WOMEN EMPLOYED AS CURE MAKERS AT HARRISON, N. J.

Henry R. Worthington Company Fills Men's Places With Girls.

DRIVEN THE LIMIT

Wages Are Cut to a Third cf What Male Employes Get.

The employment of women as by the Blake & Knowles am Pump Works of East Camridge, Mass., which has come to light ecently, and has aroused the authorities of that State, is duplicated by the Henry R. Worthington Hydraulic Works of Harrison, N. J.

Like the Blake & Knowles company, the Worthington company manufactures pumps, and, like the East Cambridge Company, the Harrison concern is said to be a branch of the International Steam Pump Company.

At the Henry R. Worthington plant in Harrison there are employed beiween 150 and 200 women in the core making department. The work of It is one of the grimlest jobs. It is done in at atmosphere of gasoline, burning coke and coal, and is more disagreeable and harder than the work done by a gang of street laborers. The women shovel sand and lift

all sorts of forms and molds, which s far, beyond their strength and hich make them cripples before any years.

Because of the rough nature of the work the company is now supplying its women with dresses and aprona made of the same cloth of which men's overalls are made. Before leaving the foundry the women are likewise made to wash their hands and faces carefully so that the out-side world might not see the filth and side world might not see soot in which they work.

The reason for the employment of The women do the work of a man for a third of a man's wages. Inquiries by a Call reporter yesterday elicited the information that the company is constantly supplant-ing men in the molding department by women because the women work for a third of the wages the men get. Thus, men core makers get from \$3 to \$3.50 a day. Women core makers get from \$1 to \$1.35 a day. The women, too, can be driven more than the men, for the men are Americans, or at least Americanized, while the wom-en are nearly all Polish and Slovak,

terday, it has fee jently happened that a woman core maker worl ad all day and then went home an i gave birth to a child in the evening. The company is not particular what con-dition a woman worker is in so long as she does the work and does it

"It is a shame that girls should be allowed to work in such a place," a woman living in the vicinity of the concern said. "Look at these men molders and core makers coming from work. Look how black and greasy they are. You can see nothing but their eyes. The women look exactly the same inside the factory gate. Before going home, however, they are made to wash their faces and do up their hair a bit, so that public decency may not be outraged.

No American Women Hired. ~

"The work is of the kind that none The work is of the kind that none but men should do. Any of the girls will tell you this. They have to stand for hours planted in the sand and keep on shoveling gravel and other materials. The gases are nauseating. No American girl could stand it. But these unfortunate women from Poland, many of them married and in delicate condition of this work.

these unfortunate women from Poland, many of them married and in
delicate condition, do this work because their husbands can find no
work. Their husbands and fathers the
company would not take on. But
the sirls and women are put on because they work cheap."

Another woman, who had worked
in the core making department for
some time, said that she looked back
to that period of her life with horror.

"It is no place for girls or women
to be in," she said. "I wonder where
the factory inspectors and social
workers are. I wonder they don't
come around and inspect the place
and see under what degrading physical, mental, and moral conditions
women in the core making degartment are compelled to work."

The women work nine hours a day,
owing to the dirt which accumulates

The Public Service Commission, in

TRANSFER RESTORATION

MORE ARGUING ABOUT

resuming yesterday its hearings on the proposal to order the restoration of the transfer system which was abolished after the break of the old Metropolitan railway system, took up the investigation of the Central Park, North and East River Railroad Company, commonly known as the Belt Line. Charles F. Mathewson, counsel for the company, submitted evidence to prove the argument he made that the transfer arrangements which had the transfer arrangements which had been in force with the Metropolitan company for the last eight months were a complete failure and that if the company paid its taxes and also a reasonable return on actual capital invested it would be bankrupt.

Commissioner Eustis remarked that the company is by no means

the commission is by no means pleased with the present 8 and 10 cent arrangements and it would very likely order its discontinuance if a complaint were made.

The hearing was adjourned until October 20.

GAS WORKERS TO MEET FOR UNION

Labor Conditions in Plants Since Re duction to 80-Cent Basis Described as Oppressive.

Gas workers of Greater New York will assemble in the Labor Temple, 243 East 84th street, tomorrow afternoon, at 3 o'clock, for the purpose of The strike order was issued and the organizing the employes of the seventime set this morning, after confereral gas producing companies of the city into a labor union. Although preparations for tomorrow's meeting and the propaganda which it is to present have been conducted for sev-eral months with the utmost secreey, crai months with the utmost secreey, leaders of the movement yesterday evidenced no hesitancy in complain-ing of the conditions which have given impertus to the plan. An appeal is made to all workers in the employ of the gas companies of the city o be present and participate in the discussion and work of organization. Since the upholding of the Eighty Cent Gas Law, in January, 1909, by a decision of the Supreme Court, and the return to consumers the city over of gas tolls in excess of the 80-cent rate, labor conditions in one and every company serving the city with gas have gone from bad to worse, the employes declare. At tomorrow's meeting it will be shown by the testimony of workers from every office and plant that wages have been cut and plant that wages have been cut since the reduction in the rate to the consumer, while the hours have been increased in inverse ratio. It is asserted by the discontented employer that municipal and State laws gov-erning the conduct of gas companies are freely and constantly violated by the corporations and that wheras the ordinary plumber is compelled to take out a permit from the Building Department for the installation of even an inch piece of piping, whole build-ings are equipped with pipes without requisition to the city authorities for

the permit called for by law.

There are those who aver that more than one case of suicide by gas reported to the Coroner's office would. if investigated, prove to be no less than asphyxiation due to hasty and careless piping by gas companies.

WOULDN'T ENTER TEA AT SAN FRANCISCO

The company can do with them what it pleases.

According to a number of men and women working for the Worthington Company who were interviewed y asterday, it has fee tently happened that a someon working to the working for the feeling to the working for the shipped to Chicago in bond, refusing to enter it at this part because the shipped to Chicago in bond, refusing to enter it at this part because the shipped to Chicago in bond, refusing to enter it at this part because the shipped to Chicago in bond. supper to change in bond, retusing to enter it at this port, because of the re-cent action of the customs officials in holding up more than 2,000,000 pounds of black and green tea, alleged to have been artificially colored. Before the shipment left for t nicago today the customs officials took samples of the tea to pro-tect themselves from any charge of un-

fairness which may arise as a result of the inspection in Chicago. Shippers were much worked up over the fact that the ten was refused entry here and accepted in the East under the

TWO WOMEN DIE BY **FALLS FROM WINDOW**

Two women met death by falling from

windows yesterday.

Mrs. Beckie Lebenkoff fell from a window of her home on the fourth floor of
40 Rutgers street and died from her injuries an hour later in the Beth Israel
Hospital.

Falling from a chief.

Falling from a third-story window Faining from a third-story window of her residence at 6 East 65th street, Miss Cora F. Barnes, 55 years old, was in-stantly killed. She had returned to this city only a few days ago in order to be at her home to celebrate her birthday,

BLACKJACK GETS HIM 5 YEARS IN SING SING

William Smith, a giant negro, who was the second offender against the Sullivan dangerous weapon law to plead guilty, was sentenced yesterday by Judge Foster in Part I of the Court of General Sesions to serve five years in Sing Sing. Smith was arrested on September 21 in front of 134 West 133d street with a wicked looking blackjack bulging in his hip pocket. The negro had only been out of prison a short time for an assault which he committed in 1908 and for which he was cent away for four years and six months.

35,000 SHOPMEN ON WESTERN R. R.S TO STRIKE TODAY

Heads of System Federation Call Bluff of Kruttschnitt.

BIG FIGHT AHEAD

Railroads May Refuse to Handle Cars From the Struck Lines.

