

"A GREAT CONVENTION."

California "Socialism" Pictorially Embalmed For the Edification of Class Conscious Workingmen.

Los Angeles, Cal., Jan. 10.—The people of Los Angeles may again breathe the pure and fresh air, for the "great socialist" convention is over, and the delegates scattered to the four corners.

True to their nature of confidence men they once more go on record as trying to pose as the Socialist Labor Party.

The S. L. P. Propaganda hall is in the same building as that in which the "great socialist" convention was held.

The convention, which lasted till Jan. 4, was called to order on the morning of Jan. 1, 1902, by little Jimmy Roach.

According to rules and regulations each session was to be opened by the singing of the workingmen's "Marseillaise," so at 1:30 an attempt was made to sing.

Holmes of "different tactics" fame got the floor, and told the delegates that he knew that they knew that the men who join "Socialist parties" are not all honest men.

This woke fakir Beddie, who evidently had been dreaming about collecting dues, or conducting strikes and boycotts that have been failures.

One old man, who took to be a Christian, but says he is a "socialist" now, thought they ought to take lessons from the Free Masons and the Catholics.

After peace was restored and the sergeant-at-arms had explained his troubles to the chairman the chair again called for business.

After the convention had again assembled, the committee on constitution and resolutions presented their documents and the constitution was read.

Things moved along rather smoothly, and section after section was passed without comment until Thomas Beresford, of book-writing fame, introduced a substitute for one which read the same as Sec. 20, Article II, of the S. L. P. Constitution.

Things moved along rather smoothly, and section after section was passed without comment until Thomas Beresford, of book-writing fame, introduced a substitute for one which read the same as Sec. 20, Article II, of the S. L. P. Constitution.

This met with great opposition from those who wanted to be "free" to do as they pleased regardless of party principles.

One Kangaroo who believes in a higher plane than that of the different women's clubs would be interfered with. Another thought it would interfere with his fraternal

order, and numerous other arguments which in themselves had no meaning. Dr. Stevens thought it would be too narrow for an organization that "expects" to "take in" the whole country.

Then a motion to adjourn was before the house. But notwithstanding that it was 12:30 o'clock the majority were so muddled that they voted it down.

One of the delegates told the writer that there were a few in the organization who knew what Socialism meant, but that the majority of them were nut-heads.

Dr. Stevens took the floor and tried his hand at oratory, and by shouting long and loud, and asking many awkward questions made it known to "this honorable body" that it would not be "socialistic," it would not be "brotherly," not even "Christlike," and above all it would not be "democratic," to shut them out.

Higher plane Spring next took the floor and showed the leading bunco steers that he had some ability as a spellbinder, and filled the hall with silver-tongued oratory.

On the morning of January 3 the constitution builders were again assembled for the purpose of stealing what they could from the constitution of the Socialist Labor Party.

question Constitution Doctor Stevens made the discovery that the whole discussion was out of order, and that there had been two hours of time wasted.

At 1:30 p. m. the brightest stars of the Kangaroo Social Democracy of California were again assembled, and the chairman once more announced that the convention would proceed to do business.

The first question was with regard to keeping men out of public office until they had been members of the party for one year.

While the proxy vote was being taken a "dear comrade" dropped in, and made it known to the other "dear comrades" that her husband would not be present.

The next question was in regard to patronage, going out of the party for printing and publicity, and Thomas Beresford of book-writing fame told about the great amount of good his books have done.

Higher plane Spring talked so loud in favor of this that even his "dear-old comrade," Fisher, could easily understand what had been said without the aid of an ear-trumpet.

THE DAILY PEOPLE.

The attention of all workmen is called to the Daily People. It was established on July 1, 1900, by the Socialist Labor Party.

THE DAILY PEOPLE IS THE ONLY ENGLISH SOCIALIST DAILY PAPER IN THE WORLD.

It is the property of the Socialist Labor Party, and is the organ of the militant working class of America. It is

OWNED BY WORKINGMEN. EDITED BY WORKINGMEN. SUPPORTED BY WORKINGMEN.

The mission of the Daily People is to educate the working class in the principles of Socialism to that point where they will march to the ballot box as a class, annihilate the capitalist's system of production, with its idle capitalist class on the one hand and its starving working class on the other, and proclaim

THE SOCIALIST REPUBLIC.

a republic in which those who wish to live by their own labor shall have abundant opportunity to live, while those who wish to live on the labor of others, as the capitalists and their parasites live to-day, shall be given the same option the capitalists now give the working class—the option to

GO TO WORK OR STARVE.

Every workman and all other honest citizens should read the Daily People. Capitalism is tottering to its grave. The banner of the Social Revolution is already unfurled. The forces of Capitalism and the forces of Socialism are lining up, and when the time comes for the

FINAL TEST OF STRENGTH.

the working class must be educated, organized, and disciplined. Educated, organized, and disciplined, nothing can keep them from victory. The Daily People is this educating, organizing, and disciplining force. Every workman and all other honest citizens should read it.

WAR IN GLASS TRADE.

The Trust Has Close Relation With "Labor" Organization.

Pittsburgh, Pa., Jan. 15.—The indications, and the opinions of men in the window-glass business, are that a trade war can hardly be prevented; that the many meetings held within the last three weeks have only widened the breach between the factions in the business, and that by Friday the battle will be on.

