## ORGY OF POLICE VIOLENCE

## Mass Anger Twisted Into Anti-Communist Frenzy

## 60 Communists Wounded -- One Lakh Damage

## To Party's Press And Property

QUBHAS BOSE DAY CELEBRATIONS IN BOMBAY YESTER-DAY (JANUARY 23), SAW THE BIGGEST ORGY OF POLICE VIOLENCE AND MASS OUTBURSTS BY THE PEO-PLE AGAINST IT.

it the Pranthana Samai.
The processionists wanted to go along Sandhurst Road, Bhendy Buzar, otc., through the Muslim area anti-Communist groups appeared on to Madhay Bagh. The Commissioner the scene to turn the anti-Police hatof Police banned the procession and red into a concerted attack track track. wanted it to go by another route, via Vithalbhoi. Patel Road, and cordoned off Sandhurst Road,

The processionists refused to do so. Then the Police resorted to lathi charges and tear-gas attacks. The rage of the people at this brutal re-pression could be seen in this that from houses of middle-class families, stones, chappals and old tiles were thrown at the Police. Water was thrown on the demonstrators to save them from the effects of tear gas.

CONGRESS LEADERS' ATTEMPTS

As Police violence and people's enger began to mount Provincial Congress leaders like Sjt. S. K. Patil came on the spot and tried to make the processionists take another route. But by now the crowd had got out of all control and they would not listen to the Congress leaders. The procession had been organised by the Committee headed by Mr. Abidali
Jafferbhox and Sit. G. G. Mehta.
Abidali was arrested and uptil
about 1:30 p.m. the battle went on,
the Police using tearges and bullets
and the people using stones, buckets, anything that came in handy.

Finally, a section of the procession went by another route, while the peoole formed mid smaller processions and rushed along Sandhurst Road towards Bhendy Bazar. Golpitha, was another scene of battle where the Police fired several times, and crowds set fire to a lorry. The fury was terrific and the Police were beaten back the whole length from Golpitha towards Dhendy Dazar, for a distance of over 100 yards.

By this time, hooligan elements had seized control of the situation in the locality and along Sandhurst.

in the locality and along Sandhurst Road, from two o'clock onwards. barvicades of fire were put up. By 4 p.m., a hooligan group had started looting the Government Grain Shop on the ground floor of the building of Raj Bhuwan, where the head-quarters of the Communist Party (P.H.Q.) me located, They burnt furniture, signposts, signbourds, etc., indiscriminately, pulled out from the

ANTI-COMMUNIST TURN Throughout this time the Police

#### Bloodbath For Workers

(Continued from page 2) nospital for the cremation ground. They were followed by at least 50,000 men and women. Never before had such scenes been witnessacd in Gwaljor.

After the cremation, a huge meet of 3,000. ing was held at Hajera Maldan with Mr. Abdul Rashid, the President of the Anjumane Islam, in the Chair. The leaders of all parties swore to stand by the workers in their just struggle to the bitter end.

Mr. Powar iganted to teach the workers a lesson. He has succeeded in it. He has taught them home to face bullets. He has taught the entire people hous to stand together

The strike continues. Two new demands have been added—the demand for engity, into the firing and the demand for the turning out of Power and Mandella from Live. How and the entire people of Gwallor, ore behind these demands.

The incidents started at 9.30 in would appear at intervals, re-the morning, when a procession sort to firing, wounding and kill-organised by the Bose Birthday ing, with the crowds not moving Celebration Committee was stopped away but withdrawing to a distance and deflantly throwing stones quite openly at the Police.

Party Headquarters and Press Tak-ing advantage of the fact that near the P.H.Q., the Pollee had fired on the people and the Government Grain Shop was on the ground floor of the building housing the P.H.Q. they directed the attack on our bookshop. None of the other shops were touched They broke open the bottom part of the front door of the bookshop. The mass of the people, who were furlous against the Police. looked upon these hooligan acts with passive acquiescence.

We had anticipated that anti-Communist elements would be most active on a day like this and had prepared to defend the P.H.Q. with 100 comrades. We immediately organised the removal of books from the shop through the rear door. A regular chain of comrades shifted all the books to the first floor of the P.H.Q. Another group of com-rades were defending the rear door of the P.H.Q. from a big mob, which was trying to rush into the premises from that end.

#### HOOLIGANS GAIN CONTROL

Stone throwing on the P.H.Q., by the hooligan elements in the crowds, smashing up of the windows, etc. was going on. A huge crowd of 3,000 was now returning from the mammoth, one and a half lakh strong. Chowpatty meeting, addressed by Lt. Dhillon, the released I.N.A. Officer. Hooligan gangs and disreput-able political groups who had hired them had succeeded in turning the anti-Police hatred of, this huge crowd into anti-Communist frenzy. Lies were spread that the Communists were attacking Congressmen and the whole crowd had passed into the control of the hooligan groups and

control of the hooligan groups and hegan attacking the Party Office.

The Police, who had been most active repressing peaceful demonstrators, were completely absent when it was dark and hooliganism, was afont. The entire situation had gone completely out of the control of the Congress leaders, who did not attempt even to go to the spot and put a stop to this fight among Indians and have a united protest against ans and have a united protest against

Police, repression.

#### A DESPERATE DEFENCE

The whole situation had become very desperate. Thousands were out-side attempting to rush in, set our Party office on fire and smash up everything. We were attacked from all sides. We were about 150 now, with reinforcements from Parel and Madanpura; against us was a crowd

Our comrades, 150 in all, including about a dozen girls, had to carry on the buttle against this from 7 p.m. to 10 p.m. The attacking crowds were using soon-water bottles, big stones. Big batches repeatedly tried to set fire to the P.H.Q. by throwing burning logs, etc., into the bookshop and into the P.H.Q. offices on the first floor. Some of them had even got up the terrace of neighbouring buildings and were ning stones and bottles from there. Time and again our comrades, in order to prevent them from getting too close to the P.H.Q. building, had to sally forth into the street, use lathis and stones to beat them off. akh.

But the crowd was too big and we

PRESS AND GODOWN GUTTED Our comrades had fought the most heroic battle, against terrific odds. Nearly 60 sustained injuries, Gopal-das of the Red Guards and Doodhe-kar and Sudhir, and a Press comrade, received very serious injuries. We withdrew into the P.H.Q. and concentrated on keeping the attacker's off the building from inside. Every time the crowd attempted to rush in and set fire to the P.H.Q. building, we rained our roof tiles and beat them back.

But they succeeded in putting a flaming torch into the shop. We immediately organised fire-fighting and put it out with just buckets of water passed from hand to hand. We fought the fires twice in this

A section of the crowd was now led by the anti-Communist elements into the next lane against the Press, A lorry load of reinforcements, which had been carefully organised before hand, arrived for the attack. They got off the lorry at the Press and immediately attacked the Press doors with crowbars and stones. They smashed them open. Our comrades inside the Press who were half a dozen, Sinha, our manager, Jayant, Amar De, Madhavan, M. B. Rao and Narayan Namboodiri held the attack; ers, numbering over 1,000 in all, at bay for fully half an hour. It was a most heroic stand against overwhelining odds. But the crowd set fire to the Press, after smashing up the

Line-type machine, Printing machine, etc., with crowbars and stones.