CHICAGO, Sept. 29 .- What will nated. robably be one of the biggest struggles ever seen in this country beween capital and labor or the railoads, will begin at 10 o'clock tomorrow morning when the shopmen or the Harriman lines and the Illinois central go on strike, according to a final statement today by J. W. Kline president of the Blacksmiths' Union The strike order was issued and the ence with the five union presidents.

The calling of the strike was precipitated by the demands of the boiler makers at Memphis, who have been out nearly a week in sympathy with the clerks. Ryan, of the car men, and Franklin, of the boiler makers, sought to delay the starting until the final O'Connell, and Sullivan overcame this on the grounds that the second vote had been ordered after the retusal of the machinists to lend their strength the with them. to the strike. This was obviated by the action of the machinists' convention in Davenport in deciding to support the strikers.

According to Kline, the men at all he shops, approximately 35,000, will

quit work at 10 o'clock tomorrow morning, without further notice. The strike was called because the railroads yesterday for the third time flatly refused to recognize the Federa-tion of Shop Employes in the manner that they now deal with the indi vidual unions comprised in the fed-

Kline said that the men were cager to strike, and that all preparations for a strike had been perfected. He said that the reply of Julius Kruttschnitt, vice president of the Harriman roads, to the federation's ultimatum, left no alternative to a strike except to with draw the demands of the union.

Other Lines to Be Involved.

It was announced by the union lead ers here today that the superintend-ent of motive power of the Chicago and Eastern Illinois Railway had refused to receive a delegation from the Systems Federation on that line and that further complications, with the decided possibility of a strike, would follow.

was further announced, had declined to meet with a committee from the

of the Systems Federation declare an-other 12,000 unorganized men will walk out at the first call, and that ar proximately 50,000 railroad workers will be out by noon Monday.

According to these same high of-ficials, the strike will shortly spread to every railroad line in the West and Middle West. It is declared that at a secret meet-

ing at Cleveland, Ohio, the Brother-heod of Locomotive Engineers, Order of Railway Conductors, Brotherhood of Locomotive Firemen and the switchmen's branch of the American Federation of Labor notified the heads of the Systems Federation that they

will refuse to handle cars from the lines on which the strikes are called. Probably this would shortly involve every railway in the United States in the controversy, as cars from the Har-riman lines and the Illinois Central are transferred to every railway sys-

tem in the country.

The leaders of the System Federastrongest of the railway unions, which

etrongest of the railway unions, which are not affiliated with the American Federation of Labor through the System Federation.

They declare that within a week after the strike order is issued, the Harriman system will be absolutely paralyzed, for, being a transcontinental road, it will necessarily depend upon others to handle its cars, and the refusal of the unions to handle Harriman cars, they say, would the up that system immediately.

All Ready for Action on S. P.

SAN FRANCISCO, Sept. 23.—President Reguln, of the Southern Pacific System Federation, issued the following statement today regarding the expected strike on the Harriman roads:

"We are merely waiting for the word. Every man in the Southern Pacific shops will quit—the helpers and leborers as well as the more

TAFT WINS CUMMINS

OTTUMWA. Iowa, Sept. 29.—The two days' visit to Iowa is finished and President Taft tonight leaves insurgent territory until his return through the Northwest late in October.

The President gained Senator Cumpins, who has consistently opposed him

The President gained Senator Cummins, who has consistently opposed him in nearly every policy, to the support of his arbitration treaties today. The insurgent Senator's capitulation followed upon the heels of a peace speech which the President made at Des Moines. At the conclusion of the address Senator Cummins, who for the first and only time during the Presidents visit herowas upon the platform with him, began to discuss treaties with Taft as he was leaving the hall. The Senator suggested that the clause providing for the personnel of the joint high commission which is to decide what questions are to be arbitrated should be more definite than in the text of the treaties. It is now in the text of the treaties. It is now provided that three nationals of each country involved should be appointed upor this commission, or, otherwise, if agree to between the nations. It was the other wise that the Schator said bothered him He thought the proviso should be climi

"Well," said the President, "do that make it necessary for the Senate to con tirm these appointments." And the Senator then indicated his an

proval of the pacts in that revised form

200 MORE TAILORS WIN WAGE RAISE

Bosses in Custom Trade Continue to Yield to Demands of

Thirty-four more merchant tailors vesterday granted the demands of the striking custom tailors and signed agreements with the United Custom Tailors' Union, Locals 112 and 210, and nearly 200 more strikers will re-turn to work this morning. Many to work this morning. Many but insisted on settling with the coa tallors only, and wanted to exclude the pants and vest makers, and the Settlement Committee refused to set-

Among the employes who settled vesterday are: Ludwig, 224 Third ave-nue, employing about thirty men, who received an average increase in wage of 10 per sent, and Person, of Basi Broadway, who is a member of the Merchant Tailors' Association. The tailors employed in seventeen shops joined the strike yesterday, but a half hour later fourteen of these merchant tailors called at the union headquar-ters, granted the demands of the strikers, and their employes returned to

Edward Feller, organizer of th union, declared yesterday that he ex pected 500 more people to join the Tuesday morning. when the strike will be renewed. On account of the Jewish holidays, work will be sus-pended until Tuesday, when it will be resumed. H. Silverman, business agent of the union for Brooklyn, was beaten up by thug, in the employ of the bosses, but pickets rushed to his rescue and the thugs fled.

MORE MONEY FOR ALBANY VICE PROBE

ALBANY, Sept. 29.—The State Sen-ate tonight amended the resolution pro-viding for the investigation of conditions in Albany city and county by the Bayne legislative committee so as to increase the appropriations for the expenses of Systems Federation and there, also, the committee from \$25,000 to \$50,000, ishment, because the committee from \$25,000 to \$50,000, ishment, because the committee from \$25,000 to \$50,000, ishment, because the lookyed, having given question, but it received twenty-seven profitable for Some, so one more than was necessary

pass it. Senator Brackett insisted it required a three-fifths rather than a majority vote-but Lieutenant Governor Conway, who ras presiding, declared the point not

PANAMA AGAINST **EXPORTATION OF LABOR**

PANAMA, Sept. 29.—To prevent exportation of canal laborers by contractors, who find a ready market for them in Brazil and other South American countries, the Assembly has passed a law that any foreigners found recruiting canal laborers shall be exported.

Native Panamans who try to persuade canal employes to leave will be fined not less than \$1,000 nor more than \$3,000.

TO SAVE TRAFFIC SQUAD.

ALBANY, Sept. 29.—The Senate to day, under an emergency message from the Gevernor, passed Senator Ramsperger's bill making possible the continuation of the Trantic Squad in New Jork to City without regard to the Three Platons a Police Law. The bill will proceed to the Assembly temotrow.

FOR PEACE TREATIES SEAMEN COMPLAIN OF CONDITIONS ON MAN OF WAR

> "Grub" on Utah Bad, and Petty Tyranny Is Rampant.

HOSPITAL A CURSE

Enormous Fines Inflicted for Petty Breaches of Rules. Many Desertions.

That the United States Navy is roten through and through will one day be realized by every one. When men know how rotten it is, and how vilely the unfortunate men who are in it are treated. Uncle Sam will have to alter very radically his naval rules if he wants to man the ships.

The conditions under which the mer on the battleship Ctah, commanding officer. Benson, labor are typical, and flustrate the petty tyranny of the petty officer, the misery of life under a martinet such as is Benson. and the cause that makes seamen desert their ships.

The Utah has been in dry dock for little less than a month, and during that time no fewer than ten summar; ourts-martial have been held. Outrageous penalties for minor infractions of the rules have been inflicted and already four firemen have deserted her.

Enormous Fines Inflicted.

