## STREBEL INVADES WALL STREET

### Two Thousand Men and Women Listen to Socialist Candidate Discuss Issues of Campaign.

### Large Audience Enthusiastic

### Literature Gobbled Up by Clerical Workers as Well as Manual Toilers.

Fully 2,000 men and women at noon yesterday gathered on the corner of Wall and Broad streets, in front of the offices of J. P. Morgan, and for about two hours attentively listened to the speeches made by Gustave A. Strebelt, candidate for lieutenant governor of the Socialist party, and J. C. Frost. It seems as though the Socialist sentiment is beginning to invade Wall street, too. Last year when the Socialist party attempted to hold a meeting on the same corner the speakers were mobbed and pulled off the platform. Yesterday the crowd attentively listened to the speakers, bought literature and gladly took leaflets that were given out.

Strebelt delivered a stirring address showing how the workers are constantly being robbed of their rights to live and earn a living. "A handful of people now control the United States," said Strebelt, "and whenever they wish they shut down the mills and factories and throw hundreds of thousands of people out of employment. The capitalists also control the political power of the country, and it is they who put up the candidates on both the Republican and Democratic tickets. Year in and year out the workmen have been voting for their bosses' men and put the bosses in control of the government."

### Socialist Party of the Workers.

"The Socialist party is controlled by and composed of working men and women, who toll every day for their living, and it is they who put up its candidates. The Socialists do not get their campaign funds from the capitalists and exploiters. Every cent that is being raised to carry on the campaign and issue literature comes from working men and women.

"While both the Republican and Democratic parties were in power they never attempted to do anything to improve the conditions of the workers, but have always stood by the bosses who give them the money to carry on their campaigns. One Socialist, if elected, would do more to better the conditions of labor than the entire body of capitalist tools who at present compose the various legislative bodies."

Strebelt was interrupted several times by the hearty applause of the audience. An old man, who said he voted the Republican ticket all his life, said that the Socialist is the coming party, and that he will this year cast his vote for the workingmen's party.

### "It's Coming!"

"It is coming, it is coming, all right; we can't get away from it," he said.

The audience was of a cosmopolitan nature, there being a number of bookkeepers, stenographers, laborers, who are at work on the new building at the corner of Nassau and Wall streets; shipping clerks, chauffeurs, dressmakers, clerks and messenger boys.

It was the general opinion of all who listened to the speakers that Socialism is the only remedy for the improvement of the present conditions, and that it is also beginning to be noticed in the heart of the strongholds of the capitalists.

Strebelt appealed to the audience to study Socialism, attend meetings and read to say, "Well, they are a bunch of dreamers, those Socialists!" At the meeting was held under the auspices of Branch 1, of the Socialist party, and Miss Caroline M. Dexter and Mrs. John Sloan were in charge of the literature. About \$7 worth of literature was sold, and over 600 copies of Russell's leaflet entitled, "March Ahead for Labor," were distributed.

## SOCIALIST GROWTH ENTHUSES C. E. RUSSELL

Organizer Cassidy, of Local New York, Socialist party, yesterday gave out the following letter received from Charles Edward Russell, Socialist candidate for governor, discussing the outlook of the campaign:

DEAR COMRADE CASSIDY: I WAS GLAD TO HEAR THAT A BIG MEETING HAD BEEN PLANNED FOR THE MONDAY NIGHT BEFORE ELECTION. I HOPE THERE WILL BE ANOTHER FOR SOME PLACE DOWNTOWN. IT SEEMS TO ME CLEAR THAT WE HAVE A BETTER OPPORTUNITY THAN WE HAD SUPPOSED.

THE CAMPAIGNS OF STIMSON AND DIX THROUGH THE STATE ARE THE MOST COMICAL FAILURES. DIX MADE SUCH A POOR APPEARANCE AT BUFFALO THAT THE CAMPAIGN MANAGERS WERE OBLIGED TO PULL HIM OFF, AND GAVE OUT THE STORY THAT HIS SISTER WAS SICK, IN ORDER THAT THEY MIGHT HAVE A COVER FOR CANCELING HIS ENGAGEMENTS. THEY WERE AFRAID TO LET HIM SPEAK AGAIN. STIMSON IS HAVING POOR AUDIENCES, AND MAKING NO KIND OF AN IMPRESSION. AT JAMESTOWN WE CAME ON THE NIGHT AFTER HIS MEETING AND IN THE SAME HALL HAD TWICE AS MANY PEOPLE AS HE HAD.

WE HAVE HAD WONDERFUL MEETINGS AT AUBURN, SYRACUSE, ROCHESTER, BUFFALO AND JAMESTOWN. LOCKPORT WAS FAIR. SALAMANCA EX-

TREMELY GOOD FOR SO SMALL A TOWN. BUT THE SUNDAY NIGHT MEETING AT ROCHESTER WAS THE GRANDEST SIGHT I EVER SAW.

AT BUFFALO WE COULD HAVE JAMMED ANY THEATER IN THE CITY. I DO HOPE THAT THE ENTHUSIASM IS NOT TO STOP SHORT AT THE BRONX.

THE ONLY CAMPAIGNER THAT GETS ANY ATTENTION OR AROUSES ANY ENTHUSIASM ON THE OTHER SIDE IS ROOSEVELT.

ON ALL SIDES MEN SAY IT IS THE DEADDEST CAMPAIGN EVER SEEN IN NEW YORK.

ALL THIS MAKES ME THINK THAT WE OUGHT TO TURN IN AND MAKE A TREMENDOUS EFFORT THE LAST WEEK. WE HAVE ON OUR SIDE ALL THE ENTHUSIASM THERE IS. WE OUGHT TO MAKE THE MOST OF IT. WE CAN HOLD BIGGER MEETINGS AND BETTER MEETINGS IN MANY PLACES THAN EITHER THE REPUBLICANS OR DEMOCRATS.

I CAN'T WRITE TO ALL OF THE COMRADES, BUT I WISH YOU WOULD KINDLY CIRCULATE THIS AMONG AS MANY AS POSSIBLE. THE TIDE IS ALL READY TO RUN OUR WAY IF WE WILL TAKE ADVANTAGE OF IT AND WARM UP.

WITH BEST WISHES, YOURS FRATERNALLY, CHARLES EDWARD RUSSELL.

## KREITLER DENIES INCENDIARY WORDS

(Special to The Call.) CHICAGO, Oct. 31.—Albert B. Kreidler, third vice president of the International Printing Pressmen's and Assistants' Union of North America, today made the following statement in reference to a dispatch sent out from Denver recently:

"Through the Associated Press: 'I wish to correct a statement which has been given a wide circulation. Press dispatches have quoted me as saying, in a talk before the Trades and Labor Assembly at Denver, that the newspaper building would blow up before settlement would be made with the pressmen's union, leading the public to believe I had been advocating the perpetuation of such a dastardly deed. 'A local publisher made the statement to me that he would see the building blow up before he would settle with the pressmen's union. In my talk I simply quoted the publisher to show his attitude toward the pressmen's union. The incendiary words quoted are those of the publisher, but have been attributed to me.'"

The story sent out over the wires was played up on the first page of most of the conservative papers as showing the real nature of strikes and strike tactics. It caused considerable discussion at the time it appeared.

## CROWD IN LISBON JEERS EX-PREMIER

LISBON, Oct. 31.—A crowd jeered ex-Premier Franco as he left the court today, having been admitted to bail in the sum of \$200,000. Foreign Minister Machado protested against the admission to bail of the ex-premier, but exhorted his enemies to be calm.