Our comrades were seriously wounded. Jayant who ventured out fighting them back was isblated, swallowed up by the crowd and bbeaten severely, His skult was badly injured and he fell down unconscious; an ambulance picked him up and took him to the G. T. Hospital.

The book binding section, the go-down where we keep our paper stock, were singled out smashed and

All through, the call for the Fire Brigade proved ineffective. Throughout the day the fire fighters had been stoned and they were them-selves in panic. So though the Fire-Brigade came rushing twice in response to our call it rushed away when it saw the huge crowds, though the fire was burning derecty.

Over one takh rupees damage has already been caused. ..

#### OUR ATTEMPTS TO GET CONGRESS LEADERS

Throughout this desperate de fence we tried to contact Congress leaders on the folephone, but were unable to get them until 9 p.m. We rang up Sjt. Bhulabhai Desai's house and told his son, Sjt. Dhirubhai, what had happened and could be do some-thing to stop this fratricidal war. fare. Soon he and Lt. Dhillon arrived on the spot. At first the crowd would not listen even when Lt. Dhillon told them who he was. He had first to use the small stick he had, He then reasoned with them and succeeded in leading a section towards

But the crowd near Sikkanagar, in our rear gate gully, and in our Press (Continued on Page 8, Col. 2,)

## HIT BLACKMARKETEERS OFFICIALS, NOT COMMON

The Demonetisation of high denomination currency notes and other Ordinances in this connection have created a furore in the country. Vested interests are once more masking their selfish greed in the name of the common and honest citizen and the subsidised press agencies are howling that the Ordinances hit the common man, the man who has saved his money earned through hard honest toil.

out to get the vested interests to dis- thing to hide. gorge, they have used the name of defeat it.

reduce peasant indebtedness.

duction might affect the earnings of but they will have nothing to fear of non-availability of people's needs the poor old peasant who through old and will lose nothing. But one can at reasonable prices, even now before age might have rented his land to easily understand why the black- our eyes; with every control measure somebody else:

The argument is debunked only when one asks the question: How many of the landlords are old peasants, and how many of the moneylenders are poor old widows who have invested their life-savings in Ioans?

#### HITS THE BLACK-MARKETEER, NOT THE COMMON MAN

So also with the present Ordinances. When it is made out that the howling. Ordinances will hit hard the common man-one has only to ask oneself the question:

Since when has India's common man-the familiar man in the street, the clerk, the school teacher, the peasant, the worker, may even the Head-Clerk or the College Professor -come in possession of 1,000 rupee

Since when has he begun to have savings which can be kept only in hit and so on. denomination notes of thousands-for the Ordinances will not affect him unless he is the proud possessor of 500 or 1000 rupee notes? This is enough to expose those who

denounce the Ordinances in the name of the common man.

Who is it then that is hit by the Ordinances and is seeking therefore but the black-marketeer, the cloth amount of notes of Rs. 500 have made crores out of people's misery and starvation and who in a free country would have been inside the jail long ago.

It is these black-marketeers and their accomplices. the corrupt officials, who are really hit and are shricking in panic.

#### WHAT ARE ITS ACTUAL PROVISIONS?

For, what does the Demonetisation Ordinance lay down?

Contrary to what is falsely circulated, the Ordinance does not automatically adversely affect any holder of high denomination notes, and the money to which he is fustly entitled. It lays down that after 12th January. these notes will cease to be legal tender. This means that after this date, the Reserve Bank as not bound to honour these notes; and hence these notes will not be accepted by businessmen as representing any

value. The Ordinance also prohibits any transfer of these notes after 12th January. This is to prevent blackmarketeers from cashing these notes in other people's names.

If the Government had declared that after 12th . January they would not honour these notes, that certainly

But the Ordinance provides that all such notes, presented to banks within a stipulated time, will be exchanged for Rs. 100 motes. Here, therefore, is no conficution but a provision for the hange of motes, submitted within k' stightheed tithere. Were than this

HE line of argument is familiar, affect no honest man but which cer-Every time any measure is put talnly upsets those who have some-

They must that measures be taken to drastically give full particulars as to how they the came in possession of these notes, Ministerial benches advanced the the business or profession they fol-argument that such a measure might lowed, the Income-Tax they paid, affect the life savings of the poor etc. The exchange of these notes is speculators? widow who might have invested them conditional on supplying this infor-

nefarious purposes.

For once an official measure attempts to hit at the very source black-market-the capital of the black-marketeers. The Ordinance does not attack the enormous past profits which they made and which they have already put away in property and other invest-ments. It attacks only the hoarded high denomination notes at present in secret circulation,

What else are these notes except the working-capital of the blackmarketeers with which they intend to continue their nerarious trade and their speculative activities? else do these activities mean to the common people except soaring prices for their daily needs and being bled white to swell the pockets of a handful of black-marketeers and

With the Bengal famine quite In loans to the peasants! mation. fresh in our memory; with the When drastic reduction of land— Those who have honestly come to shameless profiteering in drugs. lords' rent is demanded, a similar possess these notes may at worst blackmarketing in cloth and food and argument is advanced that such re- have to undergo some inconvenience, the heavy toll of lives taken because

ment feelings of the people for their records the fact that during the war in almost every country notes of larger denomination have come to be utilised as a means of payment in the black-market for the purposes of hoarding.

> The anthorities in a number of countries were forced to take measures against this practice, in the United Kingdom, the issue of notes of high denomination from £ 10 to £ 10,000 was stopped in 1943, while the notes already issued ceased to be legal tender from May 1st, 1945. On the Continent, France, Belghim and Holland adopted similar measures and so did the U.S.A.

#### IMPERIALIST-BLACK-MARKETEER ALLIANCE IN OUR LAND

If the Indian cousins of the European black-marketeers are facing the attack only so belatedly, it is only because there was no People's Government in this country. Had it been there, such a measure would have been taken by it long ago,

But the ruling bureaucracy in India gave a place of honour to the blackmarketeer during the war years, making him the main instrument of passing on the burden of inflation. He was allowed to raise prices. violate every law and measure passed by the Government and indulge in a drunken orgy of profiteering and robbing the common people. The predatory—War Finance of the Indian Government—which seized

goods worth crores of rupees from India without any payment, and created famine in all articles for the

perialist War Finance in India. He it was who was put in charge of supply of grain; of cloth; of control of grain shops; of rationing—when he blackmarketed in all these commodities. He it was who dictated prices and had his last word on every control measure.