Yesterday three fines of \$46 were nflicted on men for exceeding leave of absence by five hours. The wage is \$24 a month, which means that for a paltry breach of rules, a man lost two entire months' wages. That these fines are excessive is illustrated by the fact that in one case, at least, it was a first offense. It is usual in such cases to let a man off with a line of about \$5, or even with a

warning.
The food on the Utah is another sauge of complaint. For several days past the meat has consisted mainly fat and bone, and this sumptuous fare has been tainted. Recently a dish of hash was being taken to the men' the men, that could be smelled from one end of the passage way to the

The bread has been sour for days The bread has been sour for days, and, in general, the food is cooked by steam, and is served up half done. The quarters where the men sleep on this ship are, it is said by the men, terribly overcrowded, so that one man lectared his neighbor sleeps with his legs in the next man's hammock.

But the chief thing that causes distinctions of the content of the content

satisfaction on the ship is that every petty officer has his own ideas of dis-cipline, and tries to enforce them on the helpless men. Contradictory orders are issued, and when one petty tyrent is obeyed, another orders pun-ishment, because he has not been obeyed, having given contrary orders.

It must not, however, be thought that everything in the navy is bad. Some men find it a very profitable occupation, indeed.

In May of last year three battle-ships, of which the Indiana was one, left this country for European waters. Most every sailor wanted to make the trip, and several men from other ships applied to the chief petty office of the Utsh to be transferred, which he could have arranged, say the men One man who applied told a Call

reporter yesterday that Wilson, the officer in question, said he would arrange it-at a price. The price was The man did not pay up, and was left. Two men who applied with him did, however, succeed, and the

A South Ferry train was pulling into the station and three cars passed over her, killing her.

Mrs. Ryan, who is 45 years old and childless, has been subject to fainting spells and her husband beliess she had a seizure. Looking down from heights always made her dizzy and the elevated may have had this from the single property. So it is clear the navy is a good place for some men.

Seventy-two Poisoned.

Seventy-two Poisoned.

As bearing out the charges of the men in reference to the quality of the food on the ships, there is the matter of the poisoning of seventy-two boys on the battleship Michigan some four weeks ago. They went to the hospital, and one died.

The Navy Department gave out that he died from the effects of a tumor. The doctor on the hospital ship Solus, however, declared previously that he died of ptomaine poisoning.

The cause of the poisoning was a mess of chicken. The ship's officers gave out the statement that they ordered the men not to eat the chicken. Asked why it was prepared, if they were afterwards ordered not to eat it, no answer has yet been forthcoming. The matter is now under investigation.

One man who joined the navy

One man who joined the navy through the training ship Lancaster at Philadelphia and that the ship's of the continued on Page 2.)

SENATE DELAYS ACTION ON NEW CITY CHARTER

ALBANY, Sept. 29 .- The Senate

as unable to take up the New York City charter today necause the nec essary twenty-six votes had not been ecured to pass it. When the charter which passed the Assembly yesterday was received in the Senate this afternoon for concurrence, Senator Grady asked that it be advanced to a third reading, but Senator New-combe objected. Grady then had the charter laid aside and it will come

charter laid aside and it will come up for passage tomorrow.

The Congressional reapportionment bill did not come up in either branch of the Legislature today, as its fate is mixed up with the consideration by the Senate of the New York City charter. Certain Senators will not vote for the apportionment unless the charter is fixed to suit them, and others refuse to yote for the charter uners refuse to vote for the charter un-less the reapportionment bill is changed to meet their own local po-litical situations.

MORGAN FEARS NOT FOR THE TRUSTS

Regards Country as "Physically All Right."

J. Pierpont Morgan, who, with his son-in-law, Col. Herbert L. Satterlee, was in Washington yesterday, gave the Washington correspondent of the New York Evening World a statement to the effect that he was not apprehensive as to business conditions and hat he regarded the country as physically all right."

mysically all right."

The present attitude of the Attorney General toward the major business interests makes for uncertainty, and has made the country apprehensive," said Morgan. This apprehension is not confine

to the officers and members of the great aggregations of capital, but to business men generally, whether their interests are with or against the big corporations, or simply associated with hem. The condition is a psychological

When Morgan was seen by the newspaper men at the Arlington Ho-tel, he stated frankly that he had not come, for a conference and did not expect to have any, and that his not expect to have any, and that his visit to Washington was purely on private business. This was confirmed later in the day, when he went to the office of his oculist. Dr. Wilmer, and remained for some time havins his collection of eyeglasses and spectacles readjusted. Morgan returned to New York on the 4 o'clock train accompanied by Colone! Satterlee.

TEST CASES COMING IN LEVY ELECTION LAW

ALBANY, Sept. 20 .- There will 's rgued before the Court of Appeals next week two appeals in actions testing the constitutionality of the Levy Election

One decided in New York yesterday iffects the provision against a candidate's anexis the provision against a candidate's name appearing more than once on the ballot, and the other, begun in Jefferson County, questions the constitutionality of the rural district personal registration section. The proceedings come before the Court of Appeals in both cases decided below in favor of the constitutionality of the set.

ality of the act.
Two other cases involving the election
of Municipal Court Magistrates in Brooklyn will also be argued next week.

WATERTO VN. N. Y. Former Senator Brown will on Monday argue before the Court of Appeals from an order of the Appellate Division declaring the Levy Election Law constitutional Brown represents two voters in the town of Rutland who did not vote last year and who claim that they have the right under the constitution to register without personally appearing:

ALBANY, Sept. 20.—Senator McClet-land's bill amending the Levy Election Law to meet a few defects pointed out by civic organizations in the recent court ar-guments passed the Senate today, and in the Assembly was referred to the Judi-ciary Committee.

FLAGG'S GIRL SECRETARY MAY AID PROSECUTION

Madeline Russe, the 19-year-old secre tary of Jared Flagg, whose brokerage offices at 105 West 40th street were raided a week ago by postoffice inspectors, went to the Federal Building yesterday afternoon accompanied by John McIntyre, her

uoon accompauled by John Mclutyre, her counsel. The young woman spent several hours in conference with Assistant United States Attorney Thompson.

In the meantime McIntyre sat in Commissioner Shields' office with Ernest Flagg, the architect brother of Jared Flagg, who was prepared to furnish bail in case Miss Russe should be arrested. The latter is named as a defendant in the original complaint before Commissioner Gilchrist, sworn to by Postoffice Inspector Elmer L. Kincaid. Her name does not appear, however, in the indictment found by the Federal Grand Jury last Wednesday against Jared Flagg and eight of his associates.

At the conclusion of the conference with Thompson, Miss Russe left the Federal Building alone. From the fact that the young woman was not placed under arrest, though a warrant has been issued, it is surmised that she is willing to help the government in the prosecution of the Flagg outfit.

TRIPOLI, Sept. 10.—The restormed native conscript resshave been called out. The caquad has just firdshed a miraining. The third squad was out today. The squads are ying by camel routes. The native ant they will fight if the its ad, but this depends greatly to attitude adopted by Com-

MALTA, Sept. 29. Tripoli describe the

peor Maltese and the poor Jews in Tripoli are the worst off.

Moslem hatred has already asserted treef by the display of unsheathed knives in the streets. Attacks upon foreigners are anticipated if the Moslems be further exasperated by the landing of the Italians.

British protection is passionately invoked by the Anglo-Maltese colony, which has hoisted the British flag. The refusees say that 17,000 British troops are in Tripoli. The open harborless coast will make the landing of troops difficult. troops difficult.

Italian shipping, that hitherto has refused passage to any except Italians, has now assured all Christians. The Maltese, nevertheless, have asked that a British warship take them away from Tripoli. The boat service to Malia has been practically sus-pended. The destitute refugees who are landing here will become a fresh burden to the island, which already has its share of burdens.

Turkish Parliament to Meet.

CONSTANTINOPLE, Sept. 29.—A decree was issued tonight convening the Turkish Parliament. There is a Tripoll.