Franco is charged among other things, with having issued, during his tenure of office, seventy illegal decrees, and with having liquidated the debts of King Carlos, amounting to \$500,000, with crown funds, on the pretext of augmenting the civil list.

## FLIER DERAILED IN TEXAS; ONE KILLED

## RIOTS MANUFACTURED TO HURT SOCIALISTS

LONDON, Oct. 31.—That the reactionary element of Berlin is itself responsible for the resumption of rioting in that city Saturday night and Sunday morning, is the declaration of the Berlin correspondent of the Morning News. The reactionaries are thus seeking, the correspondent says, to inspire the great German middle class with fear of the Social Democracy, to which is attributed responsibility for the outbreaks.

By arousing this terror in the middle class, the reactionaries hope to pave the way for the easy passage of repressive legislation at the coming session of the Reichstag. The Rev. Dr. Frank Gunsaulus, president of the Armon Institute of Chicago, who has recently spent some time studying the Socialist movement in Norway, Sweden and Denmark, and the growth of Socialism in Germany, and finds a strange similarity, at least in effect, between "the new nationalism" and the kaiser's "centralization" policy.

## PREFERRED JAIL TO ALTAR FOR HER SON

Caspar Karabek, seventeen years old, was convicted before Judge Mulqueen in General Sessions yesterday of seduction. He said he was willing to marry the complaining witness, Sophie Hoff, but that his mother would not have it. Judge Mulqueen asked if the mother was in court, and when informed that she was, told her that if she would consent to the wedding her son would escape punishment.

The mother said that she would rather die than see her son married to "that girl," and young Karabek was sentenced to serve not less than two and a half nor more than five years in prison.

## MILWAUKEE GIVES BAIL FOR JOHN DIETZ

This year's casualty list shows a slight falling off as compared with that of 1909.

### Banco Agreements With Dejected Workers Lead to Desertion of Many Strikebreakers.

Visited strike headquarters at 66 East 4th street, where they tore up their agreements with the bosses and cast their lot in with the strikers.

## Union Officials to Protest Mayor Today Against Police Driving Wagons.

## PHILADELPHIA MAY STRIKE

### Five Biggest Companies Tied in Nation-Wide Walkout May Be Called.

The Police Department of New York started a precedent yesterday in connection with the strike of the express drivers and helpers of the various express companies, which will have a far-reaching effect upon the conduct of strikes in the future, if this precedent is allowed to stand.

All day yesterday the police were driving express wagons for the various express companies; not merely sitting on the wagon to protect the driver, but actually driving the wagons.

Today Vice President Hoffman, of the International Brotherhood of Teamsters, will head a committee consisting of half a dozen other members of the local union, which will go to the City Hall to lay the matter before Mayor Gaynor, and ask him to issue the limits to which the police can go in their alleged "protecting" of the property of the companies and of the strikebreakers.

"We have nothing against the police protecting property and guarding strikebreakers," Hoffman said last night, "but we object strenuously against making drivers out of police men. This has been done throughout the day. The express companies have turned the guardians of the law into strikebreakers. The police were driving the wagons."

"We shall see Mayor Gaynor tomorrow. There is also another thing we will see him about, and that is the matter of using clubs indiscriminately upon innocent people. The police have been battering heads all day in a most unwarranted manner. Innocent people whom we suspected as strikers were arrested by them right and left. As for strikers themselves they were treated mercilessly on every turn."

Despite the fact that the streets are blocked and about the express companies' offices were virtually no martial law yesterday, the news spread across the East River, Brooklyn, Long Island City and other suburban towns.

Inside Men Join Strike. Another highly important move made by the strikers was the strike of the men, such as clerks and messengers, employed by the express companies walked out in sympathy with the drivers and helpers. This move of the strikers was greeted with joy and enthusiasm by the strikers and gave new impetus to the strike.

This unexpected spreading of the strike to quarters other than drivers and helpers, through the press companies in consideration today. This fear, strike leaders believe, is at the bottom of the plan which the City Federation is carrying out during the day to ascertain the names and demands of the strikers with a view of arranging a peace between representative companies and representative strikers.

## THREE ARRESTED ON BLOODHOUND EVIDENCE

INDIANAPOLIS, Ind., Oct. 31.—The police today are weighing the assertions of Fred Scott, of Jersey City, N. J.; Stephen Roof, of Newark, N. J.; and Robert Robinson, of Madison, Conn., against the instinct of bloodhounds in an effort to determine if their cry means whether the three men are responsible for the shooting Saturday night of Frank Manning, who was held up on the outskirts of the city and probably fatally shot.

Bloodhounds were taken to the spot where Manning was found wounded Saturday night and undoubtedly took up a trail which led to a camp on Eagle creek, a mile away, where the prisoners were being held. The dogs were arrested. The men were arrested. The men were arrested. The men were arrested.

impossible for the leaders to find out the exact number of smaller express companies in Brooklyn, Long Island, and even New York, whose drivers and helpers walked out in sympathy with the Jersey City and New York men.

Big Companies Crippled. The following large companies have been declared to be completely tied up in spite of their pretending to move wagons with strikebreakers and with police acting as strikebreakers: The American Express Company. The National Express Company. The Adams Express Company. The United States Express Company. The Wells Fargo Express Company.

Every branch office of the above named companies was watched by from three to half a dozen police, armed and mounted. In addition to regular police, Pinkertons were stationed everywhere by the companies. The most policed place in the various strike zones was Madison avenue, between 43d and 48th streets, which is the street the American Express and the Adams Express have their main receiving depots.

Bully Guards Seek Fights. The martial air which hovered about the district was still more increased by the sight of armed "guards" who strutted about the streets looking for trouble. Every street used by the express companies in going to and from trains were lined with heavy police details armed with night sticks.

From the street one saw the clerks inside toiling away over the stacks of packages, boxes, and bundles which lay piled up to the ceiling, trying to make room for the packages of the hundreds of men who were standing in line on the sidewalk waiting impatiently to be relieved of their burdens.

It was learned at union headquarters yesterday that the department stores were assisting the express companies in various guises to deliver goods. An investigation was at once begun. It will be reported tonight at a meeting of the Teamster's Joint Council and if the reports are found to be true the department store drivers will be called out on strike.

Nation-Wide Strike. At the meeting of the Teamster's Joint Council this evening the question of calling out the coal teamsters will be taken up. The union officials have several drastic measures up their sleeve to force the express companies to recognize the demands of their employees. Among those measures will be calling of a general strike of express drivers and helpers employed by the same concerns in every city in the country.

Food Rotting. The pickets of the strikers who number 1,500 strong, informed the officers of the union that a great deal of fish, meat and fowl is now rotting away in the warehouses of the express companies and will have to be discarded. In fact the pickets declared that the stench coming from these and other perishable articles which have been amassing at the warehouses for the last few days will soon compel the interference of the health department.

Business interests all over the city are watching the strike with keenest interest, as it affects the fall and winter trade a great deal now by the delay of orders. The companies accept shipment only subject to delay.

Companies Admit Tie Up. That the companies admit that they are tied hand and foot by the strike was further evident when the American Express Company yesterday issued and began sending to patrons cards and announcing that the company was in receipt of shipments which it could not deliver. The cards printed by the American Express Company reads:

"We have on hand in this office a shipment consigned to you which we have been unable to deliver, owing to the violence and disorder prevailing in this city, due to strikes on the part of employees of the various express companies. The shipment referred to is in this depot, and will be delivered by us as soon as conditions permit."

