Anthracite Miners In Favor Of General Strike

The Certain Means Of Rescue

WONT STAND FOR RAILROADING OF TRESCA & OTHERS

Defense Movement Growing, and Indications Point to Widespread Indignation Against the Steel Trust and in Favor of the Imprisoned Strikers and Spokesmen.

Says the Strikers' News, in its current issue, a letter just received from Old Forge, Pa. Joe J. Editor is notified that a general strike of all coal fields in that district has been called in protest against the treatment of the miners by the steel trust and the other workers charged with the carrying of DeLoe's case.

Many indications of widespread indignation against the Pennsylvania miners are not yet available but it is thought that the strike will spread throughout the mining districts of the east.

Old Forge, Pa.

Dear Editor—Yesterday the general strike of the miners in this district was declared as a protest against the incarceration of our fellow workers in Pennsylvania. We are trying to extend the agitation in behalf of the prisoners.

The locals of the I. W. W. are growing in strength right along and we are all anxious to know how the strikers of our solidarity here and encourage them in the struggle.

Substitutions to you, Miss Flynn and all members.

Yours in the struggle, O. S. (Signed)

CLASS WAR GETS MORE INTENSE

New York City in Throes of Another Big Conflict—Jump in Bread Prices Raises Great Outcry and Promises More Strikes for More Wages.

The class struggle is increasing. Eighteen thousand employees, Interborough company, operating subway and elevated lines, New York, have been called on strike.

Five thousand police are on strike duty.

Company claims normal service maintained by strikebreakers. The unions assert the tie-up will be complete.

There are 88.15 miles of subway in New York, and 217.79 miles of elevated tracks.

A general strike of all the unions in New York city is threatened to aid the strikers.

According to a Chicago despatch James T. Waddell, who holds the distinction of being the least educated breaker of the world, left here on a passenger on a special midnight train consisting of an engine, a baggage car, six empty Pullmans and a private car. His ride cost \$3,000. Railroad officials planned to break all

sped records to have Waddell in New York for 24 hours, the first time since the conference with the traction magnates.

Waddell, who has had charge of similar work in various big strikes in the past, said he had nearly 3,000 strikers already in New York.

Waddell is to be able to mobilize 600 men at 24 hours' notice. His entrance in any strike is followed by violence and disorder. Strikebreakers are lawbreakers. They count on that to help break their control.

Jack Bradley Is Dead

In its attempt to keep the miners of Butte, Montana, in meek and humble slavery, the copper trust is again being especially irritated. The PITTSBURGH LABOR WORLD here is what it says on that point:

"On Labor Day campers lauded the establishment of an eight-hour day by law and declared that the spirit of the Butte miners and that of the DeLoe prisoners and that they would have the body of their fellow workers buried within the prison walls.

But here steps in the copper trust and they send word to Jim Bradley of Portland, Oregon, a supposed brother of Joe J. Bradley, the secretary of the DeLoe prison officials that they would have the body of their fellow workers buried within the prison walls.

Not satisfied with this the copper trust gunned several four members of the I. W. W. and their own city limits and ordered them never to return to town under penalty of death.

Such is the present hold of the copper trust.

In the Summer of 1914 the Butte miners decided to strike and to stand the slavery of the copper trust any longer.

They were organized into a local of the Western Federation of Miners, but this local was broken up by the company gunmen and it was impossible for the miners to gain any better conditions under the new union.

After numerous attempts to gain of the miners, the miners decided to start a new union.

The new union was much excited. On one day over a thousand miners marched through the streets of Butte about 34 men who they declared should be tried as company gunmen and stand in the line of the I. W. W.

All but 8 of these men were acquitted.

It was voted by the miners to take the three to the city limits and order them not to return to town until they became good union men.

The three men were then marched to the city limits because of this Joe Bradley, the president, and Mucky McDonald, treasurer of the League were arrested and sentenced to five years for Bradley and McDonald.

The reason they gave Joe Bradley five years was because he had been secretary of the I. W. W. Propaganda League and that he was an active member of the I. W. W. The judge declared him to be the brains of the DeLoe prison strike.

After ratiocating these men the trust proceeded to crush the new union.

