## GOVERNORS IN TREACHERY AID STEEL BOSSES

Davey, Earle Using Militia to Guard Strikebreakers

JOHNSTOWN, Pa.—Following the complete anti-labor turnabout of Governor Earle, State trooper's assisted the Bethlehem Steel Corp. in reopening its struck steel mills here. Sunday saw a huge mass meeting here of striking steel workers and coal miners, out in support of the steel workers.

James Marks, CIO and United Miners organizer, had called for a "mass invasion" of the city by coal miners.

YOUNGSTOWN, O.—Bayonets drawn, militiamen stood by here to permit strikebreakers to enter the struck Republic Steel and Youngstown Sheet and Tube mills.

Their action followed the treachery of Governor Davey, who originally pretended to have sent the national guardsmen to Youngstown, Warren and Canton to keep the mills closed.

Treachery by Davey and Earle, Davey and Governor Earle of Pennsylvania are both Democrats, and organized labor is seething with anger at the actions of men whom labor supported for election.

The actions of the two governors has emboldened the steel companies in their refusal to sign an agreement with the CIO, a refusal which President Roosevelt has termed "unreasonable."

In Indiana Governor Townsend has thus far refused the demand of Mayor Rooney of East Chicago that troops be dispatched to that town, to aid reopening of the mills. Meanwhile, the CIO was planning to move new forces into Weirton, West Virginia, where the Weirton Steel Corp. has been terrorizing 15,000 employees.

In Beaver Falls, Pa., George Mike died after a clash at the Moulbrup Steel plant, the 13th striker to be killed so far.

DETROIT—The National Labor Relations Board has charged the Ford Motor Co. with "malicious and brutal assaults" on United Automobile Workers Union organizers. The Board has set July 6 for a hearing.

WASHINGTON—Administration leaders returning from the Jefferson Island week-end meeting with President Roosevelt announced that consideration of important planks of the administration's program will take precedence over adjournment of congress.

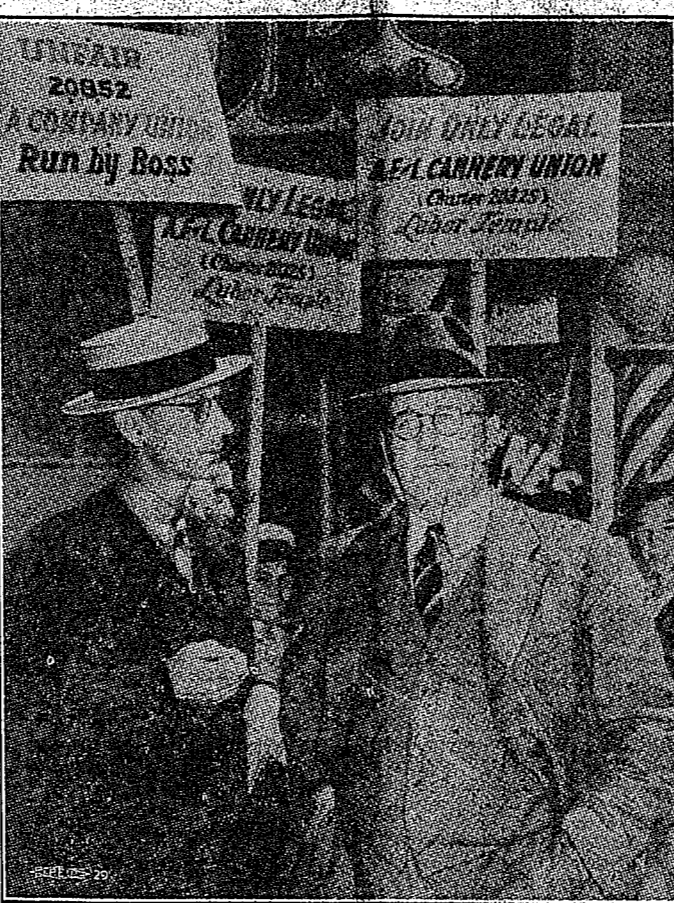

More than 100 congressmen and senators, in addition to cabinet members and some 250 other individuals, visited the President over the week-end. Nominally, the meeting was "purely social," but it was recognized as a significant gathering in which the question of adjournment figured prominently.

and demands for more of them. Taking a few important issues in the field of news, Doctor Soule, in his talk, showed how the "Western" through its striving for accuracy in reporting, surpasses capitalist newspapers in dealing with important news events. Further, he pointed out the fight waged by the Western Worker for the best interests of the broad masses of people.

The fight against the recently enacted Desmond Milk Bill, the enacted municipal elections, the steel strike, the struggle in Spain were some of the points Doctor Soule brought out.

Referring to the milk bill, Doctor Soule declared: "The Western Worker is waging a campaign for the repeal of this act. The Western Worker demands that the large dairy interests grant their workers wage increases, give to the small dairymen higher prices for their products, and, above all, lower the prices of milk! The Western Worker demands that these powerful dairy interests take a cut so that our thousands of underfed children may have a quart of milk each day."

## Exposing Vandeleur's Co. Union Plan

EARL A. MOORHEAD (left), president of the Santa Clara Labor Council, and J. J. Anderson, secretary of the Council, after they were elected from the chartering of a company union organized by State Federation, Secretary Vandeleur, who revoked the charter of the bona fide Cannery Workers Union, Local 20325. The two progressive leaders are conversing with cannery unionists picketing the company union. The Labor Council is standing by the real union, local 20325.

## BRIDGES BLASTS SPLITTING ORGY

Hits Cal. Federation Board's Expulsions

STOCKTON—Rowland B. Watson, AFL organizer, "knocked off" another Labor Council Monday—revoking the charter of the San Joaquin County Central Labor Council. The Council refused to relinquish its books and finances to Watson.

Watson had to flee the Council, due to the delegates' anger.

LOS ANGELES—Meeting here Sunday, and steered by secretary Ed Vandeleur, the state-federation of labor executive committee continued its purging of progressive organizations.

The meeting of the executive committee was an orgy of revocation of charters and holding of other charters because the locals concerned are progressive.

## COLONIAL AIM IS PROCLAIMED BY NAZI CHIEF

Loyalists in Proof of New, Unprovoked Nazi Attacks

VALENCIA—German naval units openly bombarded the Spanish coast here with a deliberation obviously calculated to lead to war.

The Spanish government cited two direct attacks. A Loyalist plane patrolling the coast north-east of Cabo Palo was attacked and shot down by a twin-engine German seaplane.

German warships bombarded the coastal city of Sagunto, 15 miles north of Valencia, for more than an hour.

Loyalists learned of the arrival of 10,000 Arabs from Italian Libya, brought to Spain as part of the fascist army.

WURZBURG, Germany—"Germany needs Spanish ore, and that is why we want a nationalist government in Spain."

With flat statement of the aim to reduce Spain to colonial status Adolf Hitler came out into the open with the Nazi motives in carrying on its invasion of Spain, organizing the slaughter of the Basque people and the destruction of their homes and churches.

