### Not Coming.

One can imagine the despair of Mrs. Newrich, of Parktown, when the news arrived of the abandonment of the visit of the Prince of Wales. The resignation of Smuts and the possibility of a Government of Bolsheviks and Republicans coming into power was a small matter to the dreadful fact that all the anxious thought given to the question of the frocks to be worn at this or that function to attract the DEAR prince's eye were in vain.

The frantic efforts to get on the list of invitees to this or that public gorge or guzzle have resulted in nothing. It is a pity the list of invited guests was not published before the fatal announcement of the abandonment of the tour was made.

WHAT a time the dear ladies who were left out would have had sympathising with their DEAR friends who WERE invited and now are disappointed.

But, anyway, the nice new frocks and new clothes can be worn when the Nat-Labs organise their triumphal bust-up in celebration of victory.

### Friends.

----

The Right Honourable Arthur Henderson has been the guest of the senior officers of the British C.I.D.

The proceedings are reported to have been VERY CORDIAL.

The "Labour" Home Secretary said:
"The relationship between the Government and the police would be one of trust, confidence and real friendship."

Of course; what else could be expected from a party which hates Communists and militant workers generally more than they, do the capitalist class itself.

### Bonnie Scotland.

CAGES FOR WORKERS.

The "wild men" from the Clyde have become a bugbear to the capitalist Press and an explanation is often asked for their existence. Perhaps the following facts may have a bearing on the subject. Referring to the housing conditions in Scotland in general, and Glasgow in particular, Bailie P. J. Dollan says:—

"The great majority of houses in Scotland are one or two-apartment houses. About 50 per cent. of the population live in such houses against \( \forall \) per cent. in England."

The Royal Commission on housing in Scotland reported that there were in 1919 46,000 houses of ONE room and 83,000 of TWO rooms which were overcrowded, i.e., contained MORE THAN THREE PERSONS TO A ROOM. That was seven years ago, and the position has grown steadily worse.

One effect of this overcrowding is seen in the health and mortality returns. Three infants die in the small house areas to one in the large house districts. The proportion of adult deaths is 2 to 1.

Seventy-five per cent. of tuberculosis victims come from small houses.

Of the 650,000 persons in Glasgow who live in one or two-roomed houses 10,000 are officially known to be suffering from tuberculosis.

A recent enquiry revealed the fact that in Glasgow 22,000 persons were sleeping in the same room as consumptives.

The density of population in a well-planned town should not exceed 50 persons per acre. In some Glasgow districts it reaches 472 to 700 per acre. These boxes are by courtesy called houses. They are more deserving of the title of cages or dens for wild animals.

Such conditions may account for the Clyde "wild men."

### Not a Pleasure Trip.

GEMMILL BLURTS IT OUT.

Mr. W. Gemmill, General Manager, Chamber of Mines, commenting on the selection of the Rand Club as the residence of the Prince of Wales during his visit to Johannesburg, says: "The Prince's tour is not a pleasure trip"... "and the Prince's enjoyment is a secondary matter."

Quite so. Have we not always pointed out that Royal popinjays are but the puppets of the real rulers of the people.

The capitalist wire-pullers care as little about kings and princes as the most revolutionary Socialist, but they are useful as a means to gull the Henry Dubbs.

So in common with professional amusement-makers of all kinds, including priests and other dope artists, the enjoyment of kings and princes is a secondary matter. Their business is to carry out the programme arranged for them by their masters, the finance kings, and if they should dare to kick their jobs would soon be vacant.

## Simplicity and Frugality.

"People could be happy in South Africa. It was God's country, but it would have to be a life of simplicity and frugality."—General Smuts.

Will Smuts contend that the unemployed, the relief workers and hundreds of thousands of other workers in railways, mines and workshops, to say nothing of land workers, do not live more than frugally.

The monstrous impertinence of such talk from the Prime Minister, who has put millions into the pockets of the rich at the expense of the workers, makes one's gorge rise.

### Literature for Elections.

A large consignment of the latest Communist and Socialist literature has just arrived, and an inspection is invited at No. 4, Trades Hall.

Our large stock of standard pamphlete have been marked down to home prices, and should be useful during the coming election campaign.

The terrorising of the workers by bomb, bayonet and areoplane, which is all that Smuts appears to understand of the art of Government, has made his name execrated in both town and country, and by black and white alike. The overbearing arrogance of the man is shown in his cavalier treatment of the League of Nations of which he is one of the leading advocates, in regard to the Bondelswarts massacre.

The callous treatment of the unemployed and ruthless retrenchment of civil servants, railway employees, school teachers, etc., have caused hosts of enemies to spring armed out of the ground as it were.

South African society is divided into two racial camps, and by that is not meant Hertzog and Dr. Visser, so where are we? It is therefore insinuated that they are Briton and Boer.

To a large extent such division as still is observable between the two main sections of the white races is artificial and kept alive for political and other purposes, which is proved by the fact that the S.A.P., representing big landowners and capitalists, includes both sections of plain the logic or justice of taking away BRITAIN, and are only fighting to level whites, and that the same is true of the Lab-Nat Pact, which represents the emaller farmers, petty bourgeois, and the higher-paid workers.

To everyone's surprise, in the "Star" last Tuesday appeared a notice stating that the debate had been called off owing to the J.S.A.L.P. having more important I business to attend to. It would appear that the juvenile "labbies" are learning early to emulate their seniors in the art of political lying.

But the Young Communists, quite undeterred, turned up in force, and it was resolved to proceed with the debate, coupling it with a discussion of the present very interesting political situation in South Africa. Comrade Ernest Shaw presided, and Comrade Roux opened the discussion on behalf of the Y.C.L. As there were no Labourites present who were anxious for the job, Comrade Harry Haynes and C. F.