Cops and Guards Create Trouble. During the day a number of disturbances occurred. In each case, however, the disturbances occurred through the offending attitude of the police and the special guards, who carried rifles, the strike leaders charged.

"You will notice," Vice President Hoffman said, "that most of the trouble has arisen between the police and strike sympathizers. When the police and armed men appear in the street they will naturally attract attention, and some strike sympathizer will give vent to his feelings of disgust at the action of the police and the armed bullies in interfering with the rights of the strikers."

A number of arrests were made during the day. Among those arrested were Bartley McMahon, twenty years old, of 220 East 46th street, a striking helper of the American company, and William F. Nicholson, twenty-two years old, of 105 East 44th street, another employe of the same concern.

Companies Want More Cops. Not satisfied with the fact that every policeman in the city of New York was virtually placed at their command, the express companies yesterday made the application to Commissioner Crosey for permission to use 150 special policemen in addition to the Pinkertons hired by them. Commissioner Crosey refused to grant this application on the ground that the police are giving the express companies all the protection they need, even going so far as to allow armed guards to sit beside the driver, and sending mounted police in front of every express wagon to clear the way, and behind every wagon to see that it is not attacked from the rear.

It became evident yesterday that the express companies will not even shrink from shedding blood in order to break the strike. Complaints have reached the strikers' headquarters, as well as the police headquarters, that many of the strikebreakers were expert gun men, and were armed to the teeth. The police were to arrest any man carrying arms, no matter what his excuse may be, unless he has a permit. But they didn't.

Dispatches from Boston stating that the International Brotherhood called out about 1,800 drivers of the Boston Dispatch, a subsidiary of the Adams Express Company, while declared likely by the local officers, were not confirmed, as they had not been officially informed up to a late hour in the evening.

Today it is expected that the employees of the White Express Company, in Brooklyn, will walk out. Besides the White company any other express company, whether big or small, which will be found giving assistance to the striking concerns, will face a strike.

PHILADELPHIA, Oct. 31.—Simultaneously with the appearance in this city today of three organizers of the International Brotherhood of Teamsters, trouble began among the drivers and helpers employed by the express companies here. Harry Eddy, of Buffalo; Thomas Farrell, of Chicago, and John Gillespie, of Boston, three organizers, are straining every nerve to form a temporary organization of the express drivers. As soon as this has been accomplished the men will be called out in sympathy with their striking brothers in New York, Jersey City and Hoboken.

Efforts to combat the New York strike from this city have been begun. Four hundred men enrolled by J. A. Brown, a professional strikebreaker, left Broad street station this afternoon at 2:30 o'clock to take the place of the express wagon drivers. Brown, who is a thorn in the flesh of labor unions throughout the country, has opened recruiting headquarters at 195 North 9th street, and has been employing men since yesterday. Most of the crowd which he has enrolled to the present time are from the cheap lodging houses in the neighborhood of his office.

Promises of \$3.50 a day wages have been made to the men, and police protection is assured.

NEWBURG, N. Y., Oct. 31.—Owing to the recent forest fires in the mountains near Sutherland, a short distance from West Point vicinity, now infested with catamounts, the farmers keep all young cattle under cover. On Friday evening the inhabitants of the Catskill farms were aroused by the howl of these animals and had great difficulty in driving them away. A party of hunters from Mountville, accompanied by dogs, came across two of these animals, the catamounts killing one dog and badly maiming another. The wood choppers in that section now carry guns to work and coon hunting has been suspended.

ABERDEEN, S. D., Oct. 31.—Occupying every available foot of space in the corridors of the Federal building, more than a hundred eager men and women are waiting today to be as close as possible to the head of the line to enter the land office and make selection of claims on the Standing Rock Indian reservation tomorrow morning at 9 o'clock.

The first arrival came Saturday afternoon, and every train continues to add to the number. There are 8,000 claims of 160 acres each to be filed on in the drawing.

LAW DIDN'T BOTHER THIS SCHOOLGIRL

Her Worried Father Paid Customs Bill Which Amounted to \$850.

Miss Hortense M. Harder, daughter of Victor A. Harder, of the Harder Realty and Construction Company, of this city, was a passenger by the Hamburg-American line Kaserin Auguste Victoria, in on Saturday, having completed a year's schooling in Paris preparatory to her "coming out."

She was accompanied by her mother and each made a separate declaration. The young woman, who is tall, handsome and appeared to Customs Inspector Lake to be particularly ingenious, declared three Paris gowns valued at \$364. She hovered near the inspector, radiating ingenuousness, while he was making a careful examination of her big trunk.

He found seven more Paris gowns, some of which had been worn a little, and which bore no labels of the makers. Took Trunk to Public Stores.

The inspectors called Miss Harder's attention to the gowns and the missing labels. Acting Deputy Surveyor John P. O'Connor decided that the trunk must go to the public stores, and ordered Miss Harder, who took the decision with smiling placidity, to appear yesterday before Surveyor Henry and explain.

Her father and a lawyer accompanied her to the Custom House and the three were examined by the Surveyor. His assistant, Special Deputy Surveyor George J. Smyth and Mr. Barnes, of the law division, Miss Harder was the least disturbed of the lot. Mr. Harder simply could not understand his daughter's mental attitude toward the customs laws of the country. He said he had had in mind the trouble that returning American women were getting into by neglecting to declare things that they should declare, and he had sent to his wife and his daughter blue circulars of instruction from the Treasury Department telling them what to do and particularly urging them to declare everything they had that was dutiable. Mrs. Harder did do, but Miss Harder did as she liked.

TWO MEN SENTENCED FOR WHITE SLAVERY

SAN FRANCISCO, Oct. 31.—Superior Judge Dunne today sentenced William Balmain and George Pierce, convicted "white slavers," to three years in San Quentin. These young men were shown to have seduced girls of sixteen whom they met at nickel dances and then sent them to disorderly houses in the country. The girls gave all the details, and the juries were out only five minutes in each case.

In sentencing the two men Judge Dunne regretted that he could not reach the men who hired the two youths for such infamous work. He scored Judge Murasky and other officers of juvenile courts, declaring that if they had done their duty it would have been no trouble to discover the men and women who were making San Francisco a clearing house for prostitutes for the country towns.

COLD WAVE DAMAGED COTTON IN GEORGIA

ATLANTA, Ga., Oct. 31.—That the cotton crop in Georgia was damaged 50,000 bales, or to the amount of \$750,000, by the cold wave which struck the state last Friday and Saturday, is the opinion expressed by Commissioner of Agriculture Thomas G. Hudson, who has just returned from a tour around the state. "The top crop of cotton was exceedingly short this year or the crop would have been hurt much worse," declared Mr. Hudson. "As it was, I believe the damage has amounted to at least \$750,000."

Hudson figures that the total crop for the state this year will not exceed 1,300,000 bales, as against 1,800,000 bales last year.

SKULL BROKEN BY ROBBERS.

Patrick Sullivan, a laborer, was taken to St. Vincent's Hospital from his home, at 10 Horatio street, last night, suffering from a fracture at the base of his skull. On Saturday night Sullivan visited his brother Michael, at 180 Duane street. He left a little before midnight. He had almost his entire week's salary and a gold watch valued at \$75. He was found at 3:30 Sunday morning in the arway of his house. His watch and money were gone. "It is thought he was assaulted by robbers."