He declared flatly that the Nazi government would not even make further pretense of cooperation to "isolate" the struggle in Spain. Having been aided in its Spanish invasion by the "neutrality" front sponsored mainly by the British Tories, German fascism has now thrown off the incubance which this policy would still offer to direct and open intervention in Spain.

Bald Threats  
Hitler's announcement of the Nazi intention of direct intervention in Spain was practically without veil in the statement:

"We shall take our security into our own hands. Thank God we are strong enough to protect ourselves. Speeches in parliament will not affect our decisions."

"Although even the British Tories were unable to give any support to Hitler's effort to make a "cause celebre" or give any belief to the accusation that a Loyalist submarine had fired torpedoes in the direction of the German cruiser Leipzig, Hitler gave the incident as the immediate factor in the latest Nazi defiance.

LOS ANGELES—"The Americans who have traveled so far (to fight in the Lincoln Battalion) are repaying a debt that we owe to the liberty-loving people of Europe. They are America's Lafayettes and are fighting for world freedom against the Benedict Arnolds of today."

These are the words with which the Young Communist League calls for a large attendance at the Independence Day Youth Rally, to be held Friday, July 2, at 8 p. m., in the Sons of Herman Hall, 25th and Main streets.

A returned soldier from the Lincoln Battalion, Major Lord, American war ace active for Spanish democracy; Mike Gold and Matt Pelman, president of the Young Communist League of Southern California will speak.

The Contemporary Theater will present the Spanish civil war play, "No Pasaran"; the film "Miracle of Madrid" will be shown; and Guillermo Arcos, world's foremost guitarist, will play.

There will be dancing and refreshments.

## Non-Partisan League Victor In First Trial

Progressives Hail Victory as Stimulus to Complete Organization of Lumber Workers; Activity Planned

By M. L.  
EUREKA—Four of the eight candidates selected or endorsed by Labor's Non-Partisan League are now in office, the result of their election by the Eureka voters in the municipal elections held on Monday, June 21. Electing a Councilman, City Attorney, Supt. of Streets, and City Clerk is their initial try in the political

field, progressive trade unionists are highly elated over the outcome of the elections.

Two other labor councilman candidates missed being elected by the narrow margins of six hundred and eleven hundred votes. If these two councilmen had been elected, labor would have held three of the five seats in the council.

Labor's Strength  
Even as it is, organized labor has demonstrated to the reactionaries in Eureka that it is in a position to recall any reactionary politician who aligns himself with anti-labor forces, as happened during the Lumber Workers' strike in 1935.

The candidates elected were Jack Runner, member of the Railroad Brotherhoods for some thirty years, who defeated the reactionary incumbent, C. J. Craddock, Attorney E. S. Mitchell, who has handled legal matters for the progressive unions and is also a leader of the local Townsend groups, defeated the incumbent Frank Thomson for city attorney; C. O. Barkdull, endorsed by the League, was elected City Clerk and ex-officio Tax Collector over the incumbent A. Walter Kildale, who has held office for twenty years.

Vincent Getty, member of Construction Unions for many years, was elected Superintendent of Streets over the incumbent W. R. Colwell.

Some Defeated  
The defeated labor candidates were Eugene Berry, member of the Plumbers Union; Lawrence J. Blumenthal, Independent Service Station operator and member of the Railroad Brotherhoods for many years, who were defeated by the incumbent councilmen.

M. J. Burns, assemblyman and member of the Machinists was defeated by the incumbent John Griffith for Supt. of Public Works, by seven hundred votes.

The League was less successful in the mayoralty contest when the incumbent Frank R. Sweasey defeated the League's candidate F. F. McRae by almost a three to one vote. The reactionaries concentrated all forces on the re-election of Sweasey, who made a play at being liberal and progressive, but who can be depended upon to retreat before reaction.

All attempts of the reactionaries in the labor movement to halt the work of the committee met with very aggressive opposition from the progressives. The committee's final report received the unanimous endorsement of the Federated Trades Council where the three or four reactionaries who were campaigning against the League dared not openly oppose the League by a vote.

The great majority of the local unions also endorsed the committee's report. The main opposition came from some of the small Building Trades locals. Reactionary delegates from these locals refused to act on the committee and then reported back to their locals that they had been excluded. This caused some confusion and some opposition on the part of members of the Building Trades locals.

The progressives realize the real nature of the victory achieved, because the basic industry in Eureka is in the process of being organized.

Plans are now being made to extend the committee so that it will strike roots in all of the local unions. It is expected that a permanent executive committee will be elected to keep close watch on all city and county officials.

Fourth county "over the top" in the Western Worker Circulation Drive, San Francisco last Saturday won deserved applause for real Communist work in building the influence of the "Western." (See Page 2 for letter commending Santa Barbara County for topping its quota.)

With 610 subscriptions obtained, 102 per cent of its quota, San Francisco is not stopping for a minute, for it has challenged Los Angeles to further competition on the basis of the highest per cent over the top by July 10. L. A. has already topped its 1000-sub quota.

In fact, competition is getting keener, as exemplified in the individual socialist competition between Jerry Feingold, S. F.'s ace sub-getter, and N. Schrier, of L. A. Last Saturday it was announced Feingold has achieved the mighty total of 92 subscriptions.

As the Drive enters its last days, all eyes focus on the big Press Builders' Congress, to be held on July 17-18 in Los Angeles. Comrades, Party and non-Party, are urged to total their points scored so far, to determine how many more they need to qualify as delegates.

## LEWIS HAILS I. L. A. VOTE

Overwhelmingly for CIO Affiliation

With nearly completed ILA coastwise returns indicating an overwhelming vote for CIO affiliation, John L. Lewis has sent the following wire to Harry Bridges:

"I am gratified to learn of the progress being made in the vote that is being taken by the Pacific Coast ILA to affiliate with the Committee for Industrial Organization. The Committee for Industrial Organization will be glad to issue a charter of affiliation to the Pacific Coast ILA shortly after the vote is completed.

"I am planning at a very early date to assemble a national conference of the representatives of the various maritime groups to work out an authoritative and precise program for the complete organization of the Maritime industry on all coasts."

Bridges commented to the effect that:

"That definitely disposes of Ryan. The West Coast longshoremen are going to get their charter and Ryan is not going to be able to make any deal. Any affiliation of Ryan with the CIO would only harm CIO prestige."

Ask Reversal of King Frameup

SAN FRANCISCO—Attorneys for Earl King, E. F. Ramsey and Frank J. Conner have filed a brief of appeal against the conviction of the three in the Oakland "ship murder" case.

The brief asks reversal of the conviction of the three Marine Firemen members, charging one-sidedness and unfairness in Superior Judge Frank M. Ogden's comment on the evidence.

Union labor maintains that King, Ramsey and Conner were victims of a frameup inspired by the shipowners, in the 5 year to life sentence for "complicity" in the killing of chief engineer Alberts of the Swayne and Hoyt freighter Point Lobos.

