The Social-Democrats have cap-tured another seat in the legislature of Saxony. The capitalist parties combined and this is said to have caused many to throw in their lot with the Socialists.

Fifteen hundred towns in Germany have enough income from real estate holdings to make taxpaying by the citizens unnecessary. Milwaukee could well afford to do the same sort of thing, and the citizens are being asked to give the idea their consideration.

Now it develops that the so-called Boy Scout movement had its origin in South Africa during the Boer war. Col. Baden-Powell uniformed the boys of Mafeking and made them orderlies, messengers and lookouts, during the siege. For example take the gold fields of California grabbed up by the millionaires. laboring men at one time, when thes mines belonged to the people, coul pan out from one hundred to fiv lionaires swooped down on them and monopolized the whole field, and sent one of their company to the United States senate, who declare that the supremacy of the Republica: party must be maintained at all haz ards for the following reasons: that the capitalist class, the great import-ers, manufacturers, and railroad corporations and the great banking institutions, which pay all the ex-penses of the government will see to

In like manner the capitalists swooped down upon Alaska, grabbed up the gold and copper mines, which Abraham Lincoln, president of the United States, purchased of Russia for seven million dollars of the people's money. In like manner they sent a representative to the United States senate, to see to it that no law should be passed through that body which would restore to the people their natural rights. And this has occurred ever the world, until all the means of life are controlled by a few men, while the people have been borating of their acquisition in Alaska. The People's Realty Co.

While the sale of the stock was being pushed last year it was selling pretty fast. Last November, however, we stopped pushing the sale because we did not wish to sell more than sufficient to cover the cost of building. We now find that to complete the building and furnish it completely will cost six to seven thousand dollars more than was estimated at last fall. Therefore, this amount of stock is now placed on sale.

Make a purchase of one or more shares at once. Funds are needed immediately to pay the balance due to contractors. You run no risk in placing your spare money in this enterprise for investment.

The People's Realty Company is not formed for speculative purposes. Neither is it organized just to sell stock and give some promoters a chance to get rick quick. It is legitimately brought into existence for the purpose of providing the labor movement of Milwaukee with suitable quarters.

There is no desire to hide or conceal any information. Everything is open and above board. Any prospective nvestor or any stockholder has the privilege of delving deep into all its affairs. The management is practically the same as that which has made the Socialist movement of Milwaukee such a huge success. Not a single penny has been spent for salaries. Every one of the officers and directors are giving their time, knowledge and labor absolutely free of charge.

INVEST NOW

There is no preferred stock. It is all in one class. There are no advantages of some stockholders over others. All are alike. Every share is fully paid and non-assessable. Every cent from the proceeds of the sale of stock is invested or spent for legitimate purposes. The promotion and sale of stock has not, and will not cost the People's Realty Company one cent. This is all taken care of by a guarantee of the Milwaukee Social. Democratic Publishing Company.

The prospects of the company are the brightest. Practically two-thirds of the space is already either rented or spoken for. This indicates there will be no trouble to find tenants for the remainder of the space. With the building all leased it will become a dividend-payer right from the start.

With the excellent location, bought very cheaply, with all of the above bright prospects, with efficient and honest management of which there can be no doubt, the balance of the stock a bould sell rapidly.

be no doubt, the balance of the stock abould sell rapidly.

Not many shares remain unsold. If you want the honor of aiding the splendid enterprise and to invest in a safe, sound and well paying proposition, you have no time to lose.

Remember only enough stock will be sold to pay for the balance now due to contractors. As soon as this is sold the sale will stop. If you are thinking about taking stock, quit thinking, act! Do it at once. Don't delay. Let us get through. Send in your remittance by return mail.