RAIL FOR HAIRE.

Robert J. Haire, who is under arrest on a charge of subornation of perjury, got out of the Tombs yesterday. Magistrate Murphy lowered the bail from \$5,000 to \$3,000. It was offered by George and Christopher Horn, who put up as security a tenement at 35 Mott street, in which they have an equity of \$40,000.

DIED OF HYDROPHOBIA.

James Devine, twelve years old, of 549 North 3d street, Newark, who was bitten by a bulldog nine weeks ago, died of hydrophobia in the City Hospital, that city, yesterday. The dog belonged to Francesco Travassano, of 411 3d street. Devine attempted to pat the dog one day in the latter part of August while it was on the front stoop; and the dog bit his right hand. The boy complained of pains in his right arm and shoulder last Thursday, and a doctor advised that he be taken to the hospital.

ploy said Charles Casella upon the express condition and understanding that all the help employed by the ROYAL TAILORS on Monday, October 11, shall offer their services and return to work under conditions hereafter to be arranged for.

"The said Charles Casella further agrees to work exclusively for the ROYAL TAILORS, and to devote himself to his work to the very best of his ability. (Signed) 'CHARLES CASELLA, 'THE ROYAL TAILORS, 'S. REIS'."

That clause of the agreement which says that all employes of the Royal Tailors shall offer their services under conditions to be agreed upon later, simply means that when the firm settles up with the union Charles Casella's agreement is not worth the paper it is written on. It is a pure fraud so far as guaranteeing him or any other worker a job for any specified time is concerned.

A meeting of the tailors will be held at Grand Central Palace, 43d street and Lexington avenue, tonight, to discuss ways of helping the strikers. Journeymen Tailors' Union, No. 330, sent in a donation of \$100. Twenty-five crafty contracts signed agreements with the union yesterday.

CHANDELIER WORKERS WANT SHORTER HOURS

When the employes of Baldinger & Kupferman, Harrison avenue and Rutledge street, Brooklyn, were told that they would have to work fifty-nine hours a week, sixty men and women walked out on strike yesterday. In the latter part of September the workers struck for a half holiday on Saturday, and after they were out for a day and a half the firm agreed to give them a half holiday and time and one-half for overtime, and the men returned to work. Last Saturday a sign was posted that the workers would have to work fifty-nine hours a week, and that those who did not want to abide by this order, need not come to work on Monday.

Yesterday when the men and women reported for work Kupferman was standing at the door, and ordered them to line up. When they lined up he asked them if they wanted to work fifty-nine hours. They refused. He then told them their services were no longer required. Police are now guarding the silent factory. The strike is being conducted by the Brotherhood of Chandelier Makers, and strike headquarters were established at Lorimer street and Johnson avenue, where the men held a meeting yesterday, and decided to stay out until all their demands are granted.

The union requests all chandelier makers, polishers, fitters and lacquerers to stay away from the shop and help the workers win their fight.

AUTO KILLED CHILD AND INJURED MOTHER

MILWAUKEE, Wis., Oct. 31.—Charged with manslaughter in that his auto killed five-year-old Gusale Taube, here, when it ran down the child and her mother, Mrs. Tina Taube, Harry L. Miller, superintendent of the Power Molding and Machinery Company, is today being held for arraignment by the police.

Miller, it is alleged, sped on after the car had crushed the mother and child and, dashing home, went to bed. Examined before Inspector Reimer today Miller said he fled because he was afraid of being mobbed.

Mrs. Taube is in a critical condition.

"HIGH PRICES HERE TO STAY," ECONOMIST

ITHACA, N. Y., Oct. 31.—Higher prices have come to stay, and the best thing to do is to adjust ourselves to these conditions as soon as possible. The public should be educated into understanding why prices are high, so that the laboring man may be encouraged to demand higher wages, and the capitalist be encouraged to demand higher interest. In this way an adjustment will come quickly. This is what Edwin W. Kemmerer, professor of politics, says.

TOGETHER IN SPAIN

Association Law to Pass and Vatican Negotiations to Be Resumed. LONDON, Oct. 31.—A dispatch from the Madrid correspondent of the Telegraph says that an agreement has been reached between the government and the Catholics whereby the association law will be permitted to pass the senate and the chamber of deputies.

This will enable the cabinet to resume negotiations with the Vatican with regard to the new measure affecting the religious bodies.

BRITISH DELEGATES GREET THE U. H. T.

Reception to Fraternal Representatives to A. F. of L. Convention at St. Louis in Clinton Hall.

Ben Turner and William Brace, fraternal delegates from the British Trades Union Congress to the American Federation of Labor convention, who are now in this city on their way to St. Louis, where the convention is to be held, last night greeted the United Hebrew Trades at its meeting held at the Clinton Hall auditorium, 151 Clinton street.

The regular business session was set aside and about a thousand union men and women gathered to greet their British brothers. Both Turner and Brace, accompanied by their wives, were elated over the strong union sentiment of the Jewish workers. Both delivered speeches in which they gave fraternal greetings of the English organized workers and wished the Hebrew Trades success in all its undertakings.

They said that the British workers always have an eye on the doings of the workers of the United States. When a victory is won by the American workers the British workers are enthused as though they won it. "The international solidarity of the workers is getting stronger year by year as they are beginning to understand that the victory of one worker of one country is the victory of the workers of the world," said Turner.

Hugh Frayne, organizer of the American Federation of Labor, delivered an address on the recent victories scored by the Hebrew workers. He also greeted the Hebrew workers, and said that they are setting an example for the American workingman how to conduct fights, and how to organize.

The Variety Musical Club furnished a band of music for the evening, and they played revolutionary airs. When Turner and Brace appeared in the hall all the visitors stood up, and the band played the "Marseillaise" and the "International."

Resolutions of Solidarity. B. Weinstein, secretary of the United Hebrew Trades, followed with a short speech thanking the British delegates for their visit and then read the following resolution, which was unanimously adopted:

"Whereas at a meeting of the United Hebrew Trades, the central body of the Hebrew unions, held at Clinton Hall, 151 Clinton street, on Monday night, October 31, we had the honor to be greeted by distinguished English guests, the fraternal delegates of the British Trade Union Congress to the American Federation of Labor convention; and

"Whereas our British brothers came down to give us greetings of the organized men and women of Great Britain; therefore, be it

Resolved, That the United Hebrew Trades, the central body of seventy-five Jewish unions, expresses its gratitude and solidarity and brotherhood to the organized British trades unionists, wishing them success in their struggles against the exploitation of the capitalist class."

Jacob Panken, John Dryce, B. Vladek and J. Goldstein also spoke. Max Kazimirsky presided.

After the meeting Ben Turner spoke at several Socialist meetings. He is going to speak for Meyer London while in the city.

EXPRESS RUNS INTO SWITCH; 6 INJURED

YORK, Pa., Oct. 31.—A passenger train on the Northern Central, which left this city tonight at 3:57 o'clock for Columbia, ran into an open switch at a siding a short distance east of York, and injured six persons.

It is believed that the switch was opened by halloween revelers since the lock could not be found, and trains had passed over the track only a short time before. The list of injured are:

William Gresser, Dover, N. J., cuts of the right arm and body bruises. Joseph H. Mahon, baggage-master, sprained left ankle and sprained back. J. H. Cress, St. Louis, abrasions of the left chest and bruises.