#### WELCOME TO BREAKING OF THIS ALLIANCE

And the corrupt official everythe day to day transactions of the blackmarketeer. Today the bureaucracy seems to have no more use for the blackmarketeers and their wartime friendship seems to have been broken up. The speculator blackmarketeer upset Imperialist calculations today and rock the rickety structure of the post-war Imperialist economy.

If therefore this friendship is now broken, and-through whatover motives it be-the bureaucracy seeks to take action against the profiteers, the people have not only nothing to worry about, they must welcome it,

If the two who had hitherto formed an unholy partnership against the common man, now separate and fall out, the people will certainly benefit, A Free Government would have long ago directed a frontal attack against the profiteers. It would not have waited so long. But belated though the action of the present regime is, the present Ordinance demanding particulars about the notes will no doubt be a blow to profiteers.

#### CONFISCATE THEIR ILL-GOTTEN WEALTH

We Communists want all the wealth of the war-rich profiteers to confiscated and used for national purposes. With the Congress and the League dominating the Central Assembly there is every chance that all such wealth will be used for notional purposes, for helping our industry, for fighting unemployment and, so on.

The people should not be therefore taken in by the howl of vested in-terests, but demand more energetic measures both from the Government and from the Congress and League members of the Central Assembly.

Such are the facts about this Ordinance. The attitude towards it furnishes an acid test whether one is on the side of the people's enemies or against them. -

These .who attack it, in whatever guise. It be, and whether they like it or not, advecating a new "(Continued on Page 18, Col. 2)

### LOOPHOLES OF ESCAPE MUST BE CLOSED

marketeers who these notes are

How can they supply the particulars required? What can they show to be their business? How can they show that they have hardly paid the Income-Tax on their earnings? It is just because by supplying these particulars they will only expose themselves, that the profiteers are falsely circulating the story that the Government is confiscating the notes, that honest citizens are being hard

the people for their own ends.

#### RUNS INTO A QUARTER OF STERLING BALANCES!

This ill-gotten wealth runs into a to cover his tracks like this? None huge amount. It is estimated that the and sugar racketeer, the grain and above, now underground in the City oil hoarder, and the speculators who of Bombay, is Rs. 30 crores.

> It is also estimated that the volume of notes of the three denominations -Rs. 500, Rs. 1,000 and Rs. 10,000, -gone underground into blackmarket channels to evade Income-Tax and Excess Profits Tax is Rs. 200 to Rs. 300 crores.

Even after making allowance for over-estimation, it will be realised that the amount of money employed in black-market is colossal—nearly 25 per cent. of the entire Sterling Balances which Britain owes ust This huge amount is the measure of the dependency of the Indian people on the profiteers.

#### IT HITS WORKING-CAPITAL OF BLACK-MARKET

It is these anti-social elements who have fleeced the people; evaded the taxes, evaded control and charged extortionate prices; shunned banks lest their ill-gotten wealth might be known. accept bank cheques in payment for black-market transactions which run into crores; nor could they accept small denomination notes for their huge business.

would have meant total confiscation exchange was only notes of Rs. 500 black-marketeer, his collaborator, the of the money of most of those who and Rs. 1,000 which can be easily corrupt official, should equally be hold them. carry on big transactions without cutch the one and let the other go. the daily aid of banks; and in which what They be and in which the huge cash required for the blackmarket operations can be easily kept away from the prying eyes of the Income Tax Department.

He was the main prop of the Im-

#### HIS ALLY, THE CORRUPT OFFICIAL

The Ordinance if properly applied should hit not only the black-marketeer, but his accomplice, the corrupt official too. It is very significant that the Ordinance itself indirect... ly admits that Government is aware it and so on. that a number of the high denominational notes may be in the hands.

Face to face with the confiscation of their own officials or retired offiof this ill-gotten wealth, they are class. Thus the declaration form pre- where pocketted a part of the loot naturally furious and seek to exploit scribed by the Ordinance specifically himself, in return for conniving at mentions:

"If declarant is a Government servant, Government Department and post held-(must be declar-

"If declarant is a retired Government servant, last post held, Government Department under which such post held and date of retirement-(must be declared)".

How could high denomination notes come into the hands of Government officials or retired officials -except as bribes from black-marketeers (unless they themselves are black-marketeers!) ?

The common man in the country knows quite well that it is the corrupt official who has everywhere acted hand-in-glove with the black-marketeer and helped him to fleece the people, in return for a share of the loot for himself.

Nothing reveals the bankruptcy. of the Linlithgow and Wavell regime in India so sharply as the fact that it cannot today hit at hoarded money-without dragging to light the corruption of its own underlings.

Government servants will naturally find it hard to explain wherefrom the high denominational notes in their passession came. That is why, equally with the black-marketeer, cor-They dared not rupt Government and Police officials too are in a panic. ## lection Campaign In Bengal

# CALCUTTA

C. JOSHI, General Secretary of the Communist Party of India, opened the Communist election campaign in Bengal on January 13, at a mass rally in Calcutta of, over one lakh (the "Amrita Bazar Patrika's" estimate was one lakh). The rally was attended by workers from Calcutta, Howrah, Hooghly, Barrackpore, from such varying industries as jute, textile, engineering, tram, bus, taxi, electric, municipal, potteries, etc.

Kisans, including many women, organised under the Kisan Sabha, came from different centres of the 24 Parganas. The crowd of one lakh included Hindus, Muslims, Sikhs, Bengalee workers and middle-class--in fact, one of the most variegated gatherings Calcutta has ever seen.

Before the meeting started, KAIFI, the famous Communist-Muslim poet, recited his stirring song, a satire on anti-Communism, called "Lal-Jhanda Phekdeo?" Kaifi's song evoked tremendous response from the workers.

#### IN THE FOREFRONT OF STRUG-GLE AGAINST POLICE TERROR

SOMNATH LAHIRI, member the Central Committee of the Communist Party of India, presided over the meeting. He introduced to the gathering the Communist student ARUN SEN who had just recovered after the bullet wound he received during the firing on the Calcutta studemonstrators in Nov. last. dent Lahiri said:

"It was the united struggle of lakhs of Calcutta people on the streets which forced oppressive Imperialism to bend. But because the behaviour of the leaders marred that unity, the guilty were able to go goot free, and even today our brave Arun and eighteen of his comrades are still facing prosecution."

Joshi greeted the workers on their united stand, under the Red Flag, behind Calcutta's patriotic public against Police bullets. He said:

sands of Calcutta workers under the announcements. the Communist Party gave a fitting answer by coming forward against Imperialist repression."

#### UNITY UNDER RED FLAG SHALL INSPIRE ALL

Referring to the Communist elec-

tion programme, Joshi said: "Our Party was born in the lap of the National Movement with the demand for freedom of every national group in the country, and our policy is to guarantee for everybody the freedom to live a free and happy life in their own home

"This gathering of workers itself gives a picture of Free India of tomorrow in which men of different creeds from different provinces shall remain together in amity. If the working class can maintain this unity under the Red Flag, then other classes inspired by this example will themselves unite ....