Socialism is the New Patriotism

BUMAN life depends upon food, clothing and shelter. Only when these are assumed are freedom, culture and higher human development possible. To produce food, elothing and shelter, land and machinery are needed. Land by itself does not satisfy human needs. Human labor, gets raw materials and food out of the soil by creating machinery and using it upon the land. Whoever has control of land and machinery has control of land and machinery has control of land and machinery has control of luman labor, and with it of human life and liberty. Today the machinery and the land used for industrial purposes are owned by a rapidly decreasing minority. So long as machinery is simple and easily handled by one man, it is simple and easily handled by one man, it of the control of decreasing minority. So do not be a simple and easily handled by one man, it is simple and easily handled by one man, it is does not make its owners so powerful that they can dominate the sources of life of others. But when machinery becomes more and more complex and expensive, and requires for its effective operation the organized effort of many workers. Its influence reaches over wider circles of life. The owners of such machinery become the domest class.

THE MASSES IN SUBJECTION.

In proportion as the number of such machine owners compared to all other classes decreases, their power in the nation and in the world increases. They bring ever larger masses of working people under their control, reducing them to the point where muscle and brain are either only productive property. In this way the city would save I per cent on its bonds, which would mean, when the full bond issue of the city was handled in this way, a saying of \$100,000 per year to the city. And finally, the administration has worked out a complete and up-todate system of municipal accounting, made a very strong and persistent fight; until at last every political party in the state is committed to the idea and has promised it in their platform. The day of the toilers triumph is at hand.

The recent Socialist victories in almost one hundred towns and cities has aroused the Capitalist controlled press and their retainers. They are beating the air with flaming, weird, and ridiculous falsehoods and gross misrepresentations in front page screamers all over the country.

If the Socialists throughout the country realize it and are prepared to take advantage of the opportunity every column of the lying misrepresentations circulated by our enemies can be made equal to so much Socialist propaganda literature.

propaganda literature.

A flaming broadside front page story on "Socialist misrule in Milwaukee" has the effect of causing people to think about Socialism who never thought before. The man who was made aware that Socialism is the big issue by reading the attacks on the Milwaukee Socialist administration is put into a frame of mind to read Socialist literature with interest, who would have passed it by with indifference before.

Tens of thousands of your neighbors, friends and shopmates are now ready to subscribe for a Socialist paper and read the other side, if you will call his attention to the Herald!

DO IT NOW!

Every one of you can get from one to ten new readers for the Herald during the coming month, it you try. Will you do that much to take advantage of the present splendid opportunity? YES, WITH YOUR HELP!

Yes, we are going to have a daily Socialist paper in Milwaukee. It should be here by the first of November. What have you done to help it along? If you have subscribed for a bond and done all you can financially yourself, do not imagine your work is finished. Go after your neighbor and get him to do likewise. "MUST HOLD MILWAUKEE"

The dominant note in all letters which arrive at the Herald office these days is "You must hold Milwaukee for the welfare of the cause throughout the country. We know you have made good by the frantic and hysterical efforts the capitalist press is making to discredit the Milwaukee Socialist administration."

Our answer to the comrades everywhere on the continent is:

Nothing will be left undone by the Milwaukee Socialists, not only to make good our platform pledges and hold the city, but to do everything within the range of the possible for the present and future benefit of the toilers of this city and their children now growing up whether mentioned in the platform or not.

The "Menace of Socialism"---James F. Carey's Answer to Father Gasson

Full Text of the Address at Faneuil Hall, Boston. This Reply Together with a Synopsis of Father Gasson's Speech Will Be Issued from This Office as a 10-Cent Pamphlet. Send in Orders at Once

Those of you who listened to the Rev. Father Gasson's lecture on "The Dangers of Socialism," and those of you who read the reports published in the papers, may have been struck by the fact (and I consider it the great fact, the dominant note in it all), that for the first time on the part of those who are opposed to Socialism, the Socialist movement was treated with courtesy, that even though the reverend gentlemen did not agree with us, he at least did treat us with the courtesy, which we as men and women deserve; that he did not indulge in that violent and wholesale denunciation which unfortunately has been the characteristics of many clergymen of the Catholic church and others, that does no credit to them, nor does it injure us. I wish to say as an individual Socialist, and I think I can say it for all other Socialists, that we thank him publicly for his courteous, kindly and manly treatment of us; he lifted the discussion of the subject up out of those narrow, bigoted, and vicious levels on which some would force it, up to a courteous and manly plane, which is to his credit-his everlasting credit.