The government has decided to en-

face.

The warships are steaming here from Beirut. The Italian officers, who have been serving with the Ottoman gendarmerie, have started for Italy on

urgent recall orders.

The Young Turks' Committee has sent emissaries to different quarters of Constantinople advising the citizens to maintain a decorous attitude toward all foreigners.

Martial Law in Constantinople.

LONDON, Sept. 29,-That an Italfan squadron is already en route to Saloniki, and that this may mean the invasion by Italy of Turkish territory, is the substance of a report received here tonight from the Italian frontier.

Martial law has been declared in Constantinople, and threats of massacres of Europeans are being made. rected against Italy, according to lat-est advices, but includes all other na-tions, the Turks believing the failure

received by the Central News, which says that the Turkish Army reserves, hurriedly called to the colors, are being dispatched against the Greek frontier. The correspondent adds that realizing that she cannot Tripoli, because she has no navy and consequently cannot troops there, has determined to attack Greece. The pretext is the integrity of Greece, it being stated that Turkey will demand that Greece immediately withdraw and disavow all of her claims on the islands. This demand, it is said, will take the form of an ultimatum. This news has added greatly to the apprehension felt here that the entire Balkans are sure to be involved hecause of Italy's policy of territorial aggression, and the the interritorial aggression, and the the in-evitable result will be the opening of

the entire Turkish question. England and Germany are admittedly alarmed, and are trying to get concerted action on the part of the pow-ers, whereby hostilities shall be localincl. The declaration of martial law in Constantinople followed mutterings, which were believed to presage anti-foreign riots. The entire Cabinet was in session nearly all night, and resumed the conferences early today. It is expected that there will be an immediate change in the Cabinet, and that Grand Vizier Kakki Bey will retire, to be succeeded by Said Pasha.

Passports to Turkish Diplomat.

TURIN, Sept. 29.—A dispatch from Rome tonight says that the Turkish Charge d'Affaires has received his passports to the frontier and started for home this evening.

After the reception of the Turkish reply to Italy's ultimatum there was a conference between the Premier and

ROME, Sept. 29.—An official state-ment from the Foreign Office says that Turkey's reply to Italy's ulti-matum is not peremptory, as was de-manded, but is evasive and dilatory. In onsequence of that fact the gov-ernment has declared war against

Turkey.

The reason that Turkey's reply did

The reason that Turkey's reply did not reach Rome earlier is that the telegraph line between Constantinople and Rome is working badly and the longer route, by way of Zaute and Saloniki, has to be used.

LONDON, Sept. 29 .- The report that Russia will occupy Trebizon is unfounded. The indemnity will be settled by The Hague Tribunal.

VIENNA, Sept. 29 .- The Turkish

all possible means.

It is reported in diplomatic circles that Greece has decided upon a union with Crete and that a member of the Chamber will shortly make a motion for new elections in Crete, that is, for members of the Greek Chamber of Deputies.

BERLIN, Sept. 29.—A correspondent learns from an official source that the attitude of Germany in the clash between Turkey and Italy will be strictly neutral. Germany will endeaver to get the other powers to join in an effort to localize the war and prevent trouble in the Balkans.

American Warships to Scene.

hospitals. One man states that he was down with tonsilitis and was ordered to the hospital by the ship's doctor. He went to bed early one morning with his temperature at 104 degrees. Early the next morning the chief hospital apprentice dragged him out, saying:

"Here, you, get out. You're not sick, and we can't waste good dope on you." The man was then forced to go on duty. Owing to the unnatural lives the men are forced to lead, venereal disease is rife in the service, and the men, for good reasons, have little faith in the hospital treatment on the ships. One man who was attacked went to the doctor and was told by him that he did not know what was the matter. "Leave it alone," he said. "It will get better in a few days." The man was not satisfied with this sort of theatment and took the first opportunity of going ashore and getting relief.

He read being court martialed for doing so Despite the treatment in the hospitals.

SERIOUS PROBLEM IN CHURCH CUSTOM SCHOOL

Will Prohibition of Common Drinking Cup Affect Communion Service?

"It's an ill wind that blows nobody any good," and the wind raised by the progress of sanitary science seems to be a very ill wind indeed, from the point of view of the respected Protestant Episcopal Church. The grave problem that faces the ancient institution arises as a consequence of the passage recently of the State law prohibiting the use of common drink

ng cups in public places. The question that is now agitating reverend minds is whether the law will prohibit the use of the commu nion chalice in the service of the above named church. To the lay mind there is little doubt that the common chalice comes within the meaning of the law—but this is a beyond the reasonable juris

matter beyond the reasonable jurisdiction of the layman.

Bishop Charles Sumner Burch, in discussing the problem, points out that there is a very definite rubric which requires the officiating clergyman in consecration to use one cup or chalice.

The rubric might possibly yield to the application of the judicial mind and afford a simple way out of the difficulty. But there is something difficulty. plant look with contempt upon the else that presents what, at the mo-foreign women workers who take ment, appears an insuperable barrier, lobs as core makers. But when one before which the necessities of hy-

This barrier to the preservation of washed, but none the less tired faces, the public health is that, back of the and still wet hair, the feeling toward rubric, is the practically unbroken them cannot be anything else but pity. them cannot be anything else but pity. Usage of nearly nineteen hundred Nearly all of the women drag their years. It is even possible that it goes limbs with difficulty. Their walk is back much further, having its roots, wabbly, and the effects of standing for nine hours, planted on the ground mythology and ritual practice. It is and shoveling sand, is unmistakably this unbroken usage that has long shown in their walk and motions. nquestionable custom and tradition hat constitutes the knotty problem.

f the question: one hand, it has been demchritated beyond a shadow of doubt that the use of a common drinking edly tried and falled to get the job that the use of a common drinking of a core maker. That there is truth oup is a fruitful vehicle for the conin the statements seemed evident veyance of disease—some of them from the fact that in front of the very horrible—from one person to of disease-some of them office of the factory there is a stand-another. After a long agitation this ling sign, "Help Wanted Giris." particular menace to public health happiness has come under the

law, and it is to cease to operate
On the other hand, ecclesic ustom and tradition make it necessary to retain the common drinking cup. In order property to observe not to impair the tradition and cus of ritual, it is required that people shall continue in the

The problem, truly, is difficult of solution. Which should be sacrificed —the public health, or a traditional custom? It may well bring up a con-troversy calculated to disrupt homes and seriously menace the tranquil alm of reverend minds

It may, too, conceivably agitate the minds of the common man who has regard for his health.

The Rev. Dr. George Clarke Hough-ton, rector of the "Little Church Around the Corner," expresses the belief that no Legislature would enact a law that would interfere with the sacred customs of religion. That may be true today, although

it has not been so always. At any rate, the law is in operation, and it remains to be seen whether the po-lice power of the State prefers re-ligious custom to public health.

SUBWAY BAND PLAYS "STEP LIVELY" RAG

ing such appropriate titles as "Step Lively," Center Door Serenade," "There's Always Room for One More" and "How We Like the Five-cent Pieces." we ghts Florida and Utah, which We Like the Five-cent Pieces." were played at the first concert of the Subway Band in the employes' rooms of "Mister Shonts' Downstairs Railroad" at Lenox

following explanatory statement:
"The subway division of the Interborough decided some months ago that there was talent enough among its men to get

together a brass band.

"The public is informed that the object of the band is for the further instruction of its members, for the honor of the subway, to inspire patriotism and subway.

"The company contributed liberally toward the equipment of the band, and it is the desire of every member of the or-ganization that the company shall be proud of its work, not only as musicians, but as subway employes. Every man connected with the band is taught disci-ning, and every man is on his bonor to pline, and every man is on his honor to carry this discipline study into his everyday work, to be courteous to passengers and to preach the subject of good service to the New York public to every other subway employe, for whose benefit this band was created."