Thousands Hear 'Western' Broadcast

Anges Listeners Enthusiastic, Want More Radio Talks on Role of Paper

Thousands of listeners gathered Thursday evening, at the home of Doctor Albert Soule, to hear the broadcast of "The Western" on a special radio station KMTR.

The Communist Party and other labor groups were invited. After the broadcast, a discussion was held, in which the various points raised by the broadcast were further discussed.

EUREKA Shows the Way

LABOR in Eureka has carried out a campaign which will at once become the envy and the inspiration of the labor movement throughout the country. It has not only demonstrated that labor can exert its political influence to make organization faster, but that in the course of this effort it can elect its own candidates to public office.

In elections held June 21, four of the eight candidates selected or endorsed by the local Labor-Non-Partisan League were elected by the voters. But the effect of the campaign was a good deal more far-reaching than that. It has forced a change in the attitude of the entire reactionary machine.

In short, the appearance of labor in the political field before it has fully captured control of the government in the city where it represents a majority, has forced a new approach by those who hold office to serve the lumber interests as best they can.

Mexico Welcomes Young Basque Refugees

deleur, secretary of the California Federation of Labor, publicly attacked the Committee for Industrial Organization on the same day. Both attacks dovetailed into a nation-wide open-shop attempt to undo the achievements of the CIO in organizing millions of hitherto unorganized workers.

It has become the fashion both for open shoppers and for their friends in the labor movement to ascribe to the CIO all the evils that the open shoppers and the reactionary craft unionists themselves, and they alone, are guilty of.

Thus, the CIO, and the Cannery and Agricultural Federation leaders, in the words of Vandeleur are "fakers," "sellout artists." If one were to believe the veteran of a thousand betrayals and sellouts, the CIO and the Cannery and Agricultural Federation leaders, and not Vandeleur, are "undemocratic."

Of course, all this can only evoke laughter, when it is considered that the CIO organized and won great gains for hundreds of thousands of auto workers, steel workers, rubber workers, while Vandeleur's prototypes in the AFL leadership attempted to charter their own unions in those industries, and not can Vandeleur's attempts to belittle the achievements of the Cannery and Agricultural Federation unions, be met with anything but laughter, in view of the fact that the only gains in the canneries and the fields have come from those unions.

The Vandeleur attempt to label the CIO as "Communist" is the same old story of red-baiting against anything progressive that comes along. Trade union members have long expected to expect from officials like Vandeleur. They do not take red-baiting seriously nowadays, as the recent stingy rebuke to Hutcheson of the Carpenters showed conclusively.

Neither the Girderers nor the Vandeleurs will halt the onward march of organized labor under the banner of progressive trade unionism. The Vandeleur attempt to label the CIO as "Communist" is the same old story of red-baiting against anything progressive that comes along.

## The Soviet Union Peace Policy Again Averts World War

AGAIN the Soviet Union, by a powerful demonstration of its ability to defend the borders of that great country and by its refusal to be provoked, has topped a major threat of imperialism to embroil the entire world in a world war.

War was deliberately sought by the Japanese militarists when they fired without provocation on the Soviet gunboat patrolling Soviet borders on the Amur River in the vicinity of a river which had already been the property of the Soviets.

Japan's deliberate intent is evidenced by the mobilization of forces around the zone of the islands in dispute. It is the business of the war mongers to create "incidents." But they attempt to provoke war once again was defeated.

"The Soviet Union, whose interests are best served by peace, whose interests are identical with the interests of the masses throughout the world, will neither give through to this brazen provocation nor allow it to be used as a springboard for war.

To the Japanese "demand" that the Soviet forces be entirely withdrawn from the disputed islands of the Pacific, the Soviet Union has responded with peaceful negotiations were possible. Its armed forces stood ready as are all the people in the land of socialism, to defend every inch of Soviet soil. But the Soviet Union, in the forefront of the world for the maintenance of peace, has determined to maintain peace.

It agreed to withdraw its armed forces from the area only on receiving the assurance from Japan's ambassador, Shigemitsu, that the status pro ante would be restored. It received assurance that this beforehand included the complete absence of Japanese gunboats from the vicinity.

The Soviet peace policy, serving the interest of the masses throughout the world, has again forestalled the war mongers who would use the California state policy of the Soviet Union—the bulwark against reaction and war.

## Comrade Anita Whitney is 70

ALL HONOR to Comrade Anita Whitney, 70 years of age on July 7.

An honor to the California state chairman of the Communist Party.

She began her career as a social worker. She came to understand through this work the necessity for the struggle to eradicate poverty.

She entered whole-heartedly into the fight for woman suffrage. She campaigned vigorously against the imperialist war of 1917-1919. Her path led to the realization of the necessity for Socialism and of party organization.

With the formation of the Communist Party in America she became a charter member. She has been persecuted, arrested, jailed. But she will continue the fight to which her life has been dedicated.

She stands together with "Mother" Bloor, a beloved national leader of the Communist Party and for more than 50 years a leader of American labor, as an inspiration to all workers in the struggle against poverty and deprivation.

Later this month "Mother" Bloor will be 75 years of age.

Let us make the most fitting tribute. Let us, in this "Bloor" fitting Month, bring to mind the new women members into the Communist Party.

## The Forgotten Men—and the Rest of the People

THE "pink slip" has become one of the new symbols of the Times in their attack on the living standards of the American people.

The "pink slip" of discharge is being threatened for hundreds of thousands more WPA workers in the coming weeks.

Against the "pink slip" fully 10,000 unemployed and WPA workers will march to protest against the proposed WPA slashes.

The National Executive Board of the Workers Alliance will shortly set a date for the march. Delegates to the national convention in Milwaukee are already set July 22-29.

The week of nationwide demonstrations against the WPA cuts.

It is essential that a great campaign of pressure on Congressmen and Senators begin to carry their intended attacks on the WPA. Delegates to a point which is clearly the greatest opening wedge for fascism yet proposed.

# 'Before and After' Scenes in Housing Project

ONE OF THE most experimental workers housing projects actually completed by the federal government. It is in Atlanta, Ga., where 606 living units, with light and play space, were constructed in a former slum area. Cost was \$2,011,652 and average rent is \$5.52 per room per month. Passage of the Wagner-Steagall bill would bring a better standard of housing to tens of thousands of other workers.

## Scottsboro and the American People

EIGHT internationally famous youths stand trial again this week for the crime of being Negroes.

As the "Scottsboro Boys," sentenced to die in Alabama six years ago, they have come to stand for the oppression and persecution of twelve million Negro Americans.

Irrefutable evidence has long since shown that they committed no crime. The obvious deduction from this fact is the correct one: That the "Scottsboro Boys" belong to a subject-nation whose continued subjection is indispensable for the maintenance of the existing order in the United States.

For once the white and Negro people of the South unite against the common enemy—their rulers, the industrialists and plantation owners, who will shatter the chains of wage-slavery and chauvinism by which they are now ensnared.