William Levey, Lancaster, contusions of the body and internal injuries. "D. A. Scheffer, Lancaster, ankle sprained and cuts on body. C. L. Martin, Lancaster, bruises on right arm.

John McCann, the engineer, pluckily stuck to his post, when the collision occurred and reversed the lever. This, it is said, prevented fatal injuries. The locomotive telescoped several gondola cars, and was badly damaged. On account of the darkness and the speed of the train, the engineer did not know he was on the siding until the crash came.

TENN. LAWYER PELTED WITH ANCIENT EGGS

PARIS, Tenn., Oct. 31.—"I'd rather have them make me a target for their eggs than a target for their lead, as they did Ned Carmack," yelled Jeff McCarru, state's attorney, who was egged this afternoon during a speech delivered in behalf of the Republican gubernatorial candidate, B. W. Hooper.

McCarru prosecuted the Coopers, father and son, for killing ex-United States Senator Carmack and has been a leader in the movement which caused a stampede in the ranks of Patterson Democrats, ending finally in Governor Patterson, who pardoned Colonel Cooper, being forced to relinquish the leadership of the Democrats to United States Senator Taylor, who is opposing Hooper.

The eggs, which were of ancient vintage, splashed around McCarru, and the incident has caused ill feeling likely to be followed by serious trouble at a moment.

PREACHER TIRES OF PLAYING ASS'S PART

The resignation of the Rev. Dr. William Morrison as rector of All Saints Episcopal Church in Seventh avenue, Brooklyn, after a service on nearly sixteen years, went into effect yesterday, but the vestry and congregation are unanimous in their desire to have Dr. Morrison remain and will soon make an appeal to Bishop Burgess for his cooperation in the matter.

The church has been struggling under a heavy debt; since Dr. Morrison took charge. He made a statement yesterday in which he said: "I have played the part of Issachar until exhausted. The bishop has not visited the parish and has not done anything toward lifting the big debt of \$40,000 which when I assumed the pastorate was \$52,000. I have succeeded in reducing the debt to \$40,000 by hard personal work and solicitations from friends. Besides, \$1,200 was paid for improvements on the property last summer."

In a previous statement Dr. Morrison mentioned Mayor Gaynor as one of his most generous friends.

COMMITTS SUICIDE WITH OLD MUSKET

Joseph Cerini, an Italian, sixty-five years old, killed himself yesterday in the basement of his home at 250 West 30th street. He was a cabinet maker and dealer in antiques. He had a shop on the first floor of the 30th street building. Cerini had been ill a long time. His wife, who also is sixty-five years old, is blind and partly deaf. The old couple wanted to return to Italy to die. But Cerini was unable to find a purchaser for his stock of antiques, and he had not money enough to make the trip.

Yesterday he picked out from among his antiques an old musket. He loaded it with a tremendous charge of buckshot and powder and went into the basement. He shot himself in the head.

Tenants in the building thought a bomb had been shot off and ran out in a fright.

DOCTOR SUES MAN WHO ASSAULTED HIM

UTICA, N. Y., Oct. 31.—Dr. George L. Kilborn, a leading physician of Old Forge, has brought suit in the Supreme Court against Robert S. Linsley for \$10,000, and today his attorney filed the summons and complaint and a bill of particulars in the county clerk's office. Dr. Kilborn claims that he was attacked without provocation in Fulton Chain May 10 last and was knocked down, kicked and hurt badly. The plaintiff, in his bill of particulars, claims that he received a concussion of the right ear, causing deafness in it, and also in the other ear through sympathy, of which is harmful to his profession, to the extent of \$15,000. Ruptures of the capillary of the throat, caused a damage of \$1,000. Serious injury to the nose \$1,000 and mental distress \$3,000.

PRIMARY FRAUD INDICTMENTS.

The inquiry of the grand jury in Brooklyn concerning the alleged extensive frauds in the big primary battle in September between the Bridges and Cogan Democratic factions in the 2d Assembly district, has resulted in the indictment of more than seventy inspectors and voters for violating the election laws. As fast as the indictments can be made out bench warrants are served. Yesterday sixteen of the accused were arrested before Judge Ditz in the County Court and held in \$500 bail.

# BOILER MAKERS VOTE TO OUST THEIR LEADERS

## Union Men Revolt Against Officials Who Stand for Peace at Any Price.

By TH. ROTHSTEIN.  
(Special Correspondence.)  
LONDON, Oct. 21.—My readers must be tired already of all labor news. They must, however, have patience, for these labor wars have a significance which is wrought with important results for the trade union movement, not only in England, but indirectly throughout the world. This is my justification, if more is needed, for reverting briefly to the boiler makers' lockout. I must tell you the latest developments in this connection, which are striking enough to deserve notice.

You will remember that the leaders of the union and the masters have agreed on the question of "assurances" in respect of prevention of a recurrence of sectional strikes in violation of the standing agreements between the union and the employers' association. The essential part of these "assurances" was to be the pledge given by the executive of the union to fine any member or members guilty of going out on strike against the authority of the executive, and to be audited by the masters and paid into a separate fund for the benefit of the widows and orphans of the members of the union. According to the previous vote of the members of the Boiler Makers' Union, this agreement with the masters had to be submitted to the whole body of them for ratification, and in doing so, the executive strongly advised the men to accept the terms as well as to remember that all the money available for dispute day had been locked up in various securities, so that a prolongation of the lockout would spell to those involved in it actual starvation.

## MORTALLY HURT IN MOTORCYCLE CRASH

ITHACA, N. Y., Oct. 31.—While riding a motorcycle down the Trumansburg macadam road into this city this afternoon Earl Chapman, twenty-seven years of age, crashed into a stone pile about two miles north of Ithaca and was mortally injured, dying a few hours thereafter. Chapman's motorcycle was travelling at the rate of fifty miles an hour. He was carrying a passenger, Benjamin Cohn, a Cornell freshman, who rooms in his house.

Chapman had started out from Ithaca stating that he meant to give Cohn the ride of his life. The trip to Trumansburg was made at a lively clip and on the return the machine shot by automobiles like a flash. On a down grade into the city the motorcycle travelled at a fifty mile an hour gait when Chapman seemed to lose control. The cycle shot away from him and although he managed to round several curves without being thrown, the machine finally skidded and smashed into a stone pile. Both men were thrown under the cycle. Chapman's skull was fractured and he never regained consciousness. Cohn, however, was but slightly bruised.

## LONG TERM FOR MAN WHO WAS RELEASED

William Heineman, convicted last week of manslaughter for the killing of Robert Dooley, whom he shot on 145th street in January last, was sentenced yesterday to a term of not less than ten or more than twenty years in state prison. Sentence was passed by Judge Swain in General Sessions.

## JAMES BRYCE SPOTS A PECULIAR ROCK

WASHINGTON, Oct. 31.—James Bryce, the British ambassador, has a hobby for studying geology. He was returning from Peru a few weeks ago and stopped at Panama to look at the canal. His critical eye soon spotted a peculiar rock formation in the Culebra cut. As the ambassador viewed in the rock was a composition of igneous and water formations, which is said to be most unusual.

## STORM CRACKED SEA WALL

VERA CRUZ, Mexico, Oct. 31.—An investigation of the Vera Cruz port works made since the recent storm, show that more than fifteen hundred feet of the north sea wall is cracked down the center, and part of it undermined. Enormous blocks of concrete caved into the sea. The big sea that rolled in from the north tore large pieces of the wall from the weather side. Some of the pieces, weighing two tons and more, were broken off and thrown upon top of the wall or into the harbor.