"If freedom inspired by this example is not won immediately, then the huge wealth amassed by profit-grabbing hearders by fleecing the workers and the huge amount that Britain had borrowed of workers and middle-class people will be jobless and hunger will drive them to death. . . .

"By voting for the Congress and the League, instead of the Communist Party, you will be voting against the Red Flag. But voting Communist does not mean you are opposing the Congress and the League. Because what is just in the policy of every patriotic party is supported by the Communist

When Joshi httroduced the Communist candidates for the Labour seats, LAHIRI for Calcutta, BANKIM MURITERIER for Howrah, MOHAM-MED SEMAIL for Hooghb, CHATUR ALL for , the 24-Parganas, JYOTI NAMU for the Contrator seat, RATA's

### C.I.D. -- Real Boss Of Bengal Government

NIRANJAN SEN, Secretary of the Bengal All-Parties' Committee set up for the 'Release of Political Prisoners Campaign.' applied on January 10 to the Jail 'Superintendent, Alipore Central Jail for permission for P. C. Joshi to interview the Pre-Reform prisoners. The Jail Superlytendent replied that the Intelligence Branch alone could grant the permission-a condition which no one would accept,

On Jahuary 11, Niranjan Sen rang up the Home Secretary of Bengal Government, in view of the urgent necessity of the interview. The Home Secretary also muttered the same showing reply, thus clearly that inside the Bengal Govcrament, it is the Police Intelligence Branch which is today the real boss of the Administration.

It is also scandalous even the ordinary privileges of a convict are denied to these Pre-Reform prisoners.

"The Communists are called trai. LAL for the Darjeeling Tea Gardens tors and the workers are asked to and INDRAJIT GUPTA for the Asan. discard the Red Flag. But thou sol Collieries, a lusty ovation greeted

#### KISAN RALLY IN TAMLUK: MIDNAPUR

On Jan. 15, Joshi addressed a kisan rally of 10,000 at Purushottampur village in Tamluk, Midnapore. Despite the Hindu festival of Pous Sankranti on that day, kisans, both Hindu and Muslim, men and women, came in thousands. Joshi said:

"Our Party's workers come from your own homes. Going out of your homes, they have built kisan movements in blgger areas. Today, it is your own true sons who have become your leaders. Nothing in their life is hidden from you . . .

"Our Party is the party of unity. In village life, we have built a united kisan movement of Hindus and Muslims. In the struggle for national freedom, we pledge to build the unity of the Congress, the League and the Communists. The kisans know that in their life in the village there is no way of survival but through mutual justice. The kisan stands for justice for himself and justice for others as well.

"In national life, justice demands freedom for all. To the Congress from us, would not be en freedom for all. To the Congress joyed by our countrymen. As a and the League our appeal is: Give result, in the post-war crisis, lakhs up your unjust demands. Build a united movement, based on the just demands of each other, for the final battle against British Imperialism.

#### WHAT COMMUNIST CANDIDATES WILL FIGHT FOR

British have created as their triple instruments of repression, the Zemindar, the Mahajan and the Reopart. These three onemies of the people have ruined the kisans under the British Govern ment for generations. In the last three years, their oppression has overstepped the limit of endurance and they have joined hands with the British bureaucrats, oppressive and corrupt. . . .

"Our Communist members in the Legislature, will, within one fran-

## PRINCES AND THE NEW IMPERIALIST MOVE

orititutional deadlock after HILLS the country is moving towards a new constitutional deadlock after the elections the hoperistists are hattering their own plan which would appear to concede the demands of both the Congress and the League in form but deny their real substance. The key to their plan is the bringing of the Princes into the All-India Constitutional Scheme which would enable them to create an Agency Centre over the three dominions (formed respectively of Hindu and Muslim majority areas and of all the States), in which real power will be with the Imperialist-Princes Axis.

The first step in this direction was taken on January 17, when the Annual Session of the Chamber of Princes, presided over by the Vicercy, agreed to a declaration laying down the conditions under which the Princes would be prepared to co-operate in the settlement of the Indian Constitutional problem.

#### NO TRANSFER OF POWER TO PEOPLE

What has the Viceroy assured the Princes and asked of them? The Vicercy has assured the Princes that the treaties and arrangements with the Crown, guaranteeing their position as rulers, will not be changed without their consent. In return the Viceroy asked them to participate in the preliminary discussions to the Constitution-Making Body which will take place after the elections.

He asked them "not to stand in the way of the growth of India to its stature" (whatever that may mean!) or "to hinder the political, economic or social progress and advancement of their subjects." He recommended that the small States should join the larger units or combine with other small States to form bigger combinations. He also advised them to join in all-India schemes of economic co-ordination—both short and long-term.

What have the Princes in their turn promised in the unanimous declaration which was adopted by their Chamber?

They declare that they "wish to see the land of their birth free," great and respected" and "promise fullest contribution to any attempt to settle India's Constitutional problem on a just and reasonable basis."

Does it mean that they are prepared to set up completely responsible popular administrations in their States and content themselves becoming Constitutional heads?

Are they willing to grant the same rights to the States' peoples which their brothers outside shall be enjoying in a free India.

Nothing of the kind. They stand on their Treaty rights which progranting "popular institutions," not fully elected but only "with an elected majority." tect their position as autocratic rulers and are not prepared to go beyond

They promise the guaranteeing of certain basic rights such as liberty of person, of conscience, of free expression of opinion, of association, etc.

But all these rights are hardly worth the paper on which they are written without an administration completely responsible to the people.

The Chancellor of the Chamber of Princes in his declaration insists upon the inviolability and the continuance of the ruling dynastics, the ruling right and autonomy of the States and argues against the suggestion that small States should merge with provinces or join together to form larger units for ensuring better administration.

Thus even the guarantees they "promise" are subject to the condition that their autocracy shall remain unquestioned and paramount.

In short, the much-boosted declaration of the Princes promises no democratisation of the administration-no responsibility to the States' peoples. The dark rule of autocracy is to remain. The small States which condemn their peoples to inefficient administration and split them away from their brother peoples, are to remain.

#### FREEDOM THROUGH IMPERIALISM'S FEUDAL ALLIES?

The Imperialists and their press are of course satisfied with the Princes' declaration. For they do not want the autocracy of the Princes to be ended. They only want these Princely autocracies to pull their weight together on the side of the British Government, in any attempt to form an all-India structure and to act as the bulwark of its domination in the same.

But it is both amazing and painful to note that the Congress leaders and the Nationalist press too have welcomed and greeted this declaration of the Princes. Pandit Nehru who considers the declaration "in some matters vague", however greets it as a definite sign of the simes and the realisation of the big changes that are coming to India in the near future.

Panditji even goes to the length of reading in the Princes' declaration, "an attempt on the part of the Princes to break away from the leading strings of the paramount power and to look to their people in the States, while exactly the opposite is the case.

