## THE ROLL CALL THIS WEEK

POR THE last three weeks we have taken you into our confidence and told you that the time has come when the burden of financing and expanding The New Leader must lifted from the few who carried it for three years and distric uted among our own readers.

We have told you that while we are making plans for a Circulation Campaign that will ultimately give us sufficient new readers to make your paper self-supporting we are in immediate need of funds to help us out of our present emergency, which

is even more serious and threatening than we dare to describe.

We have appealed to your generosity and the response is beginning to reach us in a way to make us feel that we will emerge from our present difficulties so equipped financially as to be able to use all our efforts in the more important work of gaining new readers for The New Leader.

#### Why a Socialist Paper Is Published

The only reason for a Socialist and Labor publication is its sphere of influence for progress and betterment in a human vorld.

Its only strength toward exerting that influence is in the number of its readers.

Either we reach an ever-increasing number of receptive minds with our message, or we fail dismally as a useful factor in our efforts to advance our beliefs and ideals.

We have been repeatedly praised, extolled and boosted about the excellence of THE NEW LEADER. Some even venture to say that it is the BEST of all Socialist weeklies ever published in America.

But just praise and even its justification with the paper has not raised our sum total of readers throughout the country fast enough to suit either the Board of Management or the Editors.

We have gotten The New Leader out on precious little money. Were it not for the whole-hearted generosity of a group of friends in subsidizing a goodly portion of our annual deficit, this paper of yours would not have been able to appear for the last three years with any security. We have come to the point of calling our readers and well-wishers in on our EXPANSION PLAN.

MONEY is necessary in good sum and with promptness to undertake a Circulation Plan that will bring us to a self-sustaining position. Ten thousand more readers and we need no This issue completes the third year of The New

Start our NEW YEAR with the Great Cause in which you believe and for which you have all done so much, by a real live CONTRIBUTION. There is an effectual eloquence in a \$5 or a \$10 bill that will convince new readers more efficiently than any of our columns for Circulation Boosting. And \$25 just thunders accomplishment to a world of workers.

We await your Birthday Greeting to The New Leader with anxiety.

#### "Among Those Present—"

We publish below the contributions received during the last six days. We also publish extracts from some of the letters received. Lack of space prevents us from publishing more in

Joel Moses, the veteran Socialist of Rochester, N. Y .: "I hope you will succeed in raising sufficient money to sustain The New Leader, as the paper is about the only comfort left to me today to keep up my interest in the Socialist movement. The paper as a whole shows signs of improvement, and I look forward

eagerly for my copy every week."

S. A. Kazanjian, Worcester, Mass.: "Find \$5.00 as my bit towards the support of The New Leader. It would be a calamity if such a wonderful paper like The New Leader will not raise the funds it needs. Every red-blooded Socialist should wake up and do his share now."

A. D. Atkinson, Bridgewater, Mass.: "I have not earned a dollar for over a year on account of sickness, but can not let your appeal pass without a small contribution. You are cer-

Mike Larena, Clothier, W. Va.: "I am helping our Italian paper and the American Appeal and here is \$5 for The New Leader. Sorry I can not make it more. Keep up the good work and continue to publish a paper that is an inspiration to all of ue"."

David Abramson, Middletown, N. Y .: "Enclosed find \$10, my share in the work to expand The New Leader, to the end that truth shall not perish from this earth." Julius Green, New York

Company Union Exposed by 1,000 Affidavits - Hearings to Be Resumed

FTER concluding successfully A preliminary hearings with the United States Mediation Board, the Brotherhood of Sleeping Car Porters now confidently awaits the con-vening of that body when further hearings will be held. The original hearings were held in Chicago, Ill., and lasted from December 8th to 17th.

The mediators assigned by the board were Hon. Edwin P. Morrow, former governor of Kentucky, and Mr. Bickers, his special assistant and an ex-pert in mediation matters, who listened to the evidence as presented by A. Philip Randolph, general organizer of the Brotherhood, M. P. Webster and George A. Price, organizer and secre-tary-treasurer, respectively, of the Chicago district, representing the Union. The mediators also listened to the evidence of the Pullman Company, as presented by its general manager, Mr. L. S. Hungerford.

The hearings were interrupted first to give the mediators assigned an opportunity to report their findings to the full board, and on account of the

Fire of unknown origin caused \$25,000 loss.

and better conditions, is handling the union's case before the board. A number of other prominent lawyers are also behind the Brotherhood, including Samuel Unfermyer, Morris Ernst, Clarence Darrow, Arthur Garfield Hays, Walter Frank, Morris Hillquit, C. Francis Stratford and others. The membership is said to have jumped forward with amazing speed since the beginning of the hearings.

In the course of sixteen months the Brotherhood has virtually accomwork fomenting received.

In the course of sixteen months the Brotherhood has virtually accomplished what might normally be considered the impossible. To the astonshelment of the Pullman Company and the Mediation Board, perhaps one of the most thoroughly and most scientifically organized cases which the fidility organized cases which handle was presented to it by Mr. Randolph.

Covering a period of ten days or Covering a period of the Mediation Board with the presentation of the Covering a period of ten days or Covering a Randolph.

Covering a period of ten days or more, the Brotherhood and the Pullman Company were alternately engaged in conferences and required to state their contentions relative to the right of the Employee Representation Plan, the Company's union, and the Brotherhood of Sleeping Car Porters, respectively, to represent the porters and maids. The company contended that \$6 percent of the men voted for the Employee Representation Plan; that the Plan had been making agreements with the men over a period of five or six years. The Brotherhood, on the other hand, maintained that the Plan was a violation of the Federal statute, namely, the new Railway Labor act, which provides expressly and bor act, which provides expressly and the territories of our neighbor to the

Finally, there is little Nicaragua. zation, such as the Employee Repre-sentation Plan is; that the fact that or Mexico we are somewhat protected the Plan has been making agreements by the magnitude of the task. In for over five or six years doesn't prove that the Plan is either lawful or that the agreements are valid. Though the season has not begun the enrollment of members with the International has not begun the enrollment of members with the International has not begun the enrollment of members with the International has not begun the sub-manufactures have been supported by the sub-manufactures have been supported by the support of the supp has not begun the enrollment of mem-bers with the International has been division of the cloak union and an particularly heavy.

In an attempt to intimidate

workers who are thus showing their workers who are thus showing their preference for the International Union the Communists have sunk every available dollar in building up its gangster army. Several squads of Local 9, which until recently was these Communist employees are quartered day and night in the different local headquarters, playing cards, drinking and enlivening by other drinking and enlivening by other superseding the defunct Communist means what might otherwise be dull hours. The ostensible reason for stationary these sets of the stationary there is a stationary the stationary that is a stationary than the stationary that is a stationary than the stationary than the stationary that is a stationary than the stationary that is a stationary than the stationary that is a stationary than the sta hours. The ostensible reason for sta-tioning these gangs in the headquarters is to guard against any attempt by the members to take over the buildings for themselves.

The main work of these gangsters

will begin as the season gets going, when they will attempt to keep the workers who have enrolled with the union from working in the shops. An attempt will be made by violent and tion, was, for the first time, held se-other means to force the members to cretly. Opponents of the Communists sign up with the dual union which the Communists are trying to set up.

In the meantime the gangsters are busy with members who have already signed up with the union. An outbreak of violence by Communist-led "mobs" occurred during the week in the New York garment zone. Tuesday, two cloakmakers, one on the way to work, were set upon and severely beaten on West 39th Street, between Seventh and Eighth Avenues, at 7:20 about the head. Their eyes were budly cut and bruised.

The victims, who had to be taken to the New York Hospital for treatment, were Louis Katz, a member of Local Union No. 35, living at 1037 Hoe nue, the Bronx, and Nicholas Costa of Local Union No. 48, of 115 West 90th Street, Brooklyn. The union charged that Isidor Moscowitz, vice chairman of the Communist Picket C. mmittee, led and direct of the assault upon Katz and Cesta, in which 15 men participated. Moscowitz was later arrested for assault.

later arrested for sessuit.

Katz was known as a non-Communist cloakmaker, while Costa had never been prominent in union activity Other attacks on non-Communist cloakmakers included assaults on vorkers distributing anti-Com leastets and publications in the garment district. A half dozen were set ipon and their papers torn to shreds. International President Sigman characterized the attacks as "a policy of despair," declaring that the Com-munists, grown desperate with their loss of power in the union, are using every desperato efffort to intimidate

the workers. Because Communists in this country have waged a campaign of havoc and destruction within the American cloak Garment Workers' Union has refused sia, to be held in Moscow April 7, President Sigman declared.

In declining the invitation from officials of the Russian unions, the organization pointed out it has nothing but good feeling for the Russian garmen workers. "The International Union," the reply stated, "will always be found ready, whenever called upon, to help the garment and clothing workers of Russia materially and morally, in every struggle for the betterment of their economic lot and their work conditions.

"But our International Union will not take part in your Congress for the reason that your union is affliated with and is a close part of the Red Trade Union International, which in turn in affiliated with the Communist Internationale, a political organization that has, for several years past, been waging a campaign of malice, calumny and destruction against our Interna-tional Union, through its American subsidiary organizations, and has nearly succeeded in destroying some of our strongest unions in New York

has resulted in their recent loss of a broadcasting companies. Suppose their general strike after twenty-five weeks regulation remains in the hands of Secretary Hoover or any other member of the President's Cabinet. It is disaster is the immediate work of the known that the President wants critical discussion of his foreign policy The radio companies will tremble over themselves to prove their loyalty to ated. The damage caused by this Com-munist political invasion of our trade this wish of his. The only possible chance of escaping this sort sorship is by regulation through a commission charged with no political task. Such a commission and certain other safeguards of freedom of the

air are provided in the Dill bill.
Incidentally I have an appointmen to broadcast over Station WJZ on next have occurred. Half a dozen officers ofther resigned outright from the description of the subject "An Ameriwill hear me. I have discovered fore this that to be given a place on a radio program and to be permitted part of all this. The working people to speak are two different things. But I am always an optimist, and so far WJZ has been most courteous.

> Judge Gary, Matthew Woll, the Wall Street speculators, and others have welcomed 1927 by telling us how prosperous we are. Of course the farmers lon't know it. During the years 1920-1925 the income of the farmer who operated his own farm varied from \$412 to \$804 a year. This was his reward of labor and management and
> it includes the value of food, fuel and
> shelter supplied by the farm: 1926 has shelter supplied by the farm; 1926 has not bettered the situation. Bankruptcies still increase, and so does the exodus of the farmers to the cities. Nor do all industrial workers know how prosperous they are. Ask the their country's present privileged po soft coal miners, the textile workers, sition and thus not only make perma the workers in some unorganized trades like candy and paper box mak-

the Trade Union Educational League, the Communist trade union organiza-Two other points must be made bout this much advertised prosperity. First, on any reasonable calculation of future events it is by no means certain that our comparative rate of prosperity will continue. Second, it s entirely certain that given our natural resources and our supply of ma chinery and power, the prosperity we get under the profit system is woe-On Union Wreckers fully inadequate and far less than we have a right to expect. In comparison with what we might be doing we are not doing well either in production distribution. Look at New York's using! The labor movement that housing! is satisfied with this type of prosperity at the present price we are paying for it in ideals is not only selling its Abraham I. Shiplacoff, chairman of birthright for a mess of pottage, but for a mess of rather poor pottage.

