Long, Hard Fight for Hounded Labor Men Is Hardly Begun.

(By Laffan News Bureau.)

At the several street meetings held by the Socialist party clubs of Boston and vicinity, the speakers all made reference to the Jordan-Marsh strike, urging the public to assist the strikers by keeping away from that department store during the strike.

The Boston Central Club distributed 2,000 copies of The Call last night at the street meetings. LOS ANGELES, Oct. 25 .- Socialism was mentioned for the first time its street meetings.

The methods by which the Employ-ers' Association furnished scabs from an "employment bureau" maintained today in the trial of James B. McNamara, when Walter L. Coward, who declared he was a Socialist, was exby that association, will be made the subject of an inquiry next sunday at the meeting of the Central Labor Union. The provisions of the Strike amined as a prospective juror on the tenets of Socialism. He was finally excused by the court on the ground that he had formed an opinion that ployers hiring scabs to state that there is a strike on the premises, is held to apply to the Employers' Association, and its manner of conducting an "enithe explosion was caused by gas, his opinion having been gained not pereand its manner of conducting an "employment bureau."

These were the expressions uttered by
Mrs. Freida Ostrovsky, of 211 Division street, who looks to be nearing the seventies, who lost her daughter in the Triangle fire, at the meeting at 151 Clinton street last night, of the bereaved fathers, mothers, brothers and sisters of the 145 victims who were burned to death in the Triangle waist shop holacaust of March 25.

The District attorney, Mayor Gaynor and the other "little fathers" of the city were bitterly denounced by

the weeping relatives of the victims for not bringing to trial Harris and Blanck, the owners of the Triangle shop where 145 workers lost their snop where 140 workers lost their lives needlessly and innocently. Near-ly 200 relatives of the fire victims gathered at the meeting called by them to devise a way by which to force the District Attorney to bring to justice the Triangle bosses.

BOSS BARNES MANY TIMES IN CONTEMPT

Refuses to Answer Questions That Affect His "Private Business."

ALBANY, Oct. 25 .- Boss Barnes

concluded his testimony before the Bayne Albany Investigating Committee today. It was the general opinion that Barnes had successfully evaded nearly all questions fired at him one after another by James Osborne, the committee's counsel, and that Osborne accomplished little through Barnes' testimony except to show that the boss has much to conceal. Barnes was on the stand all of the morning session and nearly all of the afternoon session, and Osborne could get no satisfactory admissions from him upon points deemed important. In a dozen instances Barnes declined questions concerning "private business," and the committee, after consultation, declared him to be in contempt in each case.

Osborne tried repeatedly throughout the morning and afternoon sessions with every conceivable sort of a question to have Barnes tell whether he had paid cash for his \$75,000 of stock in the J. B. Lyon Printing Company. Committee of the Carnegie Trust or whether Lyon had given the stock Company, for the larceny of \$140,000 to him because of his political influ-deposited with the Carnegie, in trust, once, but Barnes was obdurate in his Assistant District Attorney John K. SAN JOSE, Cal., Oct. 25.—Simon Romero, a millionaire land owner of Monterey County, was abot and instantly killed, and Miss Bellen Queeada, the handsome daughter of Francisco Quesada, a retired politician and hanana planter at Costa Rica, was seriously wounded late last night by Manuel Garcia, a stableman employed by the Quesada family. Jéalousy was the cause. A few hours later Garcia was overtaken by a sheriff's posse, and in the battle which followed he was killed.

Garcia was desperately in love with his employer's daughter. Last night Romero escorted the young woman to a theater. On their return Garcia met them. Without a word Garcia drew his pistol and shot Romero through the heart and then turned his pistol on the girl, shooting her through the leg. She also has a scar on the left side of her neck and a hole behind the ear on the same side, which she got while being operated some years ago. When she left the house she wore a white dress, a gray coat and black shoes.

It is suspected that she was kidnapped, as some time ago there was a man arrested who refused to give his address to the police. Mary, who was near the place of arrest, said that she knew the address of the prisoner, and several men

Frank Forges, a fireman on the tugocat Naby C., who was arrested for taking city water from the Morris Heights hy-drant without a permit, was tried in the Court of Special Sessions, Part I, through the influence of the Legal Aid Society.

