

World War Veterans Fighting Fascists Here

(Special to The Worker)

MINNEAPOLIS, Minn.—A campaign has been launched here by the National Headquarters, World War Veterans, to counteract the poisonous Fascist propaganda now being spread thru the United States. The position of the World War Veterans is set forth in a manifesto addressed "To all Lovers of Freedom" as follows:

Dear Friend: The Fascists are organizing in America! Do you wish to be successful?

Musolini's 15th Century conditions have spread to the United States and now exist in increasing numbers. Colonel Alvin Owsley, commander of the American Legion, recently declared: "We are not going to let Fascism take things into its own hands—fight the thing as it is."

Do not forget that the Fascists of Italy are in Italy, the United States, and that Musolini, the new premier was the commander of the Legion the executive of the new Italy. Perhaps more notorious is the secret and clandestine organization, the Ku Klux Klan, with its "supra-government" supported by powerful punishment, that prohibits the free play of opinion, favors racial and religious strife, and seeks to drive America into a new era to rule another to obey. They call "one hundred per cent Americanism." What is the meaning of this? It is the meaning of the membership drive for the American Legion of the United States Service was being urged to arrest him, he complained that he was being persecuted to arrest me, and if so, I shall not be constrained longer to live the dog's way of life. I have a revolution, for I believe the Klansmen would stand by me. A more graphic example of this kind of organization occurred in Arkansas where a few hundred "citizens" seized by force of an entire community, with lynchings and strikers, drove out the railroad and arrested their families and sympathizers. They were regularly elected officials, and now proceed to the world that organization labor is forever expelled from Harrison, Arkansas.

The ex-soldier swings the Fascist club in Italy. Shall he swing it here? Here are three million unorganized ex-servicemen. The National Reactionary organizations, subsidized by bankers and chambers of commerce, are trying to reveal them under their control. With strong financial backing they are enabled to print their lying propaganda through numerous publications. These poisonous Fascist armies may make plausible pretense, but they are "one hundred per cent Americanism" but their every action is filled with mob violence against freedom of every school. Whoever pretends to be a "one hundred per cent American" is a traitor to the divine right of present industrial and political dictatorship is made manifest as "red" and "black" Americanism," held up to an unthinking public as an immoral degenerate, and a coward of ex-servicemen. It is time to believe that such a beastly creature has tar and feathers of Judge Lynch's noose.

There is one exclusive organization that declares itself for industrial and political freedom and real labor abolition. America. We of the World War Veterans stand up to our principles. We are clean. No no banker contributes to our welfare, no government directs funds to our treasury. Whoever joins the American Legion gains distinct advantages—social, certain, industrial, political, prestige. Whoever joins the World War Veterans sacrifices himself for an ideal. We stand firm against fascism, but hampering by poverty, we are unable to launch a counter attack unless the progressive spirit of the nation is aroused to reinforce us.

Are we to remain silent while the net is spread? Shall we squirm helplessly under torch and rope, machine guns and bayonets? It shall we organize and education, split their guns and bayonets, and forestall another Musolini dictatorship established by force of arms in the name of "one hundred per cent Americanism." We are a "representative government" and "one hundred per cent Americanism" but we are not the slaves of a few million unfeeling freedom of the means and industrial might to hold the masses in chains, excepting slavery.

The ex-soldier carries the Fascist gun in Italy. The ex-soldier carries him the same gun here. Every love of justice and freedom must assist us with a counter-battle march, an educational campaign among the ex-soldier men.

Help us save the nation from disaster and regression to medieval feudalism. Back us to the front for liberty, justice and progress.

Fraternally,
HERBERT A. SUMAN,
Acting National Political Director,
World War Veterans
By authority of
JACK BRADON,
National President, W. W. V.

The Struggle of the Miners

Editorial
Governor Sweet, of Colorado, has ordered the State Rangers disbanded. This is the only step that has been taken to date to prevent the strike of the Standard Oil and United States Steel corporations. The strike would be getting the class struggle in this state down to fundamentals. We shall be glad to report any inclination on the part of Governor Sweet in this direction, although we may be rather skeptical.

