# REPORT IS **VAGUE**

Details of Expenditure of \$840,000 Lacking in Figures Offered By Communists

THE first inkling of the manner is which the Communist-dominated Joint Board of the N. Y. Furriers' Union expended almost \$1,000, 000 in its strike last summer was given this week when the Joint Board issued a financial report on the strike. And the report proved to be nothing more than an inkling.

According to the report made public

by Ben Gold, manager of the Joint Board, the strike cost the union \$840,-842.48, of which \$433,329 was rowed from other unions and indi-viduals. The sum of \$78,231 has been repaid, leaving a total indebtedness of

financial report are of a very general nature. It is impossible to get from them any exact or even approximate dea of how the money was spent in the strike. For instance, the "Hall Committee" cost \$25,630. This is ex-clusive of an item of \$40,486.14 for "hall rent" during the 17 weeks strike. No attempt is made to explain the manner in which the Hall Committee expended the \$25,630. Similarly mysterious is the item of \$31,691.90 for the "Picket Committee." Both these committees have diverse duties. An explanation of the amount of money ex-pended for these particular tasks would give a clear idea of the way Communists lead a strike. Such explanation would be of particular in terest, since the Communists claim i have a way all their own of leading the workers in industrial disputes.

The largest item, naturally, is that paid out as bepefits. This totals \$556, 174.17. Here, also, there are no details-no lattempt to fall how many workers received benefits, how much per week was paid them, etc. In addition to the regular benefits, the sur of \$45,117.21 was paid for "food cards. Why it was necessary to issue "food cards," in addition to paying the regular strike relief, it is not explained.

That Communists also do not despise the use of "capitalist courts" and

lawyers, is shown in the healthy sums expended to win the favor of these much decried parts of the capitalist system. "Lawyers" cost \$78,906.50; "Law Committee, Prisoners and Assistance" cost \$19,709.80; "Court Fines and Bail Bonds' cost \$18,234.

At a meeting called by the Joint Board to explain to the furriers the conduct of the strike and the expenditures entailed, Mr. Gold denounced the American Federation of Labor and called for the overthrow of capitalism and a proletarian revolution.

The publication of the financial re-

severely critical of the Joint Board and may go to the drastic lengths of taking country should entitle them. over the Furriers' Union and reorgan-

# N. Y. FUR STRIKE Stench of Capitalism **Brings About Probes** Of All Its Activities

Political Corruption, Financial Intrigues, Stealing of Elections All to Be Investigated Along with Other Malodorous Machinations of American Capitalism and Its Political

MERICAN capitalism is soon to go under the microscope for one of the most minute investigations in all its sordid history. "Irregular" groups in the House and the Senate have set in motion a series of in-vestigations which, if prosecuted without in-terference from the White House, as the President intervened to save Secretary of the Treasury Mellon from investigation, will reveal capitalism as one huge garbage can.

If there is any branch of activity that will not be the subject of an investigation in the two months that Congress will be in session, it must have inadvertently escaped the attention of the 531 members of Congress. It would require the services of an expert detective to find a phase of the present administra-tion's activities during the six months Congress has been in recess that is not to be investigated.

Among the major investigations due to occupy the attention of the Senate when it re-

convenes will be the connection the oil in-terests have had in the framing of the Lausanne treaty, the wasting and stealing of approximately \$550,000,000 seized by the alien property custodian during the war, the operations of the Department of Justice and the Federal Trade Commission in connection with the bread merger, the results of the investigations into the elections in Illinois and Penn-sylvania, which will include an investigation of the qualifications of Cyrus Woods for membership on the Interstate Commerce Investigation, and, most likely, the invasion of Nicaragua by the Marines.

The House will have a number of investigations of its own, as will also the Senate. if certain resolutions now pending for investigations are adopted. One in the Senate in which the workers are mainly interested in is the La Follette resolution for an investigation of the Passaic strike. Another is the Shepard resolution for an investigation of working conditions in all the textile mills,

## SOCIALIST HEAD IN LATVIA

Premier and Five Members of Cabinet Are From Party of Labor

THE bourgeois-agrarian Government of Latvia, hander ment of Latvia, headed by M. K. Ulmanis, is reported to have re-signed, following its defeat in Parliament on a vote of confidence. According to a Jewish Telegraph Agency dispatch of Dec. 19 from Riga, President Jahnis Tachakate entrusted Rabbi Nurok, a deputy, with the task of forming a new cabinet and a coalition government, composed of five Socialists and four representatives of the middle class parties, has been set The premier is Skujenik,

## TIMELY **TOPICS**

By Norman Thomas

CINCE 1911 the United States has meddled incessantly in Nicaraguan affairs. Its meddling has piled up the Nicaraguan national debt, ncreased the cost of living, almos crushed what germs there were of self government. It has brought no coresponding benefits to the natives even by way of bathtubs which are the usual proofs of the blessings of our civilization. It has brought no benefit to the United States. It has cost our taxpayers money. But some few individuals have made wicked profits, and somehow or other, as in other examples of imperialism, they have persuaded a public absorbed in

its own affairs that the adventure was necessary, profitable, or even glorious. Now we are at this meddling busi-ness with redoubled energy. Ameri-can officials forced the resignation of President Chamurro who held office after a coup d'etat and the quite illegal election of the old American puppet, Diaz. Our State Department promptly recognized him instead of the legiti-mate President Sacasa. An official of the State Department deliberately inspired a cock-and-bull story of Mexi-can intervention in Nicaragua under Bolshevist influence. This unproved charge was circulated apparently for the double reason of justifying our own acts in Nicaragua and preparing the public mind for unfriendly acts to Mexico in behalf of the oil investors. But Sacasa refused to quit and there has been fighting. Therefore Rear Admiral Latimer has landed Marines and arbitrarily declared a neutral zone for the alleged protection of American interests in a country which we do not legally own. And Nervous Nellis Kellogg has the gall to declare that this is not intervention. If it isn't, in the name of all the dictionaries, what

is intervention?

The hope is that the weakness of Diaz and the growth of American sentiment will call a halt to the intrigues of interventionists. Already Coolidge seems a bit scared.

As further proof of the reality of American imperialism it has just been announced that a treaty has been A MERICAN Socialists and union ists, who for years have looked forward to the coming of Margaret Bondfield, one of Britain's most famous labor leaders, will at last have an opportunity to hear her when she are the Bond School. 7 East Fift Panama, Canal would have to follow. signed with Panama by which Panama speaks at the Rand School, 7 East Fif- Panama Canal would have to follow teenth street, New York, on Wednesday us into war. We let an American, Silas Strawn, take the burden of spon soring a report on extraterritoriality which is highly distasteful to the Chin-DESPITE the attempt of Communist-employed gangsters to intimidate the members and officials of the International Pocketlook Workers' Union the water and the members and officials of the International Pocketmonious throughout Incomed a the members and the meeting was peaceful and harmonious throughout Incomed a their officials of the International Pocket-book Workers' Union, the membership of the union on Wednesday voted \$16,000 as a loan to the international Ladies' Garment Workers' I'rlon to taild that organization to reclaim its union from the Communists who brought about the recent disastrous cloak strike.

The \$10,000 loan was approved at a meeting in the People's House, called meeting in the People's House, called to install the recently elected officers.

All day in advance of the meeting the Communists were busy at the pocket-book factories distributing a leaflet which in bitter terms slandered A. I. Shiplacoff, manager of the union, and the other officers. The handbill useless.

## STANDARD OIL REAPS RECORD **PROFIT**

\$200,263,594 in Dividends Paid Out-"Independents" Also Have Huge Income

By Leland Olds

HRISTMAS has been the jolliest cluster around the Rockefeller threne, according to a summary of Standard Oil year issued by Carl H. Pforsheimer & Co., specialists in the securities of this glant monopoly. Dividends said in the Christmas quarter alone by the companies composing the Standard Oil group aggregated \$62,621,548. This is the largest quarterly distribution ever made.

These Christmas dividends exceed ter of 1925 and are \$10,000,000 over the payments of the entire year in 1912, the first year after the dissolution of the trust as a violator of the Sher-man act. They bring the total Standards dividends for 1926 to \$200,263,594, gain of \$46,757,495 over 1925. The raise the total distributed in cash to the owners in the last 15 years to the stupendous sum of \$1,695,236,767.

The year 1926 has also brought large atock dividends to swell the already bloated Standard Oil fortunes. Early in the year Standard Oil of New York cut a \$73,000,000 melon with a 25 per-cent stock dividend. Standard Oil of Nebraska distributed a 50 percent stock dividend, while both Humble Oil and Standard Oil of New Jersey gave holders an opportunity to subscribe for new stock at prices far providing for an investigation of the below market value. Altogether, Sacco-Vanzetti cases. Another House market value. Altogether, imer estimates that these bonuses had a value nearly equal to the LaGuardia the \$200,000,000 distributed in cash.

How Standard Oil dividends have mounted steadily since the last 12 Mexican government.

Of the Senate investigations that will

(Continued from page 1) ple's association for boys and sirls, with the same aims as the league. Already units have been founded in the cities and towns and even in some of the country districts. Young workers and peasants are enrolling in large numbers and the result of the maneuver seems likely to be just the opposite from what was intended.

Two years ago in the local elections the Latvian Socialists captured the administration of a medium-sized town called Talsi. They have made it a remarkable example of what ef-ficient working-class municipal government can do, even in a capitalist controlled country. New schools have been built, the streets are kept in excellent condition and a municipal electric light and power plant has been constructed. Furthermore, the city fathers have taken over all the sa loons and are running them so carefully that the consumption of hard liquor has been reduced by 30 percent already, although the city has made \$1,000 net profit in five months. Temperance propaganda is being carried on by the administration, regardless of the possible diminution of

Talsi also has its own savings bank and credit institution and a municipal co-operative of consumption is about to be launched. The municipal li-brary is now one of the best in Latvia and the city administration even runs excellent concerts; with the best talent to be found in Riga. In spite of all these costly activities, the small property owners have been practically freed from taxes.

Cultured and political and union work go hand in hand in Latvia. A recent instance was the founding of a Workers' Theatre Association in Riga, with the poet, Rainis, at its head. The association is to have its own theatre and artists and is welcomed by all progressive elements, as well as by the labor organizations, as a much-needed move to counteract the degradation of the stage and drama which has gone so far in the bourgeois

Unusual interest is being shown in the forthcoming debate between Clarence Darrow and Mr. Will Durant, which takes place Saturday, January 8, 8:30 p. m., at Carnegie Hall. The subject is "Is Man a Machine?" Dar-row, from the height of his agnosticism and deep-dye pessimism, will argue that man is the creature of reactions and compulsions which are beyond his control, while Durant will contend that reason is a primary part in the life of man.

Dr. John B. Watson will act as chairman. This debate has been arranged by the League for Public Discussion, 500 Fifth Avenue.

## Court Vents Spleen On Bakers' Union Heads

Bakers' Union, seven of whose members and two of whose officials were adjudged guilty of wilful viola-tion of an injunction order by Supreme Court Justice Cropsey, in Brooklyn, last Tuesday, announced that the union is preparing to appeal from the judg-ment. In the meantime an application for a stay of execution of the judgment will be made to one of the jus-tices of the Appellate Division.

The proceeding to punish the makers vas intiated by Probolsky Brothers, coss makers, of 332 Snediker avenue, Brownsville, who have been engaged in a chronic battle with the Browns ville Local of the Bakers' International The injunction which Probolsky claimed was violated was obtained by The last conhim some time ago. tempt proceeding was one of several started at different times by these particular boss bakers.

The men who were found guilty of wilful contempt are all heads of families. They face prison sentences Workers' Union, 137; Jewelry Workers' and possibly heavy fines. The of-Union; Laundry Workers' Union, 280; ficials of Local 87 say they will continue their campaign for recognition Bakers' Union: Mattress and Bed of their union and for support of their

> The officials who were found guilty by Judge Cropsey are Heller and Pollock, business agents of the local.
> In announcing his decision, Justice ropsey made a bitter castigation of trade union leaders in general and the officials of Local 87 in particular. The latter he characterised as unworthy of belief. "They are all lying," he de-

> clared. However, he did not seem to find the occasion for so characterizing a single one of the witnesses for the moving parties although their testi-mony seemed to afford fremony quent opportunity for such character ization

The proceeding to punish which eventuated in the finding guilty of the nine bakers and their officials grew out of m battle the Local was conducting with a baker boss by the name of Schnell which ended when Schnell signed up with the union on Decemper 3, when all picketing was discontinued. Notwithstanding the fact that the placards carried by the picketers was Schnell, Probolsky maintained it was his business.
Solomon presented to the court an

agreement which had been entered into between Probolsky and the union in which it was expressly agreed that the injunction order obtained by

HARLES SOLOMON, attorney Probolsky be modified so as to allow for Local 87 of the New York picketing of grocery stores provided the placards announced the particular pose at beases against vitom the cam-paign was directed. Also, it was prought out on cross examination of paign the boss that the union was ready at

nce to discontinue picketing Probelsky customers provided these bosse made these customers known to the ion and that the Probolsky's refused to comply with this request. all unavailing with Justice Cropsey who insisted the campaign against Schnell was a blind to reach the Probolskys in face of the fact that the icketing was promptly stopped when Schnell signed up.