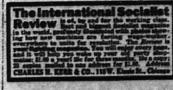

The evidence showed that Forges had been only two days employed on the tag as fireman. He had to obey the orders of the engineer and knew nothing of the requirement of a permit when he was ordered to take the water. The court cautioned the inspector of the Water Department to be more careful in the future in making arrests, as an innocent man had been kept in jail four days.

CAROLA WOERISHOFFER AIDED BRYN MAWR

The will of Miss Emma Carola Woeris-Cannonsville, Delaware County, this State, from injuries received when a car she was driving overturned, leaves \$750,-000 to the trustees of Bryn Mawr Col lege, of which she was a graduate, \$30,000 to the Isabella Heimath, and \$10,000 to the Colleges' Settlement, a Massachusetts corporation. Her residuary is left in trust to her mother, Mrs. Anna of 11 East 45th street, after her death to three nephews living in Vienna.

Miss Woerishoffer was the daughter of Charles F. Woerishoffer, a successful Wail Street speculator and member of the New York Stock Exchange, who left her a fortune when he died in 1886. She was a granddaughter of the founder of the New Yorker Staats Zeitung. She took a keen interest in philanthropic affairs, and was active in improving the conditions of women workers. She worked in sixteen different laundries to investigate the condition of the laundry workers, and was active in the Women's Trade Union League. Miss Woerishoffer was the daughter o

DO AN TOWN SOCIALIST MEETINGS ARE WINNERS

If the meetings held by the Socialist party in the downtown districts at Franklin Statue and at Broad and Wall are any indication of Socialist sentiment, the Socialist party in New York can expect a large increase of the Socialist vote.

These meetings have become synonymous with large and enthusiastic audiences. Yesterday's meeting was no exception to the rule. Frank Hubschmidt, of New Jersey, the first speaker made an eloquent plea to his audience on the ground that we had departed from the fundamental principles of American government as ex-

ican Independence, Charles Solomon, who followed him knocked the great man theory in poli-tics into a cocked hat, and urged the political and industrial organization of the working class under the ban-

WASHINGTON, Oct. 25.—The Supreme Court of the United States to-day heard arguments in the famous Alaskan coal land case, in which Charles F. Munday and Archie-W. Shields were indicted for conspiracy to defraud the government of lands estimated to be worth \$10,000,000. Solicitor General Lehman argued technical questions of law involved.

The defendants were represented by E. C. Hughes and Charles W. Darr. of Seattle. The point at issue is whether the United States Circuit Court for Western Washington had power to dismiss the indictment against the defendants.

THE "DISABILITIES" OF WOMAN

The Socialist party in Elmira nominated for the office of Supervisor a woman, Mrs. Minnie Clarke. The nominators were all males, over 21 years of age, not paupers or imbeciles, but free men exercis-ing their rights as electors. Mrs. Clarke had not purchased the nomination, nor had she done anything else contrary to the election

The caucus at which she was nominated was held in accordance with the laws, and everything was regular and legal. Those who took part in the caucus had a right to do so. They had a right to nominate that person whom they judged would be best suited to the office in question. But the courts have decided otherwise. Mrs. Clarke is not permitted to have her name on the official ballot.

It is a theory that the primary or caucus is held in order to allow

those affiliated with any given party to show their preference concerning the person who will give best expression to the ideas of the party. The person so selected must be a member of the party, must be in sympathy with party ideas, and must be willing, if elected to office, to fight for those principles. Mrs. Clarke is. But the learned County Attorney, Thurston, has officially decided that she will not be permitted to do so. Furthermore, those who nominated her in the primaries will not even be permitted to vote for her. She was choice, but according to County Attorney Thurston, they have not the right to choose.

This is a matter that goes far beyond Elmira and Chemung County. It is such an absolute assault on Socialist ideas that it should be taken up everywhere and a determined fight should be sade to relieve our women Comrades from the degrading position in which they are placed. It is not merely that Mrs. Clarke has been deprived of a manifest right to represent those who nominated her, but that the ones who nominated her have also been deprived of the right to select the person they considered most competent

to represent their ideas.

In the past the Socialist party has occasionally placed the names of women on the ballot. Last year Mrs. Bertha Fraser ran for the office of Secretary of State. There was no forcible objection nade to the nomination, and her name went on the ballot. Possibly the "authorities" figuring that she would not be elected, decided that

they would graciously "permit" her to run.

If this was the case, the question comes up, What if she had been elected? Would they have permitted her to assume office? You may take it as a self-evident fact that they would not.

