris, Harry Quelch, are Familiar Names of Which He Speaks.

Los Angeles, Cal.—"I will not talk book," said Comrade Jack Wood at Collins' hall, Los Angeles, Cal., Tuesday evening.

Mrs. Mary Garbutt presided over the meeting, and for two hours Comrade Wood held his audience with vivid word-pictures and character sketches.

The attempt to destroy the Western Federation of Miners, although defeated by the solidarity of organized labor and the Socialist movement, revealed the existence of a far-reaching and unscrupulous conspiracy by the ruling class against the organizations of labor.

In their efforts to take the lives of the leaders of the miners the conspirators violated the state laws and the federal constitution in a manner seldom equaled even in a country so completely dominated by the profit-seeking class as is the United States.

The congress of the United States has shown its contempt for the interests of labor as plainly and unmistakably as have the other branches of government.

The working class of the United States cannot expect any remedy for its wrongs from the present ruling class or from the dominant parties.

Individual competition leads inevitably to combinations and trusts. No amount of government regulation, or of publicity, or of restrictive legislation, will arrest the natural course of modern industrial development.

While our courts, legislatures and executive offices remain in the hands of the ruling classes and their agents, the government will be used of the Marx family in England.

THE NATIONAL SOCIALIST PLATFORM FOR 1908.

The Socialist party, in national convention assembled, again declares itself as the party of the working class, and appeals for the support of all workers of the United States and of all citizens who sympathize with the great and just cause of labor.

We are at this moment in the midst of one of those industrial breakdowns that periodically paralyze the life of the nation. The much-boasted era of our national prosperity has been followed by one of general misery.

The present desperate condition of the workers has been made the opportunity for a renewed onslaught on organized labor. The highest courts of the country have within the last year rendered decision after decision against the workers of rights which they had won by generations of struggle.

NO BRYANITIS!

Editor SOCIAL-DEMOCRATIC HERALD: In the issue of the Milwaukee Journal of Monday, July 13, there appeared an article entitled "Labor to Fight for Bryan—What Becomes of Victor Berger's Party?" Now, as an American citizen, I would like to notify the Journal that there is no such party as Victor Berger's party; that Victor Berger's party is like Berger's brownstone mansion. It does not exist outside of Democratic or Republican imagination, but if the Journal means the Social-Democratic party, I would like to assure the editor that it will take care of itself, and if he will wait until November, he will have the pleasure of seeing the Democratic party slipping from first to third place in Milwaukee. And in the country at large, I can assure the Journal that the workers will not be lured by the Chinese puzzle that was handed out at Denver last week.

THE PRINCIPLES OF SOCIAL-DEMOCRACY

(Adopted at Chicago Convention.) Human life depends upon food, clothing and shelter. Only when these are assured are freedom, culture and higher human development possible.

To produce food, clothing and shelter, land and machinery are needed. Land by itself does not satisfy human needs. Human labor gets raw materials and food out of the soil by creating machinery and using it upon the land. Whoever has control of land and machinery has control of human labor, and with it of human life and liberty.

Today the machinery and the land used for industrial purposes are owned by a rapidly decreasing minority. So long as machinery is simple and easily handled by one man, it does not make its owners so powerful that they can dominate the sources of life of others.

In proportion as the number of such machine owners compared to all other classes decreases, their power in the nation and in the world increases. They bring ever larger masses of working people under their control, reducing them to the point where muscle and brain are their only productive property.

A bitter struggle over the division of the products of labor is waged between the exploiting propertied classes on the one hand and the exploited, propertyless class on the other. In this struggle the wage working class cannot expect adequate relief from any reform of the present order or from the dominant class of society.

The wage workers are therefore the most determined and irreconcilable antagonists of the ruling class. They are also the class which suffers most from the curse of class rule. The fact that a small number of capitalists is permitted to use all the country's resources and social tools for their individual profit, and to make the production of the necessities of our lives the object of their competitive private enterprises and speculations, is at the bottom of all the social evils of our time.

In spite of the organization of trusts, pools and combinations, the capitalists are powerless to regulate production for social ends. Industries are largely conducted in a planless manner. Through periods of feverish activity the strength and health of the workers are mercilessly undermined, and during periods of enforced idleness the workers are frequently reduced to starvation.

The climax of this chaotic system of production are the regularly recurring industrial depressions and crises which paralyze the nation every fifteen or twenty years. In its mad and reckless race for profits the capitalist class is bound to exploit the workers to the very limit of their endurance and to sacrifice their physical, moral and mental welfare to its own insatiable greed.

To maintain their rule over their fellow men, the capitalists must keep in their pay all organs of the public powers, public mind and public conscience. They control the dominating parties and, through them, the elected public officials. They select our executives, bribe our legislatures and corrupt our courts of justice. They own and censor the press. They sway our educational institutions. They own the nation politically and intellectually just as they own it industrially.

The struggle between wage workers and capitalists grows ever fiercer, and has become the only vital issue before the American people. The wage-working class, therefore, has the most vital and direct interest in abolishing the capitalist system. But in abolishing the present system, the workingmen will free not only their own class, but also all other classes of modern society: The small farmer, who is today exploited by large capital more indirectly but not less effectively than is the wage laborer; the small manufacturer and trader, who is engaged in a desperate and losing struggle for economic independence in the face of the all-conquering power of concentrated capital; and even the capitalist himself, who is the slave of his wealth rather than its master.

The private ownership of the land and means of production used for exploitation, is the rock upon which class rule is built; political government is its indispensable instrument. The wage-workers cannot be freed from exploitation without conquering the political power and substituting collective and democratic administration for private ownership of the land and the means of production used for exploitation.