TELLER FOR PRIVATE LAND OWNERSHIP

Ballinger, at Lands Convention, Terms Bureaucracy 'Essence of Socialism.'

DENVER, Colo., Sept. 29 .- The nain speaker at today's session of the public lands convention here. Henry M. Teller, of Denver, made a stirring speech in favor of private, rather than national, ownership of State lands. He is a strong State's rights man. "I don't put the State above the national government," he said, "but a

believe in the ownership of land by private individuals rather than by the government. No landlord has ever been so mean and execting as a national landlord. I am absolutely in favor of putting the public land in the hands of private ownership as fast as hands of private ownership as fast as possible and subjecting it to taxation The natural riches of this State do not

retary of the Interior, in which he termed the paternalistic tendency the government "the essence of

"Is it 'progress' to give unbridled power to bureaucrats?" asked Bal-linger. "There is a set of people in indolent or incompetent to do themselves," he continued.

"This is the essence of Socialism.
Therefore, every tendency toward the alteration of our constitutional system. which encourages paternalism is decratic theory of government structive of our representative sys-tem. In the formation of the govern-ment the Constitution recognized extheir number until there are now nine great executive departments unnine great executive departments under the Federal Government. It was found necessary for the proper dispatch of business that the functions of clied to install a burglar alarm system. each department should be dis-tributed among bureaus, which Congress designated as occasion required, defining their powers and authority.

"Executive discipline in the early

days of the government tolerated no semblance of insubordination; this was for the simple reason that the re-sponsibility to the Executive for the conduct of the department was lodged in the head of the department. "By the laxity of this discipline, by the encouragement of Congress to am-

bitious bureau chiefs and through the itching for notoriety, the bureaucratic idea of government secured a foot-hold. The bureaucratic idea is founded on the assumption that the bureau rather than in serving the public. The advocates of this system say: 'The people do not know what is best for them; we will, therefore, have specialists to direct them or to do for them what the specialists think is the them.' If found conditions pretty rotten in State street, south of Van Buren. One of the last acts of Van Buren. One of the last acts of van diministration before leaving diministration diministration diministration diministration diministration diministration

"If this is a sound view of executive administration in departments, there is no reason why the chief of a bureau should be an American citizen. He might be an Austrian, or of any other nationality, so long as he possesses the special capacity. The representative idea is wholly lost. The sympathetic relation of the official to the public, as its agent and servant, is entirely obliterated, and the very elements which entirely obliterated, and the very elements which encourage and pro-mote arbitrary power and despotic tendencies are here given full sway.

"The public is always ready to im pute superior ability to executive of-ficers, in whose selection they have no sentatives. While this is paradoxical, the reason for it lies in the fact that they are better acquainted with their representatives than they are with the executive officer. It is no excuse for the public to say that their representatives in Congress have degenerated in capacity; if this he true the reavel capacity; if this be true, the people alone are at fault.

alone are at fault.

"It may be an easy way to repudiate their own civic infidelity in the selection of qualified representatives by abandoning representation for bureaucracy, but there seems to be no logical connection between this yiew doctrines of initiative, referendum, recall, and other populistic panaceas. Perhaps, on the theory that distance lends enchantment, etc., the bureau head, exploited at government expense, possesses nobler attri-butes and greater ability than our neighbor who represents us in Con-gress, but of whom we get a closer and more accurate view."

ARREST GUN CARRIER. Italian About to Sail for Home Held in \$1,000.

Giuseppo Citrola, on his way from Pasadena, Cal., to his home in Na-ples, Italy, was arrested yesterday and arraigned before Magistrate Murphy in the Tombs Court, charged with having a dangerous weapon in his possession. He arrived in New York bout twenty minutes before he was irrested. Citrola said that he did not arrested. Citrola said that he did not know that it was against the law for him to have a revolver. He said he was to sail this afternoon. The magnitude held him in \$1,000 bail for examination today.

COURTS DOUBT IF

'Reformer' Mad When Judge Refuses to Credit Testimony of Police.

"How can the police keep the city clean, if judges make a point of doubting their testimony?"

This was demanded yesterday by Patrick F. McGowan, former President of the stoard of Aldermen, upon the collapse of the first case brough to issue by the Gramercy Park Neigh-berhood Association, in its efforts to clean up its home district. Not only did the judges in the Court

of Special Sessions dismiss the case against Charles Green, charged with conducting a disorderly resort at 142 Third avenue, but one of them. Jus-tice Deuel, said that he did not believe the testimony given by the po-liceman who worked up the case against Green.

It was this statement of the court as published in a morning paper yes-terday that particularly aroused the ire of McGowan, who is president of association.

the association.

"Judging from the statement," he said, "the police are not to be be-lievered. I for one am not prepared to agree with it, and say that the men who wear the blue uniforms of the Police Department are liars and per-

"How can the police enforce law and order and keep the city clean if the courts will not support them?" McGowan took exception to another statement credited to Justice Deuel. The

justice had been quoted as saying, con-cerning the presence of a delegation of and ministers who were prese the case against Green was dis-

missed:
"There was an atmosphere in the courtroom that I did not like. I don't mean the presence of the ministers, necessarily, but it seemed there was an attempt to con-vince the court of what it should do." To this McGowan said:

"If the atmosphere created by clergy, on the Prohibition ticket for the Court men and other decent citizens of high standing in the community is offensive to any person, I am sorry for that person."

PERJURY CHARGE IN UNION BANK CASE

Brooklyn Real Estate Operator and Active Church Worker Indicted in Famous \$150,000 Note.

Gilbert Elliott, a well known real estate operator of Brooklyn, was indicted yesterday by the Kings County stinging punches which had the crowd Grand Jury on charges of perjury in connection with the Union Bank scan-dal; two others also were accused in the five indictments handed to Judge Dike, but their names were not made public because they were not arrested. As an active religious and civic worker Elliott has been well known in Brooklyn for many years. As a member of the Episcopal Church he often addressed church gatherings in Brooklyn and he was one of the church committee that protested against Sunday aeroplane flights on Long Island. Elliott is a member of the Episcopal Church Club. He was

The accusation in the case of the real estate concerned the famous \$150,000 not found in the Mechanics and Traders'-a note indorsed by di-

ctors and used as an asset. The case dates back so years, but was revived when Elliot took the witness stand in the banking

in the indictment of five men. Elliott yesterday afternoon pleaded not guilty before Judge Moore in the County Court in Brooklyn, and was released on a \$5,000 bond furnished by the American Bonding Company.

ASSAULTER OF CRIPPLE **GETS FIVE MONTHS**

Isabella Lackie, who was arrested the other day on Flushing avenue, Brooklyh by Detective Batteloro, at the suggestion of Mendicancy Officer Godfrey, for beg ging from storekeepers, was sent yester by Magistrate Harris to the alms

nouse for six months as, a vagrant.

As it is her first commitment, she may
get out in five days. She is a paralyze
cripple, who claims that she had beer orced to beg to support Robert A. Schu bert, a husky man of middle age, with whom she lived at 200 Adams street.

Schubert, who said her story was no true, was held for the Court of Specia Sessions on a charge of assaulting the woman and was sent to the almshous for five months for vagrancy.