You may take, also, as self-evident that if they will not permit law a bit farther, and they will disqualify the men, if they pos-

In fighting for the right of a woman to go on the ballot, in fightg for the right of a woman to take any office to which she may elected, we are not fighting for the recognition merely of the right of a sex. We are absolutely fighting for the salvation of our whole organization. We are fighting for Socialism.

There is no doubt that both Democrats and Republicans would joyously exclude from the ballot every Socialist and every workingman. But to the present all they have been able to do is exclude the women. But now the authorities, in the wisdom we have conferred on them, have advanced a step farther. They have declared serf as they possibly could obtain. that we may not vote for a woman, even though we in our wisdom

should deem it advisable.

Doubtlessly the Socialists of Elmira knew what they were doing when they nominated Mrs. Clarke. But they did not know they were doing a sinful, illegal and reprehensible thing. They did not when they nominated Mrs. Clarke. But they did not know they a sinful, illegal and reprehensible thing. They did not the interests of the masters to get as a small fee, which is used to pay the know the sex of the person for whom they were going to vote, and much as they could for as little convergences of the delegates. Therefore, it took the intelligence of the County Attorney to set them right

While, possibly, this may seem an inconsequential sex distinction and disability, it really strikes deep into those affairs that were and kings.

considered safe. If a candidate may be disqualified because she is interests. a woman, why cannot a candidate be disqualified because he is a man. Only a local official knows—but the Socialist party may as well find out. It may as well know what are the real qualifications of its candidates, and it may as well fight to the limit any attempt to disqualify them. In the present instance there should be no back ing down on the issue. Mrs. Clarke was nominated, and though she is not permitted to run this year, the Socialist should make such a fight as will prevent the repetition of the insult.

A MEETING THAT SHOULD BRING RESULTS

A MEETING THAT SHOULD BRING RESULTS

Tomorrow night in the New Palm Garden, Sackman street, near Liberty avenue, Brownsville, there will be held one of the important meetings of the campaign. Charles Edward Russell, B. Feigenbaum, Fred E. Martin and Meyer London will be the speakers.

The Government of every nation on a class struggle; he knows that his interests as a workingman is not the same as the interests of the business men. He knows that no party can class to perpetuate the present system. Every political party that supports the present system, supports the interests of the exploiters of labor.

The Democratic and Republican employers have formed associations.

The 23d Assembly District is one of the most progressive portions of Kings County, and its population is largely made up of arti-cans, of people who have to work for a living.

During the last few months they have been engaged in dis-tributing literature and in house-to-house canvassing. Through the present meeting they hope to clinch much of the work they

have done.

Last year's vote was encouraging, though not what was desired.

This year it is expected that real results will begin to show, and there is a chance of breaking the dead, monotonous news of no re-sults by the election from this district of a man to Albany. So far out-of-doors meetings have been highly successful. But this meet-ing should be made a deciding point. It should be one that will ing forth the largest audience ever drawn to a political meeting. And it is up to the Comrades to make it so.

THE PROPER WAY OF DETECTING

When William J. Burns started out hunting "criminals" the first son he engaged was a press agent. He felt that he might as well people know what he was doing. Far be it from him to work the dark when the light of newspaper publicity and the lecture form were so much more remunerative.

Long ago The Call nailed this particular feature of the Burn

nat of creating unfavorable estimation of the men aga som he was working. But it evidently was a good stroke of busis policy, even though it may be looked upon as a dirty method.

The has received more publicity than any man previous to him

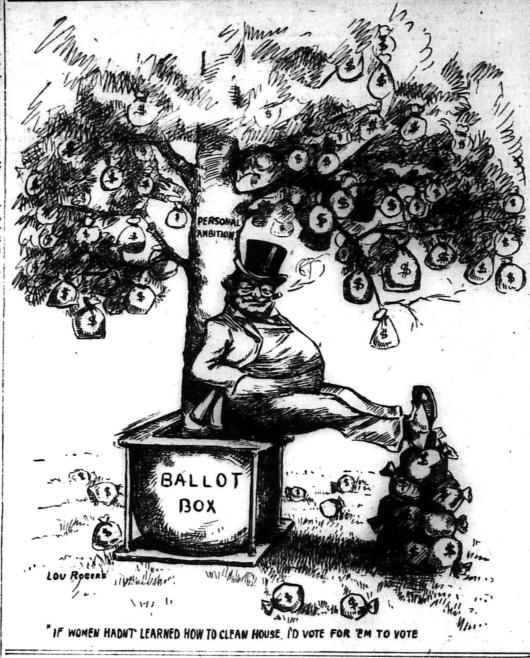

But, of course, Burns was forced to work according to his lights d conform to his ability. In following this out a few lies were

conform to his ability. In following this out a few lies were essary, and he lied most outrageously about Debs.