It is quite possible that some of us are mistaken, and if we are to arrive at the truth of a thing we can best do so by discussing it with the least degree of passion and with an absence of denunciation.

The primary criticism, the criticism which is perhaps the one that first of all should be made concerning Father Gasson's lecture is that it carried with it the impression that there are many brands of Socialism, that there are a number of kinds of Socialism. That, if it be true, would necessarily make the discussion difficult. You know some people have fallen into the habit of saying that there are fifty-seven varieties of Socialism, but I have not the time to discuss the fifty-seven varieties even if they existed. A question was propounded to the reverend gentleman by a member of his own congregation, a man of mature years who is one of the original members of the Socialist movement, and is today a consistent member of the Catholic church. He asked Father Gasson, "if knowing him to be a member of the Socialist party would he, as his father confessor, grant him absolution when he went, as is his custom frequently, to confession," and the Rev. Father Gasson said, "I would first want to inquire into the brand of Socialism that you believed in." I say that this is the most important thing, because if he is to discuss a brand of Socialism with which I have nothing to do, and I am to discuss another brand of Socialism with

which he did not deal, then we do not get anywhere at all.

The mistake of the gentleman, which is common with many who discuss the Socialism movement, is to assume that there are many brands of Socialism. I submit that that position is not warranted by the facts. It is said that there are three hundred and sixty different kinds of religion in the world, but if you wanted to discuss the Catholic religion you would not go off and discuss some form of religion that may exist somewhere at the end of the world. Not at all. If there be fifty-seven different kinds of Socialism, as has humorously been stated by other than the Rev. Father Gassor, IF THERE BE MANY BRANDS OF SOCIALISM, THE SOCIALIST MOVEMENT OF THE WORLD IS CONCERNED ONLY WITH ONE SPECIFIC BRAND. And we insist that it is the duty of those who oppose us, not to confuse the subject by talking about any other

brand which they may assume exists. In every country in the world, called civilized, there is a Socialist movement, and that Socialist movement is distinguished from all other movements by a certain specific declaration. You can go where you please, to the Japanese Socialist, or the Chinese Socialist, or the Irish Socialist, or the Scotch, or the English, or Australian, or German, or French, or Italian, or Servian, or whatever they may be, of all races of all creeds, and of all colors, you can go to them all, and the distinguishing feature is a certain declaration. I submit it to you. If every possible demand and every possible vagary of the human brain was included in a declaration of principles by any Lody of human beings, that did not contain the declaration that SOCIETY SHOULD OWN AND OPERATE DEMOCRATICALLY THE SOCIAL TOOLS OF PRODUCTION AND DISTRIBUTION, that would not be a Socialist declaration; and if a declaration is issued carrying with it nothing else but the simple demand for the social ownership and democratic management of the social tools of production and dis-

tribution, just those words, that would be and is the Socialist declara-

Now, there are things that are Socialistic. What are they? They are those things that tend in that direction, and nothing else. When men talk about various other subjects and declare them to be socialistic, in spite of the fact that the distinguishing feature of the Socialist movement of every country is the declaration for the social ownership and democratic management of the social tools of production and distribution, either they are misinformed, or uninformed, or engaged in malicious misrepresentation. I have no desire to defend the various things that some say is Socialism. Not at all. I have no desire to defend the personal views of individual Socialists on other subjects. Not at all. And it is not fair for individuals who are opposed to Socialism, or organizations that may be opposed at present to Socialism, to pick here and there out of the great army, and the growing army, of the Socialist movement an isolated or scattered statement of an individual, and hold the whole Socialist movement responsible. So that in the discussion of Socialism I say as a member of the Socialist party that the distinguishing feature of the movement that calls itself Socialist is the declaration of principles that we have announced. If the Catholic church is opposed to it, that is their affair; if any other church-is opposed to it, that is their affair. They have a perfect right to be opposed to it. I do not question the right of any individual or any body of individuals to disagree with my political or economic views, or the political or economic views of the Socialist movement. They have just as much right to their opinions on that subject as I have, but we have a right to have our position considered, and fairly considered, and no amount of evasion will prevent the ultimate consideration of our position on the part of the people of the earth. We are patient; the working class have waited a thousand years in the hope of emancipation from oppression; we can, if we must, wait a thousand years longer.