REPEAL OF FIGHT LAW

ALBANY, Sept. 29,-Governor Dix sent a special message to the Legis-lature today recommending the re-peal of the Frawley Boxing Law. The

Governor said:
"When this bill came before me for signature I believed that it would prevent the disorderly and unregu-lated exhibitions of boxing which have been given in this State for the last few years. The brief experience with the existing law has satisfied me that it is not adapted to produce such

a result.
"The conditions which have arisen under it are hostile to the feelings citizens of the State and should be ended at once. I have already taken such steps as I can under the law to prevent such occurrences, and propos to exercise such further powers as I have to that end. I therefore urge have to that end. I therefore upon you the repeal of the law der which these occurrences have crisen."

when the message had been read Senator Grady had it referred to the Finance Committee, of which Senator Frawley is chairman. Senator Newcomb offered to introduce a bill repealing the boxing law, in accordance with Governor Dix's suggestion. Senator T. D. Sullivan objected, Later Senator Newcomb put in the bill in the regular order of business, and it was referred to the Finance Commitwas referred to the Finance Commit-

When asked what disposition would be made of the repeal bill Senator Frawley said:
We will leave that to the next

Legislature to dispose of. Let's give the law a fair chance and then, if it doesn't work out as well as we ex-pected, we can repeal it. The whole trouble, however, has been caused by the petty acts of one of the Commissioners. I told the Governor yester-day when he discussed this matter that if his Commissioners had devoted their time to enforcing the law, instead of trying to find technical flaws in one lease, there would not have been any trouble."

BOUTS AT THE FAIRMONT.

Main Attraction Tonight Is Sailo White vs. Jack McFarland.

The Fairmont Athletic Club, in the Bronx, has arranged for thirty-six rounds of boxing tonight. They are to consist of three ten-round bouts, and one six-round preliminary affair be-tween good and well known local

Sailor White, of New Jersey, is to meet Jack McFarland, of Long Island, in what is expected to be the barner strraction of the evening. This bout, which will go on last, should be more of a hot slugging bee than a sparring exhibition, because of the natural likexhibition, because of the natural liking both have for such fighting. Kid Herman, a well known favorite of the uptown fans, is scheduled to clash with Willie Chandler, a member of the Boys' Club on the East Side, and a fermer sparring partner of Knockout Brown, while Artie Edwards, the former 110-pound amateur champion. former 110-pound amateur champion s due to appear against Young Leroy, who is a clever and hard-hitting coungster, in the other bout. Jack Bilfoyle will try conclusions with Leo Johnson in the six-round number.

PIONEER AVIATOR KILLED.

BERLIN, Sept. 29.—Captain Englehardt, the pioneer German aviator. fell and was killed today during the week's aviation meet at Johannisthal Field. Englehardt was trained by the Wright brothers, and was the leading aviation authority in Germany.

CRIPPLE SUES CHURCH PAPER FOR LIBEL

James Gray, the legless newsboy who

James Gray, the legless newsboy who for years has had a station at Broadway and 42d street, has filed suit against the publishers of the Churchman, an Episcopal paper, Silas McBee, editor, and James Forbes, the mendicant expert, for \$25,000 damages for an allegal, libel.

The article complained of states "that George Gray, typical of the runaway boy, who goes on the road to see the world, lost both legs while a tramp, returned to New York and became a street beggar, Induced to lead an henest life under the auspices of "The National Association, he has now for some years maintained himself honorably as a newsdealer."

EXPRESS PLOWS INTO WRECK; NONE HURT

NEWARK, N. Y., 8 pt. 29 .- Bunning at fifty miles an hour at 4 o'clock this morning, the Boston and Buffalo special on the New York Central crashed into a freight train which had jumped the track and piled up just in front of the aproaching passenger train. No one was

and pited up just in front of the approaching passenger train. No one was injured.

The passenger train, consisting of three express cars and six Pullmans, loaded with passengers, jumped into the diten after it plowed ita, way through the wrecked freight train. The express cars turned turtle and three of the Pullmans, after tangling and twisting the rails of two tracks, landed right side up but slightly toppled, in the ditch. The last three Pullmans did not leave the track.

Wrecking crews from Buffalo, Rochester and Syracuse will be engaged until tomorrow morning before the road is open for traffic. The New York Central trains are running from Lyons to Fairport via the West Shore.

mens, to Appear in Lew Fields' Pro duction of "The Wife Hunters."

Fanchon Thompson, the young and

eautiful Chicago prima donna, whose

success in leading roles of Bizet's

"Carmen" and Massenet's "Cendrillon" was a feature of the Paris Opera ing lectures of the series. Comique seasons of the opening years of the century, is to appear with Emma Carus in Lew Fields' forthcoming production of "The Wife Hunters." Miss Thompson is announced by the Fields management as a newcomer to Broadway. As a matter of fact, she made her bow to that kaleidoscopic thoroughfare one evening about this time of the year 1900, or 1901, on no less prominent a stage than that of the Metropolitan Opera House, and in no less conspicuous a role than that of Carmen. It was in the undeservedly ill-fated season of English grand opera, financed by Henry W. Savage

and the late Maurice Grau. Fresh from the board boards of the Opera Comique, of glorious tradition, Miss Thompson came tripping under the bridge of the plaza de Seville-and a ravishing Carmencita she was. But an acute attack of stage fright and nervousness rendered impossible anything like an adequate representa-tion of the Bizet-Merimee heroine, and after two fainting attacks this youngest and freshest of Carmens achieved—to put it politely—a success d'estime. Not, however, without disclosing a voice of marked sweetness and dramatic quality, and an excel-lent stage technique.

TOLD "TO HUSTLE" BY SALVATION ARMY

Harry Williams Complains of Brusque Treatment at 14th Street Hearquarters.

Declaring that he had been told to Blass, painter.

Supervisors—1st Ward, Carl Wackenhut, baker: 2d Ward, Thomas F.

Flynn, machinist: 3d Ward, George Salvation Army in West 14th street. 'go out and husile," when he applied Harry Williams, a young man of clean address, told a Call reporter last night that he had refused to accept an opthat he had refused to accept an op-portunity to work in the Salvation Army Industrial Home in West 48th Temple, 242 East 84th street, Manhat-Army Industrial Home in West 48th Ten Street for the ridiculously low wage tan. cents a week.

Williams said that he had called at the headquarters on Wednesday afternoon and asked for lodgings and food. He was told, he said, that he would have to pay 16 or 15 cents for a bed. He replied that he had not that sum, whereupon, he said, the "captain" told him to "go out and hustle to get it." When he protested against this advice, he told The Cail reporter the "captain" referred him to the Industrial Home of the Salvation Army, where he was advised he would be required to sell his labor for 35 cents for one entire week.

Old party politicians admit that the such recommendation as "go out and hustle" had ever been given an applicant for relief, except when the In the field.

HOW THE CONSTITUTION ORIGINATED

The Constitution is a sacred document in the eyes of the exalted preme Court of the United States—when the capitalists want it to be. They have almost begun to claim divine origin for it. At any rate, its drafters were "sagacious and memorable patriots."

Were they?

Were they?

The next installment of Gustavus Myers' "History of the Supreme Court of the United States" will tell whether they were or not.

One of the eminent drafters, with a partner, fraudulently got away with the trifling estate of 2,000,000 acres in New York. That glorious patriot and Constitution drafter, Robert Morris, helped himself to 4,000,1000 acres in New York. Another delegate of the Federal Constitutional Convention was one of the chiefs of a clique getting a million acres of land in Ohlo. This clique sold the site of the present city of Cincinnati before they had a patent! Nearly every drafter of the Constitution he land in the looting going on. And such a story!

How did they get the land? Largely by swindling the Revolut Pary

How did they get the land? Largely by swindling the Revolu-veterans of their land-bounty warrants.

This was the great assemblage that rigged the Constitu-

WAR---WHAT FOR?

SATURDAY, SEPTEMBER 30.

Profit.

It is the easiest answer to the important book written by Comrade Kirkpatrick, and it is the truest. Nation wars against nation for the purpose of advancing the individual welfare of the respective capitalist classes of any given nation.

