I believe that these words of Earl Russell, whom Com-rade Khruschov called "a courageous fighter for peace, courageous fighter for peace. for the prohibition of nuclear weapons tests and the prohi-bition of the use of these weapons" are worth universal attention. ANTI-COMMUNISM -WEAPON OF FASCISM

EDITORIAL

AFTER the softening-up barrage, of radio and press propa-ganda, the Nationalist assault on the "Communists" has been launched. Men and women against whom no charge has been proved or even alleged are subjected to the vicious punishment of house arrest. Banned people are slandered on the radio and forbidden by law to reply. A list of named "Communists' has been published in the Government Gazette.

These are the slimy factics of the fascist, who dirties everything he touches. All that is noblest and most progressive in our country is being dragged in the mud, while the perverters of truth, the apostles of the vile creed of racialism, the admirers of Hitler and the Nazi doctrine of the herzenvolk, sit in high places and exercise power. The "Communists" are being attacked and subjected to

penalties, not because of the crimes they have committed, but because they have been in the forefront of the resistance to the Nationalist policy of apartheid, because they have pleaded and worked for the achievement of equal rights for all, irrespective of race, creed and colour; also because the Nationalists, like their European colleagues the Nazis and the fascists, need a scapegoat who can be blamed for all the evils that are befalling the apartheid republic, from bomb explosions in Cabinet Ministers' offices to sanctions resolutions at the United Nations.

Just how evil is the Nationalist mentality is revealed by the publication of the list of the 437 "Communists" in the Government Gazette. This list was drawn up in 1950, after the Suppression of Communism Act was passed, and purported to contain the names of people who had belonged to or actively supported the Communist Party when it was perfectly legal to do to.

Most of the 437 are no longer active in politics, but did not apply to get their names off the list because they had done nothing to be ashamed of and refused to turn informer in order to buy themselves security. For this they are being punished, their names broadcast to the wide world so that they can be ostracised and penalised by the community as a whole.

Yet in the very midst of their crusade against the "Commu-nists," the Nats are reaching out for new victims. The Minister nists," the Nats are reaching out for new victims. The Minister of Posts and Telegraphs, Dr. Hertzog, told a Randfontein audi-ence recently that the sabotage in the Republic was the work, not of the "Communists," but of "liberalist agaitators," Liberal-ism, which was the precursor of Communism, was the greatest danger threatening South Africa, even more dangerous than Communism for its methods were much subtler, he said.

Clearly the tactic of the witch-hunt will not be restricted to the "Communists" but will be extended to "liberalists," projuggersaud all who stand in the way of the Nationalist juggernaut. The whole country will be dragged ever deeper into Nationalist slime.

The time has come when those South Africans who have not yet done so must get down off the fence and devote themselves heart and soul to the struggle for freedom. Just as the resistance movements in Nazi-occupied Europe during the last war became a symbol of the unconquerable spirit of free peoples, so the fight for liberty and justice in South Africa can now be clearly seen as a patriotic duty.

We must rescue our country from the evil monster of Nation-alism which has got it by the throat. We must free our people of the apartheid tyranny. We must open the dungeons of oppression and let the prisoners return to life. We must cleanse the air of fear, hatred and suspicion.

A new way of life must be built in South Africa.. And we, the people, must build it-and start building NOW.

Doesn't Mr. Vorster in his cam-paign against Communism bear comparison with, and for those who believe that such system-logical and ascological signifi-cance, very tragic comparison with Captain Abab of Herman Melville's "Moby Dick?" Ahab, motivated by bitteness and a desperate desire for re-venee, ignores the real business of whaling (according to Freudian com-plex, symbolised by his wooden leg) and drives the unwilling crew of the Pequod against the White Whale. To be observed is the fact that Melville, whilst em-phasising the power of this whale, expresses something approaching

deep affection and respect deen affection and respect for it. The tracedy lies in the fact that when Ahab and the Pequed come into real conflict with the whale things eet out of hand and the entire crew were to a sink; the unwill-ing crew suffers because of Ahab's folly, "Moby Dick" apparently escapes.

The real moral of the story can best be expressed by parodying a well-known line of poetry: "For Ahabs may come and Ahabs

BOLEY ABENSTEIN UNDER HOUSE ARREST

DURBAN

MR. Roley Arenstein, a well-known Durban attorney, is the first Natalian to be placed under house-arrest by Mr. Vorster, He has been confined to his home for 12 hours a day and forbidden to leave the Durban magisterial district.