Now, then, I want to say that so far as I know, if a member of the Catholic church, either of the clergy or the laity, opposes the Socialist movement, either courteously, like Father Gasson, or vio-Socialist movement, either courteously, like Father Gasson, or violently like some others; if they oppose it and we ask them whence
their authority comes for opposing it, they give a more or less vague
reply. Do they, when they oppose Socialism, speak for the Catholic
church? Is the Catholic church opposed to Socialism? Many clergymen of the Catholic church are; and I want to say to you that I know
Catholic priests that vote the Socialist ticket, and there are very many
more that will. But that is not the question. They may be wrong.

Does the Catholic church as a church oppose the demand of the Soicalist movement for the social ownership and operation of the social cialist movement for the social ownership and operation of the social tools of production and distribution? I defy any man to show me in any authoritative statement of the church that they have ever said they are opposed to that. They have never said so. Individual Catholic priests may, archbishops may, cardinals may, and the Pope may issue advisory letters or encyclicals. Let me call your attention to what Pope Leo said in his encyclical concerning the condition of labor. Just two quotations. I trust that I will not lift them out of

the page, or out of the context:

"Thus it is clear that the main tenet of Socialism, the community of goods, must be utterly rejected for it would injure those whom it is intended to benefit."

Then he quotes from St. Thomas Aquinas, with approval, the follow-"Man should not consider his material possessions as his own, but as

Now, what are you going to make out of that? Here is the encyclical of the Pope declaring against community of goods, and quoting with approval one who freely affirms it. But in any case, that is not Socialism. The Socialists do not affirm community of goods. The Socialists are not Communists. There are some orders of the Catholic church, like the order to which the Rev. Father Gasson

* Encyclical on Labor, page 408. Catholic Socialism, by Francesco Nitti, professor of

belongs, that are in a sense communistic societies where no member

of it owns or has private property. You might give to the Rev. Father Gasson the wealth of the world, and according to his your he must hand it over to the society of which he is a member. They have community of goods, and yet you are denounced if you wish the same things. But the Socialist movement does not stand for community of goods. So that if the Holy Father denounces community of goods, so do I; and I denounce it as a Socialist. I do not think it would work. I can give better arguments, or as good arguments, against it as I ever read from anybody else, and there we are. There is the difficulty, Clergymen and laymen quoting from the Pope as the authoritative head of the Catholic church, quote that statement: that the main tenet of the Socialist, community of goods, must be utterly rejected, and I say if that is the main tenet of the Socialist, it should be rejected. The difficulty is that men are confused over the term. I repeat again, that the Socialist movement of the world-that is, the distinguishing feature of it, whether it is Mohammedan or Pagan, Catholic or Protestant, or Infidel, in every country, in every country in the world where the capitalist system exists, the distinguishing feature of the Socialist movement is the demand, not for community of goods, but for the collective ownership of the social tools of production and distribution.

Washington Letter

(By National Socialist Press.)
Washington, D. Berger based his resolution on the fourteenth amendment to the constitution much to the surprise of the capitalist politicians, who have always sed that amendment to crush labor. The resolution reads:

The resolution was referred to the committee on rules. This committee is one of the most conservative in the House and unless the workers of the country create sufficient agitation in favor of this investigation the committee will pigeonhole the resolution It is therefore urged that every reader of the Socialist and labor press will immediately write to the Con-gressman of his or her district and ask him to support the Berger resolution. It is also advisable to write an extra letter to Representative Henry, of Texas, chairman of the Committee on Rules.

Dynamite Evidence

The so-called "dynamiting case" took a sudden turn April 29. Job Harriman made an announcement from Los Angeles. He is one of the attorneys for the alleged dynamiters.