Every militant trade unionist stands aghast at the tyrannous measures used by the high officialdom of the United Mine Workers of America in driving the Fayette County, Pa., strikers back under the aegis of the Standard Oil and United States Steel corporations. We sense a note of protest in the declaration of "The Advance," official organ of the Amalgamated Clothing Workers of America, when it declares:

"Miners in Coalfields (Fayette County, Pa.) have been advised by the officers of the United Mine Workers to return to work. The advice is tantamount to admission of defeat by the Union. It means that the masters of the Windber and the Standard Oil mining properties are to have their way with the lives of the mine, women and children in the next three months."

It is very significant, as pointed out in THE WORKER last week, that the Connellsville miners were sacrificed on the altar of capitalist greed while the mine officials were sitting in conference with the mine owners in New York City. The Pittsburgh coal mine owners were there as "observers."

It is very significant, as pointed out in THE WORKER last week, that the Connellsville miners were sacrificed on the altar of capitalist greed while the mine officials were sitting in conference with the mine owners in New York City. The Pittsburgh coal mine owners were there as "observers."

We, therefore, draw the conclusion that the Lewis administration, in its war upon the Fayette County coal miners, is just as it did in the case of Howatt and the Kansas coal miners, just as it did in deserting the non-union fields in the Cleveland agreement, just as it did in ignoring the coal miners' contributions to the war effort in Canada. In the words of the Amalgamated Clothing Workers' official organ:

"The struggle of labor for freedom and self-direction is a war. The time has come when the workers must fight for their freedom in the war. Even if it were a battle, to lose it would not be to lose the war. On the contrary, signs are not lacking that the battalions of time, the battalions of time are on the side of militant labor. The forward-looking workers, and the Fayette mine workers in the van, must fight for their freedom, for their families, but in the struggle against their oppressors, the mine owners, and against the chief allies of their oppressors, the reactionary and traitor officialdom of their own organization."

Porto Ricans suffering under American imperialism are to be "investigated" by a congressional committee. That will be a nice little investigation to the world that organization labor is forever expelled from Harrison, Arkansas.

Mr. Lewis Smoked Out

John L. Lewis, president of the United Mine Workers for the time being, has stood so straight in his consistently reactionary position that he has fallen over backward. He took the back tumble on the question of nationalization of the coal mines.

Mr. Lewis has stood so straight in his consistently reactionary position that he has fallen over backward. He took the back tumble on the question of nationalization of the coal mines.

Effort to Uncover Burns Activity in the Michigan Raids

By H. M. WICKS
The latest move made by Frank P. Walsh, as counsel for the Communist Party, in the Michigan raids, is an attempt to uncover the activities of the notorious William I. Burns, head of the investigation department of the Department of Justice, as his private detective agency, Walsh, wants to know from whence the funds came that enabled Burns' agents to conduct so much time in the framing-up of evidence against the victims of the raids.

It has developed that one Francis Morrow, who attended the meeting in Michigan, under the name of Francis Ashworth, of Camden, N. J., and Philadelphia, Pa., is a Bureau latel operative and a great pal of the Michigan raids, is an attempt to uncover the activities of the notorious William I. Burns, head of the investigation department of the Department of Justice, as his private detective agency, Walsh, wants to know from whence the funds came that enabled Burns' agents to conduct so much time in the framing-up of evidence against the victims of the raids.

Arkansas Assault Upon Union Men Is Still Unpunished

By H. M. WICKS
It is evident that no serious effort is to be made to bring the organized assault of Arkansas to trial for the murder of C. R. Gregor and for other depredations perpetrated upon the union men and their families in the Ozark region of that state.

By Samuel M. Compton, president of the American Federation of Labor, comes the information that positive information is at hand proving that the Missouri and North Arkansas lynch mobs that will be sent to transport the mob that killed Harrison, Ark., and surrounding country at the time of the murder, wholesale deportations and lynchings instead to the complete terror established against union men and their sympathizers.

"Mother Europe" Shows Moscow Art Players in New Role

By JOHN DALE
We are told by the best brains of capitalism that communism is destructive of art. It would be well for these professors, pulpiteres and press and magazine editors to witness the Moscow Players' presentation of Anton Tchekhoff's "The Three Sisters" at John's Sixth Street Theater this week.