Long a target for Nationalist persecution, Mr. Arenstein played a leading role in exposing the kid-napping of Anderson Ganyile and in securing his release.

Twenty-eight demonstrators who protested against Vorster's order outside Mr, Arenstein's home last Saturday were arrested. They ap-peared in Court on Monday, when their case was remanded to De-cember 1. All were released on bail.

SACTU Protest Against "Savage Sentences"

THE South African Congress of Trade Unions in a statement asks what the Minister of Justice thinks he will achieve by his sayage sentences of house arrest on his most outspoken political opponents.

Does he believe that by scaling "Does he believe that by seating off these people in their homes or flats he will make Apartheid work-able and just? Does he think that the non-while workers will now abandon their struggle for living wages and their opposition to job reservation and all discriminatory Inws?

"Does he think that if these few courageous voices are no longer heard, the non-while peo-ple will abandon their struggle for a truly democratic South Africa with equal rights for all? Does he think that Bantustans will come into existence with no voice to say 'No? to say 'No'?

'And when he has turned South And when he has turned south African life into one vast unfunny game of Rugby with every non-Nationalist critzen 'marked' by a member of the Security Branch, what then? 'Apartheid' will be as unworkable and as unjust.

SADISTIC

"In the fourteen years of its existence, the Nationalist Govern-ment has ruled by bannings, arrests for high treason and incitement, deportation and banishment without trial, outlawing of orga-nisations, confinement of indivi-duals, censorship. To these has now been added the sadistic re-finement of bouse arrest.

"And the Government has achieved only a stultified economy with the mass of the people living with the mass of the people living in a state of either semi- or com-plete starvation, It has ended the rule of law and has made our courts impotent. It has violated every tenet of democratic rule and has brought upon us the condem-nation of the entire world.

"Yet, despite these restrictive practices, more non-white workers are organised into active trade unions than at any other period in our history and these unions have our history and these unions have won de facto recognition from employers; more non-white people politically conscious and are ving for the end to 'Apartheid' an and more whites come out daily in open opposition to the Govern-

Possibilities to exert US influence in Algeria are being searched for in the conomic field as well Some Algerian leaders are known to place their ereat hopes for their country's prosperity in oil and eas development

But this is the very point on which they may experience more disappointment and trouble from the United States than France could ever have caused them.

Companies half-owned by Americans have drawn up a plan of Algerian oil production calculated to serve European necks only and also meant to secure a second strategic resource of fuel in case an unex-pected situation in other oil areas especially in the Middle East, would occur.

The US project would follow the principle that Algerian oil production should not impede the busi-ness of the ARAMCO oil concern and would thus not cause instability of oil prices in the traditional markete

Therefore, it is natural that Washington would like to see a regime in Algeria which would give preference to fo-reign investors' interests and would not embark on indus trial development projects based on the country's reve-nues from the oil industry. A LLEGATIONS by Potlako Leballo of bad treatment in jail have been denied in a press interview by PAC leader Robert Sobukwe.

The allegations were made by Leballo in an article in the British press. He said both he and Sobukwe were brutally assaulted by warders, who attacked them with batons and pick-handles. Sobukwe was so badly battered that he could not move or a fortnight.

"When I left Pretoria prison," wrote Leballo, "Sobukwe was living in a filthy vermin-infested cell. When it rains, Sobukwe is forced to stand in water throughout the night until he can mop

the water out in the morning." Leballo alleged that they had been kept in solitary confinement for four months, were not allowed to change their clothes, were not allowed to wash themselves and were not allowed any visits. A reporter of the Johannesburg Sunday Express was allowed to interview Sobukwe in prison with the permission of the Minister of Justice, Sobukwe denied all the allegations. "ABANTU-BATHO" – ORGAN the dedication to the cause of so-cialism was unquestionable. **OF CONGRESS**

AT an historic meeting in Bloemfontein on January 8, 1912, the South African Native National Congress was born. It had been summoned by P. ka Isaka Seme who had brought together all the Vigilance Associations, representatives of nearly every Para-mount Chief in the country, church organisations-practic-ally every existent African body-and they had amalgamated in one Congress. This was the direct antecedent of the African National Congress.

The Congress newspaper, Abantu-Batho, set out the 21 ob-jects of the organisation in its first issue, which called for the removal of the colour bar in the political, educational and industrial fields.

Its first editor was Robert Gren-Its first editor was Robert Gren-don, who also distinguished him-self as being the first African to address a Socialist meeting in South Africa. He spoke at an In-ternational Socialist League gathering on "The link between Black and White."

