

Herndon Urges Protest On Invasion of Spain

**Increased Aid to Government, Demonstrations
at Italian and Nazi Consulates Are Urged
For July 19, Anniversary of Outbreak**

By Angelo Herndon

(Vice-President, Young Communist League)

July 19 will mark the first anniversary of the fascist intervention in Spain. A year of bombings and massacres by the fascists have not crushed the will and determination of the heroic Spanish people to fight on to the bitter end in order that democracy might live.

And now at this moment of continued warfare in Spain, in which the fascists are being supported openly by Mussolini and Hitler, we Americans, too, must stand with our Spanish brothers and sisters in their woes and sufferings.

In sharing with them the terrible plight which has befallen them, we must renew our struggle and resources for more determined struggle against the fascist scourge which is menacing the peace and liberty of all peoples.

Our material aid to the defense of Spanish democracy must be adequately increased.

HANDS OFF SPAIN

The National Committee of the Young Communist League calls upon the young people in every city

in the United States to flood the German and Italian consulates with an avalanche of protests.

Just like the courageous Americans who are today fighting in the Abraham Lincoln and George Washington Battalions, we too, must make known to the fascist monster, our opposition to their war of plunder. Mass picket lines should be organized around German and Italian consulates in every city on July 19, **demanding: Hands Off Spain!**

Make July 19 a day that the fascists will never forget! We cannot fail our Spanish brothers in this hour of serious crisis. Let our protests carry the message that the fascists will understand!
