RAIL PEACE WILL COME NEXT WEEK

Conference Between Heads of "Big Four" Brotherhoods and Railroad Executives Adjourned Until Meeting Wednesday Where Shop Men's Strike Will Be Discussed

The latest of the numerous conferences looking toward rail peace was adjourned last Friday to be resumed sometime after the meeting of 148 leading railroad executives that will be held in New York City Wednesday.

The conference that began in Washington, D. C., after Harding recommended the getting together of the executives of the brotherhoods...

Nothing is known of the nature of the discussion or of any developments that took place, as all parties to the conference are extremely tight-lipped.

The widespread sympathetic strikes that were developing last week have been sabotaged by the traitorous officials of the Brotherhoods...

Instead of creating a united front of all the workers on the railroads of the United States...

Such an attitude totally ignores the fact that the interests of all the railroad workers are being disregarded...

In order to avoid wide-spread strikes on the part of the members of the other unions...

Meanwhile the betrayal continues. So far it is known that Clegg, head of the strikers...

The obvious outcome of the strike must be betrayal of the men by the reactionary leaders...

Our citizens visiting elsewhere have been compelled to share their own shame...

Representatives of United Mine Workers of America and the Coal Operators of Seven States, Representing Approximately 100,000 Miners Reach Agreement to Reopen Mines With Conditions Just as They Were Before Calling of Strike

COLOSSAL BETRAYAL OF THE MAGNIFICENT STRUGGLE OF MINERS

Lewis & Co. Barter Right to Strike In Treacherous Agreement That Places Future of Coal Miners in Hands of Fact-Finding Commission To Be Approved by President Harding; Traitors To Labor Must Be Eliminated

After nineteen and a half weeks, the coal strike in the bituminous fields is practically over. The Cleveland conference of representatives of the miners' union and representatives of operators of seven coal mining states signed an agreement continuing the old wage scale in effect before April 1.

Miners were ordered back to work by their district officials as fast as the representatives of the operators signed the agreements. It is estimated that about 100,000 of the more than 600,000 on strike were now back to work.

The burden of that part of the message is that scabs must be protected by the government of Harding appears greatly alarmed and declares that "it is terrifying to know that such madmen are in the hands of the law."

All mine operators were sent in their joint conference re-opened on strike are to be opened immediately upon the exhaustion of supplementary contracts existing to March 31, 1923, on the terms, provision and conditions of the contracts.

The continuation of John L. Lewis and his associates, because there was no wage reductions when such reductions of from 25 to 40 per cent were demanded by the operators before the strike was called.

Exposing the Face About Social Revolutionaries

Secret Archives of Hirings of Allied Imperialism Confronted by Representatives of Soviet Government in Paris—Accepted Memoranda From Prime Minister of Czechoslovakia and Work of Military Mission and Polish White Guard Generals.

The Secret Archives of the S. R.'s

The Soviet Government has succeeded in confiscating the secret archives of the S. R. organization in Paris, the so-called Administrative Center, consisting of Kerensky, Adashevsky, Zenzinoff, Bruchovskiy, Tcheronoff, Machin and others. The archives weigh five tons, and until now only a small part of it could be ascertained. The material already assorted deals with the activity of the S. R. Party during the year 1921. The last of the assorted documents are dated December 21st, 1921. They have been published in Moscow in pamphlet form entitled "The Work of the Foreign S. R.'s."

In 1921 the S. R. Party lived on the money furnished it by the Czechoslovak and French Government as well as by the Russian White Guards.

These facts are proven by the following documents. Kerensky, the former Foreign Minister of the S. R. Party, reports to Bolshevik members of the Administrative Center on the 25th of December 1921, that he had received 150,000 francs from the French Government. He states that he had received 150,000 francs from the French Government, which he had used for the maintenance of the party in Paris. He also mentions that he had received 150,000 francs from the Russian White Guards, which he had used for the maintenance of the party in Paris.

He also mentions that he has received 150,000 francs from the Russian White Guards, which he has used for the maintenance of the party in Paris.

In the S. R.'s in Paris, there was conducted the work of the Czechoslovak Mission. In his letter of the 15th of September, Bruchovskiy gives a report of his negotiations with the representatives of the Central Committee of the Czechoslovak Mission. He mentions that he has received 150,000 francs from the Czechoslovak Mission, which he has used for the maintenance of the party in Paris.

These documents exist in Finland from the very beginning. A Few Questions to the Second and 2 1/2 Internationals

While this material before the largest masses of the working class. We bring it also before the delegates of the S. R.'s, which have just opened the Congress. We ask them to answer the following questions: 1. How do we explain the fact that the S. R.'s have received 150,000 francs from the French Government and 150,000 francs from the Russian White Guards?

2. How do we explain the fact that the S. R.'s have received 150,000 francs from the Czechoslovak Mission and 150,000 francs from the Russian White Guards? 3. How do we explain the fact that the S. Finger Print Evidence Can Easily Be Faked

System Declared To Be Absolutely Worthless, But Still Used in Courts of Law Although Forgery Is Simple Task; Only Valuable in Establishing Identity, But Worthless in Court as Evidence

EDITOR'S NOTE.—This remarkable cadavre interview contains revelations which are certainly the most important in the history of infidelity as applied to finger print evidence. It takes the question of the finger prints which have been sent into prison on the strength of finger impressions that were deliberately forged on the 10th of May, 1921. (Copyright 1922 by Defense Service.)