Even this "vague" and evasive declaration has come from the Princes only because the Viceroy assured them that the Treaty rights which guarded their position as autocratic rulers were not going to be touched. Does this not show that they are afraid of their own peoples while they look cravenly to their British protectors?

A new country-wide upsurge is under way among the masses of the States' peoples. The ruthless repression with which the Princes are trying to suppress the same in Gwalior, in Travancere, in Bharathpur and in other States is no indication of their change of heart which Panditji wants us to believe.

But perhaps the Congress leaders are thinking in terms of high politics. They perhaps think that if the Princes are not prepared today to concede full responsible government, they are at least ready to throw in their full weight in the coming Constitution-Making Body for an All-India Federation as against the League claim for two Federations.

It is a great pity that blind hatred of a brother party - which embraces the bulk of our Muslim countrymen-should drive our leaders to put faith in the Princes, who owe their existence to the service they rendered to the British in custaving our people and whose hands are smeared with the blood of the States' Peoples' movement.

This blind gamble will lead not to the creation of an Independent India as a free and willing union of our various peoples, but to a tri-sected India yet under Imperialist-Feudal rule.

There is not the slightest doubt that the League leaders would be welcoming the Princes' Declaration as eagerly as the Congressmen have done. Perhaps they too have hopes that some of the Princes would put in their weight behind Pakistan as the others would for a United India.

In reality the Princes would do neither. As faithful stooges of the British they would merely support the plan which the Imperialists are hatching. Faith in Princes, instead of in the unity of the people, can only prive the way for the Imperialist plan which would spell the common slavery of the Hindus Muslims and the States' peoples ....

## GIVE ALL YOU CAR!

Lil our resders will have read the story of the events in Bonbon given on pagers; they will have read of the kitech on our Porty Thanquarters, of the burning of our press:

Why did this happen? Everywhere in the world, it is the darkest forces of reaction who have recorded to hooligan tactics, to attacks and assaults in their attempts to destray the progressive movement.

It is only those whose cause is our office, to take photogra-bankrupt, and anti-people, who are lend us paper and many other afraid of letting the people hear the rials that we needed bodly. voice of anyone except themselves, who know they cannot win by using the weapons of argument and persuasion, that take to the lath! and the knife to gag and suppress those from whom they differ. These are weapons of enslavement, not of liberation.

It is the Fascists and the Imperialists to whom these weapons belong, not to any civilised, freedom-loving people. Everywhere in the end they have falled.

So too in our country. The People's Age is the inspirer of our movement in India; every week it tells its thousands of readers the truth of what is happening in India and the world and rouses them to do their best in the battle for their country's freedom. This is why our enemies wanted to silence its voice, the voice of truth.

But our enemies do not know our country and our countrymen, week too the People's Age will go to its readers, faithfully carrying its message of truth, appealing for all to come together in the fight for India's freedom. For despite all the difficulties that faced us, we can say with pride that we have brought out this issue of People's Age.

And we have brought it out because of the strength of our movement and because of the great traditions that are the bedrock of the entire national movement. And by bringing it out we have shown our enemics that it is not so easy to shut the voice of People's Age-our people are too great and our party too strong to allow them to do it.

For our success in doing this we must thank our many good friends with all we say for the help that they have given us.

#### Our Thanks

We must thank Mr. Sadanand, the Editor of the Free Press Journal, who, despite the very great political differences that he has with us, gave us great help and in whose press the present English edition has been, printed.

We must express our gratitude to Mr. Amrittal Seria for helping us to bring out our Gujerati edhich. We also thank the United Apt Fine

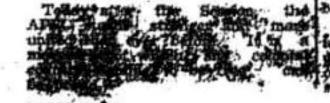

#### ALL-INDIA WOMEN'S CONFERENCE

(Continued from page 12)

organisation of all women to de-feat and fight for the common interests of Indian women.

Led by Mrs. Sarofini Naida, Hadisaben Mante, Raffeemari Antist Kaur, Mrs. Raffeemari Antist Kaur, Mrs. Raffeemari Naiste, and other landats of the AIWC, all factional moves to close the doors of the organisation to particular grades or make it a preserve of other grades or make it a preserve of other grades make it a preserve of other grades there scottling all the organisational decitions takes including the election of the office between reflected the operapheticity desire of the majority to keep the AIWC, united.

The upited organisation will fight for the charge of Wettern Highls to be made part and passet of the new social conter of a Free Lidle.

short notice with facilities for binding, packing- and dispatching our our movement. copies.

We thank too our many friends who as soon as they heard what had happened, came forward to help us in every way they could, to defend our office, to take photographs, to lend us paper and many other mate-

And lastly we must thank those friends of ours who have taken into their houses our wounded comrades, and tended and looked after them better than many hospitals and to give your utmost to help us to do nursing homes would have done. our job.

For it was no easy job.

#### Our Apologies

Our press and Party Headquarters were badly damaged; the hooligans who burnt our press also burnt part of the copies of our supplement and the first four passes that we had al-ready printed. That is why some of our readers will get only eight pages while the rest will get the usual twelve pages and our supplement. And that is why we are three days late in getting the issue to you.

We are trying to get out next week's issue in time-but we may be we get our press in full working noblest order again.

But we will bring it out-because there is much that is good in our

And one last word-most important word to our readers.

#### Our Appeal

You have all read what happened to our press, the Party Office and our bookshop; the loss we have suffered is over a lakh of rupees-over a lakh of rupees that was collected by tens of thousands of our people, many of whom sacrificed their ut-

Lithe Press for providing us at such most to give us money to build our short notice with facilities for bind- press, bring out our paper and build

That one lakh has gone; but more than that one lakh must come.

We have already appealed for five lakes to enable us to fight the elections and bring out our dailies, but now we must get not five lakes but well over six lakhs, if we are to build our press, bring out our paper and do our fob in the elections, the job that you, our readers, everyone of you, want us to do,

This is why we appeal to all of you

THOSE WHO HAVE GIVEN ONCE, dig deep into your pockets and give twice, thrice, four timesfor you well know our need.

THOSE WHO POLITICALLY our motherland! DIFFER FROM US, many of them deeply, we appeal to them too-in the name of our great Indian tree-dom movement which has never before been tarnished and disfigured by such acts as those that destroyed our press and material.

We appeal to them to give what, they can, to demonstrate their faith that, however deep. differences between brother and brother among us late, as it will be some time before may be, it has always been the tradition of our patriotic movement to let every Indian speak freely and demogratically to his peo-ple and let them judge for them-selves to assert their belief that Imthat we do our duty by our readers, perialist violence cannot be avenged conviction that Indian fighting brother Indian and shedding of Indian blood-by Indians only means none is left to fight the British Imperialists.

#### Our Call

\* PARTY COMRADES, to you this attack will have been no surprise. Show that you too like our comrades, today triumphant in the Union, like our brothers in

whom the millions of bullars, shells and bombs could not destroy like all those Communists the world over who have won through intrust the same difficulties and attacks that we fare today, show that you too are worthy of belonging to the great world brotherhood of Communists; remember that the best of the revo-lutionaries in our land are amongst us, show that you too can rout the enemy as our brothers in many lands have done.