## DEADLY TOLL OF WASH DAY

Mrs. Winifred O'Donnell, aged fifty years, was killed this afternoon by falling from the fifth story balcony in the rear of the tenement, 240 West 42d street. Mrs. O'Donnell had just finished hanging out the weekly wash when the line broke. She tried to grab an end of the line and in so doing plunged headlong to the ground.

## REWARDS FOR FIREMEN

Three Who Will Get Medals for Rescuing Drowning Folks.  
Fire Commissioner Waldo will have three firemen before him today to receive gold medals for rescuing drowning persons, an unusual mode of awarding life in the fire department.

## FIFTEEN HURT IN HOTEL FIRE

SAN FRANCISCO, Cal., Oct. 31.—Fifteen persons were injured early today in a fire which totally destroyed the Clyde Hotel. An oil tank in the basement of the hotel ignited and as the flames spread the building there was an explosion which blew a half dozen of them back into the street. The other persons injured were spectators who were hit by flying debris.

# MRS. BELMONT PEDDLES BILLS ON BROADWAY

Mrs. Oliver H. P. Belmont walked up and down that portion of Broadway lying west of the Hotel Normandie yesterday afternoon distributing to the passers-by yellow handbills emblazoned in black letters with her latest slogan, "Down with Senator Agnew." Few of the pedestrians who accepted the bills recognized the smiling dispenser in the conservatively bobbed frock and black picture hat, but they seemed to like the smile and not one of them turned away in scorn. Many of them grinned as they read the campaign document.

"He does not believe in justice to women," it continued. "He cannot therefore believe in justice to men and children. Vote for Saxe."  
"That's the first time I ever did such a thing," said Mrs. Belmont, when she returned to headquarters and sat down to rest under one of the English suffragette posters. "and I can't say the experience was altogether pleasant. It wasn't, however, nearly so bad as I had always supposed it might be."  
"Whatever annoyance I suffered was due to purely subjective causes. Not a single person whom I approached showed me the slightest discourtesy. I believe that no woman who is earnest and sincere need hesitate to speak for suffrage on the streets of New York or to distribute literature. So long as she conducts herself in a dignified manner she will be treated with respect. The time has gone by when suffragists are regarded in the light of dime museum freaks."

# MAX SCHOENFELD SAYS HE'S A PERFECT MAN

Max Schoenfeld said in the Domestic Relations Court yesterday that he was a perfect man.  
"I never saw a perfect man, and I want to take a good look at you," said Magistrate Cornell as he stood up.  
Schoenfeld's appearance indicated that the fates were unkind to him in the matter of good looks.  
"My wife said I was a perfect man and she was jealous of me. That was why she had me arrested," the man explained.  
"It is sometimes hard to account for a woman's actions," the court remarked.  
The Schoenfelds had been living in Montreal up to a month ago, when the husband came to this city and put up at 145 Attorney street. His wife came here a week ago and almost immediately got a warrant for her husband for non-support. She is with a relative at 734 5th street. The evidence showed that the man had sent \$100 to his wife since he came to this city.  
"Cannot you two live together again in peace?" the magistrate asked the complainant.  
"I want a guarantee that he will not leave me. If I get the guarantee I will live with him again," she responded.  
"Case dismissed. Go home and patch up your domestic troubles," pronounced the court.

# DRANK FROM WRONG BOTTLE; SWEARS OFF

STAMFORD, Conn., Oct. 31.—Joseph Barci mistook a strong horse liniment for whisky today, and he did not discover the mistake until he had swallowed about two ounces of the liniment. He fell writhing in pain and his employers and fellow laborers had a time controlling him.  
They placed him in an automobile and hurried to the Stamford Hospital, where Dr. Cleeman pumped the liniment out and administered a powerful antidote. This saved March's life, but he was a mighty weak man, and was unable to leave the hospital for several hours.  
He told Dr. Cleeman that he had taken his last drink of intoxicants or things he believed to be intoxicating.

# CATCH JONAH'S HOST

BOSTON, Oct. 31.—Life-savers on the Nahant station went fishing yesterday and caught a whale twenty-two feet long and weighing about 800 pounds. The whale was off Little Nahant taking a nap in the sun, and he slept so soundly that the life-savers were able to put two shots into him before he awoke. He was towed to the beach.

# ALL NORRISTOWN SNEEZING.

Halloween Celebrators Sprinkle Red Pepper Over People on Street.  
MORRISTOWN, N. J., Oct. 31.—Morristown is sneezing and coughing tonight as the result of its Halloween carnival. All the cut-ups of the village were on the streets with cans of talcum powder in which were family doses of red pepper and snuff. The powder was thrown in the faces of men, women and children; besides it was sprinkled in large portions on the women's hair, in many instances spoiling the head gear.  
Chief Holloway got busy and ordered his men to round up the powder throwers. A half dozen men were brought to headquarters where Police Judge Isaac B. Pierson fined them \$2.75 each. The judge said he would sit all night if necessary and assist the police department in suppressing the rough house.

# irate Woman Bites Burglar on Knee

Wife's Molars More Formidable Weapon Than the Pistol of Her Husband.

Mrs. Mary Pisciotta, of 475 East 145th street, Bronx, found two burglars at her bureau, yesterday, and bit one of them so badly on the knee that he couldn't sprint away with his accustomed speed and so was captured. Mrs. Pisciotta tumbled over in a faint after her performance and the services of a brace of internes and several nurses at the Lincoln Hospital were required to bring her to.  
Mrs. Pisciotta was busy in her kitchen when she heard a noise in her bedroom. Her husband, George Pisciotta, fifty-three years old, a contractor, was reading a newspaper in the front room. When she crossed the threshold of her bedroom she spied two men, one at her bureau and another close by. Mrs. Pisciotta screamed and the man at the bureau instantly covered her with a pistol just as her husband, who had taken his pistol from a desk in the front room, entered the bedroom.  
Unarmed but Formidable.  
"If you move I'll kill the woman," cried the robber, who was pointing his pistol at Mrs. Pisciotta.  
She had fallen to her knees before the man, and although she had no weapons, she immediately proved far more formidable than her husband with his revolver. Bounding forward on her knees, she grabbed the burglar around his legs and the next instant he yelped with pain as she buried her teeth in his kneecap.  
The other burglar, when his pal screamed, bolted out from the bureau door. The man whom Mrs. Pisciotta had bitten freed himself from her by striking her between the eyes, and also struck the pistol from Pisciotta's hand before he dashed from the room.  
Both robbers fled along 145th street to Brook avenue, with Pisciotta in pursuit. He fired three shots at the hindmost, and as the robber passed Willis avenue Policeman Smythe, of the Alexander street station, joined in the chase.  
A Shot Halts Him.  
The policeman fired a shot and the robber stopped and was arrested a block further on. His knee was bleeding from Mrs. Pisciotta's bites, and he limped as he went to the station. He said his name was George Marino, twenty-two years old, of 316 Elizabeth street. His companion escaped.  
When Pisciotta found his wife in a faint, a call was sent to the Lincoln Hospital, and Dr. Dunlap came in an ambulance. At first it was feared that the irate woman had been seriously injured, but she was revived at the hospital and has no wounds, save a big bump on her forehead, a memento of the bitten burglar's fist.

