# TRIPOLI IS TAKEN AFTER A HEROIC

Italy Smashes Antiquated Fortresses With Superior Guns.

### HARBOR WAS MINED

Rumors of Peace and Complications With Austria and England Unconfirmed.

LONDON, Oct. 4.—A report from Rome this evening says that Tripoli fell today after a most heroic defense by the Turkish garrison.

With obsolete guns, and protected with a say the same says of anti-

With obsolete guns, and protected enly by the crumbling walls of antiquated fortresses, the Turks sustained for hours a terrible bombardment from the Italian fleet.

Although they must have known that the fight was hopeless from the test the Turkish troops stood galaxy.

first, the Turkish troops stood gal-isnty to their guns. The shots from their ancient, short range ordnance fell far short of the attacking war-ships, but the Turks obstinately re-fused to surrender.

### Tripoli Harber Mined.

ROME, Oct. 4.—A supplementary force, numbering 50,000, and embraced in four army corps, will leave Naples, Augusta and Brindisi for Trippil, October 10, according to an official announcement here today.

It developed that the delay of the Italian commanders in landing at Tripoll was due to the discovery that the harbor was mined, and that the Turks had left men to explode the terpedoes.

## TRIANGLE BOSSES SCOFF AT VICTIMS

### In Answer to Suits, Harris and Blanck Say Workers Were Negligent.

ti was only when the forts had ceased to be anything but a pile of rains, when the Governor's palace had the military barracks were blazing, that the garrison finally withdrew.

What line of defense Max Blanck and Isaac Harris, the owners of the Triangle waist shop, in which 145 girls were burned to a crisp on March 25, will adopt, was made plain yesterday, when the manufacturers filed their answer to a number of suits by relatives of the dead victims. In their answers Blanck & Harris

declare that the deaths were caused by the negligence and carclessness of the workers themselves. All risks and dangers, they declare, were obvious and apparent to the workers, and were not assumed by the manufacturers.

This answer of the manufacturers is in direct contradiction with facts brought out at the inquest held by the Coroner's and Grand juries. Both of these juries visited the Asch Building a few days after the fire, and there found evidence that the doors were locked at the time the fire broke out. It was because of these locked doors that many, if not most, of the workers lost their lives.

Firemen testified that when they riremen restined that when they be motes eached the ninth floor, which was the and at ot principal scene of the disaster, they found in front of the door a heap of about fifty bodies. All of these were apparently prevented from making their escape by running up against a locked door.

The door in the Blanck & Harris establishment was kept locked, according to several of the survivors of the fire, because the company was in the habit of searching its employes before they left for the day to make sure that no one stole a spool of cotion or a piece of material.

In addition to keeping the doors locked the inquests by Coroner's and

# OF IRON WORKERS

Employers Issue Orders to Lay Off Fifty Per Cent of Their Employes.

The famous union crusher, Walter Drew, of the McNamara kidnapping fame, is again in the limelight, this time trying to crush the Structural fron Werkers' unlong of this city. This is a result of a strike of the Inside iron and Bronze Erectors' Union, Local 56, against the Lieberman & Sanford Company, 527 West 57th street. The employers threaten to lock out all the iron workers if the Lieberman & San-

ford men don't return to work.

About eight weeks ago the union ordered a strike against this firm, and the plant has been crippled ever since. The bosses employed all methods to crush the strike, but failed. In an attempt to scare the strikers, and get them to return to work the employers' association ordered its members, sev-eral weeks ago, to lay off 20 per cent of their employes, and try to get them to go to work in the struck shop. Very Yew, if any obeyed the order of the association, and the union called the bluff of the bosses by-continuing the strike, despite the threats of a lock-

### STRIKE ON IRISH RAILROADS ENDS

Threat of General Walkout on Brit ish Liner Brings Swift

DUBLIN, Oct. 4 .- The strike de clared on the Irish railroads by the Amalgamated Society of Railway Servants on September 21 was finally settled today, following the news that if the royal engineers, working of the Irish lines as scabs, were not with-drawn a general strike on the English roads would be called.

An earlier agreement was held up

when the companies refused to rein

state certain strikers in places which have been filled by other men. By the final arrangement the companies agree to reinstate 90 per cent of the strikers at once, and the renaining 10 per cent when vacano

A resolution to that effect was car-ried unanimously

### **BOOKBINDERS WIN** THEIR DEMANDS

Organization Gives in to Strikers After One-Day Tieup of Plants.