P. A. WITTER

THE GREAT WORK CAR STRIKE

(Special to Solidarity)

New York, Sept. 10.—Since the recent settlement of the strike on the surface lines of this city, effected through the mediation of Mayor Mitchell and Chairman Straus of the Public Service Commission which sound the heads of the New York Railways Co to recognition of the employees right of collective bargaining, the traction situation has been marked by renewed efforts of the union leaders to organize the subway and elevated lines, and by determined preparations of the companies to destroy all traction organization in the city.

A strike resulted. The first day of the strike found the El and subway lines running practically on schedule, and traffic on the surface lines of the N. Y. City Railway Co. about 25 per cent of the normal operation. Thousands of strikers have been imported into the city and put to work. Every available member of the police department is on duty. Very little violence traceable to strikers has been reported.

Late Saturday evening, Sept. 9th, the Third Avenue, Second Avenue and the Westchester Divisions men joined the New York Railway and Longborough employees, thus involving nearly all the roads, surface, elevated and subway in Manhattan, Bronx and Westchester counties. The Queens, Brooklyn and Richmond County lines are still running.

The failure of the unions to cripple service on the elevated and subway lines is due to the refusal of motormen, who are nearly all members of the Brotherhood of Locomotive Engineers, to stand by their fellow workers. These motormen earn more than twice the wages paid the other employees, and evince very little evidence of solidarity.

If the employees defeat will make another failure of the craft form of labor organization.

By means of intimidation and chicanery several thousand employees were induced to sign contracts, binding them to work for two years under conditions satisfactory to the company. The acceptance by an employee of the contract virtually releases the employee and the legality of the contract is not in doubt. The same is true of similar contracts upon the employees of the Second and Third Avenue surface systems virtually decided the men on these lines to join in an attempted general tie-up of the traction service.

The local and national leaders of the I. W. W. fear that their practice and the craft form of organization may receive another blow by the signing of these contracts. It is in session while this is being written (Sunday p. m.) to consider a sympathetic strike of the craftsmen of the city. They propose a strike that will wrinkle all the power plants of the transit systems, and that will stop the shipment of all war munitions out of this city. The financial interests of this city, the traction companies,

PROTEST MOVEMENT GROWING

The indications against the Masonic and Tresca, Schmidt and Scarlett continue to absorb attention in connection with the Iron Range strike. Many indications of widespread indignation and protest are arising and manifesting themselves. The agitation in behalf of the prisoners is growing.

In the American Socialist, official organ of the Socialist party, Eugene V. Debs has stirring appeal in behalf of the indicted men and women. It is headed:

"WE MUST SAVE THESE"

Debs says, in the conclusion of his appeal:

"Let every Socialist paper, every labor paper and every other paper opposed to the steel trust bring along its own money and its own men to fight their profit lust, and to the spirit of this appeal, and in the name of the working class, treat every friendly to that class to the same of the working class, and now being raised and to do everything in their power to give publicity to this shocking and scandalous affair which disgraces the nation, and thus thwart the steel trust pirates and restore intact the rights and women to freedom."

"LARGELY ONCE AGAIN YOU WORKERS OF AMERICA AS YOU HAVE DONE BEFORE"

The Appeal to Reason also calls on its million readers to do their utmost in behalf of "these accused felons."

DETROIT ROUSING REPERT

DETROIT, Mich., Sept. 15.—The different local unions in this city are not dead. As you all are aware Sept. 15th was Labor Day and it is the conclusion that it would be a good idea to have a day in which the City Central Committee got a large number of roses, and also lots of printed and oral addresses which were put out amongst the different unions in the parade and collected for the strikers who were being "blighted" when the day was ended and we checked up, we found we had collected a total of \$200.00. After deducting expenses of \$22.25 for general goods, it left a balance of \$177.75. The honors were carried off by a member of Local No. 596, who brought in a total of \$200.00. After deducting the amount already raised, we expect to come again in the near future.

J. A. SULLIVAN

DEVELOP UNITY BRINGS RESULTS

DENVER, Colo., Sept. 8.—We held a street meeting on Sept. 2nd for the benefit of the Meabe League strikers. The speakers were Foster and Miller of the Socialist party and Fellow Workers James Street and Phil Zarle of the I. W. W. Had good crowd. Total proceeds of the meeting (\$141.45) will go to the strikers. We will try to keep up the good work.

PRESS COMMITTEE.

Continued On Page Four.