"This is certainly a case where justice miscarried, with all due respect to the court," said Joseph Rose, to the court, secretary of Local 87.

Waton in Brownsville

## COMMUNIST ALLIANCE WITH GANGSTERS SEEN IN ARREST OF 2 FURRIERS

A COMMUNIST alliance with underworld characters in a desperate effort to retaliate against the ouster of Communist officials from control of the New York Cloakmakers Union was seen by President Morris Sigman of the International Ladies' Garment Workers' Union in the holding for Grand Jury action of two Communist furriers in \$10,000 bail each for an attack on a cleakmaker, a member of Pressers' Union Local 25.

The cloakmaker is Abraham Cohen, who lives at a Bronx address. According to the complaint he was set upon by Morris Lederfind and Joe Weiss, gangsters employed by Ben Gold, Camnunist manager of the Furriers' Joint Board, who administered a severe beating on Sixth Avenue, between 24th and 25th Streets, on December 9, hecause he justified the ouster of Com-munist officials in the cloak union folowing a disastrous 25 weeks' strike. Magistrate Renaud, sitting in Jefferson Market Court, was shocked by the brutal beating given to Cohen, and he held the two assailants over for the Grand Jury, fixing heavy bail.

President Sigman, in commenting on e assault, declared: This unholy alliance between the nmuinsts of various needle unions gangsterism must stop. It reveals esperate Communist attempt to off the inevitable—their complete nination from our progressive ors demanded by a rank and file

red by their campaign of terror-This recourse to violence of a brutal nature—Cohen was so up that after three weeks he was lmost too weak to appear in court his assailants-is their last

## PORTERS' CASE IN Muss dini Jails 100,000 Opponents; HANDS OF R. R. **BOARD**

Negotiations Between Union and Pullman Company Now in Progress

By Frank R. Crosswaith negotiations between the Pullman Company and the Brothof Sleeping Car Porters, through the medium of the United State Mediation Board, the Pullman Porters' Union advances to a new and interesting position and is fraught with significance insofar as these affect the Negro masses.

From the day when the first slave ship, loaded to its gunwhales with human freight, set sail from Africa for the new world to this day, the history of the Negro in the United States has been written with the tears and blood and heartaches of the tortured and toil-crushed black. In all his rewas always at a hopeless and helpless disadvantage. This fact is never more clearly seen than in the industrial and economic life of the group, especially in the Southland. Contracts were made for virtually the life of the century-old custom of ruling classes to deny an education to those ruled, in the hope of maintaining rulershipthe slaveholders did not permit Negroes to learn how to read and write; it was, therefore, impossible for the slave to read the contracts drawn up by his master, and as for signing them, this procedure was out of the question, since Negroes were not permitted to learn the art of writing.

Under this arrangement countless injustices were practiced upon these conveniently illiterate workers. The practice continued in full flower during the period immediately following the overthrow of slavery, and to South, the custom is still in force though somewhat restricted. The truth of this statement can be evidenced by the meagre amount spent in certain Southern states for Negro education. It is to be noted that it is mainly in such sections that peonage, the dying relic of slavery, still

On Wednesday, December 8, in Chicago, when A. Philip Randolph pre-sented the case of the Pullman porters hefore a government agency, created for the purpose of adjusting all grievances between railroad owners and workers, regardless of color or posi-tion, the old iniquitous relationship between the races received a vulnerable blow. The event marks the fac that the beginning of the time is here when the industrially awakened Negro worker will demand a voice and a vote in the making of contracts af-ecting the sale of his labor power, the indictions of his employment and his

The making of a successful agreement between the Pullman Company and the Brotherhood will also tend to completely shatter some of the long held beliefs concerning the Negro worker, his ability to function in the modern industrial world, his capacity grasp the significance and importance of trade union organization, and to utilize this method of coping with the problems of our industrial That the future of the Negro will be most fundamentally affected by the outcome of the porters' case is mention the Socialist M. P.'s Zirardini large number of party organizations readily conceded by all who have given at Milan, Viotto at Brescia, Momig-

## Fascists Sack Precious Libraries able Halian Socialist leader, ell advised in recently was

making his crape from the enormous jail, of which Senito Mussolini is head turnkey, becomes clear with the perusal of the following report, dated November 16, reiched by the Zurich Bureau of the Son let and Labor International from . reliable Italian

Each day bring fresh reports of vio-ITH the beginning of actual stands alone. When news does arrive, it comes, as in the middle ages, in the mouths of a welers. Probably no one will ever know the extent of the so-called acts of reprisal following on the Zamboni attempt.

In Milan the offices, chambers and dwellings invared, sacked and burned are estimated at about one hundred Those injured by beating at about a gravely hurt; three, perhaps four, persons have been killed. All these esti-mates are rather below, than above, the facts. Any calculation for the whole of Italy is, of course, quite un-certain, the Fascist violence has raged with varying degrees of intensity; in some provinces worse than in Milan in others, especially in Central and Southern Italy, in less degree. Still it nay be said that over all Italy the acts lations with the white man the Negro of destruction, arson and looting ount to about 1,000, while the numlence amount to some tens of thou-

#### Headquarters Attacked

Nothing has been saved of the few remains that still existed of the former Negro without his knowledge. It is Socialist organizations, sacked in the well known that in keeping with the most barbarous manner at Rome, Milan, Turin, Genova, etc. In these headquarters of the workers' Fascist institutions are now installed

by right of conquest. The majority of the "punitive expeditions" have simply ended in loot ing: the furniture of the "occupied" motor-lorries, not to speak of money and valuables. In a similar fashion, for example, the rooms of the Socialists Pietro Nenn! Zanarini, Dugoni, Lucci and innumerable others have been pillaged.

## The government has sought in

vain to disavow some of the most shameful exploits, such as the sacking of the library of Benedetto Croce, one of the greatest European thinkers, a man aloof from politics, but charged with having established that Fascism is incompatible with culture. Now, however, direct news received en ables us to confirm beyond any possibility of denial the violence committed. The gunman carried off numbers of volumes, displaying them through the streets as tro phies of war and then presenting them to street urchins. The rich library of economic books of Comrade Arturo Labriola suffered even more thorough pillage. The same fate befell the precious and unique theatrical library of Roberto Bracco, the great Italian dramatist. The manuscripts of his plays were burned in a bonfire in the street. In the University of Naples, pro fessors marked as anti-Fascists were naltreated and driven from the uniersity with blows and kicks.

In all the towns of Italy arrests are closely pursued, for luckily some have munist parties and also many of demand then rearrested within a few days, ization. Two or three live wires insanity.

even a cursory thought to the matter. liano, Cazzamalli, Frontini at Como

#### Mussolini's Tyranny Uniting His Enemies

That the wave of tyrannical measures directed at all anti-Fascisti, following the alleged attempt upon the life of Mussolini at Bologna on October 31, is forcing the various anti-Black Shirt groups to get tonon war upon the present regime in Italy is evidenced by reports of recent activities of Italian emigres.

As the latest Fascist edicts make all open political\*opposition im-possible in Italy, both the Socialist Party of Italian Workers (the Unitarians) and the Italian Socialist Party (the Maximalists) have set up headquarters in Paris and announced that they have freed their members in Italy from party obligations. The representatives of these parties have held a joint meeting with officials of the Italian Republican Party. which is also under the Fascist ban, at which a pronouncement was in sued pointing out that there could be no compromise with Fascism and that only through the overthrow of the Black Shirt regime could Italy be redeemed, politically, economically and morally.

In addition to Il Corriere degli Italiani, the anti-Fascist paper already in existence in Paris, l'Avanti, the official organ of the Italian So-cialist Party, has been transferred from Milan to the French capital and is coming out as a weekly. It is expected that La Giustizia, the organ of Rue de la Tour d'Auvergne, Paris, is now general secretary of the Maximalists. New impetus to the Socialist movement abroad has been lent by the arrival in Paris of the venerable Felippo Turati and the recent escape to Switzerland of Claudio Treves, another Socialist veteran.

Besides the anti-Fascist political activities of the refugees, the Italian union workers in France allied with the French Confederation of Labor are to pay special assessments, beginning Jan. 1, for the support of the skeleton of the Italian Confederation of Labor still in existence at

(the two latter were released at once), mita at Turin, Gallani at Padua, Capocchi at Leghorn, the Communis M. P.'s Graziadei, Maffi, Gramaci, Ri-boldi, Repossi, Damen, etc., and the Republican M. P. Morea. At Milan the Socialist organizers and militants Schiavello, Clerici, Vigorelli, Crestana (these three lawyers) and many oth-

Among others actively pursued are Comrades Treves, M. P.; Pietro Nenni, P.'s Chiesa, Macrelli, Facchinetti (arrested and then released), the two brothers Bergamo

All over Italy the prisons are absolutely full. At Bologna before the affair of Oct. 31 there were already two to three thousand persons arrested; after the attempt thousands of others were added (Bologna has less than 200,000 inhabitants), so that special trains to arranged. At Turin 1,200 persons

were arrested. At Milan on Nov. 12, according to a confidential po-lice communication, the politica offenders arrested numbered 5,000. crowded 2, 3 or 4 per cell, in a damp and unhealthy atmosphere.

And since supervision is impos sible and the prison staffs in gen-eral are anti-Fascist, the prison of Milan is the sole place where So restraint. The Fascist regime has thus brought it about that prison degree of liberty can be enjoyed.

Even small and quiet provincial ities, like Come or Faenza, or Pitoia have each had more than 100 political prisoners. If one had to calculate how many Italians have passed through prison during October and November on political charges, it would be nec-essary to give figures which outside Italy would seem 'difficult to believe. Probably the figure of 100,000 is below

## Helping the Good Work Along

AST week we mentioned that the 14th and 16th District Branch of the party was out to make a record. They started out with 20 yearly cards on our special offer to party branches for new subscribers. It looked then as if this branch would remain at the top of the list for some time. We did not figure at the time that Greater New York is blessed with a party organization accustomed to doing things on a large scale and that once it gets started it is a difficult task to keep pace with it. We refer to the 23rd

Assembly District, better known as the Brownsville Branch. It is bad enough only \$1.00. Many of our readers will o compete with such a branch but when in addition you have to contend with two hustlers like comrades Herman and Sadie Rivkin it will require a great deal of work and hustling to surpass their record. Without any noise comrade Herman Rivkin slips in an order for 35 yearly subscription cards and whispers to us that this is only a start and that as soon as he gets his group of hustlers on the job eing carried out indiscriminately. All we had better print enough additional he known militaris of the Socialist cards to be able to cope with the de-

Thus, with the assistance of the two managed to evade the police net; the militants of the Republican and Comtwo weeks The New Leader secured 55 new subscribers. What these branches cratic tendency are suffering the same have done and are doing can and ate. The prisoners are often released should be done by every party organdom seems to be overcome by a fit of ficulty, dispose of 10 cards, every week or every month. This kind of work Among the recent arrests we may undertaken wholeheartedly and by a readers to forever dispel the doubt that The New Leader can be made

self-supporting. Two Branches-one in New York nd one in Brooklyn-have been heard from. who will be next? Always re member that \$10 in subs for The New Leader, means also \$10 for your branch treasury. Let us hear from

We extend our New Year greetings o our readers and wish them all a happy and prosperous new year. We thank them for the interest shown and the assistance rendered and express the hope that with their co-operation The New Leader will be able to make 1927 a year of real achievement in extending the circle of readers. We have elaborated plans to gain new readers for the coming year. Every effort will be made to earry these plans to a successful fruition. Our own efforts will accomplish little unless we can enlist the co-operation of our readers. If every hustler—and The New Leader has on its mailing list the best in Labor movement— will make a new year resolution to secure one new subscriber during each month of 1927, enough new readers will be added to our list to place the paper on a solid footing and banish forever the gloom which has been constantly with us the last two months. You can do it and we hope that you will do it. Start the work at once and help us make January a banner month for new readers just as it has been a banner month for

The first results of our offer of Calerton's new book, Sex Expression in Literature, for new subscriptions has brought us two new readers and the book is being mailed to those who took advantage of the offer. Read the offer in the advertisement on page 2 and remember that with little effort the ock can be yours for nothing or

want that book and we suggest that they had better get busy immediately. The book sells regularly for \$2.50. You can get the book sent to you free if you send us three yearly subscriptions. If you can't get three subscriptions, to you for the payment of \$1.00 only a saving to you of \$1.50.

We are always glad to mail sample copies to prospective readers. Our experience has convinced us that a sample copy to one who has never seen heard of The New Leader is the most eloquent circulation appeal and generally gets results. Many of our ubscribers have been secured in this nanner. Next to getting new readers which is the most effective work that ou can do for The New Leader, you can compile a list of present or form party members, known or potentia sympathizers, and we will mail them each a sample copy to be followed with circulars soliciting their sub-This effort and should be done by ever;

We have done considerably better with subs this month than during the same month in 1925 and a little better than last month. We are glad of it but are far from satisfied. We hope that with the assistance of our friends better progress will be reported during the months to come.