Rather than have their plants crippled by the strike of the bookbinders, which started Tuesday morning, the Bookbinders' League, a branch of the Printers' League, yesterday granted the demands of the striking bookbinders, and the men will return to work victorious. The settlement was reached at a conference between representatives of Leagus 1, 11 and 22 of resentatives of Locals 1, 11 and 22, of the Bookbinders, and the employers at the latters' headquarters, 75 Fifth avenue, at 2:30 p.m.

At the union headquarters it was stated that the employers realized they could not fill the places of the strikers, and the fight against the unions would be very costly to them, and they rather changed their position and decided to be friendly with the

The strikers won an average in crease in wages of 10 per cent and the employers agreed to recognize the union. The gliders won an increase in wages of \$5 per week and an increase of 1 cent on a leaf, and an in-crease of \$2 for stampers, while the bookbinders secured a raise of \$1.50 per week. ### SCAB MOTORMAN IS CAUSE OF ACCIDENT

One Coney Island Railroad Strikebreaker Rams Another's Car, Injuring Many Passengers.

The Coney Island and Brooklyn Railroad will one day learn that scab notormen and conductors are a burand a pest. Yesterday another accident, that might well have ended fatally, occurred on its lines as a con-sequence of the policy of Slaughter W. Huff, president of the road, who believes that scabs are more profitable than union men.

DeKalb avenue car No. 712 was crossing Franklin avenue, slowing down to take on transfer passengers on the far side. Franklin avenue car No. 466 made for the crossing at full speed and rammed the DeKalb avenue car in the middle. The wood-work was smashed and four windows were broken. The passengers were hurled violently to the floor and

fought in a mad panic to get out.

Ambulances were called from the Brooklyn and Swedish hospitals, and Brooklyn and Swedish hospitals, and Gussie Gundt, of 44 Hoyt street; Eliz-abeth Cornell, of 301 South 4th street; Simon Blately, of 85 Delancey street, Manhattan; Thomas Williams, of 111 Bleeker street, Brooklyn; William Gledhili, of 324 Hart street; David Waldron, of 171 Starr street; Patrick Murray, of 315 Vanderbilt avenue, and Frederico Luis, of 332 Vine street, were all attended for cuts, bruises and

## POLICE CLAIM TO HAVE STERN SLAYER

Sordid Story Told by Cops Moderate fees: of Trailing and Arrest of Garvey.

> Claiming that Martin Garvey is the man responsible for the murder of Adolph Stern, nephew of the jeweler, acob Jacoby, of Sixth avenue and 13th street, the police on Tuesday last arrested him, and formally charged him with murder in the first degree.

The account of the seventy-two derer, as given by the Police Depart ment, is sordid and mean to a de gree. It includes the typical sleuth and his methods, the "cleverness" of girl of 17, Beatrice Wolfe, a student at the Normal College; a young man of admittedly dissolute habits, joy rides, and dance halls, and a man who makes a specialty of tips to the papers

According to the story given to the press, William Demarest, the dissolute youth, was worked upon to tell what August these invaluable citizens were

Knew the Bunch.

Demarest took the Wolfe girl away

The Wolfe girl repeated this to her smart | brother-in-law, Webberman, who tried to fing out more. He in-duced the girl to consort with Demarest, and later he told more.

This later occasion was when Dem arest took Beatrice to the West End

Casino, 125th street, when he told
her that one of the men in the crowd

The Democratic party, said Per he had got away from was Martin Garvey, the man who had shot Adolph Stern, and robbed his uncle's jewelry

store. Webberman, on getting this information from the clever Beatrice, tried to sell the news to press men, but ap-parently failed. He then resorted to the police, who, it seems, jumped at it. Despite the fact that Demarest is

Sleuth Goes Joy Riding.

Finan won the confidence of Demarest, probably no difficult matter, and enlarged on the pleasures of automobile joy riding, saying he could easily get cars. Last Saturday, could easily get cars. Last Saturday, the police say, he took Demarest, an-other man named "Connie," and two girls to the Bronx in a motor car calling at several saloons on the way.
Under Finan's apparently casua

questioning, say the police, Demarest said he knew that Martin Garvey, who lived at 60 Leroy street, and had a permanent job as a porter, had killed Adolph Stern.