Hence, freedom for the Scottsboro boys is a blow in the fight for the freedom of the entire American people.

And the blow can be struck through the agency of public opinion. Already, the outraged protests of millions of workers in every land have stayed the boys' execution. The "Scottsboro Boys" are now in Alabama have trembled at the voice of the international proletariat, demanding "Free the Scottsboro Boys!"

## LET AMERICA RESPOND!

FOR THE STEEL STRIKERS—GIVE EVERY OUNCE OF ENERGY. USE EVERY RESOURCE AT YOUR COMMAND.

That is the clarion call that comes this morning from the blood-drenched battlefields of Canton and South Chicago. That is the message that arises with a great shout from the picket-lines of Youngstown and Johnstown.

All of America's labor and democratic forces are called on to respond—fully, forcefully and in one voice. The winning of this steel strike will bring immediate action and call upon the AFL executive council to endorse the strike in Steel.

Thirdly, the Railroad Brotherhoods perform a great service to the entire labor movement in this fight. They can reduce positively the railroads into the plants of these bitter enemies of labor.

The winning of the steel strike would be that event which would make sure for the railroad workers that their 20 picket lines for the railroads into the plants of these bitter enemies of labor.

# Anita Whitney, Chairman ANTI-LABOR CONFERENCE IN L. A. California C. P., Reaches 70

## Recruiting Drive for Women Under Way In Her Honor

By JOAN REED  
The California State Chairman of the Communist Party, Anita Whitney, is looking for a big recruiting drive for the party in her honor. She is planning to hold a series of conferences for women in the state, which will be held in the name of Anita Whitney.

Comrade Anita Whitney was born in 1877. She celebrates her birthday in the same month as that other great American woman, the Communist Party's first woman member, Mother Ella Reeve Bloor. In her honor, and as the best tribute to her, the California Communist Party is devoting its special attention to a recruiting drive for women.

Comrade Anita Whitney is a charter member of the Communist Party. She has been active in the party since its first days. She has been a leader in the party's work for women's rights and for the rights of the Negro and all oppressed people.

Gov. Favors Oil Co. STANDARD OIL TO PROFIT BY TIDELAND BILL Unemployed Leaders Re-elected

Referendum May be Sought by Sen. C. L. Olson

SACRAMENTO — By putting his signature on the O'Donnell tide land, oil drilling measure, Governor Frank Merriam, virtually returned control of production in the Huntington Beach tideland to the Standard Oil Company.

A statement issued by Senator Gilbert Olson, of Los Angeles indicated that he would seek a referendum vote on the possibility of defeating the measure entirely. Olson said that the referendum will not go into effect until leases and plans of development under the O'Donnell bill could be affected by a subsequent act.

Under the O'Donnell bill, the Standard Oil Company would become the chief beneficiary. The measure would give the Standard Oil Co. the right to pump oil into the ocean bluff adjacent to the pool and would become the chief beneficiary.

# NAACP LAUDS French Revolution Also ANTI-LYNCHING BILL PASSAGE

## Annual Conference is Ended on Strong Note of Unity

DETROIT—The 28th annual conference of the National Association for the Advancement of Colored People came to an end here July 13 with a victory rally in celebration of the passage of the anti-lynching bill in the House of Representatives.

Congressman Joseph A. Gavanagh of New York, co-author of the anti-lynching bill, and credited with battling it through the House, was the main speaker.

His leadership of Congress, "has never really been attacked until this fight, but the moment it was vigorously challenged, its resistance rolled up and disappeared."

Now that we've got the measure through the House, I expect all America to rise up and white, to insist forcefully that the Senate bring the bill to a vote so we can vote there, and begin to wipe out lynching, the shame of America."

Waterhouse, secretary of the Association, declared that the fight for anti-lynching legislation began in 1889, when the late Senator Charles Sumner introduced a "new alignment of political and economic forces."

# SCOTTSBORO Found traitors in Ranks JUDGE SPEEDS NEW TRIALS

## Two Cases Per Week, Starting July 12, Are Scheduled

DECATUR, Ala.—Denied a change of venue to Federal Court, eight of the nine Negro Scottsboro boys will be tried here, again at the rate of two a week, beginning July 12, on a trump-up charge of raping two white girls.

Two statements which, to say the least, are questionable, were made by the French Revolution. One statement, which says that the French Revolution was a "new alignment of political and economic forces," was made by the late Senator Charles Sumner.

Waterhouse, secretary of the Association, declared that the fight for anti-lynching legislation began in 1889, when the late Senator Charles Sumner introduced a "new alignment of political and economic forces."

Job Control Means a Lot To These Union Seamen Of Natl. Maritime Union

By HARRY RAYMOND

NEW YORK—The first thing that greets you when you enter the busy headquarters of the National Maritime Union of America, 126 Eleventh Ave., is the blare of a loudspeaker.

Jobs for seamen. Jobs for stewards. Jobs for men in the engine room.

Wesley Perry, union dispatcher for the deck force, was on the microphone when he came up the steps leading into the hall.

Job Control Big Thing

Men with their papers and their union cards stepped forward to the dispatcher's desk and signed up to ship out.

"Yes, this goes on all day," Perry said. "Union job control is the big thing for us."

WAGNER ACT FLOUTED BY HAWAII CO.

Plantation Union on Island of Maui Files Charges

HONOLULU, T. H.—Charging that the Hawaiian Commercial and Sugar Co. has violated the Wagner Labor Relations Act by refusing to grant collective bargaining rights to its 2,000 employees on Puuene Plantation, Island of Maui, the Maui Plantation Union on Maui filed charges.

The union has made repeated offers and attempts to present and submit questions in regard to U. S. Conciliator, W. G. Strayhorn, in Honolulu, to the Secretary of Labor, but the company has refused to meet with representatives of the union.

Union Seeks Election

The union seeks election of 95 per cent of the company's employees, asks that an election be held under the supervision of U. S. Conciliator, W. G. Strayhorn, in Honolulu.

Instant Response

At the June 28 meeting a circular appeal from Caruiz was read, and it was announced that the union is now in a position to handle a truckload of goods.

Practical Solidarity

Brothers Kennedy and his organization, the United Brotherhood of Carpenters and Joiners of America, are deliberately remaining silent because they are afraid to let their pal Rossi.

AMERICANS IN SPAIN CHEER SHIPMENTS

San Francisco employers again itchy to lay hands on the vigilante club against organized labor. This time their first target is the hotel strike. And they're using all the tricks of the trade...

The Friends of the Abraham Lincoln Brigade have received the following radiogram from Madrid. The radiogram was received at the offices of the Friends of the Abraham Lincoln Battalion at 715 Ashbury Street, San Francisco.

Civil and military customs guard the battalion agents every facility to obtain information and protect the shipment from loss. They provided trucks and chauffeurs in support of their carriers.

With 1700 men to care for the supply of cigarettes may last a month. The Friends of the Lincoln Battalion are expected to contain no cigarettes. Our supplies are being brought to the front by the Lincoln Battalion.