A survey of the subscriptions re-ceived this week shows the following states represented: W. J. Danzeis, Cal.; D. H. Barry, Cal.; Davis & Jasper McLevy, Conn.; J. Kimber, Colo.; Bonninchsen,

## TIMELY **TOPICS**

(Continued from page 1) the "authorization" of ten very costly

new cruisers. Apparently, however, he doesn't mear to go ahead and build the cruisers but simply to use them bargaining with the other powers for a new conference on the limitation of naval armaments. This is not enough for our militarists. Actually there is no folly like the folly of competitive building. There is no degree will satisfy the militarists and esnecially the naval officers to whom an increase in armament is a matter of professional profit and advancement. The United States is rich enough to outbuild any single nation or perhaps any two nations. It cannot outbuild the world. The effort to do so will but intensify the competition and the burden upon producers everywhere. limitation of armament in itself will ot be a sure preventive for war. But undoubtedly a race in armament is a ganised the game in such a way as "Morris got all the benefit from the contributing cause of war. It cannot to throw the legal obligations on a arrangement. The pension committee be maintained without fanning in the public mind flames of fear and suspicion of Japan or some other foreign power. A further limitation of naval armament is just plain good sense. And it is to be hoped that a new world conference on the subject under the auspices of the League of Nations, or otherwise, with the participation of the United States may soon be held.

The Honorable Jimmy Walker, in nswer to my letter on the newspapers that he was not neglecting housing because that big city planning committee of his was at work. Apparently this Soviet of Babbitts, big and small, whom Walker appointed as an alibi for his own do-nothing policy, regards housing as a matter of pro found secrecy. It only concerns more than half the population in New York! The Mayor's committee has held no hearings whatsoever. Anyway, the time has come for a plain declaration of policy by the Mayor himself. The Mayor can no more pass the buck on this straight issue to some committee than he can pass the buck on

Another matter for Socialists to think about is our policy with regard to labor unions. By now we certainly have made it plain that we do not for a moment endorse the Communist conception of outside control of union through nuclei, cells and whatno which have to take orders from the Executive Committee of a political party. No union organization can stand for this sort of thing. That is the fundamental and most legitimate issue in the present conflict in the

On the other hand the Socialist Party might as well go out of business f its influence in the labor union is to be merely negative. It ought not to seek to control secretly on openly. It ought in open and candid fashion to seek to educate union men on ques-tions of profound importance to the whole labor movement. It ought, if ers on its own members if by their conduct they dishonor the name of Socialist in the trade unions. How can these principles be put in action? That is the question Socialists have to face.

ngratulations to H. H. Broach of the Electrical Workers for trying to clean up a mess in a trade union o a sort too often left for some outside

Kansas: Hochberg, Md.; McLean D.; Haferman, Lurel and Reid, N. J.: Krage and Wike, N. Y.; Jones, Pa.; Zlemberger, Ohio; Hotchkiss Va.; Sullivan, Alberta, Can.; 3 subscriptions for libraries in So scriptions in New York City. We hope that the states not on the

bove list will be heard from in time to be included in next issue. New Leader has subscribers in every State in the union and with the help of our readers today's list can be in-creased ten fold. The holidays will be over next week and with it all the wor ries which is the lot of the wage earn ers, and our friends will be able devote a little time to the work giving The New Leader the supporthat will eventually make it self-sup porting-new readers. # Sex **Expression** In Literature

By V. F. CALVERTON Author of THE NEWER SPIRIT

With an Introduction by

HARRY ELMER BARNES

SEX EXPRESSION IN LITERATURE is a challenge to the moralists. Mr. Calverton attacks prudery and puritanism as characteristics injurious to contemporary literature which has broken from the fetters of a decaying social class. It is an exposition and a justification of the freedom of sex expression in our new art. For the first time in the history of literary criticism, the changing attitudes toward sex expression are analyzed and related to their social origins.

"In this book Calverton carries the evolutionary concept into a field where professionals have posted a sign 'keep out.' His work as a whole is a very creditable achievement and you will miss much that is valuable and informing if you fail to read this book." (Jas. Oneal in The New Leader).

# Russell Prescribes New Methods for American Socialism

Ur. Russell's article is the sixth in a series dealing with "The Problems of American Socialism." Next week's article, by UPTON SINCLAIR, will be in reply to W. J. Ghene's criticism of the Socialist Party.
Others who will take part in the discussion include Lewis S. Gannett, Morris Hillquit, Louis B. Boudin, Abraham Cahan, Norman Thomas, Louis F. Budenz, Vida D. Sendder, Joseph Shaplen, F. F. Calverton, Julius Gerber, W. M. Fetgenbaum and J. A. C. Meng.

The New Leader cordially invites its readers to take part in the discussion. In addition to Mr. Sinclair's article next week, there will appear several letters

## By Charles E. Russell

"ISDOM is a retrospective old ing around when it is too late, but seldom shows up while the event is on. Nothing is easier now than to ne they were made. Exploiters the time they were made.

and persons that entertain schemes of have made it so—the St. Louis platform profit can usually see well enough, but of 1917 and the performances of the and women that are moved to any hope of the general welfare are never clear-sighter about relative adantage and disadvantage, and canno Particularly those that feel deeply the horrors of the competitive organ ization of society and glimpse what removed-these, most of all, if my ob rvation has been of any avail, are likeliest to be carried by the fervor of their faith into impracticable motions

Nevertheless, looking back, it does seem to me there were some things we might have perceived if we had but looked about us. We were a political party in America. That meant that if we were to function on the political field we must appeal to and attract the native voter. If all the foreign-born voters between the Atlantic and the would in reality do us no good. What we had to win was the confidence and

support of Americans.

.We never did a thing toward any such winning. On the contrary, in every conceivable way we aroused the American voter's distrust and dislike.

#### SHARES THE BLAME fluous and Bosotian dulness.

For one other thing I am quite ready to accept my own full share of the blame. There was an element in the party, not large, perhaps, but influen-tial, that was actuated less by ardent devotion to the Socialist cause than and penury; and, having found not only an asylum but prosperity and welnot perfectly adapted to guide to suc Anyone with half my chances of ob-servation in politics might have known require considerable mental digestion.

sought.

It is not worth while now to dig up any more of these skeletons. The question that confronts you is what you are to do with the remnant of a party, thus steered most lamentably upon the rocks. It is generally admitted that if you are to work your craft off and get to sea again, it will be necessary, first of all, to Americanize your organization, and ne of my friends are hesitant about saying how that can be done, It doesn't eem to me so appallingly difficult; you an do it if you really wish to do it.

URGES A NEW NAME

Supposing that you want any sugestions from me (as you do not) and they will not) let's see what could be done to put your maroons afloat again.

1 Change the name of your party. made errors, but they were not so readily to be discerned by anybody at wild-eyed in Russia-and you can't rub out either.

I suppose I was like the rest-blinded 2. If you are to be a political party in by the splender of the object we 2. America you will have to proceed according to some method that Ameri-

For my own part I think you would do better to organize a strong compact block of radicals throughout the country that would swing their votes to one ties as occasion might arise and so get something started in the way of restraint upon the plutocratic power in the country. But if that doesn't seem possible with the material you have now, let us suppose you are to continue as a political party and a going con-

A. You should can all this stuff about Scientific Socialism and all the terminology jargon that goes with it. There is no "class consciousness" in this country and will not be in your time. It is worse than useless to talk about it. Forget all about the economic inter-pretation of history and value, price and profit. These are things ings. Drop all the names and abstruse dogmas that you have

prophets of the International. They will never go here.

Complete Revision of Principles and Practices Is Held

Only Basis of Progress in the Future

#### ONE STEP AT A TIME

B. For myself, I am extremely you can never make headway with a political party in America whose such name. It only makes Americans stare and laugh—which is bad for your aimings. Besides, as you and I know well enough, the word lost much of its meaning when one had been kicked in the face four or five times as a mark of affection by his Socialist brother, and you may perhaps remember how large a part of our time was devoted to that

C. Give up the idea of reforming the world in a swoop and bringing in a complete new social order overnight. There are some things that don't happen in this world This is one of them. Besides, how far will you get with the American voter if you start out by assuring him that everything in his coun-

know how it can all be changed and made lovely? He will merely move toward the nearest patrol box to have you run in for the psychopathic. Americans don't under-stand the idea of ripping everything to pieces and starting all over again: they are inherently opposed to any such proposal, because, being eminently practical, they know is all bosh. Progress in this world is made a step at a time.

D. Well, then, concentrate on the first step and win that. Millions of people in the United States that are perfectly ready for one good step would utterly reject any plan of universal reformation all in a heap. The majority of the inhabitants of the United States don't want to be enslaved by organized wealth any more than you do, but they are not ready to believe that nly way to win freedom is to stand the world on its ear.

#### "GET NEW LEADERS"

on't require everylody that reads to understand perfectly what Marx meant in the furteenth chapter of "Das Kapital."

4. Select young Americans for leaders.
There will come on this earth a gladsome day when everybody will be perfectly ready to listen to everybody else, no matter where to hails from, but that day hasn't come vet, and will not until long after we are dust. There's no use waiting for it.

5. Gently but firmly put into the discard the leaders that were responsible for the catastrophic folly of the less nice, good men, full of zeal and good intentions and everything, but, present situation. What you want is nebody that understands the American psychology, and these learned and estimable gentlemen have proved that of such understanding they have not the beginning of the shadow of an inkto establish a condition or degree of Leader Emeritus, by which one that 3. Write your platforms in straight- Leader Emeritus, by which cout, old-fashioned American, and gets you into such a mess as that at

and determination such as we have re-

cently experienced in Britain, and with

which are being imported here. The

trade unions have a very hard struggle,

indeed, to make headway. That they

are doing so is evident. Progress is

being made in spite of all these for-

midable obstacles. Not only so, but

one feels that new forces are emerging.

labor is going to emerge as a great po-

litical force by the development of a

Labor Party, backed by the trade

WANING PROSPERITY

The American workers have been

and are still, enjoying a period of in-

dustrial prosperity. But signs are not

wanting to indicate that this is draw

ing to a close. Queues of as many as

factories in Detroit seeking work. Un-

employment, so I understand, is in-

creasing. Statements made by busi-

and a curtailment of business pro-

PROHIBITION

The newspapers here made a big fuss

just recently about the legalization of

the sale of vodka in Russia. Russia

was previously done illegally, Sooner

do the same in regard to the prohi

bition of intoxicating liquors. The prohibition law is farcical; drink of

varying degrees of quality is openly

obtainable. Which reminds me of the story of the Irish-American judge, who

said: "Prohibition is better than n

COMRADESHIP

If I say what I have said in criticism

of America today, I desire at the same

time to emphasize my gratitude and

appreciation of the kindly manner in which I and my co-delegate John

Bromley and our wives were every

enstrated that men and

to exercise state control over

unions, as in Britain,

There are indications that American

methods-such as "company unions".

St. Louis would be retired and never be listened to thereafter. The English have this process developed to perfec-tion. After the defeat at Juliand, did they fire Blunderer Jeilico? Not on your life. They put a peerage on him and quietly led him up stairs where he couldn't do any more harm. Jelico your St. Louis leaders. It's the best use you can make of then

THE A. F. OF L. AND SOCIALISM

You will never advance by sitting 6. You will never advance by sitting down to make faces at the American Federation of Labor. That organization may be scientifically all wrong, but you will notice that it wrong, but you will notice that it trundles right along and keeps up its membership while your own has just about disappeared. The best thing you can do is to support the Federation and trot along with it. It is a blame sight nearer to the mind and will of the American worker than you are or are likely to be. The attacks upon it are perfectly foolish. It does an immense amount of good and no harm that I can see. It is the organization of the worker. Get a hold upon its coat tail.

7 Forget all about the Third International and the Thirty-third and all in between. Forget your resentment at the outcome of the war; that changed. Forget all about the Versailles treaty, the French in the Ruhr, the Dantzig Corridor and the sad state of Scandihoovia. Come down to earth: particularly to that part of the earth some issue that has a possible interest for Americans: throw your hooks into that and make a dent in it. Then people will listen to you; assuredly they will not listen to you so long as you talk a languge they don't understand. Now, will you adopt these suggestions, or any of them!

#### EXPECTS NO CHANGE

You will not. As if I were a disembodied spirit and could hear everything, I know exactly what comments will be made when you read this. You will not make any change in your tactics. You prefer to continue to run around in circles. Far be it from me to criticizze any gentleman's taste in amusements. Running around in a circle is admirable exercise, strengthens the muscles of the legs and back and if taken with deep breathing is said to be beneficial to the lungs.

But it has one little drawback.

It never gets you anywhere.
I am willing to acknowledge that if one recalls the treasures of selfsacrifice poured out upon the Socialist party by the finest spirits, men and women, I have ever known, and then one turns to the figures of the Socialist vote in the last election, the superficial conclusions are not enlivening. But member and be cheered by it. The noble and beautiful vision of a world without greed, without pov-erty, without oppression and without war is not lost because at one time in its history few persons professed faith in it. In its own way it will come when time is ripe. I should think the only real quesyou wish to continue to chase around your nice little circles while you wait for the new day to come of itself or get busy at something effective to help it along.