You never saw a war to raise wages, did you? You never saw a war to reduce the number of hours of labor,

You never saw a war to end child labor, did you?

You never saw a war to prevent Triangle disasters, did you? It is impossible.

All those things are working class questions, and wars are waged in the interest of capitalism. It is true that the very men who are interested in the matter of higher wages, fewer hours and better working conditions are the ones who fight the wars. What for? Oh, simply to advance capitalist prosperity. That is what wars sale of American works of art have

At the present time Italy has declared war on Turkey. At first sight it might seem to be needless, but on closer examination it will be found that Italy must have an outlet for its suppressed energy, or else that energy will manifest itself at home. That is the reason

for the war in the present instance.

There was a time when war was a glorious thing, when men There was a time when war was a glorious thing, when men cet to trade in works of art. As their stood and battled for their own safety against invading hordes. There was a time when war literally meant defense. But that time profit from this line of business their has gone. War today merely means the defense, by the working go out and risk their lives, or lose them, to make secure the things have been stolen from them by the thieving capitalist class.

The old time idea was that the master, through permitting the to ever reach a large public, and their lives of the American continent. While all I feel upon the subject. When the content is the content of the content is the content of class, of the property that is held by the capitalist class. The workers go out and risk their lives, or lose them, to make secure the things that have been stolen from them by the thieving capitalist class.

to work, in some way or other supplied the serf with food. That influence on the growing generation is idea has gone forever.

Nobody believes it today except the New York Times.

It is the slave, the serf, the wage worker, who feeds the master. ward circumstances requires a des-The master contributes nothing except appetite. Consequently, when perate struggle, in the course of which the master, through his government, cries for help that help is always designed to protect the property of the masters.

No one can delude himself now with the idea that the Italians the are fighting for independence, for freedom, for the integrity of their ally They are fighting for an outlet of goods. They are fighting for the capitalist class. They are fighting for increased dividends.

And that is what war is for.

We are many hundreds of miles removed from Tripoli, and we have only a passing interest in it. But we might as well take the lesson home to ourselves, for what is being taught the Italian people is the same thing that will be taught us. The only fight that benefits us is one that we wage as a working class confronting the capitalist class. The only fight that will put any more food into our stomachs is the one we fight as a working class.

The first duty of a patriot is to be well fed.

We are not. The capitalists look out for our feeding and see

that we do not eat too much. The same rule, however, does not apply to them.

They also look to see, in so far as they can, that we do not fight too much for ourselves. The only crime a workingman can commit

is to consider his own problems. Italy has arrived at the point where it must have an outlet for its excess population. It cannot send all of them to America. It they do come to America they cannot be controlled. So it is but natural that Italy should look for a section of the earth where it can colonize, and as colonists hold the people to it. North Africa looks basis of life. Without sex there would good, but the Turk is in the way. Therefore, for the sake of the gov. be no life. The suppression of sex erning class, which is the capitalist class, the workers of Italy are female. asked to risk their lives in driving the Turk out. It is not for the the testy bachelor are only outward the dreadful scourge.

The crusty, old main the dreadful scourge.

There are those, even among the manifestations of the revolt of nature.

There are those, even among the manifestations of the revolt of nature. is understood there will be plenty of Italians who will lay down their The psychiatrist and alienist see the lives in defense of property they never had. Not only will this be indicated the ravages sexual continence indicates so, but they will lay down their lives in defense of property that is used against them.

DAYS OF WRATH

The insanity that has possessed the stock market in New York American Medical Association (April during the past few days is just the same insanity that has possessed business during many years. Of course, the stock market is more concentrated. It is in such a situation that it can more easily be understood. But it is the same insanity.

When prices fluctuate, when stocks break, rally, recover, advance or do anything else, it must be understood that they do so because so many thousands or millions of working people are producing real values. A stock or a bond is merely a piece of paper in itself. ing real values. A stock or a bond is merely a pi paper But behind it are the brawn and intelligence of productive work, and treatment and the results are ers. Unless those workers are busy, unless they have a market for what they do, stocks and bonds are worth so much per pound, as stituted at Cavite, the percentage of waste paper.

Of course, it is customary to speak of this or that financier, or the gambler, as having "won" or "lost" a fortune. He did not produce cent annually, sometimes even higher, a cent's worth of value through what he "won" or "lost" and he The percentage of gonorrhea has been a cent's worth of value through what he "won" or "lost," and he would not be in Wall Street if he was engaged in producing anything. But we are so abnormally intelligent that we throw away most of what we produce, and we permit that portion to become gambling spoils, or material

In all the years of its existence Wall Street has never grown an apple or potato, an ounce of cotton, an ear of corn, a bushel of grain. a pound of wool; nor has it produced a drop of oil, a bit of metal, a lump of coal or anything else useful. Yet many people, workers included, look to Wall Street, or to some other stock exchange, to see what is doing in the industrial world. Wall Street, according to the

interpretation of some, must be prosperous or we are all miserable.

It is the most foolish notion that exists. Wall Street is not an indication of anything else except that the workers are being robbed good and plenty. When the workers rebel, when the workers strive to win back some increased proportion of what has been stolen from them, or when the workers are not working, Wall Street is in the

dumps.

It is time that the workers got away from considering what Wali

Street thinks and consider their own affairs.

To take a classic example. J. Pierpont Morgan is a great patron of art because he is a great appropriator of what other men earn,

He could not buy a single altar piece, a Caxton, a rare picture or anything else if thousands of workers did not sufrender to him carry on a campaign of education in a goodly proportion of what they produced. Morgan never added the press and on the platform explainment one cent of value to the wealth of this country. All he has done is and the urrency of reporting to a appropriate, and because he is the supreme appropriator we look upon him as a savior.

At present there is unrest on the Stock Exchange

You workers are not producing enough to satisfy all the harpies who desire to sink their claws into your product.

But why worry about that?

It is time to begin to worry about what you get. It is time to consider what is coming to you. Sweep away the whole unclean brood of financiers and exploiters and take affairs into your own

The time has come when you can do it.

COMMERCIALISM IN AMERICAN ART

models.

dition with which artists have to con-tend in America is presented in the current issue of the German magacurrent issue of the German magazinc, der Tuermer (the Watcher). what with an Academy that strives to stifle every sign of originality apparent in newcomers, with picture dealers who either prefer to deal an old masters or carry a "line" of moilern painters as the adjunct of a frame rather than the stifle proved to the New York public that besides the sentle, anaemic and tonciess productions of the official artists and the fit as observed in the rather is of European dealers, there

ern painters as the adjunct of a frame or paint business, the outlook is rather dark.

Struggle as stubbornly as he may, an artist who departs from the academic mediocrity and from standards which Europe discardd years ago has a very slim chance of ever winning a number of painters and the art as observed in the ralleries of European dealers, there was a third category of art, a modern American art.

Besides Karl Haag, Paul Noquet, Solon Horgium and Abastenia St. Leger Eberle, few sculptors seem to follow the new gospel of art. A large which Europe discardd years ago has a very slim chance of ever winning a large following. The majority of modern American artists who really have an artistic message are without honor in their own land although Europe knows them and admires them and matic of them are already on the wrong side of 40.
Says der Tuermer: "As members of

You each have a vote, and you know what's right. You deserve what you get for your pains."