JULY 18, 1937 'We Fight for a New Type of Democratic Parliamentary Republic', Says C. P. Leader

Secretary of Spanish Communist Party Tells of the Aims of the People of Spain in the War Against the Fascists and the Hitler-Mussolini Intervention

(These excerpts are taken from an abridged stenogram of the report of the General Secretary of the Spanish Communist Party to a recent enlarged Plenum of the Central Committee of that Party.)

When we speak of the character of the present struggle, we must establish this point: we are fighting for a new type of democratic parliamentary republic. Defeat would mean an international fascist, and a wave of terror and barbarism which would drive us to the abyss of war.

Our struggle, we are striving to bring about the destruction of the old type of semi-feudal Spain, in order to establish a new type of democratic republic. We must liquidate the class of landowners, who have participated in the fascist rebellion. We must nationalize the land, and turn it over to the agricultural workers and peasants for cultivation.

It is necessary to destroy the old type of semi-feudal Spain, in order to establish a new type of democratic republic. We must liquidate the class of landowners, who have participated in the fascist rebellion. We must nationalize the land, and turn it over to the agricultural workers and peasants for cultivation.

At the present time the political parties and the trade unions also recognize the necessity for universal military service, a single currency, the coordination of universal suffrage and secret ballot.

# W. H. Hearst Evaded 5 Millions in Taxes

## USES HOLDING COMPANIES TO AVOID PAYING

### Other Millions' Evasions Shown At Inquiry

WASHINGTON, D. C.—William Randolph Hearst, through personal holding companies, evaded more than five million dollars in income taxes, according to a report disclosed by the treasury department, to the Congressional Tax Inquiry Committee.

"Hearst's evasions along with those of other American millionaires was disclosed by O. John Rogers, chief counsel of the committee, in a report filed last week with the House of Representatives.

Rogers termed the Hearst manipulation as a "hierarchy of holding companies" which is the principal stockholder of the Hearst Corporation. For the years 1934 and 1935 he received 85 per cent of the dividends of the company, formerly known as the Star Holding Company. Rogers disclosed that the Hearst family last March with the Securities and Exchange Commission. It is stated that Hearst holds individually 95.71 per cent of the voting power of American

# Override Veto of Roosevelt on Farm Bill

## House Supports Plan To Continue Low Interest Rate

WASHINGTON, D. C.—A vote of 260 to 97 of the House of Representatives overrode the veto of President Roosevelt on the bill to continue low interest rates on farm loans for an additional two years.

The Senate has yet to act. Roosevelt's veto message argued that the funds necessitated by the bill would be provided for in the new budget.

House action came after an hour's debate, and marked the second time that Representatives have overridden a presidential veto this session. Earlier they had overridden the veto on an over-riding the time in which World War veterans might get very term life insurance policies.

Thirteen California congressmen voted with the majority. Representatives Dues, Elliott, Izac, Lee, McGrath, McKee, Sheppard and Voorhis, Democrats, and Carter, Engelbright, Gearhart and Welch, Republicans, voting to uphold the veto.

The bill would extend the term of the Federal power program.

# Log Cabin to Riches

## By Clint Duff

### Soviet Film Depicts Revolution

England has its "Royal Family," Latin America has its "Catholic Church," and the United States has "Log Cabin to Riches" tradition for duping the people into docile industrialism.

How many Americans—especially young Americans—ever today honestly believe that the initiative and shrewdness are the keys to the White House? The importance of this tradition as an impediment to the development of the American labor movement is well known.

The philosophy of Samuel Gompers, an "Old Guard" Swope and Professor Carver are fundamentally identical. All declare that in a capitalist economy there is nothing to prevent the rise of young men and women from poverty to riches except their own lack of abilities.

In recent times this tradition has run amok of many stark realities. The ever-increasing horde of engineers, doctors of philosophy, skilled accountants, merchants, technicians, mechanics, and fine American youth who daily plod back and forth in fruitless search for the chance to merely to keep existing, know full well that the thousands of intelligent, skilled Negroes and other oppressed minorities, are certain that the road from the log cabin to economic security never was a small part of this difference.

# Why Hitler Keeps Germany in Dark

## German-Americans Answer Question Series

Through a letter printed in the San Francisco News, the German-American League for Culture gave its answers to a series of questions concerning the Nazi government. The Party, which is carrying on a fight against the Hitler regime.

The questions and answers follow:

Q.—"Why were the names of those who fell victims to the terrible action of June 3 unpublished?"

A.—"A general uprising might have been the result if it were not for the names of those who were killed. The names of those who were killed are published in the Party Building."

# ASTURIANS HURL DEATH AT FASCISTS

Two books on Spain appeared almost simultaneously in France and England. Both were written by journalists, special correspondents for bourgeois newspapers.

"Louis Delapierre first went to Burgos, the fascist headquarters. He was killed by a fascist bullet. The second book, 'Defense of Madrid,' was written by Geoffrey Gorer.

"In August, Delapierre visits the Loyalist front. Although he went there with the intention of being a journalist, he quickly became enthusiastic over the cause of the Loyalists. He is ready for his death."

# Prepare Now for the Party Organization Conferences

By FRANK SECTOR

OUTSTANDING among the decisions of the May Enlarged State Committee meeting was the holding of a series of organization conferences in California. These conferences are being held in the recent period and to take into account the many changes in the organizational practices, so as to allow for the necessary changes in the Party membership in the formulation of the decisions and the carrying out of the many tasks before us.

Large county organizations, Los Angeles, San Francisco, and San Diego will hold separate conferences. The smaller counties will hold joint conferences—Northern Counties in San Francisco, Southern Counties in Los Angeles.

These conferences have three clearly defined objectives: to stabilize and improve the membership; to raise to the highest possible degree the political understanding of our members; to place the Western Worker on the most favorable position to become a more effective force in the community.

# Soviet Electoral Laws Guarantee Fullest Equality

MOSCOW.—The Central Executive Committee of the Soviet Union at its session July 10 enacted unanimously into law the regulations for elections to the Supreme Soviet of the USSR, provided by the new constitution.

"The task of the draft electoral law," said the report submitted to the session regarding the passage of the regulations, "is to guarantee the fullest equality of all citizens in the election process."

**America Awaits the Third Transpolar Flight**

**AND NOW**—the Soviet Union prepares a third flight, over the top of the world, from Moscow to the U. S. A. Unparalleled courage, devotion to scientific study for the peaceful advancement of humanity, and the careful planning possible only under Socialism—these go to make possible achievements such as the great transpolar flights, at which the world gasps in admiration.

The third flight, headed by Sigmund Levanevsky, will be the final proof that not only commercial, but also passenger and air mail flights from Moscow, via the North pole, to the United States are no longer dreams for the future, but accomplishments of the present.

The American people, cemented more closely to the people of the USSR, awaits eagerly the successful flight of the group headed by Levanevsky. It awaits the third group of Soviet heroes of the air, confident of their success.