BAZAAR MASK BALL BAZAAR

RUSSIAN HAND MADE TOYS AND ART WORK

GORGEOUS MASK BALL

Will be given by the
BRONX BRANCH, FRIENDS OF SOVIET RUSSIA

CLAREMONT PARK PALACE
170th Street and 3rd Avenue

SATURDAY NIGHT, FEB. 3rd
Prizes awarded for the best masks

TICKETS: Day Time 50 cents, after 5 P. M. 75 cents

Entire profits for the Orphan's Homes of Soviet Russia.

Foster Tells New York Labor that Trade Union Educational League is Moving Ahead Fast

(Continued from Page One)
Foster didn't hold. He just wanted to see his subject the prospect before...

the name of the T. U. E. L. and was using it for a local organization.
Foster also attacked the efforts to offer "protection" as a substitute for amalgamation in the metal trades...

One of the things that Foster said, the militants were getting their way on an industrial union in the building trades...
Foster said "The League" was planning to hold off organization work among the building workers...

working men and women. The League may be organized by the top of the workers...
Foster said "The League" was planning to hold off organization work among the building workers...

to be an educational and not a legislative organization. He said that legislative matters must not be sponsored by "The League" but must grow out of the unions themselves...
Foster kicked holes in the contention that the conservative is constructive, while the militant must necessarily be impractical...

"You must know every crave in the psychology of the masses," said Foster. "We know those craves and we know those craves of the masses without causing or surrendering to reactionary principles..."
Foster then went on to show that officials must not be depended on to fight for amalgamation...

It is developed that three steel strike organizers were on the platform of this meeting. Besides Foster, there was Joseph Manley, eastern organizer of "The League" and S. T. Hammerslag, of Chicago, who is in the East for the Labor Defense Council. Joseph Zacc, one of the Michigan rail victims, also spoke for the Labor Defense Council. Reports were made at the conference by the representatives of numerous local T. U. E. L. groups, showing big progress in their work.

Progressive Miners of Fayette County, Pa., Check Outlaw Movement, Perform Great Service to the Organized Labor Movement

Let the workers of America know that the capitalists and their lackeys in Washington will turn these beautiful laboring workers into the armies of foreign countries.

Under Lock and Key

It is only now that we are getting full reports of the arrests of Communists in France preliminary to the French imperialist invasion of the Ruhr. It is shown that the chief objectives of French imperialism were to put as many Communists as possible "under lock and key" during the initial stages of the invasion, in order to insure civil tranquility at home.

Among those arrested, in addition to Marcel Cachin, editor of the Communist daily, L'Humanité, were Mounoussou, secretary, Revolutionary Confederation of Labor; Trient, chief propagandist of the Communist Party; Marrane, Larigues, Pierre, chief propagandist of the Communist Party; and the Communist daily, L'Humanité. All Communist Party, Marrane, Larigues, Pierre, chief propagandist of the Communist Party; and the Communist daily, L'Humanité.

George Slocum, writer in the London Daily Herald that the French police are also looking for five other Communists, among them Genard, secretary of the Left Wing Federation of the Railworkers. Evidently the French statesmen are not as positive as our own capitalist press that the Communist railwaymen are not strong enough to prevent French workers being sent into the Ruhr to take the places of striking German railway workers.

These Communists are now locked up in the La Santé Prison in Paris, the French equivalent of the Brixton Prison of Peter and Paul, in the Petrogard of the Russian czar. They are charged with "acts likely to injure the French government at home and abroad."

Not even during the gloomy days of the great war did French capitalism involve the terror against opposing and dissenting elements that the now calls to her aid against the Communists. It is this Communist opposition in France that will be the greatest aid to the German workers who are fighting themselves strong enough to strike for a German Soviet Republic. May the French workers be endowed with the same strength in the same hour, and their Communist spokesmen will not have to pine in vain.

Attorney General Daugherty, and his chief sleuth, "Bill" Burns, have been officially washed by the house of representatives of these two enemies of labor. We wonder what happened to that "balance of power" through which the "progressives" were going to control congress.