Let these difficulties only inspire you to work a thousand times harder -- to get the money to make up for our loss and for doing all that we must do to see that our Party does its greatest in the election battle as a prelude to win over all Indians to our policy-that Indian must not fight pockets Indian but all must come together for the last final united struggle for the freedom and independence of

### After Police Firing In Gwalior

## BIGGEST PEOPLE'S DEMONSTRATION

THE week following the murderous firing in Gwaliot (see story on P. 2) has seen the most remarkable unity of every section of its people against the State authorities and for wholehearted support to the workers' fight against the Birlas. As a result the State Government has been forced to release the four arrested leaders of the workers, and withdraw warrants against all. Over Rs. 1,200 have been collected from the people by way of relief to the families of the dead and to the wounded. The most striking feature of the campaign is the active part women have been taking in it.

ple attended it.

this joint meeting. derous cheers, he said:

"The blood these martyrs of the Red Flag have shed has cemented the base of n real Hindu-Muslim unity. We shall pledge today to build such a glorions edifice on these foundations as will be a lasting monument to their great sacrifice. Only then can we hope to abolish all exploitation."

ALL SUPPORT TO WORKERS' STRUGGLE

Thourands of angry cries repeated\_ ly rent the skies with slogans demanding the externment of 'Khooni Powar.' The meeting fully supported the workers' demand against the owners, condemned the firing and demanded, an impartial inquiry into It demanded the externment of Mr. Powar, the Army Minister.

JAN. 15: STUDENTS' GENERAL STRUKE: GIRL STUDENTS LEAD

On Jan. 15, there was a complete hartal in the schools and colleges, in Lashkar and Morar. Jan. 13 was a holiday, and thus the students nad not been able to express their solidarity with the people, against the firing. They went on strike on the 15th. Girl students from schools and colleges came out and led the 4,600 strong procession which paraded the streets of Lashkar, carrying black flags and an effigy of Mr. Powar.

In the evening, the students were joined by a procession of about 7,000 workers from Gwahor. A meeting was held in Jayaji Chowk where 15,000 people witnessed the burning of the effigy of 'The Dyer of Gwaller.' The Hindu Vidyarthi Sangh donated Rs. 51 to the Mazdoor Retief Fund. The photos of the martyrs, with the earth reddened with their blood, were auctioned for Rs. In all Rs. 450 were collected.

#### JAN. 16: 2,500 WOMEN SUPPORT DEMAND

On Jan. 16, women of the city joined in. A meeting of 2,500 women was held at the Town Hall under the Presidentship of Mrs. Kranti Devi Dinesh, a local Congress woman. It was joined by a procession of girl students of tue Lamuia Raja Girls' School who collected on their way to the meeting Rs. 51 by way of relief. Once again, this meeting displayed the unity of all fiags and fully supported the resulttions passed at the meeting on Jun.

It was an event nubeard of in the State, where women from feudal and officers' families, the middie-class housewife and the Mu-lim women in 'burga', all joined and

stood together. That day students of the J. C. Milis High School came out on strike and paraded the streets and chewls of the milis, carrying an edgy of 'Khooni Mandelia', Manager of

In the evening a workers' meeting was held at the Hajira Park, Gwa-Hor, protesting against the firing and demanding inquiry into it. 7,000 per ple attended.

PROPLES VICTORY

On 14th Jan., the Sarvajanik Sabha, That has been the first victory for Anjuman-I-Islam, Communist Party, the united people's movement. In Hindu Sabha and Vidyarthi Sangh, the fight to come, they are being sup. held a joint meeting at the Jayaji ported by the outside public and Chowk, Lashkar. Six flags flew together when 7,000 workers from Birla owned mills in Delhi and from
Morar joined the meeting in proBirla's 'Hind Cycles', Bombay, came
cession. Never before had the people out on a one-day protest strike one-day protest strike ast week demonstrating of the city seen such crowds. It is during the last week demonstrating estimated that well over 50,000 peo- their indignation against the authorities of Gwalior State and expressing Mr. Abdul Rashid, President of their complete solidarity with the the Anjumand-Islam, presided over workers of the Gwahor Mills in their Amidst thun- common fight against a common op-

#### ANTI-COMMUNIST FRENZY

(Continued from page 3) gully, were smashing and burning. Even after the Police arrived, the fight in the gully had to be kept up by us for some time songer.

The first to come to the P.H.Q. was Sit, Amrilial Seth, Editor of the Janmabhuml group of papers. His son had been in the crowds re turning from Chowpatty and had told him about the attack on On meeting me, he "What can I do? I offer my heartfelt condolences. These are dirty things. They should not happen." He came in and saw all the windows smashed, the Press burnt and our wounded and bleeding comrades who were being attended to in the passages on both the floors.

The Reporters from the Times of India and A.P.I. also came up and saw things-for themselves.

Two printing machines and the Linotype were smashed. Nearcomrades were injured. Jayant, Sudhir, paldas and Deodhekar very seriously. After the Police; arrived, Sharaf and Subrata Sen. Gupta of the All India Students' Federation, went-in search of Jayant in the next gully. They were caught by a gang, who beat them up.

Iqual, member of our Central Committee, Bhagwat, our cashier, Reddy of the Cultural squad, Madha van, Rashid, on our. Office staff, Mahomed Ali and Sibtey Hasan of Nava Zamana Editorial staff, and many of our Red Guard worker boys, received serious Injuries.

JOINT ACTION TO PROTEST. AGAINST: REPRESSION.

The next day at 11-30 a.m., the B.P.C.C. leaders, S.L. Nagindas, the President, Sit. S. K. Patil, the General Secretary, Mr. Manilal Seth. Mrs. Sofia Khan, G.O.C, of the Desh Sevikas, etc., came to the P.H.Q. and met our Editor, Dr., Adhikari, and B. T. Ranadive and other Party

They agreed that this attempt to turn legitifnate anti-Police rage into anti-Communist frenzy was dangerous to Indian political life and that both Congressmen and Communists should jointly try to prevent such outbursts and prevent disgraceful senseless anarchy.

Dr. Adhikari also put forward the suggestion that foint Congress and Communist squads (with an equal number of both) should, patrol the area and, appeal to the people not to be pasrive or acquierce in such , acts, not to fight among ourselves. But the Congress leaders refused saying that for the present they would issue a statement, and keep volunteers in reserve at the Congress House to rush help

if any trouble took place. Such joint action to campaign among the people, explaining to them how only the common enemy game So perferful and unanimous was by such perions, is absolutely mach popular derived store & that of many in order to include application of the first application of the popular derived application of the popular derived application of the popular time from the popul

## a Patriots Kotebook

## REPRESSION IN TRAVANCORE

No Single Party Spared

A TTENTION was drawn at the re- if the following conditions were fulcent All-India States' Peoples' filled: Conference to the severe repression now going on in Travancore State under the regime of the present Maharajah and his Dewan, Sir C. P. Ramaswamy Iyer. The Travancore State authorities and the present Dewan are indeed old hands at this game.