# WAR CLOUD HOVERS OVER PERSIAN GULF

LONDON, Oct. 31.—An armed clash between English sailors, who have gone ashore at Lingah, on the Persian gulf, and the Shah's soldiers is believed to be imminent today, as the result of England's refusal to withdraw the sailors, in response to a peremptory order from the Persian government.  
The demand for the instant removal of the sailors was delivered at the foreign office today, and a negative reply was dispatched at once.  
England is convinced that Germany is supporting Persia in her stand against the efforts of England and Russia to exert a greater influence in Persia. Today's decision was made with the belief that should Persia force the issue, Germany will immediately become involved in the clash.

# PAYS FINE OF MAN WHO STABBED HIM

PITTSBURGH, Pa., Oct. 31.—His face twitching and his arm and leg bent with pain, Harold Lorey, eighteen, testified that in the trial of Floyd Flines, who had stabbed him, "the cuts don't hurt. We're friends. He didn't know he had a knife in his hand. He's all right," and then fainted.  
When he revived, and was told that Flines had been fined \$10, he walked up to Magistrate Kirby and asked: "Say, judge, will you lend me \$10 to pay the doctor bills. You know I'm good for it."  
"Yes," answered the court, and handed him a banknote.  
"Where do you pay fines?" Lorey questioned. The youth paid the fine imposed against his chum, fainted again, and was rushed in an ambulance to a hospital, where his condition this afternoon is said to be serious.

# RED TAPE USED IN EXTRADITING SUSPECTS

WASHINGTON, Oct. 31.—Though the State Department today prepared to dispose of the extradition of the five suspects now held at Acapulco, Mexico, in connection with the dynamiting of the Times building, it will be two or three weeks at least, and if unforeseen complications arise, much longer before they can be brought back for trial in this country.  
The authorities in Los Angeles must collect their evidence and send it to Governor Gillett to be authenticated. A representative of California will then take it to Mexico City. After this, the Mexican courts will have to pass upon the case before extradition can be granted. In the meantime the men will be held at Acapulco.

# TAKES ACID THROUGH A STRAW; SOON DIES

MIDDLETOWN, N. Y., Oct. 31.—Drinking carbonic acid through a straw, Mrs. George Coley quickly succumbed to the draught at her home here. The woman, who had suffered from melan cholia for some years following the death of her husband, had recently been growing worse, and last night poured the poison into a cup and took it as stated.  
Her son, Glen H. Coley, gave up a course he was taking at Pratt Institute, Brooklyn, in order to care for his mother. The Coley family is prominent in this section.

# REWARDS FOR FIREMEN

Three Who Will Get Medals for Rescuing Drowning Folks.  
Fire Commissioner Waldo will have three firemen before him today to receive gold medals for rescuing drowning persons, an unusual mode of awarding life in the fire department.  
The medals are not those annually presented by the department. They are awarded by the Life Saving Benevolent Association of New York and were sent to the fire commissioners with the request that they be given officially to the men who were selected as deserving them.  
The men who are to receive the medals are Fireman William W. Mark and John F. Welsh, of the fireboat James Duffie, and Fireman David Starck of Engine 4, whose quarters are on Maiden Lane.  
Starck rescued Kate Mollen from the surf at Coney Island last July. Welsh and Mark rescued two men who fell into the North river from the Red Star line pier on the occasion of the big fire there on July 16.

# WON'T LET ARCHBISHOP MARRY ROYAL COUPLE

ROME, Oct. 31.—Under orders from the Vatican, Archbishop Agostino Richelmy, of Turin, announced today that he would not perform the marriage ceremony for Prince Victor Jerome Frederick Bonaparte, the French pretender, and Princess Clementine, daughter of the late King Leopold of Belgium. All arrangements had been made for the ceremony in the chapel of the royal castle on Moncalieri.

Although the archbishop gave no hint as to the reason actuating the Vatican, it is construed as another slap at Italian royalty, owing to the royal couple's connection with the royal family of Italy. For this reason, it is likely to widen the breach between the Vatican and the Quirinal, just at the time when it seemed that there was good prospect of the two coming to a better understanding.  
The love affair of the prince, who is forty years old, and the princess, ten years his junior, dates back a great many years, and was held in abeyance during Leopold's lifetime by his opposition to the prince.

# Berlin Quiet, Police Armed with Carbines

BERLIN, Oct. 31.—Two trifling disturbances occurred today following last night's trouble, but as a rule the city wore its accustomed air of peace and quiet. Everything had remained orderly during the night.  
After considering the late disturbances on the part of the strikers, butchers the authorities decided to act with a firm hand and it was announced that any recurrence of the disorders would be treated as armed rebellion. The police were ordered to carry carbines in addition to swords and pistols and they were told that if a single shot was fired by the rioters to tell off ten carbineers who would shoot first at the legs of the disturbers, and if this proved unavailing to tell off thirty carbineers with orders to shoot to kill. This plan is to be continued till the trouble is suppressed.

# THIS "SECRET" STRAW VOTE WASN'T SECRET

PLAINFIELD, N. J., Oct. 31.—Mayor Charles J. Flisk, it was learned today, was responsible for the secret straw vote canvass being conducted by a local newspaper, and that he alone was responsible for the secret marks on the return postal cards, but explained that these marks were made for the purpose of getting a line on the vote at the coming election by districts and not the particular voter.  
Political leaders here were indignant when they learned what had been done. Geo. W. Mox, who forsook the Republican to accept the Democratic majority nomination and R. Henry Dewey, the leader of the Progressive movement here, held a conference with Mr. Flisk. The latter admitted that he bore the entire expense for the postal card canvass and he absolved the newspaper from any blame that might be imposed. He said that his object was to get a line on the probable vote by districts. Each card had a secret mark thereon, put there by Mr. Flisk's secretary, R. J. Bourke, and the latter had the code for interpretation. Since the exposure of the matter the return cards have all been destroyed and nothing further will be done toward tabulating the vote.

# CONDUCTOR OBJECTS TO SMOKING; SLASHED

William Moriarty, conductor on a crostown car in Williamsburg, had his face, head, neck and chest lashed with a razor yesterday by Tony Parratto, twenty-one years old, of 2 Driggs avenue, because he remonstrated with the man for smoking inside a car. Passengers had complained about Parratto's smoking. When the car reached Driggs avenue and North 14th street, Moriarty, who had warned the man several times to stop smoking or go to the rear platform, undertook to eject him. Parratto whipped out the razor and slashed Moriarty half dozen times. Moriarty was taken to the Williamsburg Hospital. Parratto was arrested in the Bedford Avenue Police Court and committed without bail.

# KILLED BY BURGLAR IN WIFE'S PRESENCE

CHICAGO, Oct. 31.—Shot down before his wife and child by a desperate burglar, Guy Williams, thirty-six, is dead here today, and the police are making every effort to apprehend his slayer.  
Williams, who was an agent for the Prudential Insurance Company, was in bed when his wife, awakening saw a burglar busy in their room. "Keep still," she warned, but her husband leaping to the floor, grappled with the intruder. The two struggled fiercely, the burglar sending a bullet into Williams' side and escaping.  
After the escape, Victor Ottens, who lives in the building, informed the police that a mulatto had been seen hanging about the Williams home. Ottens described the man fully, and the police dragnet is out for him as the probable slayer.

MANHATTAN WORKERS LISTEN TO RUSSELL

Party Candidate for Governor Speaks to Big Crowd on Issues of the Campaign.

By JOHN W. WALQUIST.