Scotching the Herrings

Only one excuse has been advanced by the citizen mobsters in Arkansas for the murder of C. A. Gregor and the flogging and nobering of numberless strikers and their women and children. This feeble attempt at justification is based on the charge that Gregor and other strikers were "red" and "foreign" spies, against the state of Missouri and North Arkansas Railroad.

Thus these assassins inflicted the railroad owners devastated from the usual charge of train wrecking, strike-breaking, and the agents of the bosses during the recent show-up, strike, especially at Gary, Ind.

But some kind of a stinking herring had to be drawn across the trail of working class indignation of the railroad protesters. So there are today multitudes of workers, readers of the capitalist press, who believe that Gregor and his fellow strikers are guilty of the crimes charged against them by their capitalist foes. Thus, the "red" and "foreign" spies, who were hanged, were hanged with the approval of the bosses' sheets.

Organized labor must do everything possible to scotch this theory, to counteract the propaganda of the employers, by bringing to light the truth about the case.

It has now been shown that Gregor could not have committed the burning charged against him. It was as work far from the railroad tracks as soon to be a legislative investigating committee by some keepers and supporting witnesses. He has also been shown that at least two bridges were set afire very recently by live coils that fell from the fire boxes of engines.

This is only part of the story. But it should be enough to show that Gregor's "crime" was the crime for which he was hanged, was loyalty to his class. To be sure, the murderers were just as loyal to their class, the capitalist class. Hence the class was the motive for every worker to settle for himself is "ON WHICH SIDE? AM I REALLY WITH THE GREGORS, FIGHTING ON THE SIDE OF THE WORKERS, FOR MY CLASS?"

The Ten-United "Socialists"

After more than ten years, the traitors to Socialism will make an attempt to use the pulpit on the Second Socialist International at Hamburg, Germany, May 21, in an effort to revive it through the aid of the Vienna and London groups, which are Imperial Socialist Party is abolished and the Second (London) International.

The last congress of the Socialist International was held at Bern, Switzerland, in 1912, when the Vienna and London groups, together with all capitalist wars. But it is confessed in the call for the Hamburg Conference that "The Socialist International was destroyed by the war," yet all parties are invited to accept, "a re-organization of the labor and socialist parties which was not only a legitimate instrument of peace but as absolutely essential during war."

In spite of the tremendous drift of Socialist elements into the Communist International during the last five years, there are those left in the Vienna and London groups that are keener of an "International" based by Vandenberg, Netherland, Henderson, Thomas, and even Louder and Lee.

These are the "Socialists" who not only supported the "civil peace" with capitalism during the war, but who even now urge an "industrial truce" with the bosses, a truce that can only be bought at the price of submission to the capitalist offensive against labor.

Thus the Swiss Socialists are in open revolt against the proposed "unity" congress, the call for which attacks the Communist International, rather than seeking a united front with the only bona fide world organization that the workers can rely on.

These elements within the Vienna and London groups, they want something more than pledges to consider the recent action of the majority Italian Socialists and link up with the Communist International, in response to its appeal for a united front of the world's workers published in these columns last week.

Joffe in the Far East

The Soviet envoy to China, A. A. Joffe, must be getting satisfactory results in the Far East, if we are to consider the numerous attacks directed against him. A great deal is being made of the fact that Joffe's automobile recently collided with a cart containing four Chinese workmen, in one of the narrow streets of Peking, China. It was purely an accident, if it had happened to some important diplomat nothing would have been thought of. But the enemy press got extremely busy attacking the Red Ambassador. The whole thing wound up with an exchange of diplomatic notes with the Chinese ministry of foreign affairs.

We take it that everything was amicably settled since the cables now report that Joffe is leaving China for Tokio, Japan, on his journey with many friendly farewells. On his departure, Joffe assured Sun Yat Sen, head of the Chinese Canton government that China had the sympathy of Russia and could count on Russia's support. Joffe points out that China's great need now is to achieve reunion and national independence.

It will be remembered that Joffe was at the head of the Russian delegation at Hiro, Hiroshima, and from the Kaiser. He was the first Soviet envoy to Berlin. He now goes to Tokio and it is said that he will secure Japanese withdrawal from Northern Sakhalin, rich in natural resources and famed for its fisheries. It is declared that Japan is anxious to make peace with Russia in order to open the way for commerce with the Asiatic mainland.