## As British Labor's Chairman Found Us

#### By George Hicks

Chairman of the Trades Union Congress General Council

HE tourist who only stays a few weeks in the country of his visit and who dodges about, butterfly like, from one city to another for to plump for us that a swift rush round, and in train and country as a vast panorama, receives a wealth of impressions which are far sights and sounds to the content of certain impressions, but even then one hesitates to express opinions about that country with the confident assurance that they are true. That is how an implacable hatred of the country I feel after my recent trip to America which they dwelt. Most of these as Trades Union Congress delegate to and hither to escape oppression the convention of the American Federation of Labor. I have seen many towns and cities, I have railroaded fare, they hated the country that had through many of the States-Virginia. given them these advantages. This was Kentucky, Alabama, Louisiana, and so natural enough, no doubt; but the point on-which we used to sing songs about is that the counsels of such men were here in Britain. I have eagerly sought information from everyone I met, and cess a political party on American soil. I have obtained as a consequence a

## George Hicks Says American Workers Are At Stage British Reached 25 Years Ago

them with any degree of confidence AMERICANS LIKE BIG BOYS

The United States of American is a car views the shifting scenery of that great country. There can be no question about that. It is great geographically, industrially, financially, politically, and in many other ways. It is from reliable. The relation of the the leading world power at the present time, in a capitalist imperialist sense. conversations one is able to have with The inhabitants of the United States chance acquaintances, with persons in do not constitute a nation; they are conferences and meetings, with trade composed of many nations. And the mion leaders and public men of vari- most vivid impression I have of the ous shades of opinion, and with old men generally is that they are like friends, aid considerably in confirming a lot of big boys, vigorous and loudmen generally is that they are like spoken, and naive and rather boastful, after the manner of boys. It is curious that these men, derived from so many nations, should be so intensely con cerned in affirming their 100 per cent American nationality, and so patriotic in the jingo sense. But then the United States is a land of contradictions. Nobody in this country talks about the British Constitution, but we do take it in all seriousness; in the United States the American Constituion is talked about on any and every occasion, but the self-same Constitu tion is openly and flagrantly violated generally in several ways, particularly in regard to the law relating to prothis well, and I perceived it but dimly. It really is a "proposition" to sort out zetti, are lying in prison under the quences to the general health of the shadow of death, on framed-up people. shadow of death, on framed-up charges. There is traditionally a big peace movement in America, handed from the Pilgrim Fathers, and yet in no country are people so prone to use a gun or to resort to violence; what with the negro lynchings in the South, the machine gun, and even aeroplane wars of bootleggers in such a great city as Chicago, and the blud-

geonings and massacres that always occur during industrial disputes. THE DEATH OF DEBS

I was down in Mexico when the news was flashed across that Eugene Debs had died. Every newspaper in the United States, no matter what its pocal complexion, paid a glowing tri bute to this grand old fighter in the workers' cause. Eugene Debs was more than a national figure, he was a national institution. It is a pity that those newspapers, so loud in their praises of the sterling honesty of the man and his love for truth and justice, did not universally press for his early release from that prison cell which hastened his death. To take pride in the martyr yet remain silent during his martydrom—that is also omewhat paradoxical.

#### WAGES AND WORKING CONDITIONS

The money rate of wages is high in he United States. But, relative to the cost of living, wages are not so high as one would imagine. I do not think from what I have heard and seen that the workers of America live any better than do the workers here. The technical specialists and highly-skilled artisans may. The craftsmen in the building industry, who in New York receive a minimum of \$14 and as much as \$17 a day, may. With wages so far in advance of what similar classes of workers are receiving in this country, an extra margin of comfort and wellgle for Peace and Freedom." Brownsbeing must be granted.

But, as regards the general body of vorkers, the little extras are nothing at all to boast about. The American worker's life may possess certain compensations which the workers do not possess here. But it has its draw-backs also. Many workers own their own "Tin Lizzies," as the Ford cars are called. Many of the workers' homes show a higher degree of comfort. But their life is more mechanized and standardized.

I went over the large manufacturing works of Henry Ford in Detroit. I watched the workmen at their work. There was something banal, callous, inhuman, and soul-destroying about endless repetition that work in-The Ford workers, and workare transformed from human beings into Robots. I would not work like that for anything in the world. Nothdreadful motony of it and the intellectual degradation it carries with it.

Truly, as Debs said on one occa-"When the capitalist needs you he does not call for men but for You are not supposed to be of American life. possessed of a thinking brain or human intelligence. You are not supposed to be men. The Ford workers are truly "hands" in the crudely brutal sense of the term. The mechanization and standardization of American industry must have been achieved at the cost of tiative, taste, desire and intelligence.

FOOD I do not think the food which the quality as the food eaten by the workdoubtful origin, and tinned meats and of the problems fruits of all kinds are consumed by on. You pass the world-famed the American proletariat to a greater Statue of Liberty on entering New extent. I should imagine that food lish speaking American-born workers York Harbor, and yet we know that adulteration was more rampant there cent men, like Sacco and Van- than here, with disastrous conse-

## EVIL NEWSPAPERS

The general American newspaper are just sheer tripe. On buying a newspaper I received, with astonishment, a great mass of printed matter, inclusive "story" printed underneath: the slang, the sordid sex and crime revelations the general lack of balance, literary culture or dignity which these news-papers display must have a devastating effect on the minds of their readers. class in the world, and one of the most

## What Nicholas Meant to Say

GET this, boys and girls, it's a lot fun-nier than it appears at first, when you find out who writes it. It is called "1926-Quo Vadis?" and for the benefit of those who haven't had the superior education that was wasted upon us in our youth we will inform you rough-necks that "Quo Vadis?" means, "Where the Hell Are you Going?" or words to that effect, and then it

"A free State built upon free labor with liberty for its watchword and justice as its guide, is the ideal of a true democracy-that form of society which Lowell characterized so suggestively, if incompletely, as one in which every man has a chance and knows that he has it. To the hectic emotional radicalism that clamors for the exaltation of the mediocre and the unfit, and upon which false democracy builds, true democracy will oppose a healthy. intellectual liberalism that will aim to redress old wrongs without inflicting new ones. This liberalism of true democracy sees the end of a perfected individualism not in selfishness, but in service, not in isolation, but in fraternity."

The above ravings are denoted by the New York Times as a definition of "The True Liberalism," and they come from the pen of that noted Liberal, Nicholas Murray Butler, President of Columbia University, pal of Bishop Manning, errand-boy for the Morgans and lickspittle for any old check-book toter. In plain language you can translate the fancy talk

of Nicholas somewhat as follows: "A high-binding plutocracy built upon scab labor, with 'Boys, Get the Money' for its watchword and the Department of Justice for its guide is the ideal of a Butler democracy-that form of society that Lowell made his reputation as a humorist by de-scribing as one in which every man has his chance -providing he doesn't get caught at it. To radicalism that would throw out such a bunch of crooks, Butler democracy will oppose a healthy intellectual liberalism, meaning, of course, being liberal with the public funds. This liberalism sees the end of a perfected piratism not in selfishness (the boys should divvy up a bit), but in service (to Big Biz), not in splation, but in a fraternity such as the Associated

Porch-Climbers' Marching Clubs, Inc." Now that we have started off the New Year in reat shape by blowing ourselves to a bunch of ar-nored cruisers and our jolly old marines are chasng the Nicaraguan Liberals all over the lot (by the ay, I wonder what Nicholas Murray Butler has to y about that), we can turn to and make a number resolutions about being kind to other nations and ho do not enjoy the material and spiritual advanages of this glorious land of opportunity, which I m sure every little boy and girl would be worse an ungrateful if he or she did not appreciate to utmost (stand-op, you big stiff, and take your

sides national, there are, of course, personal resons to be made. For our part we have reved that we will never read another line from the of Bruce Barton (this is not wholly noble, as ing Bruce Barton unnecessarily upsets our digesns), that we will try our damndest not to get into iny more futile fusses with our Conservative friends, hat we will do a lot more solid reading than we did ast year (when we made the self-same resolution). nd that we will be much firmer in rejecting invitaons to public dinners. Just why we are so weak about this public dinner business is not quite clear to us. It's gotten almost to be a complex and we think something drastic ought to be done about it. When we think of the number of dishes of treacly soup which have been whisked away from us by surly waiters, the vast amount of underdone chickwith their legs tastefully decorated with paper pantalettes, the quantities of plates of brick icecream (which give us acute pains in our foreheads) and, finally, the horrendous portions of oratory which we have consumed in years past, our heads reel.

This month has been a great one for conferences. All sorts and varieties of folks got together and conferred. We got into one recently that was being held by a lot of what they call "management engi-They are the boys who think up tricks to make the workers work harder. They can devise systems whereby workers in the shops can be taught to run at full speed hither and you with whole locomotives on their backs, by means of which one little girl at a machine can produce enough in one day to keep the entire town of Oshkosh supplied with socks for a year, etc.

It was "international night" when I got there and engineers from all over the world were groveling in worship of what they call the "American methods," meaning the sort of stuff that lovely Henry Ford is doing in Detroit. A French engineer was

"We studied your marvelous methods for a long, long while," said he. "And then, when we decided to put them into effect in our factory there was a shortage of hands. We advertised in the papers for help. There appeared in answer to our advertise-ment, three Apaches from the Paris underworld, a blind man and an idiot girl. It looked like a poor lot at first, but by the use of the system 'that we learned in your splendid factories, we are proud to say that all five have now learned modern methods of mass production and are among the best workers in our plant."

We commend the above true account of the French engineer's speech to friends of ours, who tell us that they are grieved at some American workers who kick against Fordways.

## The Guild's In Operation

THE HISTORY OF SOCIALIST THOUGHT

By HARRY W. LAIDLER

Democracy in the Guild

THE guild should be democratically run. Democracy, does not mean, according to Cole, that mass votes would be taken on every move in the productive process. "A mass vote on a matter of technique would be a manifest absurdity, and even if the element of technique is left out of account, a factory administered by constant mass votes would be neither efficient nor at all a pleasant place to work in."

#### Managers and the Guilds

This democratic regime, according to Cole, should make a special appeal to the manager and technician. It is true that under it the manager would not have the uncontrolled power to "fire" a worker, for the guildsmen "would insist that a man threatened with discharge should be tried by his peers, and every man would surely have behind him a considerable meas-ure of economic security." Nor would he be able as now to ignore public opinion in the factory or the guild as a whole. On the other hand, there counteracting advantages. would be counteracting advantages. He would have a good prospect—if he did his work well, of having the public opinion of his factory decidedly on his side, in his attempt to make things move smoothly and efficiently. He could look to the workers to co-operate with him in accomplishing the best results. At the worst he would not find himself in the anomolous position in which he does at present as the nominee of a capitalist employer.

#### Types of Guilds

Guilds, according to the guild socialist, would be divided into industrial and civic guilds, while, some add, distributive guilds. There would tiles, clothing, food, etc. One writer tributive guild a producers-consumers' borders and have special representa-

suggests nine or ten great industrial organization associated with his pro-fullds to look after the economic as-posed "commune." guilds. Provision might also be made guilds to look after the economic aspect of the community.

#### The Agricultural Guild

The various industrial guilds would have practically the same structure, with the possible exception of the agricultural guilds. Such guilds would understood only by a few experts probably admit into their membership non-farmers in the small farming villages engaged in small-scale operations administering to rural needs Under the guild regime farming on a small scale would probably continue to supplement large scale agriculture. Many of these small farms would production on a national scale, as in the purchase and marketing of goods; system, subject in certain respects to guild regulations, and, perhaps, using the guild in part as an agency for

The guild system would not interfere with such independent farming, except to see to it that the land was being properly utilized and to prevent ruthless exploitation of labor on the farm. In an endeavor to do this, a system might be worked out requiring that labor be supplied only through the guild and under conditions which the guild would lay down.

#### Civic and Distributive Guilds

Most guildsmen advocate, in addition to the industrial guilds, the orinclude, in a general way, the professions of today-the medical health, the educational, the legal, the dramatic and others. Hobson makes elaborate provision as well for the government employee guild, among the civic groups, while Cole practically ignores this group. The distributive and would contain on its council representatives of the consumers, of the municipal bodies of the area covered trial and civic guilds, while, some resentatives of the consumers, of the add, distributive guilds. There would municipal bodies of the area covered be industrial guilds for transit and by the guilds and of the productive societies whose goods it distributed. Societies whose goods it distributed.

#### **Guild Structure**

The guildsmen seem generally file" suggestions and of the various factories. In regard to mem the national guild, highly decentralground that the basis of the medieval storing local autonomy in industry could the domination of machine production be overthrown. The majority of guildsmen, on the other hand, point to the advantages of the economies of to the fact that trade unions, which might be regarded as the basis of their ideal system, are national; that the guild in part as an agency for it is impossible to return to the local-purchase and sale, "but otherwise on their own." but of the control of the machine by

The national guild would have under its control such matters as the pur-chase of raw materials, the securing of markets, the laying down of general policies, as in the setting of standards of workmanship and safety, the conduct of research and the representation of the guild industry in its outside relationships. In actual matter ganization civic guilds. These would of administration, on the other hand, the local unit, ordinarily the factory, would have very large discretion.