Everyone will remember the "blood and Iron" methods were used seven years ago to crush the State Congress movement Responsible Government. core patriots have still not forgotten the scars of those days.

Recently Sir C.P.'s regime has tightenend the screws again. see the new peoples' awakening sweeping all over British India, They are afraid this new movement is not going to respect Treaty Rights of the Princes or the Paramountey Powers of the Crown.

#### Ban Against Tri-Colour

Some weeks ago, in People's Age of January 6, our Malabar correspondent described the latest activities of the State authorities and the Police atrocities in Kottayam, I have just come across more facts about this anti-democratic crusade.

Not only are meetings and processions banned in Travancore. the Tri-colour too is banned. When the State Congress held its Fourth Annual Conference Quilon recently, the authorities insolently ordered that the Tricolour should be removed from the Pandal.

It was again only recently that a surprise swoop was made when Mr. Pattom Thanu Pillay, President of the State Congress, Mr. Narayana Pillay, then Organising Secretary, and Miss Anne Mascarene, Secretary of he State Congress, were arrested and detained. .

#### Catholics' Leader Arrested

So much for the State Congress. What about the Catholics who form a large section of the Travancore peuple? They too have come in for Sir C.P.'s blitzkrieg

State authorities wanted to stop the Catholic agitation against their new Education Scheme. So promptly Catholic papers (like Ma-labor Mail published from Cochin) were banned, the President of the Catholic Congress (the most popular organisation of the Catholics of the State), Mr. KUNJITHOMAN, was atrested and detained in jail, where he for all these arrests and bans! I still is.

#### Muslim Conference Banned

Nor have the Muslims been spared. A Muslim Conference which was fixed to be held last month in Balaramapuram under the President-HAMEED ship of Janab ABDUL KHAN, ex-Mayor of Madras, banned. The ostensible ground was that "the sanitation around the pandal was not good" and that "a scetion of the Muslims were against the holding of the Conference."

But a statement, issued by the President of the Reception Committee of this Conference, which has come into my hands, throws a very interest. ing light on the real reasons for the. banning of this Conference.

According to this statement, when the organisers of the Conference mel the Inspector-General of Pelic a few days before the scheduled date, this gentleman demanded that Janab An-DUL HAMPED RHAN should not preside over the Conference, as "he was unwelcome to the State authorities on account of his expressed opinion against the present Education Scheme of the Dewan"! Here was the real reason at last.

The Statement then revenly that of the organisem of the Conference that the Diwer afterwards red Sir Co. this him that the Conference ere would to allow if to be luld

"(a) No member of the Muslim League in British India shall preside over the Confer-

(b) We (i.e., the Conference) shall not discuss the recent policy of the Government on Primary Education.

(c) We (i.e., the Conference) shall not discuss Pakistan."

The Muslims, naturally enough, refused to accept any conditions from the Dewan for exercising a which is theirs according to standards of democracy or civilisation; and so the Conference was finally cancelled,

Such is the "rule of law" prevailing in Travancore State. You cannot even hold a Conference, if the authorities do not like the subjects you propose to discuss. And it is this State administration that is today being hailed in adme circles as "ploneer in reforms"-"on American model" and so on and so

#### Apt Pupil Of Lord Willingdon

And how does Str C.P.'s regime In Travancore manage to push through simultaneously against its drive every people's organisation in the State? By the simple trick taught by the British, 'Divide and Rule'. Sir C. P., it will be remembered, was a favourite pupil of Lord Willingdon.

It is by pltting one community against another, and one people's organisation against another, that Sir. C.P.'s regime has kept itself going for the last 14 years: You can see It from the story of the recent events,

It banned the Tri-colour-hoping that the Muslims in their anti-Conwould prejudice out opposactively . ing it. It banned the Mus-lim Conference and gave the reason gue leader should preside over the Conference or that the Pakistan issue should be brought up inside the State—thus hoping that State Congressmen in their anti-League prejudice would not come out actively opposing it! And so on.

#### For Consumption Of Congress Public Outside

And .for . the consumption of the public outside the State, anti-Communism is dished out as the reason

The Travancore Government issued a Press Note in answer to the statement recently made by Pandit Nehru on repression in the State. According to this Press Note, there is no repression at all in the State; the Government has been unwillingly forced to take a few steps to check "the subversive activities of the Communists"!

So the ban on the Tri-colour, the recent blitzkrig on the State Congress leaders (many of whom incidentally are themselves virulently anti-Communist); the detention the President of the Catholic Congress; the ban on Catholic papers; the ban on the Muslim; Conference; the overall ban on all, processioner and mastings;—all these just because of the "subversive setivities" of the wicked Communists!

Sir C.P. thinks that Pandit Nehru. and the Congress-minded public in British India will swallow his explanation because of their own auti-Communist prejudices-and let him get away with whatever he chooses to do inside the State to wipe and this traces of democracy and Civil Liberties. I can hardly I'md a more cluiexample of what foul deebs sought to be covered and histing

the Government.

ROM the first meeting of the United Nations Organisation (UNO) in London, many lessons can be drawn. Most important of all is the role of 'small' nations—which has been boosted so much by critics of the UNO.

Right from the start it became clear that two of the biggest voting blocs in the General Assembly were composed of first the Central and South American Republics and secondly of the Middle Eastern coun-

"These two blocs" wrote - Reuter's "possess between correspondent, them the possibility of virtually a dominating vote in the Assembly, provided they vote the same way." (January 13).

"Defenders of the 'rights' of small nations may point to this as a welcome feature-but in fact one blocthat of the American Republics-is composed almost entirely of satellite states of the U.S., while the other that of the Arab States is easily open to influence by Great Britain; for two of its member countries-Iraq and Transfordania ore almost virtual dependencies of Britain.

M. Gustav Guerrero, the Salvador (Central America) delegate, revealed the true position of his country and its other American neighbours when he said that all the peoples of the American hemisphere were "closely attached" to the U.S.

#### ON TRUSTEESHIP

The meaning of this is simple: if everything in the UNO were decided by a simple majority vote, then by rallying the votes of their satellites, it would be easy for the U.S. and Great Britain-without themselves appearing in the forefront-to put through any reactionary anti-Soviet measure that they wish to.

It is only the existence of the Security Council with the provision of the veto which torces every Great Power to come out into the open and declare its own stand publicly, that will in fact prevent the UNO from becoming the mere mouthpiece of the U.S. and Great Britain.