The basis for such transformation is rapidly developing within the very bosom of present capitalist society. The factory system, with its immense machinery and minute division of labor, is rapidly destroying all vestiges of individual production in manufacture. Modern production is already very largely a collective and social process, while the great trusts and monopolies which have sprung up in recent years have had the effect of organizing the work and management of some of our main industries on a national scale, and fitting them for national use and operation.

In the struggle for freedom the interests of the workers of all nations are identical. The struggle is not only national, but international. It embraces the world and will be carried to ultimate victory by the united workers of the world.

With various other unions, will hold a big anti-prohibition demonstration, beginning with a monster parade, at Pabst Park. The procession will have various transparencies and mottoes, and will move through the principal downtown streets. A large turnout of the brawn of Milwaukee is expected.

On Sunday, July 26, the Brewery Unions of Milwaukee, together with various other unions, will hold a big anti-prohibition demonstration, beginning with a monster parade, at Pabst Park.

FOR PERSONAL LIBERTY. On Sunday, July 26, the Brewery Unions of Milwaukee, together with various other unions, will hold a big anti-prohibition demonstration, beginning with a monster parade, at Pabst Park.

FOR OUR NEW READERS: THIS COUNTRY is made up principally of working people, both industrial and agricultural, but it is ruled by the capitalist class, which is numerically a very small fraction of the population. Being in control, that class runs the government in its own interest and against the interests of the rest of the people.

The Social-Democratic party is organized to bring this about through the abolition of capitalism. We insist that the industrial class shall be the wealthy class, and the life class the poor and dependent class—although social democracy will abolish all poverty and eliminate the dregs.

The Social-Democratic movement is international. But will doubtless achieve success in the United States first, because the capitalist system is farthest developed here and has made greater headway in preparing the ground for the higher system of society.

Program of International Social-Democracy: 1. Collective ownership of all industries in the hands of trusts and combines, and of all public utilities. 2. The democratic management of such collective industries and utilities.

In Toledo they send the ice barons to prison.

In Milwaukee the ice baron is denounced by the press one year for the robber price of ice and the deaths of the poor children it occasions, and the next the "reform" organ of an Ike Stephenson dares to editorially suggest the ice baron for mayor!

And we repeat it again. In this police department blacklisting we shall see what we shall see.

Not contented with the two-legged species, the Democrats had to also get a four-legged jackass into the city hall.

The new department of supplies is one of the worst grafts ever framed up by the grafting Democratic party in Milwaukee.

Birds of a feather flock together. If our Milwaukee aldermen entertain the booblers and crooks from capitalistically crooked Philadelphia, what shall we think of our aldermen?

Get hold of a life necessity and screw up the prices so as to kill off human beings, and you will be hailed as a public benefactor in a "reform" press and nominated for mayor! This is the capitalistic way.

Pennsylvania Republican thieves who so scandalously plundered the state on the state house contracts and then managed to get free, thanks to the courts, also politically minded, ought to have their representatives on the aldermanic ball team coming here from Philadelphia to play our "honorable" aldermen. Men that can make such slick "get-a-ways" should make good base runners in a game between aldermanic crooks!

Mayor Rose has appointed a "Republican," Aug. Dietrich, to the vacancy on the city service commission. Dietrich is a Rose-Republican, and doubtless was one of those secretly on Dave's staff in the recent city election. And who is Dietrich? An ex-alderman with no very good reputation. For years the old real estate firm of Dietrich & Schuengel dealt in property to be sold to the city, and there was complaint by other real estate men that Schuengel's position as city clerk gave his firm an unfair advantage in securing first information when the city was getting ready to purchase land.

It is not bad enough that Milwaukee should pay the extravagant sum of SIX THOUSAND DOLLARS A YEAR—more than eight ordinary livings—for a man to superintend its public schools, but almost before the people have ceased to grumble at the burden, another similar game has been played upon them.

A FOUR THOUSAND DOLLAR A YEAR secretary has just been added to the SIX THOUSAND DOLLAR superintendent!

This was perpetrated at the last meeting of the school board by the people's representatives. For SIX THOUSAND DOLLARS A YEAR—more than the great state of Wisconsin pays to its chief executive—the city failed to get an exceptional educator. On the contrary, it got a gold brick—for all that glitters is not gold. It got

a man poor in grammar, slipshod and impractical in methods, and dictatorial in his management. Had a really able man been secured, the size of his grab on the treasury might not matter so much. The secretary of the school board who has now been presented with a FOUR THOUSAND DOLLAR grab on the treasury is simply a common everyday fellow, formerly a newspaper reporter, whose place could be filled as well or better by hundreds of young men about town. Compared to Henry E. Legler, the

former secretary, he is a pigmy. Yet the school board has voted him a salary equal to that of the mayor of the city, or the city attorney, or the comptroller, or city engineer. On our first page we have something to say this week about Mr. Kopmeier and his picnic for the children. Mr. Kopmeier must take the people of Milwaukee for blithering idiots if he thinks he can buy grace so cheaply. It wasn't only the children in the flesh and blood that attended his foxy picnic, but the shades of almost countless babies were there—babies that his robber hold-up for ice had sent to premature graves, and they were there pointing accusing fingers at his ice trust. The price of ice is no lower than it was last year when the press jumped on Mr. Kopmeier so deservedly. The Salvation Army is dealing out penny ice to try to lessen the infant mortality of the alleys during the summer. What is Mr. Kopmeier doing to lessen the murder of the innocents—giving a one-day feast to the children that have thus far escaped!