There would likewise be regional

for shop committees for "rank and file" suggestions and criticisms, within

In regard to membership in the guilds and expulsion from the guilds ized. Penty and his followers favor the local guild as the unit, on the have had little to say. They have given more consideration, however, to the method of paying the members of the guild for their services. Hobson suggests that, at the beginning of each year, an amount be placed aside as the total wage budget of the year for the members of all of the guilds and that a wage fund be allotted to each guild in proportion to its membership thus applying the principle of equality in wage payments as between the guilds. However, that would not necessarily mean that each guild member would receive the same reward. The that one should not be fearful of the domination of the machine as such, for some time. Ultimately, it would be the hope of the guild leaders that the principle of equality in payments has already been observed, the guildsmen advocate payments in sickness, and during slack times, as the needs of the workers do not cease when, through no fault of their own, they find themselves out of work.

#### Inter-Guild Relations

There would of course be a great business transactions between the guilds. The clothing guilds, for guilds to look after the interests of instance, would stand in relation to industry in various parts of the counth the textile guild as buyer and seller. try. The local guild would elect rep- Business relations could be adjusted resentatives to the regional or district between guilds partly by means of a guild, and the district guild, to the system of "interlocking directorates" guild proposed by Hobson would have charge of much of the retail trade, would thus be represented indirectly, mit the textile guild to appoint a few would thus be represented indirectly, not directly, in the national council. representatives to sit on its local Members of particular trades, fur- regional and national councils, and

## The Road to Parnassus

## By Norman Studer

Way Parnassus? By Percy Marks. Y., Harcourt, Brace & Co., \$2). Marks is equipped to give an inside picture of college life, having studied at the universities of California and mouth and Brown-leaving the latter institution by request on account of

as the tactics of force Anarchists by their enemies.

And what a sorry picture he unrolls overthrowing the civil powers and Making allowance for this, it does before the reader. Of the alumni he bad"; to avoid all "bias"; always to eventually had to leave. In this atmos- termined by whether they announced reminiscent of primitive tribes. As for

OR the most part, Percy Marks the faculty, here Percy Marks bears draws a fairly accurate picture down beautie draws a fairly accurate picture of the academic scene. (Which Parnassus? By Percy Marks. "scholars" and a few "scholar teachers" entirely surrounded by compoops. Not a spark is ever struck by the nincompoops: "they never give forth an idea; they know little, the hang like a thick moss on the college smug and supine, and if they go increasing at the present rate they will probably smother the intellectual life of the undergraduates."

It is when the author begins to dis cuss the causes of the debacle of our higher education that we are bound to a corporation. But want soon changed sentiment. It grew to resentment, for their own interests and that the protest, then rage, and emerged public powers are in the hands of All of which, translated, means to avoid of wealthy trustees may lie at the bot tom of the problem.

In minimizing this menace Marks closes his eyes to one of the most abvious facts in the situation. Ro-tariansm is continually castrating higher learning. The process is son times open and unashamed. When Dr. Kirkpatrick was dismissed from Olive last spring he was informed that his services were no longer required, "not because of any inefficiency on your part as a class-room teacher, but because of your views on college admin-istration, which views you have always been free to express and advocate, are not in harmony with the views of the Board of Trustees and of substantial friends of Olivet not on the board who are giving financial support to Olivet College." Most college authorities get rid of undesirables in a more skilful and subtle manner. Every spring brings its crop of dis-

missals of young instructors who have not yet learned to kow tow and of older men who are finally caught at some intellectual indiscretion. Despite Percy Marks, this band, numerically insignificant, is of utmost value to the college system. One such man in every college is able to build up an imposing island of revolt in the sea of Babbittry. The trustees are wiser than Mr. Marks, for they know that these islands are real and serious challenges to the college mediocrity and stupidity which constitutes their strength.

If Percy Marks has not put us on the road to Parnassus, to change the figure, he has at least kodaked for us me of the bogs and the thickets that the college have permitted to obscure that famous turnpiles.

#### A Letter To St. Nick

# DEAR SANTA CLAUS:

I am a little boy only fifty-six years old, so I thought I would write you this letter, so that when you come this way you won't forget me.

I was always a good boy. Even as a baby I never smoked or chewed tobacco, or used bad language, and for a whole year I didn't drink anything stronger than milk. All the ladies who came to our house loved me and took me on their laps and kissed me because I was such a sweet little boy. And I have tried to repay their kindness in kind ever since-which you may not believe, but Honest Injun, and hope to die if I haven't!

When I was a little shaver I never bothered my Ma to give me jam and doughnuts and pie and sugar lumps. I always waited patiently until she left the kitchen and then helped myself. Neither did I ever cry for pennies-but just took the pig off the mantle and shook it until it gave me the pennies, which kept everybody happy because the pig was a good pig and never squealed.

In school I was always at the head of my class when called upon to explain who did it because the teacher knew I knew more about it than any other

For awhile my school reports were not so very good except on penmanship, in which I always got a hundred. But one day the teacher sent me to the superintendent for a batch of blank report cards, and after that I had hundreds in everything.

I finally got so good in penmanship that I could write just like the teacher and Ma. So I used to write them notes to each other explaining why I wasn't in school the day before or came home too late to fill the wood box, which kept things pleasant all around.

Some of the bad boys in school often wished that the school house would burn down or the teacher die. But I never did. I prayed for it. But I guess I didn't pray hard enough, because the school house still stands, and when the teacher died it was too late to do me any good.

I always used to pray that when I grew up I would be a pirate, but neither was that prayer ever answered. The nearest I ever came to being a pirate was when I ran for Congress and almost got

Yes, Santy, I always was a good boy, and even after I was grown up I did everything I could to make life interesting for the policemen and gave the uplifters and neighbors something to talk about. But what I am proudest of is that I never scabbed during a strike or took a job from any one, even when there was no strike. Because jobs are often very scarce, so that many a man is glad to have one and I never was the kind of a fellow who would deprive a willing worker of his only pleasure.

Somewhere in this great country there is an honest working man who puts in eight, ten or mayltwelve hours a day at hard labor whose job I might have taken from him if I had been as mean as some people. I don't know him and he may know nothing about his benefactor, but if you happen to run across him, sitting comfortably beside the kitchen stove, surrounded by a dozen happy children, inhaling the mingling fragrances of corn beef and cabbage, soap suds and Four Brothers tobacco, tell him he's wel-

come to everything I gave him. Tell him never to worry about his job on my ac-count. Tell him that I would a thousand times rather die in the poor house than to deprive my fel-low man of a good steady job. That's me all over. That's me, Santa. There isn't a thing I wouldn't do for a fellow worker who can't live and be happy without work. And all I ask from you in return is:

A Packard car, a steam yacht, a toy brewery and a I know it is said that virtue is its own reward, but I'm sure you will agree that such rare virtue as mine is entitled to better pay. So please bring those

Your good little boy,
ADAM. things and I will remain forever

P. S. I forgot to tell you that I am just crazy about antiques, so if you can pick up an antique jug of Yuletide spirits while going through Canada, I

## We, Us and Co.

We have worried our editorial head considerable of late about our interests in Mexico. Now the Chicago Journal of Commerce has at last relieved our anxiety by publishing the names of the parties representing our interests and drawing our dividends in our Mexican holdings.

The list is not complete yet (more installments are promised), but from what we have gleaned so far we own some fifteen hundred million dollars of property in Mexico through the intervention of The Morgan Interests.

The Standard Oil Interests

The Mellon Interests The Sinclair Interests
The Gugenheim Interests

The Henry Daugherty Interests

The Cole Ryan Interests The Southern Pacific Interests

The Bethlehem Steel Interests The Kuhn Loeb Interests
and sundry other interests in which we are platonic-

ally interested as sack holders without voice or vote. We hasten to state, however, that all these parties enjoy our full confidence as guardians of Mexican interest, and we sincerely hope that in the even of a bloody conflict between these two countries they will continue to represent us in their present capacity.

Among the Missing

Clarence Bailey of St. Louis went out in the kitchen and started an argument with his wife. When seen again the upper part of Bailey's head was missing. To the inquiry of how the missing member of the Bailey family became missing, the Missus replied that it went off with a double-bar-relled shotgun she was using as a lid lifter.

The fact that the widow Bailey is bobbed-haired, only twenty-four and good looking, may be sufficient evidence to convince any American jury that the incident was purely accidental. But, say, isn't it a fright the way these bobbed-haired women are acting up lately? First the bobbed-haired bandit, then the bobbed-haired bank robber, then the bobbed-hair booze runner, and now the bobbed-haired mama who bobs her husband's head with a shotgun

Adam Coaldigger,

## State Insurance Fund Demanded By Farmer-Laborites in Minn

## The Field of Labor

ome pointedly by recent event ta. The State compensation board has permitted the private com panies to increase their rates of compensation insurance. Both organized labor and capital have reach the source of the difficulty. entered protest. The Employers' As argues that Minnesota rates are the highest in the country. ually high amount of forty per cent of premiums goes towards ad-ministration. Only sixty percent is The Old Age Pensions Commission of Pennsylvania, under the chairmanpaid in benefits. In Ohio and North Dakota where State funds exist, administrative expenses are only ten and five percent respectively. The employers contend that the high rates stein, has just published a corking place Minnesota capital at a disadvantage in competition with other States. Labor has two objections: first, if the overhead is high, then less is available for benefits; secondly, if employers pay high rates they resist all the harder any further inin compensation to injured

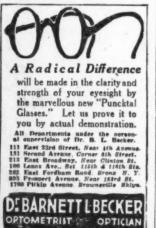

The reasons given by the compen sation board for allowing the increase are peculiar. It stakes its side of the case on the theories that there is an liberality in adjusting increasing claims and a greater productivity of labor. Therefore, employers ought to be able to pay more.

It is obvious that the private workcompensation insurance system makes way for profit motives irrespective of any consideration for the companies want big premiums, the employers, therefore, small compensation benefits. The agency under capitalism can only arbitrate between these conflictbusiness interests. The injured worker is but incidental.

The Minnesota Federation of Labor in common with the organized trade union movement in other parts of the country is demanding State fund in-surance. It is going to push this proposal at the coming session of the State legislature. The Farmer-Labor forces which are holding a Statewide conference in St. Paul on Jan-17, 1927, are already committed to the plan. In 1919 a bill establishing a State fund insurance system passed the lower house but failed in the upper by but one vote. Since accomplished. then, little effort has been exerted to open up the question. Were the Farmer-Labor elements stronger then they turned out to be in the November elections, they might be more certain of success. Yet the fight will worthwhile making.

## HOMEWORK ON MEN'S CLOTHING

General information has it that the sweat shop" has been abolished in the men's clothing industry. Nevertheless, the sight of children and women carrying bundles of work back and forth is evidence to the contrary. State regulations have perhaps taken the "sweat out of this sort of work, yet super-vision is very difficult. The unions concerned prohibit home work in their contracts with employers, yet an investigation of New York city and Rochester, just completed by the New York State Bureau of Women in Industry, shows some surprising figures. In New York city 13 per cent (or 5.000) home workers are largely concentrated in the contract shops. Moreover, in New York city there has been an actual large in the contract shops. Moreover, in New York city there has been an actual large in the contract shops. tual increase in this practice. One of the interesting facts revealed by the study is that, even in an industry alsonal in its nature, irregularity of employment is even greater among home workers. The most dammethod of regulation be worked out to

## THE FRAUD OF INDUSTRIAL PENSIONS

ship of James H. Maurer and the re-search directorship of Abraham Epreport giving the results of an investigation conducted into private old age pension systems. The inquiry showed that personal managers are generally "sold" on old age pensions as a proposition which pays by keeping up morale and acting as a club over wayward employees. Still, only the very largest corporations, chiefly those employing one thousand or more workers, have installed pension systems, six per cent of all industrial establishments employ 101 workers or more. Practically all pension plans include in their rules conditions which limit the ability of the average employee to qualify. In most cases the minimum come within that class, the total num-ber affected is insignificant. A serious objection to private pension schemes that the com penses to meet any pension demands. All in all, only ninety thousand workerá were pensionera last year, recelying on the average \$485 per annum Since there are about 1,800,000 dependent aged persons sixty-five years and over, it means that about ninety-five per cent of them must still resort to charity to enable them to live out their existence. No stronger argument can be presented in favor of old age pen-

## AND WHY NOT **UNION PIE?**

We do not mind the union label or bread-in fact, it has almost become an appetizer in some families-but somehow with pie it is different. Ple escapes our scrutiny and since it is beoming more and more a specialized product of certain bakeries it has slipped by the Bakery and Confectionery Workers' Union and in many cities has become largely non That does not end the tale, however The introduction of machinery and the traditional skill from pie making and large factories employing women and girls turn out this great American food in large numbers. The Bakers Union has realized this. In St. Louis a special campaign is being waged to organize the one hundred and sixty employees, mostly female, who are found in the five big pie factories in town. International Organizer Jack of all the workers in the men's cloth-ing industry are estimated to be home Zamford is visiting every labor union workers, and in Rochester 6 per cent, or 700. Both inside and contract shops use such help, but in Rochester the home workers are largely and the state of the such help.