Now, if he could lie so apparently, so brazenly, so mercilessly, inst. Debs, who is not on trial, what can he do in the case of McNamaras, who are on trial? If he has the raw effrontery assert that Debs instigated a conspiracy against his life, what will de against a union when he is paid for doing it?

From the time Burns began to talk, through the period when has himself interviewed, and through the further period when was glorified by Harvey J. O'Higgins, up to the present, when a on the lecture platform appearing before college students, there not been a moment when it was not apparent that he was lying. The Burns method differs from the ceductive detective method

The following appeared recently in

local paper in Camden, N. J. Perhaps the fact that it was so far away from Milwaukee led the capitalistic editor to think that no one would know the difference and it would count as a knock against Socialism,

Capitalistic editors should remember Socialism and Socialists are where. The Comrades in Camden sent us the editorial squib which I present here, together with the facts

Convicted of petty grafting, the Chief of the Milwaukee Fire Depart-ment has been summarily dismissed

He was charged with bribery; with using his office to further political aims; with coercion; with insubordination, and, worst of all, with incompetence.

Milwaukee has had in the last few years some very serious fires. The loss of life of firemen has been appalling at times. In some cases several firemen were killed at each fire. And while the people were willing to was gaining ground in Milwaukee that the loss of life could not be accounted for on any other basis than that of

case.

Who will be the next to try a whirl at the Milwaukee administration?

He tried that thing on Debs, and the comeback was instantaneous, and doubtlessly disconcerting.

The assertion that Debs had tried to get 200 or 20 or 2 men to kill Burns was a distorted idea that could be born only in the mind of a maniac. Debs is, first of all, a sympathetic individual. Secondly, he is an intelligent human being. He knows how to fight the battles of his class. He knows that, in spite of present appearances, Burns is an asset in that fight. He knows that Burns, much as he desires the contrary, is going to help that fight along. He knows that Burns is the big asset of the defense in the McNamara case. So why should he bother about him or have any animosity toward him? Debs knows, as every other Socialist knows, that Burns has most magnificently reduced to an absurdity all conspiracy against the working class. A gang of navvies were employed on a railway contract removing earth with wheelbarrows. While proceed-ing with his work one of the navvies noticed that the wheel of his bar-row was squealing terribly, and to put a stop to the noise he turned the barrow over any

I wish to express my indignation of the carelessness of those persons in charge of Saturday's Debs meeting in selling several hundred more general admission tickets than the hall could possibly hold. If a national secretary a business or personal conduct is such as to reflect discredit on our party, the N. E. Now, in the first place, no Socialistic ever pretended that Socialism was an infallible panacea for all official corruption. Much less do we hold that the capture of one city would put an end to the long drawn debauch method of selecting an N. E. C. hy

But our Camden editor evidently scatter the membership over the entire country, whereas our present N. ling on in Milwaukee. The Fire Department of this city is under the control of a commission of five members, only two of which are Socialists.

I consider that the best interests of our party demands that this committee be made representative of all sections of the nation. The necessity of frequent reappointment may be raised as an objection to this plan and it may look formidable. So the merit of the plan hinges on the answer to this question: Is a widely distributed representation and proportional representation worth its cost? I think it is.

THE CONSPIRACY OF CAPITAL

In the sluggish struggle of its last convulsions, in the crisis of a decay-ing capitalist system, the black hand ing capitalist system, the black hand of the master class is attempting to play their last trump card in a futile effort to annihilate the labor movement of the United States. As in its frenzied quest of exploitation of the masses through servile legislators, this master class has sought by every imaginable ingenuity of unscrupulous individuals who, with one hand stretched out for the tainted goid their masters offer, are ever ready with the other hand to do the dirty work they demand of them; and thus in their last stand against the rising tide of Socialism, these conspirators have, in the derkness of the night, planted their decoy in the State of Indiana and thrown up their last line of trenches in the fair State of Canfornia, where labor is now engaged in the state of the master.