**Call Rossi to the Stand!**

**THE** San Francisco County Grand Jury has announced that unless Mayor Rossi replies to the entire police commission he will be summoned to answer some questions he would certainly find embarrassing.

Police commissioners have protested their innocence, but have given no explanation for the graft that has been revealed in the police department. The reason is obvious—there is no possible explanation other than the fact that they are part and parcel of that widespread system of graft and corruption.

But the fact is that Mayor Rossi has the unmitigated gall to defend the actions of the police commission of his administration. Whether they resigned by arrangement with him or not is beside the point.

The real fountainhead of graft in San Francisco is the Rossi administration. For him to resign should be Mayor Rossi. Let him be called.

Let him explain under oath the details of his trip to Honolulu with notorious gambling characters in his party.

Let him explain why he appointed and kept Maurice Raphael as his executive secretary when the latter's past and present are saturated with graft. Let him explain why he sabotaged the Atherton investigation from the start.

Let him explain why he as commissioner was ignorant of graft conditions in the National Association for the Advancement of Colored People, and numerous labor and liberal organizations.

**Six Years of Prison, and They're Still Hounded**

The German-Japanese pact "against Communism" is clearly a war alliance to further the invasion of China and of Spain as well as for a joint attack on the USSR. It has been found that after its signing on November 25, 1936, German agents became active in assisting the Japanese military plots—the Amur invasion and the present battles at Peiping.

Four members of congress have already reminded Secretary Hull that two existing treaties should be immediately invoked against Japan's threat. These are the Kellogg Peace Pact and the Nine-Power Pact, both signed by Japan and by the United States.

**The 150th Anniversary of the U. S. Constitution**

**"THE BOYS** never touched us," Ruby Bates, southern white mill worker, said at an earlier trial. She and Victoria Erie were intimidated into testifying against the nine Scottsboro boys, shown above. A new round of trials is under way. Clarence Norris again being sentenced to death.

The following article discusses the significance of the celebration of the 150th Anniversary of the United States Constitution, which begins on September 17, 1937. The period of celebration was marked by President Roosevelt in his Fourth of July proclamation, Sept. 17, 1937 to April 30, 1939.

Therefore, after the seven articles which comprise the Constitution as amended by the Convention of 1787, the mass revolutionary forefathers were more plainly made a document for the protection of the people's rights against the usurpers of power.

Thus, with all its limitations, the Constitution as amended is not only a guarantee of freedom, but also in relation to the Declaration of Independence, the United States Constitution is in fact a document intended by our revolutionary forefathers for use not by reaction of that day but to protect the interests of the people.

The adoption of the Constitution, and especially its Bill of Rights, represented the defeat of the attempt to entrench reaction, and the triumph of the masses; we must show that the attempt of the reactionaries to use the Constitution to defend their interests is the most democratic and in the most democratic sense a guarantee of the right of the people against the encroachments of the rich.

The one hundred and fifty years of the history of the Constitution has shown that under its anti-people, reactionary program (such as Dred Scott and the 1857 Dred Scott decision), the masses of the American people have broad social and economic rights which were calculated to strengthen their utility as a people, democratic weapon.

It is in part and parcel of the trampling on the Negro people, and thus one of the most serious blows at the American people as a whole. For the oppression of the Negro people is one of the chief means by which the economic royalists of this nation exploit the entire American people.

Rallying around the Scottsboro boys and behind the Scottsboro Defense Committee are such organizations as the International Labor Defense, the Socialist and Communist Parties, the American Civil Liberties Union, the National Association for the Advancement of Colored People, and numerous labor and liberal organizations.

On the West Coast, labor and progressive groups have done far from enough on behalf of the Scottsboro boys, tending to allow distance to "obscure" the real meaning of the case to all of the people, from the Atlantic to the Pacific.

Petitions, letters, telegrams, to the Governor of Alabama, in Montgomery, and to the President in Washington, for the freedom of the boys, will prevent the serious blow to the American people involved in the railroading of the Scottsboro boys.

# F.R. in New Call To Pass Court Bill

## F. R. RENEWS DEMAND FOR COURT BILL

### Attacks Political Use Of Robinson's Death

WASHINGTON, D. C.—President Roosevelt has written a letter to Senator Alben Barkley of Kentucky, acting Senate majority leader, today accused the opposition to the bill for reform of the judiciary with the same motives as the social reform objectives of his administration the president further declared.

Reiteration of the abandonment of the court bill means an abandonment of the judicial process in this session and I believe that it is the duty of the congress to pass legislation at this session to carry out the objectives."

The letter of the president, scouting the indignant rumors that abandonment of the court bill was in the offing, came after a series of moves to stamper the administration, answered the arguments advanced by Senator Burt Wheeler of Montana, who has been the chief opponent of the bill.

Although Roosevelt declared that the objective rather than the method of attaining the social reform objectives was the primary consideration, he reiterated his opposition to a constitutional amendment as a reasonable time. It is, of course, clear that any determined minority group in any state could, without great difficulty, block any legislation for a long period of time.

Wheeler's denials, "Again on the floor, since it is known that he faces strong opposition at home for his stand on the bill, Senator Wheeler hastened to declare in an answer to the letter that he was in agreement with few of the president's objectives. As an opponent of the bill, Wheeler has announced a "warning" to the President to abandon the court bill, he declared in his letter to Roosevelt's letter that:

"Every member held him in high esteem, never think of such a thing."

Meanwhile senators planned to meet in the Senate chamber of Senator Robinson to Arkansas after a state funeral in the senate chambers.

Where Wheeler Belongs

"A Butte labor paper, reporting the fact that Senator Wheeler is a graduate of the Montana School of Mines, remarked that it was not surprising that he should be expected to receive an invitation to address the student clientele of the school."

Western Worker

People's Organ of the Communist Party, U. S. A. Western Worker (Los Angeles Office) ...

Published Every Tuesday and Friday 121 Haight Street, San Francisco, California. Telephone HB2lock 9467. ...

Become a Daily Western Worker Volunteer!

ON JANUARY 1, 1938, readers of the Western Worker will celebrate their great "Happy New Year. ...

We would also like our thousands of readers, friends and supporters to write in on the question: "What I will do to build a Daily Western Worker today?" ...

A big war chest must be built up to sustain a daily paper, financially, new readers must be secured, methods worked out ...

Under Heaviest Attack — The American Battalions

AT BRUNETE, the most strategic point in the gigantic battle being waged in the Madrid front, there are two battalions of American volunteers. ...

Let us quote from the letter of a young worker from Los Angeles, the political leader of his battery ...

"Everywhere in Spain the new government is daily receiving more and more the support of the people. ...

"There are quite a few L. A. members in the battery. They are all good soldiers and everyone of us is determined to prove in the combat that we are as well represented in the battle front as Brunete ...

It is possible to add more to the urgency of the situation than to print these few words from a young American on the battle front at Brunete ...