## UNIONISM

There are as many as one hundred anging criticism against this type of and sixty-five local unions directly employment, however, lies in the fact that the per capita earnings of this of Labor, the members of which are class of help is considerably lower entirely negroes. Discrimination than the average factory earnings—in against whites? What a calamity! We Rochester almost one-half, in New know, of course, that the 6,000 workers York about two-thirds. These facts in these negro unions have either been suggest but two conclusions: (1) that excluded from membership in the bona the existence of "sweat shops" or, let fide unions of their trade or no or-us say, home work, must be recognized ganizations have been organized by the and not denied; and (2) that some whites because the occupations in uestion are manned by negroes. latter, to be sure, are now admitted to many unions where they have made their competition felt. Yet in the South negro locals are often found, and even two central bodies in a city, one for white unions, the other for The Jim Crow spirit in the trade unions is injurious to the very workman who is most guilty of it. The negroes can become either union members or scabs. They make go either capacity.

# THE LITHOGRAPHERS' UNION STORY

By LOUIS S. STANLEY

VI.—Achieving Amalgamation (1906-1915)

taught its lesson. The scattered forces of the five lithographic s were no match for the power ul, centralized National Association of Employing Lithographers. The Central Lithographic Trades' Council lapsed in 1907. It was evident to many that a mere alliance was not enough. A merger, an amalgamation was necessary. How was this to be accomplished? The Lithographers Inter national Protective and Beneficial As-sociation, which claimed jurisdiction over the whole trade and favored nalgamation through its absorptio of the other unions, took up the question at its Indianapolis convention in Committees conferences were held. Finally a Joint Amalgamation Conference took place in the city of Buffalo, August 6, 1908. The plan then evolved resembled that

not yet ripe for such a major step. First Efforts

Efforts to arrive at an understand ng did not cease. At the request of th Artists, Engravers and Designers ed a committee in 1910 to confer with similar committees of the inviting organization and the Poster Artists' Associations. Meetings of this Joint years of service required is twenty to Committee were held during the spring twenty-five, but since no more than of that year, but nothing definite mathree or four per cent of employees trialized, since the representatives of the Poster Artists had no authority to formulate any agreement to amalgamate, in view of their forthcoming convention. The latter meeting turned proven to the satisfaction of its nerespect to other organizations.

> with a Joint Local Amalgamation
> Committee, which had been in communication with the various lithographic unions and had worked out a feasible plan of unification. It was the results of t this progrem, together with the resolutions submitted by the L. I. P. and Herman Kaufman of the Artists' that ecame the basis of discussion at the Amalgamation Conference held at Buffalo in September, 1913. The steps by which amalgamation was finally achieved are important not only for lithographers but for all those trade unionists who are interested in seeing a similar program worked out in their

ing is open to the members

THE failure of the strike of 1906 democracy and be based on "Direct rather younger men. Again Kaufma Legislation

The Buffalo Conference of 1913 The second Buffalo Amalgamatio Peterson's Hall, Buffalo, N. Y., September 8, 1913. At this historic ering the five unions in the lithographic industry were represented by some of their most active spirits. Their names are worth recording.

Lithographers International Protective and Beneficial Association: Frank Gehring, then president; Philip Bock, president of the Amalgamated Lithogphers today; James O'Connor cretary-treasurer today; Thomas Woodring; Frank Steele, Harry Fel-

Louis P. Webber, William Volkert. eventually adopted, but the time was president: William Riehl, Robert

William A. Coakley, then President. now employed at City Hall, N. Y. C .: Lithographic Stone and Plate Preparers' Association of America: Michrecently editor of the "Lithographers Journal," author of a life of "A Life of Senefelder," founder of lithography. It will be noticed that the Artists, Engravers and Designers League had changed its name to the International Union of Lithographic Workmen. This carelessness of corporations in making down the amalgamation proposition, was done in 1912 as a gesture in favor adequate financial provision to take and the membership in a referendum of industrial unionism and international affiliation. Actually no efforts luck to enable ordinary operating exists League and the L. I. P. continued were made to enroll lithographers who their conversations. Then, in April, were not artists, engravers or design-1911, when a conference consisting of one representative from each local of tion was asserted as a matter of printhe L. I. P. and B. A. was being held in Indianapolis, a committee was able International Federation of Lithogto report that the Artists' Association rapher's and Kindred Trades was had practically acquiesced to an amal-gamation plan. The conference voted members who, because of the absence not to change the title of the Lithog- of international communication among raphers' International Protective and lithographers, had been induced to Beneficial Association until it could be come to this country in 1906 and then compelled for the sake of making a otiating committee that the Artists' livelihood in a strange land to act as Association controlled sixty-five per scabs. Of the other unions the Poster cent of those employed in its craft. A Artists were rather inclined to favor similar provision was to apply with nothing more than a loose confederation. Their job monopoly made then Thus matter stood until 1912. In feel secure. The Press Feeders who that year Frank Gehring, president of for years had been neglected by the the L. I. P., made a swing through the West. At Chicago he made contacts colored by their unsettled jurisdictional with a Joint Local Amalgamation dispute with the Lithographers' Inter-

#### wholly in favor of amalgamation. Shall Craft Liners Go?

The discussion of the Chicago Join ocal Amalgamation Committee reso lution opened the proceedings. A Mr Raven of Chicago was present to explain the plan and the steps leading to its formation. The crucial section was No. 9, calling for the elimination of all craft lines. The conference went straight to a consideration of the heart of the matter. Kaufmann, Gehring, Buxbaum, Bock and Halbmaier spoke in favor of Section 9 Coakley and Kranz of the Press Feeders took the contrary view. The forthe L. I. P. and B. A. preceded by the adjective "amalgamated." mer said it was a "physical impossibility" and his remarks bordered on the personal. The latter insisted on autonomy of his organization and craft voting power. When a vote was taken—each union cast one ballot—the motion to eliminate craft lines was

approved by all except the Feeders.
Attention was then turned to Section 10, providing for the definiation of the jurisdiction of each branch of the industry. A portion of a reso submitted by Kaufmann of the Lithographic Workmen was substituted be-cause it was more specific. It stated that the general body shall have control of "all basic questions that affect the interests of the entire membership, such as the maintenance of a general fund, etc., etc., but all questions re-lating to working time, apprentices, wages and all other similar questions are to be under the control and juris-diction of the membership of the craft so aectifed. This was adopted unaniously with the provise that no branch may enter into a strike without the approval of the general association except in emergencies.

## The Death Benefit Obstacle

The next stumbling block was secon 23, which established a uniform mortuary fund for all members. The Press Feeders were particularly adverse to such an arrangement. They claimed that a death benefit system burden to their members, who were

ting the branches to retain, establish or reject mortuary funds to be main-tained separately by each as it pleased. The L. I. P. felt very strongly on this point. It had such a fund; it was pro to adopt its plan. The L. I. P. delegation asked to have the matter go over until the next day. This request was refused by the others. There was a parliamentary tangle, and the L. I. P. had its wishes acceded to by the con-

the Chicago Committee Resolution.

fund approved.

and the establishment of an emergency

The following morning the L. I. P.

osal as to a mortuary fund. They

ton and Daniel Bricklay. Poster Artists' Association of Amer a: Roy O. Randell, then president; International Union of Lithographic Workmen: Leopold Buxbaum, then

asked that their system be adopted by the new national amalgamated body that new members and present L. I. P. ick, secretary of conference; Adolph members be compelled to join, but that it shall be voluntary with the present Rahm, Herman Kaufmann. Lithographic Press Feeders' Associa nembers of the other lithographic on of the United States and Canada: Between the extreme held by the delegations of the L. I. P. and the Press Feeders the debate waxed hot and sometimes went beyond bounds. The Poster Artists wanted assurances that they might retain their own benefit system. An amendment permitting this was accepted. Buxaum of the Commercial Artists hought the L. I. P. resolution gislation. Others questioned the legality of depriving an expelled memer and his heirs of benefits. Finally, vhen the resolution came to a vote, with the understanding that all moions would be submitted to the mem-ership to be voted on point by point, it was passed, with the Press Feeders The question of craft lines could no downed.

Coakley introduced a lengthy resolution which revived the whole subject. His proposition was jockeyed into position for discussion by parliamentary maneuvering. sked for one vote for each craft on rade matters, such as ratio of aprentices, hours, wages, and a two-thirds rote of the general membership for calling a general strike. The resolution carried. The Poster Artists and Pres Feeders voted in the affirmative with-out reservations; the Stone and Plate Preparers did likewise, but only in orfurther amalgamation. Commercial Artists were in the negative, though their delegation was di-The L. I. P. went on record as nostile to every form of craft voting.

The National Council Idea After this last obstacle was hurdled

he rest was easy. The name for the new organization was to be the Amalgamated Lithographers of America. A set of resolutions by the L. I. P. and B. A. supplied many practical details to the new organization. An important item, which helped solve the dispute over craft lines, referred to a national council, which was to consist not only of the five national officers-namely, the president, first and second vice presidents, secretary-treasurer and statistician—but also a representative from each craft, as follows: Poster artists, commercial artists, desginers, engravers, provers, pressmen, trans-ferers, press feeders, stone and plate preparers. Ten of the fourteen votes were necessary to levy an assessment mands that might lead to a strike. A similar arrangement was to prevai lin executive councils of locals. It was then provided that the component unions should dispose of their funds as they pleased and pay off their debts to whatever extent possible. After providing for a joint committee consisting of one representative of each union to meet in New York to put the score of a referendum vote, the results of which were to be known by January 1, 1914, the conference adjourned on September 11, 1913, the delegates pledging themselves to do their utmost to urge the by their constituencies.

## Labor Still Harried By Estonian Reaction; Danish Laborers Bolt

## Labor Doings Abroad

handful of Estonian Communists, with Russian backing, attempted put over a coup d'etat, the genuine

labor organizations of that little Baltic country have suffered persecution at the hands of a reactionary government. Not content with jailing and executing many of the leaders, or alleged leaders, of the uprising, the Estonian authorities have done their worst to put organized labor out of busine ording to recent data supplied by ference's taking up other sections of the Estonian unions to the Amsterdam Bureau of the International Federa-tion of Trade Unions and by the Essick benefit system was voted down tonian Socialist party to Sozialdemo krats, official organ of the Latvian Socialists, old laws duting back to the day when the Russian Czar ruled the epresentatives submitted their proland are invoked by the police to dis-solve local unions and to block the organization of new ones. The railroad men and the railroad shop work ers have been barred fro morganizing because the rules of one proposed union asserted the right to strike and cause the other wanted to affiliate with the International Transport Workers' Federation.

> In a memorial just sent to the International Labor Office of the League of Nations in Geneva, 180 Estonian labor leaders' attention is drawn to the incrasing gravity of the situation and the growing desperation in wide circles of the population. The Labor Office is asked to do something to before the withdrawal of the 86,000 protect the Estonian workers in their right to organize.

the Baltic States lately, Jan Oudegeest, one of the three secretaries of the International Federation of Trade ber of the Estonian Cabinet and arged the need of improving the housing situation and of recognizing the minutes. the railroad men to unionize on general European lines, but thus far there the extraordinary convention of has been no sign that his words had Union of General Workers on Octob ministers.

In its war upon the labor organization the government often digs up city or town. Zintuhof the police actually forbade any interest in unskilled workers, and the workers' band to play the "Internationale," because the cops "didn't of Labor backed the Socialist Go know if it was the Second or Third ernment in 1925 when Premier Stau

overdue, the armed "citizens' guard" and drove them back to work. In Narwa the employes of a cotton mill who went living, as well as won a slight wa out for a wage increase were promptly increase, the leaders of the Union forced back to work under threats of General Workers were so being "court-martialed." But when the same mill locked-out 1,700 workers a little later, the government did nothing to compel the bosses to resume withdrawal from the Federation of

operations. Communist activities also handicanthe efforts of the labor leaders to or ganize and continue to furnish the reaction with a pretext for repress That the Estonian Government stil wears the possibility of a revolution incited from Moscow, despite the "offi-

VER since the Bolshevist "putsch" munist International effected on December 1, 1924, when a pressure from the pressure from the "moderate" Russians, is apparent. Consequently, nobody in Estonia was much surprised last fall when P. Abramson, a former Socialist deputy and leader of the Labor (Communist) party, was convicted of plotting with Russian Com-munists against the Estonian Government and sentenced to eight years in prison. Sentences of from three to ten years were given to several of his fellow defendants and acquitted.

#### DANISH LABORERS' UNION LEAVES THE FEDERATION

about 40,000 workers terminating or February 1 and with the Danish em-ployers apparently eager to see if they can use the new Conservative-Agrarian Government for the purpose of battering down the comparatively high standard of living that the unions have been able to maintain during the last few years, the withdrawal on November 1 of the biggest mit of Danish organized labor, the Union of General Workers, has had a had effect upon the morale of the labor movement in general.

But the leaders of the Danish Federation of Labor, whose members men and women of the Union of General Workers, was about 249,000 While on a trip to Scandinavia and are not discouraged and are already making plans to win back the wanprevious convention, was put through effect upon the hard-boiled 30, by a vote of 194 to 186, it is dent that the task of the Federation leaders is not such a hard one

The withdrawal of the Union some old Russian law "justifying" the abolition of the unions of a whole city or town. Then the union headquarters and the union property are and those of the unions of skilled men, sealed up for indefinite periods. This dating back to the time when most happened in Pernau and Turtu. #### "The Shanghai Gesture" to Be Converted Into Opera

Contracts have been signed by John Colton, author of "The Shanghai Ges-ture," and Werner Janssen, composer, whereby the melodrama, which has just ended its year's run on Broadway, will be converted into an opera for production next season. It was said yesterday that Mary Garden might sing the leading role, and that negotiations to that end were in progress. Miss Garden has gone to Chicago, where "The Shanghai Gesture" will begin an engagement next Monday.