This development has considerable significance for the workers of America. We see the American industry stilled by refusal to trade with Russia and by the destruction of the Central European market. Now the Russians, forced to look to Japan, rather than the United States, are co-operating with the nations of the Far East. With the sympathy of Russia and can count on new markets will be lost in China and Siberia, resulting in an increased stagnation for American industry.

Truly American capitalism is following in the footsteps of King Midas, whose touch turned everything to gold. The gold is being tried to eat. So, he starved. America today is the great part of the world's gold supply. But poverty-stricken Europe cannot buy the fruits of our fields, nor the products of our factories. So the farmers are going bankrupt and our jobless army will soon find new masses of recruits for its ranks.

This is so because Joffe, the red envoy of the Russian Workers' Republic, is on his way to Tokio, Japan, instead of Washington, D. C. Let the American workers think over this matter and act for their own preferation.

The Revolt in the Pulpits

Dr. Percy Stickney Grant, of the Church of Ascension, in New York City, declares that "This is a time of wonderful liberation, and we might as well get the benefit of it."

He is getting the benefit of the times by denying the divinity of Jesus Christ, charging that Jesus did not have the power of God, and raising other issues that have been raised by the Church of England. He is the more called upon as the occupants of kept pulpits have turned the attack. So the discussion gets heated. It was to be expected that the debate would bubble over the question of church and state, and the orthodox pulpits of the almighty dollar over the church. Thus Dr. Grant charges that the National Civic Federation was instrumental in crushing an open forum at the Church of the Ascension. Dr. Grant points out that Dr. Wheeler, former president of the United States Chamber of Commerce, president of the Union Trust Co. of Chicago, and chairman of one of the committees of the National Civic Federation, had brought in a resolution at the Chicago conference which was not only a violation of the secretary of the convention, but, as I was informed, was printed at the expense of the Civic Federation and distributed in our convention to the members of our convention.

Dr. Grant confesses that the Civic Federation attack on the church's open forum, called "the only free platform during the war," persuaded him that "economic things have a great deal to do today with what apparently is treated as religion."

Dr. Grant admits also that the church directorate is filled with lawyers, and that whenever a social welfare matter comes up, there is always one of these lawyers who jumps up and says, "I move to lay that on the table," and "I don't remember a time when it was not laid on the table."

Dr. Grant evidently realizes that the church today, no matter of what denomination or creed, is controlled by the money power. If he does realize this, then why doesn't he get out of it? Merely making a few spectacular speeches, resulting in a temporary discussion, will not alter the situation. So far as we can see, if there is any real revolt in the pulpits today, it is merely a revolt of words. And such a result never even dented the rule of the dollar, although it may give a few individuals a feeling of "wonderful liberation."

The charge of "Bross Check Press" holds against all of Mr. Hearst's sheets. Verily, Mr. Hearst's publications are the most hypocritical, the most thickly painted prostitutes of all the kept ladies of the rule of gold.

Even if there are no Communists in congress, the bosses see deep red in the sun. The appropriation law proposed by Senator Brookhart, is heralded by the Review as, "The work of a Communist. Bross Check Press." The edition of the editor of the Review on Communism, dated to one person of Harold Lloyd's anti-Bolshevikism, "Sammy is Siberia."

SATURDAY, JAN. 27, The Near Eastern Peace Conference at Lausanne, Switzerland, has failed again.

Help the Workers Party Grow

Without doing so, our encouraging phase of labor's struggle in the United States has been the growth of the Workers Party. Against every assault of the profiteers' terror, the Workers Party stands today the main bulwark protecting the outposts of American labor.

The correspondence of Max Lerner, party organizer and speaker now touring the New England states, published in last week's issue of THE WORKER, is testimony showing that the most extreme persecution must crush the grove American Communist movement.

To be sure the Palmer "red raids" of January, 1919, brought about the disheartening. The Workers Party is intimidated for a while, they're inactive. But the reaction against this tyranny gradually sets in, as Lerner now reports from the backward New England states, and there is an accelerated drift among the workers towards the Communist movement into the Workers Party.

It is essential that this favorable situation be adequately met by Communist organization and Communist education among the masses of the workers, among the tens of millions of toilers, whose only knowledge of Communism is gained from the misleading items in the columns of the capitalist press.

