NEGRO PEOPLE Oakland Boy Gives G. O. P. POWOW PLANS WEDGE INTO DIXIE

Denounce View of Japan's Victory Will Help Colored Peoples By CLINT DUFF

That a Japanese victory in China will preface no improvement of the conditions of the world's colored peoples is the opinion of San Francisco Negroes. They are to be heard at the Japanese propaganda has taken among American Negroes. San Francisco Negroes seemed almost unanimously opposed to the invasion. They are apparently unaware that Japan is a fascist nation. The idea that Japan was championing the cause of the oppressed peoples throughout the world. In a poll of sentiment on this subject the present attitude of the Negroes in San Francisco is as follows: The attitude of San Francisco Negroes is especially significant because of the community here borders the Japanese colony and the two races mingle in business and social life.

Western Repeats Charges

People Are the Same "The course of the war," said Martin, "how the thing stacks in the Negro community. And as to what we might expect, we are not sure. I don't know," said Mrs. G. Leonard, "look at what we've gotten right here. Not long ago the Japanese restaurant on the corner forced one of our places out of business. A Japanese boss is no better than a white boss. They're both workers recognize issue. Summarizing the matter of Negroes in business, and expressing the viewpoint of the Negro workers in San Francisco, the Greer veteran longshoreman and waterfront leader, declared the rumor that Negroes favored a Japanese victory to be a gross distortion.

Killinger Admits Terrorist Charges Made in Congress

Congressman Tells Gory Record of Killing By UEL DICKSTEIN (Congressional Record, July 27, 1937)

It is quite a stretch from Andover, N. J., to San Francisco, Calif., and between the two lies the whole territory of the United States of America. But to Manfried von Killinger, it is only a matter of time to operate a network of propaganda, and the United States is only further the interests of the Nazi master of Germany. And it is not surprising that only a few weeks ago public opinion in this country was started with an announcement that a Nazi adventurer, Manfried von Killinger, had been admitted to membership in the German consulate in San Francisco. An article in the German-American weekly, Volksecho in New York, included a biographical account of Von Killinger's career.

Trained as a Diplomat

Killinger belonged to that group of officers who after the outbreak of the war turned themselves to civilian life. So he became an adventurer, a wanderer, a German consul in Japan and in France. He was also a member of the secret organizations. One of these groups which he helped to organize was the "German Party" in Mississippi. The purpose of this organization was to spread the Nazi propaganda. He was also a member of the "German Party" in Mississippi. The purpose of this organization was to spread the Nazi propaganda.

Trimm His Sails to Fit The Breeze

The leader of this revolt was the colonel and supreme S. A. leader, Stennes. Killinger joined the revolt. At this time he was in the United States. He was in the United States. He was in the United States. He was in the United States.

Joined the S. A. After Career as Terrorist

Later, when the Ehrhardt riot and the Consul organization were in the United States. He was in the United States. He was in the United States. He was in the United States.

and a promise of future rent checks. And got the light and gas paid too. Of course, the bulls blustered a lot, but what the hell? We were the political leaders of that area, and we were going to make it stick. Bombs? We left that to the bulls. When we got back they didn't interfere with our organizing speech. Out of that action we formed an Unemployed Council, and within a year or so we had stopped all evictions and threats of evictions in North Beach, had several evictions, and had even more up around Fillmore street.