What he said was important. It ought to have been printed in every paper in the country which makes a pretense of printing the news. It was very live news. And it was news of specially tremendous import to all union men over the country.

It was printed in one Chicago paper,
All Chicago papers but one SHUT OUT the news.

It was NOT printed in any Milwaukee paper.

All the Milwaukee papers SHUT IT OUT.

This piece of news was available for all the Sunday papers of both Milwaukee and Chicago. And on Sundays in the big padded pages there is no excuse that the news was "crowded out for lack of space."

The statement of Harriman announced that the contention of the defense of the alleged dynamiters, will be based on these grounds:

1. That the dynamite, made by the factory from which the dynamite that is alleged to have caused the explosion was purchased, was tested in the government bureau of mines and would not set fire to gas.

2. That dynamite will not set fire to inks and oils, and an explosion of dynamite of the kind said to have been used would not have been followed by sheets of flame, but, on the contrary, would extinguish flame.

3. A gas explosion, on the other hand, would set fire to inks and oils and would be followed by sheets of flame.

Dr. J. A. Holmes, director of the United States bureau of mines, will be one of the chief witnesses called to uphold the contention that gas and not an infernal machine caused the Times building explosion, according to Harriman.

One of the biggest needs of the American labor movement is a live aggressive labor union newspaper that comes out every day. Once a week won't do. Once a day is what we've got to have.

Steadily and persistently year after year the plutocratic press has drilled and drilled away shaping public opinion against organized labor.

Hundreds of daily papers owned by the labor naters who want an open shop, low wages and long hours.—hundreds of these papers have been going for years without letting a week go by unless they delivered a volley of misrepresentation at the organized labor movement.

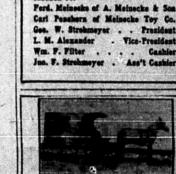

The struggle is pressing closer. The Indianapolis kidnaping was one of the boldest and rankest outrages ever attempted by the Employers' Union. Week after week, and year after year the public does not get correct information nor true ideas about the labor movement. This must be changed. There must be started and started soon one reliable, up-to-date newspaper that comes out every day and battles for organized labor.

LL nien should know that they must be full citizens, or in other words, have their second papers, or they cannot vote after Dec.

You cannot vote on first papers taken out after December 1, :908. Unless you have taken out your first papers under the old law or before June 20, 1905, you must wait two years before you can get your second or final papers to become a voter.

You can apply for your first papers on the first day of landing or any time thereafter. But to obtain your second papers you must live in the state one year, and in the United States five years.

The total cost is one dollar (\$1.00) for first papers, four dollars (\$4.00) for second or final papers. Remember the total cost of becoming a naturalized citizen is five

Please study the above carefully. Any information wanted on the subject of naturalization will be cheerfully given at any time, at the clerk of the circuit court's office, at the court house.

Mr. George Bruce, secretary for the Merchants and Manufacturers' association, appeared before the assembly committee on taxation urging the nonconcurrence of a senate bill au-thorizing the city of Milwaukee to enter into a contract with the soalled tax ferrets.

Atty. Poss, a partner of Judge Car enter, who is the chief lobbyist for the Merchants and Manufacturers, also appeared against the bill and preented the argument that it would be inconstitutional.

J. L. O'Connor, of O'Connor, Schmitz & Wild, appeared as representing Workman & Higgs, himself and "twenty thousand other taxpayers in the city of Milwaukee, who for the past three years have been burdened with more than our share of both mu-nicipal and state taxes, because of the fact that others more able to bear their share of the burden of govern-

ment have escaped taxation."
Mr O'Connor had no difficulty in answering the objections of the op-position that the tax ferrets could not collect the taxes anyway by asking Mr. Bruce why he feared such a llaw when it could do no one any

As for the legality of the law, Mr. O'Connor also showed that such a law would be legal. However, Mr. O'Connor cared very little for these minor technical objections, he insisted that was the tax dodgers who opposed this measure because they knew well it would henceforth make them pay their full share of taxes.

It developed, from the information gathered by Workman & Higgs so far that TWELVE MILLION DOL-LARS of taxes has been dodged so far per year in Milwaukee.