No more than this: that the great offensive of the Loyalists is under way, that the world democracy at the front of battle is giving us all, and that all is powerful in the combat ...

Funds for small comforts to the American volunteers!

The progressive, Republican, forces, the Irish Republican Army, the progressive forces of Labor, and the Communist Party have done splendid work in Ireland in combating the fascist movement of Cosgrave and General O'Duffy ...

Shall Hundreds of Thousands More Become Idle?

BECAUSE the arch-reactionary national Chamber of Commerce and the National Merchants and Manufacturers Association (together with their California sections) are demanding that the nation's budget be balanced by cutting WPA to the bone, hundreds of thousands of Americans must soon again pace the streets in idleness.

These are the fascist-like organizations whose full weight is behind the murderous terror in steel, in agriculture and other industries. Their demand for slashing WPA is not merely aimed at the WPA workers, but is another facet of their open-shop drive, for hundreds of thousands of WPA workers become unemployed if the living for those employed can be more easily be reduced.

### ALLIANCE IN WPA FIGHT, SAN JOSE, STA. CRUZ

#### Contra Costa Labor Council Asks It For Delegates

SAN JOSE—The San Jose Local 80 of the Workers Alliance has opened a fight to halt drastic cuts being made in WPA jobs.

Increased seasonal employment gained by those cut off WPA in Santa Clara County will last but a few weeks, the Alliance leaders are threatening to launch projects from which workers were cut off should be held open and not abolished.

#### SANTA CRUZ—The Workers Alliance of Santa Clara County Local 1, has presented demand to the SRA and WPA administrators to halt drastic cuts in WPA jobs.

#### 'Save' WPA Etohes In California

(Continued from Page 1) Headquarters of the union are located one block away at 315 Montomey.

Groups of office workers stopped to listen to Joe Donnelly, county organizer for the San Francisco Workers Alliance, who explained the purpose of the demonstration. He has been since the heart of industry in the state and during the whole year.

At this point Sol A. Abrams, state secretary of the Republican Central Committee issued from the building, ushered by two attractive girls, and with dismay spread all over his face at the mass of human faces.

Meanwhile the committee of group number one was interviewing field secretary Gray of the California Manufacturers Association who admitted "there are no jobs, everyone knows that."

Fortified by the results gained at the Democratic State Committee in the Shuron Building, the marchers then converged on the Regional WPA office in the Monachok Building at the State WPA office at 785 Market Street.

When the workers committee reached the headquarters of the Democratic Committee, they were met by Mr. Smythe, member of the committee who announced that when Clifford England, head of the committee, would wire Washington to protest the WPA cuts.

### Will California Let Them Starve?

#### CHILDREN OF transients in San Joaquin Valley. Their parents, lured here by ads for cheap agricultural labor, are starving to death.

### A Tribute to the "Western Worker"

#### By Mike Gold

LOS ANGELES—I learned the other night that the California district is now second to New York in the number of Communist Party members it contains.

The membership roll of the Communist Party in any region is a barometer of social progress. The more the people are awake, the more Communists there are, and the more Communists there are, the more freedom is being won by the people.

#### Improved "Western Worker"

Picking up the last copy of the "Western Worker," which is the semi-weekly newspaper of the California Communists, I was agreeably startled to see what a great improvement has occurred.

A new editorial staff has taken charge, and they have lives, and they have the people behind them. I predict that California is going to furnish the nation with some big surprises during the next few years.

Some of our own journalists used to emulate Lenin in this respect, writing for the Russian peasant, rather than for the American worker. They were writing for the Russian peasant, rather than for the American worker.

#### The Importance of Our Papers

Our press is the sole representative of Communist thought and action to thousands of people every year.

Protests Aid Tom Mooney in Prison

RESTORE DIET ESSENTIAL TO MOONEY'S LIFE

U. S. Wide Protests Forced Warden to Restore Rights

SAN FRANCISCO—As a result of a storm of nation-wide protest, Tom Mooney's situation at San Quentin Prison is now improved. Following the protests to Governor Merriam, Warden Court Smith and California Prison Board members, Mooney was called into the warden's office and asked by T. N. Harvey, board president, what he wanted and what authorities should do to rectify the situation. Mooney then outlined the mistreatment accorded him since his return to San Quentin: How Mooney Was Mistreated Failure of prison authorities to give him the "sippy" diet essential to his life following his serious illness from bleeding stomach ulcers; placing him in a cell formerly occupied by a syphilitic, putting him to work under a blistering sun, where he collapsed from heat, lack of nourishment and fatigue; failure to give him back pay for his personal possessions; failure to restore him his job in the Officers and Guards Messroom, which he held 11 years before his transfer to S. F. County Jail for the habeas corpus hearing; throwing him in a receiving tank his first night back instead of to the hospital for needed care and rest; compelling him to do "cleaning up" work when he needed rest; treating him like a new prisoner despite his 19 years' unblemished record in prison.

What Protests Won Mooney was then given the diet he needed—milk, eggs, jello, butter and other soft foods. It was transferred back to his former cell. He was put to work in the prison farm kitchen, not the job he formerly had but where the food he needs is available to him. His possessions were returned. He is under regular observation at the hospital. The situation is greatly improved. In the capitalist press have appeared statements Mooney informed authorities "he had no complaints and was satisfied with the treatment accorded him. Needless to say, these conditions Mooney refers to are meaningless reports from prison authorities who are out to save their political skins. Mooney personally made no complaints because a complaint from a prisoner, no matter who he is, is worthless. Mooney would have gone to the jute mill or the dungeon had he been ordered to do so, and made no complaint. He would have gone without food until he collapsed, and said not a word. Mooney's Friends Said Plenty "But Mooney's friends and supporters had plenty to say. A delegation of representative political and labor leaders called on the warden and listed the complaints. The warden pretended not to know anything about Mooney, denying receiving a copy of Mooney's diet, even though copies were sent him by Mooney's attorney. It was only after a storm of protest from individuals and organizations throughout the country, from the American Civil Liberties Union, International Labor Defense, United Automobile Workers of America, Maritime Federation of the Pacific—a prominent group of Hollywood actors, and countless others, that Mooney was given the fair and equal treatment he was entitled to and food he needed for his very life. Mooney Thanks Friends The situation is improved, but all friends of Tom Mooney must keep constant vigil lest prison officials attempt to restore the old regime for Mooney when the excitement of the present campaign of protest subsides. To all friends and supporters who made it possible for Mooney to have equal rights accorded him, and his diet obtained for him, the Mooney Defense Committee sends its grateful thanks. Although Tom Mooney cannot write his many friends because of prison restrictions, he sends his profound and heartfelt thanks and his warmest fraternal greetings.

UPHOLSTERERS' PICKETS FIRED AT IN WHITTIER

Police Give Sanction To Scab Violence Against Union

WHITTIER, Los Angeles County—Attempting to break the strike of workers under the leadership of Los Angeles Upholsterers Union Local 15, the Century Upholstering Co. here is organizing violence against union pickets. "The foreman of the Century Upholstering Co. (known as the Morris Furniture Co.) fired a shotgun at our picket line," declared C. L. Yost, financial secretary of Local 15, in a statement.