In some quarters much is being made of the fact that between 8 percent and 9 percent of steel trust stock is owned by employes. Roughly speaking, about 50,000 employes are supposed to have shared in the recent cutting of the steel trust melon to the extent of an average of between \$350 and \$400 apiece. That is supposed to show that the capitalist system is solving its problem by making the workers capitalists. But wait a minute. Far less than half of the steel trust employes own any stock. All of them together are swamped by the immense ownings of absentee stockholders. If the dividend rate of 7 percent is maintained pothetical average worker who holds stock will receive at the maximum \$28 a year more than before. That is a wage increase of a trifle over 50c. week would be better and surer for over, his ownership of stock brings him no real control, whereas his membership in a union which Judge Gary has compelled him to renounce might give him a beginning of real control. No, the wastes and injustice of our and formidable attacks upon the de- present system of private ownership and management for profit are by no means overcome by the clever psycholegical device of trying to make the workers feel like owners.

At Milwaukee, Wisconsin, under the joint auspices of the Y. M. C. A. and I saw the consequences.
Y. W. C. A., a great student conferfamilies would have to pe ence has been held during the Christmas holidays. At the conclusion of present economic system based on production for use rather than profit is any "wrong." Only 38 felt that the capitalist system as a whole was or mightbe made to accord with the principle of Jesus. Three hundred and eighty mon, lawyer and former Socialist As- five of the students went further and semblyman, and Hon. Joseph Galla-declared specifically that students gher, the first assistant in the office should do all in their power to of the District Attorney of Kings strengthen and improve the organized labor movement. The students unani-mously asked of the colleges greater "Resolved, The remedy for crime is adequate and effective punishment." opportunities to learn the facts of modern problems and requested a fuller hearing for speakers representing minority viewpoints. There was also an encouraging sentiment against war. By an overwhelming majority the students declared that if they supthe Brooklyn Hebrew Home for the Aged and will take place in the large ported any war it would be on the basis of their own conviction rather than merely on the demand of external authority.

declarations at Milwaukee vere the more remarkable because of the apparent effort of those in charge of the conference to focus the interest of the students on what may be called problems of personal religion rather

than of social ethics.

Of a different sort was the annua Intercollegiate Conference of League for Industrial Democracy which was held in New York during the Christmas holidays. Over a score of colleges were represented by an eager group of students who discussed and lowship, 1301 Boston road, Thursday listened to discussion on Russia; on evenings at \$:30 o'clock. #### Socialist Party Rallying Nucleus for Bigger Development, German Leader Writes

By Tony Sender

HIS economic "wonderland" may be explained quite naturally and no one needs to get disheartened at the status of the labor movement Especially for the Socialist, who allows himself to sit in judgment, it ought to be taken as a matter of course that first of all he would study the country's historic and eco development in order to be able to understand the social conditions, and not form an opinion based on a feeling of dissatisfaction with the of development of the movement born

sharing in this prosperity, in the country's privileged position. They have permanently improved their income conditions. Their material position is far superior to that of the European working masses. Even allowing for the dear rents and the higher cost of living, their average purchasing power is at least twice as great as that of

their European fellows. dominated the English proletariat until near the end of the 19th century? Many American workers believe that it is to their interest to co-operate with the industrialists in maintaining sition and thus not only make permanent their own more favorable ma-terial conditions of life, but also complete their own rise to an elevated and independent station in life. For this hope of rising from a propertyless proletarian to a dollar king is still alive, although it is becoming rarer. There are too many living examples in existence for it to die out.

Clinging to Prosperity

And while the first president of the German republic was scorned by some because he had been a saddler, in the recent gubernatorial campaign in New York it was noted with pride that Al successful bourgeoise candidate, had begun his career as a news-

As in England, when the Island Empire seemed to be the world's factory and occupied a privileged position, the working class followed the bourgeois parties in order to maintain this privileged position, so broad circles of the workers in privileged America believe they can maintain this prependerant position for themselves also through

supporting the bourgeois parties.
For a long time England has been no longer the workshop of the world, and oday her working class stands with the others in the front ranks of the Socialist International. Will America's prosperity and preferred position last forever? \* \* \*

During recent years the use of the injunction in labor struggles has be come a regular system. Resentment at this method is increasing within the ranks of the workers. But the emoyers use the powers of the State to hold the workers' demands in check.

Sees Labor Party Likely Can this remain without influence ipon the mental attitude of the American worker? Even though the ers in general are better paid than those in Europe, still a goodly number of them do not receive the top wages. And the intensity of the work is fearful and often wears out the worker prematurely. The principle of social responsibility of the community is lacking. Social welfare legislation, in some of the States, does not exist. There is no social legislation covering all the States as a whole. During my numerous visits to working class families, stricken by some misfortune, families would have to perish if private sympathy, private charity, did not step in? The next periodical ecothe conference 800 students put them-nomic crisis, signs of which are al-selves on record as believing that the ready apparent, will make this lack of any kind of unemployment benefits, of any social legislation, still more evi-Harbingers of such a developmen

students in industry, the teaching of the social sciences, and on opportuni-ties for students after graduation to make their lives count in political and industrial action. There were no resolutions or "findings." There was an eager and intelligent interest, and that unts for more than paper resolu

Maybe it is only a minority-possibly not a very big minority in our col-leges—that has a constructive curiosity on social problems. But there is mighty fine stuff in that minority And it will be at least partly the fault of the labor movement if those young people do not got a better chance to function along social lines than they now have.

strong terms, we naturally believe that its own legislation must be in accord with its requests.

On the contrary, the United States, which is so alert in the tutelage of the rights of its citizens abroad, goes much further than Mexico in its own inter-

In the State of Arizona, for instance Law 4,716, passed in 1913, says that only citizens of the United States or those who have declared their intentien to become naturalized may acquire property, and that no company with more than 39 per cent of the stock in the possession of foreign stockholders can acquire land or title within the

The State of Illinois has similar restrictions, the law granting a foreigner a period of five years only to dispose of his property. If the foreigner fails to comply within the certified time, the State of Illinois has the right to appeal for continued contribution of

confiscate his lands and titles. The new Mexican law says that property rights acquired prior to the Contitution are not affected as far as the person acquiring them is con-The owner shall have the right to hold until his death his title acquired in good faith. His heirs, however, must comply with the pro-visions stated by the law, meaning that they must either take out a permit and agree to consider themselves Mexican nationals as far as any legal-ities connected with their properties are concerned and look for redress only to the Mexican courts, or, not acquiescing, they must dispose of their

inherited properties within ten years, middle of winter, after an eleven.

The charge of confiscation against months' strike, to be cut off from rethe Mexican government is most interesting. The owner of a prior acquired right is in his own interest now obliged to make a declaration proving his ownership before the Foreign Office and thus securing that his property rights be respected. If this declaration is not made, the acquisition will be regarded as made after the promulgation of the law, and the claimant's right will be judged according to the dictates of the new law. We can scarcely expect a government to e more solicitous of a person's prop-

rty rights than the owner himself. However, it is impossible to speak bout confiscation if the original equisition was contrary to the law of the State. Property so acquired can ever be and is never considered a egal acquisition. A right resulting rom an illegal acquisition does not exist, the legislation of the whole world earing out this statement. nullum producit' (Nothing can nothing produce) comes down to us from early Roman law, and has never been denied by the legislation of any time. Rights acquired against the law are con-sidered as null and void as even Article 8 of the law in question so

Thus we see that the charges against -Mexico are unjustified. The prior acquired right is not injured, and, according to the law, the heir has the right to dispose of his property within ten years if he does not care to comply with the conditions of the lew law

## SOVIET-JUNKER PLANE DEALS BARED

Manchester Guardian Reveals Contract to Make Machines for Monarchists

ONDON-Continuing its disclosures of secret military deals between German Monarchists in the war department of the German republic and the Moscow government the Manchester Guardian reports that in December, 1921, two agents of the Junkers' airplane firm and two agents of the German war department submitted to the Moscow government a contract for the creation of a German war industry on Russian soil, to be financed by the German war department with an initial capital of 21,000, 000 gold marks.

The German war department used pressure on the Junkers firm to this end, on the ground that it was the patriotic duty of the business to help the war department. The four Germa agents had false passports for their entry into Russia

showed great willingness to make the deal relations between Poland and

Used False Labels In order to cover the transaction, false labels were used by the German agents. They referred to the German war department by the letters S. G. (Sonder Gruppe, special group). Instead of naming Dessau, the home office of the Junkers firm, they named Leipzig, Battle planes were called

Difficulties arose soon after the contract had been closed, the Guardian continues. This was partly due to the fact that the Russian Communists, who took nothing for granted, insisted upon positive results. Partly trouble was due to the fact that the funds if others will be moved by this action promised by the German war depart- to practical assistance along similar ment were not delivered to the Junkers lines he will consider himself amply

Hosiery Workers Union Uses Radio to Aid Drive to Organize Labor in Industry

Something new in trade union history was the effort of the American Federation of Full Fashioned Hosiery workers to "sell" itself to the public through a series of radio broadcast programs. On Thursday evening, January 6, between 6 and 7:30 p.:m, the Federation of Hosiery Workers went on the sir with a program of high-grade musical selections, interspersed with short speeches on trade unionism, from Station WRAW, Reading, Pa., which uses a wave length of 238 metres.

James H. Maurer, president of the Pennsylvania Federation of Labor, and William Smith, secretary-treasurer of the Federation of Full Fashioned Hosiery Workers, were the principal apeakers. The union feels that the entertainment value of the program was such as to attract the attention of many hundreds who have never before heard an adequate presentation of the case for labor organizations.

The hosiery workers will give a radio program at the same hour on aix successive Thursdays during January and February as the feature publicity event in connection with an organization drive now being conducted in the Readig district. Station WRAW has a radius of over 200 miles.