CHICAGO.—There is a legend, which has gone around the world with the sun, that finger-prints found on any object are indispensible proof that that object was touched by the hand which is in books authored by scientists. It is pronounced gravely.

But this cherished belief is a bubble that is ready to burst. All the latest finger-print evidence can be faked, according to Albert E. Weidie, lately a laboratory investigator with eminent success in Leavenworth penitentiary. Among his duties there was the task of developing and photographing latent finger-prints. In an article supposed to have been used in the commission of crime.

No Good As Evidence "Finger-prints serve well in another way. As a means of proving identity, as a system of registration, they are a most valuable asset in any court. FINGER-PRINTS ARE ABSOLUTELY WORTHLESS, and I am willing to demonstrate the truth of my statement to any one here in my place."

"Finger-prints can be forged through the use of a special device. This device was invented by a man named John J. Williams. He invented a special device which could be used to forge finger-prints. He invented a special device which could be used to forge finger-prints.

SOCIALIST PARTY ECONOMICS

Readers of the New York "Call" were treated to a rare discourse on economics in relation to the close of the Coal Strike...

Now that the strike is practically over, who will pay for it? asks the eminent editor of the "Call"...

Now, let us examine the economics of the "Call" article. We will state that monopolistic prices for coal are based upon the unfavorable condition of the industry...

Monopolistic prices of coal simply means that the coal barons not only realize the surplus produced by their own workers...

But even this favorable condition of the coal barons cannot long obtain...

But aside from the question of who pays the bill, there is another fundamental error...

we were exploited as consumers it is plain that the capitalists as individuals would have greater cause to complain than the individual workers...

The worker receives, and it is plain that he must receive sufficient wages, on an average, to purchase the necessities of life...

Now, even granting that the cost of the strike will be placed upon the shoulders of the workers, there is the question of the social attitude...

The logical conclusion from the argument of the "Call" is that strikes are public calamities to be avoided by substituting public ownership...

"Nationalization of the mines simply means that control of this basic industry is taken from the hands of the present mine owners...

On Tuesday a defective locomotive, hauling a train of coal, road near Worcester, Mass., suddenly erupted into the air...

DEFECTIVE ENGINE CAUSES RAIL WRECK

Two dead, fourteen seriously injured and scores hurt as the toll exacted by the Boston & Albany railroad in its efforts to break the strike of the railroad shopmen...

Shee McDonal, wife of the engineer said that her husband had complained that the engine was running queerly...

The company, as is usually the case, is endeavoring to create a split among the men on the trip...

simply repeating a petty bourgeois hallucination to the effect that there is a public standing outside the class struggle...

The criminality of the yellow socialist consists in its attempt to divert the struggle for the immediate needs of the working class into reformist channels...

The genuine revolutionist, instead of appealing for futile returns at such a time, will urge an incessant and ever-sidening struggle on all fronts...

THAT CONSPIRACY

The calling of the shopmen's strike three months after the strike of the coal miners was branded as a conspiracy between the two organizations...

Now that the leaders of the United Mine Workers of America have signed up with the mine barons...

The bankruptcy of the capitalist system and of the bourgeois state become more apparent every day...

Amalgamation of all the unions in a given industry into one union and then unity of action between these industrial unions is the most pressing need of the working class today...

The New York "Times" has become an apostle of a "new unionism"...

THE INJUNCTION

New that injunctions have become the order of the day and soon will be issued by village justices, town court judges and court house janitors...

The representatives of the company are usually the foremen and superintendents, who control the jobs of the representatives of the men...

We fail to see any opportunity for the workers in such an arrangement. In the first place the two men who represent the workers on the supervising committee must obtain the consent of both the representatives of the employers...

This is the new unionism which the "Times" declares is working wonders on the Pennsylvania railroad system...

In spite of the benediction of the "Times" the capitalist unions are doomed to perish because they are economic abortions...

APPEAL AGAINST WHITE TERROR!

Communist International Calls Upon Workers of World to Resist Spread of World Horror Against Capitalism

PROLETARIANS OF ALL COUNTRIES!

The bankruptcy of the capitalist system and of the bourgeois state become more apparent every day. This is accompanied by the passing of the proletarian masses from slavish passivity to active struggle...

The bourgeois, the bully and torturer have been placed on the order of business by the bourgeoisie in the last days of its rule...

SHOE WORKERS WIN STRIKE

After resigning from the Boot and Shoe Manufacturers' Association, the San B. Wolf Shoe Company of Cincinnati signed an agreement with the Boot and Shoe Workers' Union...

"methods of investigation" practiced by Mr. Szwedki and which put even the Carlist police in the shade...

The situation, however, pours out its furious rage on the Communist Party. Up till recently, "Democratic Poland" contented itself with applying to the Communist Party...

This is the white terror, however, will not save the bourgeoisie in the Balkan and Danube states have already introduced "white terror" in the past...

It was finally sentenced six years and labor not even on account of membership of the Communist Party...

In Jugoslavia the same thing is being repeated as in Poland, the middle class fear the white terror...

The Communist movement had struck its roots so firmly that the repressive measures of the government proved helpless against it...

Long live the proletarian united front! Long live the revolution! Long live Socialism!

The Executive of the Communist International.