Mr. Colton is probably best known as co-author of "Rain." Florence Reed is playing the chief

## Communist League, Broken By Spies, Turned Labor in 50's Against Force

## "Whence This Communism?" By James Oneal

L. European Origins A FAMOUS pamphlet, "The Communist Manifesto," written in 1847, Karl Marx and Frederick Engels, said: "A spectre is haunting Europe—the spectre of Communism. All the powers of old Europe have en-tered into a holy alliance to exorcise this spectre; Pope and Czar, Metternich and Guizot, French Radicals and German police spies."

In the perspective of years since the end of the World War these words have a familiar sound. They might have been written by a frightconservative with reference to the Communist International and its

The second paragraph also has a peculiar aptness today. "Where is the party in opposition?" continues this document, "that has not been decried as communistic by its opponents in power? Where the Opposition that has not hurled back the branding reproach of Communism, against the more advanced opposition parties, as well as against its reactionary ad-

Indeed, who today who has ques tioned our folkways has not been called a Communist? Advocates of the League of Nations, or trade unionism, of birth control, of Esperanto, of Socialism, of labor parties, of the L' W. W., of civil liberties, of peace and disarmament, have had the "branding reproach" hurled at them. Communism is a word that has come to include the most diverse ideas and movements. Jacobinism once perned the same service for earlier ruling classes and it was fortunate for ours that, when the social orde was rocking in Europe following the World War, they could apply another "branding reproach" to all dissenters. Fear of the mysterious "spectre" was systematically cultivated by those ho had big stakes in the present or der, and this psychic defense was powerful means of stabilizing it.

Communism of Other Centuries It is necessary to clear the ground of a number of misconceptions before we can intelligently comprehend the is, common ownership or possession of property or goods, was an early phase evolution of society, although modern research has shown that there was also considerable private possession of things by the side of things held common. However, Communism as a form of human association imies the absence of private property a the sharing of goods in common.

its purest form it probably has ristian communities but as an ideal has captivated the imagination and support of workmen and peasants many periods of history.

Throughout antiquity occasiona sings of slaves, peasants and workoccurred which were inspired by igue Communist deals and directed ainst the possessing classes. Some aditions of the early Communist or mi-Communist age had survived and se who were dispossessed or loaded ith debts recalled it "partly as Paraise, partly as the Golden Age." Some the Jewish prophets voiced the mplaints of the lower classes against iling cliques. Isaiah announced that e Lord "hath sent me to bind up broken-hearted, to proclaim lib ty to the captives, and the opening on to them that are bound.' Ixi. I.) One frequently comes across

The Communist Spectre—Clearing Up Misconceptions-Mass Movements in Antiquity-The Religious Element-Communistic Colonies-The Communist Manifesto-A Net of Intrigue

This series of articles is an ex-This series of articles is an expansion of an introductory chapter in a book soon to be published on American Communism. The book is a complete history of the Communist movement in the United States. It has been thought best to omit the numerical former to the controller from the present ous footnotes from the present series except a few which appear not as footnotes but as a part of the text.

passages in the Old Testament that suggest class antagonisms, denunciations of possessing classes, and the promise of a return to some mystical age of equality.

These class antagonisms struggles continued throughout the nedieval period, generally taking the form of a religious movement. Time after time various sects appeared, questioning the ruling status of propafter erty and law, demanding a reorganization of society on a basis of Chris-tian Communism, often denouncing the ruling classes and occasionally be ming a menace to the established der. Open conflict with religious order. and secular authorities generally fol-lowed accompanied with bloodshed and sometimes with the literal extermination of a rebellious sect. the ferocity of ruling groups whose stake in property was challenged ing down of these dissenters.

#### Communistic Colonies

Another expression of Communism was the tendency of men and women to withdraw from society and or ganize themselves into communal groups for mutual aid and sharing modern Communist movement and its possessions in common. This volun-American offshoot. Communism, that tary Communism was of two types, the cloistral communistic settle beginning in the third century after Christ and the modern communistic settlements of social reformers: Of the first type M. Beer writes: "Discontented with the worldliness, alienaon and mechanization of Christianity by the political machinery of the church, or filled with aversion at its transformation into a powerful economic and political organization with nistic tendencies, earnest Christians in the latter half of the third century began to withdraw themselves from the world, to renounce all earthly goods, and to pass their lives in solitude, contemplation and asceticism." Eventually this cloistral Communism was undermined as orldliness penetrated the cloisters and they became a part of the feudal structure of society.

> The communistic colonies of the nineteenth century, especially those organized in the United States, are better known. The religious motive vas also generally prominent in their organization as well as the desire to scape what their members regarded s the injustice of a social system organized against the welfare of the najority of mankind and based upon mistaken principles. History appeared o them as a series of blunders due ignorance of which clover men took dvantage. The founders of these colonies," writes Hillquit, "proceeded on the theory that they could establish a little society of their own, climinate from it all features of modern civilization which seemed objectionble to them fachion it wholly ofte their own views of proper social relations, and isolate themselves from the surrounding world and its cor rupting influences." They had no idea of the evolution of society and the colonies generally gave way to capi-talistic society just as clojstral Comnunism succumbed to feudal influ-

"THE COMMUNIST MANIFESTO"

The Communism of which Mark Frederick Engels points out in his preface to the English edition of the 'Manifesto," published in 1888. It was written as the platform of the "Comunist League." a small organization Germans, and was, not by choice, but because of general political reaction in 1847, a secret society. It expanded to other countries and became international, but its membership was never large. Marx and Engels, who assisted Marx in writing the "Mani-Socialists at that period. Engels explains why. "By Social-

THE BOARD OF MANAGEMENT

ists," he said, "in 1847, were understood, on the one-hand, the adherents of the various Utopian systems: Owenites in England, Fourierists in France, both of them already reduced to the position of mere sects, and gradually dying out; on the other hand, the most multifarious social quacks, who, by all manner of tinkering, professed to redress, without any danger to capital and profit, all sorts of social griev-ances, in both cases men outside the working class movement, and looking rather to the 'educated' classes for sup-port. Whatever portion of the working class had become convinced of the insufficiency of mere political revolu-tions, and had prociaimed the necessity of a total social change, that porn, then, called itself Communist. It | tion."

In the third section of the "Manifesto" the authors proceed to enumerate and classify the various movements of the late forties that were known as "Socialist," subjecting them to a critical examination, pointing out their shortcomings and the need of differentiating a movement of the working masses from such movements. For the working class movement favored by Marx and Engels to also adopt the word "Socialist" would have added ore confusion to that which prevailed They, therefore, alligned themselves with the Communist League, which based its program on the proletariat rather than on men in general and nobody in particular. At a later period when the various "Socialist" sects dis appeared the word "Communism" was abandoned and the word "Socialism" was adopted as more expressive of what Marx, Engels and their colleagues had in mind.

#### A SOCIALIST DOCUMENT

The "Communist Manifesto" itself is Socialist, not a Communist docu-nent. "The proletariat will use its political supremacy, to wrest, by de-

grees, all capital from the bourgeoisie.
. . . When in the course of development, class distinctions have disappeared, and all production has been concentrated in the hands of a vast as sociation of the whole nation, the public power will lose its political character." What the authors emphasize is not the taking over of all property, as Communism implies, but social pos-

was a crude, rough-hewn, purely in-stinctive sort of Communism; still, it period and the almost complete dis-The peculiar political reaction of the touched the cardinal point and was franchisement of the masses rendered powerful enough amongst the working class to produce the Utopian Com- absurd and impossible. The "Manimunism, in France, of Cabet, and in festo," therefore, clearly justifies force Germany, of Weitling. Thus, Socialand urges it as a weapon of the workism was, on the continent, at least, ing class. "The Communists disdain

the concluding "They openly declare that their ends can be attained only by the forcible overthrow of all existing social conditions. Let the ruling classes tremble at a communistic revolution. The proletarians have nothing to lose but their chains. They have a world to win Working men of all countries, unite!"

As the trade unions acquired stability and their demands for the suffrage became more insistent the ruling parties made concession after concession, admitting more and more of the disfranchised masses to the suffrage. When it was evident that this exten sion of political democracy no longer justified the appeal to force the Marxians participated in the organization of political parties and opposed conthey belonged to a period that had either passed or was passing.

In May, 1875, Marx wrote a letter to the Germans shortly before the Goths Congress severely criticising the pro posed program on account of vagueness and what he considered the unscientific character of some of its proposals. In the letter, however, there is no suggestion of a return to the old methods of secrecy and force Moreover, the "Communist League was itself abandoned in 1852. Experience had demonstrated that secrecy and advocacy of force, even when political conditions largely justified them, were hazardous expedients. The trial of the Cologne Communists in October and November of that year revealed an amazing intrigue of sples who forged documents that sent seven victims to prison for a number of years. Even police officials were involved as provocateurs. With this ex-perience behind them the Marxians were only too glad to resort to organzation of political parties as the suffrage was won by organized workmen in the various nations

# THE SOCIALIST PARTY AT WORK

ganized for the purpose of toll radio-

roadcasting service, will have nothing to do with Norman Thomas or other Socialist speakers. Replying to a communication of State Secretary Merrill in regard to broadcasting an address of Thomas on the subject of An American Labor Party," Director Henry W. Spahn of the corporation leclares that "we are not in a posithis time.'

(Continued from page 7)

The attitude of the Atlantic Corpration is in glaring contrast to that of the National Broadcasting Comwhich controls the powerful WJZ and WEAF stations. President Alyesworth of the National company has not only signified his willingness to have Thomas give a fifteen-minute talk from Station WJZ, but has in-vited State Secretary Merrill to inspect the studios of his company.

State Secretary Merrill, who has returned from celebrating Christmas in northern New Hampshire, expresses his surprise at the popularity of the radio in fural communities, almost every other household spending its evenings "listening in." Such stations as WJZ and WGY come in very strong on a two-tube set at 300 miles dis-tance or more. The wisdom of the National Executive Committee in making the Debs' Memorial a radio-broadcasting station is all the more anifest to one who spends any time n the rural communities. A two-tube set in rural New Hampshire or rural New York easily gets stations as far vest as Chicago and St. Louis.

The state office is sending out blank orms for reports of locals as required by the State constitution of the Party The State constitution, as amended by the 1926 State convention, is now in print and may be had free by Party nembers on application. Members in Executive Secretary Claessens for

#### POISONING ALCOHOL

E DO not believe there is a parallel in all history to the government policy of poisoning industrial alcohol. The holiday death toll is twenty-six in New York and the total for the year is estimated at 700. Sobered by the reaction that has followed these deaths, the Treasury Department at Washington has ordered a national survey of stocks of industrial alcohol. Although declared to be an annual procedure, it is generally believed that the survey is due to the deaths that have occurred.

Whether one agrees with the Volstead Act or disagrees with it is an issue not involved in this matter. The sole question is whether any government is justified in the use of poison to enforce any laws. If so it assesses the death penalty for violation of a statute, although the statute itself may fix a fine as penalty for violation of the law. If Government by Poison is to become a normal thing let us have a coin issue from the mint bearing a skull and crossbones to celebrate the

event. from the hideous implications of such a policy it is an eloquent indictment of the statesmanship of American politicians. They have not yet learned how to think. Better that a few more hundred millions should be spent in further attempts at enforcement than that death should lurk in every drink taken. If the present policy continues, every future census of deaths should carry a column listing the number poisoned by order of government bureaucrats.

## MORE "PROSPERITY"

OR several weeks we have been giving special attention men of the Coolidge Administration who have been selling "prosperity" to the nation. We have punctured one tale after another that has come from this source, in several instances quoting reports of government departments that are in conflict with

This week we call to the witness stand that noble Republican of the Middle West, Frank O. Lowden, who is a candidate for the nomination for President in 1928. Lowden has been chumming with the farmers of his section and many of them are getting back of his candidacy. He has picked up some in-formation about these farmers and he passes on through the New York Times.

Lowden declares that farmers of this region earned in the year ended last June only 3.5 per cent. on their investment and added this significant observation: "Their earnings, including management and family labor, have shrunk from \$1,570 as an average to \$648 a year. That is in startling contrast to conditions in other lines of business now being hailed as unexampled prosperity."

It is also in startling contrast to the state-ments so often made in recent months by Coolidge and other members of his firm of political brokers. How these farmers manage to clothe themselves decently on the income which they receive is beyond our comprehension. Perhaps the happy gentleman at Washington who run the governing machine can tell these farmers how to do it. In any event we pit Lowden against Coolidge. both members of the G. O. P., and ask our readers to reconcile the statements of bothif they can.