The divisions inside the UNO also became clear in the debate on the Preparatory Committee's report.
It was the delegates of the Soviet,

Yugoslavia, Poland and Norway who most sharply raised the question of trusteeship for the colonies; the Soviet delegate, Andrei Gromyko, said:

"The trusteeship system is an instrument designed to accelerate the giving of status of national and state independence to all such peoples (colonial peoples). That is why the speediest carrying out of the principles of trusteeship is one of the most important obligations. of the member-states of the United

It was these delegates too who warned sharply against any attempt to build rival blocs and to counterpoise the 'small' nations against the "big". The Norwegian Prime Minister nailed down the danger of trying "to divide the world into separate blocs" and added that nothing would be more dangerous than if "this new organisation should, from the outset, be used by any one power for its own particular aims."

Again it was the Soviet delegation -later backed by the French dele-gate-who raised the question of participation in the UNO of the World Federation of Trade Unions-which was opposed by the del Britain and New Zealand. delegates of

Thus on every issue the two sides emerged more and more clearly. On the one hand, the democratic states headed by the Soviet which stood out against the formation of blocs, which pressed for the speedy advance of colonial peoples to independence, which demanded that the world working-class movement he given the On the other, the U.S. and Great

Britain which are yet intriguing against the Soviet, are yet thinking and planning in terms of block and voice which will give them a dominating position in the UNO and in world politics.

supporting the emigre Polish Army in Italy commanded by General Anders; this Army has become such a centre for anti-democratic propaganda that the Italian democratic movement, notably the Socialist and Communist Parties—have passed strong resolutions demanding the withdrawal of this Army from Italy.

A third instance of Britain being used by Europe's reactionaries as a base from which to plan their come-back in Europe is Yugoslavia's extreme right-wing-for many of Gen. Mihallovitch's supporters are in London and it is well-known that King Peter-also still in England-has by no means yet stopped his intrigues ! and attempts to get back into Yugo-

Clearly enough, therefore, until these nests of reactionary emigres are cleaned out of Britain, their very existence will always encourage the reactioneries in Europe with the confidence that Britain is behind them in their attempts to overthrow the new democratic Governments.

And one of the first tests of the

British Government's sincerity to implement honestly the Moscow decisions, must be its refusal to allow these reactionaries to use . England and London as their base from which to carry on their activities.

#### TRUMAN'S REAL BOSSES

NEARLY twenty lakh workers are on strike in the United States today—the biggest post-war strike-wave yet seen in any country. And the largest section of them are seven to eight lakh workers in the steel in-

The cause of the strike is the rejection by the employers of the workers' demand for an Increase in The workers demand on the : huge profits made during the war and still being made by the big capital-

According to the U.S. office of War Mobilisation, U.S. industry can raise wages and salaries 24 per cent and still get twice as much profit as it did during war-time,

The U.S. Steel Corporation, how-ever, just refused to negotiate and to the workers' demands, it handed over a blank 'NO'-after considering

Mohan Kumaramangatan

them for just forty minutes.

The U.S. Government then offered to mediate; the U.S. Steel Corporation rejected the offer. .

After this, the U.S. Government set up what it called a Fact-Finding Board; out of this emerged a compromise offer; once more the U.S. Steel Corporation rejected Government's offer and said 'No'. The Government pleaded helplessness—and the strike started on Monday, January

The U.S. Steel Corporation wanted a strike. It has made huge profits in the war period and it wants to use the critical post-war period when unemployment is increasing (the Government estimate is that by spring 1946, 80 lakh Americans will be unemployed) to break the strong working-class unions.

It hopes that if there is a strike, by getting blackless out of the rapidly growing number of unemployed, it will be able to crush the strike and the Upions.

And the U.S. Government by its weak policy of merely making compromise offers and not intervening as a compulsory arbitrator and forcing the U.S. Steel Corporation to accept a settlement, has played the game of the Corporation and given it (Contined on Page 10, Col. 4)

## M. Munshi's Plea For Anti-Soviet, 'Indo-British' Alliance

### -- His Counterpart In League Camp

On the day the members of the the British that Russia is against tion arrived in Bombay, Imperial-come a United India" and that ism's Bombay daily, "The Times of "Hindus look upon Russians as savi. India," prominently featured an ours". He, therefore, warns the article by K. M. Munshi of Akhand Hindustan fame—entitled: "INDIA AND BRITAIN-Need For Commonwealth Consolidation."

An open plea for an Indo-British alliance "to stabilise the internatlonal situation in Asia," and directed to meet the 'menace' of Russia, the former Congress Home Minister shamelessly talks of "the vital bond" that "links us with England" and wails that "we cannot place the strength and integrity acquired during the last century (?!!) at the mercy of a third World War."

And what is his argument? The greatest danger to Britain, he argues, lies in the establishment of Pakistan; if Pakistan comes existence, the Communists, "openly allied to the League" (a lie), and the Soviet would see that Pakistan becomes a Soviet satellite! Therefore, Munshi tells our British rulers, keep India united and ally yourself with the Conthe Congress.

The basis of Imperialist-Congress unity (for that is Munshi's desire) is the partnership of India in "the Commonwealth" — i.e., Dominion Status, and Munshi suggests this when every bonest Indian today is demanding full independence, knowing full well that Dominiou Status will only be a veiled form of subjection inside the British Em-

Thus Munch! goes all out to win the support of the most reactionary elements in British society, the Soviet-haters, the big monopoly capitalists.

I suppose it is not difficult for him to do this-an autocrat was responsible for the use of police bullets against Bombay's workers and who resigned from the Congress because it was moving towards the acceptance of the qumoeratic principle of self-determin-

Two days later came a reply (also in 'The Times'), from one Mr. Manzur Ahmed, evidently an artient Leaguer. He in his turn tells

British Parliamentary Delega. Pakistan, and "will definitely wel-arrived in Bombay, Imperial-come a United India" and that British that the only way to meet the Russian menace is to divide India-for then Pakistan, with the Muslim States of the Middle East, will be dle East, will be "the greatest brake on Russian designs."

It seems that there is only thing common between the two-Munshi and Manzur Ahmed-viz. an overwhelming desire to guard the interests of and point the right path to British reaction and both look to the British in their anti-Soviet interests to grant their respective demands-one a united India, the other Pakistan!

And this is natural enough, suppose. If India is not to win her freedom through the united strength of her people, through the Congress and the League coming together, then like Munshi, we must look not to our people's strength for winning freedom but to Britain's 'generosity'; equally, if the League has not enough faith in the justice of its demand for self-determination which must lead to its acceptance by the Congress, then it must look not to building its people's movement and to convincing the Con-gress of what is just but to our Bri-tish rulers to "divide" India!

And the net result of both tudes is this: to leave the initiative in the hands of our British rulers and to go whole-hog against the Soviet—the one major power in the world that through the mouth of its Foreign Minister, Molctov, at San Francisco, has openly declared itself in favour of Indian freedom and that has shown- the entire world how the principle of self-determination can be justly applied!

And one last point—will not partnership (which really means continued subjection) in the British Commonwealth, which is what both Munshi and Manuer Ahmed want, also mean partnership in exploiting the hundreds of millions of other colonial peoples, still en-slaved in the present British Em-