## **Helping the Good** Work Along

E HAVE received many New Year greetings and nu-merous letters expressing their appreciation of the work Leader is doing. Some were accompanied with a small contribution to our Sustaining Fund, others enclosed subscriptions, while a few promised to do all they can for us in the near future, both by a contribution to our Fund as well as getting new readers. It is needless to say that we appreciate all the good wishes, and the assistance rendered or promised.
Among the letters received was one

from a very good and devoted friend of The New Leader who shuns puberal papers that I can get hold of and licity and in deference to his wishes we will refrain from mentioning his we will refrain from mentioning his long time I did not see a page name. This good friend enclosed a covered the ground so well as The check for \$112 for 56 yearly subscriptions, 50 of which are to go to a list subscription and expect to stay with tions, 50 of which are to go to a list of college and public libraries. This is not the first time that the friend has taken such action. This year his contribution exceeded all our expecta-

We hope that the placing of The New Leader in 50 additional libraries will be the means of introducing The New Leader to thousands who would not be reached through other channels. We cannot adequately express our gratitude to this friend for his liberal assistance. We feel sure that rewarded for his generous help.

writes: "I take the pleasure to renew my subscription to The New Leader for another year. Sorry to have delayed it a little, but I could not help I am an inmate of the county ne. I gathered in a few dollars while out for Christmas and I gladly renew my subscription to the best pa

per in America that I have seen. Dr. S. Silverberg of New York, in renewing his subscription, adds another \$5 to our Sustaining Fund with the following remarks: "There is no question in my mind that The New Leader is the best weekly out, and I would not want to miss it every

Pauline Meininger, Erie, Pa., writes: "While renewing my subscription I regret not to be able to at the same time answer your call for funds. Just now I find that impossible. I can only renew my subscription and send you my best wishes for the success of The New Leader."

S. Hoffman, Bronx, N. Y., writes: 'With my renewal for another year I enclose \$3.00 for your Maintenance happy if I could send more at this time, but the call for funds in the American Appeal and demands for party support prevent me from making a larger contribution. I hope that our readers will respond generously to your first call for financial help. Charles Bryson, Berkeley, Cal., re-

## Labor Radio Keeps Critics; Insists on Free Speech

Advice to Would-Be Suppressers of Church Men's Talk

HICAGO .- "If you don't want to hear the sky pilots, turn the little knob and you are off of them," declared Secretary Ed Nockels, Chicago-Federation of Labor, in winding up-discussion at the regular meeting occasioned by the sale to two churches of time on WCFL, the Federation broadcast station (491.5 meters).

Complaints that the preachers were using their purchased time to knock such labor aspirations as the 40-hour week were made by delegates who had tuned in and demands that the contracts with the churches be canceled were heard. The cancellation could be made on 30-day notice.

Spirited defense of the contracts was made by President John Fitzpatrick, who told of the attempts to enlist the co-operation of farm organiza-tions toward realizing common purposes of the countury and city workers. of Mr. Guthrie about ten years ago.

"Tune Off," Is Nockels' "We hear from our farmer friends." Fitzpatrick said, "that their wives greatly appreciate in general what the

reachers broadcast." Regarding the attack by pastors on the 40-hour week, Vice-Presiden Oscar Nelson proposed a radio debate, with Fitzpatrick defending the short week against its clerical critics. Fitzpatrick consented. He also charged that the attack on church use of the radio was

instigated by the Communists.

Next to the radio discussion, the Federation listened with interest to attacks on the competition of priso made goods with free labor's product.

Debate on Civilization

William B. Guthrie, Professor Government at City College, will dehate Leon Samson, radical lecturer, Sunday, Jan. 9, at 2 p. m. at the Manhattan Lyceum. The subject is "Have the Mechanical Aspects of Civilization Benefitted Humanity?" Mr. Guthrie will take the affirmative. This debate will prove doubly interesting in view of the fact that Samson was a pupil

# Sex **Expression** In Literature

By V. F. CALVERTON Author of THE NEWER SPIRIT

With an Introduction by HARRY ELMER BARNES

SEX EXPRESSION IN LITERATURE is a challenge to the moralists. Mr. Calverton attacks prudery and puritanism as characteristics injurious to contemporary literature which has broken from the fetters of a decaying social class. It is an exposition and a justification of the freedom of sex expression in our new art. For the first time in the history of literary criticism, the changing attitudes toward sex expression are analyzed and related to their social origins.

"In this book Calverton carries the evolutionary concept into a field where professionals have posted a sign 'keep out.' His work as a whole is a very creditable achievement and you will miss much that is valuable and informing if you fail to read this book." (Jas. Oneal in The New Leader).

PRICE \$2.50

Wisconsin	40,293	

Idaho-Progressive Party, 37.047.

I do not think it is necessary to give figures for 1924, 1920, or any previous good years. The only conclusion that can be drawn from the table above is that the Socialist party is practicalwiped out except in three States: California, New York and Wisconsin Note that in the most important in-dustrial States of Illinois, Indiana, Massachusetts, Michigan, New Jersey Ohio and Pennsylvania, our party polled an insignificant vote. I hope that none who may have read up to secret or open enemy of the party. I take no joy whatever in the fact that the party polled so few votes in the industrial States of the nation, nothing of the other States.

Wants Politics Abandoned

But this vote must mean even to be most sanguine "old-timer" and the most sanguine

comes from Milwaukee almost exclu-sively, while that of California in 1926 came in the same way almost entirely of New York the vote in 1926 came from New York city, Buffalo, Rochester, and one or more of the cities. I wish to point these things out to show poll a fair vote that it is not a statewide vote, that it is unlikely we are organized throughout the State, and that, as I will indicate below, we have nothing to lose by going out of business entirely as a political party, nationally, in the States, and locally.

say, please read, and note my an-

swers to your objections. My suggestion is that the Socialist party reorganize itself into the American Socialist Society, with its present organization intact in every respect. The party will declare that it no longer a political party, but solely a propaganda and educational society to promote socialism and indeducing classes. This society does not -and this is the crux of the matterset itself up as the political expression of the producers, but instead co-operates to bring about a political organization that will in fact be such The American Socialist Society will. independent political action, be a part of a political party that functions in

Wants A New Party The first steps that suggest them-selves are that the Socialist Party to-

trade unions and labor groups which are bona fide and represent the pro-ducers, and finally the American Socialist Society. The Communists would be barred either as representatives of any labor organization or as part of any group whatever.

In the congressional districts of California, New York and Wisconsin where the Socialist Party has a chance of election. Socialists of course would under the name of the new political name that will fit the groups whom it does and must represent, the producers. Such a national party is inder the necessity of building sound ly and hence slowly. It will nominate try to "deliver the goods," concretely electing officials. Its sources of revenue will be per capita from fillated groups, donations, and imganizations that might be interested n giving it a fair chance

Realities of a Dream Now let me meet the objections of he party members or sympathizers. First, it will be said that I propose

in establishing a clean-cut independ- party is already out of business in ent political party of the producers, every State except three, and that the with power in the hands of organized chances of its recovery in the 45 or unionists who might go along are with farmers, trade union and independent 48 States are very poor. Instead of the party already, and that the others political organizations. That is to say, the party trying to re-establish tosts where it is slowly dying or has distrade unionists might be with us in a spiritual sense, but if they are party appeared, I say that the party should a spiritual sense, but if they are genuinely concerned about politics, and abilities ought to be Minnesota, the Progressive Party of call upon all these who are interested genuinely concerned about politics. Illinois and possibly of Idaho, those in working toward a producers' party, their energies and abilities ought to be farmers' groups which do not have any and who will not give their energies Socialist Party.

I have spoken to trade union leaders ducers' party, and I believe it is most Party as the party in which they can get him or her, right now.

Socialist Party, many of us believe goods." that new blood can only be obtained
by an open and sincere appeal for
States it is very difficult to get on support of an independent party, with the ballot if you once get off. The participation in counsels and control to election law is made to hamper not those who are not and are never likely to help minority parties. That would to be in the Socialist Party. To be sound good in 1916 or 1920, but in specific, I mean the leading trade 1927, this has no longer any meaning. a hand, the outstanding individuals If I have stated it strongly, suppose who are close to the labor and liberal in six States we are still on the ballot movement. I think that if these men as a legal entity? What of it? We that the party go out of business with- and women were approached they nominate any Tom, Dick and Harry The third objection is that the Amerout indicating any other party to would help, provided they were given for minor offices to fill a ticket. These ican Socialist Society, which I congether with others send out an inwhich it can affiliate; that my provitation to the groups and organizaposed producers' party to be organized
participate in control, as they ought, their district. We nominate a candicialist Party, cannot succeed as a

It will be said that the trade wholeheartedly toward building up the for independent political action. There not an outstanding trade union leader in our counsels, so far as the and intellectuals interested in a pro- national executive committee is concerned. Would it hurt to have a half difficult to "sell" them the Socialist dozen or a dozen international presidents, district chiefs, and practical should work. I firmly believe that an labor leaders on a national committee? enlarged group can be organized here And they are available right now! and now, to work for an independent As to the non-trade union people producers' party, and that it is not whom I am thinking, of, I might suga day-dream. I want to see a type of gest that unless we get some of them person cooperating in localities, in to work with us sooner or later, we State and nationally, who is not in are going to have an extraordinarily the Socialist Party. I believe that you hard time. We will perish of isolation unless we can appeal to the practical Without casting any slurs on the minded American folk that nembers of our ruling bodies in the political party we can "deliver the

unionists in the needle trades and In 45 out of 48 States we have to get on the ballot as if we were new-born.

tour the State in the leading State of in New York State under the name of the party that will and can be organized, and for governor in the where such office is voted for, and forget about the rest of the house of cards and fiction we continue. Yes, of course, we will keep our legal To the Old-Timer

Suppose we lost our standing as So-States where we amount to something? Does anyone ever think of the State out? It is Milwaukee, it is Berger's

Isn't it time that we went about this political business as the trade unionists go about their daily bread and butter business? We organize independently because we can get labor pendently because we can get later a should have always been, a Socialist propaganda society, a Socialist propaganda society, an organization in closest concern, and only as we "deliver the goods" will we ever attract the work-ers and producers. The new party will carry on political work in a few not ushered in independen districts, not as a Socialist Party, but action and never will as a Socialist as a united producers' party, with every one helping who is interested in capturing a district. The trade unionwell as Socialist Society members, was go about capturing a district in the same way that a union attempts to organize a non-union shop or win a it is our business to do something to well as Socialist Society members, will where. I am not interested in anything else.

have been "fed up" by Communist borers from within, and that it would be best not to try anything, but to sit back, plug away as best we can, trust to an economic crisis, and await better times. In other words, the "old-timers." who are certain that every other party except the Socialist Party must fail, ding" ourselves? Let us nominate in who secretly or openly pray for the half a dozen congressional districts defeat of every Farmer-Labor Party, who are so sentimental about the So cialist Party that they forget the Socialist movement-these offer nothing to the membership or member. The Socialist Party thus reaches a condition where any man is chosen for office, public and in the party, where no one wants to run for in a word, the effort seems to be to keep alive rather than to grow and achieve. I hold the leaders of the Socialist Party in high regard, particularly those whom I know fairly well.

The Combined Strength I suggest to you, members of the National Executive Committee, instead of starting organization drives, conducting political campaigns, worrying about rebuilding the party press I say to you: make the party what it tact with the producers and holding political party, in my opinion. Let us give up the attempt once and for all!