Black and White." But "Abatu-Batho" did not prove very militant in its first years and during the early part of the 19114 war it was particularly docile. It dissociated itself entirely from the industrial struggles on the Witwatersrand, but this is readily understood as the African readily understood as the African reachy understood as the Arrivan working class was still small and completely unorganised. There was in fact no visible reason for the Africans to support the white workers of the Rand who were fighting tooth and nail to maintain the available at that a white skin the privileges that a white skin gave them.

Then in November 1916 there appeared an article 'Native Drud-gery' in ''Abantu-Batho'' which revealed an awakening of the African nationalists: The article

stid: "The unkilled labour and drud-gery of all kinds, both at the unises and in the urban areas, are done by Native people ... They form the major population of the country and they belong to the working class. They are the main-stay of the country's industries and the backhone of the land's prosperity... And they are the most worked and the feast paid his dog than he does of the black man whe does all the work for his comfort."

Women Against Passes

"Abantu-Batho" played a vital part in the years of the fight of the Free State African women against passes.

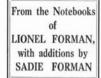

In July, 1913, 600 women in loemfontein marched to the mu-Incentiontent marched use due into-nicipal offices and asked to see the Mayor. They handed him a big bag. When he opened it he found it crammed full of the women's passes. They told hims they would not be using them any

more. The biggest demonstration took place at Winburg where 800 wo-men marched. Many were arrested and dispersed throughout the jaily of the Free State. "Abanta-Batho" tells that ANC leader Solemon 1. Plaaige wisited the women in the Kroonstad jail and the tears rolled down his checks when he saw the terrible prison conditions. But all the women wowed that when they the women vowed that when they came out they would never carry passes.

It was "Abantu-Batho" that car-ried week-by-week news of the courage and determination of the

Free State African women. During the 1920's the newspaepr became less and less of a political became less and less of a political mouthpiece of the African people. After a succession of editors, in-cluding Mweli Skota, the author of "Black Folks" Who's Who." Saul Msane and Selope Thema, it was finally bough out by the African and Indian Trading Asso-ciation in 1931.

Arrican and Indian Trading Asso-ciation in 1931. It is a tragedy that "Abantu-Batho" is one of those papers that seems to have been irretrievably

lost. No library in South Africa has copies of it prior to 1930, and all attempts to trace a collection of copies have proved futile.

"The International"

"The International" While "Abantu-Batho" was at-sempting to find a firm footbold in an African consciousness, the labour Party. An editorial in an early number marked the first bold steps towards a truly Socialist policy:

"An ' internationalism which "An' internationalism which does not conceive the fullest rights which the Native working class is capable of claiming will be a sham. One of the justifica-tions for our withdrawal from the Labour Party is that it gives us untrammelled freedom to deal, regardless of political for-tunes, with the great problem of the Native. the Native.

"NOT TILL WE FREE THE NATIVE CAN WE HOPE TO FREE THE WHITE."

In almost every subsequent issue of the "International" Jones stressed this new-sung theme, strongly supported by S. P. Bun-

ting. Many years were to pass before South African socialists-including of course, the Non-European so-cialists, whose numbers grew cialists, whose numbers grew steadily over the years-began to understand that the very opposite was true, that it was the Africans who would bring freedom to the Whites. Nevertheless, Ivon Jones' editorial marked an important milestone.

"Conquerors of Race Prejudice"

The efforts of men like Jones, Bunting, Clarke, and in Durban, L. H. Greene, and later W. H. Andrews in Cape Town to reach out to the Africans and draw them into the IS.L. was by no means plain sailing, but they did show considerable progress.

show considerable progress. Meetings were called to which ANC and APO speakers were in-vited. In March 1917 an historic meeting was held in the Trades Hall, Johanneburg--the first poli-tical action taken by the socialist on a matter not directly linked with the while workers. At the meeting the "Interna-tional" reported Jones was chair-man and Saul Msane was the main speaker. He opened his speech with the words: "I hail you as conquerors of race prejudice." S. P. Bunting and Horation Mbelle of the ANC also spoke.

In its rulite way the "Interna-tional" established itself as a sup-porter of the African cause, and as representative of Whites who sought equality for alL

There was a singular lack of "journalese" in the newspaper. The articles were written in good literary style and the standard of theoretical material was high. And

The

"South African Worker"

In 1926, on January 1, the "In-ternational" changed its name to the "South African Worker," the first issue of which stated that the new title would "emphasise the CLASS basis of the Party's objec-tion on class interest against a common class energy that unity of the working-class—international or the working-class —international or inter-racial the world over-can be attained, and without unity we cannot win."