## SHORT CUTS

T SEEMS to be the fate of the labor movement in this country to be cursed with strange offshoots that have never been strong in numbers, but have been sufficiently active to bring a certain measure of into organizations. Each of these groups has been the product of a special idea. Not one of them has understood that organization of the working class and formulation of programs is a complex matter, not a simple

In the early eighties they began to appear There were those who insisted on political organization regardless of whether the workers had established enduring trade unions. This was followed by those who stressed physical force because the masses did not respond to political action. This was followed by a sect that agreed to support trade unions but insisted that the latter should be officered by revolutionaries and be directed by a party organization. This in turn was followed by an economic organization that sneered at all form of politics by urging the workers to "strike at the ballot box with an ax." This appeared to be a clever epigram, but the organization that sponsored it ended in ster-ility. Following the World War some twenty sects appeared, each claiming to be the legi-timate heir of the Bolsheviks, and these coalesced into the Communist movement with the idea that the members of the unions are

cattle to be driven to a course of action which they do not like.

It is a notable fact that the United States

has spawned more weird religious sects than any other country, but it is not so generally recognized that the same is true of the labor movement. No thorough explanation of this has been made, but some student will some day present a rational interpretation of it. ips it lies in the fact that for generations hundreds of thousands of people plunged into the wilderness and never had a chance to be civilized. Possibly the fact that we are a a mongrel horde mixed of all nationalities has something to do with it. No doubt the vul-

gar gambling psychology that grew out of the big stakes in the West has been a factor. Whatever may be the explanation, it remains a fact that groups have appeared from time to time offering magic for science and hysteria for history. The less they understand human beings and the problems of society the more certain have they been that they had discovered a short cut to the New Jerusalem.

As a general rule it is safe to avoid all cocksure groups who are sure that they know everything and that others know nothing. Knowledge is an expanding thing and there is nothing final about it. The gentleman with a chart that cannot be altered should always be considered a suspect.

#### CAPITALIST POLITICS

Y ENATOR COPELAND has declared in favor of a ship subsidy to build an American merchant marine. merely another item to evidence showing that the two leading parties have no differing principles. Copeland's statement twenty years ago would have read him out of the Democratic Party. Today he can remain in the party and support a ship subsidy. He will meet some criticism in his own party, but his declaration will not cause a row.

Tariffs used to be a bone of contention. Today some Democrats are faithful to rates as high as any Republican may urge. In Congress it is rare for any strict party vote to be registered on any measure. Members of both parties are recorded for or against bills regardless of party labels and even many speeches give no impression of any marked

party differences. This is to be expected. As the industrial and financial masters consolidate their power the only thing that matters is to maintain things as they are. No genuine issues appear and their party servants, having nothing to fight about, become more alike with the passing of time. Like twins, the party organiations and party leaders must bear some la-bel in order to distinguish them.

The politics of capitalism breeds sodden conservatism and dull leaders. Issues vanish. Stupid routine is the rule. Senator Copeland is an example of the trend.

#### INVESTIGATIONS

S OUR readers will note from a story A by a Washington correspondent on the first page of this issue, both the House and the Senate have a swarm of investigations before them. Oil and the Lau-Treaty, swiping of alien property sanne funds, the bread merger, the Federal Trade Commission, the Pennsylvania and Illinois primaries, interference in Nicaragua, propaganda of the State Department against Mexco and the Sacco-Vanzetti case are a few of the items to be investigated.

These would have been sweet morsels for the muckrakers some twenty years ago, but the magazines engaged in the "literature of exposure" have practically become extinct. Journalists wrote of the "Treason of the Senate," sent the insurance magnates scurrying to cover, exposed the ralroad gamblers, mer-cilessly lashed eminent Babbitts, laid bare many respectable robberies and generally ran amuck. The ruling classes and their intel-lectual puppies were scared. Roosevelt called a halt in his "muckrake" speech, the bankers tightened the credit of the magazines, a few went to the wall, and the rest promised to be

Today there are only a few straggling publications that dare to attack our real masters so that when dirty scandals accumulate at Washington they are too often buried in a mass of detailed investigations. What is needed is a close-up view of the whole works as it has been directed by Coolidge and his advisers and this we are not likely to get. The numerous investigations show that there has been some rich pickings in many fields and that the process of swining to a pile of dollars is still open to ambitious vulgarians.

## GETTING NEW MEMBERS

T USED to be a favorite saying of Wendell Phillips that with enough hearts beating at the same spot the strongest granite pillars could be destroyed. Adapting this for a Socialist text, we may say that organized Socialists can accomplish much; that isolated Socialists can accomplish little.

The Socialist vote always exceeds the number of party members. This is true in all countries, but some nations have a larger percentage of the voters organized than others. It is probable that in the United States we are near the bottom of the list in this respect. On the other hand it is also true that a smaller number of the qualified voters go to the polls in this country than in any other modern nation.

But whatever may be the cause for the lack of interest of American voters in organized political work, it remains a fact that the Socialist Party has the distinction of having at one time brought into its organization more members than any other minor party. Before the World War it had over 100,000 dues paying members. This achievement can be realized again. Not soon, of course. It may

take years, but it can be accomplished. We have no doubt that some party mem-bers neglect opportunities. What about that voter you personally know but whom you have not personally urged to join the organization? Why not make it your business to approach him? Get his application. This advice is intended for thousands of readers and if acted on will britig a handsome increase in membership. Prospects will not come to you. Go to them. Get that new member, and get him NOW!

In the meantime, been detected in the act of selling France continues to strengthen her forces along the Franco-Italian strong doubts about American demogracy. Perhaps he has heard something about Tammany Hall or the Republican primaries in Illinois and Pennshould documents from this source country. ology like a disruptive kin. Grant Allen in his penetrating contribution to scientific method in religious origins-"Evolution of The Idea of God' -had disturbed his generation by as-serting that "the Christian legend (seems) to have been mainly co (seems) to have been mainly constructed out of the details of early go making sacrifices." Allen's metho however, was chiefly analogical. To work of Arthur Drews, in the "Christu Myth" and "The Witnesses to the His toricity of Jesus," marked an advan-in historical interpretation. In th little study of Inman's "Ancient Paga and Modern Christian Symbolism," th vestiges of phallic worship in old re ligions were traced with patient cau Christ" is but another attempt to ex tend the evidence of the myth-hy pothesis. J. M. Robertson, however, i the only one of these scholars to stud the evolution of myth and hierolog; in an endeavor to turn it to sociolog cal value.

> In scientific circles Jesus has faded into a colorless chimera. While Emer-son, in exclamation, asseverated, "We must get rid of that Christ, we must get rid of that Christ," and Carlyle, with emotion that shook with sincerity, declared that if he "had (his) way. the world would hear a pretty stern command—Exit Christ," and Nietzsche dedicated his zeal to denunciations of the Christus-ideal, the modern sociologist unexcitedly dismisses the theme as a settled question. An issue still or the unlearned, it is without con troversial significance to the content porary historian. The only problem that remains is in reference to the ac-tual historicity of the character Jesus. Is the figure of Jesus a myth? or did man Jesus really live? (The fact that if he did live, he was not the con-tradictory divinity portrayed in the Bible is an accepted axiom.) That is the only difficulty that lingers.

It is this theme which George Brandes treats in his volume, "Jesus, a Myth," just translated into English by Edwin Bjorkman (A. & C. Boni, \$2.50). Brandes is convinced that the entire existence of Jesus is a myth. As we said before, there is no argu-ment as to the substance of the gospels being largely myth and plagiarism; the question is as to whether there was not really a human character, Jesus, about whom these myths have been interlaced and woven. Brandes cites the myth of William Tell as a cogent analogy. Tell was always believed to have been a real character. Historians nad given him face and figure, garment and gesture—yet later investiga-tions have shown that the entire evidence was fallacious. Tell was nothing more than a myth—as also was Jesus, argues Brandes.

Brandes really adds little that is new to the old controversy, except that he goes to great pains to piece together passages from the Old Testament to show how the whole Passion-story was simply a muddled derivation from that source. In places he indicates how the inventive apostles changed facts to fit Jesus into the realm of prophecy. The famous Beatitudes, for example. Brandes notes, were but plagiarisms of the Psalms, and passages in Isaiah, Proverbs and Ecclesiastes.

The existence of Jesus, however, is of little importance. The historical demolition of the myth that has grown up about him is significant. In this latter respect Brandes's book has its chief value

## -:- THE CHATTER BOX -:-Smiles untouched by pain,

E INTEND to start this New Year of collumnizing with an apology to none other than Mr. Calvin Coolidge, the Honorable President of These United Oil, Steel and Traction Dukedoms. In past years we have abused. chided, scolded and outraged his peculiar genius, using these columns at times, and the soap-box during election nights. We must have been carried away by impatience and short-sighted superiority. We examined him with an intellectual microscope along with other minute microcosms, and in our irritated haste must have gotten his entity mixed up with the average American citizen that helped to elect him. Again our heartfelt apology, Mr. President. And all because the Book Review Department of The New Leader wished upon us the task of perusing "The Foundations of the Republic," a compilation of Calvin Coolidge's speeches for the last three years, published by Charles Scribner's Sons.

We have ploughed and harrowed through the hundreds of arid pages with the stubborn conscientiousness of a tractor. Our effort finds us at last hitting on half a cylinder of energy. But we have gone, done and read it. And as our reward, we feel thoroughly decorated in that we have discovered a brand new and distinctly American genius in His Excel-

He is beyond all question the greatest anti-English Grammarian of the age. We suggest that all professors who write text-books on English grammar use Coolidge's Collected Speeches as a ready source for all sentences, paragraphs and phrases that they usually put into their syntax sections for correction by the student, as to unity, clarity, and just plain ordinary grammar. We have yet to come across a printed book in any language, where the particular tongue has been so boyishly handled. In his articulate moments Calvin Coolidge is as young as a 4B scholar in one of New York's public schools. We contend it is only a genius of some sort that can place a man with a fourth grade command of his language at the head of his country. And with all our heart we bow before Coolidge for his extraordi-

Perhaps, on second thought, he may have been lifted to his estate by a people who possess that seeming talent, and he is merely its cold reflection. Perhaps a nation that is brought up and bred on advertising slogans, he-man advertisements, jazz songs and tabloids necessarily finds in a Coolidge the epitome of their literary progress. deal to be said on the matter, but we will refrain from bitterness and ironic comment. The pathos is

too genuine and deep. Where once we rasped on the thick hide of the popular, we simply retire now in pessimism and de-spair. The literacy of America is dismally hopeless. If one can become President of the United States with a two-year English regent requirement, why run colleges and libraries, and post-graduate courses in language altogether? And, perhaps, this is the real democracy after all, in which even a deaf-mute or an inarticulate ditch-digger can rise to executive glory. The collected speeches of our President prove it. It is indeed a catalog of poorly phrased platitudes and immature English.

We also wish to apologize to the anonymous ones whom we have at times accused of writing the President's pronunciamentoes. After careful perusal we are quite assured that Cal did it all himself with his little typewriter or dictaphone. Don't read the book unless you want to learn how not to write

## To K. H.

You who sings Of placid passions And paper love; You who chants Of saccharines And gluey puffs; You of infant

What know you Of shattered turrets,

Or decayed roses,

Or burning ugliness?

To J. W. H.

You tell me that the muse has fled Like summer and a light romance; That poetry is gone and dead. You tell me that the muse has fled And you have things of worth instead

Of Poesy's uncertain glances, You tell me that the muse has fled Like summer and an old romance And I agree with you that She

Was only meant for summer days, When one can whisper to the sea. And I agree with you that She Was only meant for maids like me Who never understand Life's ways. And I agree with you that she Was only meant for summer days.

## -KATE HERMAN.

-H. L. M.

## Storm

Unearthly blackness Swallows the dawn-like paleness of petulance; Shattering struggling rays of whiteness Like so many spears,

Into bits of shiny steel. ... Crashing thunder in harmony rumbling, Through sweeping torrents of frothing foam-

Song of storm, Of wind and water And water and wind, Swirling together

Chaotic fury of song.

Through falling space-apace.

-FELIX JEAN.

By the time this issue sees that light of the world, the New Year will have arrived. Personally the sentiment attached to the passing of the old and the coming of the new hardly touches us at all. One year is as good as another for all the ill or good in us. Any day, summer or fall, spring or winter, is as proper as another to take inventory of ourselves, and any night as good as the next to go out in evening clothes, with your best girl, your wife, etc., hail a taxi, buy up a hotel and get on a roaring drunk on Mott Street cat-gut booze.

Something there must be that makes a nation mad on one particular night. A valve spring is loosened and a screech of steam deafens the planets. Something there surely is that builds up such tremendous pressure through three hundred and sixty-four days that its release on the next night is a horrible mix-ture of cozy bathos and ugly debauch.

Certainly that volatile substance is not the cr ture of beauty and happiness. It is as if all the sordidness of industry, the mine pits, the scullion holes, the subways, the shops, the garbage heaps, the squalor of slums, the meannesses, the lowness ss of politicians, the offal of prisons, the Boweries the Black Bottoms, the pool parfors, the dance hells, the boxing clubs—all the chicaneries of business, and all the viciousness of modern civilization, had been mixed in the cauldron of our composite national soul until it boiled over in one terrible mess.

But maybe we are too hard on old New Year's

celebrations. But, gosh, how can a fellow feel any better after having had to read and review Calvin Coolidge's "Foundations of the Republic"?

S. A. de Witt.