To-day a meeting is being held in Pittsburgh between the representatives of the American Window Glass Company, the Independent Glass Company, and the Federation of Cooperative Window Glass Manufacturers. No agreement is expected. If a conclusion is not arrived at the manufacturers to-morrow will meet the representatives of the National Window Glass Jobbers' Association, who have been holding off a contract for 750,000 boxes of window glass, worth in the neighborhood of \$5,000,000, awaiting the result of the trade negotiations.

No more peculiar industrial and commercial problem ever confronted manufacturers than the window-glass people now face. The competition between the factions is not only for the market, producing capacity being one-half greater than the nation's consuming capacity, but also competition for workers, there being a third less of these highly skilled glassworkers than there are places to be filled. The United States now contains 3,740 pots for the manufacture of window glass. Of these 1,600 are controlled by the Trust, 950 by the Federation, and 900 by the Independent Company. The remainder consist of out of date plants and concerns which are either isolated or do not interfere with the market owing to having special outlets for their production.

The National Jobbers' Association is tied up with the Trust. They place contracts several times a year for several months' trade, and obtain special prices. Last year after a fight the outside concerns formed the Independent Company, and agreement was made with the American that the latter should receive 60 per cent, and the Independent 40 per cent, of the work of the jobbers' contracts. This year the Independent Company objects to a renewal of the agreement with a less percentage for both, and the inclusion of the co-operatives, but the latter must be reckoned with.

As to the labor feature. The competition for glass-blowers is keen, and enormous inducements have been made by each side to retain their men. Why this unusual state exists can be understood when it is explained that there are only 2,400 blowers to operate the 3,740 pots, a blower to each being required. The workers' organization have always been able to keep on Belgian blowers who have attempted to emigrate here. The relation between the Trust and the "labor organization" is remarkably close, but it was rendered necessary to the Trust in order to retain its workmen. The independent company is entirely excluded by the Burns organization, which, by the way, has a treasury fund of \$750,000, and is the tightest "labor organization" in America.

Plans for the almost certain trade war have been carefully laid. The independent company figures on retaining a number of its men and securing dissatisfied ones from the Burns organization and to bid for the trade by a sudden cut in prices. On the other hand, the American company, with a large surplus, and earnings from gas and oil lands sufficient to pay all the dividend on its four million of preferred stock, is figuring on forcing a compromise by a drop that will place manufacture near cost, and on making a raid on the workmen of the independent company, which will materially reduce the number of blowers in its factories. Glass stocks have already felt the uncertainty. American Window Glass common, at 59 two weeks ago, is ranging in the neighborhood of 50, and issues of the independent concerns represented in the independent company have depreciated greatly in value.

VOLCANIC ERUPTIONS TO ORIGIN.

Has it not struck the readers of the public press that volcanic eruptions in Nicaragua have of late become exceptionally frequent?

THE "SURVIVAL OF THE FITTEST."

There is a certain argument that the employing class and its apostles love to make in favor of the capitalist system with more than ordinary gusto.

HOW DOES THIS TALLY?

News comes from Europe that the Roman Catholic hierarchy in Italy is undertaking a vast propaganda in favor of "Catholic Socialism."

WHOSE GOVERNMENT IS IT?

that the American capitalist has in mind, is the "superior dumbness" of his workers, which makes it possible for him to utilize invention and labor-saving machinery in such a way as to undersell his European competitors.

On the other hand, it is equally notorious that the American workingman is quick to detect improved methods of work. His mind is quick at discerning inventions. But equally notorious is the fact that the American workingman who profits by this superior efficiency is a rare bird.

The process has gone so far that, as recorded in these columns, there are companies, in whose contracts with their employees, the latter, "in consideration of employment," surrender in advance all inventions they may make.

The praise, bestowed by the American capitalist upon "his workmen" on the score of their "superior efficiency," partakes essentially of the nature of the cooling breeze with which the vampire, by gently flapping his wings, seeks to quiet by pleasing the animal whose blood he is sucking.

THE HANNA-GOMPERS PARTNERSHIP.

In an article, commenting upon certain recent strikes ordered with the design of securing the discharge of men who worked too rapidly, the "Evening Post" declares:

A LESSON, ALL THE SAME.

After being locked up about twelve hours and receiving a second charge from the Court, the jury before which was tried the libel suit of the Socialist Labor Party against the Brooklyn "Standard Union" brought in a verdict for the defendant.

business in the several Boroughs of the City of New York, upon their real and personal estate for the year 1902, and that they will on or about January 13, next, issue from their department formal notices in relation thereto.

On the 13th of January, 1902, your personal estate, merchandise on hand, bills and accounts receivable and bank balance liable for taxation in the State of New York should be as SMALL as possible and your debts as LARGE as possible. Yours very truly,

The above is a literal transcript of a circular signed "Charles E. Kilmer." The only omission is the name of the firm that the original of the above copy was sent to.

Comment should be unnecessary, when from such sources, such efforts are put forth to coach capitalist concerns how to dodge taxation by pointing out the taxables that should be made to appear "as SMALL as possible," and the things that should be made to appear "as LARGE as possible."

who goes out into private houses to marry an Anna Gould, and who talks so wisely on Socialism and economics, could be wrong?

Uncle Sam and Brother Jonathan.

BROTHER JONATHAN.—To the devil with the Trusts! UNCLE SAM.—So say I, if you mean the stockholders.

Political and Economic.

"Puck" is supposed to be a comic paper, and it waxes funny in a Depewesque manner. Across the bottom of a page in large type it has this ghastly announcement: "Begins right. Ends right. Right in the middle."