INDIVIDUALISM AND THE TRUS PROBLEM

Though concentration of industry that I have longed to ask you, something and elimination of competition has that I have never yet dared-although proceeded about as far in Germany my beart seems to tell me that your au- as in this country, there is no "trust .problem" within the Empire, and the never been presented question has there as a political issue. Some in-He (pressing closer and touching her teresting remarks upon this subject arm) - Something that I must know or appear in a recent number of the my life's happiness is blasted. What is Consular Reports from the American Consul General at Hamburg, Robert German laws which either authorizes or forbids the creation of trusts or syndicates; and when such are formed the right to control the product by nopolistic form of organization is by recognized. The majority of fully recognized. German business men are not oppos He this breath coming in short, hurs to the formation of such combinations, ied gas is She may have her millions. The government merely holds that I will see that she has—but what are these monopolies shall not "abuse they to be weighed in the same balance their power," but Mr. Skinner says with what you have to offer—your nothing about what constitutes such father's position in the city, your social abuse, though it is perfectly evident influence to push me on in the House, that the so-called elimination of compour uncle the Duke nothing about what constitutes such abuse, though it is perfectly evident Consul Skinner then makes the following pregnant observation:

> The profound difference beconditions is best explained perhaps by the racial difference be-tween the two peoples—the Ger-man with strong collectivistic tendencies, which manifest themselves in society, in government and in trade, and the American with a deeply rooted individual ism, which remains even when he engages in a collectivist en-terprise. Thus it happens that the capitalistic classes of Ger-many, although opposing Social-ism in their public life, neverthe-less drift in the direction indicatless drift in the direction indicated by their natural tendencies in their business life, and in so do-ing they have the tacit approval of the arowed Socialistic who perceive in the steady accu-mulation of the producing powers in a few hands a movement tend-ing logically and inevitably toard the eventual realization of their dogma-that is, the State in supreme control.

This recognition of the trust as indispensable agency in preparing the ground for eventual Socialism only lacks an addition to the last sentence to be as complete as could be wished The state that will eventually control will not be a state ruled by capitalists, ou not been married before?

He—Married? Tschah! The thought as never crossed my mind. No fortune—no woman's leveliness, I should say—as ever thrilled me before; until non-specific. -no woman's loveliness, I should say—than sever thrilled me before; until now—than sever than sever than "state Socialism" and then the fortune that you would bring my farther than "state Socialism" and sould be the larger. (His fee down a new state delusion perhaps that the He (stung)—Ha! So this is the end? trop of the state, a comforting creed. But stay, one course is still left. I could no doubt, but one that, like many marry a rich widow and then get a divorce in the States. I would do all that may become a man for my Angelina's sake!

She Now Now the States of the States of the state of the state, a comforting creed, the state of the state of the state, a comforting creed, in the state of the st nurses the delusion perhaps that the

lina's sake!

Alt is an ingenious explanation also below and who knows by that time what of the two groups of capitalists the changes might have come—what budgets, what unearned increments, what alterations in the House of Lords. Our marriage might be impossible.

The (ardently)—Impossible: There is environment is by no means difficult to such word in the dictionary of time to discover.

American capitalist is wholly due to the fact that in this country capitalism has no historical traditions be-hind it, no remembrance of preceding stages when capitalistic property in-terests were not paramount. The him terests were not paramount. The feudal era left so slight an impression upon American economic evolution as to be practically imperceptible and therefore negligible. We started our national life with capitalism on this side of the Atlantic. At the time of the discovery and settlement of the the discovery and settlement of the jumping jack attached by a mean the discovery and settlement of the jumping jack attached by a mean western Hemisphere, even then the a bent pin and a string to the real western was breaking down in your smoking jacket. However, feudal system was breaking down in Europe. At the time of the Revolution the capitalist system of production the capitalist system of production was rapidly gaining control in Europe and had gained almost complete control in Great Britain, the country with which what is now the United States was then most closely connected. The success of the Revolution not only marks the start of national control in the start of national control tional life, but launched the infant ment for picking up playthings wh nation at once into the capitalistic have been violently era. It was born into capitalism, so to speak, and this fact, and not "racial" "No: but—" to speak, and this fact, and not "re to speak, and this tact, and not racular differences," accounts for the difference in the view of the trust taken by American and German business men, and also for the extreme "individualism" of the former: Had the Western Hemisphere been discovered and settled, say, 500 years before Columbus with the celebrated younge, the "inmade his celebrated voyage, the "in-dividualism" of the American would have been much less marked, for the feudal system would have left a far deeper impress on the psychology of dividualism" of the American would have been much less marked, for the feudal system would have left a far

the inhabitants.

With Germany, on the other hand. the stages of economic evolution are orderly and well marked, and their impress has been carried over and graven deeply into its capitalistic era-As a matter of fact, capitalism has so rough
So with the schemers who premacy in Germany that it has Work and vote for the schemers who run this bluff
And who watch and prey and their pockets stuff
From your labor (they never can get enough
Of the wealth you make), while you're pushed to the wall.

The negro slave had a job for life, With plenty to eat and enough to wear;
No need for worry, no need for care, And the doctor came when he didn't fell well:
But when your job fails, or you get sick,
You can hunt another or go to hell.
For you work when it suits them to give you a chance.
You dance whenever they tell you to dance.
And you vote for them every time.
Some day you fellows will all unite, 'You have nothing to lose but your chains.'
You caes have a vote, and you know what's right.
You deserve what you get fer your points of the considerably in Germany, that it destroys individuality by Socialism that it has with us, and a yet is held considerably in check by monarchical age which now manifest themselves politically in a powerful agrarian party which the rising capitalism of the country has as yet by no means rendered impotent. And in other European countries such as England and France, than with ours. The objection to Socialism, that it destroys individuality.' is heard less in England and France than with us, and hardly carries any weight in Germany. And in none of the three countries has the trust become a "problem" or a politically in a powerful agrarian party which the rising capitalism of the country has as yet by no means rendered impotent. And in other European countries such as England and France, than the other "individualism" of their ruling classes a much less prominent feature than with ours. The objection to Socialism, that it destroys individuality.' is heard less in England and France than with us, and hardly carries any weight in Germany. And in none of the trust become a "problem" or a politically is provided that it all the provided that it has yet to be a powerful agrarian party which the rising capitalism of the country has as yet by no means rendered impotent. And in other European co us, and as yet is held considerably in

icy of combination they must know is vent of Socialism. about the "tacit approval" cialists as regards this attitu ualism" which he claims his tion is exactly the psycholo statesmen, politicians and men generally keeps them foolishly between proposals ishing the trust or Most of them, like Taft, so more or less clearness that if thing is not done." evitably bring us face to "destroyer" to Taft the reconvinced that that "s be done," whatever it having gone through the

nomic environment—sees

sround in ludicrous efforts to di "something" that makes no difference any more does the "tacit approval" of th and American individualist pe The fact that one significance know that it is uscless to oppose may keep on searching for the hing to be done" to prevent it ociety into collectivism, ular consequence as he eventual result.

"I perceive," began the suavely, "that there are children the house."

"Have I the honor of speaking Mr. Sherlock Holmes?" inquired

Poply, tronically. "Not exactly; but-" that you arrived that astonishingly correct conclu-

castic tone. low your line of reasoning. you noticed Towser, who flitted from the back do word 'toy gun' to your acute That dull sound which we now can only be produced by hamma a highchair with a hand mirror

cream jug. Am I right?"
"Probably," answered the pe with, and are still inadventently you the greatest invention of

"No: but-"

"Does it have hair to be pulled?"
"No--"
"Does it have an arrangement

which, when the child cries, is whether the screams express chol morbus, hunger, a pin, temper or s eral depravity?"

TOO MUCH CAT.

"A bunch of lawyers were sleep in a stuffy courtroom in a town because of the overcro session of court." said a lawyer. one of them, a practical joker, p ing a remarkable faculty of im ing a cat, concluded to have so out of it. After all of them had t ed down to sleep he started a tive moan like a cat. Anothon the opposite side of the root a similar faculty of irritation, as awakened by the noise of the posed cat, and remarked to his fellow:

some carped car. Some carped car. Just wait. I'll imitate and we'll catch the Tom.'
"So the two began meowing other. The first supposed if real cat, and the room being