The big effort of the Workers Party right now, to bring its Communist message to the workers, is to carry out the distribution of seven million copies of the program adopted by its Second National Convention. This is a big undertaking. It must be accomplished by the party's ardent and enthusiastic workers, all of whom are burdened at the same time with numerous other tasks.

These are the workers who must also shoulder the financial burdens of this task unless they get help. That help should come from you, readers of THE WORKER, who for some reason or other cannot contribute to the distribution of these millions of leaflets containing the Communist program of the Workers Party. There is no reason why you should not at least send in your contribution to help finance this work. Need more be said? Send in whatever you wish to contribute to THE WORKER, Room 405, 790 Broadway, New York City, and it will be turned over to the National Office of the Workers Party, to be put to immediate use.

Not Enough Credit for All

The elections have now been over for nearly three months. But we find the different labor and political groups still trying to claim credit for their various achievements.

It is to be expected that these claims should clash. Thus the Oklahoma Leader, renegade Socialist daily of Oklahoma City, Okla., attacks the Farmer-Labor Party, for claiming credit for the election of Governor Walton, of barbaque lineage, when this turn-out set, vociferously claims everyone ought to know that he was elected on the Democratic ticket by the Reconstruction League.

We have just been reviewing the "Review" edition of the "National Leader," official organ of the Nonpartisan League, and it enthuses over the election of over 950 candidates.

Far be it from us to challenge the political prowess of the yellow press, but we find that the lost Henrik Shipstead, U. S. Senator from Minnesota, that the Farmer-Labor Party has been claiming all along. Not only that but it puts Victor I. Berger, the Milwaukee Socialist, in its roll of 950. No doubt new recruits are being obtained by the outpouring from both Socialists and Farmer-Laborites against these "League Victories."

The trouble seems to be that there isn't enough credit to go around. In order to make the total seem astounding, fictitious figures must be used. We do not remember that there has been any tant of such intertwining struggles for fame within the British Labor movement since the recent parliamentary elections there.

The difference is that in Great Britain, labor is united politically in the Labor Party and elects enough candidates so that there is credit enough for all. If the different political expressions of labor swayed get together in this country, and organize a fight for labor independently of the old political parties, they might win enough victories, sufficient to bring plenty of credit to all standards, even in these United States of America.

The Hypocrisy of Hearst

William Randolph Hearst has secured ownership of quite a number of newspapers and magazines since his mother set him up in the yellow press business. He keeps a large number of scribbles on his staff to write the things he thinks.

This Mr. Hearst appears as president of the corporation that publishes the Cosmopolitan Magazine, and is the author of a book on the subject of "The Moral Basis of the New Moralism." This literary monstrosity is entitled "Not Only," and every stanza starts off with, "I'm glad I'm not the man who..."

This is the usually sanctimonious Hearst, who inveighs the political enemies are responsible for all the ills in the world. With the advice of his highly-paid editorial writer, Arthur Brisbane, to draw on Mr. Hearst should know that no individual of importance is responsible for capitalism's many evils. He must know that all these evils grow out of the social system under which we live. And since Mr. Hearst upholds this diabolical social system, with all its crimes, he is just as guilty as Kockefeller, Morgan, and the rest of the bunch.

The charge of "Bross Check Press" holds against all of Mr. Hearst's sheets. Verily, Mr. Hearst's publications are the most hypocritical, the most thickly painted prostitutes of all the kept ladies of the rule of gold.

Even if there are no Communists in congress, the bosses see deep red in the sun. The appropriation law proposed by Senator Brookhart, is heralded by the Review as, "The work of a Communist. Bross Check Press." The edition of the editor of the Review on Communism, dated to one person of Harold Lloyd's anti-Bolshevikism, "Sammy is Siberia."

All the Flies That Are News To Paris

(Special Telegrams to the Bolshoi by the Associated Biograph and the Associated Biograph.)

HARRISON, Ark.—In order to prove its humanitarian nature, the Bolshoi has decided to grant absolute equality to colored people. The colored will be hung only negroes, white workers will be hung only negroes, white workers will be hung only negroes, white workers will be hung only negroes.