I am especially interested in the bring about this producers' There are Farmer-Labor Parties in Minnesota, South Dakota, North Dakota, Oklahoma, Montana, Illinois and Pennsylvania where the vote received in 1926 showed at least as much life a genuine welcome and a chance to individuals hever even market as the participate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control, as they ought, their district. We nominate a candicipate in control as the socialist party in the Socialist par outside of California, New York and Wisconsin. Minnesota alone showed a put together, and not all of these votes

came from farmers.

We talk so confidently about our party being an industrial movement. It must be if we are to get anywhere. But, as a plain matter of fact, in Massachusetts there is a Labor Party which has far greater possibilities than the Socialist Party. In Illinois the Progressive Party, which is laughe dat, polled twice as many votes as the very old Socialist Party. In Pennsylvania the Socialist Party re-ceived just one-half of the vote of the Labor Party. Here are three industrial States. But what's the use of compar-ing our weaknesses. None of us have any strength, except possibly Minne

sota and Wisconsin.

All that I have said can be boiled compels the party to start afresh and co-operate with all elements who are willing to journey part of the road at itself or it will become like the Social-

# Upton Sinclair Replies to W. J. Ghent

#### By Upton Sinclair

FORMER Socialist, W. J. Ghent, contributes to The New Leader an article telling us what is wrong with the Socialist Party, and the editor invites me to reply. In this published announcement of the symposium the editor says that the replies are to be "without personalities"; but I hope that this rule will not be enforced more strictly against me than

it was against my ex-comrade. Ghent refers to "the serious thinker of Pasadena," who once called him "a paid agent of the White Terror." This So I trust that I may say, first: There was a White Terror in the United States from 1919 to 1922; I know, because I saw it. And second, Ghent was a leader of this incitement, taking dyed-in-the-wool Socialist party mem- capitalist magazines to denounce the

## "Do the Opposite," Novelist Urges in Comment on Other's Criticism

persecuted radicals. If a man wishes to become a paid agent of the White him as what he has chosen to be. Do the Opposite

Ex-Comrade Ghent tells the Socialist Party that it must "learn to forget," and then he fills many columns with proofs that he has forgotten nothing. selves to new events and conditions, and then he goes on to set forth a set of old programs and a collection of old ideas, all involving the basic assumppened, and that the Socialist movement can be and ought to be what it was twenty years ago. He lays out a program for the party, and my answer to it consists of taking each of his recom mendations, and advising the party to

do the opposite. For example, War. Ghent advises us

Mr. Ghent is charged with working for the Better America Federation and he denies it. So far as the Editor is concerned he accepts Ghent's denial. But Ghent goes on to declare that the Editor should have either consulted him or made other inquiries before have been raised .- EDITOR.

resented the aggrieved party is entitled to answer his opponent. It is not the function of the Editor to susica Federation" is too stupid. In the pect that a given statement made by a writer is unjust and then make ar investigation. It is for the aggrieved ways an outspoken opponent of this party to answer. Ghent has answered and in printing his answer we are carnection with it, direct or indirect; and rying out the purpose of the forum. On the other hand there was no nar willing to sell or loan my services to ticular reason for the editor to chal-

it there is no possibility that they lenge Mandell. It is a fact that most would have been accepted. A person of the "war Socialists" did indulge in anti-Socialist and reactionary conduct. Simons and Gaylord were responsible for the raid on the Indiana party head-quarters. La Monte joined the home guard and was careful to have himself listed in Who's Who as not a membe of the Socialist Party. Stokes joined the New York State Guard and later was a councillor to a reactionary Russian organization. Walling celebrated May Day, 1917, in an article in the New York Globe urging the authorities to prosecute Hillauit. Sparge had plenty of space in the capitalist press to denounce us and has become maudlin in his worship of capitalism. Benson, Slobodin, Stokes, Bohn and Walling, a few days before the election in November, 1918, publicly urged the voters to support Wilson candidates for Congress. We submit that if Ghent had worked for the Better America Federation it would not have been sur-

prising. We are glad that he did not. We agree that personalities should be avoided, but even on this score Ghent did not set a very good example and we have been criticised for not cutting out some of his invectives When he resorts to such language as "stupid," "intellectual squaw men," "dishonesty," "shameless duplicity" and "cowardice," he does not contrib-ute to calm discussion. We hope that contributors will try to be careful of their statements and endeavor to cenfine themselves to real questions that

#### Nap and Brisbane On War

667 HE best way to keep out of it (war) is to be ready for it and to meet it three-quarters of the way, if it starts coming"—this my illustrious colleague. Arthur Brisbane,

Sure, Arthur, that's the way Germany kept out of it and Russia, Austria, France and England kept out of it. That's the way they all kept out of it. In fact, the whole outfit was so thoroughly prepared for war that they were able to meet it seven-eighths of the way and if they had been just a little bit better prepared they might have met it eleven-eighths of the

Anyhow, the best way to prevent shooting scraps with homicidal intent is for every one to carry a gun and bang away at the other fellow before he can pull

Here is another beam from the same lamp. Speaking of professors advising friend Coolidge to forgive the war debt and thus remove another cause for war,

Brother Brisbane says:
"Napeleon Bonaparte knew a good deal about war. When he started on his Egyptian campaign, he took ith him solemn professors from the Academy of

"But when real fighting came, Napoleon formed a square of men, hollow in the middle and gave the order 'scientists and donkeys in the center'." Well, perhaps he did. But if Napoleon had been

wise he would have set the scientists to work doning out poison gases, high explosives and guns that carry ninety kilometers, then present the achievements of ce to the donkeys and let their nature do the Doing this, he might have reached his expressed ideal, "one God and one Emperor," for there no deadlier combination than science and donkeys as the late unpleasantness amply demonstrated.

But instead of using such a formidable combination of scientists and asses to exterminate all competition to himself and God he treated them as n combatants and consequently landed in the celebrated hoosegow of St. Helena. In short, Nap was a nut and while wooden poles make good guide posts, the same cannot be said about wooden heads.

American Legion, Sons and Daughters of the Revo lution and all other patriotic bodies are called upon to yiew with alarm certain Socialistic demands by President Coolidge found in his message to Congress. Government to purchase 4,000,000 bales of cotton

and withhold it from market.

Count I. Government interfering in free competition and the inevitable law of supply and demand Reduction of one-third in the cotton acreage in the

Count II. Restriction of output, also known as Land Government Inland Waterway Corporation

under which the government operates collectively owned boats on 2,500 miles of river.

Count III. Violent violation on part of government

of the vested rights of private profits. Calls for development and extension of co-operative associations of farmers with government aid.

Count IV. Stepping toward the co-operative comwealth, if not rank communism on all fours. Urges laws giving Congress power in event of tuminous coal strike to sell coal and fix prices of

Count V. Paternalism of the worst kind, for what od will it do the capitalists to own and operate ndustry if outsiders fix prices?

And we shudderingly stutter, what next? After reading this:

"Reformers plead for life of Thomas McWane im-

nan confesses she lured man to kill admirer

And this:

'Shoe repairer slain because he cut prices."

"Three men plead guilty: Say they were hired to rob and beat wife.

"Croarkin, indicted on his confession that he killed

boy, will not plead guilty."

It was soothing to read something so sweet and clean as this:

"Borah claims that theft and graft in Alien Property 

However, if brother Borah thinks he can stagger us with a bigger and better graft scandal than Teapot Dome, he has another think coming. This nation has long become stagger-proof. It wouldn't stagger if the news came from Washington that a high government official had carried off Washington's monu ment in a sky blue satchel. It might marvel at the strength of the fellow. But stagger—forget it.

At the same time, we welcome whatever graft revelation Mr. Borah or any other notable may have sleeves. Of course, their value as cleansing compound is next to nothing. But they constitute at least a welcome relief from the crime and murder news of any newspaper. I wouldn't go so far as saying that public graft revelations are exactly elevating. But they are at least not quite as degrading as that other stuff.

On the other hand, there are certain features of later day graft scandals which make one fear that murder may intrude more and more in these revela-

Senator Heflin, for instance, charges on the floor of the Senate that Jesse Smith was killed because he knew too much about a five million dollar contribution and the methods by which the latter was to be re-

sonally, I do not believe that Mr. Mellon would stoop to as low a graft as collecting hush money from bootleggers and brewers to reimburse himself for aid and comfort given preliminary to placing the Ohio gang in the White House.

He has saved himself and the concern he is assoclated with many times five million dollars simple, and at the same time, legal method of downward tax revision. No man in the position of Mellor has to walk in sewers and gutters to find money. So I am inclined to take Senator Heffin's charges with

a great deal of sait.

But this is true. There is a well established relationship between crooked politicians and big business-between black grafters and "white grafters"between silk stocking ward and slum, which may be observed in every city and State of the union.

And between the boodle taker from below and the m above, democracy is ground in the Or, as Lincoln Steffin put it long ago-"the trail of the boodler leads inevitably to the some respectable corporation seeking special interest at the expense of the common weal."

Whoever it was, who said: "Money is the root of surely said a mouthful. But what is the use of talking to folks to whom the jingle of the Jollan sang Peace on Earth, Good Will

#### Russian Resources

WO recent translations from the Russian reveal two of the greatest of the story writers who have already become classic. Dutton remains of Tolstoy, "Stories and (\$2.50); Holt has issued Love," by Ivan Bunin. The "Mitya's Love," by Ivan Bunin. first of these volumes, bringing toof the earlier man, is one that every dmirer of Tolstoy will wish to own Without making any new pieces in the book present the writer at various stages of his development, and make thus the basis for an interesting study of his growing moraltic concern. Pan and Peter, toward the end of the volume, for instance, make interesting converse studies; the one of a proud nan brought low until he repents; the second of an humble man exalted in the eyes of those about him.

"Mityas Love" is a simple and sin-cere story of a first love, beyond which life could not be. Suffering somethat from the fact that it comes from the Russian by way of the French, the book nonetheless holds still a closeto the core of self-searching that makes life so hard for so many of these wintry people. Mitya gives his faith, his giddy girl, whose ambition carries her astray—though we see little of her, and ever so much of him; there is nothing left for the lad to give to his sorrow, but his life—this he offers upon the altar of disillusion. The por-trait of the lad, and his developing sult of a long process of evolution, in emotions, is sympathetic and moving, and makes, a volume one is glad to

#### Fatalism or Freedom? THE endless controversy between

free will and determining takes on constantly new forms, but remains essentially the same. As in so many perennial puzzles of dialectic heredity versus environment, altruism ersus egoism, etc.-the difficulty partly in a faulty formulation of the ssue, partly in defective definitions. It portion of those who are disposed to lisregard heredity as a factor in social ment and to stress the importance of ontrolling the latter for improving human life, are also disposed to deny freedom and to insist upon determinism n condoning defective adjustments of surroundings.

