Childhood! What a holy theme! Flowers they are, with souls in them, and if on this earth man has a sacred charge, a solemn obligation, it is to these buds and blossoms of humanity.

Yet how many of them are prematurely plucked, fade and die and are trampled in the mire. Many millions of them have been snatched from the cradle and stolen from their play to be fed to the forces that turn a workingman's blood into a capitalist's gold and many millions of others have been crushed and perverted into filth for the slums and food for the potter's field.

Childhood is the parting of the ways which lead to success or failure, honor or disgrace, life or death. Society is or ought to be profoundly concerned in the nature of the environment that is to mold the character and determine the career of its children, and any remissness in such duty is rebuked by the most painful of penalties and these are inflicted with increasing severity upon the people of the United States.

Childhood is the most precious charge of the family and the community, but our capitalist civiliza-tion sacrifices it ruthlessly to satisfy its brutal last for pelf and power, and the march of its conquest is stained with the blood of infants and paved with the puny bones of children.

What shall the harvest be? The millions of children crushed and slain in the conquest of capitalism have not died in vain From their little graves all over this fair land the yare springing up as it were, against the system that murdered them and pronouncing upon it, in the name of God and humanity, the condemnation of death

A CORPORATION MAYOR.

Milwankee Free Press: Mayor Busse claims that the main reason why the 'Chicago municipal light plant "does not pay" is because he cannot get a fair day's work out of the well-paid employes of the city. "A city employe," he is quoted as saying, "seems to think that he is required to do only about one-fifth of a day's work." Private corporations, he maintains, know how to make men earn their pay, "but with the city it's different—the employes loaf long and waste time and supplies at the expense of taxpavers."

To introduce business methods, he holds, is simply out of the question. If this is really the state of affairs in Chicago's municipal government, Mayor Russe is either a monstrous incompetent or a wilfull maladministrator. But whe tever he is, his nerve in confessing that Chicago is muterly at the mercy of its employer. The Denver Alliance says: "The under the cannot be a minimal to the case of the truth and givence. Why persist in leaving your funds in the bank drawing 2½ or 3 per cent interest? Isn't it foolie'n to take 2½ or 3 per cent when 5 per cent is offered? Why hesitate a rioment longer?

You should take advintage of every good thing that comes your way. If a Socialist institution offers better security than banks, at a greater rate of interest, don't continue the losing proposition. Take up the 5 per cent and drop the 2½ or 3 per cent interest proposition.

Resides Socialists don't believe in "confidence." Yet this is about all

Besides, Socialists don't believe in "confidence." Yet this is about all many banks are built upon. And although this is well known, banks can still find Socialists with sufficient "confidence" to make deposits in their institutions. Why take chances? Is it because you feel "confident" that your bank is at least so sound that you will not lose your savings? Is it because you feel "confident" that in case of danger you at cast will be secure? Or is it because you feel "confident" that in case of a run on the bank, or a panic, that you are smart enough to withdraw your deposit before it's too late? Now really, why take these chances—why feel so "confident." You know this "confidence" game has many times proven that it is apt to explode like a bubble, and just as suddenly.

Quit feeling "confident" that you will not lose. Invest your more

Quit feeling "confident" that you will not lose. Invest your money a growing institution, where you KNOW it will not be lost.

There is another point. It is much better to invest your money in an institution that will use it to your interest, than to deposit it where it may be used against you. Bank your money and what guarantee have you that it won't be used by some corrupt, dirty politician. He may so to the same bank and borrow the very money you deposited for the purpose of carrying on his dirty work.

Stop helping your enemies. Don't furnish the resources for your op-ponents. Help yourself! Help your family! Help your class! Start right now.

Here's a partial list of those who are not taking any more chances:

You are losing money by further delay. Act now. The issue of bonds is for \$12,000. Just \$11,300 has been sold. Unless you act soon it may be too late. Don't be foolish any longer. Don't take 2½ or 3 per cent when 5 per cent is within your reach. Don't help shaky banks by your "confidence" in them.

That "Preferential" Referendum.

That Preferential Referendum.

To the Editor The referendum soon to be submitted to the national membership of the party is much more than a proposition to experiment with the preferential referendum. To the latter there is no special objection, when properly applied. In this case it seems to be worked out in a rather confusing manner, e.g., the present amendment would mean, that if I did not want to yene at all for any one person named on the for any one person named on the ballot for the offices in question, my refusal to vote for this person in way would invalidate the ballot

But here is the really important thing. This referendum aims to exact-by reverse the action of the referendum just held, with reference to the under-lying principles of the national or-

thing that caused British trades union then to enter politics on an dependent lines. The money that was spent on that decision was well spent in arousing the people of Great British to a realization of their rights. When the time came for a general election, all the workers were determined that the effect of that decision should be wiped out so far as their rights were concerned. The Labor Party was formed from the British Trades of Lords, as you have the House of Lords, as you have the senate. If hope that will be the position taken by our friends on this side of the water. I hope you will not rest statisfied until you are made free men once more. "In England we have got free from the Taff Vale decision. THE USEFULNESS of the SEWING MACHINE

Perhaps at no other time of the year does the mother scenne as much good use from the sewing machine as in the two months preceding the holidays. Everything, from fall clothes for the girls and young ladies to the many dainty garments for baby and her dollies, are "run up and put in readiness for wear. It is surprising how much cold cash a good machine actually saves a family—and its years of usefulness are unlimited, especially if it is occasionally overhauled and put in perfect order by an experienced person. A sewing machine is an acticle that must be purchased RIGHT in order to prove a good investment and the best way to be sure of any article is to buy it of a dealer whose time is devoted to seiling the best makes.