OMAHA'S PENCIL DAY

OMAHA, Neb.—Our street meetings are well attended and the sentiment among the I. W. W. is growing better every day. This can be seen on every hand. It was only yesterday that a man holding an official position in the city said to the writer and Secy. J. J. Rogers of Local No. 595, that the sentiment among the people of Omaha towards the I. W. W. has increased 500 per cent. Local No. 595 is having a slow but steady growth.

We held on Labor Day what we called a pencil day for the benefit of the striking miners. We had first figured on a tag day but found ourselves up against an ordinance that prohibits tag days by any one except the visiting purses. In order to get around the ordinance we decided on the pencils. We were given vital support by the members of No. 595 and bright and early we were out calling on our good (?) union (?) brothers of the A. F. of W., working the lines of the different unions as they formed for the parade. As usual we found that they did not consider us their friends. But still we kept "blighting." When the day was ended and we checked up, we found we had collected a total of \$200.00. After deducting expenses of \$22.25 for general goods, it left a balance of \$177.75. The honors were carried off by a member of Local No. 596, who brought in a total of \$200.00. After deducting the amount already raised, we expect to come again in the near future.

EVERETT SPEECH FIGHT MERCER THAN EVER

(Telegram to Solidarity)

Seattle, Wash., Sept. 12.

Everett free speech fight started again Thursday. Vigilantes, organized by Commercial Club, four hundred strong. Thirty-five members jailed. Edith Frenette charged with inciting riot. Hall raided; secretary jailed. James Rowan, Harry Feinberg, William Roberts terribly beaten and deported. Imprisoned members beaten. Funds needed urgently. Active membership. Serious fight—must win.

I. W. W. BOOM IN MILWAUKEE

CHICAGO, Ill., Sept. 15.—The I. W. W. is booming in Milwaukee to judge from this call for assistance from there.

Milwaukee, Wis., Sept. 5.

Fellow Worker:

If this is a speaker in Chicago send him up here at once, as my voice has gone against me. Three trades have asked me to speak to them in their halls. The S. P. Branch on the South Side have also asked for the wobbles. Too much for one man.

The freight house men want us to organize them and make the C. M. R. S. P. come through with more money. Send some one anyway. Peabody says I'm down here and we are doing all we can.

A fine field to work in.

HARRISON FAIGHT.

There is a change to build a strong organization. Also to average several hundred of 400 and one member of 50-2 who have had their cards torn by the Milwaukee police.

All foot-keepers and act nice. Get in touch with Harrison Haight, Gen'l Delivery, Milwaukee, Wis. Let us swap holding street meetings for a while. See always with a hundred active rebels.

Foreign papers please copy.

ELMER D. RUMBAUGH.

Secy. 85-2

A GREAT FEEL

Milwaukee, Wis., Sept. 6.—We are on the job in this burg. We have been holding street meetings for a week, with large attendance every night.

A goodly number of 400 are here working in the city. Some have gone to the woods. We have just received a communication from Neff and next week we are going to get a hall. We hope to have a bunch of 400 here. There is a mixed lot of home guards. There is a great field for organiza-

POWER OF I. W. W. PRESS REALIZED

Seattle, Wash.—The fight is going merrier along in Everett with the I. W. W. holding the upper hand. The "raw" and order-bunch are trying to get in on the back. They have allowed us to reopen the Branch and Peabody says I'm down here and we are doing all we can.

A fine field to work in.

HARRISON FAIGHT.

There is a change to build a strong organization. Also to average several hundred of 400 and one member of 50-2 who have had their cards torn by the Milwaukee police.

LABOR ROAST FOR GOMERS

The rail situation is not pleasing to some labor organs. The local 8 hour day especially irritates. The PITTSBURGH LABOR WORLD here is what it says on that point:

"On Labor Day campers lauded the establishment of an eight-hour day by law and declared that the spirit of the Butte miners and that of the DeLoe prisoners and that they would have the body of their fellow workers buried within the prison walls.

But here steps in the copper trust and they send word to Jim Bradley of Portland, Oregon, a supposed brother of Joe J. Bradley, the secretary of the DeLoe prison officials that they would have the body of their fellow workers buried within the prison walls.

Not satisfied with this the copper trust gunned several four members of the I. W. W. and their own city limits and ordered them never to return to town under penalty of death.

Such is the present hold of the copper trust.