Professor Herrick ("Fatalism or Freedom?" by C. Judson Herrick, W. W. Norton & Co., N. Y., \$1) comes to valid assumption in dealing with our world scientifically, but that human beings are, in a true sense, free. The scientist cannot set aside the assumption that all events are related in cause and effect sequences. Neither, on the other hand, can he disregard states of mind as effective causal factors in hu-

thinkers, the freedom to act without relation to pre-existing conditions, uncaused or unconditioned action on the one hand, and the natural freedom of action in accordance with the nature or constitution of the agent. This latter kind of freedom alone has meaning

## A Thieves' Paradise

World Politics," New York, The Mac-millan Co., 1926). Success OTHERS dealt At PROFIT'S mart, And at the FROWN Of CHILLING death Their COSTLY treasures FELL to earth.

NOT SO Debe-He WON men's hearts, And at the BMILE Of FRIENDLY death He carried WITH him All THAT wealth. GLENGARRY.

#### The G. A. W. Has a Bun

R the poetry of David Berenberg we have deep admiration, for his personality a great fiking. But for his gifts of prophecy along economic and political lines we are not so keen. Under the heading of "Until the Spree Is Over," he recently outlined in the pages of The New Leader his ideas as to what the future holds for us Socialists. They are not optimistic. According to Dave we are "not making progress because the working class is drunk." There is nothing to do until the Great American Worker gets over his jag. We are to sit around watching the G. A. W. get tighter and tighter on bootleg prosperity. When he is well torched up he will fall in with those evil companions, the Communists, because their philosophy will appeal to him, what time the national bouncers are about to throw him out of the speakeasy on his neck. After he has bummed around with them for awhile he will begin to get a severe Katzenjammer and will holler for us to come around with our intellectual stomach pumps and Marxian seltzers and bail him out.

Somehow this program fails to allure us. Somehow we have a sneaking suspicion that there is more that we can do than be mere bystanders at a national bun. What so many critics of Socialism fail to observe is that our propaganda is not going over merely because there are not enough propagandizers. A whole generation of young workers is growing up ignorant of the very fundamentals of Socialism. They think of Socialists as "nuts" and "bunk artists" mainly because they have never met any and take their information second hand from prejudiced sources. Who, for example, is giving out literature at factory today? Who is doing as did the young Debs, going from place to place at great personal danger, if you please, organizing and preaching and organizing and preaching? How many of us are exhausting our time and energy on internal rows and bickerings when into trade unions? We have a scad of swivel-chair officers. We have a vast assortment of facts on economics. What we need in my humble opinion are some active field workers who will not be content to sit around for the next six or seven years listening to the drunken maunderings of the comparatively few skilled workers off on a prosperity jag, but will tackle the every day jobs that call so loudly to be

This country is cursed with infant prodigies, than which there can be no more loathsome specimens of the human race. The latest to arrive on the American scene is a girl named Anna Louise who, at the age of ten, composed the following eulogy on that inspiring character, Calvin Coolidge:

#### President Coolidge

"Long may our noble Coolidge reign O'er his flag with stars so bright; Long may our gallant Coolidge stand And rule this land aright. hrough every deed his triumph shows, flay his soul be glad above. Long may our gallant Coolidge stand In politics and love."

We admit that there is considerable of a kick in Anna Louise's last line. We had never thought that Cal had a particularly high stand in love, but apparently you can never judge by appearances.

Down in Texas they are trying a Fundamentalist sky-pilot for bumping off a millionaire lumberman during a little discussion over the relative merits of the Darwinian theory of evolution. The psalm shouter in our opinion put somewhat of a crimp in his anti-evolution ideas when he shot the lumberman. Didn't this go far towards proving the "survival of the fittest" dope? To be sure, the lumberman was armed only with a lead pencil, while the militant vicar of God had a nice ecclesiastical revolver. But it should be a warning to the Modernists not to go arguing about evolution unless fully armed. If you want to live in Texas and believe in Darwin, be sure to get yourself one of those Mussolini armored vests and a good big gat.

During the latter part of this last year we have been dwelling a lot in the past digging into the history of labor unions and labor personalities in preparation for a book which we hope to bring out soon under the auspices of Pioneer Youth. Strange how hard it is to get good material on the beginnings some of our large unions and their leaders. American workers have not seemed to care much about keeping records of their achievements. There is no comprehensive history of the United Mine Workers, for example, and Heaven knows they have made history in this country if any organization ever has. The official history is a dry-as-dust compilation of convention doings and resolutions, and statements of The New Leader is doing a good job in gathering together some of the more colorful aspects of the developments of our unions. The labor move-Despite its dark spots, it has a history to be proud If the children of workers could catch something of the spirit and tradition of the pioneers, more of them might stay in the movement instead of turning into second-rate dentists and third-rate salesmen.

Ben Stolberg, who writes pieces for The New Leader and other far-flung periodicals, Walter Frank, who reads this column every now and then, and other friends of ours are in Mexico, trying to find out what all the shouting is for. We hope they have a swell trip, but what with earthquakes, U. S. marines in Nicaragua, nervous Nellies here and fiery deputies there yelling about how Mexicans know how to dis with their backs against the wall, we figure that in Herrin, Illinois, would make a quiet holiday spot.

McAlister Coleman.

Time

In Svithjod land there stands amid the snows A rocky mountain, so the story goes; A hundred miles this mountain wide does lie, A hundred miles this mountain wide dee A hundred miles it tow'rs unto the eky; Once every thousand years—mark what I say! A little bird to Svithjod wings its way, And on this mighty mountain's rugged peak It rests its wing and whete its little beak; Once every thousand years—mark what I say! It wears this mass of rock so much away; Now, when this hundred miles of solid stone is worn away by this small bird alone, Eternity has seen-mark what I say! The passing of a day, one single

If this is Time, oh ye who thirst for fame, How can ye earn an everlasting name?
—From "Songs of a Miner Lad." by Joe Corrie, a young Scottish miner.

## Women in U.S. Service Lack Opportunities Despite Legal Equality

#### The Field of Labor

States Civil Service Commis-sion ruled on November 5, 1919, en in Government Service in 1925" that has just been published reveals striking irregularities. For the purof the investigation Bertha M. Nienberg, the author of the report, con fined herself to the executive establish ents in the District of Columbia and mainly to women occupying administrative positions or those requiring onal, scientific, or technical training equivalent to that represented by graduation from a college or uniersity of recognized standing," whose inimum salaries under the law were

a similar study was carried out in 1919 women were excluded from one-half of the examinations and there was no uniform entrance salary for any given type of position. Today, under the 1919 ruling and the reclassifica-tion of the civil service under an act of 1923, women have equal opportunities with men. Nevertheless, since heads of the various departments and executive establishments may express a preference for men in seeking ap-pointees, women have been placed at a disadvantage. Bulletin No. 53 of the en's Bureau supplies the statis-

The inquiry revealed that the employees in the executive establishments at the national capital were about equally divided as between males and females. Almost one-third received salaries of \$1,860 or over. Of these only one-fifth were women. Twothirds of them were in clerical, typing or stenographic positions, and only one fourth in professional, scientific or ad-

A study of compensation showed that there was a larger proportion of wom-en in the lower salaried groups than among men. Forty-five per cent of the were selling prison-made goods. They women employees received just \$1,860 induced eleven to stop the practice. (2) per year but only fifteen per cent of the men were at that level. Forty per unions, ministers, newspapers, ladies' cent of the female help received be-tween \$1,860 and \$2,400, and the remaining fifteen per cent more than \$2,400. The corresponding figures for males were twenty-four and sixty-one and a half per cent. Furthermore, the readjustment of salary rates resulting from reclassification of positions in the departmental service increased the salaries of men receiving \$1,860 and over to a greater extent than among women. It is evident that equal opportunity for ... women even in the United States Civil Service is not yet an accomplished fact The discretionary power given to officials in designating the sex of their assistants cannot very readily be curbed, but the exercise of that discretion to the prejudice of women and economic status in general.

#### HOSIERY WORKERS BROADCAST

time ago we had occasion to speak at length of the work of the American Federation of Full Fashioned Hosiery Workers, a section of the United Textile Workers of America, in preparing for the post-boom period in their trade. We mentioned incidentally the organization campaign that was being undertaken in Reading, Pa., a city which was developing into an imthe plan, that dealing with publicity. The Hosiery Workers have arranged to broadcast every Thursday evening between the hours of 6 p. m. and 7.30 p. m. from Station WRAW (Reading).

PARK PALACE 3-5 West 110th Street ROSENBERG & HERTZ, Props

ESPITE the fact that the United States Civil Service Commission ary 6, 1927. James H. Maurer, president dent of the Pennsylvania State Fedthat all examinations were open to women and men alike, a study by the Women's Bureau of "The Status of Women's Roverment Service in 1992". were the principal speakers. Their addresses were sandwiched in between the entertainment numbers and probably did a good deal to popularize the union cause. We have several times referred to the importance of publicity favorable to the labor cause in order to put the worker himself in a mood recentive to unionism. For this purpose what could be better than the radio? The station owned by the Chicago Fed. eration of Labor, WCFL, has pointed the way. The Socialist party is plan-ning DEBS. There is talk now of the American Federation of Labor establishing a station, probably at Springfield, Ill. The Hosiery Workers are simply in the vanguard.

#### ALABAMA UNIONS FIGHT PRISON LABOR

Some good work has recently been

accomplished in Birmingham, Alabama, to eradicate prison-made goods A Prison Labor and Agitation Committee was appointed by the Birming ham Trades Council with C. H. Har rison as chairman, and Mrs. Hattie Brady as secretary. The committee competition with forty-three branches of organized labor, and that 40 per cent. of all clothing was made by prisoners. Men's work shirts, ladies' hour dresses, children's play suits, ladies hose and shoes were found to be products of convict labor. A campaign has been carried out on three fronts: (1) Sub-committees visited twenty two stores and found that eighteen unions, ministers, newspapers, ladies aid societies and similar groups. It is estimated that a reduction of 40 per cent, has been made since last year in prison-made merchandise sold in Birmingham. A remarkable address by the indefatigable Kate Richards O'Hare, who is now devoting most of her time in the fight against goo made by convict labor, was reprinted and circulated widely. (3) To get at the root of the trouble appeal has been made to the governmental aucontract prison labor, and (b) brand It still remained chemical printing convict made goods as such. The first from flat surfaces. It had no connecconvict made goods as such. The first will be accomplished when the new governor takes office; the second requires further agitation. With the onvening of the new progressive legislature there is some hope that so reform will be achieved. L. S

#### INDEXING LABOR PAPERS

We have seized the opportunity from time to time to mention in this column notable contributions to labor research. Now comes a new venture: "Index to Labor Periodicals." It is published by the Labor Research De-partment, of Labor Year Book fame, and executed by Elsa M. Allen, liportant knitting center. Now comes brarlan. About forty labor periodicals word of the execution of one part of are analyzed every month and the most important articles are classified under appropriate headings. It is, of course, unnecessary to elaborate on this enterprise. As time goes on it will, no doubt, expand yond the present four pages, include many more publications and perhans become a weekly if subscriptions justify it. It occurs to the writer that something like the following is very much needed to carry on adequata research in current labor problems. All the articles released by the or five labor news syndicates should be indexed according to date of issue. We should thus have a com plete guide to Federated Press. A. F. of L. News Service, International Labor News, Brookwood Labor Education Service, and the like. Then, to this should be added the news items -which are rare enough-that appear in local labor papers. Combined with the "Volkszeitung" and similar papers Philadelphia conve indexed-but now we are dreaming of the research worker's paradise!