Finan'took "his" story to headquarters. Garvey was watched for several days, and "witnesses" looked him over in saloons. They all agreed that he was the man whom they had seen kill Stern. Accordingly, last Tuesday night Garvey was arrested by McKin-ney, Finan and Slevin at Greenwich Village. He was examined by Dough-

### **AUTHORESS PRODS** M'ANENY URGES WESTERN UNION CO. NEW TAXATION

Miss Hester E. Hosford Stirs N. J. Public Utilities Commission to Probe of Big Corporation.

In a letter to the Public Utilities. Commission of New Jersey she has demanded that the rights of the public be better, more promptly and more courteously served by that corporation. The commission has promised to take up her complaint and to make a thorough investigation of the Western Union's service here. Thus it transpires that a woman has inspired the first official investigation of the conduct of a public utility in New Jersey.

Miss Hosford, who is writing a book on New Jersey's political conditions, determined to lest the effect of a woman's complaint when, she declares, her protest passed unheeded by the company after the delivery of an important telegram to her home at 1512 Valley road had been delayed.

Miss Hosford says that she did not receive a telegram making an important because the received. She asserts that she motified the manager of the local office, but did not receive a satisfactory response. Then she drew up a formal complaint and sent it to the Public of the company after the conduct of the conduct of the conduct of the company after the delivery of an important telegram making an important beginning and the company after the delivery of an important telegram making an important telegram to her home at the company after the delivery of an important telegram to her home at the company after the delivery of an important telegram making an important telegram to her home at the company after the delivery of an important te

Promptly a reply came from the secretary of the commission, Alfred N. Barber, stating that the commission would act upon her complaint. New Jersey residents are watching

with keenest interest the contest, not because this will be the first instance in which the Public Utilities Commission has attempted to probe the management of a big concern.

## JERSEY CITY BACK ON

RAILROAD MAP AGAIN

TRENTON, N. J., Oct. 4.—As the outcome of a fight started by the New Jersey State Commuters" Association the Board of Public Utility Commissioners issued an order today requiring all raill-roads running to Jersey City or Hobeket to issue commutation tickets to the outpoint from other places within the State, The railroads will also be required to publish the rates for such tickets and to file schedules with the commissioners. The order is to become effective on December 1.

Following the recent changes in the schedules of rates the railroads stopped issuing commutation tickets between Je-sey City, Hoboken and other points in the State. The result was that commuters State. The result was that committees to those cities were compelled to buy their tickets to New York or Philadelphia. This made the traffic interstate and removed the jurisdiction of determining the reasonableness of the rates from the Public Utility Commission.

Even the Irish people themselves, for all their shrewdness, are more responsive to the Irishman of romance or vaudeville than they are to the real kind, so that they are slow to recognize a realistic portrayal, and may even resent it as caricature. It is because the characters in "Rebellion" are true to life that some illusions may be disturbed and some prejudices aroused.

It is a Saturday afternoon in Junewhen the play opens, Jim and Georgia Copnor are keeping house with Mrs. Talbot, her brother. They are good Catholic, as the pictures of the Madonna and of the parish priest on the walls indicate. Jim is a drunkard, a loafer, and a dabbler in cheap ward politics. Georgia is working as a stenographer in an insurance office, and is the main stay of the family. Mrs. Talbot is sore at Jim, and upbraids him for loafing

"I don't know," replies Georgia, and e curtain falls.
It is Sunday morning in the follow ing September, and the church bell: are ringing as the second act opens.

Mrs. Talbot comes home from mass and tells about the splendid sermon Father Hervey has preached on the text, "And these twain shall be as one flesh." She announces that she has requested the priest to come to Georgia and ask for Jim's return. Georgia i not pleased, but she consents to tall with the priest. When he declares his love for Georgia she, by her silence, admits her love for him. The priest arrives just as Stevens is lesving.

Father Hervey pleads with Georgia for forgiveness for Jim and reconciliation. Jim has straightened up, he hasn't drank for a month, and he is contrite. Here is the chance to save him. Georgia refuses to yield. A trying colloquy ensues. The priest gently -for her own sake as well as for Jim's. The modern note of woman's emancipation is here struck clearly and unequivocally. It will not be surprising, therefore,

And Georgia herself can be found in every large city in this country, where industrial and social conditions are tending to the development of a new and more independent type of woman than that of the past. Jim is so familiar a type as to be beyond disputation.