But the "S.A. Worker" did not really devote its interest to the African, Indian and Coloured workers. It turned for news mainly to issues of international social-ism and the Labour Party, al-though it gave full coverage to the ICU (Industrial and Commercial Workers' Union-a tremendous organisation of African workers).

"Umsebenzi"

It was to meet this need of a workers' paper that would reach out to the lowest paid industrial labourers, the Africans, that "Um-schenzi" was launched, early in 1930, from a tiny upstairs office in Hanover Street, Cape Town. Berbere the most exciting and

in Hanover Street, Cape Town. Perhaps the most exciting and the most tragic news reported by "Umsebenzi," was the great pass-burning of 1931 at Cartwright's Flats in Durban. There had been a country-wide

campaign to burn passes on Din-gaan's Day, December 16, and tension was mounting as the day drew nearer, Support for the campaign was particularly strong in Durban, while in other centres restrong in sponse was moderate. "Umsebenzi" described the tra-gic events of that day in Durban. "The meeting began at 11 a.m. and continued into the afternoon. It was enthuisatic but quiet and orderly. END BORDER TRAGEDY -Call by World Peace Council

The following statement has been released by Prof. J. D. Bernal, chairman, on hehalf of the World Council of Peace:

TITO TO NEHRU

"It is well known to us and the whole world that you and your country are devoted to peace and to the principle of solving problems among people and nations in a peaceful way which would lead to an honourable solu-tion of this problem to your country. I firmle believe tion of this problem to your country. I firmly believe that well-intentioned initia-five of some of our mutual friends from non-aligned countries could contribute in finding out a solution of this problem."

SUPPORTERS of peace everywhere are deeply concerned with the tragic conflict involving the two great Asian countries, India and China. Both peoples are by tradition devoted to the cause of peace and national liberation from colonialism. The hostilities arising from the imprecise frontier demarcation

are now verging on open war. Their continuance can give aid and comfort only to the

enemies of peace. If prolonged, they may tend to spread to the extent of endangering world peace.

SPIRIT OF BANDUNG

Offers of negotiation have been made, The first necessity is an immediate ceasefire, after which negotiations should be taken up on a mutually satisfactory basis, as urged by the heads of certain non-aligned States in Asia and Africa.

These should lead to a settlement in the spirit of Bandung, which would be in the interests of the peoples of both countries . . .

We urge all peacelovers throughout the world to further such an outcome.

The artistry and creativity of Chris McGregor's group which amalganated with the sensational Dudu Pukwana "Jazz Gianbi" after the Johannesburg jazz festi-val last month, was undoubledly the nearest thing to international class that South Africa has pro-duced since Dollar Brand's "Jazz Epistes." This has landed him in the soup with many jazz show promoters but ''The Jazz Scene." promoters but "The Jazz Scene," I am certain, compensated for all this, Although a modest young man, I am sure Chris is proud today after experiencing the power which his multi-racial group gene-rated at the show.

Dudu Pukwana, who won the Dudu Pukwana, who won the Jst prize for the best alto-solo at the festival, displayed a very strong Ornette Coleman influence bat fortunately (and minaculosky) he has managed to retain a unique originality in his phrasing. Chris's approach to the modern fidiom has also been influenced by Coleman's altitude and he has found a way of blending this beautifully with the attitudes of this two other koloi. Parker and Monk. To Chris too, goes the distinction of being "The only group leader who takes an active promotional interest in other musicians' compositions." BEST NUMBERS

PLACARDS protesting against house-arrest and deportations were displayed by demonstrators who lined a portion of Adderley Street, Cape Town, last Saturday morning.

Among the slogans were the following: "House Arrest is Living Death"; "The Past is Vorster's, The Future is Ours", "Fight Anartheid, Fight House-Arrest -First Step to Concentration Camps."

Special Branch men, accompa niel by a police photographer, were soon on the scene, taking down the wording on the posters, and asking the demonstrators for their names and addresses.

A number of demonstrators who declined to give the informa-tion asked for were taken to Cale-don Square and later released.

One of two Special Branch men who approached Miss Sylvia Neame called her a liar when, in response to a query, she told them that she was a student.

A spectator, shocked by this provocative rudeness, remonstrated with the two policemen and asked them for their names. They re-fused to give them and told him to "b— $-\infty$ ff."

The police confiscated the posters and broke up the demon-stration after it had been in pro-gress for just over quarter of an hour.