## THE LITHOGRAPHERS' UNION STORY

By LOUIS S. STANLEY

VII.—The Amalgamated Lithographers of America (1915-1926)

Part 1.-Jurisdictional Disputes

E have seen how the Amalgamated Lithograp's America came into existen on Jan. 14, 1915, as a result of the national Protective and Benevolen Association International Union of Lithographic Workmen and the Inter national Association of Lithographic Stone and Plate Preparers. One of the most vital problems that has confronted the new organization has been that of jurisdiction. The L. I. P. and B. A., it will be recalled, had affiliated with the American Federation of Labor in 1906 and thus obtained com plete jurisdiction over the lithographic industry and the advantages that this gave in any talk of amalgamation with the other lithographic unions. There was one exception, of course, and that was the International Protective Association of Lithographic Press Feeders of the United States and Canada. The L. I. P. and B. A. had not cared to organize the press feeders because they were considered unskilled workers. These had, therefore, found no difficulty in receiving a charter from the A. F. of L. in 1910, from which vantage point they began to extend their jurisdictional claims to the entire industry. To further this object they changed their name to International Lithographers' Protective Association, when amalgamation was complished. (The Posters Artists discovered that convict work was in Association also continued to be inde pendent.)

The quarrel with the Press Feeder vas complicated by disputes with two vell-established unions in the A. F. of the International Photo-Engravers Union of North America and the International Printing Pressmen and Assistants' Union. Technical developments in lithography were giving these unions an opportunity to estab-lish jurisdictional claims. In the early twentieth century the offset press and been employed in the industry for many years, began to take on a new vogue. We have already explained in the first article that the offset press increased the economy of operation by interposing a rubber blanket between the prepared plate and the paper, so that the impression was transferred or offset upon the latter. We have also mentioned that the application of hotography made possible the saving of time and money. In each one of these improvements, it must be rembered, that no change took place in the essential process of lithography. tion with printing from type or other forms of relief. The Printing Press-men and the Photo-Engravers disregarded this distinction and began to ake claims upon the work of the

ithographers. The Rogersville School Dispute The jurisdictional difficulties of the lithographers first came to the fore at the Seattle convention of the A. F. of L. in 1913 At that time Delegate James M. O'Connor of the L. I. P, and B. A. presented a resolution protesting against the action of the Printing Pressmen in establishing at their Frade School at Rogersville, Tenn., ourses in the operation of the lithographic offset press and in lithoprah-ing transferring. The resolution further stated that the teachers were "non-union lithographers" and called apon the convention to instruct the Executive Council to arrange a conerence of representatives of both organizations to take place within thirty gravers. broadening out the question. The committee reported that since no cona meeting take place at Washington, C., on Feb. 1, 1914, and included as those to be present not only repre-W 'H pus 'H' I' I' by southerness and the Pressmen but also those of the Photo-Engravers' Union. This was more than the lithographers had sug-

The proposed conference was held Executive Council was directed to orrange for further conferences between the four interested parties, to encour Following the age amalgamation. convention the Pressfeeders were sus-pended from the A. F. of L. Nevertheless, they took part in the confer ences which took place, though when they applied for reinstatement as a separate organization action was with-neld in order to further amalgama-The most that the Executive Council of the A. F. of L. could do was to urge the admission of the newly rganized Amalgamated Lithographers into the Allied Printing Trades Council, so that the questions of jurisdic tion and the use of a common union abel could be settled amicably. At the same time the change of name to Amalgamated Lithographers of America made necessary the issuance of a new charter, which opened up the uestion of jurisdiction.

Dismemberment Announced
The Photo-Engravers and the Print ng Pressmen now brought into play

the full pressure of the Allied Printing raphers insisting that their official pro-Trades Council of which they and the test be first considered and the Exec Typographers, Bookbinders and Stere-otypers were members. Philip Bock, A. F. of L. convention at San Francisco, had introduced resolutions which reaffirmed the claims of the L. I. P., requested that a committee visit plants to observe the technical processes and asked that a charter be issued to the Amalgamated Lithographers of America, "carrying with it whatever change it makes in the jurisdiction, which, however, shall be confined to the lithographic industry. The five unions in the Allied Printing Trades Council responded by demand-ing in strong terms that the lithographic pressmen and press feeders be "amalgamated" with the Printing Pressmen's Union, and the artists, engravers and designers with the Photo-This was the first open intended to dismember the lithograph- plying should be suspended. A warm ers' organization. The convention de-cided that the Executive Council of the A. F. of L, should within ninety disputing unions each stating his case. investigate the whole subject and make | Committee was adopted by the conven recommendations which the Council was to consider in arriving at "an equitable basis" for "amalgamation." The Special Committee Reports

In accordance with this decision the Executive Council arranged for the appointment of this committee. The president of the Lithographers and the president of the International Allied Printing Trades Association each selected three men, the Council chose one from each group and then ap-pointed a third. Thus, James Wilson, president of the Patternmakers; Jacob Fischer, secretary of the Barbers, and James P. Holland, president of the New York State Federation of Labor, were selected. This Investigating Com-nittee met in New York City in April, 1916. It heard arguments from both reported to the Executive Council in July, making the following points:

1. The Lithographers are only ing to amalgamate on the basis of all the printing trades amalgamating into one international union.

2. The Press Feeders find the pro Engravers satisfactory.

3. The label used by the Lithographers resembled that employed by the Allied Printing Trades too closely and

"requires special 4. Offset press knowledge and training" for its operation, BUT it is, nevertheless, "a printing press upon which printing is done.' question of which organization controlled the greater number of men operating off-set processes is ir-relevant—the investigation proved that almost all the litho presses in the United States were controlled by the Lithographers—BUT what is important is the form of organization best uited to protect the interests of the

workers in the printing industry. rocess of photo-engraving, BUT the separably involved" and the same results are secured in the finished prod-

peared. International Federation of Trade leaders of the Social Democratic Party the last week of November, Frederick helped draft the resolution. One of Adler pointed out that the Interna-Scandinavian unions finance visits in Scandinavia for autional purposes by the running of the visits in Scandinavia for and that the united party to be born tional felt quite sure that the absence

#### POLISH UNIONS GROWING IN MIDST OF ALARUMS

In the midst of the alarums and political crises that have been the order of the day in Poland ever since Marshal Pilsudski seized the reins of power last May, the Polish trade unionists are continuing to organize the workers there. As a result of the week of intensive propoganda held in honor of the twenty-fifth birthday of the International Federation of Trade Unions last fall, 15,000 new m were won by the unions, and the good work is being continued.

To facilitate the organization of the German speaking workers in the textile industry, an agreement was recently effected between the Polish Textile Workers' Union and the trade union section of the German Socialist Labor Party of Poland providing for the formation of separate German language

## Motion Pictures and Worker's Education

D. R. A. M. A.

Vances ever made in the ma-terial technique of education is being devoted almost wholly to the

the many German cinema films which directly tend to stimulate militarism. In Britain, the "Daily Herald" has noted that the representation of a local property of the control of the contr noted that the representation of a particular film "The Angels at Mons," has actually been utilized for recruitordinarily potent weapon for influenc-ing the masses is every day being show more and more enterprise in

Romberg, composer of "The Student Austrian Workers" Educational Centre

service of nationalism, militarism and capitalism. The cinematograph has ad- | Centre in 1924-25, 848 of which were capitalism. The chiematograph has a devanced so rapidly in popular esteem that film-making is now the third most important industry of the United was a propaganda, one prepared by the States: \$3,000,000 have been invested Vienna Labor Party. It was Germany, in it since 1921, and there are over however, which was the actual pioneer 250 companies, 25 of which have in the making of Labor films, after a great trust. The United which its activities in this direction States and Germany together supply were restricted for a time by the in-nearly all the films of the world, while flation. Now that the financial strain Britain is making a feverish effort to supply India with a chain of cinemas, before some one else steps in. "No one but a Supreme Power," wrote an American recently, "can retard the time with the Swiss School and Popus American recently, "can retard the progress of the motion picture:" it forms "the most powerful attack on ignorance that the world has ever seen." Recent experiments in the United States, continues the report of the International Federation of Trade Union on carefully selected groups of the Moster Builder, show that those taught with, and those taught without films can win marks in the respective ratios of the lives of the Workers' Educational Institute, although only founded in 1924, set up a film service in the autumn of 1925: it bought a motor-car, and children, show that those taught with, and those taught with, and those taught without films can win marks in the respective ratios of large films of the lives of the workers. win marks in the respective ratios of large films of the lives of the workers, 4.5 to 61.3 percent. The film, writes and doing excellent propaganda: its another American expert, "will soon success is so great that it will have another American expert, "will soon be a recognized adjunct of every wellorganized teaching establishment."

What applies to the education of children applies, of course, in general also. The cinema, it is more and more recognized, might be a tremendous instrument for the promotion especially of mass education: we find it recommended, particularly in Germany, for large classes and for use in remote rural districts. But we also find many indications that at present the cinema is a powerful instrument in the hands of nationalism and militarism. This is especially the case in Germany, the is especially the case in Germany, the film two or three years ago which ilsecond great film-producing country of the world: the Austrian journal for in general, the British cinema serves workers' education has carefully listed the many German cinema films which Scandinavian countries have, so far,

> It is earnestly to be hoped that, as time goes on, Labor may realize the presented at tremendous importance of making its Monday night ing purposes. In general, this extra- influence fully felt in the selection and wielded more and more in the interests using the cinema for its own purposes, of war and imperialism.

"THE DYBBUK"

CLEAN!

For the past eleven weeks New York has been showing its appreciation of a clean play at the Waldorf Theatre, where Brock Pemberton's production of "The Ladder" is on view. The audiences have remained in their seats after every performance for six or eight curtain calls. The novel drama is as clean as life—as thrilling, as romantic and as beautiful. Seats now selling eight weeks in advance.