This is but an incomplete investi

gation, what a complete and THOR-OUGH investigation will show no ne can guess

In answer to the argument that the tax commissioner is in duty bound to collect all taxes, Mr. O'Connor charged that Tax Commissioner charged that Tax Commissioner SCHUTZ IS A TOOL OF THE OLD REGIME AND CANNOT BE RELIED UPON TO ENFORCE A LAW WHICH WILL SERIOUSLY AFFECT THE STAUNCHEST SUPPORTERS OF THAT OLD

He also asked for the passage of WITH BY FAKE INJUNCTIONS ISSUED AT "\$1.50 PER" BY SOME COURT COMMISSIONER.

Figures were produced by the friends of the measure to substantiate their charge that TWELVE MIL-LION DOLLARS worth of taxes are being dodged every year, and they offered to furnish the committee in executive session the names of the men who were dodging these taxes.

Labor Bills Killed

A number of bills affecting organized labor were defeated by the as-sembly this week. Among them are the Katzban (S.-D.) bill providing that when an employer advertises for help in case of a strike at his plant he should mention the fact in his advertisements. Organized labor and ts friends appreciate the importance of such a law. One of the tricks of the capitalists is to advertise for labor without mentioning that they wish to use those men as strikebreak ers, thereby deceiving many burden-ing the treasury of the union because once then men are on the ground, in rder to prevent them from becoming strikeberakers, it is necessary either to support them or furnish them with transportation to enable them to restances the men remain at work and election, you will see the crawling, are instrumental in breaking up the squirming, wriggling Carney-Braun-

FACTS ABOUT UNEMPLOYED

The unemployed situation in Milwaukee at this time is not as distressing as certain alarmists would have the people believe.

That is the employment situation in Milwaukee today as revealed by a careful investigation by an Evening Wisconsin reporter. He-visited the large downtown and outlying stores and the manager of each retail establishment assured him that from personal knowledge the condition the working people of Milwaukee today is better than it was a year ago.

The Evening Wisconsin of Thursies, is quoted as saying that skilled ay gives the whole unemployed scare workmen are in demand and that few way. It declares after careful invessional are applying for jobs. Managers of the larger stores told the reporter that they were looking for help.

The unemployed scare was started

by certain city newspapers, one in particular, to embarrass the Seidel ad-

ministration, and the mayor was badly

isquoted as to what he had said while an alderman as to unemploynot have been so bad, but this was not to be. The trusts caused full page denunciations of Milwaukee to appear in the large papers of the country, in an effort to hurt Milwaukee's prosperity and to discourage other cities from electing Socialist officials, and the misrepresentations as to unem-ployment here were prominently used. Thus, the St. Louis Republic had it in big type across its first page that "30,-Portland Oregonian said in big headlines, "Mayor Seidel of Milwankee Keeps 20,000 Idle." Another paper had it that "Mayor Seidel is Harrassed by Thousands of Unemployed Clamoring for Work." All lies, of course, and we thank the Evening Wisconsin for coming out bravely and telling the truth. The effort to

injure Milwaukee commercially is about as dastardly as most of the other leading tactics of the interests. Think of our advertisers when going shopping, they deserve your

The New Shoe Store

Milwankee has a new shore store, where considerate service is com-bined with merchandise of the highest quality.

The store which is now open for business is located in the Metropolitan block. Third and State streets, and is conducted by William Wagenfuehrer and Frank W. Bicaler, under the name "W. & B." Shoe Company." Both have an intimate knowledge of the shoe business, having been selling footwear for the last sixteen years in prominent down-

Both have in the past paid particular attention to giving an absolutely correct fit, and that same care and effort will be continued in the future in their new store. The comfort and convenience of their customers will be their prime consideration, and in fitting out the store, where everything that cright tend to make the buying of footwear a pleasure has been looked after.

Shoes for men and women will be exclusively carried in this store so that every attention can be concentrated on these two lines, assuring a higher degree of satisfaction than . 25000ble under other circumstances.