(Correspondence to The Call.) MANHATTAN, N. Y., Oct. 31.—The evening of Charles Edward Russell spoke here to a large gathering of working men and women. The room was filled with eager listeners.

The speaker was introduced by G. Churchill Rafter, who in a well chosen words, advised the audience to investigate, study and adhere to the principles of Socialism, and not turn a thing down, even if it seemed new and strange to them.

Without any preliminaries Russell fell into his subjects, and his first words, "There is something wrong in this country," caught and held the audience's attention until the end of his speech.

He then said: "Twenty years ago the Socialists told us that 85 per cent of the people in the United States of America were either poor or very poor."

What are the conditions today when the cost of living has increased 100 per cent, and wages increased only 10 per cent? Thirty-five thousand men in one year in New York city alone; young women selling themselves into a life of shame; slums, diseases, insanity and disease are all around us.

The speaker thought it would not be a minor issue to a man who receives \$1 a word for writing platitudes.

He then traced the origin of the trust from the combination of two men back in the thirteenth century up to its present development.

He ridiculed the idea of legislating against the trust. "The trust is a good thing but let the nation own them," he said. "It is absurd to try to put evolution out of business by men-made laws."

The speaker had the audience roaring with laughter when he humorously referred to the capitalist candidate, Stimson. He said Stimson was elected by Elihu Root, and that ought to be enough. There is nothing in the world party platforms that promise relief for existing evils, and that parties side-step the real issue.

What Real Issue Is.

The real issue, he said, is: "Shall we have social justice, or social injustice?" He referred to the German workmen's compensation act, and said that the Socialist party of Germany forced the government to treat industrial soldiers decent.

He closed by paying a high tribute to the Socialist party; placing the responsibility for existing evils largely upon the voters, saying: "The voters are the jury, if you do not protest by means of your ballot against the existing social injustice, you are guilty of its perpetuity."

BUSINESS MEETINGS.

MANHATTAN AND BRONX. Branch 7. Branch 7 requires and demands the devotion of every Comrade in the territory during the present week. Six thousand registered voters have to be called upon during the three evenings of Tuesday, Wednesday and Thursday. You who have not as yet placed yourselves in line should lay aside every other engagement of whatever nature and report tonight at headquarters, 112 East 104th Street, as early as possible. The bigger the number of canvassers in service, the smaller the burden of each member. The prospects for this campaign are bright. You will feel happy to think that your efforts have helped to accomplish the successful results. You are wanted at headquarters tonight. Com. M. CHARIFF, Organizer.

Branch 9.

The regular meeting of Branch 9 will take place this evening at the headquarters, 1363 Fulton Avenue. As this is the last meeting before election every member is urged to be present. The branch has acquired lately a large number of new adherents, and the general activity has been very encouraging. All those that have kept away from the meetings, should not miss this last chance of doing some good work for the forward march of the Socialist party. We are provided with literature for free distribution, and our alert organizer, Comrade Turkenitch, is ready to fulfill all demands made on him. No one should miss this meeting. Meeting of Women's Committee. A meeting of the women's committee of Local New York will be held tomorrow afternoon at 3 o'clock sharp at 239 East 84th Street. All members are urged to attend. Watchers: What of the Ninth? It would be the height of folly to enter the field of prophecy and predict with certainty the election of Comrade Meyer London to Congress in the Ninth Congressional district. Reviewing the situation at the present moment, we must conclude that we have a splendid chance; in fact a better chance than at any time in the history of the Ninth. The opposing forces are struggling behind in the fight. They have no chance

at all, and Tammany Hall is relying on the plug uglies and repeaters to carry the district. Shall we allow them to beat us at the count? For that is where we fear the greatest danger. Unless we can man the polls with strong and intelligent comrades who will watch for Socialism, the result will be a failure. He or she, who will watch in the Ninth, will please report to Clinton Hall, 181 Clinton Street. G. S. Gelder, Campaign Manager.

RAND SCHOOL NOTES.

Mr. Kirkpatrick's class in "Introduction to Socialism" will hold its fifth session this evening at the Rand School of Social Science, 112 East 19th Street. It is still time for students to enroll who have been unable to do so before. The fee for the remainder of the term (eight lectures) will be \$1.35 for party members, and \$2.00 for others; single admission, 25 cents. Tomorrow (Wednesday) evening, Mr. Gruenberg will lecture on "Organic Evolution," and Dr. Neumann on "Light Literature."

SALEM, MASS.

A big Socialist rally was held Thursday, October 27, at Hibernal Hall, at which Alexander Irvine and Franklin H. Wentworth, candidate for state representative, spoke. The Salem Evening News, besides giving Wentworth's speech, said: "Those who went to Hibernal Hall, Boston street, last night, prepared for an oratorical treat were not in the least disappointed, as Alexander Irvine, the noted New York state Socialist certainly proved himself a remarkable speaker and in the telling of his life story held his audience spellbound. "Just at the close of his most interesting effort, he reminded the voters that if they want a man on Beacon Hill who will work for their interests—the one man in the state who will represent the workers as they should be represented, and who will fight for them—to elect Mr. Wentworth as representative. "The rest of Mr. Irvine's time was taken up with the story of the Irish boy who was brought up unlettered and who craved, and fought for an education, and today is a master mind among his fellows. Born in the north of Ireland he then went to Scotland, and later enlisted in the English army, where he had five hours a day to educate himself. So taken up with his books and studies was he that he said he was in the awkward squad most of the time. He then told of his entering the ministry, and being a missionary in the West, of his pastorates in New Haven and New York city and of how he had been dropped by two great churches because he entertained Socialist views of things concerning his fellow men and their condition. "He declared that the modern working man has no more career than a cow—that he is the creature of the machine and moves with the machine does. He says there is absolutely no hope for the working class until they learn to vote together."

At the early part of the campaign about 1,000 lists were issued to the assembly districts and progressive organizations. To date only about 125 of these lists have been returned. Party members and sympathizers who have the balance of these lists in their possession are kindly asked to note that the dates set for the return of these lists is November 1. Not alone is it important that these lists should be returned, but it is hoped that they will be returned as soon as possible, as a number of bills have accumulated during the campaign that the local is unable to meet until the collections on the lists are turned in. Party members can send their lists direct to office, or to collector in their branch. Organizations will kindly forward to the undersigned, at 949 Willoughby Avenue, Brooklyn, E. LINDGREN, Organizer.

THE SECRET OF SUCCESS

By ROBERT HUNTER.

There is only one way to make wealth; but there are many ways to make money.
You can steal the earnings of widows and orphans, the poor and helpless, the slow and ignorant. You can make money that way; but you can only make wealth by labor in mills, mines, fields and factories.

THE FUTURE IS OURS.

In another part of this issue we publish part of a letter of Charles Edward Russell, the Socialist candidate for Governor of New York, to Edward F. Cassidy, local organizer of the Socialist party. This letter should encourage every Socialist to do his utmost for the success of our grand cause in these, the closing days of the campaign.

ROOSEVELT AND FOSSILIZED JUDGES—

An Open Letter to Theodore Roosevelt.

Permit me, one of the nominees of the Socialist party for the office of Judge of the Court of Appeals of this state, to address to you, the acknowledged leader of the Republican party in this state, a few questions on a subject that you must admit is of the greatest importance to the electorate of this state in the present campaign.

THE AMENDMENTS.

We have received several letters from Socialist party members requesting us to express our opinion about the two constitutional amendments to be voted on November 8 in this state.