## The Fir | International Emerges; Bakunin, Communist and Terrorist

### "Whence This Communism?" By James Oneal

The International Exhibit of 1862—The Workingmen's Association Formed in Workingmen's Work London---Statement of Principles---A nomic organizations that affiliated Loose Form of Organization---Michael Bakunin --- His Stormy Career --- A Proposition to the Czar

I.—European Origins (Continued From Last Week)

HE revolutions in Europe in 1848 had inspired many workers with hopes that revolutionary changes were about to bring important alterations to society but the triumph of reactionary governments the following year brought pessimism and disillusionment. The development of in-dustry continued and with it were created increasing numbers of wage workers. The social question was only temporarily thrust into the back ground. In 1862 the International Exhibition was held in London and a deputation of French workers visited These French workers came into contact with representatives of English workers and from mutual exchange of views both agreed that they had common interests and that common action would serve them. though the French paid another visit the following year, nothing came of these contacts till 1864 when workers of a number of nations met in St. Martin's Hall, London, and founded the International Workingmen's As-

The International established a General Council with its seat in London, constitution was drafted, and an in augural address, written by Marx, was adopted. Its guiding principles were set forth in this document, its

of solidarity between the various branches of labor in every land, and by reason of the absence of a the laboring classes of different

countries;
"That the emancipation of labor is neither a local nor a national, ut a social, problem, which en braces all countries in which modern society exists, and whose solution depends upon the practical and theoretical cooperation of the most advanced lands."

The general history of the First Innal and its activities down to its dissolution in 1876 is beyond the scope of this work. We are only concerned with those phases of it which leaves the second of the second with those phases of it which leaves the second of the s communist movement, its program and policies. In numerous resolutions the International was committed to the Russian Government. If there is a place himself at the head of a Panorganization of trade unions and aid philosophy of terrorism Bakounin is its Slavist movement and thus become

with it.

This looseness of affiliated sections necessarily developed certain weaknesses in the First International as well as its successor, the Second international, which was more definitely last line with a number of asterisks. Socialistic in principles and aims, but Carlo Cafero and Elisse Reclus, two the other extreme of a centralized au-thority with power to issue ultimatums and to punish disobedience would be no solution. What is involved is the old problem of federalism and autonomy, how to obtain effective co-operation of the control of the contr my, how to obtain effective co-operation of units without destroying them occasionally criticised for by over-centralization on the one hand and his answer was, "My life itself is and how to avoid marked separatist a fragment." tendencies by too loose adhesion to decisions on the other. Considering the formative period of the First International, the broad character of its participation in the Dresden insurfec-program, which was an amalgam of tion early in the following year. He various views, it commanded sufficient was condemned to death, but Austria We now have to consider the activities of one of the most extraordinary he was handed over to the Czar. After

This series of articles is an exhis brain, not one carried to a conclusion; fragments jumbled together, in conflict with each other, and each tossed aside half finished, to take up pansion of an introductory chapter in a book soon to be published on American Communism. The book is a complete history of the movement United States. It has been Bakounin's "Gow and the State" was published by New York Anarchists. thought best to omit the numerous footnotes from the present series except a few which appear

> remarkable chauvinism and reconciliation with the State, and the most ab solutist State in Europe, has remained a puzzle to students of Bakounin's activities. But in 1921 a document was found in the archives of the Czar's secret police, 64 pages in the handwriting of Bakounin and addressed to the Czar, in which Bakounin confesses to Alexander as the official head of the Orthodox Greek Church. He asks for

"I have been at the same time deceived and deceiver," he wrote. "I have deceived others, and I have deceived myself. . . . I have placed myself in an unnatural, inconceivable position which obliged me at times to be merely a charlatan, in spite of myself. There was always in me much of Don

Quixotism. . . ." Bakounin hesitated at only one point nd that was that he should not be required to "confess the sins of others. To which the Czar made the mar-ginal note that "this annihilates all confidence." This document appeared in the "Bulletin Communiste" of Paris, December, 1921. #### New York State

Thomas to Broadcast

Norman Thomas will broadcast a lifteen minutes' talk on "An American Labor Party" from Station WJZ, the most powerful in the country, beginning at 8:15 Monday evening, Jan. 10. This talk is due to the courtesy of President Aylesworth of the National Broadcasting Company, and those who appreciate talks such as these should write to the studio of WJZ, 33 West 42nd street, and express themselves accordingly.

Poughkeensie

Local Poughkeepsie is not a large organization, but it is on the upgrade on account of its live financial secretary. The annual report of the local, recently filed with the State Secretary, shows that 15 out of the 17 members on the books are in good standing. Some locals have 25 percent or less of their book members in good standing. The secretary of Local Poughkeepsie is Edward H. MacDonald.

Financial Report

The financial report of the State that the total receipts of the State Office were \$12,431.38, and total dis-bursements \$12,366.76. The debt of the State Organization Jan. 1 was \$628, but \$375 of this is accounted for by arrears of salary due the State Secretary. The debt of the State Or-ganization has been reduced over \$200 during the last six months. October was the best month financially, with receipts of \$5,125.83, and December the poorest with \$272.05.

Buffalo

Local Buffalo will meet Thursday evening, Jan. 13, at 8 o'clock at the East Side Labor Lyceum Hall, 1644 enesee street, near Montana. State

Secretary Merrill expects to be pres- ] that we need is to make contacts with All members are urged to attend and hear the report of what is going

SATURADY, JANUARY 8, 1927

#### DECAY OF AGRICULTURE

FEW people who live east of the Mississippi River appreciate the economic tragedy which has overwhelmed the farmers in the region lying between that stream and the Rocky Mountains. An article in the Times by Evans Clark on Sunday, January 2, offers a sweeping survey of the wide distress on which rests the boasted "prosperity" of the United States. Clark declares that the farmers cannot make a decent living, cannot dispose of their farms without serious financial loss, and that "farm failures have reached record-breaking levels."

Agriculture is our largest industry, yet it has been running down in spite of increased efficiency in production. Of the available farm area only one-third is under crops and since 1920 there has been an actual decrease of acreage. Up to 1900 the average farmer received an increasing proportion of the national income, but since then it has been the other way. Farmers represent 27 per cent. of the population, but receive little more than 7 per cent. of the nation's income. The average farmer who operated his farm in 1920-1921 worked for nothing, and "for the five-year period of 1920-1925 his return was only 1.7 per cent." For labor and management in this period he received from \$412 to \$804. If we deduct the value of food, fuel and shelter supplied by the farm, he received only \$170 for living expenses. Farm property values have shrunk twenty billions in six years. Farm bankruptcies rose from under 20 annually in the ten years preceding 1920 to between 93 and 123 since then. Debts and mortgages have heavily increased and interest charges have jumped from \$70,000,000 to \$211,000,000 a year. Banks that have come into possession of farms through foreclosures cannot dispose Banks are collapsing. In the two years 433 banks have failed in the Middle Western and Southern States compared with only 18 in the Eastern States, while "the de serted farm has become an accepted part of the American picture."

In short, the economic life in a great region of the United States is decaying. Farm refu-gees are crowding into the cities and towns. armers have fought physical battles with sheriffs vested with power to take the farms. While the capitalism of the East is flushed exhibits the pallor of death in the West. Reliable reports received by The New Leader indicate a desperation in some that have threatened uprisings. Political discontent is widespread. With the Democratic party dying in this region and with ample resources at the command of the Socialist Party a powerful party organization could be established. More's the pity that we educational work.

#### **OUR PARTY DISCUSSION**

PHASE of the discussion appearing in The New Leader which has not been considered by any contributor is the lack of interest by at least 50 per cent. of the qualified voters in any political party. All the newspaper correspondents in the field last year reported that there was no evidence to indicate that the voters in any state believed that there were any issues raised by the two parties of capitalism. Despite this general mood there was no drift toward any radical

party.

John Hays Hammond has just reported to the National Civic Federation that the percentage of non-voting voters in the recent November election shows another decrease. round numbers," he reports, "the vote in 1922 was more than 21,000,000; in 1924 nearly 30,000,000. But, when the percentage of new voters is considered, there is nothing to show for the work of all our organizations in 1926." His comparison, of course, is with the "offof 1922, as presidential elections al-

ways bring out an increased vote.

The decline observed in the comparison between 1922 and 1926 is significant for an important reason. In the year 1926 eleven national organizations, with the co-operation of local Kiwanis and Lions' Clubs, made a special national drive to get out the vote. Hammond admits that the drive was a fail-When organizations with millions of workers, ample funds and unlimited publicity, are unable to prevent a decrease in the percentage of the total vote cast, it is evident that widespread apathy regarding politics prevails. It has been especially evident since the end of the World War.

We submit that this is a factor that has

some bearing on the discussion of party problems. It certainly is a factor that cannot be ignored. For a Socialist Party to retain something of an organization and a vote in the face of this widespread and continuous pessimism has been difficult. That other third party movements have disappeared need not be surprising.

#### SINNERS CLEANSED

NE of the greatest sins a Communist can be guilty of is to form a faction in his party. The second sin on the calendar is to think a thought not formulated for him by the bureaucracy. On the other hand the chief virtue of a Communist is to organize a faction in a trade union and to utterly condemn the trade union that objects to it. Virtue becomes sin and sin becomes virtue, and which is which depends entirely on the decision of the upper oligarchs.

About the most amusing thing in this line is the inquisition which sits in Moscow and summons the sinners before its tribunal. Recently the German press, including the chief daily of the Communists, carried some details of the inquisitory examination of Ruth Fischer for "treason." Her sin was a "devia-tion from Leninism." Lenin has been dead for years, but she was accused of departing from what he thought. Sentence is pronounced. "The highest authority, the Communist International, has spoken; the expulsion is definite." The heretic departs in dis-

Two sinners from Holland appear. They appeal to the tribunal from an expulsion or appeal to the tribunal from an expulsion order. Out they go. Another case is that of
Souvarin of France. Thumbs down for
"sharp criticism" of the policy of reorganization on a "nuclei" basis. Two others from
Germany are in the dock. Mercy is shown
and they are reinstated. They had "correctly renounced their wrong ideas." They
return to the fold cleansed, happy that the
dead Lenin thinks for them. dead Lenin thinks for them.

This isn't a party. It is a medieval religious order. Russia is the holy land, and its rulers the keepers of the faith of the sancti-

#### STANDARDS OF FITNESS

PEAKING at a meeting of the Eugenic Society in London, Professor Ernest W. McBride expressed the fear that civilization is menaced by the reproduction of degenerates. He believes that the propagation of the unfit will continue for a hundred years or more without realizing that civilization is not self-perpetuating, and that it may perish because ot lack of any policy of weeding out the unfit.