In the Summer of 1914 the Butte miners decided to strike and to stand the slavery of the copper trust any longer.

They were organized into a local of the Western Federation of Miners, but this local was broken up by the company gunmen and it was impossible for the miners to gain any better conditions under the new union.

After numerous attempts to gain of the miners, the miners decided to start a new union.

The new union was much excited. On one day over a thousand miners marched through the streets of Butte about 34 men who they declared should be tried as company gunmen and stand in the line of the I. W. W.

All but 8 of these men were acquitted.

It was voted by the miners to take the three to the city limits and order them not to return to town until they became good union men.

The three men were then marched to the city limits because of this Joe Bradley, the president, and Mucky McDonald, treasurer of the League were arrested and sentenced to five years for Bradley and McDonald.

The reason they gave Joe Bradley five years was because he had been secretary of the I. W. W. Propaganda League and that he was an active member of the I. W. W. The judge declared him to be the brains of the DeLoe prison strike.

After ratiocating these men the trust proceeded to crush the new union.

TEACHING THE TEACHER

Some Lessons In The Class Struggle And The Profit System

By J. W. W. (Editorial Note: This is a special feature of the paper, appearing in the "Solidarity" column.)

HERE IS THE SPEECH made by George L. Record, Republican candidate for the Republican nomination for the House of Representatives in the 19th Congressional District of Ohio, at a meeting of the silk workers in Columbus, Ohio, August 28, 1914.

The important news of the day is the announcement that the city is about to be struck by a general strike. The attention of the entire country is attracted to this event. The workers of the city are being urged to join the strike. The strike is being called by the silk workers of Columbus, Ohio. The strike is being called by the silk workers of Columbus, Ohio. The strike is being called by the silk workers of Columbus, Ohio.

The strike is being called by the silk workers of Columbus, Ohio. The strike is being called by the silk workers of Columbus, Ohio. The strike is being called by the silk workers of Columbus, Ohio. Emperor of the U. S. A.!

Clipped from one of the papers the other day an item that I thought was worth to try and all the successors. If the man were here who once said, "Patience is the best resort of a secretary." I would be surprised to find in the case of the late J. P. Morgan that he was not a secretary. The man who was the head of the house made during his life time has made a fortune of \$100,000,000. The man who was the head of the house made during his life time has made a fortune of \$100,000,000. The man who was the head of the house made during his life time has made a fortune of \$100,000,000.

The man who was the head of the house made during his life time has made a fortune of \$100,000,000. The man who was the head of the house made during his life time has made a fortune of \$100,000,000.

The A. F. of L. in the S. P.

In the National Rep-Blew for September, Eugene V. Debs is trying to answer the perennial question, "What is the Social Party?" in an article entitled, "The Socialist Party and Its Future." The article contains the following plain truths, that will only serve to make him more persona non grata to the Gompers machine in the S. P.

"What a farce it is when we go on talking from day to day the willing and the unwilling, the strong and the weak, the power and the powerlessness, the 'king' or 'emperor' begins to delude himself."

"Morgan has made fifty millions in two years." (Half-prison month) "The great banker who has entered a private office, when he entered a gentleman who wanted to borrow money."

"I need ten thousand dollars," announced the gentleman without delay. "I have some very good securities."

"My dear fellow," replied the Great Banker in a fatherly tone for which he made no extra charge, "making money is not a question of security. It is a question of character. The thing we consider, the most important thing that a borrower should possess is character. Have you any character?"

"That is something I am rather anxious to discuss," responded the other modestly. "Perhaps, however, I may say this without conceit: I have always tried to square with everybody. I have tried to be true to my duties and to deal with my friends and foes on a level. I have endeavored to give one hundred cents for every dollar that I received."

"A hundred cents, eh?" "Yes, I suppose I could have made a great deal more money if I had allowed my goods and given short weight. I have never brought myself to take advantage of a customer. On several occasions I have been accused of shorting, but I have never been proved. I have never been accused of shorting, but I have never been proved. I have never been accused of shorting, but I have never been proved."

"The single tax idea that free land would be the trust stands American history on its head. It would be a return to the days of the free competition means enforced combination."

"The single tax idea that free land would be the trust stands American history on its head. It would be a return to the days of the free competition means enforced combination. The single tax idea that free land would be the trust stands American history on its head. It would be a return to the days of the free competition means enforced combination."