The story of the play, likewise, can be duplicated everywhere. It is a too common story, but this is the first time it has been used to uncommon se, and it is doubtful whether its actual significance and its fidelity to life can be thoroughly understood and lived among, and associated with, the class with whom the play deals, and those who have had the opportunity to perceive what a power the parish priest is in the affairs of the ordinary

Of the presentation nothing but praise can be spoken. Miss Gertrude Elliott was highly effective as Georgia and carried off the critical scenes with polgnancy and power. It is a difficult role—none more difficult has been seen in New York for a long time—and Miss Elliott did it full justice. No less commendable was the Father Hervey of Fuller Mellish, who invested the aged priest with dignity, sympathy and charm. Red Sox Trounce Local Aggregation to the Tune of 6 to 4 in Sea-

The American League season came to a gloomy end at the Hilltop yester-day when 500 persons saw the Bos-ton Red Sox win their third straight game from the weary Highlanders. It inning just as Chase's men had begun to solve the mysterious Mr. Cleotte. It wasn't too dark to play the ninth inning, but Westervelt's word was

law, and that settled it.
Russell Ford pitched one of his easy
games. He made no use of the spitter, but lobbed the ball over the plate and trusted to his support. As a re-sult the Beanville crew pounded Ford when hits meant runs and by degrees they built up a sufficient lead to make the Hillmen's uphill climb a trifle too late. Cicotte, on the other hand pitched with all the energy in his makeup. Nineteen men faced himelt the first six innings, and only one safe hit was gleaned from his speedy de-livery. After that the Hillmen made five hits, only one of which was clean.

A great one handed stop of Yerkes was the fielding feature, while Dolan starred for the home team when he stole home in the eighth inning.

Wagner, who had taken a throw from the Boston catcher, carelessly rolled the ball back to Cicotte, Dolan, who was on third, sprinted for the plate first inning. Hendrickson made scratch, Yerkes sacrificed, and Speak-er was retired in clever style by Knight. Hendrickson ran home on D. Lewis' single to right, and the latter

reached third on Engle's double to left, both being left when Ford threw Wagner out. The score: Boston. A Hendrickson, rf ... Yerkes, ss ..... 3 Speaker, cf ..... 4 Wagner, 2b ..... ### KEEP YOUR EYE ON THIS

In less than a week from today the great McNamara trial will open in Los Angeles, and there is every reason to expect that what- fellow ever may be the outcome, it will mark a most important epoch in the evolution of the American labor movement.

a manner that was perfectly bonest. He merely worked ahead, performing his duties properly and supervised the work of the man himself nor that of his subordinates in a kindly yet stern manner. No fault could be found with the count of the man himself nor that of his subordinates hus tit appeared that some could be verified and most of which were set afloat by the prosecution. Public sentiment has been worked up against the accused in such adroit, underhanded ways, and there has been so little real to lay hold of, that it has been very difficult for the Socialist and labor press, with their limited means, to sustain the interest among the working class that the case deserves. Something has been done in the way of preparing for the defense, but on the whole we have been marking time, until the curtain goes up and the first act of the great drama opens.

The preliminaries we know. The kidnapping, perjury and forgery that formed the prelude are proven beyond the shadow of a doubt, in fact, have been taken official notice of by capitalistic law, consider that a closed chapter.

In vain have we called attention to these things. The capitalists

In vain have we called attention to these things. The capitalist press, the apologists and defenders of the present system, have been persistently deaf on that side of their heads. Under no consideration could they be induced to discuss these matters. Our protests were answered by a continuous stream of exasperating advice to "suspend judgment" and assurances that the accused would get a "fair trial."

Any objection on the score that a "fair trial" might hardly be expected from a biased court and a group of perjurers, forgers and man stealers was simply ignored, and the same assurance repeated. We may look the situation squarely in the face. The trial is inevitable and we must watch what it brings forth.

And let no man delude himself with the idea that there will be no "evidence," or that such as is given will be "rotten" in the dies had given way to the uncertainty sense that every reasonable person will be able at once to detect it. It will not. It will be strong "evidence." And there can hardly be catering to the redilight district. So tale to which I had any doubt that those who are manufacturing it entertain the highest hopes that sufficient of it will "stick" to accomplish their object.

For these people are experts. We have already had a sufficient taste of their quality in this respect, to get a fair line on what they are capable of. Compared to these modern experts, the "old master, McParland, is the rawest kind of a novice. The experience of the

Orchard story will not be repeated.