The trouble with this view is that there is no agreement as to what is unfit. It is easy enough to agree that the physical and mental defectives belong to the unfit class, but outside this all is confusion. There are those who would include the workman who has become a professional wanderer or tramp, and yet the migratory at one time was considered the most useful citizen. In the nomad stage of the race the wanderer was the respected man, while the man of fixed abode was re-garded as unfit and was destroyed. The useless and wealthy libertine today survives and enjoys all that civilization can afford, while the unskilled worker who insures the libertine from typhoid by removing the garbage

is by many considered unfit and a failure. The trouble with the eugenists is that they often do not take changing standards into account. Gary of the steel trust, with his lust for profits and sanctimonious piety, is accepted today as a type of the fit, yet in the Middle Ages he would be condemned as a usurer and the most unfit to associate with decent human beings. Standards of human worth change and the ruling classes of each age determine the standard. Dollars constitute the American standard, while liberators are regarded as suspects.

An age that no longer tolerates the rule of capital and finance, that administers its powers of wealth production for human welfare, would set up a standard of human values that would accept useful labor and condemn the parasite and idler. We have a long road to travel before this standard is realized.

#### A HOPEFUL SIGN

NE of the most significant surveys of student opinion of war is disclosed in the vote taken in the National Student Conference in Milwaukee. There was practical agreement on the need of greater freedom of opinions upon the college campus which is encouraging, but the vote cast on four proposals regarding war is much more important.

press reports are reliable, the opinions of 1,518 students were canvassed with the following results: On a rising vote 327 men and women declared that they would not support any war; 740 would support some wars and not others; 95 would support any war declared by the proper authorities, while 356 students were non-committal.

The significant thing about this vote is that only 95 students were willing to give unqualified support for any war in which the Juited States may participate. More than three times this number are ranged in op-position to this view. Then 740 students take a middle position, which implies that they do not regard it as their duty to ap-prove any war, but that they owe it to themselves and others to seriously consider any proposed war before deciding what their attitude shall be. This position cannot be reconciled with the old view that it is not for

us to reason why. Considering that this survey of student opinions is taken after the bloodiest war in all history and in the face of intense militarist propaganda in educational institutions, it is a very hopeful sign. The danger in this country has been the development of a race of morons ready to march to the trenches without thinking, and on the assumption that the United States has been, is now, and always will be "right."

acter derivative of morbid frustration.

While Merkouloff was intrinsically callous and cruel, Alexei has cruelty

As Gorki writes in the introduction—the novel "is very Russian; the peo-

contemporaneity of appearance, so uncontemporary in spirit. It is a beau-

motivations of contemporary Russian literature. The agitating tenseness

Its protagonist, Alexei Ivanovitch, is a cross between Oblomov, Rudin, the Baron in "The Three Sisters," and

centric and stresses the strange. Alexel is tortured by the discovery of his wife's infidelity. This torture renders him a regular Russian Ham-let. His life is spent betwirt thoughts of bitter reminiscence and plans of active vengeance. The former, vivified in conversation and intensified by repetition, provide an escape for the latter. Alexei's preparations are singu-

"Beginning early in December re-volver shots were often to be heard cracking in the mountains. Alexei (vanovich placed a two-third two-inch board two meters high at a distance of

Ivanovich placed a two-third two-inch board two meters high at a distance of twenty-five or thirty feet and unloaded all his bullets into it. He traced lines on the board and set up a complicated schedule, into which he inserted the bullets; this one in the head, that one in the chest, another in the thigh stomach or leg—but very soon he tired of this practice shooting.

"The dogs barked anxiously when they first heard the noise, but they got used to it after a while (only one pointer, Grechulevich's dog, came running from the lower villas as soon as he heard the shots, and capered about as long as the shooting lasted). Very soon the colonel was lured into the game as well; he also fixed up a plank beside Alexel Ivanovich's, established himself in front of it according to all the rules of range practice, and fired.

"'A man should always know how to protect himself from insults—isn't that so?' Alexel Ivanovich used to say."

For the second time he is determined to kill Ilja, his wife's lover. Reality, however, inevitably splinters his brav-

owever, inevitably splinters his brav-ry into doubt and irresolution. There is always the argument of "who" and what" and "why." With Pavlik, the frail, God-hating consumptive, Alexei debates the nature of his problem.

"You say: 'My late wife, with whom I lived happily, was unfaithful to me.'
... After ten years? Unfaithful to

ou?"
"Yes—what do you mean by that?
Are you cold?"
"No . . I mean: Who do you ave in mind when you say she was nfaithful to you? That is, to be more lear, to which 'you' was the unfaithful? To the 'you' of which period?
Ten years is a long time; you aid so yourself. ...

id so yourself. . . ."
'But what are 'you' after all?" It is such arguments that constitute the bulk of the novel. They make it an old but arresting study in human character. While decadent in that it is unprogressive in form and unventuresome in substance, part of a dead generation, the novel has a beauty that, is reminiscent and an intensity that is at time vivid and histrionic. Its aloofness from the scene of social revolution can be solved by the arithmetic of biography. During the war Tzensky lived in the Crimea pasturing

#### RABBIT DRESSERS SEEK BETTER WAGE RATES

Fur Workers' Local Union 25, of Newark, N. J., and 58, of Brooklyn, N. Y., seek increases to \$3 for work previously paid at \$1.60 to \$2 on piece rates for dressing rabbit skins. The unions also seek the 40-hour week. The International Fur Workers' Union is aiding negotiations with the Consolidated Fur Dressing Corporation. which practically controls the business. Work is almost suspended in the cor poration shops due to the employers practice of finishing all orders before the contract with the union expires and not taking new orders until the new agreement is reached.

moon is an old rabbi Pointing a silver stylus down Over the shimmering page Of a pond. Earnest lads, The reeds and birches bend And recite in murmuring drone Aleph Beth, baw, Aleph Gimmel, gaw, Aw .... aw .... aw ....

NATURE STUDY Winter is a prayer shawl For the devout hills. The willows in the vales Fringe the taliss With silken tassels Of frost.

#### GEOGRAPHY

The world is round; Night here, day there. . . .
I mumble Krishma, the night prayer, For dreamless sleep. The stars are phylacteries Upon the brow and arm Of all Israel In Europe, in Asia, Now risen with day Morning there, night here. . . . The world must be round

The difficulties of being a business man and a Socialist are legion. The civilization that enmeshes us in its crazy mazes of emotional network today finds a hybrid mammal like ourself in continuous perplexity. One example will perhaps suffice to enlist our readers' sympathy and engulf our mail with friendly solutions.

Yesterday we read with heartening glee how the Soviets have decreed that all servants, or those working in maid or menial capacity, are to be placed at the head of all worthy work in Russia. The highest wages, the greatest comforts, the finest opportunities for self-advancement, and all insurance against unemployment, sickness and death are to be afforded these daughters ad sons of toil. Stringent rules are laid down for enactment. Hurrah! we shout-great, magnificent! Of all the mishmash that has come out of the steppes, this ukase hits the right spot and gives us the merry giggles to the nth degree of enjoyment. At last the outcast underdogs of life, the chimneysweeps, the scullions, the dishwashers, the washboard rubbers, and the rug pounders have come into their royal own. More power to you, old Central Soviet Executive Committee of the U. S. S. R., and if you keep on minding your own affairs in Russia, and setting your own house in ship shape order, you've got a cheer leader right in the ranks of the "bourgeois, yellow, pink, etc., etc., American Socialist movement." For other more graphic de-scription of the American Socialist Party we refer you to the "Daily Worker."

Just as we finish our last jig step and hosanna, in steps the dame of ye columnist and informs him that tomorrow shall we go a-hunting a housemaid among the employment agencies. What with in creased quarters, and the enervating duties of molding the careers of two well-fed future Americans, the care necessary for one undom master, life is none too light on our lady. And since any business man has enough expenses so what might matter a few additional? We shrug our shoulders in the ancient way and agree.

All the way downtown Russia and her glorious at-

Park Avenue carillion in our ears. When we enter the employment agency, sound and music die away, We are confronted with an up-to-date slave market. All the time our spouse is interviewing one and another of the maids, we listen in a daze. "Fifty dollars a month, without cooking or wash, or sixty-five with. . . . "How many in the family?" Four, no bables, both boys going to school. . . " "Six rooms bables, both boys going to school. . ." "Six rooms and a sun-parlor, parquet floors, no washing them." .

The conversation between the wife and the prospective maid dies out as our eyes turn upon an old woman, apparently of fine antecedents as to training and former life, at least sixty-five, "somebody's mother." as the Tenderloin song writers would call her. She is being interviewed by a crass, overdressed, underslung matron, apparently one of the newly arrived West End Avenue well-to-doers. Only waiting on table at luncheon and dinner a few nights a week...bridge parties...a little late

...very little cleaning in the morning...shopping..."
"Somebody's mother" fills our eyes with moisture
as we seek to read the half-whispered, half-mumbled replies that agitated her bloodless line and twist her pale drawn face into tell-tale grimaces of nward humiliation and confusion. Come, Andreyev, tell us the old lady's story. Behind a drawn curtain occasional slit glimpses

tell us that there the employment agency carries its stock of human merchandise. Every now and then an obsequious little man comes out with a girl or a woman to a prospective employer or mistress. A thousand bitter thoughts spring up within. All the old story of labor and slavery, all the tenets of our social philosophy become blazing flambeaux, and again we lead the sans-culottes and the grime of earth over barricades into the palaces of the oppress-

"Come, dear. I'm afraid we won't be able to afford maid out of this place. Strange, a few years ago we could hire one to do everything for half the oney. They now ask to do one-quarter the work." "Sad, indeed, but gloriously true," we intend to rejoin, but we merely suggest quite dublously, "supe we advertise. I'll put an ad in the Bronx papers

It seems that here in our own un-Sovietized oligarchy the servants and the lower cast of toil have made regulations unto themselves that quite match up with the newly imposed regulations of the Russian. Eighty to one hundred dollars a month with all board, found and leisure are the stipulated range of pay and treatment; separate quarters, and, above all, an indulgent mistress-or no hire. Hurrah! we say again, and with the same breath, the comfortloving business man of, alas! not too unlimited in-"Who can afford it?" Here is a tale proletarian woe we ask anyone of "Zero's" battalion or the Salvation Army to match in genuine pathos. As the great Russian Chernichefsky once remarked, and then wrote a whole book discussing it, "What's to be done?"

We are never averse to a scrap. The ghetto sidewalks and alleys of our youth engraved that inpression on us. And no scrap is more exciting to watch than that between two wielders of the pen. The poem we allowed to appear above, while it trans es all the vague rules of even free verse, has a p in it. We printed H. L. M. last week on a certain K. H. We knew that some brotherly or sisterly emotions had gone askew when that blast saw the shadow of ink. Sure enough, Miss Pagan, or K. H., just turned around this week and jousted back with a mean if rough-hewn lance. And this, fellow readers, is no faked-up baseball scandal to revive interest in a dying game. Take it straight, it has all the genuine marks of unadorned and savage

How the cauldrons under Parnassus must be sim mering with imminent cruption! There certainly will be more, or H. L. M. is not the invulnerable one we imagine him to be from his

S. A. de Witt.