Cops Okay Terror

"Several shots hit quite a few of our members, others were hit by fragments of brick, etc., when the shotgun charge hit the pavement. When our pickets complained to the Whittier police, they were told they could not arrest the foreman for shooting at them, but if complaint was issued, they would arrest him. Evidently pickets are not citizens according to Whittier laws.

Machine Guns May be Next

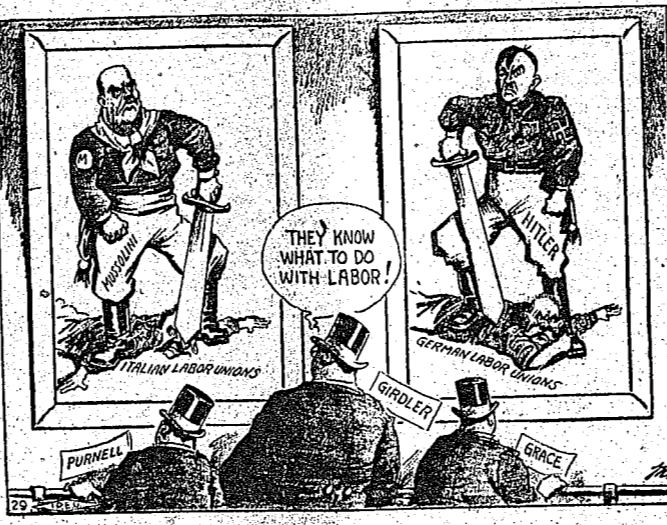

"So anytime you want to risk your life, just show up on our picket line in no man's land, Whittier, and watch the scabs parade by with their rifles, shotguns and perhaps they will be furnished with machine guns, now that they can get away with it.

(ILA 38-79 Press Release)

SAN FRANCISCO—"It is not personalities, it is the question of a program,"—this is what ILA 38-79 delegates to the Maritime Convention reported to the membership here July 19.

One Program Undemocratic

Convention records show two programs put forward. One, supported chiefly by the unlicensed sea-faring representatives, was to turn the Federation into a sort of industrial union confined to the West Coast, and proposed an executive board of 11 members—one from each coastwise organization—to have power to hire and fire editor of the official organ, "Voice of the Federation," besides determining editorial policy.

Cactus Queen Mine Strike Is Still Solid

HELP LABOR'S PRISONERS IN MILK DRIVE

Their Children Need Milk—Donate to ILD Fund

By ANITA WHITNEY (State Chairman, Communist Party)

In its attractive little leaflet sent out to remind us of its annual Summer Milk Drive, the International Labor Defense gave us some pertinent facts I think should be brought to the attention of all Western Worker readers.

Of the labor prisoners on the files of the International Labor Relief now in our jails and penitentiaries, there because of their militant activities in behalf of labor, the heads or wage-earners of 25 families are serving life sentences. Two are serving 90 years. Scores are serving terms of 5 to 25 years, hundreds are serving short terms of from three months to one year.

The only regular income the families of these prisoners can count on is the monthly relief check from the Prisoners Relief Fund. What about the kiddies in these families, kiddies who need milk every day and three times a day! The only extra nourishment the children are assured of is the milk they get during the summer as a result of the Summer Milk Drive, and there are more than 250 children in long term prisons alone, to say nothing about thousands whose fathers are serving shorter terms.

Milk is just one of the vital essentials of healthful childhood. Won't you help the ILD to see that the children of these men—in jail for you and me—get milk during these summer months? Won't you feel this is an important part of our job in furthering labor's fight for better working conditions in the agricultural fields as well as in the industries of our cities? Think how it will hearten the men in jail to know that on the outside someone is looking out for their kiddies! Think how it will strengthen the picket line and the men fighting in the front line trenches of labor's battle to know that this elementary need of their children will be provided for if anything happens to them!

At the inspiring Press Builders' Conference in Los Angeles July 18 the delegates sang "Comintern." Their voices rang out triumphantly as they sang the first verse, then changed as softly and with much feeling as they began the second verse: "Oh you who are missing, Oh comrades in dungeons, You're with us, you're with us."

The ILD calls upon us to transform this emotion into action in behalf of the children of labor's prisoners: to give ourselves and to help build up the funds of the Summer Milk Drive. Contributions to the Milk Fund can be taken or sent to ILD district headquarters, Room 410, 1005 Market St., San Francisco, where receipts will be issued for all gifts.

"Oh you who are missing, Oh comrades in dungeons, You're with us, you're with us."

Business Agent Bob Says...

I SEE that Vandeventer is meeting with the Canner's League of California to get an "agreement" for the company unions he has set up throughout the state under AFL charters. This sure reminds me of those no-contest boxing matches where the crowd gets angry because it's a love match and no fight, and shout: "Turn out the lights—they want to be alone!"

WATERFRONT OFFICE UNION MAKES GAINS

Growing Membership Is Ready to Win Agreements

(ILA Press Release)

SAN FRANCISCO—The Maritime Office Employees, ILA 38-132, is definitely on the march. Due to the 1936-37 strike and other difficulties, they were slow in getting started, but now they report important new gains. Their membership has increased rapidly and they are now in a position to negotiate for better wages, hours and conditions on the waterfront. They report they have made inroads into two large companies heretofore considered difficult. They already have agreements with the River Lines.

Toward Unity

At their next meeting they will take up the question of affiliating with the CIO group which is now organizing the up-town office employees and the warehouse office workers. "But there is one point of weakness where longshoremen can be of help. It is the ILA's responsibility to see that the Front is 100 per cent organized. The man or woman in the office is an essential link in the chain of a completely organized job."

How to Help

What can the stevedore and the stevedore bosses do? At present, with only one organizer in the field, it is impossible to keep close contact with all the docks. Stevedores at Encinal, Howard and Grove terminals in the East Bay see the office workers at these places—point out advantages to be gained in wages and hours through organization, and that they will be expected to join the Union of Maritime Office Employees when the organizer comes around.

Sign Them Up

If you can, get them to sign up right there—make out a piece of paper with name, address, months or years on the job and company—and see that it gets to the ILA Publicity Committee, 27 Clay St., as soon as possible. They can sign the printed application blank and hand in the initiation fee (\$5) and dues (\$1.50 per mo.) later.

KU KLUX KLAN RIDING AGAIN FOR WALL ST.

ATLANTA, Ga.—With Wall Street cracking the whip, Hiram W. Evans, "Imperial Wizard" of the Ku Klux Klan, jumped up here to shout that the CIO is "infested with Communists and the Klan will ride to wipe out Communism."

Evans also threatened violence against AFL unions, saying: "The Klan also views with alarm the American Federation of Labor's effort to copy unwholesome and un-American CIO activities."

Open-shop forces are trying to resurrect the Klan as a weapon against organized labor.