And now the time is at hand when every workingman should direct his own attention and that of his fellows fixedly and continuously on what is brought forth in the court. Every part of that evidence should be carefully dissected, analyzed, weighed and discussed by the working people of this land. They should consider themselves as trying the case, and should utterly discount the alleged "fairness" of those who are officially prosecuting it. And just so far as the workers do this, and let the ruling class know that they are doing it, just to that extent and no more will the accused men get a fair trial. We know what capitalist "justice" is, and we prefer

Execution shall not be done upon these men unless the evidence presented against them is so genuine and indisputable as to silence all objection. Otherwise, there are millions of us to "know the reason why."

This paper will do everything in its power to lay before the public-and the working class are really the public-every iota of the proceedings that may transpire in the case. And should it happen that such proceedings demonstrate that this is, as we suspect, a case of railroading men to the gallows this paper will do its utmost in every way and with every measure suggested as a means of deciding the immediate and future action of the working class in regard to the

And for this attitude neither the working people nor this paper needs the slightest apology. We say frankly that we suspect the prosecution; that we are right to suspect them, and that the prosecution so far by its actions has given us that right. And this regardless of what the outcome may be, even if the accused men are proven guilty beyond the shadow of a doubt. But let us watch the developments as we never have before, with all the minuteness possible and owers of scrutiny each and every one of us possess

In making this appeal we do not forget the thousand and one distractions that come into every workingman's life, the attention that must perforce be continually given to the daily recurring struggle

"line." It was Saturday night, of all day a terrible storm broke over the a pure food supply, he proposed the over us, the rudder was torn off, the establishment of a parcels post so that must perforce be continually given to the daily recurring struggle must perforce be continually given to the daily recurring struggle for bread. But this is an exceptional event, an exceptional occasion, of vast import to the workers of the country, and every possible

attention should be given to a thorough examination of it.

So, ring up the curtain. The farce—as we believe it to be—is about to begin. Let us see to it that, if farce it be, it is not transformed into a tragedy. Let us watch and be prepared to act if necessary. Now, as never before, is our utmost vigilance required.

### READY VIOLENCE

When strikebreakers are sent to any point they are sure to go armed. Those agencies which furnish men to take the places of regular workingmen are certain to look out for that. The trainload thugs sent to McComb City, Miss., consisted of men who not only had weapons, but who were apparently anxious to use them. Up to yesterday the strikebreakers had killed one man and seriously wounded three others. The reports sent out to the capitalist press said the strikers attacked the train. Yet the railroad officials say no

one on the train was injured in any way.

The trouble was precipitated by the vile insults hurled by the strikebreakers at some women in the railroad station. To these scabs a thing like this is a sort of jolly outing in which there are no restraints. Because of the important work they are doing in beating down wages or increasing hours of labor, they are highly important to the capitalist class. As the capitalists control all the "forces of law and order" the strikebreakers well know these forces will be used against the strikers only. Utter lawlescness, therefore, always prevails in the ranks of the strikebreakers.

In the present strike it looks as though the railroads had their "violence" carefully prepared beforehand. It is the usual custom to have the strikebreakers perform the acts of violence and then blame them on the strikers. That is what was done, for a record of four men shot, one fatally, among the strikers, and none even scratched among the scabs, indicates that the scabs deliberately fired into the crowd, and for the usual reason that such an action would

bring the militia to the place.

With a gang of armed ruffians and with the police authorities and the militia, the employers know that righteousness is on their side, and that if they cannot starve compliance into the strikers they can

### OLD AGE PENSIONS.

effect Editor of The Call:

arguments advanced against Victor Berger's old age pension bill by Comrades Boudin and Rubinow are irresistible. They want Berger and Ghent to make a law that will last for all time. Something like "our sacred Constitution"—a bill that sacred Constitution"—a bill that would never have to be amended is needed. Of course, Berger does not possess all the wisdom of the past and future ages as the "fathers of our country." the makers of the Constitu-tion, did. Anent the article in Thursday's Call and Dr. Wiley's "execellent suggestion" for reducing the high cost of living. The following may explain why Dr. Wiley's "execellent suggestion" in would eliminate profit.

About a year or so ago Dr. Wiley delivered a lecture at Cooper Union on "The Importance of a Pure Food Supply to City People." His discourse was very interesting and his audience was introduced into the mysteries of "rois" and "spots," "leakers," bleached flour, etc., ad infinitum.

The writer asked Dr. Wiley whether
